Mr. EHLERS. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous material on the subject of House Resolution 309, the resolution just agreed to.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Michigan?

There was no objection.

CONVEYANCE OF PROPERTY IN TRAVERSE CITY, MICHIGAN

Mr. LATOURETTE. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3370) to amend the Coast Guard Authorization Act of 1996 to modify the reversionary interest of the United States in a parcel of property conveyed to the Traverse City Area School District in Traverse City, Michigan.

The Clerk read as follows:

H.R. 3370

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. CONVEYANCE OF PROPERTY IN TRAVERSE CITY, MICHIGAN.

Section 1005(c) of the Coast Guard Authorization Act of 1996 (110 Stat. 3957) is amended by striking "the Traverse City Area Public School District" and inserting "a public or private nonprofit entity for an educational or recreational purpose".

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Ohio (Mr. LATOURETTE) and the gentleman from Tennessee (Mr. CLEMENT) each will control 20 minutes.

The Chair recognizes the gentleman from Ohio (Mr. LATOURETTE).

Mr. LATOURETTE. Mr. Speaker, I yield myself such time as I may consume.

Initially, I want to thank two fine Members that we will hear from later, the gentleman from Michigan (Mr. CAMP) and the gentleman from Michigan (Mr. STUPAK), for bringing this matter to our attention.

Mr. Speaker, H.R. 3370 is a bill that allows certain property conveyed to the Traverse City Public Schools in Traverse City, Michigan, to be used by a public or private nonprofit entity for an educational or recreational purpose.

Under the 1996 language that transferred the property to the Traverse City School District, the property reverts to the Federal Government if it is not used by the school district. The local YMCA has developed a plan to improve the property and construct a three-pool swimming facility on part of the property. The school district would then use the new fields and facility and the Coast Guard will be able to use the pool for winter training and rescue swimmers.

Without the amendments made by H.R. 3370, this worthwhile project would not be able to proceed. For this reason, I urge all of my colleagues to support this legislation.

Mr. Speaker, I reserve the balance of my time.

GENERAL LEAVE

Mr. CLEMENT. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and insert extraneous material on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Tennessee?

There was no objection.

Mr. CLEMENT. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I might say to my colleagues, I know the Speaker referred to the gentleman from Ohio (Mr. LATOURETTE) as being from Tennessee, and he would have been a good Tennessean. We would sure have accepted him. He is an outstanding Member of the House, and I am proud to be able to call him a friend.

Mr. Speaker, I rise in support of H.R. 3370, a bill to clarify the revisionary interests of the United States Government and property conveyed to the Traverse City School District.

The Coast Guard Authorization Act of 1996 provided for Coast Guard real property in Traverse City, Michigan, to be conveyed to the Traverse City School District. The school district has used the property for soccer fields for

their youth. However, the revisionary clause in that act required the property to be used exclusively for educational purposes. Now the school district would like to enter into a joint venture with the YMCA for additional athletic facilities for the students and community.

Under the joint venture, the school district will provide the land, and the YMCA will provide the building. The school district will be able to use the indoor pool and other athletic facilities in the building for their school activities at no cost, and other members of the community will also be able to join the YMCA and use the facilities.

Mr. Speaker, I believe this bill will help the community of Traverse City. I would like to commend the gentleman from Michigan (Mr. STUPAK) for his efforts on their behalf. I urge my colleagues to support passage of H.R. 3370.

Mr. Speaker, I yield 3 minutes to the gentleman from Michigan (Mr. STUPAK), a fine gentleman and a real fighter and street fighter in the House of Representatives.

Mr. STUPAK. Mr. Speaker, I thank the gentleman for yielding me time.

Mr. Speaker, first let me thank the gentleman from Michigan (Mr. CAMP) for coauthoring this legislation with me and moving this bill along. He is on the floor here tonight and I am sure he will have some remarks, along with his son Andrew. Maybe we should let Andrew have his remarks on record, because at least he would be able to tell us the value of these soccer fields.

Mr. Speaker, back in 1996 we moved this land from the Coast Guard to Traverse City Area Public Schools to be used for soccer fields. It has been a great success. But as those soccer fields have been used more and more by over 3,000 students in the Traverse City area, we saw great potential in this property. By bringing the YMCA to build a new facility, which they need to do, by bringing the YMCA in, everybody will benefit even further, not only the school district, but the community as a whole, because they are going to put in three different swimming pools, plus all the other activities that the YMCA offers. The Coast Guard will be using the pool for training, for rescue, water rescues along the Great Lakes, as they do constantly.

So it is just a great situation for everyone. The community wins, the school system wins, the Coast Guard wins, the Federal Government benefits, we all benefit. We just have to change this reverter clause so that it can be used not only for the school, but also for the YMCA and for the benefit of the community.

Mr. Speaker, I ask all of my colleagues to support and vote "yes" on H.R. 3370. I thank the gentleman for yielding me time. I want to thank the leadership and the gentleman from Tennessee (Mr. CLEMENT), the gen-

tleman from Ohio (Mr. LATOURETTE), and the Committee on Transportation and Infrastructure for moving this bill so quickly on the request of myself and the gentleman from Michigan (Mr. CAMP).

Mr. LATOURETTE. Mr. Speaker, it is my pleasure to yield such time as he might consume to the gentleman from Michigan (Mr. CAMP), one of the authors of this fine piece of legislation.

Mr. CAMP. Mr. Speaker, I thank the gentleman for yielding me this time.

I rise with the gentleman from Michigan (Mr. STUPAK) on behalf of this legislation. This will bring big benefits to the residents of the Traverse City, Michigan, area. This makes a technical change in existing law to allow the Traverse City area school district to transfer a parcel of property to the local YMCA, as the gentleman mentioned, for recreational purposes. This is going to be a big benefit, as I mentioned, because this will allow the construction of a swimming pool, a gymnasium, tennis courts, soccer fields, and will be a real help to the sports teams and other residents and students, physical education classes.

They are also going to begin construction on a new alternative education facility that will be used by nearly 200 students. So this new school will enable Traverse City area students to attend a school that will actually have programs tailored to their needs.

The Coast Guard will be able to continue to use and practice lifesaving techniques, rescue and recovery missions in the new YMCA pool.

So I am pleased to support this bill, which was introduced by my colleague which will make a positive difference in the lives of so many residents in Michigan, especially younger residents. I appreciate the gentleman's work, and support of the members of the Michigan congressional delegation. I want to thank the gentleman from Alaska (Mr. YOUNG) and the gentleman from Ohio (Mr. LATOURETTE) for their support in bringing this bill to the floor; and also I thank our leadership, the gentleman from Texas (Mr. ARMEY), the majority leader, who allowed this bill to come on the suspension calendar.

With that, Mr. Speaker, I urge support for this bill.

Mr. CLEMENT. Mr. Speaker, I have no other speakers, and I yield back the balance of my time.

Mr. LATOURETTE. Mr. Speaker, I yield myself the balance of my time just to indicate to the gentleman from Tennessee that I very much appreciate his kind remarks. He has been someone that I have looked up to in the 7 years that I have been in Congress, and I would be remiss if I did not make mention of the fact that he apparently has used his weekend wisely and he is sporting a new hairdo and is even more dapper than he was last week.

Mr. Speaker, I urge passage of the bill, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Ohio (Mr. LATOURETTE) that the House suspend the rules and pass the bill, H.R. 3370.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

21ST CENTURY MONTGOMERY GI BILL ENHANCEMENT ACT AMENDMENTS

Mr. SMITH of New Jersey. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 310) providing for the concurrence by the House with an amendment in the amendments of the Senate to H.R. 1291.

The Clerk read as follows:

H. RES. 310

Resolved, That, upon the adoption of this resolution, the House shall be considered to have taken from the Speaker's table the bill H.R. 1291, with the Senate amendments thereto, and to have concurred in the Senate amendment to the title of the bill and to have concurred in the Senate amendment to the text of the bill with the following amendment:

In lieu of the matter proposed to be inserted by the amendment of the Senate to the text of the bill, insert the following:

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) **SHORT TITLE.**—This Act may be cited as the "Veterans Education and Benefits Expansion Act of 2001".

(b) **TABLE OF CONTENTS.**—The table of contents of this Act is as follows:

Sec. 1. Short title; table of contents.

Sec. 2. References to title 38, United States Code.

TITLE I—EDUCATIONAL ASSISTANCE PROVISIONS

Sec. 101. Increase in rates of basic educational assistance under Montgomery GI Bill.

Sec. 102. Increase in rates of survivors' and dependents' educational assistance.

Sec. 103. Restoration of certain education benefits of individuals being ordered to active duty.

Sec. 104. Accelerated payments of educational assistance under Montgomery GI Bill for education leading to employment in high technology industry.

Sec. 105. Eligibility for Montgomery GI Bill benefits of certain additional Vietnam era veterans.

Sec. 106. Increase in maximum allowable annual Senior ROTC educational assistance for eligibility for benefits under the Montgomery GI Bill.

Sec. 107. Expansion of work-study opportunities.

Sec. 108. Eligibility for survivors' and dependents' educational assistance of spouses and surviving spouses of veterans with total service-connected disabilities.

Sec. 109. Expansion of special restorative training benefit to certain disabled spouses or surviving spouses.

Sec. 110. Inclusion of certain private technology entities in definition of educational institution.

Sec. 111. Distance education.

TITLE II—COMPENSATION AND PENSION PROVISIONS

Sec. 201. Modification and extension of authorities on presumption of service-connection for herbicide-related disabilities of Vietnam veterans.

Sec. 202. Payment of compensation for Persian Gulf War veterans with certain chronic disabilities.

Sec. 203. Preservation of service connection for undiagnosed illnesses to provide for participation in research projects by Persian Gulf War veterans.

Sec. 204. Repeal of limitation on payments of benefits to incompetent institutionalized veterans.

Sec. 205. Extension of round-down requirement for compensation cost-of-living adjustments.

Sec. 206. Expansion of presumptions of permanent and total disability for veterans applying for non-service-connected pension.

Sec. 207. Eligibility of veterans 65 years of age or older for veterans' pension benefits.

TITLE III—TRANSITION AND OUTREACH PROVISIONS

Sec. 301. Authority to establish overseas veterans assistance offices to expand transition assistance.

Sec. 302. Timing of preseparation counseling.

Sec. 303. Improvement in education and training outreach services for separating servicemembers and veterans.

Sec. 304. Improvement of veterans outreach programs.

TITLE IV—HOUSING MATTERS

Sec. 401. Increase in home loan guaranty amount for construction and purchase of homes.

Sec. 402. Native American veteran housing loan pilot program.

Sec. 403. Modification of loan assumption notice requirement.

Sec. 404. Increase in assistance amount for specially adapted housing.

Sec. 405. Extension of other housing authorities.

Sec. 406. Clarifying amendment relating to eligibility of members of the Selected Reserve for housing loans.

TITLE V—OTHER MATTERS

Sec. 501. Increase in burial benefits.

Sec. 502. Government markers for marked graves at private cemeteries.

Sec. 503. Increase in amount of assistance for automobile and adaptive equipment for certain disabled veterans.

Sec. 504. Extension of limitation on pension for certain recipients of medicaid-covered nursing home care.

Sec. 505. Prohibition on provision of certain benefits with respect to persons who are fugitive felons.

Sec. 506. Limitation on payment of compensation for veterans remaining incarcerated since October 7, 1980.

Sec. 507. Elimination of requirement for providing a copy of notice of appeal to the Secretary of Veterans Affairs.

Sec. 508. Increase in fiscal year limitation on number of veterans in programs of independent living services and assistance.

Sec. 509. Technical and clerical amendments.

TITLE VI—UNITED STATES COURT OF APPEALS FOR VETERANS CLAIMS

Sec. 601. Facilitation of staggered terms of judges through temporary expansion of the Court.

Sec. 602. Repeal of requirement for written notice regarding acceptance of reappointment as condition to retirement from the Court.

Sec. 603. Termination of notice of disagreement as jurisdictional requirement for the Court.

Sec. 604. Registration fees.

Sec. 605. Administrative authorities.

SEC. 2. REFERENCES TO TITLE 38, UNITED STATES CODE.

Except as otherwise expressly provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of title 38, United States Code.

TITLE I—EDUCATIONAL ASSISTANCE PROVISIONS

SEC. 101. INCREASE IN RATES OF BASIC EDUCATIONAL ASSISTANCE UNDER MONTGOMERY GI BILL.

(a) IN GENERAL.—(1) Paragraph (1) of section 3015(a) is amended to read as follows:

“(1) for an approved program of education pursued on a full-time basis, at the monthly rate of—

“(A) for months beginning on or after January 1, 2002, \$800;

“(B) for months occurring during fiscal year 2003, \$900;

“(C) for months occurring during fiscal year 2004, \$985; and

“(D) for months occurring during a subsequent fiscal year, the amount for months occurring during the previous fiscal year increased under subsection (h); or”.

(2) Paragraph (1) of section 3015(b) is amended to read as follows:

“(1) for an approved program of education pursued on a full-time basis, at the monthly rate of—

“(A) for months beginning on or after January 1, 2002, \$650;

“(B) for months occurring during fiscal year 2003, \$732;

“(C) for months occurring during fiscal year 2004, \$800; and

“(D) for months occurring during a subsequent fiscal year, the amount for months occurring during the previous fiscal year increased under subsection (h); or”.

(b) CPI ADJUSTMENT.—No adjustment in rates of educational assistance shall be made under section 3015(h) of title 38, United States Code, for fiscal years 2003 and 2004.

SEC. 102. INCREASE IN RATES OF SURVIVORS' AND DEPENDENTS' EDUCATIONAL ASSISTANCE.

(a) SURVIVORS' AND DEPENDENTS' EDUCATIONAL ASSISTANCE.—Section 3532 is amended—

(1) in subsection (a)(1)—

(A) by striking “\$588” and inserting “\$670”;

(B) by striking “\$441” and inserting “\$503”;

and

(C) by striking “\$294” and inserting “\$335”;

(2) in subsection (a)(2), by striking “\$588” and inserting “\$670”;

(3) in subsection (b), by striking “\$588” and inserting “\$670”; and

(4) in subsection (c)(2)—

(A) by striking “\$475” and inserting “\$541”;

(B) by striking “\$356” and inserting “\$406”;

and

(C) by striking “\$238” and inserting “\$271”.

(b) CORRESPONDENCE COURSES.—Section 3534(b) is amended by striking “\$588” and inserting “\$670”.

(c) SPECIAL RESTORATIVE TRAINING.—Section 3542(a) is amended—

(1) by striking “\$588” and inserting “\$670”;

and

(2) by striking “\$184” each place it appears and inserting “\$210”.

(d) APPRENTICESHIP TRAINING.—Section 3687(b)(2) is amended—

(1) by striking “\$428” and inserting “\$488”;

(2) by striking “\$320” and inserting “\$365”;

(3) by striking “\$212” and inserting “\$242”;

and

(4) by striking “\$107” and inserting “\$122”.

(e) EFFECTIVE DATE.—The amendments made by this section shall take effect as of January 1, 2002, and shall apply with respect to educational assistance allowances payable under chapter 35 and section 3687(b)(2) of title 38, United States Code, for months beginning on or after that date.

SEC. 103. RESTORATION OF CERTAIN EDUCATION BENEFITS OF INDIVIDUALS BEING ORDERED TO ACTIVE DUTY.

(a) IN GENERAL.—Sections 3013(f)(2)(A), 3231(a)(5)(B)(i), and 3511(a)(2)(B)(i) are each amended by striking “, in connection with the Persian Gulf War, to serve on active duty under section 672 (a), (d), or (g), 673, 673b, or 688 of title 10;” and inserting “to serve on active duty under section 688, 12301(a), 12301(d), 12301(g), 12302, or 12304 of title 10;”.

(b) INCREASE IN CHAPTER 35 DELIMITING PERIOD.—Section 3512 is amended by adding at the end the following new subsection:

“(h) Notwithstanding any other provision of this section, if an eligible person, during the delimiting period otherwise applicable to such person under this section, serves on active duty pursuant to an order to active duty issued under section 688, 12301(a), 12301(d), 12301(g), 12302, or 12304 of title 10, such person shall be granted an extension of such delimiting period for the length of time equal to the period of such active duty plus four months.”.

(c) APPLICATION TO CHAPTER 31.—(1) Section 3105 is amended by adding at the end the following new subsection:

“(e)(1) Notwithstanding any other provision of this chapter or chapter 36 of this title, any payment of a subsistence allowance and other assistance described in paragraph (2) shall not—

“(A) be charged against any entitlement of any veteran under this chapter; or

“(B) be counted toward the aggregate period for which section 3695 of this title limits an individual's receipt of allowance or assistance.

“(2) The payment of the subsistence allowance and other assistance referred to in paragraph (1) is the payment of such an allowance or assistance for the period described in paragraph (3) to a veteran for participation in a vocational rehabilitation program under this chapter if the Secretary finds that the veteran had to suspend or discontinue participation in such vocational rehabilitation program as a result of being ordered to serve on active duty under section 688, 12301(a), 12301(d), 12301(g), 12302, or 12304 of title 10.

“(3) The period for which, by reason of this subsection, a subsistence allowance and other assistance is not charged against entitlement or counted toward the applicable aggregate period under section 3695 of this title

shall be the period of participation in the vocational rehabilitation program for which the veteran failed to receive credit or with respect to which the veteran lost training time, as determined by the Secretary.”

(2) Section 3103 is amended by adding at the end the following new subsection:

“(e) In any case in which the Secretary has determined that a veteran was prevented from participating in a vocational rehabilitation program under this chapter within the period of eligibility otherwise prescribed in this section as a result of being ordered to serve on active duty under section 688, 12301(a), 12301(d), 12301(g), 12302, or 12304 of title 10, such period of eligibility shall not run for the period of such active duty service plus four months.

(d) CONFORMING AMENDMENTS.—Sections 3013(f)(2)(B) and 3231(a)(5)(B)(ii) of such title are each amended by striking “, in connection with such War;”

(e) EFFECTIVE DATE.—The amendments made by this section shall take effect as of September 11, 2001.

SEC. 104. ACCELERATED PAYMENTS OF EDUCATIONAL ASSISTANCE UNDER MONTGOMERY GI BILL FOR EDUCATION LEADING TO EMPLOYMENT IN HIGH TECHNOLOGY INDUSTRY.

(a) IN GENERAL.—(1) Chapter 30 is amended by inserting after section 3014 the following new section:

“§3014A. Accelerated payment of basic educational assistance for education leading to employment in high technology industry

“(a) An individual described in subsection (b) who is entitled to basic educational assistance under this subchapter may elect to receive an accelerated payment of the basic educational assistance allowance otherwise payable to the individual under section 3015 of this title.

“(b) An individual described in this subsection is an individual who is—

“(1) enrolled in an approved program of education that leads to employment in a high technology industry (as determined pursuant to regulations prescribed by the Secretary); and

“(2) charged tuition and fees for the program of education that, when divided by the number of months (and fractions thereof) in the enrollment period, exceeds the amount equal to 200 percent of the monthly rate of basic educational assistance allowance otherwise payable to the individual under section 3015 of this title.

“(c)(1) The amount of the accelerated payment of basic educational assistance made to an individual making an election under subsection (a) for a program of education shall be the lesser of—

“(A) the amount equal to 60 percent of the established charges for the program of education; or

“(B) the aggregate amount of basic educational assistance to which the individual remains entitled under this chapter at the time of the payment.

“(2) In this subsection, the term ‘established charges’, in the case of a program of education, means the actual charges (as determined pursuant to regulations prescribed by the Secretary) for tuition and fees which similarly circumstanced nonveterans enrolled in the program of education would be required to pay. Established charges shall be determined on the following basis:

“(A) In the case of an individual enrolled in a program of education offered on a term, quarter, or semester basis, the tuition and fees charged the individual for the term, quarter, or semester.

“(B) In the case of an individual enrolled in a program of education not offered on a term, quarter, or semester basis, the tuition and fees charged the individual for the entire program of education.

“(3) The educational institution providing the program of education for which an accelerated payment of basic educational assistance allowance is elected by an individual under subsection (a) shall certify to the Secretary the amount of the established charges for the program of education.

“(d) An accelerated payment of basic educational assistance made to an individual under this section for a program of education shall be made not later than the last day of the month immediately following the month in which the Secretary receives a certification from the educational institution regarding—

“(1) the individual’s enrollment in and pursuit of the program of education; and

“(2) the amount of the established charges for the program of education.

“(e)(1) Except as provided in paragraph (2), for each accelerated payment of basic educational assistance made to an individual under this section, the individual’s entitlement to basic educational assistance under this chapter shall be charged the number of months (and any fraction thereof) determined by dividing the amount of the accelerated payment by the full-time monthly rate of basic educational assistance allowance otherwise payable to the individual under section 3015 of this title as of the beginning date of the enrollment period for the program of education for which the accelerated payment is made.

“(2) If the monthly rate of basic educational assistance allowance otherwise payable to an individual under section 3015 of this title increases during the enrollment period of a program of education for which an accelerated payment of basic educational assistance is made under this section, the charge to the individual’s entitlement to basic educational assistance under this chapter shall be determined by prorating the entitlement chargeable, in the matter provided for under paragraph (1), for the periods covered by the initial rate and increased rate, respectively, in accordance with regulations prescribed by the Secretary.

“(f) The Secretary may not make an accelerated payment under this section for a program of education to an individual who has received an advance payment under section 3680(d) of this title for the same enrollment period.

“(g) The Secretary shall prescribe regulations to carry out this section. The regulations shall include requirements, conditions, and methods for the request, issuance, delivery, certification of receipt and use, and recovery of overpayment of an accelerated payment under this section.”

(2) The table of sections at the beginning of that chapter is amended by inserting after the item relating to section 3014 the following new item:

“3014A. Accelerated payment of basic educational assistance for education leading to employment in high technology industry.”

(b) RESTATEMENT AND ENHANCEMENT OF CERTAIN ADMINISTRATIVE AUTHORITIES.—Subsection (g) of section 3680 is amended to read as follows:

“Determination of Enrollment, Pursuit, and Attendance

“(g)(1) The Secretary may, pursuant to regulations which the Secretary shall prescribe, determine and define with respect to

an eligible veteran and eligible person the following:

“(A) Enrollment in a course or program of education or training.

“(B) Pursuit of a course or program of education or training.

“(C) Attendance at a course or program of education or training.

“(2) The Secretary may withhold payment of benefits to an eligible veteran or eligible person until the Secretary receives such proof as the Secretary may require of enrollment in and satisfactory pursuit of a program of education by the eligible veteran or eligible person. The Secretary shall adjust the payment withheld, when necessary, on the basis of the proof the Secretary receives.

“(3) In the case of an individual other than an individual described in paragraph (4), the Secretary may accept the individual’s monthly certification of enrollment in and satisfactory pursuit of a program of education as sufficient proof of the certified matters.

“(4) In the case of an individual who has received an accelerated payment of basic educational assistance under section 3014A of this title during an enrollment period for a program of education, the Secretary may accept the individual’s certification of enrollment in and satisfactory pursuit of the program of education as sufficient proof of the certified matters if the certification is submitted after the enrollment period has ended.”

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect October 1, 2002, and shall apply with respect to enrollments in courses or programs of education or training beginning on or after that date.

SEC. 105. ELIGIBILITY FOR MONTGOMERY GI BILL BENEFITS OF CERTAIN ADDITIONAL VIETNAM ERA VETERANS.

(a) ACTIVE DUTY PROGRAM.—Section 3011(a)(1) is amended—

(1) by striking “or” at the end of subparagraph (A);

(2) by adding “or” at the end of subparagraph (B); and

(3) by adding at the end the following new subparagraph:

“(C) as of December 31, 1989, was eligible for educational assistance benefits under chapter 34 of this title and—

“(i) was not on active duty on October 19, 1984;

“(ii) reenlists or reenters on a period of active duty on or after October 19, 1984; and

“(iii) on or after July 1, 1985, either—

“(I) serves at least three years of continuous active duty in the Armed Forces; or

“(II) is discharged or released from active duty (aa) for a service-connected disability, for a medical condition which preexisted such service on active duty and which the Secretary determines is not service connected, for hardship, or for a physical or mental condition that was not characterized as a disability, as described in subparagraph (A)(ii)(I) of this paragraph, (bb) for the convenience of the Government, if the individual completed not less than 30 months of continuous active duty after that date, or (cc) involuntarily for the convenience of the Government as a result of a reduction in force, as determined by the Secretary of the military department concerned in accordance with regulations prescribed by the Secretary of Defense or by the Secretary of Transportation with respect to the Coast Guard when it is not operating as a service in the Navy.”

(b) SELECTED RESERVE PROGRAM.—Section 3012(a)(1) is amended—

(1) by striking "or" at the end of subparagraph (A);

(2) by adding "or" at the end of subparagraph (B); and

(3) by adding at the end the following new subparagraph:

"(C) as of December 31, 1989, was eligible for educational assistance under chapter 34 of this title and—

"(i) was not on active duty on October 19, 1984;

"(ii) reenlists or reenters on a period of active duty on or after October 19, 1984; and

"(iii) on or after July 1, 1985—

"(I) serves at least two years of continuous active duty in the Armed Forces, subject to subsection (b) of this section, characterized by the Secretary concerned as honorable service; and

"(II) subject to subsection (b) of this section and beginning within one year after completion of such two years of service, serves at least four continuous years in the Selected Reserve during which the individual participates satisfactorily in training as prescribed by the Secretary concerned;"

(c) TIME FOR USE OF ENTITLEMENT.—Section 3031 is amended—

(1) in subsection (a)—

(A) by striking "and" at the end of paragraph (1);

(B) by striking the period at the end of paragraph (2) and inserting "; and"; and

(C) by adding at the end the following new paragraph:

"(3) in the case of an individual who becomes entitled to such assistance under section 3011(a)(1)(C) or 3012(a)(1)(C) of this title, on the date of the enactment of this paragraph;" and

(2) in subsection (e)(1), by striking "section 3011(a)(1)(B) or 3012(a)(1)(B)" and inserting "section 3011(a)(1)(B), 3011(a)(1)(C), 3012(a)(1)(B), or 3012(a)(1)(C)".

SEC. 106. INCREASE IN MAXIMUM ALLOWABLE ANNUAL SENIOR ROTC EDUCATIONAL ASSISTANCE FOR ELIGIBILITY FOR BENEFITS UNDER THE MONTGOMERY GI BILL.

(a) IN GENERAL.—Sections 3011(c)(3)(B) and 3012(d)(3)(B) are each amended by striking "\$2,000" and inserting "\$3,400".

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall apply with respect to educational assistance allowances paid under chapter 30 of title 38, United States Code, for months beginning after the date of the enactment of this Act.

SEC. 107. EXPANSION OF WORK-STUDY OPPORTUNITIES.

(a) FIVE-YEAR EXPANSION OF QUALIFYING WORK-STUDY ACTIVITIES.—Subsection (a) of section 3485 is amended to read as follows:

"(a)(1) Individuals utilized under the authority of subsection (b) shall be paid an additional educational assistance allowance (hereinafter in this section referred to as 'work-study allowance'). Such allowance shall be paid in return for an individual's entering into an agreement described in paragraph (3).

"(2) Such work-study allowance shall be paid in an amount equal to the product of—

"(A) the applicable hourly minimum wage; and

"(B) the number of hours worked during the applicable period.

"(3) An agreement described in this paragraph is an agreement of an individual to perform services, during or between periods of enrollment, aggregating not more than a number of hours equal to 25 times the number of weeks in the semester or other applicable enrollment period, required in connection with a qualifying work-study activity.

"(4) For the purposes of this section, the term 'qualifying work-study activity' means any of the following:

"(A) The outreach services program under subchapter II of chapter 77 of this title as carried out under the supervision of a Department employee or, during the five-year period beginning on the date of the enactment of the Veterans Education and Benefits Expansion Act of 2001, outreach services to servicemembers and veterans furnished by employees of a State approving agency.

"(B) The preparation and processing of necessary papers and other documents at educational institutions or regional offices or facilities of the Department.

"(C) The provision of hospital and domiciliary care and medical treatment under chapter 17 of this title, including, during the five-year period beginning on the date of the enactment of the Veterans Education and Benefits Expansion Act of 2001, the provision of such care to veterans in a State home for which payment is made under section 1741 of this title.

"(D) Any other activity of the Department as the Secretary determines appropriate.

"(E) In the case of an individual who is receiving educational assistance under chapter 1606 of title 10, an activity relating to the administration of that chapter at Department of Defense, Coast Guard, or National Guard facilities.

"(F) During the five-year period beginning on the date of the enactment of the Veterans Education and Benefits Expansion Act of 2001, an activity relating to the administration of a national cemetery or a State veterans' cemetery.

"(5) An individual may elect, in a manner prescribed by the Secretary, to be paid in advance an amount equal to 40 percent of the total amount of the work-study allowance agreed to be paid under the agreement in return for the individual's agreement to perform the number of hours of work specified in the agreement (but not more than an amount equal to 50 times the applicable hourly minimum wage).

"(6) For the purposes of this subsection and subsection (e), the term 'applicable hourly minimum wages' means—

"(A) the hourly minimum wage under section 6(a) of the Fair Labor Standards Act of 1938 (29 U.S.C. 206(a)); or

"(B) the hourly minimum wage under comparable law of the State in which the services are to be performed, if such wage is higher than the wage referred to in subparagraph (A) and the Secretary has made a determination to pay such higher wage."

(b) EFFECTIVE DATE.—The amendment made by this section shall apply with respect to agreements entered into under section 3485 of title 38, United States Code, on or after the date of the enactment of this Act.

SEC. 108. ELIGIBILITY FOR SURVIVORS' AND DEPENDENTS' EDUCATIONAL ASSISTANCE OF SPOUSES AND SURVIVING SPOUSES OF VETERANS WITH TOTAL SERVICE-CONNECTED DISABILITIES.

(a) DESIGNATION OF ELIGIBILITY.—Section 3501(a)(1)(D) is amended—

(1) by inserting "(i)" after "(D)"; and

(2) by inserting "(ii)" after "or".

(b) RESTATEMENT AND EXPANSION OF TREATMENT OF USE OF ELIGIBILITY.—(1) Section 3511 is amended by adding at the end the following new subsection:

"(c) Any entitlement used by an eligible person as a result of eligibility under section 3501(a)(1)(A)(iii), 3501(a)(1)(C), or 3501(a)(1)(D)(i) of this title shall be deducted from any entitlement to which such person may subsequently be entitled under this chapter."

(2) Section 3512 is amended by striking subsection (g).

(c) DELIMITING PERIOD.—(1) Section 3511(a)(1) is amended by adding at the end the following new sentence: "In no event may the aggregate educational assistance afforded to a spouse made eligible under both 3501(a)(1)(D)(i) and 3501(a)(1)(D)(ii) of this title exceed 45 months."

(2) Paragraph (1) of section 3512(b) is amended to read as follows:

"(1)(A) Except as provided in subparagraph (B), a person made eligible by subparagraph (B) or (D) of section 3501(a)(1) of this title may be afforded educational assistance under this chapter during the 10-year period beginning on the date (as determined by the Secretary) the person becomes an eligible person within the meaning of section 3501(a)(1)(B), 3501(a)(1)(D)(i), or 3501(a)(1)(D)(ii) of this title. In the case of a surviving spouse made eligible by clause (ii) of section 3501(a)(1)(D) of this title, the 10-year period may not be reduced by any earlier period during which the person was eligible for educational assistance under this chapter as a spouse made eligible by clause (i) of that section.

"(B) Notwithstanding subparagraph (A), an eligible person referred to in that subparagraph may, subject to the Secretary's approval, elect a later beginning date for the 10-year period than would otherwise be applicable to the person under that subparagraph. The beginning date so elected may be any date between the beginning date determined for the person under subparagraph (A) and whichever of the following dates applies:

"(i) The date on which the Secretary notifies the veteran from whom eligibility is derived that the veteran has a service-connected total disability permanent in nature.

"(ii) The date on which the Secretary determines that the veteran from whom eligibility is derived died of a service-connected disability."

(3) Section 3512(b) is further amended by striking paragraph (3).

(4) The amendments made by this subsection shall apply with respect to any determination (whether administrative or judicial) of the eligibility of a spouse or surviving spouse for educational assistance under chapter 35 of title 38, United States Code, made on or after the date of the enactment of this Act, whether pursuant to an original claim for such assistance or pursuant to a reapplication or attempt to reopen or readjudicate a claim for such assistance.

SEC. 109. EXPANSION OF SPECIAL RESTORATIVE TRAINING BENEFIT TO CERTAIN DISABLED SPOUSES OR SURVIVING SPOUSES.

(a) IN GENERAL.—Section 3540 is amended by striking "section 3501(a)(1)(A) of this title" and inserting "subparagraphs (A), (B), and (D) of section 3501(a)(1) of this title".

(b) CONFORMING AMENDMENTS.—(1) Section 3541(a) is amended in the matter preceding paragraph (1) by striking "of the parent or guardian".

(2) Section 3542(a) is amended—

(A) by striking "the parent or guardian shall be entitled to receive on behalf of such person" and inserting "the eligible person shall be entitled to receive"; and

(B) by striking "upon election by the parent or guardian of the eligible person" and inserting "upon election by the eligible person".

(3) The second sentence of section 3543(a) is amended by striking "the parent or guardian for the training provided to an eligible person" and inserting "for the training provided to the eligible person".

(4) Section 3543 is amended by adding at the end the following new subsection:

“(c) In a case in which the Secretary authorizes training under section 3541(a) of this title on behalf of an eligible person, the parent or guardian shall be entitled—

“(1) to receive on behalf of the eligible person the special training allowance provided for under section 3542(a) of this title;

“(2) to elect an increase in the basic monthly allowance provided for under such section; and

“(3) to agree with the Secretary on the fair and reasonable amounts which may be charged under subsection (a).”.

SEC. 110. INCLUSION OF CERTAIN PRIVATE TECHNOLOGY ENTITIES IN DEFINITION OF EDUCATIONAL INSTITUTION.

(a) IN GENERAL.—Sections 3452(c) and 3501(a)(6) are each amended by adding at the end the following new sentence: “Such term also includes any private entity (that meets such requirements as the Secretary may establish) that offers, either directly or under an agreement with another entity (that meets such requirements), a course or courses to fulfill requirements for the attainment of a license or certificate generally recognized as necessary to obtain, maintain, or advance in employment in a profession or vocation in a high technology occupation (as determined by the Secretary).”.

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall apply to enrollments in courses beginning on or after the date of the enactment of this Act.

SEC. 111. DISTANCE EDUCATION.

(a) IN GENERAL.—Subsection (a)(4) of section 3680A is amended—

(1) by inserting “(A)” after “leading”; and

(2) by inserting before the period the following: “, or (B) to a certificate that reflects educational attainment offered by an institution of higher learning”.

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall apply to enrollments in independent study courses beginning on or after the date of the enactment of this Act.

TITLE II—COMPENSATION AND PENSION PROVISIONS

SEC. 201. MODIFICATION AND EXTENSION OF AUTHORITIES ON PRESUMPTION OF SERVICE-CONNECTION FOR HERBICIDE-RELATED DISABILITIES OF VIETNAM VETERANS.

(a) PRESUMPTIVE PERIOD FOR RESPIRATORY CANCERS.—(1)(A) Subparagraph (F) of subsection (a)(2) of section 1116 is amended by striking “within 30 years” and all that follows through “May 7, 1975”.

(B) The amendment made by subparagraph (A) shall take effect January 1, 2002.

(2) The Secretary of Veterans Affairs shall enter into a contract with the National Academy of Sciences, not later than six months after the date of the enactment of this Act, for the performance of a study to include a review of all available scientific literature on the effects of exposure to an herbicide agent containing dioxin on the development of respiratory cancers in humans and whether it is possible to identify a period of time after exposure to herbicides after which a presumption of service-connection for such exposure would not be warranted. Under the contract, the National Academy of Sciences shall submit a report to the Secretary setting forth its conclusions. The report shall be submitted not later than 18 months after the contract is entered into.

(3) For a period of six months beginning on the date of the receipt of the report of the National Academy of Sciences under para-

graph (2), the Secretary may, if warranted by clear scientific evidence presented in the National Academy of Sciences report, initiate a rulemaking under which the Secretary would specify a limit on the number of years after a claimant's departure from Vietnam after which respiratory cancers would not be presumed to have been associated with the claimant's exposure to herbicides while serving in Vietnam. Any such limit under such a rule may not take effect until 120 days have passed after the publication of a final rule to impose such a limit.

(4)(A) Subject to subparagraphs (B) and (C), if the Secretary imposes such a limit under paragraph (3), that limit shall be effective only as to claims filed on or after the effective date of that limit.

(B) In the case of any veteran whose disability or death due to respiratory cancer is found by the Secretary to be service-connected under section 1116(a)(2)(F) of title 38, United States Code, as amended by paragraph (1), such disability or death shall remain service-connected for purposes of all provisions of law under such title notwithstanding the imposition, if any, of a time limit by the Secretary by rulemaking authorized under paragraph (3).

(C) Subparagraph (B) does not apply in a case in which—

(i) the original award of compensation or service connection was based on fraud; or

(ii) it is clearly shown from military records that the person concerned did not have the requisite service or character of discharge.

(b) PRESUMPTION THAT DIABETES MELLITUS (TYPE 2) IS SERVICE-CONNECTED.—Subsection (a)(2) of section 1116 is further amended by adding at the end the following new subparagraph:

“(H) Diabetes Mellitus (Type 2).”.

(c) PRESUMPTION OF EXPOSURE TO HERBICIDE AGENTS IN VIETNAM DURING VIETNAM ERA.—(1) Section 1116 is further amended—

(A) by transferring paragraph (3) of subsection (a) to the end of the section and redesignating such paragraph, as so transferred, as subsection (f);

(B) by redesignating paragraph (4) of subsection (a) as paragraph (3); and

(C) in subsection (f), as transferred and redesignated by subparagraph (A) of this paragraph—

(i) by striking “For the purposes of this subsection, a veteran” and inserting “For purposes of establishing service connection for a disability or death resulting from exposure to a herbicide agent, including a presumption of service-connection under this section, a veteran”; and

(ii) by striking “and has a disease referred to in paragraph (1)(B) of this subsection”.

(2)(A) The heading of that section is amended to read as follows:

“§ 1116. Presumptions of service connection for diseases associated with exposure to certain herbicide agents; presumption of exposure for veterans who served in the Republic of Vietnam”.

(B) The item relating to that section in the table of sections at the beginning of chapter 11 is amended to read as follows:

“1116. Presumptions of service connection for diseases associated with exposure to certain herbicide agents; presumption of exposure for veterans who served in the Republic of Vietnam.”.

(d) EXTENSION OF AUTHORITY TO PRESUME SERVICE-CONNECTION FOR ADDITIONAL DISEASES.—(1) Subsection (e) of such section is amended by striking “10 years” and all that

follows through “Agent Orange Act of 1991” and inserting “on September 30, 2015”.

(2) Section 3(i) of the Agent Orange Act of 1991 (38 U.S.C. 1116 note) is amended by striking “10 years” and all that follows and inserting “on October 1, 2014.”.

SEC. 202. PAYMENT OF COMPENSATION FOR PERSIAN GULF WAR VETERANS WITH CERTAIN CHRONIC DISABILITIES.

(a) ILLNESSES THAT CANNOT BE CLEARLY DEFINED.—(1) Subsection (a) of section 1117 is amended to read as follows:

“(a)(1) The Secretary may pay compensation under this subchapter to a Persian Gulf veteran with a qualifying chronic disability that became manifest—

“(A) during service on active duty in the Armed Forces in the Southwest Asia theater of operations during the Persian Gulf War; or

“(B) to a degree of 10 percent or more during the presumptive period prescribed under subsection (b).

“(2) For purposes of this subsection, the term ‘qualifying chronic disability’ means a chronic disability resulting from any of the following (or any combination of any of the following):

“(A) An undiagnosed illness.

“(B) A medically unexplained chronic multisymptom illness (such as chronic fatigue syndrome, fibromyalgia, and irritable bowel syndrome) that is defined by a cluster of signs or symptoms.

“(C) Any diagnosed illness that the Secretary determines in regulations prescribed under subsection (d) warrants a presumption of service-connection.”.

(2) Subsection (c)(1) of such section is amended—

(A) in the matter preceding subparagraph (A), by striking “for an undiagnosed illness (or combination of undiagnosed illnesses)”;

and

(B) in subparagraph (A), by striking “for such illness (or combination of illnesses)”.

(b) SIGNS OR SYMPTOMS THAT MAY INDICATE UNDIAGNOSED ILLNESSES.—(1) Such section is further amended by adding at the end the following new subsection:

“(g) For purposes of this section, signs or symptoms that may be a manifestation of an undiagnosed illness or a chronic multisymptom illness include the following:

“(1) Fatigue.

“(2) Unexplained rashes or other dermatological signs or symptoms.

“(3) Headache.

“(4) Muscle pain.

“(5) Joint pain.

“(6) Neurological signs and symptoms.

“(7) Neuropsychological signs or symptoms.

“(8) Signs or symptoms involving the upper or lower respiratory system.

“(9) Sleep disturbances.

“(10) Gastrointestinal signs or symptoms.

“(11) Cardiovascular signs or symptoms.

“(12) Abnormal weight loss.

“(13) Menstrual disorders.”.

(2) Section 1118(a) is amended by adding at the end the following new paragraph:

“(4) For purposes of this section, signs or symptoms that may be a manifestation of an undiagnosed illness include the signs and symptoms listed in section 1117(g) of this title.”.

(c) EFFECTIVE DATE.—The amendments made by subsections (a) and (b) shall take effect on March 1, 2002.

(d) CLARIFICATION OF AUTHORITY TO PRESUME SERVICE-CONNECTION FOR ADDITIONAL DISEASES.—(1) Sections 1117(c)(2) and 1118(e) are each amended by striking “10 years” and all that follows through “of 1998” and inserting “on September 30, 2011”.

(2) Section 1603(j) of the Persian Gulf War Veterans Act of 1998 (38 U.S.C. 1117 note) is amended by striking "10 years" and all that follows and inserting "on October 1, 2010."

SEC. 203. PRESERVATION OF SERVICE CONNECTION FOR UNDIAGNOSED ILLNESSES TO PROVIDE FOR PARTICIPATION IN RESEARCH PROJECTS BY PERSIAN GULF WAR VETERANS.

(a) **AUTHORITY FOR SECRETARY TO PROVIDE FOR PARTICIPATION WITHOUT LOSS OF BENEFITS.**—Section 1117 is amended by adding after subsection (g), as added by section 202(b), the following new subsection:

"(h)(1) If the Secretary determines with respect to a medical research project sponsored by the Department that it is necessary for the conduct of the project that Persian Gulf veterans in receipt of compensation under this section or section 1118 of this title participate in the project without the possibility of loss of service connection under either such section, the Secretary shall provide that service connection granted under either such section for disability of a veteran who participated in the research project may not be terminated. Except as provided in paragraph (2), notwithstanding any other provision of law any grant of service-connection protected under this subsection shall remain service-connected for purposes of all provisions of law under this title.

"(2) Paragraph (1) does not apply in a case in which—

"(A) the original award of compensation or service connection was based on fraud; or

"(B) it is clearly shown from military records that the person concerned did not have the requisite service or character of discharge.

"(3) The Secretary shall publish in the Federal Register a list of medical research projects sponsored by the Department for which service connection granted under this section or section 1118 of this title may not be terminated pursuant to paragraph (1)."

(b) **EFFECTIVE DATE.**—The authority provided by subsection (h) of section 1117 of title 38, United States Code, as added by subsection (a), may be used by the Secretary of Veterans Affairs with respect to any medical research project of the Department of Veterans Affairs, whether commenced before, on, or after the date of the enactment of this Act.

SEC. 204. REPEAL OF LIMITATION ON PAYMENTS OF BENEFITS TO INCOMPETENT INSTITUTIONALIZED VETERANS.

(a) **REPEAL.**—Section 5503 is amended—

(1) by striking subsections (b) and (c); and

(2) by redesignating subsections (d), (e), and (f) as subsections (b), (c), and (d), respectively.

(b) **CONFORMING AMENDMENTS.**—(1) Section 1114(r) is amended by striking "section 5503(e)" and inserting "section 5503(c)".

(2) Section 5112 is amended by striking subsection (c).

SEC. 205. EXTENSION OF ROUND-DOWN REQUIREMENT FOR COMPENSATION COST-OF-LIVING ADJUSTMENTS.

Sections 1104(a) and 1303(a) are amended by striking "2002" and inserting "2011".

SEC. 206. EXPANSION OF PRESUMPTIONS OF PERMANENT AND TOTAL DISABILITY FOR VETERANS APPLYING FOR NON-SERVICE-CONNECTED PENSION.

(a) **IN GENERAL.**—Section 1502(a) is amended by striking "such a person" and all that follows through the end of the subsection and inserting the following: "such person is any of the following:

"(1) A patient in a nursing home for long-term care because of disability.

"(2) Disabled, as determined by the Commissioner of Social Security for purposes of

any benefits administered by the Commissioner.

"(3) Unemployable as a result of disability reasonably certain to continue throughout the life of the person.

"(4) Suffering from—

"(A) any disability which is sufficient to render it impossible for the average person to follow a substantially gainful occupation, but only if it is reasonably certain that such disability will continue throughout the life of the person; or

"(B) any disease or disorder determined by the Secretary to be of such a nature or extent as to justify a determination that persons suffering therefrom are permanently and totally disabled."

(b) **EFFECTIVE DATE.**—The amendment made by subsection (a) shall take effect as of September 17, 2001.

SEC. 207. ELIGIBILITY OF VETERANS 65 YEARS OF AGE OR OLDER FOR VETERANS' PENSION BENEFITS.

(a) **IN GENERAL.**—(1) Subchapter II of chapter 15 is amended by inserting after section 1512 the following new section:

"§ 1513. Veterans 65 years of age and older

"(a) The Secretary shall pay to each veteran of a period of war who is 65 years of age or older and who meets the service requirements of section 1521 of this title (as prescribed in subsection (j) of that section) pension at the rates prescribed by 1521 of this title and under the conditions (other than the permanent and total disability requirement) applicable to pension paid under that section.

"(b) If a veteran is eligible for pension under both this section and section 1521 of this title, pension shall be paid to the veteran only under section 1521 of this title."

(2) The table of sections at the beginning of such chapter is amended by inserting after the item relating to section 1512 the following new item:

"1513. Veterans 65 years of age and older."

(b) **CONFORMING AMENDMENTS.**—(1) Section 1521(f)(1) is amended by inserting "or the age and service requirements prescribed in section 1513 of this title," after "of this section."

(2) Section 1522(a) is amended by inserting "1513 or" after "under section".

(c) **EFFECTIVE DATE.**—The amendments made by this section shall take effect as of September 17, 2001.

TITLE III—TRANSITION AND OUTREACH PROVISIONS

SEC. 301. AUTHORITY TO ESTABLISH OVERSEAS VETERANS ASSISTANCE OFFICES TO EXPAND TRANSITION ASSISTANCE.

Section 7723(a) is amended by inserting after the first sentence the following new sentence: "The Secretary may maintain such offices on such military installations located elsewhere as the Secretary, after consultation with the Secretary of Defense, determines to be necessary to carry out such purposes."

SEC. 302. TIMING OF PRESEPARATION COUNSELING.

(a) **IN GENERAL.**—(1) The first sentence of section 1142(a)(1) of title 10, United States Code, is amended to read as follows: "Within the time periods specified in paragraph (3), the Secretary concerned shall (except as provided in paragraph (4)) provide for individual pre-separation counseling of each member of the armed forces whose discharge or release from active duty is anticipated as of a specific date."

(2) Such section is further amended by adding at the end the following new paragraphs:

"(3)(A) In the case of an anticipated retirement, pre-separation counseling shall commence as soon as possible during the 24-month period preceding the anticipated retirement date. In the case of a separation other than a retirement, pre-separation counseling shall commence as soon as possible during the 12-month period preceding the anticipated date. Except as provided in subparagraph (B), in no event shall pre-separation counseling commence later than 90 days before the date of discharge or release.

"(B) In the event that a retirement or other separation is unanticipated until there are 90 or fewer days before the anticipated retirement or separation date, pre-separation counseling shall begin as soon as possible within the remaining period of service.

"(4)(A) Subject to subparagraph (B), the Secretary concerned shall not provide pre-separation counseling to a member who is being discharged or released before the completion of that member's first 180 days of active duty.

"(B) Subparagraph (A) shall not apply in the case of a member who is being retired or separated for disability."

(b) **CONFORMING AMENDMENT.**—The second sentence of section 1144(a)(1) of title 10, United States Code, is amended by striking "during the 180-day period" and all that follows and inserting "within the time periods provided under paragraph (3) of section 1142(a) of this title, except that the Secretary concerned shall not provide pre-separation counseling to a member described in paragraph (4)(A) of such section."

SEC. 303. IMPROVEMENT IN EDUCATION AND TRAINING OUTREACH SERVICES FOR SEPARATING SERVICEMEMBERS AND VETERANS.

(a) **PROVIDING OUTREACH THROUGH STATE APPROVING AGENCIES.**—Section 3672(d) is amended by inserting "and State approving agencies" before "shall actively promote the development of programs of training on the job".

(b) **ADDITIONAL DUTY.**—Such section is further amended—

(1) by inserting "(1)" after "(d)"; and

(2) by adding at the end the following new paragraph:

"(2) In conjunction with outreach services provided by the Secretary under chapter 77 of this title for education and training benefits, each State approving agency shall conduct outreach programs and provide outreach services to eligible persons and veterans about education and training benefits available under applicable Federal and State law."

SEC. 304. IMPROVEMENT OF VETERANS OUTREACH PROGRAMS.

Section 7722(c) is amended—

(1) by inserting "(1)" after "(c)"; and

(2) by adding at the end the following:

"(2) Whenever a veteran or dependent first applies for any benefit under laws administered by the Secretary (including a request for burial or related benefits or an application for life insurance proceeds), the Secretary shall provide to the veteran or dependent information concerning benefits and health care services under programs administered by the Secretary. Such information shall be provided not later than three months after the date of such application."

TITLE IV—HOUSING MATTERS

SEC. 401. INCREASE IN HOME LOAN GUARANTY AMOUNT FOR CONSTRUCTION AND PURCHASE OF HOMES.

Section 3703(a)(1) is amended by striking "\$50,750" each place it appears in subparagraphs (A)(i)(IV) and (B) and inserting "\$60,000".

SEC. 402. NATIVE AMERICAN VETERAN HOUSING LOAN PILOT PROGRAM.

(a) EXTENSION OF PILOT PROGRAM.—Section 3761(c) is amended by striking “December 31, 2001” and inserting “December 31, 2005”.

(b) AUTHORIZATION OF THE USE OF CERTAIN FEDERAL MEMORANDUMS OF UNDERSTANDING.—Section 3762(a)(1) is amended—

(1) by inserting “(A)” after “(1)”;

(2) by striking “and” after the semicolon and inserting “or”; and

(3) by adding at the end the following:

“(B) the tribal organization that has jurisdiction over the veteran has entered into a memorandum of understanding with any department or agency of the United States with respect to direct housing loans to Native Americans that the Secretary determines substantially complies with the requirements of subsection (b); and”.

(c) EXTENSION OF ANNUAL REPORT.—Section 3762(j) is amended by striking “2002” and inserting “2006”.

SEC. 403. MODIFICATION OF LOAN ASSUMPTION NOTICE REQUIREMENT.

Section 3714(d) is amended to read as follows:

“(d) With respect to a loan guaranteed, insured, or made under this chapter, the Secretary shall provide, by regulation, that at least one instrument evidencing either the loan or the mortgage or deed of trust therefor, shall conspicuously contain, in such form as the Secretary shall specify, a notice in substantially the following form: ‘This loan is not assumable without the approval of the Department of Veterans Affairs or its authorized agent’.”.

SEC. 404. INCREASE IN ASSISTANCE AMOUNT FOR SPECIALLY ADAPTED HOUSING.

Section 2102 is amended—

(1) in the matter preceding paragraph (1) of subsection (a), by striking “\$43,000” and inserting “\$48,000”; and

(2) in subsection (b)(2), by striking “\$8,250” and inserting “\$9,250”.

SEC. 405. EXTENSION OF OTHER HOUSING AUTHORITIES.

(a) HOUSING LOANS FOR MEMBERS OF THE SELECTED RESERVE.—Section 3702(a)(2)(E) is amended by striking “September 30, 2007” and inserting “September 30, 2009”.

(b) ENHANCED LOAN ASSET SALE AUTHORITY.—Section 3720(h)(2) is amended by striking “December 31, 2008” and inserting “December 31, 2011”.

(c) HOME LOAN FEE AUTHORITIES.—The table in section 3729(b)(2) is amended by striking “October 1, 2008” each place it appears and inserting “October 1, 2011”.

(d) PROCEDURES APPLICABLE TO LIQUIDATION SALES ON DEFAULTED HOME LOANS GUARANTEED BY THE DEPARTMENT OF VETERANS AFFAIRS.—Section 3732(c)(11) is amended by striking “October 1, 2008” and inserting “October 1, 2011”.

SEC. 406. CLARIFYING AMENDMENT RELATING TO ELIGIBILITY OF MEMBERS OF THE SELECTED RESERVE FOR HOUSING LOANS.

Section 3729(b)(4)(B) is amended by inserting before the period the following: “who is eligible under section 3702(a)(2)(E) of this title”.

TITLE V—OTHER MATTERS**SEC. 501. INCREASE IN BURIAL BENEFITS.**

(a) BURIAL AND FUNERAL EXPENSES.—(1) Clause (1) of section 2307 is amended by striking “\$1,500” and inserting “\$2,000”.

(2) The amendment made by paragraph (1) shall apply to deaths occurring on or after September 11, 2001.

(b) PLOT ALLOWANCE.—(1) Section 2303(b) is amended by striking “\$150” each place it appears and inserting “\$300”.

(2) The amendments made by paragraph (1) shall apply to deaths occurring on or after December 1, 2001.

SEC. 502. GOVERNMENT MARKERS FOR MARKED GRAVES AT PRIVATE CEMETERIES.

(a) GOVERNMENT MARKER BENEFIT.—Section 2306 of title 38, United States Code, is amended—

(1) by redesignating subsections (d) and (e) as subsections (e) and (f), respectively; and

(2) by inserting after subsection (c) the following new subsection (d):

“(d)(1) The Secretary shall furnish, when requested, an appropriate Government marker at the expense of the United States for the grave of an individual described in paragraph (2) or (5) of subsection (a) who is buried in a private cemetery, notwithstanding that the grave is marked by a headstone or marker furnished at private expense. Such a marker may be furnished only if the individual making the request for the Government marker certifies to the Secretary that the marker will be placed on the grave for which the marker is requested.

“(2) Any marker furnished under this subsection shall be delivered by the Secretary directly to the cemetery where the grave is located.

“(3) The authority to furnish a marker under this subsection expires on December 31, 2006.

“(4) Not later than February 1, 2006, the Secretary shall submit to the Committees on Veterans’ Affairs of the Senate and House of Representatives a report on the use of the authority under this subsection. The report shall include the following:

“(A) The rate of use of the benefit under this subsection, shown by fiscal year.

“(B) An assessment as to the extent to which markers furnished under this subsection are being delivered to cemeteries and placed on grave sites consistent with the provisions of this subsection.

“(C) The Secretary’s recommendation for extension or repeal of the expiration date specified in paragraph (3).”.

(b) DESIGN OF MARKER.—Subsection (c) of such section is amended by striking “subsection (a) or (b)” and inserting “subsection (a), (b), or (d)”.

(c) CROSS REFERENCE CORRECTION.—Subsection (a)(5) of such section is amended by striking “chapter 67” and inserting “chapter 1223”.

(d) EFFECTIVE DATE.—The amendments made by subsections (a) and (b) shall apply with respect to markers for the graves of individuals dying on or after the date of the enactment of this Act.

(e) EFFECTIVE DATE.—The amendments made by subsections (a) and (b) shall apply with respect to markers for the graves of individuals dying on or after the date of the enactment of this Act.

(f) EFFECTIVE DATE.—The amendments made by subsections (a) and (b) shall apply with respect to markers for the graves of individuals dying on or after the date of the enactment of this Act.

(g) EFFECTIVE DATE.—The amendments made by subsections (a) and (b) shall apply with respect to markers for the graves of individuals dying on or after the date of the enactment of this Act.

(h) EFFECTIVE DATE.—The amendments made by subsections (a) and (b) shall apply with respect to markers for the graves of individuals dying on or after the date of the enactment of this Act.

(i) EFFECTIVE DATE.—The amendments made by subsections (a) and (b) shall apply with respect to markers for the graves of individuals dying on or after the date of the enactment of this Act.

(j) EFFECTIVE DATE.—The amendments made by subsections (a) and (b) shall apply with respect to markers for the graves of individuals dying on or after the date of the enactment of this Act.

SEC. 503. INCREASE IN AMOUNT OF ASSISTANCE FOR AUTOMOBILE AND ADAPTIVE EQUIPMENT FOR CERTAIN DISABLED VETERANS.

Section 3902(a) is amended by striking “\$8,000” and inserting “\$9,000”.

SEC. 504. EXTENSION OF LIMITATION ON PENSION FOR CERTAIN RECIPIENTS OF MEDICAID-COVERED NURSING HOME CARE.

Paragraph (7) of subsection (d) of section 5503, as redesignated by section 204(a), is amended by striking “September 30, 2008” and inserting “September 30, 2011”.

SEC. 505. PROHIBITION ON PROVISION OF CERTAIN BENEFITS WITH RESPECT TO PERSONS WHO ARE FUGITIVE FELONS.

(a) PROHIBITION.—(1) Chapter 53 is amended by inserting after section 5313A the following new section:

“§5313B. Prohibition on providing certain benefits with respect to persons who are fugitive felons

“(a) A veteran who is otherwise eligible for a benefit specified in subsection (c) may not be paid or otherwise provided such benefit for any period during which such veteran is a fugitive felon. A dependent of a veteran who is otherwise eligible for a benefit specified in subsection (c) may not be paid or otherwise provided such benefit for any period during which such veteran or such dependent is a fugitive felon.

“(b) For purposes of this section:

“(1) The term ‘fugitive felon’ means a person who is a fugitive by reason of—

“(A) fleeing to avoid prosecution, or custody or confinement after conviction, for an offense, or an attempt to commit an offense, which is a felony under the laws of the place from which the person flees; or

“(B) violating a condition of probation or parole imposed for commission of a felony under Federal or State law.

“(2) The term ‘felony’ includes a high misdemeanor under the laws of a State which characterizes as high misdemeanors offenses that would be felony offenses under Federal law.

“(3) The term ‘dependent’ means a spouse, surviving spouse, child, or dependent parent of a veteran.

“(c) A benefit specified in this subsection is a benefit under any of the following:

“(1) Chapter 11 of this title.

“(2) Chapter 13 of this title.

“(3) Chapter 15 of this title.

“(4) Chapter 17 of this title.

“(5) Chapter 19 of this title.

“(6) Chapter 30, 31, 32, 34, or 35 of this title.

“(7) Chapter 37 of this title.

“(d)(1) The Secretary shall furnish to any Federal, State, or local law enforcement official, upon the written request of such official, the most current address maintained by the Secretary of a person who is eligible for a benefit specified in subsection (c) if such official—

“(A) provides to the Secretary such information as the Secretary may require to fully identify the person;

“(B) identifies the person as being a fugitive felon; and

“(C) certifies to the Secretary that apprehending such person is within the official duties of such official.

“(2) The Secretary shall enter into memoranda of understanding with Federal law enforcement agencies, and may enter into agreements with State and local law enforcement agencies, for purposes of furnishing information to such agencies under paragraph (1).”.

(2) The table of sections at the beginning of that chapter is amended by inserting after the item relating to section 5313A the following new item:

“5313B. Prohibition on providing certain benefits with respect to persons who are fugitive felons.”.

(b) SENSE OF CONGRESS ON ENTRY INTO MEMORANDA OF UNDERSTANDING AND AGREEMENTS.—It is the sense of Congress that the memoranda of understanding and agreements referred to in section 5313B(d)(2) of title 38, United States Code (as added by subsection (a)), should be entered into as soon as practicable after the date of the enactment of this Act, but not later than six months after that date.

SEC. 506. LIMITATION ON PAYMENT OF COMPENSATION FOR VETERANS REMAINING INCARCERATED SINCE OCTOBER 7, 1980.

(a) **LIMITATION.**—Section 5313 of title 38, United States Code, other than subsection (d) of that section, shall apply with respect to the payment of compensation to or with respect to any veteran described in subsection (b).

(b) **COVERED VETERANS.**—A veteran described in this subsection is a veteran who is entitled to compensation and who—

(1) on October 7, 1980, was incarcerated in a Federal, State, or local penal institution for a felony committed before that date; and

(2) remains so incarcerated for conviction of that felony as of the date of the enactment of this Act.

(c) **EFFECTIVE DATE.**—This section shall apply with respect to the payment of compensation for months beginning on or after the end of the 90-day period beginning on the date of the enactment of this Act.

(d) **COMPENSATION DEFINED.**—For purposes of this section, the term “compensation” has the meaning given that term in section 5313 of title 38, United States Code.

SEC. 507. ELIMINATION OF REQUIREMENT FOR PROVIDING A COPY OF NOTICE OF APPEAL TO THE SECRETARY OF VETERANS AFFAIRS.

(a) **REPEAL.**—Section 7266 is amended by striking subsection (b).

(b) **CONFORMING AMENDMENTS.**—Such section is further amended—

(1) by striking “(1)” after “(a)”; and

(2) by redesignating paragraph (2) as subsection (b);

(3) by redesignating paragraph (3) as subsection (c) and redesignating subparagraphs (A) and (B) thereof as paragraphs (1) and (2); and

(4) by redesignating paragraph (4) as subsection (d) and by striking “paragraph (3)(B)” therein and inserting “subsection (c)(2)”.

SEC. 508. INCREASE IN FISCAL YEAR LIMITATION ON NUMBER OF VETERANS IN PROGRAMS OF INDEPENDENT LIVING SERVICES AND ASSISTANCE.

(a) **INCREASE IN LIMITATION.**—Section 3120(e) is amended by striking “five hundred” and inserting “2,500”.

(b) **EFFECTIVE DATE.**—The amendment made by subsection (a) shall take effect as of September 30, 2001.

SEC. 509. TECHNICAL AND CLERICAL AMENDMENTS.

(a) **REPEAL OF EXPIRED PROVISION.**—(1) Section 712 is repealed.

(2) The table of sections at the beginning of chapter 7 is amended by striking the item relating to section 712.

(b) **CORRECTION OF WORD OMISSION.**—Section 1710B(c)(2)(B) is amended by inserting “on” before “November 30, 1999”.

(c) **REPEAL OF ERRONEOUS CROSS REFERENCE.**—Section 1729B(b) is amended—

(1) by striking paragraph (1); and

(2) by redesignating paragraphs (2), (3), and (4) as paragraphs (1), (2), and (3), respectively.

(d) **CORRECTION OF CROSS REFERENCE.**—Section 3695(a)(5) is amended by striking “1610” and inserting “1611”.

(e) **STYLISTIC CORRECTION.**—Section 1001(a)(2) of the Veterans’ Benefits Improvements Act of 1994 (Public Law 103-446; 38 U.S.C. 7721 note) is amended by striking “and” at the end of subparagraph (C).

(f) **CORRECTION OF PREVIOUS AMENDMENT.**—Effective November 30, 1999, and as if included therein as originally enacted, section 204(e)(3) of the Veterans Millennium Health

Care and Benefits Act (Public Law 106-117; 113 Stat. 1563) is amended by striking “and inserting ‘a;’” and inserting “the first place it appears and inserting ‘an;’”.

TITLE VI—UNITED STATES COURT OF APPEALS FOR VETERANS CLAIMS

SEC. 601. FACILITATION OF STAGGERED TERMS OF JUDGES THROUGH TEMPORARY EXPANSION OF THE COURT.

(a) **IN GENERAL.**—Section 7253 is amended by adding at the end the following new subsection:

“(h) **TEMPORARY EXPANSION OF COURT.**—(1) During the period from January 1, 2002, through August 15, 2005, the authorized number of judges of the Court specified in subsection (a) is increased by two.

“(2)(A) Of the two additional judges authorized by this subsection—

“(i) only one may be appointed pursuant to a nomination made in 2002; and

“(ii) only one may be appointed pursuant to a nomination made in 2003.

“(B) If a judge is not appointed under this subsection pursuant to a nomination made in 2002, a judge may be appointed under this subsection pursuant to a nomination made in 2004. If a judge is not appointed under this subsection pursuant to a nomination made in 2003, a judge may be appointed under this subsection pursuant to a nomination made in 2004. In either case, such an appointment may be made only pursuant to a nomination made before October 1, 2004.

“(3) The term of office and the eligibility for retirement of a judge appointed under this subsection, other than a judge described in paragraph (4), are governed by the provisions of section 1012 of the Court of Appeals for Veterans Claims Amendments of 1999 (title X of Public Law 106-117; 113 Stat. 1590; 38 U.S.C. 7296 note) if the judge is one of the first two judges appointed to the Court after November 30, 1999.

“(4) A judge of the Court as of the date of the enactment of this subsection who was appointed to the Court before January 1, 1991, may accept appointment as a judge of the Court under this subsection notwithstanding that the term of office of the judge on the Court has not yet expired under this section. The term of office of an incumbent judge who receives an appointment as described in the preceding sentence shall be 15 years, which includes any period remaining in the unexpired term of the judge. Any service following an appointment under this subsection shall be treated as though served as part of the original term of office of that judge on the Court.

“(5) Notwithstanding paragraph (1), an appointment may not be made to the Court if the appointment would result in there being more than seven judges on the Court who were appointed after January 1, 1997. For the purposes of this paragraph, a judge serving in recall status under section 7257 of this title shall be disregarded in counting the number of judges appointed to the Court after such date.”.

(b) **STYLISTIC AMENDMENTS.**—That section is further amended—

(1) in subsection (b), by inserting “APPOINTMENT.—” before “The judges”; and

(2) in subsection (c), by inserting “TERM OF OFFICE.—” before “The term”;

(3) in subsection (f), by striking “(f)(1)” and inserting “(f) REMOVAL.—(1)”; and

(4) in subsection (g), by striking “(g)(1)” and inserting “(g) RULES.—(1)”.

SEC. 602. REPEAL OF REQUIREMENT FOR WRITTEN NOTICE REGARDING ACCEPTANCE OF REAPPOINTMENT AS CONDITION TO RETIREMENT FROM THE COURT.

Section 7296(b)(2) is amended by striking the second sentence.

SEC. 603. TERMINATION OF NOTICE OF DISAGREEMENT AS JURISDICTIONAL REQUIREMENT FOR THE COURT.

(a) **TERMINATION.**—Section 402 of the Veterans’ Judicial Review Act (division A of Public Law 100-687; 102 Stat. 4122; 38 U.S.C. 7251 note) is repealed.

(b) **ATTORNEY FEES.**—Section 403 of the Veterans’ Judicial Review Act (102 Stat. 4122; 38 U.S.C. 5904 note) is repealed.

(c) **CONSTRUCTION.**—The repeal in subsection (a) may not be construed to confer upon the United States Court of Appeals for Veterans Claims jurisdiction over any appeal or other matter not within the jurisdiction of the Court as provided in section 7266(a) of title 38, United States Code.

(d) **APPLICABILITY.**—The repeals made by subsections (a) and (b) shall apply to any appeal filed with the United States Court of Appeals for Veterans Claims—

(1) on or after the date of the enactment of this Act; or

(2) before the date of the enactment of this Act but in which a final decision has not been made under section 7291 of title 38, United States Code, as of that date.

SEC. 604. REGISTRATION FEES.

(a) **FEES FOR COURT-SPONSORED ACTIVITIES.**—Subsection (a) of section 7285 is amended by adding at the end the following new sentence: “The Court may also impose a registration fee on persons (other than judges of the Court) participating at judicial conferences convened pursuant to section 7286 of this title or in any other court-sponsored activity.”.

(b) **USE OF FEES.**—Subsection (b) of such section is amended by striking “for the purposes of (1)” and all that follows through the period and inserting “for the following purposes:

“(1) Conducting investigations and proceedings, including employing independent counsel, to pursue disciplinary matters.

“(2) Defraying the expenses of—

“(A) judicial conferences convened pursuant to section 7286 of this title; and

“(B) other activities and programs of the Court that are intended to support and foster communication and relationships between the Court and persons practicing before the Court or the study, understanding, public commemoration, or improvement of veterans law or of the work of the Court.”.

(c) **CLERICAL AMENDMENTS.**—(1) The heading for such section is amended to read as follows:

“§ 7285. Practice and registration fees”.

(2) The item relating to such section in the table of sections at the beginning of chapter 72 is amended to read as follows:

“7285. Practice and registration fees.”.

SEC. 605. ADMINISTRATIVE AUTHORITIES.

(a) **IN GENERAL.**—Subchapter III of chapter 72 is amended by inserting after section 7286 the following new section:

“§ 7287. Administration

“Notwithstanding any other provision of law, the Court of Appeals for Veterans Claims may exercise, for purposes of management, administration, and expenditure of funds of the Court, the authorities provided for such purposes by any provision of law (including any limitation with respect to such provision of law) applicable to a court of the

United States (as that term is defined in section 451 of title 28), except to the extent that such provision of law is inconsistent with a provision of this chapter.”.

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of such chapter is amended by inserting after the item related to section 7286 the following new item: “7287. Administration.”.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from New Jersey (Mr. SMITH) and the gentleman from Illinois (Mr. EVANS) each will control 20 minutes.

The Chair recognizes the gentleman from New Jersey (Mr. SMITH).

Mr. SMITH of New Jersey. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, as chairman of the Committee on Veterans' Affairs, I am very proud and happy to bring to the floor H.R. 1291, as amended, the Veterans Education and Benefits Expansion Act of 2001.

□ 1645

Mr. Speaker, this bill is derived from measures which the House approved overwhelmingly earlier this year: H.R. 801, the Veterans Opportunities Act of 2001; H.R. 1291, the 21st Century Montgomery G.I. Bill Enhancement Act; H.R. 2540, the Veterans Benefits Act of 2001. It also includes a number of provisions contained in S. 1088, the Benefits Veterans Improvement Act of 2001.

Mr. Speaker, I want to thank the ranking member, the gentleman from Illinois (Mr. EVANS); former chairman of the Subcommittee on Benefits, the gentleman from Arizona (Mr. HAYWORTH); the ranking member, the gentleman from Texas (Mr. REYES); and the current subcommittee chairman, the gentleman from Idaho (Mr. SIMPSON), for working with me in crafting these bills.

Little did we know last spring what terrorists would do to America on September 11. Although our resolve was already firm, the events of September 11 have heightened the Nation's concern that we provide adequate benefits for those who serve in our Nation's Armed Forces. I am proud that we have been able to respond so positively to their concerns.

We had two goals in mind, Mr. Speaker, when we were preparing these bills. The first goal was to continue our Nation's commitment to those veterans who have already been in harm's way in past wars and conflicts.

Second, we wanted to create a level playing field for the generation of veterans who protect our freedoms now and into the future.

Our bipartisan legislation carried out these two broad goals in three primary ways: first, through improvements in the Montgomery G.I. bill and other VA education programs, so as to position our returning service members for long-term, sustained employment; second, through improvements in VA pro-

grams for disabled veterans and their widows and orphans, so as to honor our commitment to them; and third, by building on former Under Secretary Joe Thompson's initiatives to reach out to America's sons and daughters before, rather than after, they leave the military to ease their transition to civilian life.

Mr. Speaker, with respect to veterans education, I am pleased that the compromise agreement contains no less than 11 provisions to improve the Montgomery G.I. bill and other VA education programs. Under current law, a full-time veteran-student receives \$672 monthly under the Montgomery G.I. bill, from which the veteran-student pays the tuitions, books, supplies, fees, and subsistence, including housing, food, and transportation.

H.R. 1291, as amended, would increase the \$672 monthly amount to \$800 per month effective this January; to \$900, effective October 1 of 2002; and to \$985 per month effective October 1, 2003. Mr. Speaker, this represents a 52 percent increase in the monthly benefit, phased in over 3 years.

According to data furnished by the College Board this spring, the monthly G.I. bill benefit would have had to rise to \$1,025 per month for a veteran-student to attend a 4-year student as a commuter student at an average cost of \$9,229 per year. This figure includes tuition, fees, and living expenses.

Veteran students are highly engaging and resourceful individuals, but the \$1,025 per month figure has been shown to be woefully inadequate and that the Montgomery G.I. bill just simply did not cover those costs. That is what we are trying to rectify with this legislation.

Frankly, we should not be surprised, Mr. Speaker, that only about half of the eligible veterans for the Montgomery G.I. bill have used it since 1985, one of the main reasons being the lack of funding in the actual benefit provided.

The bill also builds on the wisdom and foresight of former chairman Sonny Montgomery, who, back in 1980, understood the linkage between the success of an all-volunteer force and a sound educational incentive to recruit high-quality individuals. Serving one's country literally has taken on a new meaning since September 11. Now more than ever we need a new G.I. bill that does reflect the selflessness of our service members who are putting their lives on the line to ferret out and to eliminate terrorism. This bill goes a long way to closing the gap between school costs and benefits.

The compromise agreement also contains nine provisions that make improvements in VA programs benefiting disabled veterans and their dependents and keeps our commitments to veterans who suffer from chronic illnesses subsequent to their service during the Persian Gulf War.

Effective April 1, 2002, the bill revises the definition of “undiagnosed illnesses” for Persian Gulf War veterans to include fibromyalgia, chronic fatigue syndrome and chronic multisyn-drome illnesses, and other illnesses that cannot be clearly defined.

I thank the gentleman from Illinois (Mr. EVANS), the gentleman from Florida (Mr. BILIRAKIS), the gentleman from Indiana (Mr. BUYER), the gentleman from Nevada (Mr. GIBBONS), and the gentleman from Illinois (Mr. MANZULLO) for their leadership on this particular provision.

This bill keeps America's promise to disabled veterans by increasing specially adapted housing allowances for severely disabled veterans from \$43,000 to \$48,000 per year; increases the automobile and adaptive equipment grant for severely disabled veterans from \$8,000 to \$9,000; increases the payments for burial and funeral expenses for service-connected veterans from \$1,500 to \$2,000; and increases the burial plot allowance for eligible veterans from \$150 to \$300.

Lastly, the measure makes the second improvement in as many years for spouses of children of 100 percent service-connected disabled veterans or their survivors of veterans who die from their service-connected disability. The monthly education benefit would increase from \$588 per month to \$670 per month.

Lastly, following the recommendations of the congressional Veterans Claim Adjudication Commission and the congressional Commission on Service Members and Veterans Transition Assistance, the bill gives the VA greater authority to reach out to those service members defending our freedom around the world before they leave the military.

The VA will now have the authority to create regional offices overseas, thus creating a vision for a world-class worldwide organization. And the Departments of Defense, Veterans Affairs, and Labor will be able to make transition counseling available to first-time service members as early as 12 months before separation and 24 months prior to separation for retirees.

Mr. Speaker, I include for the RECORD the Explanatory Statement on the House Amendment.

EXPLANATORY STATEMENT ON HOUSE AMENDMENT TO SENATE AMENDMENTS TO H.R. 1291

The House amendment to the Senate amendments to H.R. 1291 reflect a compromise agreement that the House and Senate Committees on Veterans' Affairs have reached on H.R. 801, H.R. 1291, H.R. 2540, H.R. 3240, and S. 1088. H.R. 801 passed the House on March 27, 2001. H.R. 1291 passed the House on June 19, 2001. H.R. 2540 passed the House on July 31, 2001. H.R. 3240 passed the House on November 13, 2001. The Senate considered S. 1088 (hereinafter known as the “Senate bill”) on December 7, 2001. This measure was incorporated in H.R. 1291 as an amendment and passed the Senate by unanimous consent on December 7, 2001.

The House and Senate Committees on Veterans' Affairs have prepared the following explanation of H.R. 1291, as amended, (hereinafter referred to as the "Compromise Agreement"). Differences between the provisions contained in the Compromise Agreement and the related provisions of H.R. 801, H.R. 1291, H.R. 2540, H.R. 3240, and S. 1088 are noted in this document, except for clerical corrections, conforming changes made necessary by the Compromise Agreement, and minor drafting, technical, and clarifying changes.

TITLE I—EDUCATIONAL ASSISTANCE PROVISIONS

INCREASES IN RATES OF BASIC EDUCATIONAL ASSISTANCE UNDER THE MONTGOMERY GI BILL

Current Law

Section 3011 of title 38, United States Code, establishes basic educational assistance entitlement under the All-Volunteer Force Educational Assistance Program, commonly referred to as the Montgomery GI Bill or MGIB—Active Duty program. Section 3015 establishes the base amount of such educational assistance at the monthly rate of \$528 for a 3-year period of service and \$429 for a 2-year period of service. These amounts increased to \$650 per month and \$528 per month, respectively, on November 1, 2000. With the addition of a cost-of-living adjustment (COLA) on October 1, 2001, the rates are \$672 and \$546, respectively.

House Bill

Section 2(a)(1) of H.R. 1291 would amend section 3015(a)(1) to increase the amount of educational benefits under the Montgomery GI Bill for an approved program of education on a full-time basis from the current monthly rate of \$650 (\$672 with COLA) for an obligated period of active duty of 3 or more years to \$800 effective October 1, 2001, \$950 effective October 1, 2002, and \$1,100 effective October 1, 2003.

Section 2(a)(2) of H.R. 1291 would amend section 3015(b)(1) of title 38, United States Code, to increase the amount of educational benefits for an obligated period of active duty of 2 years from the current monthly rate of \$528 (\$546 with COLA) to \$650 effective October 1, 2001, \$772 effective October 1, 2002, and \$894 effective October 1, 2003.

Section 2(b) of H.R. 1291 would suspend the statutory annual adjustment in MGIB rates based on the Consumer Price Index beginning in fiscal year 2002 and reinstate that adjustment beginning in fiscal year 2005.

Senate Bill

Section 101 of the Senate bill would increase the amount of educational benefits under the Montgomery GI Bill for veterans whose original service obligation was 3 or more years to \$700 in fiscal year 2002, \$800 in fiscal year 2003, and \$950 in fiscal year 2004. For veterans whose original service obligation was 2 years, the monthly educational benefit would be increased to \$569 in fiscal year 2002, \$650 in fiscal year 2003, and \$772 in fiscal year 2004.

Compromise Agreement

Section 101 of the compromise agreement would increase the amount of educational benefits under the Montgomery GI Bill for an obligated period of active duty of 3 or more years to \$800 effective January 1, 2002; \$900 effective October 1, 2002; and \$985 effective October 1, 2003. For service obligation of 2 years, increases are to \$650 effective January 1, 2002; \$732 effective October 1, 2002; and \$800 effective October 1, 2003. The COLA is suspended for Fiscal Years 2003 and 2004.

INCREASE IN RATES OF SURVIVORS' AND DEPENDENTS' EDUCATIONAL ASSISTANCE

Current Law

Chapter 35 of title 38, United States Code, provides educational assistance to spouses and dependent children of veterans who are totally disabled or who die as a result of a service-connected condition. Eligible persons are paid at a monthly rate of \$588, \$441, and \$294, respectively, for full, three-quarter, and half-time studies. The cost-of-living adjustment (COLA) furnished on October 1, 2001, increased these rates to \$608, \$456, and \$304, respectively.

House Bill

The House bills contain no comparable provision.

Senate Bill

Section 106 of the Senate bill would increase the monthly amount of education benefits provided under chapter 35 of title 38, United States Code, for full-time students from \$588 (\$608 with the COLA) to \$690, from \$441 (\$456 of COLA) to \$517 for three-quarter time students, and from \$294 (\$306 with the COLA) to \$345 for half-time students (rates in current law after cost-of-living adjustment). These increases would take effect October 1, 2001.

Compromise Agreement

Section 102 of the compromise agreement would follow the language of the Senate bill, except that it would increase the monthly amount of education benefits provided to full-time students in traditional education programs, training in business or industry, correspondence courses or special restorative training from \$608 to \$670 on January 1, 2002. The compromise agreement would also include increases for on-job training, apprenticeship, and farm cooperative programs.

RESTORATION OF CERTAIN EDUCATION BENEFITS OF INDIVIDUALS BEING ORDERED TO ACTIVE DUTY

Current Law

Sections 3013(f)(2), 3231(a)(5), and 3511(a)(2)(B)(i) of title 38, United States Code, provide that no educational allowance paid to servicemembers, reservists, or eligible dependents shall be counted against the total length or amount of their education entitlement if the pursuit of an educational objective was interrupted as a result of being ordered to serve in connection with the Persian Gulf War.

House Bill

H.R. 3240 would restore entitlement under the Montgomery GI Bill (MGIB), Veterans' Educational Assistance Program (VEAP), and Survivors' and Dependents' Educational Assistance program (DEA) for any servicemembers, reservists, or DEA recipients called to active duty during Operation Enduring Freedom and at any time in the future.

Senate Bill

Section 105 of the Senate bill would restore entitlement under the MGIB, VEAP, and Survivor's and DEA programs for any servicemembers, reservists, or DEA recipients called to active duty in connection with the National Emergency declared by the Presidential Proclamation dated September 14, 2001.

Compromise Bill

Section 103 of the compromise agreement follows the House language and adds entitlement restoration for persons pursuing education or training under chapter 31 of title 38, United States Code. Further, the period

during which the person may use his or her educational benefits under chapters 31 or 35 would be the period equal to the length of active service for which the person is recalled, plus four months.

ACCELERATED PAYMENTS OF EDUCATIONAL ASSISTANCE UNDER MONTGOMERY GI BILL FOR EDUCATION LEADING TO EMPLOYMENT IN HIGH TECHNOLOGY INDUSTRY

Current Law

Section 3014 of title 38, United States Code, provides that the basic educational benefit available under the Montgomery GI Bill be disbursed in up to 36 monthly installments. Benefits are provided for each month in which the MGIB participant is certified to be participating in a course of study. If requested by a veteran, section 3680(d)(2) of title 38, United States Code, allows for an advance payment of educational assistance in an amount equivalent to the allowance for the month, or fraction thereof, in which pursuit of an education program will commence, plus the allowance for the succeeding month. This payment structure is geared primarily toward the pursuit of traditional two- and four-year degrees.

House Bill

The House bills contain no comparable provision.

Senate Bill

Section 103 of the Senate bill would further expand the Montgomery GI Bill benefit to accommodate a compressed schedule of courses leading to employment in a high technology industry by authorizing accelerated payment covering up to 60% of the cost of a high technology course, provided the cost of such course exceeds 200% of the monthly MGIB rate. This lump sum would be deducted from the veteran's remaining MGIB entitlement.

Compromise Agreement

Section 104 of the compromise agreement follows the Senate language, effective October 1, 2002.

ELIGIBILITY FOR MONTGOMERY GI BILL BENEFITS OF CERTAIN ADDITIONAL VIETNAM-ERA VETERANS

Current Law

Section 3011 of title 38, United States Code, provides that a Vietnam-era veteran may convert his or her Vietnam-era GI Bill benefit to the Montgomery GI Bill educational benefit, if the veteran had eligibility for Vietnam-era GI Bill benefits as of December 31, 1989, was on active duty on October 19, 1984, and served 3 continuous years after June 30, 1985.

House Bill

The House bills contain no comparable provision.

Senate Bill

Section 104 of the Senate bill would enable Vietnam-era veterans to convert their Vietnam-era GI Bill benefits to Montgomery GI Bill benefits if the veteran had eligibility for the Vietnam-era GI Bill benefits as of December 31, 1989, was not on active duty on October 19, 1984, and served 3 continuous years in the Armed Forces on or after July 1, 1985.

Compromise Agreement

Section 105 of the compromise agreement follows the Senate language.

INCREASE IN MAXIMUM ALLOWABLE ANNUAL ROTC AWARD FOR ELIGIBILITY FOR BENEFITS UNDER THE MONTGOMERY GI BILL

Current Law

Sections 3011(c)(3)(B) and 3012(d)(3)(B) of title 38, United States Code, provide that

\$2,000 is the maximum annual amount of a partial scholarship that a participant in the Senior Reserve Officers' Training Corps (SROTC) may receive and still be eligible for basic educational assistance entitlement for service on active duty under the Montgomery GI Bill educational assistance program.

House Bill

Section 101 of H.R. 801 would increase from \$2,000 to \$3,400 per year the amount a student under SROTC may receive in scholarship assistance and still retain eligibility for the Montgomery GI Bill—Active Duty under chapter 30, of title 38, United States Code.

Senate Bill

The Senate bill contains no comparable provision.

Compromise Agreement

Section 106 of the compromise agreement follows the House language.

EXPANSION OF WORK-STUDY OPPORTUNITIES

Current Law

Section 3485(a)(1) of title 38, United States Code, establishes work-study policies for veteran-students and eligible dependents. In general, VA work-study students may prepare or process VA paperwork at schools or VA facilities, provide care at VA hospitals and domiciliaries, or work at Department of Defense facilities in certain circumstances.

House Bill

Section 102 of H.R. 801 would expand work-study opportunities for veteran-students and eligible dependents to include: outreach services furnished by State Approving Agencies to servicemembers and veterans; activities for veteran-students and/or dependents (who have declared an academic major) within the department of an academic discipline that complements and reinforces the program of education pursued by the veteran-student; and the provision of chapter 17 of title 38, United States Code, domiciliary care and nursing home and hospital care to veterans, including state veterans homes.

Senate Bill

The Senate bill contains no comparable provision.

Compromise Agreement

Section 107 of the compromise agreement follows the House language but excludes work-study opportunities within the department of the veteran-student's academic discipline, and adds additional work-study opportunities through national and state veterans cemeteries.

ELIGIBILITY FOR SURVIVORS' AND DEPENDENTS' EDUCATIONAL ASSISTANCE BENEFITS OF SPOUSES AND SURVIVING SPOUSES OF VETERANS WITH TOTAL SERVICE-CONNECTED DISABILITIES

Current Law

Spouses of veterans who die of service-connected conditions, who are rated as totally and permanently disabled, or who die while rated as totally and permanently disabled, are eligible for Survivors' and Dependents' Educational Assistance (DEA) benefits. Prior to *Ozer v. Principi*, a 2001 decision by the U.S. Court of Appeals for Veterans Claims, 14 Vet. App. 257 (2001), VA applied a 10-year delimiting period during which spouses were eligible to use their DEA benefits. VA had been following regulations stating that the 10-year delimiting period began when eligibility is first established. However, the statute which authorized the DEA regulations prescribed that a spouse may not receive educational assistance beyond 10 years after the

last occurrence of three eligibility criteria, one of which is the veteran's death. In its *Ozer* decision, the Court invalidated the VA regulation, reasoning that the delimiting period established by VA was in conflict with the authorizing statute.

House Bill

The House bills contain no comparable provision.

Senate Bill

Section 107 of the Senate bill would reinstate a 10-year delimiting period in which spouses may, upon first becoming eligible, use DEA benefits. Spouses made eligible for DEA under more than one of the eligibility criteria would have two separate 10-year delimiting periods in which to use their DEA benefits, but in no case would their aggregate entitlement exceed 45 months.

Compromise Agreement

Section 108 of the compromise agreement follows the Senate language.

EXPANSION OF SPECIAL RESTORATIVE TRAINING BENEFIT TO CERTAIN DISABLED SPOUSES OR SURVIVING SPOUSES

Current Law

Section 3541 of title 38, United States Code, provides that eligible children entitled to assistance under the Survivors' and Dependents' Educational Assistance program of chapter 35 may receive special restorative training to overcome or lessen the effects of a physical or mental disability and enable them to undertake a program of education.

House Bill

Section 104 of H.R. 801 would expand the special restorative training benefit provided under the chapter 35 program to include certain disabled spouses or surviving spouses.

Senate Bill

The Senate bill contains no comparable provision.

Compromise Agreement

Section 109 of the compromise agreement follows the House language.

INCLUSION OF CERTAIN PRIVATE TECHNOLOGY ENTITIES IN THE DEFINITION OF EDUCATIONAL INSTITUTION

Current Law

Section 3452(c) of title 38, United States Code, defines "educational institution" as any public or private elementary school, secondary school, vocational school, correspondence school, business school, junior college, teachers' college, college, normal school, professional school, university, scientific or technical institution furnishing education for adults. Section 3501(a)(6) of title 38, United States Code, uses a substantively identical definition with the addition of any other institution if it furnishes education at the secondary school level or above.

House Bill

Section 103 of H.R. 801 would expand the definition of an educational institution to include any private entity that offers, either directly or under an agreement with another entity, a course or courses to fulfill a requirement for the attainment of a license or certificate generally recognized as necessary to obtain, maintain, or advance in employment in a profession or vocation in a technological occupation, as determined by the Secretary.

Senate Bill

Section 105 of the Senate bill contains a substantively identical provision.

Compromise Agreement

Section 110 of the compromise agreement follows the Senate language.

DISTANCE EDUCATION

Current Law

Section 3680A(a)(4) of title 38, United States Code, limits the enrollment of an eligible veteran to an accredited independent study program (including open circuit television) leading to a standard college degree.

House Bill

Section 105 of H.R. 801 would permit eligible veterans to receive VA education benefits while pursuing non college-degree courses that are offered through independent study by institutions of higher learning.

Senate bill

The Senate bill contains no comparable provision.

Compromise Agreement

Section 111 of the compromise agreement follows the House language.

TITLE II—COMPENSATION AND PENSION PROVISIONS

MODIFICATION AND EXTENSION OF AUTHORITIES ON PRESUMPTION OF SERVICE-CONNECTION FOR HERBICIDE-RELATED DISABILITIES OF VIETNAM-ERA VETERANS

Current Law

Under section 1116(a)(2)(F) of title 38, the presumption of service-connection with respect to respiratory cancers is limited to those cancers manifesting within 30 years of a servicemember's last active-duty date in Vietnam.

The CAVC decision in *McCartt v. West*, 12 Vet. App. 164 (1999) held that the Department of Veterans Affairs (VA) can only presume exposure to Agent Orange if the Vietnam veteran has one of the diseases listed as related to such exposure in 38 U.S.C. §1116(a) or 38 C.F.R. §3.309(e). VA practice prior to this decision had been to presume exposure for anyone who had served in Vietnam during the statutorily defined period of war unless there was affirmative evidence to the contrary.

Section 1116 authorizes the Secretary of Veterans' Affairs to establish, through regulation, a presumption of service-connection for diseases associated with exposure to Agent Orange. The Secretary is further authorized to contract with the National Academy of Sciences for the purposes of studying the effects of dioxin, and is required to base the establishment of a presumption of service-connection on NAS findings. This authority commenced in 1993 and will expire at the end of Fiscal Year 2003.

House Bill

Section 201 of H.R. 2540 codifies VA's July 9, 2001, regulation providing benefits for Vietnam veterans with Type 2 diabetes.

Senate Bill

Section 201 of the Senate bill would remove the 30-year limitation on the manifestation of respiratory cancer. This section would also change the result of the CAVC decision in *McCartt* by requiring VA to presume exposure to Agent Orange for all persons serving in Vietnam during the statutorily defined period of that conflict.

Section 201 would extend the Secretary's authority to determine a presumption of service-connection for additional diseases, based on future NAS Reports, through 2011. VA's authority to contract with the NAS to review scientific evidence on the effects of dioxin or herbicide exposure would be extended through 2011.

Compromise Agreement

Section 201(a)(1) of the compromise agreement follows the Senate language, but modifies the effective date for subsection (a) of

the Senate bill to January 1, 2002. Section 201(a)(2) of the compromise directs the Secretary to enter into a contract with the National Academy of Sciences specifically to review available scientific literature on exposure to herbicides and dioxin and the development of respiratory cancers. Section 201(a)(3) allows the Secretary to consider whether an upper limit on manifestation of respiratory cancers can be supported, and to impose such a limit by regulation if warranted, by available scientific evidence. Section 201(4) protects a grant of service-connection made under this section for purposes of all benefits administered by the Secretary; section 201(b) of the compromise agreement provides a statutory presumption of service-connection of Diabetes Type 2 for veterans exposed to Agent Orange and follows the House language; section 201(c) of the compromise agreement presumes that veterans who served in the Republic of Vietnam during the time period when herbicides were used were exposed to herbicides and follows the Senate language; and section 201(d) of the compromise agreement extends the Secretary's authority to contract with NAS through October 1, 2014, and extends the Secretary's authority to determine a presumption of service-connection through September 30, 2015.

PAYMENT OF COMPENSATION FOR PERSIAN GULF WAR VETERANS WITH CERTAIN CHRONIC DISABILITIES

Current Law

Public Law 103-446 gave the Secretary the authority to compensate a Gulf War veteran who suffers from disabilities that cannot be diagnosed or clearly defined, when other causes cannot be identified. Section 1117 of title 38, United States Code, sets forth parameters for compensating disabilities occurring in Gulf War veterans.

House Bill

Section 202 of H.R. 2540 would expand, effective April 1, 2002, the definition of "undiagnosed illness" for Gulf War veterans to include fibromyalgia, chronic fatigue syndrome, and chronic multisymptom illness, as well as other illnesses that cannot be clearly defined. Signs and symptoms listed in the House bill that are associated with an undiagnosed illness include headache, muscle pain, joint pain, neurologic signs or symptoms, neuropsychological signs or symptoms, signs or symptoms involving the respiratory system (upper or lower), sleep disturbances, gastrointestinal signs or symptoms, cardiovascular signs or symptoms, abnormal weight loss, and/or menstrual disorders.

Senate Bill

Section 202(b) of the Senate bill would expand the definition of "undiagnosed illness" by adding poorly defined chronic multisymptom illnesses of unknown etiology, regardless of diagnosis, characterized by two or more of the symptoms already listed in VA regulations. This section would also extend the presumptive period for service connection for Gulf War veterans by 10 years.

Compromise Agreement

Section 202 of the compromise agreement authorizes the Secretary effective March 1, 2002, to pay compensation to any eligible Gulf War veteran chronically disabled by an "undiagnosed illness," a "medically unexplained chronic multisymptom illness defined by a cluster of signs or symptoms," or "any diagnosed illness that the Secretary determines in regulations prescribed under subsection (d) warrants a presumption of

service-connection" (or any combination of these). The term "undiagnosed illnesses" has been interpreted by VA to preclude from eligibility for benefits under section 1117 or 1118 of title 38, United States Code, any veteran who has received a diagnosis, even if that diagnosis is merely a descriptive label for a collection of unexplained symptoms. This provision's addition of "medically unexplained chronic multisymptom illness defined by a cluster of signs or symptoms" to the list of compensable conditions fully implements the intent of Public Law 103-446. Public Law 103-446 authorized the Secretary to compensate certain Gulf War veterans disabled by symptoms that could not be connected conclusively to specific wartime exposures otherwise not compensable under other existing statutory bases.

In selecting this language, it is the intent of the Committees to ensure eligibility for chronically disabled Gulf War veterans not withstanding a diagnostic label by a clinician in the absence of conclusive pathophysiology or etiology. The compromise agreement's definition encompasses a variety of unexplained clinical conditions, characterized by overlapping symptoms and signs, that share features such as fatigue, pain, disability out of proportion to physical findings, and inconsistent demonstration of laboratory abnormalities. Aaron and Buchwald, A Review of the Evidence for Overlap Among Unexplained Clinical Conditions, 134(9) *Annals of Internal Medicine*: 868-880 (2001). Although chronic fatigue syndrome, fibromyalgia, and irritable bowel syndrome are the most common diagnoses under this definition, other conditions that may be characterized similarly include other chronic musculoskeletal pain disorders and chronic headache disorders.

By listing the first three diagnoses as examples, it is the Committees' intent to give guidance to the Secretary rather than to limit eligibility for compensation based upon other similarly described conditions that may be defined or redefined in the future. The Committees do not intend this definition to assert that the cited syndromes can be clinically or scientifically linked to Gulf War service based on current evidence, nor do they intend to include chronic multisymptom illnesses of partially understood etiology and pathophysiology such as diabetes or multiple sclerosis.

In evaluating chronic multisymptom illnesses, the Committees expect that VA will develop a schedule for rating disabilities based on severity of symptoms and the degree to which these impair a veteran's ability to obtain and retain substantially gainful employment. The ratings schedule already established by VA in section 4.88b of 38 CFR (6354) for chronic fatigue syndrome bases the degree of disability on the veteran's incapacitation rather than specific medical findings. This schedule can be used as a model for rating disabilities stemming from chronic multisymptom illnesses in general.

The compromise agreement includes a technical correction substituting a date certain of October 1, 2010, for "10 years after the last day of the fiscal year in which the National Academy of Sciences (NAS) submits the first report" as written under current law in section 1603(j) of the Persian Gulf War Veterans Act of 1998. This provision requires the Secretary to contract with the NAS for five biennial reports on Gulf War health issues. The compromise also amends sections 1117 and 1118 of title 38, United States Code, to clarify that the authority of the Secretary to determine that a disease warrants

presumptive service-connection based on these NAS reports continuing through September 30, 2011.

PRESERVATION OF SERVICE CONNECTION FOR UNDIAGNOSED ILLNESSES TO PROVIDE FOR PARTICIPATION IN RESEARCH PROJECTS BY GULF WAR VETERANS

Current Law

Under current law, the Secretary does not have specific authority to protect a Persian Gulf War veteran's grant of service connection for an undiagnosed illness if, as a result of participating in a medical research study, the condition is diagnosed.

House Bill

Section 203 of H.R. 2540 would authorize the Secretary to protect the grant of service connection for an undiagnosed illness when a Persian Gulf War veteran participates in a VA-sponsored medical research project. The Secretary would be required to publish in the Federal Register any medical research project whose participants would be protected under this section. The Secretary's authority extends to research projects commenced before, on or after date of enactment.

Senate Bill

The Senate bill contains no comparable provision.

Compromise Agreement

Section 203 of the compromise agreement protects veterans participating in medical research projects sponsored by the Department from loss of service-connection if the Secretary determines that such protection is necessary for conduct of the medical research. The Secretary is required to publish in the Federal Register a list of medical research projects sponsored by the Department for which service-connection is protected under this section.

REPEAL OF THE LIMITATION ON PAYMENTS OF BENEFITS TO INCOMPETENT VETERANS

Current Law

Subsections (b) and (c) of section 5503 of title 38, United States Code, establishes that compensation and pension benefits cannot be issued to an incompetent, institutionalized veteran with no dependents whose assets exceed five times the 100-percent compensation rate. Public Law 106-419 raised the dollar amount of the cutoff from \$1,500 to its present level.

House Bill

The House bills contain no comparable provision.

Senate Bill

Section 209 of the Senate bill would repeal the asset limitation on payment of benefits to incompetent institutionalized veterans who have no dependents.

Compromise Agreement

Section 204 of the compromise agreement follows the Senate language.

EXTENSION OF ROUND-DOWN REQUIREMENT FOR COMPENSATION COST-OF-LIVING ADJUSTMENTS

Current Law

Under sections 1104 and 1303 of title 38, United States Code, the Secretary has the authority to round down to the next lower whole dollar amount in the computation of cost-of-living adjustments through fiscal year 2002.

House Bill

The House bills contain no comparable provision.

Senate Bill

The Senate bill contains no comparable provision.

Compromise Agreement

Section 205 of the compromise agreement extends the Secretary's authority to round down to the next lower whole dollar amount the computation of cost-of-living adjustments through Fiscal Year 2011.

EXPANSION OF PRESUMPTIONS OF PERMANENT AND TOTAL DISABILITY FOR VETERANS APPLYING FOR NONSERVICE-CONNECTED PENSION

Current Law

Under section 1502(a) of title 38, United States Code, applicants for nonservice-connected pensions are considered to be totally and permanently disabled if they are unemployable, unable to follow a gainful occupation, or determined by the Secretary to be totally and permanently disabled. It is the Committees' understanding that VA regional office directors have been verbally instructed to implement a policy of presuming permanent and total disability for veterans who are patients in nursing homes for long-term care, or veterans determined permanently disabled by the Social Security Administration.

House Bill

The House bills contain no comparable provision.

Senate Bill

Section 203 of the Senate bill would presume that veterans who are in nursing homes for long-term care; are determined to be permanently disabled by the Social Security Administration (SSA); are at least 65 years old and have no current, recurring income from employment; or are unemployable as a result of a disability reasonably certain to continue throughout life, are permanently and totally disabled for purposes of nonservice-connected pension. This provision would be made retroactive to September 10, 2001.

Compromise Agreement

According to information provided to the Committees, VA has recently instructed its employees to adjudicate pension claims for veterans who are patients in long-term care facilities or who have been determined to be permanently disabled by the Social Security Administration without requiring a VA determination of disability. The Committees express their strong disapproval of the verbal manner in which the policy changes concerning evaluation of disability for patients in long-term care and those determined disabled by SSA were implemented. Verbally advising VA regional office directors to implement major policy changes without issuing either formal regulations or written guidance invites misinterpretation and confusion. The Committees strongly urge the Secretary to communicate all interpretative changes to policy in writing to appropriate officials, to make such instructions available to the public, and to comply with the notice and comment requirements of the Administrative Procedures Act for all substantive rules.

Section 206(a)(1) of the compromise agreement provides specific statutory authority for the evidentiary presumption verbally communicated to regional office directors for determining the eligibility of patients in a nursing home for long-term care to be disabled for purposes of pension benefits. The compromise agreement follows the Senate language and provides for an effective date of September 17, 2001, the date VA regional offices are believed to have implemented this policy.

Section 206(a)(2) of the compromise agreement provides that persons who have been

determined disabled by the Social Security Administration (SSA) will be considered disabled for purposes of pension benefits. Since the Committees believe that a SSA disability determination is an appropriate evidentiary basis for considering a veteran disabled, the compromise agreement considers a veteran disabled if SSA has made a determination of disability. The bill provides for an effective date of September 17, 2001, the date VA regional offices are believed to have implemented this policy.

Section 206(a)(3) of the compromise agreement provides that a person shall be considered disabled if the veteran is unemployable as a result of disability reasonably certain to continue throughout the life of the person. The compromise agreement follows the Senate language.

Section 206(a)(4) restates provisions currently contained in section 1502(a)(1) and (2) of current law. The compromise agreement follows the Senate language.

ELIGIBILITY OF VETERANS 65 YEARS OF AGE OR OLDER FOR VETERANS' PENSION BENEFITS

Current Law

Public Law 90-77 provided that a veteran is presumed disabled for purposes of pension benefits at age 65. Public Law 101-508 revoked the Secretary's authority to presume that a veteran was disabled for purposes of pension benefits at age 65. Although the Secretary lacks statutory authority to presume disability at age 65, it is the Committees' understanding that VA regional office directors were verbally instructed to implement a policy of presuming disability for pension applicants aged 65 and older.

House Bill

The House bills contain no comparable provision.

Senate Bill

Section 203(a)(3) of the Senate bill would restore the presumption of disability for purposes of pension eligibility at age 65 for veterans who based on evidence available to the Secretary have no current recurring income from employment.

Compromise Agreement

According to information provided to the Committees, VA has recently instructed its employees to adjudicate pension claims for veterans who are aged 65 or older and who have no wages from employment without requiring a VA determination of disability. The Committees express their strong disapproval of the Secretary's decision to ignore the requirements of Public Law 101-508 prohibiting a presumption of disability for purposes of pension eligibility at age 65 by verbally reinstating the policy. When the Secretary believes that legislation passed by Congress and enacted into law is unwise or administratively inefficient, it is the Secretary's responsibility to propose appropriate legislation to the Congress so that the problem identified can be corrected. Verbally instructing VA regional office directors to ignore statutory requirements and to presume that veterans are disabled at age 65 without authorizing legislation violates current law. The Committees expect the Secretary to advise Congress of any statutory provisions, which in the judgment of the Secretary are detrimental to caring for our Nation's veterans, and to transmit appropriate corrective legislative proposals for consideration.

Section 207 of the compromise agreement provides that a pension will be provided to wartime veterans aged 65 and older without regard to disability. These veterans must

still meet the nondisability requirements of section 1521 of title 38, United States Code, such as income and net worth. In determining that benefits will be provided at age 65 without regard to employment status, the Committees note that any veteran employed full-time and receiving at least a minimum wage would not qualify for pension based on the pension income limitations.

Nonetheless, the Committees agree that a policy of requiring proof of disability for an aged wartime veteran with incomes below the pension benefit amount involves use of scarce agency resources without a commensurate return. The Committees have determined that aged wartime veterans should be provided a needs-based pension under conditions similar to that provided for veterans of the Indian Wars and the Spanish-American War. The compromise agreement renders a wartime veteran eligible for a needs-based pension upon attaining age 65 effective September 17, 2001, the date VA regional offices are believed to have implemented a policy of providing a presumption of disability for wartime veterans aged 65 and older.

TITLE III—TRANSITION AND OUTREACH PROVISIONS

AUTHORITY TO ESTABLISH OVERSEAS VETERANS ASSISTANCE OFFICES TO EXPAND TRANSITION ASSISTANCE

Current Law

Sections 7722, 7723 and 7724 of title 38, United States Code, set forth VA's responsibilities with respect to outreach services, including outreach provided to separating servicemembers and eligible dependents. These sections do not specifically provide for the establishment and maintenance of veterans' assistance offices on military installations outside of the United States, its territorial possessions, or the Commonwealth of Puerto Rico. Through a funding arrangement with the Department of Defense, VA currently assigns representatives overseas on a rotational basis in a number of locations with large military populations.

House Bill

Section 201(a) of H.R. 801 would amend section 7723(a) of title 38, United States Code, to give the Secretary specific discretionary authority to establish veterans' assistance offices on such military installations in other locations as the Secretary determines necessary. In doing so, the Secretary would be required to consult with the Secretary of Defense.

Senate Bill

The Senate bill contains no comparable provision.

Compromise Agreement

Section 301 of the compromise agreement follows the House language.

TIMING OF PRESEPARATION COUNSELING

Current Law

The Departments of Defense, Veterans Affairs, and Labor assist separating servicemembers with benefits and services to facilitate a successful transition to civilian life. Currently, section 1142(a)(1) of title 10, United States Code, requires that pre-separation counseling begin not less than 90 days prior to discharge or release.

House Bill

Section 202 of H.R. 801 would change the timing of pre-separation counseling to begin as soon as possible during the 24-month period preceding an anticipated retirement and as soon as possible during the 12-month period preceding other separations, but in no event later than 90 days before the date of

discharge or release. In the case of an unanticipated retirement or other separation with 90 days or fewer prior to separation, pre-separation counseling shall begin as soon as possible within the remaining period of service. Except in the case of a servicemember who is being retired or separated for a disability, the Secretary concerned would not be permitted to provide pre-separation counseling to a servicemember who is being discharged or released before the completion of that servicemember's first 180 days of active duty service.

Senate Bill

The Senate bill contains no comparable provision.

Compromise Agreement

Section 302 of the compromise agreement follows the House language.

IMPROVEMENT IN EDUCATION AND TRAINING OUTREACH SERVICES FOR SEPARATING SERVICEMEMBERS AND VETERANS

Current Law

Section 3672(d) of title 38, United States Code, requires that the Secretary of Veterans Affairs actively promote the development of programs for purposes of section 3677 (on the job training) and section 3687 (apprenticeship or other on-job training).

House Bill

Section 203 of H.R. 801 would require that State Approving Agencies (SAA), in addition to the Secretary, actively promote the development of VA programs of training on the job (including programs of apprenticeship) under chapter 36 of title 38, United States Code. Section 203 would also require SAAs, in conjunction with outreach services furnished by the Secretary for education and training benefits under chapter 77 of title 38, United States Code, to conduct outreach programs and provide outreach services to eligible persons and veterans about education and training benefits available under applicable Federal and State law.

Senate Bill

The Senate bill contains no comparable provision.

Compromise Agreement

Section 303 of the compromise agreement follows the House language.

IMPROVEMENT OF VETERANS OUTREACH PROGRAMS

Current Law

Section 7722(c) of title 38, United States Code requires the Secretary to distribute full information to eligible veterans and eligible dependents regarding all benefits and services to which they may be entitled under laws administered by the Department and may, to the extent feasible, distribute information on other governmental programs (including manpower and training programs) that the Secretary determines would be beneficial to veterans.

House Bill

Section 205 of H.R. 801 would require VA, whenever a veteran or dependent first applies for any benefit (including a request for burial or related benefits or on application for life insurance proceeds), to provide information concerning all benefits and health services under programs administered by the Secretary.

Senate Bill

The Senate bill contains no comparable provision.

Compromise Agreement

Section 304 of the compromise agreement follows the House language with a modifica-

tion that the Secretary provides the information within 3 months of the veteran or dependent making an initial contact with VA.

TITLE IV—HOUSING MATTERS

INCREASE OF THE VA HOME LOAN GUARANTY AMOUNT FOR CONSTRUCTION AND PURCHASE OF HOMES

Current Law

Under section 3703 of title 38, United States Code, VA currently provides a guaranty of up to \$50,750 on home mortgage loans issued to eligible veterans by private lenders.

House Bill

The House bills contain no comparable provision.

Senate Bill

Section 301 of the Senate bill would increase the maximum home mortgage loan guaranty amount to \$63,175.

Compromise Agreement

Section 401 of the compromise agreement would increase the maximum home mortgage loan guaranty amount to \$60,000.

NATIVE AMERICAN VETERAN HOUSING LOAN PILOT PROGRAM

Current Law

Section 3761 of title 38, United States Code, established a pilot program whereby the Secretary may make direct housing loans to Native American veterans to permit such veterans to purchase, construct, or improve dwellings on trust land. The pilot program expires on December 31, 2001.

Current law requires a tribe to enter into a Memorandum of Understanding (MOU) with VA before VA can make home loans to members of that tribe.

House Bill

Section 404(a) of H.R. 2540 would extend to December 31, 2005, VA's direct loan program for Native American veterans living on trust lands. Section 404(b) would amend section 3762(a)(1) of title 38, United States Code, to permit VA to make a direct housing loan to a member of a Native American tribe that has entered into an MOU with another federal agency if that MOU generally conforms to the requirements of VA's program.

Senate Bill

Section 302 of the Senate bill extends the Native American veterans housing loan program to December 31, 2005. It also extends the requirement of an annual report under section 3762(j) through 2006.

Compromise Agreement

Section 402 of the compromise agreement follows the House language with the addition of the reporting requirement until 2006.

MODIFICATION OF LOAN ASSUMPTION NOTICE REQUIREMENT

Current Law

Section 3714(d) of title 38, United States Code, requires that all VA loans and security instruments contain on the first page in letters two and one half times the size of the regular type face used in the document, a statement that the loan is not assumable without approval of VA or its authorized agent.

House Bill

Section 405 of H.R. 2540 would modify the requirement in section 3714(d) of title 38, United States Code, by requiring that such notice appear conspicuously on at least one instrument (such as a VA rider) under guidelines established by VA in regulations.

Senate Bill

The Senate bill contains no comparable provision.

Compromise Agreement

Section 403 of the compromise agreement follows the House language.

INCREASE IN ASSISTANCE AMOUNT FOR SPECIALLY ADAPTED HOUSING

Current Law

The Secretary is authorized in chapter 21 of title 38, United States Code, to assist eligible veterans in acquiring suitable housing and adaptations with special fixtures made necessary by the nature of the veteran's service-connected disability, and with the necessary land. The assistance authorized for a severely disabled veteran shall not exceed \$43,000. The amount authorized for less severely disabled veterans shall not exceed \$8,250.

House Bill

Section 305 of H.R. 801 would increase the grant for specially adapted housing for severely disabled veterans to \$48,000 and for less severely disabled veterans to \$9,250.

Senate Bill

The Senate bill contains no comparable provision.

Compromise Agreement

Section 404 of the compromise agreement follows the House language.

EXTENSION OF OTHER HOUSING AUTHORITIES

Current Law

Subsection 3702(a)(2)(E) of title 38, United States Code, authorizes VA to provide housing loan guaranties to members of the Selected Reserve through

September 30, 2007; subsection 3720(h)(2) authorizes VA to issue guaranties of timely principal and interest payments on trust-issued securities backed by vendee loans through December 31, 2008; subsection 3729(b)(2) authorizes VA to charge a loan fee for VA home loan guaranties through October 1, 2008; and subsection 3732(c)(11) of title 38, United States Code, authorizes VA to apply specified procedures for liquidation sales to defaulted home loans guaranteed by VA through October 1, 2008.

House Bill

The House bills contain no comparable provision.

Senate Bill

Section 303(a) of the Senate bill extends VA's authority to provide housing loan guaranties to members of the Selected Reserve through September 30, 2011; section 303(b) extends VA's loan asset sale authority through December 31, 2011; section 303(c) extends the VA's authority to charge a loan fee for VA home loan guaranties through October 1, 2011; and section 303(d) extends VA's authority to apply procedures for liquidation sales to defaulted home loans guaranteed by VA through October 1, 2011.

Compromise Agreement

Section 405(a) of the compromise agreement extends the housing loan guaranties to members of the Selected Reserve through September 30, 2009; sections 405(b) through (d) of the compromise agreement follows the Senate language.

TITLE V—OTHER MATTERS

INCREASE IN BURIAL BENEFITS

Current Law

Under section 2307 of title 38, United States Code, the Secretary, upon request of the survivors of a veteran, shall pay the burial and funeral expenses incurred in connection with the death of a veteran. In the case of a veteran who dies as the result of a service-connected disability, the amount would not exceed the greater of (1) \$1,500, or (2) the

amount authorized to be paid under section 8134(a) of title 5, United States Code, in the case of a federal employee whose death occurs as the result of an injury sustained in the performance of duty. In the case of non-service-connected deaths, section 2302 of title 38, United States Code provides for a payment in the amount of \$300 for veterans in receipt of compensation or pension. Section 2303(b) of title 38, United States Code, also authorizes the Secretary to pay a \$150 plot allowance for eligible veterans buried in a state or private cemetery.

House Bill

Section 301(a) of H.R. 801 would increase the burial and funeral allowance payable for service-connected deaths from \$1,500 to \$2,000, and for nonservice connected deaths from \$300 to \$500. Section 301(b) would increase the burial plot allowance from \$150 to \$300. Section 301(c) would require that such amounts payable under sections 2302 (funeral expenses), 2303 (plot allowance), and 2307 (death from service-connected disability) would be indexed to cost-of-living increases in benefits paid under the Social Security Act, title 42, United States Code.

Senate Bill

Section 401 of the Senate bill would increase the burial benefits for service-connected deaths from \$1,500 to \$2,000.

Compromise Agreement

Section 501 of the compromise bill would increase burial benefits for service-connected deaths from \$1,500 to \$2,000 effective September 11, 2001, and increase the plot allowance from \$150 to \$300 effective December 1, 2001.

GOVERNMENT MARKERS FOR MARKED GRAVES AT PRIVATE CEMETERIES

Current Law

Section 2306 of title 38 limits the provision of headstones and grave markers by VA to the unmarked graves of veterans, or to commemorate the grave of an eligible person whose remains are unavailable. A veteran's family is permitted to obtain a private marker later. However, if a veteran's family obtains a private marker first, the VA may not furnish a headstone or grave marker.

House Bill

The House bills contain no comparable provision.

Senate Bill

Section 402 of S. 1088 would allow the Secretary of VA to furnish bronze markers for already privately marked graves. This section would permit the marker to be located in an appropriate place to be determined by the cemetery concerned, within the grounds of the cemetery. Eligibility for grave markers would apply to deaths occurring after the date of enactment of this provision and deaths occurring before its enactment, but after November 1, 1990, so long as the request for the marker is made within 4 years after the enactment date.

Compromise Agreement

Section 502 of the compromise agreement creates a five-year program requiring the Secretary to furnish a bronze marker to those families that request a government marker for the marked grave of a veteran at a private cemetery. The Secretary is required to furnish the marker directly to the cemetery and the family is required to place the marker on the veteran's gravesite. Not later than February 1, 2006, the Secretary shall submit to the Committees on Veterans' Affairs of the Senate and the House of Representatives a report on the use of this five-

year authority to include: the rate and cost of the use of the benefit by fiscal year; an assessment if the extent to which markers are being delivered to cemeteries and placed on gravesites; and the Secretary's recommendation for extension or repeal of the December 31, 2006, expiration date. The Committees note that the Secretary should implement this provision in a flexible manner in light of requests for grave markers pre-dating this provision.

INCREASE IN AMOUNT OF ASSISTANCE FOR AUTOMOBILE AND ADAPTIVE EQUIPMENT FOR CERTAIN DISABLED VETERANS

Current Law

Under section 3902(a) of title 38, United States Code, the Secretary may pay up to \$8,000 (including all state, local, and other taxes) to an eligible disabled servicemember or veteran to purchase an automobile.

House Bill

Section 304 of H.R. 801 would increase the amount of assistance for automobile grants from \$8,000 to \$9,000.

Senate Bill

The Senate bill contains no comparable provision.

Compromise Agreement

Section 503 of the compromise agreement follows the House language.

EXTENSION OF LIMITATION ON PENSION FOR CERTAIN RECIPIENTS OF MEDICAID-COVERED NURSING HOME CARE

Current Law

Under section 5503(f) of title 38, United States Code, VA pension paid to certain veterans receiving Medicaid-covered nursing home care is reduced to \$90 per month. VA's authority to reduce the pension amount expires on September 30, 2008.

House Bill

The House bills contain no comparable provision.

Senate Bill

Section 210 of the Senate bill would extend through September 30, 2011, the \$90 per month cap on VA pensions paid to certain veterans receiving Medicaid-covered nursing home care.

Compromise Agreement

Section 504 of the compromise agreement follows the Senate language.

PROHIBITION OF VETERANS RECEIVING BENEFITS WHILE FUGITIVE FELONS

Current Law

Public Law 104-193 bars fugitive felons from receiving Supplemental Security Insurance from the Social Security Administration and food stamps from the Department of Agriculture. Currently, there is no law barring veterans who are fugitive felons from receiving VA benefits.

House Bill

The House bills contain no comparable provision.

Senate Bill

Section 207 of the Senate bill would prohibit veterans and eligible dependents from receiving veterans benefits while a "fugitive," which is defined under this section as fleeing to avoid prosecution, or custody or confinement after conviction, for an offense, or an attempt to commit an offense, which is a felony under the laws of the place from which the veteran flees.

Compromise Agreement

Section 505 of the compromise agreement substantially follows the Senate language.

LIMITATION ON PAYMENT OF COMPENSATION FOR VETERANS REMAINING INCARCERATED SINCE OCTOBER 7, 1980

Current Law

Under section 5313(d) of title 38, United States Code, compensation paid to any veteran incarcerated after October 7, 1980, is reduced to a level equal to the compensation rate for a 10 percent disability with the balance allowed to be apportioned to the veteran's dependants, if any.

House Bill

The House bills contain no comparable provision.

Senate Bill

Section 208 of the Senate bill would apply the restrictions listed in section 5313(d) of title 38, United States Code, to veterans incarcerated before October 7, 1980. This provision would not affect any payments made prior to the enactment of this legislation.

Compromise Agreement

Section 506 of the compromise agreement follows the Senate language. It is the Committees' hope that VA will receive all necessary cooperation from the state and federal prison systems in implementing this provision, such as the timely compiling of data of incarcerated veterans affected by this change in law.

ELIMINATION OF REQUIREMENT FOR PROVIDING A COPY OF NOTICE OF APPEAL TO THE SECRETARY OF VETERANS AFFAIRS

Current Law

Section 7266(b) of title 38, United States Code, requires an individual appealing a decision of the Board of Veterans' Appeals to furnish the Secretary of Veterans Affairs with a copy of his or her notice of appeal to the U.S. Court of Appeals for Veterans Claims.

House Bill

Section 406 of H.R. 2540 repeals section 7266(b) of title 38, United States Code.

Senate Bill

The Senate bill contains no comparable provision.

Compromise Agreement

Section 507 of the compromise agreement follows the House language.

INCREASE IN FISCAL YEAR LIMITATION ON THE NUMBER OF VETERANS IN PROGRAMS OF INDEPENDENT LIVING SERVICES AND ASSISTANCE

Current Law

Under section 3120 of title 38, United States Code, VA's Vocational Rehabilitation and Employment Service maintains an independent living program designed to assist service-disabled veterans, who are too disabled to retrain for employment, in achieving and maintaining defined independent living outcomes. Subsection 3120(e) of this title limits participation in this program to no more than 500 veteran participants per fiscal year. Despite this limitation, VA has been providing services to approximately 2,400 veterans per year.

House Bill

The House bills contain no comparable provision.

Senate Bill

Section 501 of the Senate bill would eliminate the 500-veteran cap for participants of the independent living program, and would retain first priority to veterans for whom there is a reasonable feasibility of achieving a vocational goal but for their service-connected condition.

Compromise Agreement

Section 508 of the compromise agreement would increase the maximum number of veterans allowed to participate in the VA independent living program to 2,500, and would retain first priority to veterans for whom there is a reasonable feasibility of achieving a vocational goal but for their service-connected condition.

While the Committees acknowledge the value of this program, the Committees strongly disapprove of VA's apparent decision to ignore the limitations in current law. When a limitation contains in current law proves detrimental to veterans, the Committees expect that the Secretary will not proceed to ignore the law, but rather to present the Congress with appropriate corrective legislation. In the event that the number currently authorized proves to be insufficient to meet the needs of our Nation's disabled veterans, the Committees direct the Secretary to propose appropriate legislation to Congress.

TITLE VI—U.S. COURT OF APPEALS FOR VETERANS CLAIMS

FACILITATION OF STAGGERED TERMS OF JUDGES THROUGH TEMPORARY EXPANSION OF THE COURT

Current Law

Section 7253 of title 38, United States Code, requires that the U.S. Court of Appeals for Veterans Claims (CAVC) shall be composed of no more than seven judges and one shall be chief judge. After the Court's establishment in 1988, the initial seven judges were appointed within 16 months of one another. A new judge was appointed in 1997 to fill a vacancy created by the death of one of the originally appointed judges. The chief judge retired in 2000, and his seat has not yet been filled. By 2005, the terms of five of the remaining judges will have ended. This will likely leave four simultaneously vacant seats by 2005.

House Bill

The House bills contain no comparable provision.

Senate Bill

Section 601 of the Senate bill would temporarily expand the membership of the CAVC by two seats until August 2005 in order to bridge the retirement of the original judges.

Compromise Agreement

Section 601 of the compromise agreement follows the Senate language.

REPEAL OF REQUIREMENT FOR WRITTEN NOTICE REGARDING ACCEPTANCE OF RE-APPOINTMENT AS CONDITION TO RETIREMENT FROM THE COURT

Current Law

Section 7296(b)(2) of title 38, United States Code, requires a judge who has not been reappointed following the expiration of his or her appointed term, before that judge is 65 years old, as a precondition to retirement, to advise the President, in writing, that the judge is willing to accept reappointment.

House Bill

The House bills contain no comparable provision.

Senate Bill

Section 602 of the Senate bill would repeal the requirement that a judge provide written notice indicating willingness to accept reappointment as a precondition to retirement from the CAVC.

Compromise Agreement

Section 602 of the compromise agreement follows the Senate language.

TERMINATION OF NOTICE OF DISAGREEMENT AS JURISDICTIONAL REQUIREMENT FOR THE COURT

Current Law

Under section 402 of the Veterans' Judicial Review Act (Public Law 100-687; 38 U.S.C. §7251 note) (VJRA), a Notice of Disagreement (NOD) must have been filed on or after November 18, 1988, in order to establish jurisdiction necessary for the CAVC to review a claimant's case. Section 403 of the VJRA (102 Stat. 4122; 38 U.S.C. §5904 note) limits the payment of attorney fees to cases in which a post-November 17, 1988, NOD has been filed.

House Bill

The House bills contain no comparable provision.

Senate Bill

Section 603(a) of the Senate bill would eliminate the post-November 17, 1988, NOD as a prerequisite to jurisdiction at the CAVC. It would not affect the requirement of a NOD to trigger appeal within VA of a decision nor any other prerequisite to review at the Court. Section 603(b) of the Senate bill would similarly eliminate the limitation on payment of attorney fees to those cases in which a post-November 17, 1988, NOD has been filed.

Compromise Agreement

Section 603 of the compromise agreement follows the Senate language.

REGISTRATION FEES

Current Law

Section 7285 of title 38, United States Code, provides that the CAVC may impose periodic registration fees on persons admitted to practice before the Court. These fees may be used for purposes of hiring independent counsel to pursue disciplinary matters and defraying administrative costs for the implementation of the standards of proficiency prescribed for practice before the Court.

House Bill

Section 301(a) of H.R. 2540 would authorize the Court to collect registration fees for persons participating in a judicial conference or other Court-sponsored activities where appropriate.

Section 301(b) of H.R. 2540 would amend section 7285(b) of title 38, United States Code, to add that registration fees paid to the Court may also be used generally in connection with practitioner disciplinary proceedings and in support of certain bench-and-bar and veterans' law educational activities.

Senate Bill

Section 604 of the Senate bill contains a comparable provision.

Compromise Agreement

Section 604 of the compromise agreement follows the House language.

ADMINISTRATIVE AUTHORITIES

Current Law

The CAVC, established by Congress under Article I of the United States Constitution to exercise judicial power, has unusual status as an independent tribunal that does not have the same general administrative authority as courts established under Article III of the Constitution. Because of its status, the Court does not have available to it certain general authorities that would normally be available were it part of the executive branch or another administrative structure.

House Bill

Section 302 of H.R. 2540 would add a new section 7287 to title 38, United States Code, to make available to the Court generally the same management, administrative, and expenditure authorities that are available to Article III courts of the United States.

Senate Bill

Section 605 of the Senate bill contains a comparable provision.

Compromise Agreement

Section 605 of the compromise agreement follows the House language.

LEGISLATIVE PROVISIONS NOT ADOPTED

AUTHORITY FOR ACCELERATED PAYMENTS OF BASIC EDUCATIONAL ASSISTANCE UNDER MONTGOMERY GI BILL

Current Law

Section 3014 of title 38 provides that the basic educational benefit available under the Montgomery GI Bill be disbursed in up to 36 monthly installments. Benefits are provided for each month in which the MGIB participant is certified to be participating in a course of study. If requested by a veteran, section 3680(d)(2) of title 38 allows for an advance payment of educational assistance in an amount equivalent to the allowance for the month, or fraction thereof, in which pursuit of an education program will commence, plus the allowance for the succeeding month.

House Bill

The House bills contain no comparable provision.

Senate Bill

Section 102 of the Senate bill would allow Montgomery GI Bill participants to receive their otherwise monthly payment as an accelerated lump-sum payment for the month in which a course of study begins, plus up to 4 months worth of educational assistance allowance. In the case of a term, quarter, or semester, the accelerated lump-sum payment would equal the amount of the aggregate monthly educational assistance allowance for the entire term, quarter, or semester.

PRESUMPTIVE PERIOD FOR UNDIAGNOSED ILLNESSES

Current Law

Section 1117(b) of title 38 United States Code authorizes the Secretary to extend the period of presumption of service connection for Persian Gulf War veterans disabled by undiagnosed illnesses by regulation. On October 12, 2001, the Secretary published a regulation extending the presumptive period through December 31, 2006.

House Bill

Section 204 of H.R. 2540 extends the presumptive period for undiagnosed illnesses to December 31, 2003.

Senate Bill

Section 202(a) of the Senate bill extended the presumptive period for undiagnosed illnesses to December 31, 2011, or such later date as the Secretary may prescribe by regulation.

REVISION OF RULES WITH RESPECT TO NET WORTH LIMITATION FOR ELIGIBILITY FOR PENSIONS FOR VETERANS WHO ARE PERMANENTLY AND TOTALLY DISABLED FROM A NONSERVICE-CONNECTED DISABILITY

Current Law

The VA Pension Program at chapter 15 of title 38, United States Code, provides financial assistance based upon need to veterans who have had at least 90 days of military service, including at least one day of wartime service, and who are totally and permanently disabled for employment purposes as a result of disability not related to their military service. In determining eligibility for pension benefits, VA is required to consider not only the family income, but also the family's "net worth." The value of farm

and ranch land is included in determining net worth unless VA determines that land can be sold at "no substantial sacrifice," section 3.275 of chapter 38, Code of Federal Regulations.

House Bill

Section 306 of H.R. 801 would revise the rule with respect to net worth limitation for VA's means-tested pension program by excluding the value of property used for farming, ranching, or similar agricultural purposes.

Senate Bill

The Senate bill contains no comparable provision.

MODIFICATION OF THE TIME LIMITATION FOR RECEIPT OF CLAIM INFORMATION

Current Law

Under section 5103(b) of title 38 there exists a one-year time limit, following notification by the Secretary, on the receipt of information and evidence necessary to substantiate a claim for benefits based on an already complete or substantially complete application. Public Law 106-475 established this time limitation and eliminated an identical limitation on the receipt of information and evidence necessary to complete an application for benefits.

House Bill

The House bills contain no comparable provision.

Senate Bill

Section 205 of the Senate bill would restore the one-year time limit on the receipt of information or evidence necessary to complete an application following notification by the Secretary. It would also eliminate the existing one-year time limit on information or evidence necessary to substantiate a claim based on a completed or substantially complete application.

MODIFICATION OF THE EFFECTIVE DATE OF CHANGE IN RECURRING INCOME FOR PENSION PURPOSES

Current Law

Section 5112(b)(4) of title 38, United States Code, requires VA pensions be reduced or discontinued effective the first day of the month following the month in which the pensioner's net income is reported to have increased.

House Bill

The House bills contain no comparable provision.

Senate Bill

Section 206 of the Senate bill would modify the effective date of reduction or discontinuation of compensation or pension by reason of a change in recurring income to the first day of the year following the year in which the pensioner's net income is reported to have changed.

PAYMENT OF INSURANCE PROCEEDS TO AN ALTERNATE BENEFICIARY WHEN FIRST BENEFICIARY CANNOT BE IDENTIFIED

Current Law

Under chapter 19 of title 38, United States Code, there is no time limitation for a first-named beneficiary of a National Service Life Insurance (NSLI) or a United States Government Life Insurance (USGLI) policy to file a claim for proceeds. As a result, when the insured dies and the beneficiary does not file a claim, VA is required to hold the unclaimed funds indefinitely in order to honor any possible future claims by that beneficiary. VA is not permitted to pay the proceeds to an alternate beneficiary unless VA can determine

that the first beneficiary predeceased the policyholder.

House Bill

Section 401 of H.R. 2540 would grant the Secretary of Veterans Affairs the authority to authorize payment of NSLI or USGLI proceeds to an alternate beneficiary when the proceeds have not been claimed by the first-named beneficiary within three years following the death of the policyholder. If no beneficiary has filed a claim within five years of the veteran's death, benefits could be paid to such person as the Secretary determines is equitably entitled to the proceeds of the policy.

Senate Bill

The Senate bill contains no comparable provision.

EXTENSION OF COPAYMENT REQUIREMENT FOR OUTPATIENT PRESCRIPTION MEDICATIONS

Current Law

Section 1722A(c) of title 38, United States Code, furnishes the Secretary the authority, through September 30, 2002, to require a copayment of \$2 for each 30-day supply of medication VA furnishes a veteran on an outpatient basis for the treatment of a non-service connected disability or condition.

House Bill

Section 402 of H.R. 2540 would extend until September 30, 2006, the authority of the Secretary to require a \$2 copayment for each 30-day supply of medication.

Senate Bill

The Senate bill contains no comparable provision.

DEPARTMENT OF VETERANS AFFAIRS HEALTH SERVICES IMPROVEMENT FUND MADE SUBJECT TO APPROPRIATIONS

House Bill

Section 403 of H.R. 2540 would amend section 1729B of title 38, United States Code, by making the availability of funds in the VA's Health Services Improvement Fund subject to the provisions of appropriations acts effective October 1, 2002.

Senate Bill

The Senate bill contains no comparable provision.

PILOT PROGRAM FOR EXPANSION OF TOLL-FREE TELEPHONE ACCESS TO VETERANS SERVICE REPRESENTATIVES

Current Law

VA provides various toll-free automated telephone response systems for veterans to furnish them information on VA benefits and services.

House Bill

Section 407 of H.R. 2540 would establish a two-year nationwide pilot program to test the benefit and cost effectiveness of expanding current access to VA veterans service representatives through a toll-free telephone number. Under the pilot program, the Secretary would be required to expand the available hours of such access to veterans service representatives to not less than twelve hours on each regular business day across U.S. time zones and not less than six hours on Saturday. The pilot would also require that such service representatives have available to them information about veterans benefits provided by all other federal departments and agencies, and state governments.

Senate Bill

The Senate bill contains no comparable provision.

CODIFICATION OF RECURRING PROVISIONS IN ANNUAL DEPARTMENT OF VETERANS AFFAIRS APPROPRIATIONS ACTS

Current Law

Each year the Congress appropriates funds to the Department of Veterans Affairs as part of the Departments of Veterans Affairs and Housing and Urban Development, Independent Agencies Appropriations Act. Although the amount of the appropriations varies from year to year, the purposes for which appropriations are made are generally fixed, and change little, if any, from year to year.

House Bill

Section 409 of H.R. 2540 would codify recurring provisions in annual Department of Veterans Affairs Appropriations Acts.

Senate Bill

The Senate bill contains no comparable provision.

Mr. Speaker, I reserve the balance of my time.

Mr. EVANS. Mr. Speaker, I yield myself such time as I may consume.

Mr. EVANS. Mr. Speaker, here is another issue in which our leadership of the Committee on Veterans' Affairs is paying off, to the great benefit of our veterans. The gentleman from New Jersey (Mr. SMITH), on every piece of legislation today that we are offering, has exerted his leadership and demanded a lot out of us. We worked a lot of hard hours to get this legislation to this point today, so we salute him for his efforts.

I also want to acknowledge and thank the leaders of the Subcommittee on Benefits, the gentleman from Idaho (Mr. SIMPSON), and the gentleman from Texas (Mr. REYES), members of the subcommittee, and the committee's staff, for their invaluable contributions to this legislation.

In particular, I also want to acknowledge and thank Mary Ellen McCarthy, Todd Houchins, and Beth Kilker from my staff for their work on this issue.

Every member of the Committee on Veterans' Affairs has recognized the need for a meaningful increase in the Montgomery G.I. bill. I was proud to co-author this legislation, the Montgomery G.I. Bill Improvements Act of 2001, with my good friend, the gentleman from Michigan (Mr. DINGELL). H.R. 310 will pay the full costs of tuition, fees, books, and supplies, as well as a living stipend.

Increased veterans educational benefits have also been proposed under H.R. 1280, authored by the gentleman from Mississippi (Mr. SHOWS). Additionally, I was an original cosponsor of H.R. 1291, the 21st Century Montgomery G.I. Bill Enhancement Act, introduced by the gentleman from New Jersey (Mr. SMITH).

I am pleased that the bills before us today embody the essence of H.R. 1291, as originally supported by the House. Our veterans should receive the best possible education benefits for their honorable service to our country, and this is a positive step forward in that regard.

As a long-term supporter of benefits for those who suffered from the effects of exposure to herbicides such as Agent Orange, I am pleased that H.R. 1291 changes an erroneous decision of the U.S. Court of Appeals for Veteran Claims. Congress has clearly reaffirmed in H.R. 1291 the presumption of exposure to herbicides such as Agent Orange for veterans who fought in that conflict.

I strongly support the provision removing the 30-year limitation on the presumptive period for Vietnam veterans diagnosed with cancers of the respiratory tract. This provision is similar to H.R. 1587, introduced in the House by the gentlewoman from Georgia (Ms. MCKINNEY). I want to thank her for her leadership on this important issue. I am also pleased this legislation includes a statutory presumption that makes clear to veterans that eligibility for service-connection of diabetes associated with exposure to herbicides is a protected statutory right.

I also strongly support section 202 of the bill, based on H.R. 1406, which I introduced, which overturns the narrow and erroneous opinion of the Department of Veterans Affairs general counsel.

Thousands of veterans who were healthy before their service in that country, in that region, and who now experience a variety of unexplained symptoms, will qualify for benefits under this provision. Section 202 of H.R. 1291 emphasizes that Congress initially intended it by focusing on the symptoms which have a disabling effect that affects some of our Gulf War veterans.

Section 203 of H.R. 1291 gives the Secretary of Veterans Affairs the authority to protect the service-connection of veterans receiving compensation benefits. Last year, the gentlewoman from California (Mrs. CAPPS), and I became acquainted with her work, that the VA was having difficulty in recruiting veterans to participate in VA research studies concerning the prevalence of ALS, or Lou Gehrig's disease, in Gulf War veterans who returned with problems. This section is intended to provide the VA with the authority to enable veterans to participate in medical research studies without fear that their benefits would be placed in jeopardy.

I am also pleased that the bill contains provisions expanding eligibility for low-income wartime vets who seek a nonservice-connected pension. Nonetheless, I am concerned that these major policy and legal changes were recently implemented by the VA under verbal instructions to regional office directors. It is critical that all branches of the government recognize and foster the rule of law.

The bill also recognizes the VA's efforts to provide veterans dependents with information concerning benefits

and health care services under programs administered by the Secretary of the Army whenever they first apply for benefits. This provision is derived from legislation authored by the gentleman from Pennsylvania (Mr. DOYLE), the gentleman from New Jersey (Mr. PASCRELL); and both are committed advocates for our veterans. I salute them for their efforts.

Again, I want to thank the gentleman from New Jersey (Chairman SMITH) for his hard work in bringing this bill forward, and I urge every Member of this body to support H.R. 1291, as amended.

Mr. Speaker, I reserve the balance of my time.

Mr. SMITH of New Jersey. Mr. Speaker, I yield such time as he may consume to the gentleman from Idaho (Mr. SIMPSON), distinguished chairman of our subcommittee and the former Speaker of the Idaho House of Representatives. We are pleased to have a man of his caliber heading up the Subcommittee on Benefits.

Mr. SIMPSON. Mr. Speaker, at the outset I would like to thank the gentleman from New Jersey (Chairman SMITH) and the gentleman from Illinois (Mr. EVANS) for their leadership in crafting with the Senate the compromise agreement on H.R. 1291, and bringing it to the floor today, and also for the gentleman's leadership on the previous two veterans bills passed earlier today, the cost-of-living adjustment for veterans and that legislation to address the tragedy of homeless veterans.

Mr. Speaker, I am pleased to rise today in strong support of H.R. 1291, the Veterans Education and Benefits Expansion Act of 2001. This bill indeed is a comprehensive and sweeping measure. The bill makes a number of needed improvements to programs serving veterans and their families, some of which I would like to briefly highlight.

First and foremost, I am very pleased we have been able to provide further substantial increases in the Montgomery G.I. bill, which is perhaps the most important piece of social legislation in our country's history. I appreciate our counterparts in the Senate working with us on this provision.

Last year, we were able to secure a monthly increase from \$536 to \$650 per month. We did this knowing that we still had a ways to go to reach our goal of \$1,025 per month needed by a veteran-student to attend a 4-year public institution as a commuter student.

As the gentleman from New Jersey (Chairman SMITH) indicated, one of the hallmarks of this compromise agreement is an increase effective January 1, 2002, from \$650 to \$800 per month for veterans pursuing a college education on a full-time basis. This monthly amount increases to \$900 during the fiscal year 2003 and \$985 in fiscal year 2004. Their survivors and dependents'

educational assistance program will also see an increase from \$588 to \$670 per month.

Mr. Speaker, this bill includes 11 separate educational provisions, including payment of 60 percent of the cost of tuition for high-cost short-term academically intensive courses leading to employment in the high-technology industry.

The bill also expands the Montgomery G.I. bill benefits for certain Vietnam-era veterans, increases the maximum allowable senior ROTC educational assistance, expands work-to-study opportunities for veterans, and makes certificate programs offered by an accredited institution of higher learning by way of independent study approvable for veterans' training.

□ 1700

Additionally over 10,000 reservists have been called up in support of Operation Enduring Freedom, and some of them have had to disenroll from their college level courses. Section 103 of the bill would allow these selfless men and women the chance to regain both time and money for their education.

About 2 percent of the 714,000 service members who served in the Persian Gulf suffer from difficult-to-diagnose illnesses. Section 202 expands the definition of an undiagnosed illness as well as lists signs and symptoms that may be a manifestation of an undiagnosed illness in certain Persian Gulf veterans. I want to thank the gentleman from Illinois (Mr. MANZULLO) for his work on this piece of legislation.

Section 203 would grant the Secretary the authority to protect the service-connected grant of a Persian Gulf veteran who participates in a Department-sponsored medical research project. It is our intent that this provision will broaden participation in vital scientific and medical studies.

As the gentleman from New Jersey (Mr. SMITH) said, this bill keeps the promise to severely disabled veterans by increasing benefits for specially adapted housing and automobile adapted equipment allowances and also increases certain burial benefits.

Lastly, the compromise agreement also expands VA's outreach to veterans and their families by providing the Secretary the authority to maintain veterans assistance offices overseas, by expanding the timing of pre-separation counseling for our servicemembers, and by improving education and training outreach information for separating servicemembers and veterans.

I would like to thank the gentleman from New Jersey (Mr. SMITH), our chairman; the gentleman from Florida (Mr. BILIRAKIS), the vice chairman; the gentleman from Illinois (Mr. EVANS); and my counterpart, the gentleman from Texas (Mr. REYES) for their continued commitment to our military and veterans communities. It truly has been a pleasure working with them.

Mr. Speaker, the House could not approve such a comprehensive bill at a better time. Our servicemen and women are overseas and literally fighting for the freedoms and liberties we may have taken for granted prior to September 11. By passing this bill today, we are sending a clear message to America's sons and daughters that upon completion of their military service, we will be there for them when they transition to civilian life.

Mr. Speaker, I urge my colleagues to do our duty to support our veterans by supporting the Education and Benefits Expansion Act of 2001.

Mr. EVANS. Mr. Speaker, may I inquire how much time both sides have at this point?

The SPEAKER pro tempore (Mr. OTTER). The gentleman from Illinois (Mr. EVANS) has 15 minutes remaining, and the gentleman from New Jersey (Mr. SMITH) has 8 minutes.

Mr. EVANS. Mr. Speaker, I yield 4 minutes to the gentleman from Texas (Mr. Reyes).

Mr. REYES. Mr. Speaker, I thank the gentleman from Illinois (Mr. EVANS) for yielding me the time.

Mr. Speaker, I rise in strong support of H.R. 1291, the Veterans Education and Benefits Expansion Act of 2001.

I commend and thank the gentleman from New Jersey (Mr. SMITH), the distinguished chairman of the committee, and the gentleman from Illinois (Mr. EVANS), our ranking member, for their hard work in bringing this measure before us today. I want to especially acknowledge and thank the cooperation of the gentleman from Idaho (Mr. SIMPSON), my good friend and the Subcommittee on Benefits chairman, for his work on the benefits legislation which has been included in this bill.

As an original cosponsor and strong supporter of many of the provisions included in this bill, I am pleased that we are moving forward to provide improved education, compensation, readjustment, housing and other benefits to our Nation's veterans and to their families.

As a beneficiary of the VA's educational benefits, I support the provisions to increase the educational benefits that have been provided under the Montgomery GI Bill and Survivors and Dependents Educational Assistance Act. Now is certainly the time to be considering ways of improving the benefits that our country offers to our brave men and women who place their lives on the line in the defense of its Nation, its citizens and its ideals. It seems only fair to me that our veterans should have every opportunity to return home and enjoy improved educational advantages.

I view the Montgomery GI bill as one of the most important programs administered by the Department of Veterans Affairs. Since 1944, our government has provided education benefits

to veterans in order to advance military recruitment and to assist in the veteran's readjustment to civilian life. These programs have been very effective. Although these increases are still not adequate to fully cover the cost of higher education in today's education market, they are a good step in the right direction.

I also want to highlight the provisions that will address the need of our Gulf War veterans who are suffering from a variety of signs and symptoms of poorly-defined medical conditions. The compromise bill will allow Gulf War veterans with chronic fatigue symptoms and other chronic multi-symptom systems to be compensated as of March 1, 2001.

According to the most recent report of the Institute of Medicine, military personnel who served in the Gulf War have had a significantly higher risk of suffering one or more of a set of symptoms that include fatigue, memory loss, difficulty concentrating, pains in muscles, and joints and rashes. Congress had intended that Gulf War veterans be compensated for these symptom-based chronic illnesses. This bill assures now that they will be.

As a Vietnam veteran, I know that Agent Orange was used extensively in Vietnam. I am pleased that the bill provides for presumptions of exposure to Agent Orange for veterans who served in Vietnam. I also support the provision to presume service connection for veterans suffering from respiratory without regard to the length of time in which those cancers developed, and for diabetes.

Mr. Speaker, I rise in strong support of H.R. 1291. It is a good bill and I urge all Members to support it.

Mr. SMITH of New Jersey. Mr. Speaker, I yield 2 minutes to the gentleman from Illinois (Mr. MANZULLO), my good friend and colleague, who was very, very helpful in the Persian Gulf War veterans provision.

Mr. MANZULLO. Mr. Speaker, 10 years ago a patriot from Freeport, Illinois, named Dan Steele went off to war in Iraq to fight for the American people and protect the freedoms this country has known for over 200 years. During the buildup in the Gulf, Dan's leg was fractured by an Iraqi soldier's apparent suicide attack. Over the next 8 years, Dan suffered from various conditions shared by many other soldiers who fought in the Gulf War.

In May of 1999, Dan succumbed to his illness and passed away. The county coroner listed Gulf War syndrome as a secondary cause of death on his death certificate. Shortly after Dan's funeral, we contacted his widow, Donna. She vowed to Dan that she would do whatever she could to help other Gulf War veterans suffering from mysterious ailments.

Her story moved me to introduce legislation to compensate our suffering

Gulf War veterans, H.R. 612, the Persian Gulf War Illness Compensation Act. H.R. 612 which I introduced along with the gentleman from California (Mr. GALLEGLY) and the gentleman from Mississippi (Mr. SHOWS) has the support of 228 Members of the House and all the major veterans organizations. A companion bill was introduced in the Senate by Senator KAY BAILEY HUTCHISON of Texas.

I am pleased to announce that significant portions of H.R. 612 are included in this benefits package before us today.

I want to thank the gentleman from New Jersey (Mr. SMITH) and members of the Veterans Affairs Committee for their willingness to work with us to strengthen the part of this bill that provides enhanced benefits for our ailing Gulf War veterans. These provisions will allow more sick veterans to qualify for compensation by expanding the number of eligible illness and codifying 13 possible symptoms. Earlier this year, with full Congressional support, the VA extended by 5 years the time period during which these symptoms may arise.

I urge my colleagues to vote in favor of H.R. 1291. It goes a long way towards fulfilling the promises we have made to our veterans.

Mr. EVANS. Mr. Speaker, I yield 3 minutes to the gentleman from Texas (Mr. Rodriguez).

Mr. RODRIGUEZ. Mr. Speaker, I am pleased that the House and the Senate acted quickly on H.R. 1291, the Veterans Education and Benefits Expansion Act of 2001.

Veterans deserve the very best we can offer, and I think that H.R. 1291 is an important step in meeting that obligation. Educational benefits are the military's best recruiting tool, and the Montgomery G.I. Bill must be modernized to meet today's demands.

H.R. 1291 moves toward this goal of expanding access to higher education by increasing the currently monthly benefits from \$650 to \$800 in the year 2002 and ultimately reaching \$985 by 2004. Clearly, the legislation provides a stronger education package to the men and women who choose to serve our country in uniform.

H.R. 1291 improves the Montgomery G.I. bill, and I hope that we can ultimately improve the educational benefits to cover the full cost of tuition, fees, books and supplies, as well as provide a substantive allowances for those who reenlisted for 4 years.

Additionally, among other things, H.R. 1291 streamlines the ratings system for certain services-connected illnesses. For Vietnam veterans who were exposed to Agent Orange and now are suffering from diabetes, the Veterans Education and Benefits Expansion Act acknowledges the entitlement to service-connected disability benefits. And for the Persian Gulf veterans suffering

from illnesses which modern medical technology cannot readily diagnose, the likewise extends the presumption of service connected.

Veterans who suffer from disabilities should not be abandoned. And the disabilities should not be ignored simply because the doctors cannot yet diagnose the causes.

While we have a long way to go, the Veterans Education and Benefit Expansion Act is a step in the right direction for veterans who earned these benefits with their service.

The September 11 attack is an especially stark reminder of how fragile our freedoms are, in response to our men and women who have answered the call to action carrying the banner of freedom in Afghanistan and in search of those responsible for the horrific acts of September 11. And when they return home, these brave sons and daughters need to be assured that their country will be there for them in their time of need.

I wanted to take this opportunity to also say that much more is needed to be done when it comes to our veterans. The cost of education has continued to increase, the cost of books and supplies have continued to increase. I am pleased at this point in time, as we have just passed 5 o'clock, the Christmas tree lighting has occurred and this particular piece of legislation is a beautiful Christmas present to a lot of our veterans.

I want to take this opportunity to urge my colleagues to support and vote for H.R. 1291.

Mr. SMITH of New Jersey. Mr. Speaker, I yield myself 2 minutes.

I want to take this moment, we do have a couple of speakers who are not here who hopefully will get here before we conclude the bill. Again, I would like to just note that Under Secretary of Veterans Affairs for Benefits, Joe Thompson, is retiring on January 3 of next year. I include in the RECORD a tribute to Joe Thompson's 26 outstanding years of service to veterans from myself.

Mr. Speaker, the text of that tribute is as follows:

TRIBUTE TO UNDER SECRETARY JOSEPH THOMPSON

Mr. Speaker, in my capacity as Chairman of the Committee on Veterans' Affairs, I want to share with my colleagues that Joe Thompson is retiring from the Department of Veterans Affairs on January 3, 2002, and thank Joe for 26 years of dedicated service to veterans.

I applaud Joe for the legacy that he leaves. An Air Force Vietnam veteran, Joe rose from a VA entry-level position of GS-7 to Under Secretary for Benefits at the Veterans Benefits Administration (VBA), where he and his staff administered a \$24 billion program of benefits and services. Joe used, and was a beneficiary of, VA's services, including in- and out-patient health care, disability compensation, education, home loans, life insurance and veterans preference programs when he returned home following his Vietnam service.

I know of few individuals more conversant than Joe on the genesis and evolution of our veterans benefits system, a system began in 1776 when the Continental Congress passed a Resolution promising pensions to Colonial soldiers and officers who were disabled during the course of service. Joe believes passionately in veterans benefits because indeed they are earned and, for some veterans and their families, earned at a high price. He understands that on the business end of every claim for benefits is a real person who served our country while wearing the military uniform.

Joe liked his work, and he has been good at it. He has had the ability to look at the VBA from the outside in, and see the VBA's work as the everyday customer did. Joe was one of the first to convene town meetings with veterans. I think he did the meetings because he wanted these individuals to be treated the way he wanted to be treated, with respect. Not surprisingly, in 1992 Joe and his co-workers at VA's New York City Regional Office received Vice President Gore's first "Hammer Award" under the auspices of National Performance Review. Later, as Under Secretary, Joe and his management team, headed by Deputy Under Secretaries Nora Egan and Rick Nappi, reduced the percentage of busy signals on 13 million VBA phone inquiries from 50 percent to 2 percent. They increased vocational rehabilitation placements by 24 percent. They consolidated home loan eligibility to nine regional offices, which lead to increased efficiencies.

And VBA increased the number of veterans helped through military separation outreach centers from 1,000 to 22,000 per year, including disability compensation exams and awards before leaving the military. Much of this Joe did while nationwide staffing levels were decreasing.

Mr. Speaker, I suspect that Joe Thompson will not climb onto that Harley Davidson motorcycle he's so fond of and ride off into the proverbial sunset. It would not be his nature nor the wish of many veterans. Greatest luck to a civil servant who like so many in the VBA gave America great gift—lifelong commitment, honor, energy, and ideas, Joe, thank you!

Finally, I would like to thank a large number of people who worked on this legislation and our staffs did actually yeoman's work day in and day out on behalf of veterans in general, but on this particular legislation. I want to thank them for their work on the bill, H.R. 1291, as well as H.R. 2540 which we passed earlier. That would include Patrick Ryan, our chief counsel and chief of staff, Darryl Kehler, Paige McManus, Devon Seibert, Summer Larson, Jeannie McNally, Kingston Smith; and on the minority staff, I would like to thank Michael Durishin, Beth Kilker, Debbie Smith, Mary Ellen McCarthy, and Todd Houchins for their fine work.

This has truly been a bipartisan effort. I want to thank them sincerely. This legislation will make powerful difference in the lives of our veterans.

GENERAL LEAVE

Mr. SMITH of New Jersey. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and to include extra-

neous materials on H.R. 1291, as amended.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New Jersey?

There was no objection.

Mr. SMITH of New Jersey. Mr. Speaker, I reserve the balance of my time.

Mr. EVANS. Mr. Speaker, I yield 3 minutes to the gentleman from Mississippi (Mr. SHOWS).

Mr. SHOWS. Mr. Speaker, today I would like to show strong support for H.R. 1291, the Veterans Education and Benefits Act of 2001.

This important legislation will take meaningful action to improve benefits that our Nation's veterans have earned and deserved. As many of my colleagues know, I have long been concerned about the appalling 75 percent rate of which Gulf War veterans suffering from undiagnosed illnesses have been denied compensation from the VA. These men and women uprooted from their families and communities served our country with honor and dignity.

Yet, when it was time for the VA to serve them, thousands were denied.

Earlier this year, I introduced H.R. 612, the Persian Gulf War Illness Compensation Act of 2001, along with two other outstanding advocates for veterans, the gentleman from Illinois (Mr. MANZULLO) and the gentleman from California (Mr. GALLEGLY).

The legislation garnered strong bipartisan support of over 225 Members of the House. I am pleased that the gentleman from New Jersey (Mr. SMITH), the gentleman from Illinois (Mr. EVANS), the ranking member, and my fellow veterans committee members have supported including key provisions of H.R. 612 in the bill. The Veterans Education and Benefits Act of 2001 will now clarify VA standards for compensation by recognizing fibromyalgia, chronic fatigue syndrome, and other ailments as key symptoms of undiagnosed or poorly defined illnesses associated with Gulf War service.

Independent of this, we should all applaud Secretary Principi for extending the presumptive period for Gulf War veterans to file for compensation until December 31, 2006. This is a true victory for veterans. I am also pleased that we are modernizing and improving the educational benefits awarded under the Montgomery G.I. bill. As a country that depends on the volunteer membership of our service men and women to defend our Nation's ideals, we must provide competitive benefits for our veterans.

□ 1715

The military services have experienced and continue to experience difficulties in recruiting the number and quality of our new recruits. We can

strengthen the retention of our trained soldiers if we deliver appropriate benefits and support.

Our Nation's veterans are our heroes. They have shaped and sustained our Nation with courage, with sacrifice and faith. They have earned our respect and deserve our gratitude. Let us join together and do something meaningful in passing this legislation because it is the right thing to do.

Mr. SMITH of New Jersey. Mr. Speaker, I reserve the balance of my time.

Mr. EVANS. Mr. Speaker, may I inquire again how much time is remaining on our side?

The SPEAKER pro tempore (Mr. DUNCAN). The gentleman from Illinois has 6 minutes remaining.

Mr. EVANS. Mr. Speaker, I yield 2 minutes to the gentleman from New Mexico (Mr. UDALL).

Mr. UDALL of New Mexico. Mr. Speaker, I rise today in strong support of H.R. 1291, the Veterans Education and Benefits Expansion Act of 2001. This legislation makes a number of important changes to improve insurance compensation and housing programs for our Nation's veterans.

I want to thank the chairman of the committee, the gentleman from New Jersey (Mr. SMITH); the ranking member, the gentleman from Illinois (Mr. EVANS); the gentleman from Texas (Mr. REYES), and my colleagues on the Committee on Veterans' Affairs for supporting the inclusion of provisions from H.R. 1929, the Native American Veterans Home Loan Act of 2001 into H.R. 1291.

Ranking member EVANS and 14 other Members and I introduced H.R. 1929 on March 21 of this year to extend the Native American Veterans Home Loan Pilot Program for another 4 years, and expedite the process of obtaining VA home loans for Native American veterans living on tribal and trust lands. This program helps many Native American veterans, who might otherwise be unable to obtain suitable housing. Including the provisions of H.R. 1929 into H.R. 1291 will allow other Native American veterans to take advantage of this important program.

The Native American Veteran Home Loan Pilot Program, however, is just one of many VA benefits improved through H.R. 1291. I ask my colleagues to join me in support of these important benefit enhancements for the men and women who have sacrificed so much in defense of liberty and democracy.

Mr. EVANS. Mr. Speaker, I yield 2 minutes to the gentlewoman from California (Mrs. CAPPS).

Mrs. CAPPS. Mr. Speaker, I rise in strong support of this bill. I thank Chairman SMITH, Ranking Member Evans, and their hardworking staff for their leadership on this important legislation.

I wish to highlight a critical provision contained in H.R. 1291 that I have worked on for some time. This provision would end a Catch 22 faced by vets and VA researchers. In the past, vets could lose benefits for an "undiagnosed illness" if participation in a VA study determines that a vet's illness is not service connected. This issue was brought to my attention, as I am the author of the ALS Treatment and Assistance Act, which was enacted into law in the past Congress.

VA researchers told me that some vets might not participate in the study to look at connections between their Gulf War service and Lou Gehrig's disease. I learned that some vets feared losing their much-needed benefits by participating in the study. H.R. 1291 fixes this problem by letting the VA protect compensation in such cases.

This provision is based on a bill the gentleman from Illinois (Mr. EVANS) and I introduced earlier this year. With the passage of this bill, vets can participate in important VA studies without fear of the loss of needed health benefits, and future VA research studies can attract the broad participation they need to be successful.

This bill could not be more timely. Yesterday, the VA announced that the findings of this study show Persian Gulf veterans are nearly twice as likely as other veterans to develop Lou Gehrig's disease. This is a very troubling finding. Clearly, other study is needed. I am pleased the VA has indicated they will continue to work hard to investigate this disturbing connection. I am also pleased the VA has assured my office that Persian Gulf Veterans affected by this illness will immediately begin receiving compensation for what is now shown to be a service-related illness.

Mr. Speaker, today marks the 3-month anniversary of the unspeakable attacks against our Nation, and once again our brave servicemen and women are in harm's way thousands of miles away from home. As they fight to protect our freedom and democracy, the least we can do is to pledge to safeguard their health when they return as veterans.

I urge my colleagues to join me in supporting this legislation and doing what is right for our veterans and our military personnel.

Mr. EVANS. Mr. Speaker, I yield the balance of my time to the gentleman from American Samoa (Mr. FALEOMAVAEGA), a great advocate for the people of American Samoa.

Mr. SMITH of New Jersey. Mr. Speaker, I yield 2 minutes to the gentleman from American Samoa (Mr. FALEOMAVAEGA).

Mr. FALEOMAVAEGA. Mr. Speaker, I rise in strong support of H.R. 1291, known as the Veterans Benefits Improvements Act of 2001. I particularly want to thank the gentleman from New

Jersey (Mr. SMITH), the chairman of our Committee on Veterans' Affairs, and our senior ranking Democrat, the gentleman from Illinois (Mr. EVANS), not only for their leadership but their outstanding service in bringing this bill to the floor. I also want to thank the chairman of our Subcommittee on Benefits, the gentleman from Idaho (Mr. SIMPSON), and our ranking Democrat on the subcommittee, the gentleman from Texas (Mr. REYES), for their leadership.

The House has already passed most of these provisions in four different bills, and I am glad we were able to work out an arrangement with the other body to adopt this broad range of laws and bills to help our veterans in this time of need.

Mr. Speaker, our Nation is again involved in military conflict and activities all over the world, especially in Afghanistan. We are reminded of the daily sacrifices our active duty, our National Guard, and ready reserve members must make. Our service members are taken away from their families for long periods of time, they are paid less than their counterparts basically in civilian jobs, and, of course, they are ordered to take actions which place their lives at risk in defense of our Nation.

Mr. Speaker, the benefits we provide to our veterans fit into the broad categories of health care, disability benefits, pensions, education and training, home loan guarantees, life insurance, burial benefits, and benefits for survivors. I am pleased to note that with passage of this bill, we are improving or increasing many of these benefits to our veterans.

As a Vietnam veteran, Mr. Speaker, I am deeply appreciative that in section 302 of this bill it authorizes an additional 4 years to the Native American Veterans Housing Home Loan Program. This program provides direct VA guaranteed loans to Native Americans, Native Alaskans, Native Hawaiians, American Samoans, and other Pacific Islanders. Prior to the enactment of this pilot program, many Native Americans were not able to benefit from the national VA home loan guarantee program because commercial banks were unwilling to make loans for homes on Indian reservations, Hawaiian homestead lands, and Samoan communal lands.

Since 1992, as a coauthor and supporter of this legislation, Congress recognized this inequity and created a pilot program to address the problem by providing direct VA home loans to these beneficiaries. For some 9 years now, the program has been a tremendous success. Hundreds of loans have been made and the default rate is very low.

Given the success of the pilot program, Congress still needs to address or take the necessary steps to expand

hopefully the pilot program to include veteran spouses of Native Americans. I hope the Department of Veterans Affairs will work with us; and I really, really am most appreciative not only of Chairman SMITH but our ranking member's willingness to help me to address this issue, hopefully next year.

Again, I urge my colleagues to support this legislation, and I thank the gentleman from New Jersey for his willingness to give me part of his time as well.

Mr. SMITH of New Jersey. Mr. Speaker, I yield myself the balance of my time.

Before concluding, Mr. Speaker, I just want to thank all on the minority side, as well as my good friends and colleagues here on the Republican side.

This is a comprehensive bill. The GI bill, certainly going back to World War II, our early GI bill, has created what really is the modern middle class. More than 20 million people have gotten their college education via the GI bill. That is just one part of this bill. It is comprehensive and deserves the full support of this body.

Mr. GILMAN. Mr. Speaker, I rise today in strong support of H.R. 1291, the 21st Century Montgomery G.I. Bill Enhancement Act. I urge my colleagues to join in lending their support to this appropriate legislation.

The purpose of this bill is to bring the various education benefits afforded to veterans to a level more in line with today's increasingly expensive higher education opportunities. This legislation increases the current monthly Montgomery G.I. bill rate of \$650 for a minimum three-year enlistment to \$1,100 over three years. Specifically, the rate will increase to \$800 in October of this year, \$950 in October 2002, and the full \$1,100 by October 2003. This measure also raised the monthly rate for two year enlistments and reserve enlistments as well, from \$528 to \$894.

Mr. Speaker, the G.I. bill is arguably the most profound and far-reaching piece of legislation enacted by congress in the 20th century. The program, first implemented after world war II, single-handedly afforded a college education to the millions of middle and working class men who had served during the war. In doing so, it helped to transform America in the postwar years, leading to the "baby boom" and the rise of middle class suburbia.

This measure is the latest of several bills passed in the last fifty years to bring the benefits of the G.I. bill to levels that reflect the contemporary cost of a higher education. Consequently, current and future generations will be able to enjoy the tangible benefit of a college education as a result of their service in the military of their country.

Once again, I urge my colleagues to support this worthwhile and timely legislation. With college tuition prices rising three times faster than the consumer price index, I can think of no better way to enhance the education benefits we provide for those who serve in the armed forces of their country.

Mr. GALLEGLY. Mr. Speaker, I rise in support of the 21st Century Montgomery GI Bill Enhancement Act, a measure that will improve

veterans' educational benefits, as well as improve the benefits of our veterans who became ill as a result of their service in the Gulf War.

I am pleased to say that this legislation contains many important provisions from another important bill, the Persian Gulf War Illness Compensation Act, that Congressmen DON MANZULLO (R-IL), RONNIE SHOWS (D-MS), and I introduced.

Since the end of the Gulf War, the Veterans Administration has denied nearly 80 percent of all sick Gulf War veterans' claims for compensation. In the view of many, including the National Gulf War Resource Center, the VA has employed too strict a standard for diagnosing Gulf War Illness.

Just yesterday—more than 10 years after we defeated Iraq—the VA reluctantly recognized Lou Gehrig's disease as Gulf War service related. The GI Bill Enhancement Act will extend coverage to other sufferers by including a comprehensive list of symptoms that constitute Gulf War Illness. The measure also expands the definition of undiagnosed illness to include fibromyalgia and chronic fatigue syndrome as compensable diseases.

I want to personally thank Chairman SMITH and members of the House Veterans' Affairs Committee for working with Congressmen MANZULLO, SHOWS and me in getting this critical language included in this bill. I also want to thank them for allowing the recent VA regulation allowing for a critical five-year extension for Gulf War veterans to report and be compensated for Gulf War Illness to stand. This extension was a key provision of the Manzullo-Galleghy-Shows bill.

As one of the original cosponsors of the 1991 resolution to authorize then-President Bush to use force in the Persian Gulf, I believe we must go the extra mile to take care of the men and women who went to war against Iraqi dictator Saddam Hussein and are now suffering from these unexplained and devastating ailments.

Many of those suffering from Gulf War Illness were Reservists and National Guardsmen uprooted from their families and jobs. They answered the call and helped our country, and now we have a duty to help them. I urge my colleagues to vote for this important measure.

Mr. PASCRELL. Mr. Speaker, I rise in strong support of H.R. 1291, The 21st Century Montgomery G.I. Bill Enhancement Act.

This important legislation increases funding for the highly successful Montgomery G.I. Bill education program.

Every year thousands of veterans have the opportunity to earn a college degree because of this program.

The brave men and women of our military defend our freedoms around the globe, 365 days a year, 24 hours a day, 7 days a week.

While Americans sit around their Thanksgiving dinner table, light candles during Hanuka and open presents on Christmas morning, our armed forces stand fast.

And when they return, we must fulfill the promises we have made to them.

Mr. Speaker, we are not keeping our promise to America's veterans.

As I have traveled throughout my district I have met countless veterans who do not know

of the full range of VA services available to them.

And every year I host a veterans registration drive in my district because there are too many veterans that simply do not get the services they need from the Veterans Administration.

And when they do finally reach out to the VA they find facilities understaffed, overworked and woefully inadequate.

I want to thank Chairman SMITH for including language from my Veterans Right to Know Act in this legislation because it will require the VA to inform vets of the entire range of benefits they are entitled to.

This is a critical first step in ensuring that every veteran has access to the services they have earned including the Montgomery G.I. Bill program.

Mr. Speaker, our men and women are fighting for us in Afghanistan, we need to fight for them when they come home.

Mr. FILNER. Mr. Speaker, I urge my colleagues to support H.R. 1291, the Veterans Education and Benefits Expansion Act of 2001. The bill includes much needed increases in benefits for our Nation's veterans, and I would like to comment on a couple of them.

First, I am very pleased that the provisions in my bill, H.R. 442, were substantively included in the larger bill. H.R. 1291 would increase from \$50,750 to \$60,000 the maximum amount of the home loan guaranty available to veterans and servicemembers under the Department of Veterans Affairs' home loan program. This increase is necessary to keep pace with the rising cost of housing, particularly in areas where the cost of housing is higher than in other parts of the country. This action is part of our duty to provide adequate funds for the vital programs that serve our Nation's veterans.

The amount of this guaranty has not increased since 1994. During the past seven years, the cost of housing has increased nationwide, and in some areas it has skyrocketed! Benefits for veterans must keep up with such increases if we are to keep our commitment to our veterans.

My bill, H.R. 442, would have provided a VA home loan guaranty increase to \$63,175 which would allow a maximum amount for a home loan of \$252,000. Although the amount of increase in H.R. 1291 is slightly less than in my bill, due to paygo requirements, I welcome this interim step which will allow the maximum amount for a home loan to rise to \$250,000.

Further increases are needed before this valuable program can regain its intended utility, and I fully intend to keep fighting for these increases in the future.

Likewise, I am supportive of the provision to restore educational assistance to participants in VA programs who are receiving benefits for classes that they are unable to complete because they have been called to duty to support the nation in times of global conflict.

And, while I am convinced we can and must do more, this bill will provide a sorely needed increase in the amount of educational benefits under the Montgomery GI Bill (MGIB).

Veterans must remain one of our top priorities! I urge my colleagues to join me in support of H.R. 1291.

Mr. MATHESON. Mr. Speaker, it is with great pleasure that I rise today in support of the Veterans Education and Benefits Expansion Act. This legislation expands veterans' benefits, to help veterans to have adequate healthcare and increased educational opportunities. While this legislation seeks to repay those sacrificed so much for the freedom and liberty of our country, we will never be able to truly compensate those men and women in uniform who have fought in German, the Pacific, Korea, Vietnam, the Persian Gulf, or Afghanistan.

This legislation authorizes the Montgomery GI Bill full-time study allotment to \$985 by October 2002. Additionally, the legislation improves home loan guarantees for veterans to \$60,000. It increases the burial and funeral expense benefits for service-connected veterans to \$2,000. It improves automobile and adaptive equipment grants for severely disabled veterans to \$9,000.

Most importantly, this legislation remembers those who have often been forgotten. The legislation repeals the 30-year presumptive period for respiratory cancers and diabetes due to Agent Orange. It requires the National Academy of Science to conduct research to determine the effects of dioxin or herbicide exposure on Vietnam veterans. Finally, it changes the Gulf War programs to include fibromyalgia, chronic fatigue syndrome, chronic multisymptom illness and any other illness that cannot be clearly identified to the definition of undiagnosed illnesses, thus allowing veterans to receive compensation.

I am grateful for the work done on this legislation by my House colleagues concerning veterans' issues. I hope that the House will join me in supporting this legislation.

Mr. SMITH of New Jersey. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from New Jersey (Mr. SMITH) that the House suspend the rules and agree to the resolution, House Resolution 310.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the resolution was agreed to.

A motion to reconsider was laid on the table.

HONORING JOHNNY MICHEAL SPANN, FIRST AMERICAN KILLED IN COMBAT IN WAR AGAINST TERRORISM IN AFGHANISTAN, AND PLEDGING CONTINUED SUPPORT FOR MEMBERS OF ARMED FORCES

Mr. GOSS. Mr. Speaker, I move to suspend the rules and agree to the concurrent resolution (H. Con. Res. 281) honoring the ultimate sacrifice made by Johnny Micheal Spann, the first American killed in combat during the war against terrorism in Afghanistan, and pledging continued support for members of the Armed Forces.

The Clerk read as follows:

H. CON. RES. 281

Whereas as part of the war against terrorism, United States military personnel and agents from the Central Intelligence Agency were involved in combat with Taliban forces during a prison uprising in Mazar-e Sharif, Afghanistan, on Sunday, November 25, 2001;

Whereas Johnny Micheal Spann, age 32, an officer in the Central Intelligence Agency, was inside the prison fortress interviewing Taliban prisoners when the uprising began;

Whereas Spann was killed in this rebellion and is the first American known to be killed in combat in Afghanistan during this war;

Whereas Spann is the 79th employee of the Central Intelligence Agency killed in the line of duty;

Whereas the Director of the Central Intelligence Agency, George J. Tenet, hailed Spann as an American hero and will soon memorialize him on a wall of honor;

Whereas Spann, a former Captain in the Marine Corps, is survived by his wife, Shannon, and 3 young children; and

Whereas the thoughts and prayers of the Congress and the Nation remain with the families of Spann and all the soldiers fighting to ensure the Nation's freedom and safety: Now, therefore, be it

Resolved by the House of Representatives (the Senate concurring), That the Congress—

(1) honors Johnny Micheal Spann, a paramilitary officer in the Central Intelligence Agency, who was the first American killed in combat during the war against terrorism in Afghanistan, and recognizes him for his bravery and sacrifice;

(2) extends its deepest sympathies to the family of this brave hero; and

(3) pledges its continued support for the men and women who risk their lives every day to ensure the safety of all United States citizens.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Florida (Mr. GOSS) and the gentleman from California (Ms. PELOSI) each will control 20 minutes.

The Chair recognizes the gentleman from Florida (Mr. GOSS).

GENERAL LEAVE

Mr. GOSS. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on H. Con. Res. 281.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

Mr. GOSS. Mr. Speaker, I yield myself such time as I may consume.

I rise obviously in very strong and sad support of this resolution; sorry that we have to have it. It is authorized by my friend and colleague, the gentleman from Alabama (Mr. ADERHOLT).

Johnny Micheal Spann, "Mike" as he was known, served in the Central Intelligence Agency for approximately 2 years, just long enough to complete his training as a paramilitary and an operations officer in the clandestine service, which is arguably the most challenging and dangerous job in the intelligence community.

Mike was up to the challenge. In fact, he humbly accepted the opportunity to

serve his country as an intelligence officer. Prior to joining the CIA, Mike served in the United States Marine Corps; he loved the Corps. I think all Marines love the Corps and often spoke of the Corps as if it was a family. And it is a family. We all know that. He left the Corps and he joined the CIA because, in his own words, "Somebody's got to do the things that nobody else really wants to do."

His dedication to this country and his commitment to defending its values and liberties highlight the quality of the men and women who have decided to serve our great country. Mike did exactly what he set out to do. He served his country in a way many would not or could not. A relatively newlywed, with a newborn son and two young daughters, Mike selflessly responded to the call to serve at the forefront of our Nation's war against terrorism.

Half a world away, in a dusty, inhospitable and alien environment, Mike confronted our Nation's fiercest enemy eye to eye. He did this not because it was his job, but because he was compelled to ensure that all people, regardless of their nationality or religion, could live without the fear of being victims of terrorism. That is what this is about.

Mike died fighting, trying to obtain information on terrorist plans and intentions so we could save others. Face to face against those bent on killing innocent men, women, and children, Mike stood strong, he stood tireless and fearless. That is the description of an American hero and Mike was one.

Up to the moment of his death, Mike never stopped being a Marine. "Semper Fidelis." He was always faithful. He was faithful to the countless, nameless millions of Americans, especially those incapable of defending themselves. Mike exemplified a breed of officer not normally acknowledged in the public sector. He readily accepted the risks of service, including the possibility of death, in order to secure the safety of his fellow Americans.

His death acts as a reminder of the high cost we must sometimes pay in order to secure our pursuit of liberty and happiness. We hold the greatest debt to Mike and to his family. The memory of his deeds must be held forever dear in our hearts. We pray for Mike's family and ask God to give them strength and see them through these difficult days.

We also pray for Mike's fellow colleagues in intelligence and in the military, who are still standing, even now, as the Nation's vanguard in the war against terrorism.

There are many Mike Spanns out there doing dangerous hard work for our country. God bless them all and keep them safe. But there is only one Mike Spann for his family and his loved ones.

□ 1730

Mr. Speaker, we share the burden of their loss today, and we want them to know we honor him before the world from this place.

Mr. Speaker, I ask unanimous consent to yield the balance of my time to the gentleman from Alabama (Mr. ADERHOLT), who is the sponsor of the legislation, to control the time.

The SPEAKER pro tempore (Mr. DUNCAN). Is there objection to the request of the gentleman from Alabama?

There was no objection.

Ms. PELOSI. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of the legislation to honor Johnny Micheal Spann, who was laid to rest yesterday with other fallen men and women of great courage in Arlington National Cemetery. That an officer of the CIA was the first combat fatality of the struggle against terrorism in Afghanistan is a stark reminder of how dangerous and difficult the mission of collecting intelligence can be. The gentleman from Florida (Mr. Goss) spoke eloquently to that point. He also described Mike's role at the CIA, and the circumstances and the danger in which he was placed; and which, unfortunately, caused his demise.

Like 78 CIA officers before him, Mr. Spann gave his life to protect the freedom which we hold dear and which defines us as a Nation. As we mourn his death, it is well to remember the gifts he gave our country through a career of service, first in the Marine Corps, and sadly, finally, in the CIA. He went to Afghanistan because he knew that is where his country needed him most. Our ability to respond effectively to the events of September 11 is due in large measure to the willingness of people like Mike to put personal considerations aside and accept the risks inherent in their important work.

Mr. Speaker, we are joined by Mike's family in the gallery today, and want them to know, those of us who are speaking on this resolution speak for the entire Congress when we offer them our deepest sympathy and condolences. No words we can say will ever be adequate to relieve the agony that they are in. However, I would like to place in the RECORD some of the words of Mrs. Spann that she said in eulogy yesterday which eloquently describe Mike's contribution to our country. She said, "Mike was faithful in giving his life to God and to his colleagues, his friends, his country and his family." Mrs. Spann said her husband "was a hero not because of the way he died, but rather because of the way he lived. He served his country not only by risking his life, but by being good. It seemed like when Mike took an oath to protect the Constitution of the United States from all enemies, foreign and domestic, that he took that oath to our family as well. He just thought that it

was really his duty as a father to protect his children from terrorism, just as equally as he thought it was his duty to provide a roof over their heads."

As we pay tribute to Mike Spann's sacrifice, Mr. Speaker, our sympathies and prayers certainly go to his family, his wife, Shannon, who is also a CIA officer; his daughter, Alison, who is here with us today; Emily, his daughter, who is 4, is not; and his infant son, Jake, who is with us. Their loss is incalculable. His father and mother are with us today, and our condolences go to them. As a mother of a son 32 years old, I cannot imagine the scale of their loss; but nonetheless, offer my prayers in sympathy.

To his children especially go our hope that they learn more clearly of their father's life in the years to come, that they will find it a source of pride and comfort, and that he will always be in our prayers and in our memory.

Mr. Speaker, as we sing the praises of Micheal Spann and mourn his death and try to comfort his family, I would like to pay tribute to those Americans who lost lives in the so-called friendly fire incident that occurred in Afghanistan. They have been memorialized as well, the three Green Berets. They were Master Sergeant Jefferson Davis of Watauga, Tennessee; Staff Sergeant Brian Cody Prosser of Frazier Park, California; and Sergeant First Class Daniel Petithory of Cheshire, Massachusetts. We lost two others in helicopter accidents in Pakistan. Every one of these losses is felt by all of us in our country.

Today we mourn and pay tribute to Johnny Micheal Spann, known as Mike, who would want us to recognize the others whose lives were sacrificed, to end terrorism in our country, to protect Jake and Alison and Emily, and all of the children of our country.

Mr. Speaker, I reserve the balance of my time.

Mr. ADERHOLT. Mr. Speaker, I yield myself such time as I may consume.

Mr. ADERHOLT. Mr. Speaker, I rise today to bring voice to my constituents, my State, and people around the Nation who mourn the loss of Johnny Micheal Spann, better known as Mike Spann. Mike Spann lost his life as has already been said, in service to this country during a prison uprising in Afghanistan on November 25, 2001. He is an American hero and I stand to honor him today.

There are few facts about the exact circumstances of his death that we currently know, due to the nature of the war. Mike Spann was serving as a paramilitary officer with the CIA and was at the prison in Mazar-e Sharif interviewing Taliban prisoners. It is believed that these prisoners smuggled guns and grenades into the prison and used these munitions to stage an uprising against the Northern Alliance and the American soldiers.

Mike and a fellow CIA officer drew their weapons and attempted to fight their way out of the prison fortress. While his fellow CIA officer was able to escape, Mike, unfortunately, became the first American killed in action in Afghanistan.

Before his death, he and his fellow CIA officer were able to alert outside forces who were sent in to quell the uprising. The bloody battle continued for 3 days. Five other Americans were injured during the struggle. It was not until the prison could be secured that Mike's body was found.

Even without the full details of the prison riot during which he was killed, we can be certain that Mike Spann died doing what he loved, serving and fighting for his country. Since September 11, we have witnessed an outpouring of patriotism across this Nation. Mike was someone who overflowed with patriotism even during a time when it was not popular. His father recently quoted Mike as saying, "Someone has to do the right thing that no one else wants to do."

From a young age, he wanted to pursue a career in the Marines and with either the CIA or FBI. After graduating from Winfield High School in Marion County, Alabama, he attended Auburn University where he earned a degree in criminal justice. He immediately pursued his next goal, serving in the Marine Corps from 1992-1999, and he earned the rank of captain. From there, he was recruited to work for the CIA in special operations.

Mike is survived by his wife Shannon and three children, Alison 9, Emily 4, and 6-month old Jake. Our prayers go out to them and the rest of the Spann family. Mike is also survived by his parents, Johnny and Gail Spann, and two sisters, Tonya Ingram and Tammy Dunavant. We are glad that they can join us in the Chamber today.

Mr. Speaker, I was proud to attend the burial of Mike Spann yesterday in Arlington National Cemetery. The cemetery is appropriate for a fallen hero. Full military honors were given, highlighted by the caisson, a 21-gun salute and a Marine honor guard.

It should be noted that a memorial service was also held last Thursday in Mike's hometown in the district I represent of Winfield, Alabama. Mike's daughter, Alison, wrote a letter to him just a short while back, and the words of this letter should echo in our ears and our hearts as we consider this resolution today. In her words, "Dear Daddy, I miss you dearly. Thank you, Daddy, for making the world a better place."

May we use this resolution today as an opportunity to thank Mike Spann and the rest of the men and women fighting the war against terrorism, and for making this world a better place.

Today as we commemorate the 3-month anniversary of September 11,

the attack on this Nation, our hearts go out to all.

Mr. Speaker, I yield 4 minutes to the gentleman from Alabama (Mr. BACHUS), who is a strong supporter of this resolution.

Mr. BACHUS. Mr. Speaker, the gentleman from Florida (Mr. Goss) said it best when the gentleman said we are sorry that we are here. We are sorry that Johnny Micheal Spann had to die for his country. But we are very proud of him. We are proud of his family and the way that they have responded to this tragedy.

We honor the memory and the sacrifice that he made for his family: The first American killed in combat by our enemy in Afghanistan. Mr. Speaker, yesterday Mike Spann was given a well-deserved hero's burial at a place where many of our heroes are buried, Arlington National Cemetery. The Nation was focused on his death and on the ceremony.

Mr. Speaker, in that, the fact that the Nation has followed this event and has paid respect to this fallen warrior, I think is good. It has not always been that way.

Mr. Speaker, I remember back in 1994 when two Army rangers were posthumously given an award at the White House after they fell in Somalia. I remember that weekend, there was a car chase in Southern California. Members may remember that. It led to a famous murder trial. Mr. Speaker, there was no coverage of that ceremony at the White House, no coverage of the burial. There was an article on page D5 of the paper in Washington, D.C., a short article.

Mr. Speaker, the Nation has changed in many ways since September 11; and one change for the better, Mr. Speaker, is that the Mike Spanns, and the hundreds of thousands of young men and women like him, are finally given a priority, a priority they should have had.

Captain Spann reenlisted in the Marines. He served the CIA, and he did that, although his country did not make it a priority, but thank God he made it a priority to serve and defend his country. Shortly before his death he sent an e-mail to his family which read, "What everyone needs to understand is these fellows hate you. They hate you because you are an American. Support your government and your military, especially when the bodies start coming home." Little did he or his family or we know that the first body brought home would be his.

Mr. Speaker, my oldest son graduated from Parris Island. He is a Marine. I can understand the pride that this family has in Mike; but I cannot imagine what they are going through now. Their worst fears have been realized. To lose a son, it is the natural order turned upside down. We expect to die before our children, but the Spanns

have shown great character, great courage and great patriotism, and we can tell where Mike got a lot of his courage and bravery and patriotism. As the gentleman from Florida (Mr. Goss) and others have said, this is shattering experience for a young wife, two little girls and a baby boy. To the family I say, they can never take one thing away, and that is, that he was the best. I conclude by saying what the gentleman from California (Ms. PELOSI) quoted Mrs. Spann as saying, Mike was a hero not because of the way he died, but rather because of the way he lived.

□ 1745

Mr. Speaker, he was a good son, a good husband, a good father to his young children, a good U.S. Marine, a good CIA agent, and a God-fearing, patriotic American.

Semper fi, Mike Spann.

Ms. PELOSI. Mr. Speaker, I am very moved by the words of the gentleman from Alabama (Mr. ADERHOLT) and the gentleman from Alabama (Mr. BACHUS) and extend condolences to them and the people of Alabama for the great sacrifice that they have all made as well as the Spann family.

Mr. Speaker, I am pleased to yield 1½ minutes to the distinguished gentleman from Georgia (Mr. BISHOP), who is a member of the Permanent Select Committee on Intelligence.

Mr. BISHOP. I thank the gentleman for yielding me this time, and I rise, Mr. Speaker, in support of this concurrent resolution in honor of Johnny Micheal Spann, a fellow native Alabaman, the first known U.S. combat casualty in the war in Afghanistan. This is indeed a solemn time for all Americans as we realize the tremendous sacrifices made in our behalf by the men and women of the United States Armed Forces, our intelligence agencies, and by their families. We are all in awe of their bravery, their courage, their dedication to our national security and their willingness to endure great hardship and great risks in our collective behalf. We give great thanks for their service, for Mike's service to our country.

Mike Spann loved his country. He served his country. He was a friend to each and every American citizen. Because, as the Good Book says, "Greater love hath no man but that he lay down his life for his friends."

We honor his memory today and extend our deepest sympathy to his family. We are eternally grateful to him and to the brave men and women who risk their lives as part of our intelligence community to ensure the safety of all Americans and all freedom-loving people throughout the world.

God bless Mike Spann. God bless his family. May God continue to bless America.

Mr. ADERHOLT. Mr. Speaker, I yield 2 minutes to the gentleman from Vir-

ginia (Mr. WOLF), who represents the district in which Mike Spann and his family were living.

Mr. WOLF. Mr. Speaker, I join my colleagues today in support of H. Con. Res. 281, honoring Johnny Micheal Spann, the first American killed in combat during the war against terrorism in Afghanistan. I had the opportunity to attend the funeral yesterday, which was very moving.

Mike Spann was laid to rest yesterday with full honors at Arlington National Cemetery. He resided with his wife and family in Manassas Park, Virginia, in the 10th Congressional District which I represent. I wish these kinds of resolutions never needed to be introduced. I wish our world was a peaceful place where there was never any time of war, when we never had to call on the brave men and women of our Armed Forces and security agencies to fight for our freedoms. But I am thankful that when our freedoms must be defended, we have people like Mike Spann who are willing to lay their lives on the line for us. Our Nation will forever be grateful to Mike Spann for his bravery and sacrifice and to all the men and women fighting to defend our Nation and willing to pay the ultimate sacrifice for their country and for freedom.

Mike Spann was a young man, 32 years old. I have four children in their thirties and one in their late twenties. He was a former captain in the Marine Corps. He was working as an officer in the Central Intelligence Agency. He was inside a prison fortress in Mazar-e Sharif, Afghanistan, interviewing Taliban prisoners when a prison uprising began on Sunday, November 25. He was brutally beaten and shot to death, the first American known to be killed in combat in Afghanistan during the war.

Mike Spann is the 79th employee of the Central Intelligence Agency killed in the line of duty and will be memorialized with a star on a wall of honor at CIA headquarters in Langley, Virginia. Let us hope that his will be the last star that is ever necessary to be placed on that wall.

Words are so inadequate at this time in expressing our heartfelt sympathies to the family of this brave hero, his mom and dad and his sisters, his wife Shannon and his three young children. But they should know that the thoughts and prayers of a grateful Congress and Nation remain with them.

Our thoughts and prayers are also with the thousands of men and women in service to their country who risk their lives every day fighting to assure our freedom and safety.

Ms. PELOSI. Mr. Speaker, I am pleased to yield 2 minutes to the distinguished gentleman from Texas (Mr. REYES), a member of the Permanent Select Committee on Intelligence.

Mr. REYES. Mr. Speaker, I thank the gentlewoman for yielding time under

these very difficult circumstances, but I rise in strong support of H. Con. Res. 281.

Mr. Speaker, I did not know Mike Spann. I never had the privilege or honor of meeting him. But I have had the opportunity and the privilege and honor of meeting many in the Central Intelligence Agency, field agents like Mike, all doing their work in a very difficult and dangerous environment. I would venture to say tonight that if Mike were able to join us, he would say something along the lines of, "Just doing my job, sir." That has been my experience in meeting men and women of the Central Intelligence Agency.

The fact that his neighbors and friends never knew that he was working for the CIA is a testament to the fact that Mike, like thousands of other CIA employees all around the world, are defending this Nation, its citizens and its freedoms with no expectation of thanks, with no expectation of recognition.

We are here this evening under very difficult and sad circumstances, but we are here as grateful Americans honoring an American hero, the 79th that will be honored on that wall of honor. To Shannon and to his mom and dad and all the family and especially the children, we are all extremely proud of the true American hero that Mike was. And we are all mindful that the things that we have, the freedoms that we enjoy, are there for us because of people like Mike.

God has blessed us with Mike. We hope that God blesses his family, and we hope that you know how grateful we as Members of Congress are for having had Mike Spann as a member of the Central Intelligence Agency. A grateful Nation joins all of you in grieving.

Mr. ADERHOLT. Mr. Speaker, I yield 3 minutes to the gentleman from Connecticut (Mr. SIMMONS), another strong supporter of this resolution who sought me out early on that he wanted to be a supporter of this resolution and to speak on it.

Mr. SIMMONS. Mr. Speaker, I rise in strong support of this resolution to honor Johnny Micheal Spann, a Central Intelligence Agency officer who was the first American killed in the war against terrorism in Afghanistan. He was killed on November 25, 2001, during an uprising of Taliban and al Qaeda prisoners in northern Afghanistan. Yesterday he was buried with full military honors in the hallowed ground of Arlington National Cemetery.

Micheal Spann's life began in a small Alabama town and ended tragically on the other side of the world in an ancient fort near the city of Mazar-e Sharif. His death is a loss for his family, for the Central Intelligence Agency, and for our country. But his memory will live on as an example to all Americans of the values of patriotism, courage, and sacrifice.

Although I never knew Mike Spann, I knew many like him. He was a paramilitary officer with the Central Intelligence Agency. I also served as a paramilitary officer with the CIA from 1969 to 1974. He served in a war zone. I too served in a war zone with the CIA for 2 years in South Vietnam. I believe that he and I shared the view that operations officers for the CIA, and especially paramilitary officers, should serve on the front lines of freedom. We know that the work there is difficult and dangerous, even deadly. The stakes are high. But that is where a paramilitary officer needs to be if he or she is going to get the job done. Mike knew what the risks were. He was willing to take those risks. A grateful Nation now thanks him for his dedication and his sacrifice.

Mr. Speaker, I represent the second district of Connecticut. Over 200 years ago, a young man named Nathan Hale was born and raised in my district in the town of Coventry. He graduated from Yale College, taught school, and joined the Revolutionary Army as a captain. He volunteered for a dangerous espionage mission at the request of George Washington, was caught by the British, sentenced and hanged as a spy. Before his death, he is reported to say, "I only regret that I have but one life to lose for my country."

Nathan Hale is now the official State hero of Connecticut. He is also the first intelligence hero in American history. Johnny Micheal Spann is the most recent intelligence hero in American history. They both lost their lives in defense of freedom, democracy and the values of our great Nation. May God bless them and keep them, now and forever.

Ms. PELOSI. Mr. Speaker, I am pleased to yield 1 minute to the distinguished gentleman from Maine (Mr. BALDACC).

Mr. BALDACCI. Mr. Speaker, I would like to thank the gentlewoman for yielding me this time and to recognize the family and to thank the family for allowing us an opportunity to honor Micheal and at the same time to honor all of you because you folks have endured the sacrifice and allowed for our country to have the foundation of freedom and liberties that we all enjoy, and that it does cost lives and that it does impact on families.

Thank you for allowing us to have this opportunity to do it. I would like to thank the Members from Alabama who put the resolution forward. I know all of my colleagues will be very supportive of this.

Mr. ADERHOLT. Mr. Speaker, I yield myself such time as I may consume.

I urge the passage of this resolution to send a strong bipartisan message of solidarity with the Spann family as well as the men and women in the intelligence community and the armed

services who are putting themselves at personal risk to defend this Nation and our people.

Mr. Speaker, I yield back the balance of my time.

Ms. PELOSI. Mr. Speaker, I yield myself such time as I may consume.

I want to join in thanking the Spann family for being with us tonight. You honor us with your presence. Mike Spann was an example of the best that our country has to offer. Again, I want to extend the condolences of all of our colleagues and certainly my constituents to his mother and father who are with us, his sisters, his wife, Shannon, their baby, Jake, and Alison and Emily. Mike Spann will always be in our memory and in our prayers. God bless him and God bless America.

Mr. CRAMER. Mr. Speaker, I rise to join my colleagues in honoring Johnny Michael Spann, the first American killed in combat during the war against terrorism in Afghanistan.

Mike Spann was born and raised in a small town in North Alabama called Winfield. Like most kids growing up in small town America, Mike grew up with a great love for his country. And it was this great love of country that led Mike first to the Marine Corps, where he rose to the rank of captain, and later to the CIA, where he fulfilled a lifelong dream. Duty, honor, integrity, and patriotism.

Mr. Speaker, to Mike Spann these were not simply words to be carelessly thrown about, but rather they were words that had real meaning and were words around which he ordered his life. Indeed it was the weight of these words that carried Mike to Afghanistan. For, Mr. Speaker, when duty called Mike Spann answered—without hesitation and with a quiet and steady dignity that came from an unshakeable belief in the righteousness of his mission.

In a sand blown fort, in a war torn land far from the comforts of his home, Mike Spann stood on the front line defending our American values and our way of life. Unlike most, Mike Spann understood that the freedoms we all cherish do not come without a hefty price. Sadly, he paid the ultimate price and gave his life in defense of these cherished freedoms. But, as his wife Shannon has said, "Mike is a hero not because of the way that he died, but rather because of the way that he lived." So, while we mourn his loss, we all can take comfort and pride in the knowledge that he gave his life defending the values that shaped and animated his life.

Today, with this resolution we honor him for his bravery and sacrifice. And to his family, a grateful nation offers its deepest sympathies. This nation and the world are better places because of the sacrifice made by Johnny Michael Spann.

Ms. PELOSI. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. DUNCAN). The question is on the motion offered by the gentleman from Florida (Mr. Goss) that the House suspend the rules and agree to the concurrent resolution, H. Con. Res. 281.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds of

those present have voted in the affirmative.

Mr. ADERHOLT. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

□ 1800

MIKE MANSFIELD FEDERAL BUILDING AND UNITED STATES COURTHOUSE

Mr. LATOURETTE. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3282) to designate the Federal building and United States courthouse located at 400 North Main Street in Butte, Montana, as the "Mike Mansfield Federal Building and United States Courthouse."

The Clerk read as follows:

H.R. 3282

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. DESIGNATION.

The Federal building and United States courthouse located at 400 North Main Street in Butte, Montana, shall be known and designated as the "Mike Mansfield Federal Building and United States Courthouse".

SEC. 2. REFERENCES.

Any reference in a law, may, regulation, document, paper, or other record of the United States to the Federal building and United States courthouse referred to in section 1 shall be deemed to be a reference to the "Mike Mansfield Federal Building and United States Courthouse".

The SPEAKER pro tempore (Mr. DUNCAN). Pursuant to the rule, the gentleman from Ohio (Mr. LATOURETTE) and the gentleman from Tennessee (Mr. CLEMENT) each will control 20 minutes.

The Chair recognizes the gentleman from Ohio (Mr. LATOURETTE).

Mr. LATOURETTE. Mr. Speaker, I yield such time as he may consume to the gentleman from Montana (Mr. REHBERG), the author of the bill, to explain the bill before us.

Mr. REHBERG. Mr. Speaker, I rise in support of H.R. 3282, that designates the Federal Building and United States Courthouse at 400 North Main Street in Butte, Montana, as the Mike Mansfield Federal Building and United States Courthouse.

Mike Mansfield's tenure as majority leader of the United States Senate from 1961 until his retirement in 1976 is well-known. Likewise, his record as U.S. Ambassador to Japan from 1977 to 1988 was legendary. In both cases, he held each position longer than any of his predecessors.

Mike Mansfield's public service spanned five decades, beginning from his election to the U.S. House of Representatives in 1942 to his retirement as U.S. ambassador in Japan in 1988.

This remarkable career saw him work with nine U.S. presidents, Roosevelt, Truman, Eisenhower, Kennedy, Johnson, Nixon, Ford, Carter and Reagan.

However, the formative stages of Mike Mansfield's early years are equally as remarkable. After the death of his mother, at age three he was sent from New York City to Great Falls, Montana, and raised by an aunt and uncle that owned a grocery store. One month shy of age 15, he joined the Navy, shortly before we entered World War I, and he served in the Atlantic. He served in the Army after the war. Finally, he enlisted in the Marine Corps for 2 years, serving in the Philippines, Japan and China. This contributed to his lifelong interest in the Far East.

He returned to Montana in 1922 at age 19 and worked as a mucker, shoveling rocks and dirt in the underground copper mines in Butte. While in Butte he met schoolteacher Maureen Hayes, who became his future wife. She encouraged him to complete his high school education by taking correspondence courses.

The City of Butte, Montana, was the chapter of Mike Mansfield's life that paved the way for his later career as a professor at the University of Montana, and a great statesman. As a result, it is only fitting that the Federal Building and U.S. Courthouse there be named after him.

Mr. Speaker, I urge my colleagues to support H.R. 3282.

Mr. Speaker, I include for the RECORD an article by Associated Press writer Bob Anez.

MONTANA OFFICIALS RECALL MANSFIELD AS QUIET, DIGNIFIED LEADER

(By Bob Anez)

Mike Mansfield, who dominated Montana and national politics during his 34-year legislative career, was remembered Friday as a statesman of honesty, homespun integrity and few but gentle words.

"I don't remember anything mean that Mike ever said," said former Democratic Gov. Ted Schwinden.

"But that doesn't mean he couldn't speak out on difficult issues like the Vietnam war," he said. "Mike was not afraid of the fray, but was able to step above it."

Mansfield, who died Friday morning at the age of 98, was Senate majority leader for 15 years during a period of political and social turmoil that enveloped a civil revolution, an assassinated president, a war he opposed and the first presidential resignation. He retired in 1976 and then served as ambassador to Japan for 11 years.

Francis Bardanoue, a Democratic state representative for 37 years, recalled Mansfield's quite demeanor during that time. "He was a calm leader; he gave confidence to the people that government was in good hands."

Gov. Judy Martz, who ordered U.S. and Montana flags at all public buildings flown at half staff until sunset Saturday, called Mansfield a rare find for humanity.

"There are very few people who have or will walk this earth like Senator Mike Mansfield," the Republican said. "He served as an example throughout Montana, the nation and the world through his work ethic and dedication to service."

"I am sure that he has now rejoined his beloved wife, Maureen," Martz added, referring to Mansfield's wife, who died Sept. 20 last year.

Donna Metcalf, whose husband Lee served in the Senate with Mansfield for 16 years, recalled Mansfield as a gentle giant.

"He was a very kindly and considerate person who never forgot where he came from," she said.

She first met Mansfield when he was a popular instructor at the University of Montana and grew to be good friends with the Mansfields during the time the two men served together. "They made good partners for Montana," she said.

Pat Williams, who was a Montana congressman for 18 years until retiring in 1996, said Mansfield's integrity set him apart.

"Mansfield, as our senator, he brought honor not pork to Montana," the Democrat said. "He did things his way and believed that if Montanans didn't like it—as they didn't on his position and votes on gun control—that they'd bring him home at the next election. But, of course, we never did."

Kelly Addy, a Billings attorney, former legislator and staffer for Mansfield in 1974, described the senator as extremely humble and mindful of his modest beginnings in the Butte mines.

"He knew who he was," Addy said. "He knew he came from nothing. He knew everything had been given to him. He had no quarrel with anybody."

He said he learned a valuable lesson from Mansfield. "You can't be anything more than who you are, but if you're willing to be that, it can be quite something. He was able to accept himself and, therefore, he was able to accept others."

Former Gov. Stan Stephens called Mansfield "probably the most distinguished Montanan in the history of public service."

Mansfield was revered by members of both political parties because of his nonpartisan character, the Republican said. "He was a very kind and considerate man. He never looked at people or issues as political threats."

"He has made Montana proud," Stephens said.

George McGovern, a U.S. Senator from South Dakota during all but one of Mansfield's years in the Senate, praised his former colleague as an "example to all of us in the world of politics."

"Always a humble and dedicated public servant for the people of Montana, he became a superb majority leader of the U.S. Senate and a brilliant diplomat in the Far East," said McGovern, who was in Missoula where his wife is hospitalized.

Schwinden said a defining memory he has of Mansfield was his campaign visits to Wolf Point, Schwinden's home town. Dozens of people in the small community would turn out on short notice to see the popular Senator.

"If there was a stage, he loved to sit on the stage with his legs crossed," Schwinden said. "He never lectured. He just visited with his constituency."

The attitude is what defined Mansfield and made him a man of few words, recalled former Secretary of State Mike Cooney.

"He listened. It wasn't that what he had to say was the most important," Cooney said. "He understood that if you could sit and listen to people, you could learn a lot more than if you sat there yacking."

Gov. Tom Judge, who was governor from 1973 to 1981, remembered Mansfield as a man who did "an enormous amount of work for

Montana, all the while doing it in a quiet, effective and—most importantly—very dignified manner.”

Judge said he first became acquainted with Mansfield while still in college in the mid 1950s.

“When I was a junior in college I nominated him for president in a mock election at Notre Dame and we almost won,” Judge said. “It was a tight race between him and Lyndon Johnson. . . . We didn’t win but I guarantee you everyone at Notre Dame knew who Mike Mansfield was when we were done.”

Bob Ream, Montana Democratic Party chairman, said Mansfield remained Senate leader for longer than anyone else because he earned and commanded a great deal of respect.

“I think he stood for the best in politics,” Ream said. “He was an extremely ethical person and well-respected by people on both sides of the aisle.”

“The last time I saw him was about a year and a half ago, and he still had that twinkle in his eye,” Ream said. “And whenever you left his office, Mike always had the same farewell. ‘Tap her light,’ he would say. . . . It was an old miner’s line.”

Mr. CLEMENT. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 3282 is a bill to designate the Federal Building and United States Courthouse in Butte, Montana, in honor of Senator Mike Mansfield.

Senator Mansfield, as all of us know, died in October of 2001 at the age of 98. He served as the Senate majority leader longer than anyone else in the history of that institution. His legacy spans decades and is one of public service with unimpeachable integrity, admiring colleagues, fiercely loyal friends and devoted family.

Senator Mansfield was a native New Yorker, born in New York City on March 16, 1903. As a young child, he and his family moved to Great Falls, Montana. When he was only 14 years old, he enlisted in the United States Navy and served in World War I. From 1919 to 1920, Senator Mansfield served in the U.S. Army, and later joined the U.S. Marines as a private first class.

After the war, he returned to Montana and finished his education. He graduated from Montana State University at Missoula, where he received his undergraduate degree, and in 1934, received a masters degree.

From 1933 until 1943, Senator Mansfield was a professor of history and political science at Montana State. In 1943, he was elected to the U.S. House of Representatives, where he served 10 years. During his service in the House of Representatives, Senator Mansfield voted for a higher minimum wage, economic aid to Turkey and Greece, the Marshall Plan, and opposed funding for the House Un-American Activities Committee. In 1953, he was elected to the U.S. Senate, and began a career filled with accomplishments.

He served the United States in many capacities: Special Committee on Campaign Expenditures; Democratic Whip; Majority Leader; Chairman of the

Committee of Rules and Administration; Special Committee of Secret and Confidential Documents; and Ambassador to Japan. In 1956, Lyndon Johnson named him Assistant Majority Leader. When Johnson was elected Vice President in 1961, Mansfield became the Majority Leader and served until 1977.

Mr. Speaker, Mike Mansfield had an unbelievable career. I could go on and on about his accomplishments and achievements. His word and his integrity, without question, and his reputation as a straight shooter, was well-deserved. Unflappable, honorable, brilliant, humble and a strong person, he will always be remembered.

It is fitting and proper that we honor Mike Mansfield’s lifetime of public service to his country with this designation. I support this bill, and I urge my colleagues to support it.

Mr. OBERSTAR. Mr. Speaker, I rise in strong support of H.R. 3282, a bill to designate the federal building and United States Courthouse in Butte, Montana, in honor of Senator Mike Mansfield, who died in October of this year at the remarkable age of 98.

Senator Mansfield was born in New York City on March 16, 1903. His family moved to Cascade County, Montana, in 1906 where he attended local public schools until he dropped out at age 14. At that time, he lied about his age and enlisted in the United States Navy to serve his country during World War I. Mike must have liked the military life, because when he left the Navy, he first joined the Army for two years, and then the marines for two years, finishing his military service in 1922.

When he returned to Montana, Senator Mansfield went to work in a copper mine near Butte. While still working the mines, he enrolled in the Montana School of Mines, where he met this future wife, Maureen Hays, a schoolteacher. She persuaded him to complete his high school education by taking correspondence courses.

In 1930, he enrolled at the University of Montana, where he received his undergraduate degree, and a master’s degree in 1934. From 1933 until 1943, Mike Mansfield was a professor of history and political science at Montana State. In 1943, he was elected to the United States House of representatives, where he served for ten years.

Later, he was elected to the U.S. Senate where he launched an illustrious career, serving as Committee Chairman, Democratic Whip, and Majority Leader.

Some of our Nation’s most turbulent times occurred during his tenure as Senate Majority Leader: assassination of one President and the resignation of another; the assassinations of a civil rights activist and a presidential hopeful; student and political unrest; Vietnam and Watergate.

He was at the helm when the Civil rights Act and the Voting Rights Act became laws. He also led the Senate to pass sweeping legislation on health, education, and anti-poverty programs.

Senator Mansfield was going to retire from public life when he decided to leave the Senate in 1976. However, President Jimmy Carter urged Senator Mansfield to remain in public

service as our Ambassador to Japan, which he agreed to do—and served with distinction.

Mike Mansfield was so successful and so well respected at home and in Japan, that President Reagan prevailed upon him to remain in the post throughout the Reagan presidency. Mike Mansfield managed to impress the Japanese as well; so much so, in fact, that when he returned to the U.S. after eleven years as Ambassador, the Japanese Ambassador to this country said Mansfield “could have run for prime minister and won.”

He was also Montana’s “favorite son” for a very good reason. He was revered in his home State, and highly respected by his colleagues in the Congress. He was known as a terrific teacher, a great leader, and a wonderful human being. He was devoted to Maureen, his wife of 68 years, and to their daughter, Anne.

His humble and straightforward characteristics made him equally at home in either royal courts or the local coffee shops in rural Montana. His word and his integrity were without question and his reputation as a “straight shooter” was well deserved. He combined keen intellect with good judgment to produce astonishing wisdom. His toughest assignment came during the Vietnam years. Although he personally opposed the war, he felt obliged as majority leader, to carry the President’s message to the Senate.

In many ways the federal building and courthouse in Butte, Montana, accurately reflect who Mike Mansfield was—it is a wonderful, solidly built, grandly situated building, open to the public and dedicated to public service. It is strong without being intimidating; it provides justice and comfort to all who enter.

Mr. Speaker, Mike Mansfield was a modest man, but a giant in American politics. To have a federal building and U.S. courthouse bear his name is an honor he earned, and I strongly urge my colleagues to support this bill.

Mr. CLEMENT. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. LATOURETTE. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Ohio (Mr. LATOURETTE) that the House suspend the rules and pass the bill, H.R. 3282.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds of those present have voted in the affirmative.

Mr. LATOURETTE. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair’s prior announcement, further proceedings on this motion will be postponed.

WOLF TRAP NATIONAL PARK FOR THE PERFORMING ARTS

Mr. GILCHREST. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 2440) to rename Wolf Trap

Farm Park as "Wolf Trap National Park for the Performing Arts," and for other purposes, as amended.

The Clerk read as follows:

H.R. 2440

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. RENAMING OF WOLF TRAP FARM PARK.

(a) **AMENDMENT.**—*The Wolf Trap Farm Park Act (Public Law 89-671; 16 U.S.C. 284 et seq.) is amended—*

(1) *by striking "Wolf Trap Farm Park" each place it appears and inserting "Wolf Trap National Park for the Performing Arts";*

(2) *in section 2, by inserting before the final period " , except that laws, rules, or regulations that are applicable solely to units of the National Park System that are designated as a 'National Park' shall not apply to Wolf Trap National Park for the Performing Arts"; and*

(3) *by adding at the end the following new section:*

"SEC. 14. REFERENCES.

"(a) BY FEDERAL EMPLOYEES.—The Secretary of the Interior, any other Federal employee, and any employee of the Foundation, with respect to any reference to the park in any map, publication, sign, notice, or other official document or communication of the Federal Government or Foundation shall refer to the park as 'Wolf Trap National Park for the Performing Arts'.

"(b) OTHER SIGNS AND NOTICES.—Any directional or official sign or notice pertaining to the park shall refer to the park as 'Wolf Trap National Park for the Performing Arts'.

"(c) FEDERAL LAWS AND DOCUMENTS.—Any reference in any law (other than this Act), regulation, document, record, map, or other paper of the United States to 'Wolf Trap Farm Park' shall be considered to be a reference to 'Wolf Trap National Park for the Performing Arts'."

(b) **APPLICABILITY.**—*Section 14(c) of the Wolf Trap Farm Park Act (as added by subsection (a) of this section) shall not apply to this Act.*

SEC. 2. TECHNICAL CORRECTIONS.

Section 4(c) of the Wolf Trap Farm Park Act (Public Law 89-671; 16 U.S.C. 284(c)) is amended—

(1) *by realigning the second sentence so as to appear flush with the left margin; and*

(2) *by striking "Funds" and inserting "funds".*

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Maryland (Mr. GILCHREST) and the gentleman from Colorado (Mr. UDALL) each will control 20 minutes.

The Chair recognizes the gentleman from Maryland (Mr. GILCHREST).

Mr. GILCHREST. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 2440 would change the name of Wolf Trap Farm Park to Wolf Trap National Park for the Performing Arts.

Wolf Trap, located in Vienna, Virginia, enjoys a reputation as one of the premier venues for the Performing Arts in the country. The park plays host to every conceivable type of Performing Arts, from Native American folk festivals, to interpretive dance recitals, rock concerts and classical symphonies.

While the Park Service maintains responsibility for the grounds and build-

ings, the non-profit Wolf Trap Foundation creates and selects programming, develops all educational programs, handles ticket sales, marketing, publicity and public relations, while also raising funds to support these programs. This bill would help alleviate confusion regarding its name and assist the nonprofit Wolf Trap Foundation in raising funds and resources for the park. The bill would not alter the legal status of the park nor its level of Federal funding.

Mr. Speaker, this is a non-controversial bill, and I urge my colleagues to support its passage.

Mr. Speaker, I reserve the balance of my time.

Mr. UDALL of Colorado. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 2440, introduced by the gentleman from Virginia (Mr. DAVIS), renames Wolf Trap Farm Park, located in Northern Virginia, as the Wolf Trap National Park for the Performing Arts.

Wolf Trap Farm Park was established in 1966 as a unit of the National Park Service. The park provides music and arts education programs and is best known for its annual summer concert series. Supporters of the park are seeking the name change to better reflect the park's operation as a performing arts center.

Although no hearings were held on H.R. 2440 by the Committee on Resources, a similar bill passed the House at the very end of the last Congress, but no action on the bill occurred in the Senate. The language of H.R. 2440, including the clarifying amendment adopted by the Committee on Resources, has been worked out with the administration and the minority, and we are unaware of any problems with the bill.

Accordingly, Mr. Speaker, we support H.R. 2440, as amended, and recommend its adoption by the House.

Mr. Speaker, I reserve the balance of my time.

Mr. GILCHREST. Mr. Speaker, I yield 2 minutes to the gentleman from Virginia (Mr. DAVIS).

Mr. TOM DAVIS of Virginia. Mr. Speaker, I rise today to support a bill that has been more than 3 years in the making. It was almost a year ago to the day that I was on this floor giving a very similar speech to a very similar bill. But, whatever the process may be, I am pleased today the House is now considering the bill that will allow the Wolf Trap Farm Park to become Wolf Trap National Park for the Performing Arts.

Despite the relative straight-forwardness of this bill, it has taken years of careful negotiation and innumerable drafts to reach a consensus between the Park Service, the Department of Interior, the Wolf Trap Foundation, and the Committee on Resources. I am

extremely pleased to say that as the first session of the 107th draws to a close, that consensus has been reached.

As many of my colleagues undoubtedly know, Wolf Trap is one of the premier venues for the performing arts anywhere in the world. Nestled in a beautifully wooded site just outside of Vienna, Virginia, Wolf Trap plays host to every conceivable type of performing arts. It is the home to all the cultural diversity found in our great Nation.

While I am disappointed it has taken this long to elevate Wolf Trap to the level of Federal recognition it deserves, I am very pleased that one of the final acts of this session will accomplish that goal.

I would also like to thank my fellow Virginians, the gentleman from Virginia (Mr. WOLF) and the gentleman from Virginia (Mr. MORAN) for their tireless efforts in this endeavor. I am very grateful to the Members and staff of the Committee on Resources. Without their support, I am confident we would be revisiting this again in the next session. So, my thanks to all. I urge its adoption.

Mr. UDALL of Colorado. Mr. Speaker, I yield such time as he may consume to the gentleman from Virginia (Mr. MORAN).

Mr. MORAN of Virginia. Mr. Speaker, I thank my friend from Colorado for yielding me time.

Mr. Speaker, doing the right thing should not be so difficult. We have been trying to do this for years, just to change the name from Wolf Trap Park to National Park so that it can better describe the actual legal status and the park's mission. The mission is to assist Wolf Trap Foundation in private fundraising efforts.

Wolf Trap Park is a beautiful location, nestled in the woods in Vienna, Virginia. It is about 136 acres. Any of my colleagues and their colleagues and staffs who have not been there should go visit Wolf Trap. It is a wonderful asset, not just for the Washington metropolitan area, but for the Nation, and that is the point of this legislation.

It plays host to any number of performances, as the gentleman from Maryland (Mr. GILCHREST) and the gentleman from Virginia (Mr. DAVIS) and the gentleman from Colorado (Mr. UDALL) said. They described the wide gambit of classical symphonies, rock concerts, Native American folk festivals and so on, that use the stage at Wolf Trap. The Wolf Trap Foundation is a 501(c)(3) not-for-profit organization. It handles all the ticket sales, the publicity, the education programs, and does a wonderful job. The National Park Service is responsible for maintaining the grounds and the buildings. They also provide technical assistance for the performing arts centers.

Now, in addition to the performances we see on the stage, there are any number of educational programs that are

offered, not just locally, but also nationwide. Its premier education program, the Wolf Trap Institute for Early Learning Through the Arts, places professional performing artists in preschool classrooms all across the country.

□ 1815

So the mission of Wolf Trap has been consistent with that of the National Park Service. It is the promotion of and access to appreciation of all of our natural resources and, in this case, our human resources as well and the performing arts. But because of this unique status within the national park system, we need to change the name from Wolf Trap Farm Park to Wolf Trap National Park. It is not going to affect the legal status or the Federal funding levels; it is not going to do anything but to alleviate confusion about this national park's mission, and it will assist the foundation in private fund-raising efforts.

So it is the right thing to do. From now on, we ought to call it Wolf Trap National Park; and I trust that all of my colleagues understand its national importance, significance, and accessibility for all of their constituents.

Mr. Speaker, I thank my colleagues from Virginia for bringing the bill to the floor.

Mr. UDALL of Colorado. Mr. Speaker, I have no further speakers, and I yield back the balance of my time.

Mr. GILCHREST. Mr. Speaker, I yield myself such time as I may consume. We have no further speakers on this issue.

I would just ask my two colleagues from Virginia that when Wolf Trap Park holds traditional, historic country western music, if they would invite me to attend, I would be more than happy to do so.

Mr. MORAN of Virginia. Mr. Speaker, if the gentleman will yield, I trust the gentleman from Virginia (Mr. DAVIS) will afford the gentleman from Maryland (Mr. GILCHREST) a standing invitation.

Mr. DAVIS of Virginia. Mr. Speaker, if the gentleman from Maryland will yield, call me, and I would be happy to take the gentleman as my guest.

Mr. GILCHREST. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. DUNCAN). The question is on the motion offered by the gentleman from Maryland (Mr. GILCHREST) that the House suspend the rules and pass the bill, H.R. 2440, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

FISHERIES CONSERVATION ACT OF 2001

Mr. GILCHREST. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 1989) to reauthorize various fishery conservation management programs, as amended.

The Clerk read as follows:

H.R. 1989

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Fisheries Conservation Act of 2001".

TITLE I—INTERJURISDICTIONAL FISHERIES ACT OF 1986

SEC. 101. REAUTHORIZATION OF INTERJURISDICTIONAL FISHERIES ACT OF 1986.

Section 308 of the Interjurisdictional Fisheries Act of 1986 (16 U.S.C. 4107) is amended—

(1) by amending subsection (a) to read as follows:

"(a) GENERAL APPROPRIATIONS.—There are authorized to be appropriated to the Department of Commerce for apportionment to carry out the purposes of this title—

"(1) \$4,900,000 for fiscal year 2002;

"(2) \$5,400,000 for each of fiscal years 2003 and 2004; and

"(3) \$5,900,000 for each of fiscal years 2005 and 2006.";

(2) in subsection (c) by striking "\$700,000 for fiscal year 1997, and \$750,000 for each of the fiscal years 1998, 1999, and 2000" and inserting "\$800,000 for fiscal year 2002, \$850,000 for each of fiscal years 2003 and 2004, and \$900,000 for each of fiscal years 2005 and 2006".

SEC. 102. PURPOSES OF THE INTERJURISDICTIONAL FISHERIES ACT OF 1986

Section 302 of the Interjurisdictional Fisheries Act of 1986 (16 U.S.C. 4101) is amended by striking "and" after the semicolon at the end of paragraph (1), striking the period at the end of paragraph (2) and inserting "and", and adding at the end the following:

"(3) to promote and encourage research in preparation for the implementation of the use of ecosystems and interspecies approaches to the conservation and management of interjurisdictional fishery resources throughout their range."

TITLE II—ANADROMOUS FISH CONSERVATION ACT

SEC. 201. REAUTHORIZATION OF ANADROMOUS FISH CONSERVATION ACT.

Section 4 of the Anadromous Fish Conservation Act (16 U.S.C. 757d) is amended to read as follows:

"AUTHORIZATION OF APPROPRIATIONS

"SEC. 4. (a)(1) There are authorized to be appropriated to carry out the purposes of this Act not to exceed the following sums:

"(A) \$4,500,000 for fiscal year 2002;

"(B) \$4,750,000 for each of fiscal years 2003 and 2004; and

"(C) \$5,000,000 for each of fiscal years 2005 and 2006.

"(2) Sums appropriated under this subsection are authorized to remain available until expended.

"(b) Not more than \$625,000 of the funds appropriated under this section in any one fiscal year shall be obligated in any one State."

SEC. 202. RESEARCH ON AND USE OF ECOSYSTEMS AND INTERSPECIES APPROACHES TO THE CONSERVATION AND MANAGEMENT.

The first section of the Anadromous Fish Conservation Act (16 U.S.C. 757a) is amended

in subsection (b) by inserting "(1)" after "(b)", and by adding at the end the following:

"(2) In carrying out responsibilities under this section, the Secretary shall conduct, promote, and encourage research in preparation for the implementation of the use of ecosystems and interspecies approaches to the conservation and management of anadromous and Great Lakes fishery resources."

TITLE III—ATLANTIC COASTAL FISHERIES

SEC. 301. REAUTHORIZATION OF ATLANTIC STRIPED BASS CONSERVATION ACT.

Section 7(a) of the Atlantic Striped Bass Conservation Act (16 U.S.C. 1851 note) is amended by striking "and 2003" and inserting "2003, 2004, 2005, and 2006".

SEC. 302. REAUTHORIZATION OF ATLANTIC COASTAL FISHERIES COOPERATIVE MANAGEMENT ACT.

Section 811(a) of the Atlantic Coastal Fisheries Cooperative Management Act (16 U.S.C. 5108) is amended by striking "2005" and inserting "2006".

SEC. 303. AMENDMENTS TO ATLANTIC COASTAL FISHERIES COOPERATIVE MANAGEMENT ACT.

(a) FINDINGS.—Section 802(a) of the Atlantic Coastal Fisheries Cooperative Management Act (16 U.S.C. 5101(a)) is amended by adding at the end the following:

"(7) The understanding of the interactions of species in the maritime environment and the development of ecosystems-based approaches to fishery conservation and management lead to better stewardship and sustainability of coastal fishery resources.

"(8) Federal and State scientists should gather information on the interaction of species in the marine environment and provide this scientific information to Federal and State managers."

(b) PURPOSE.—Section 802(b) of such Act (16 U.S.C. 5101(b)) is amended to read as follows:

"(b) PURPOSE.—The purpose of this title is to support and encourage the development, implementation, and enforcement of effective interstate conservation and management of Atlantic coastal fishery resources through the use of sound science and multispecies, adaptive, and ecosystem-based management measures."

(c) STATE-FEDERAL COOPERATION IN MULTISPECIES AND ECOSYSTEMS INTERACTION RESEARCH.—Section 804(a) of such Act (16 U.S.C. 5103(a)) is amended by inserting "multispecies and ecosystems interaction research;" after "biological and socioeconomic research;"

(d) ASSISTANCE FOR RESEARCH REGARDING INTERRELATIONSHIPS AMONG ATLANTIC COASTAL FISHERY RESOURCES AND THEIR ECOSYSTEMS.—Section 808 of such Act (16 U.S.C. 5107) is amended by striking "and" after the semicolon at the end of paragraph (1), redesignating paragraph (2) as paragraph (3), and inserting after paragraph (1) the following:

"(2) research to understand the interrelationships among Atlantic coastal fishery resources and their ecosystems; and"

TITLE IV—ATLANTIC TUNAS CONVENTION ACT OF 1975

SEC. 401. REAUTHORIZATION OF THE ATLANTIC TUNAS CONVENTION ACT OF 1975.

Section 10 of the Atlantic Tunas Convention Act of 1975 (16 U.S.C. 971h) is amended to read as follows:

"AUTHORIZATION OF APPROPRIATIONS

"SEC. 10. (a) IN GENERAL.—There are authorized to be appropriated to carry out this Act, including use for payment of the United States share of the joint expenses of the Commission as provided in Article X of the Convention, the following sums:

“(1) For each of fiscal years 2002, 2003, and 2004, \$5,480,000.

“(2) For each of fiscal years 2005 and 2006, \$5,495,000.

“(b) ALLOCATION.—Of amounts available under this section for each fiscal year—

“(1) \$150,000 are authorized for the advisory committee established under section 4 and the species working groups established under section 4A; and

“(2) \$4,240,000 are authorized for research activities under this Act and the Act of September 4, 1980 (16 U.S.C. 971i).”.

TITLE V—NORTHWEST ATLANTIC FISHERIES CONVENTION ACT OF 1995

SEC. 501. REAUTHORIZATION OF THE NORTHWEST ATLANTIC FISHERIES CONVENTION ACT OF 1995.

Section 211 of the Northwest Atlantic Fisheries Convention Act of 1995 (16 U.S.C. 5610) is amended by striking “2001” and inserting “2006”.

TITLE VI—EXTENSION OF DEADLINE FOR SUBMISSION OF OCEAN POLICY REPORT

SEC. 601. EXTENSION OF DEADLINE.

(a) EXTENSION OF DEADLINE.—The Oceans Act of 2000 (Public Law 106-256) is amended—

(1) in section 3(f)(1) (114 Stat. 647) by striking “18 months” and inserting “27 months”;

(2) in section 3(i) (114 Stat. 648) by striking “30 days” and inserting “90 days”; and

(3) in section 4(a) (114 Stat. 648; 33 U.S.C. 857-19 note) by striking “120 days” and inserting “90 days”.

(b) AUTHORIZATION OF APPROPRIATIONS.—Section 3(j) of such Act (114 Stat. 648) is amended by striking “\$6,000,000” and inserting “\$8,500,000”.

(c) TECHNICAL CORRECTIONS.—Section 3(e) of such Act (114 Stat. 646) is amended—

(1) in paragraph (1) by striking the colon in the third sentence and inserting a period;

(2) by inserting immediately after such period the following:

“(2) NOTICE; MINUTES; PUBLIC AVAILABILITY OF DOCUMENTS.—”; and

(3) by redesignating the subsequent paragraphs in order as paragraphs (3) and (4), respectively.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Maryland (Mr. GILCHREST) and the gentleman from Colorado (Mr. UDALL) each will control 20 minutes.

The Chair recognizes the gentleman from Maryland (Mr. GILCHREST).

Mr. GILCHREST. Mr. Speaker, I yield myself such time as I may consume.

This legislation reauthorizes a number of important fishery statutes that range from grants for States for conservation, research, and enforcement activities to the implementation of international treaties. The bill reauthorizes these statutes through September 30, 2006.

Two of the State grant statutes are the Interjurisdictional Fisheries Act of 1986 and the Anadromous Fisheries Conservation Act of 1965. These laws have been active for a number of years and have provided funding for many worthwhile activities, including research to help improve the way fisheries are managed, enforcement activities, the rebuilding of necessary habitat, and other measures to improve the survival of fish that travel across State boundaries and over great distances.

The Atlantic Striped Bass Conservation Act of 1984 and the Atlantic Coastal Fisheries Cooperative Management Act are laws that provide directives to the States and the Atlantic States Fisheries Commission to develop fishery management plans for the species of fish under their jurisdiction along the East Coast.

These laws promote cooperation between the States and Federal Government to ensure that fisheries are getting appropriate and complementary management throughout their range, whether it be in State or Federal waters. The current robust health of striped bass populations is a direct result of efforts undertaken under these two acts.

The Atlantic Tunas Convention Act of 1975 and the Northwest Atlantic Fisheries Convention Act of 1995 are laws that implement international agreements. These acts allow the U.S. to be a member of the International Fishery Commission where management recommendations are developed by member nations for fisheries under the Commission's jurisdiction. The United States then implements those recommendations through regulations for U.S. fishing vessels.

Mr. Speaker, H.R. 1989 also makes some technical changes to the Oceans Act of 2000, Public Law 106-256. The bill extends the deadline for the Presidential commission to submit its report to Congress from 18 months to 27 months. This change will allow the commission to still be operational while the administration reviews and submits its comments. The commission will then have a chance to respond to the administration's comments and submit those to Congress. In addition, the commission has opted for a much broader field hearing schedule in order to obtain the views of additional Americans; and due to such a schedule, as a result, we have increased their authorization by \$2.5 million.

Mr. Speaker, all of these acts are very important. They have been very successful in accomplishing their conservation goals; and in the coming years, greater emphasis will be placed on research and management measures which promote the development of an ecosystem-based management of fisheries. I urge Members to vote “aye” on H.R. 1989.

Mr. Speaker, I reserve the balance of my time.

Mr. UDALL of Colorado. Mr. Speaker, I yield myself such time as I may consume.

Mr. UDALL of Colorado. Mr. Speaker, I rise in support of the bill.

As the gentleman from Maryland has already explained, H.R. 1989 extends a number of fisheries laws that authorize the conservation management of many of our domestic and international fishery resources. In addition, it encourages an ecosystem approach to the

management of these resources which, given the current status of many marine fisheries, is an excellent idea that is long overdue.

As the gentleman from Maryland is aware, the general management of marine fisheries in the United States is in serious need of improvement. First, we lack the proper data to manage these stocks. Of the 900-plus stocks that we currently harvest, we do not have enough data to evaluate the status of more than 700 of them. At the same time, while better data is obviously needed, having good data does not ensure good management. Of the 200 or so stocks for which we do have adequate information, half are considered to be overfished or approaching an overfished condition.

The status of fisheries worldwide is apparently not much better, either. According to leading scientists in a study published in the November 29 issue of *Nature Magazine*, the global fisheries catches from the world's oceans have been declining for over a decade. This new evidence, which contradicts reports published by the United Nations Food and Agricultural Organization, indicates that the true state of the oceans may be far worse than previously thought.

Now, some may think that people in Colorado, a State far from the ocean, would not care about the status of our marine fisheries, but that is not the case. The oceans represent more than 70 percent of the Earth's surface, and I believe it is incumbent upon all of us to work together to better protect and conserve their biodiversity. I know the bill of the gentleman from Maryland (Mr. GILCHREST), with its focus on better data collection and ecosystem management, is a good first step. I look forward to working with him next year to expand this concept to the Magnuson Act, our Nation's primary law governing the management of marine fisheries.

Further, the law and its implementation must be strengthened if we are to have any hope of saving our fisheries resources, both here in the United States and around the world.

Mr. Speaker, I have no further speakers, and I yield back the balance of my time.

Mr. GILCHREST. Mr. Speaker, I yield myself such time as I may consume to express my gratitude and appreciation for the members of the Committee on Resources on both sides of the aisle for piecing this package together, and I also want to compliment the staff on both sides of the aisle for their effort and cooperation in pulling this package together.

Mr. Speaker, I have no further speakers; and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Maryland (Mr.

GILCHREST) that the House suspend the rules and pass the bill, H.R. 1989, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

The title was amended so as to read: "A bill to reauthorize various fishing conservation management programs, and for other purposes."

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. GILCHREST. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on H.R. 2440 and H.R. 1989.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Maryland?

There was no objection.

LAND CONVEYANCE TO CHATHAM COUNTY, GEORGIA

Mr. LATOURETTE. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 2595) to direct the Secretary of the Army to convey a parcel of land to Chatham County, Georgia, as amended.

The Clerk read as follows:

H.R. 2595

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. LAND CONVEYANCE TO CHATHAM COUNTY, GEORGIA.

(a) IN GENERAL.—The Secretary of the Army shall convey, by quitclaim deed and without consideration, to the Commissioners of Chatham County, Georgia, all right, title, and interest of the United States in and to the approximately 12-acre parcel of land located on Hutchinson Island, Georgia, adjacent to the Savannah Harbor Tide Gate structure.

(b) SURVEY TO OBTAIN LEGAL DESCRIPTION.—The exact acreage and the legal description of the parcel to be conveyed under subsection (a) shall be determined by a survey that is satisfactory to the Secretary.

(c) USE OF LAND.—

(1) IN GENERAL.—The parcel conveyed under this section shall remain in public ownership and shall be managed in perpetuity for public recreational purposes or, in the alternative, the parcel may be exchanged for another parcel of equal appraised value that shall remain in public ownership and shall be managed in perpetuity for public recreational purposes.

(2) REVERSION.—If the Secretary determines that the parcel conveyed under this section is being used for purposes other than public recreational purposes, title to the parcel shall revert to the United States or, in the case of an exchange of parcels under paragraph (1), if the Secretary determines that the parcel received in the exchange is being used for purposes other than public recreational purposes title to that parcel shall revert to the United States.

(d) GENERAL PROVISIONS.—

(1) APPLICABILITY OF PROPERTY SCREENING PROVISIONS.—Section 2696 of title 10, United

States Code, shall not apply to the conveyance under this section.

(2) ADDITIONAL TERMS AND CONDITIONS.—The Secretary may require that the conveyance under this section be subject to such additional terms and conditions as the Secretary considers appropriate and necessary to protect the interests of the United States.

(3) COSTS OF CONVEYANCE.—The County shall be responsible for all reasonable and necessary costs, including real estate transaction and environmental compliance costs, associated with the conveyance.

(4) LIABILITY.—The County shall hold the United States harmless from any liability with respect to activities carried out, on or after the date of the conveyance, on the real property conveyed. The United States shall remain responsible for any liability with respect to activities carried out, before such date, on the real property conveyed.

(5) EASEMENTS.—The County shall provide to the Secretary all required rights of entry or easements necessary for utilities and for access to the Savannah Harbor Tide Gate structure and the dock located adjacent to the structure.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Ohio (Mr. LATOURETTE) and the gentleman from Tennessee (Mr. CLEMENT) each will control 20 minutes.

The Chair recognizes the gentleman from Ohio (Mr. LATOURETTE).

Mr. LATOURETTE. Mr. Speaker, I yield myself such time as I may consume.

Many years ago, Mr. Speaker, Chatham County, Georgia, donated approximately 12 acres of land on Hutchinson Island to the Federal Government so that the Corps of Engineers could build the Savannah River Tide Gate Structure. That project was closed in 1991 and the operational gates were removed. As a result, according to the Corps of Engineers, the Federal Government no longer needs this property.

Chatham County now would like to have this excess land returned to them so it could be used as part of an economic development project and a public recreational park. Without this legislation, the government has to follow a lengthy process for disposing of the property. This bill allows the property to go back to the county that gave up the land in the first place and will expedite an important local project that will benefit the public.

Mr. Speaker, I yield such time as he may consume to the gentleman from Georgia (Mr. KINGSTON), the author of the bill and, presumably, from Chatham County, Georgia, to explain it to us further.

Mr. KINGSTON. Mr. Speaker, I thank the gentleman for yielding me this time, and I thank the gentleman from Tennessee (Mr. CLEMENT) for his indulgence.

This simply lets the Corps of Engineers get rid of some excess property they do not want anymore. It allows the county to take that property and trade it to a private developer, 12 acres; but in exchange, they are going to get 40 acres back. I know the gentleman

from Colorado will be interested to know that they are going to have a natural park in those 40 acres that is going to be ecologically sensitive, a passive park, which I know the gentleman from Boulder is familiar with.

So this is a very good piece of legislation with bipartisan support by the local folks and the Corps of Engineers.

Mr. CLEMENT. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I know a comment was made a while ago about country music or country western music, and as the representative from Nashville, Tennessee, or Country Music USA, I appreciate the comments. I want my colleagues to know that the gentleman from Tennessee (Mr. DUNCAN) and myself and some others had the opportunity to sing on the Grand Ole Opry not long ago, which was an experience of a lifetime.

Mr. Speaker, I rise to support the bill H.R. 2595, a bill to convey a 12-acre parcel of land to Chatham County, Georgia, for public recreational purposes. This transfer will be accomplished without cost to the United States and for the benefit of the local citizens. The amended bill addresses a few issues from the original bill and should be supported by the House.

The land that would be transferred under this bill is not needed by the Corps of Engineers to carry out the purposes of the federally authorized project. The bill includes requirements to provide the Secretary of the Army rights of entry or easements so that the Corps can operate the project without hindrance.

Chatham County is responsible for all of the administrative costs of the land conveyance. In addition, the United States is protected from any environmental liability that may arise after the conveyance.

Mr. Speaker, I understand that the land that is being conveyed to the county will be exchanged for another parcel of land. The bill before us stipulates that the exchanged parcel will be kept in public ownership and used for public recreational purposes. The exchange will also be conducted on an equal-value basis. I urge an "aye" vote on this bill.

□ 1830

Mr. CLEMENT. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. LATOURETTE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I would notify the gentleman from Tennessee (Mr. CLEMENT) that I am sorry that I missed their performance on the Grand Old Opry; maybe on the return trip.

Mr. OBERSTAR. Mr. Speaker, I am pleased to rise in support of H.R. 2595, a bill to authorize the Secretary of the Army to transfer land to Chatham County, GA, to enhance recreation opportunities in that locale.

The land transfer authorized under this bill is similar to transfers that our committee often approves as part of the Water Resources Development Acts. However, the sponsor of this bill, Mr. KINGSTON, has indicated that swift action is necessary in advance of next year's Water Resources Development Act so that this project may proceed in a timely manner.

The amended bill considered by the House today conforms the bill to the typical terms and conditions associated with land transfers. The revised language ensures that the transfer occurs at no cost to the Federal taxpayer and at no loss to the U.S. Treasury. In addition, the land will be maintained in public ownership for public benefit. If this particular parcel of land is transferred by the county, the transfer must be for lands of equal value, further protecting the interest of the taxpayer. Finally, if the lands are put to use other than as authorized by this bill, ownership of the lands will revert to the United States. As is always done, the land transfer preserves for the United States any easement or rights-of-way necessary to operate and maintain the existing Federal project.

Mr. Speaker, I urge my colleagues to vote "aye" on H.R. 2595.

Mr. LATOURETTE. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. DUNCAN). The question is on the motion offered by the gentleman from Ohio (Mr. LATOURETTE) that the House suspend the rules and pass the bill, H.R. 2595, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

COMMENDING CHARITABLE ORGANIZATIONS AND AMERICAN PUBLIC RELIEF EFFORTS IN THE AFTERMATH OF SEPTEMBER 11 TERRORIST ATTACKS

Mr. LATOURETTE. Mr. Speaker, I move to suspend the rules and agree to the concurrent resolution (H. Con. Res. 259) expressing the sense of Congress regarding the relief efforts undertaken by charitable organizations and the people of the United States in the aftermath of the terrorist attacks against the United States that occurred on September 11, 2001.

The Clerk read as follows:

H. CON. RES. 259

Whereas the people of the United States have a long and honorable tradition of assisting individuals, families, and communities in need;

Whereas charitable organizations play a vital role in delivering services to individuals and families that are in need of relief;

Whereas charitable organizations are providing relief to the victims of the terrorist attacks against the United States that occurred on September 11, 2001, and their families;

Whereas the people of the United States have been extremely generous in contributing to charitable organizations that pro-

vide relief to the victims of the terrorist attacks and their families; and

Whereas more than \$1,000,000,000 has been collected for charitable work related to the terrorist attacks: Now, therefore, be it

Resolved by the House of Representatives (the Senate concurring), That Congress—

(1) praises the people of the United States for their patriotism and generosity in donating their money, time, and blood to support the victims of the terrorist attacks against the United States that occurred on September 11, 2001, and their families;

(2) commends charitable organizations for their hard work in providing needed assistance to the individuals and families who have been affected by the terrorist attacks;

(3) urges charitable organizations to use the money collected from the people of the United States for the purposes for which the money was donated, and to limit the extent to which such money is used for administrative costs; and

(4) condemns individuals and groups that fraudulently use contributions for objectives unrelated to the purpose for which the contributions were made.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Ohio (Mr. LATOURETTE) and the gentleman from Tennessee (Mr. CLEMENT) each will control 20 minutes.

The Chair recognizes the gentleman from Ohio (Mr. LATOURETTE).

Mr. LATOURETTE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, House Concurrent Resolution 259 expresses the sense of Congress regarding the relief efforts undertaken by charitable organizations and the people of the United States in the aftermath of the terrorist attacks of September 11.

Mr. Speaker, the tremendous outpouring of assistance in the wake of the September 11 attacks has become something of an epic legend. Over \$1 billion has been collected to support the relief efforts across the country.

These organizations serve a vital role in these relief efforts. They were the ones providing hot meals and medical care to the rescuers; they were the ones providing grief counselors to victims and their families; they were the ones ensuring that the displaced had a place to sleep and food to eat; and they are the ones that continue to serve at Ground Zero in New York and at the Pentagon, and wherever victims and their families are located.

The resolution does not mention the work by Federal, State, and local governments; but I want to commend each of them for their effort after the terrorist attacks and that which continues today. FEMA, the Small Business Administration, and the State of New York disaster assistance programs have contributed over \$696 million.

Mr. Speaker, this is a good piece of legislation. It is fitting that the Congress, through its sense of Congress resolution, praise the good efforts of generous Americans and condemn those that abused this trust.

I commend the important work done by the Federal, State, and local gov-

ernments and charities and individual volunteers, and urge my colleagues to support the resolution.

Mr. Speaker, I reserve the balance of my time.

Mr. CLEMENT. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in strong support of House Concurrent Resolution 259, a resolution expressing the sense of Congress regarding the relief efforts undertaken by charitable organizations and the American people in the aftermath of the terrorist attacks against the United States that occurred on September 11, 2001.

I would like to begin by thanking the gentleman from Florida (Mr. BILIRAKIS) for sponsoring this legislation. Our country has a long and proud tradition of helping families and communities in need, and our charitable organizations have often played a critical role in delivering these services.

Immediately after the September 11 terrorist attacks, thousands of volunteers began to donate their services, their talents, and even their blood. But they did not stop there. The people of the United States have been extremely generous in donating their money to various charitable organizations that provide relief to the victims of terrorist attacks and their families. In fact, more than \$1 billion has already been collected for charitable work related to the terrorist attacks.

Mr. Speaker, Congress commends the people of this country for their patriotism and unwavering generosity in donating not only their money but their time and efforts, as well. We also commend the various charitable organizations for their tireless efforts in providing assistance to the victims and their families who have been affected by the terrorist attacks. We expect the money collected for this disaster to be used for this disaster. To do otherwise would be an insult to the memory of the victims of the tragedy, and it would be a betrayal of the public trust.

I wholeheartedly support this resolution to recognize our Nation's citizens who selflessly and generously gave their time, effort, and money after the September 11 attack. By supporting these charitable efforts, we salute and pay tribute to the victims of this tragedy.

Mr. Speaker, I urge my colleagues to support this legislation, and I reserve the balance of my time.

Mr. LATOURETTE. Mr. Speaker, it is my pleasure to yield such time as he may consume to the gentleman from Florida (Mr. BILIRAKIS), the author of the legislation.

Mr. BILIRAKIS. Mr. Speaker, I thank the gentleman for yielding time to me.

Mr. Speaker, since the devastating events of September 11, Americans young and old have opened their hearts and their pocketbooks to help the victims of this terrible tragedy. To date,

over \$1 billion has been raised for relief efforts, proving once again that Americans are the most compassionate and generous people in the world.

However, shortly after the contributions began to pour in, we started to hear reports suggesting that charitable organizations are not acting in good faith to use the contributions of generous Americans to deliver timely assistance to the victims of September 11 and their families. How do we explain, we should ask ourselves, to elementary schoolchildren that their hard-raised contributions may not actually be used to help the families in need?

Today I am wearing a pin made by the students of Cyprus Woods Elementary School in Tarpon Springs, Florida. These students sold patriotic pins for \$1 each and raised a total of \$3,500. This amount was matched by a local corporation for a total of \$7,000, all of which went to the American Red Cross.

Another elementary school in the same area, Brooker Creek, raised \$2,300 for relief efforts. It would send a terrible message to these children and the community if charitable organizations did not use their contributions to directly aid the victims and their families.

Mr. Speaker, I am pleased, and I think all of us are, that the American Red Cross has decided to modify the operation of its Liberty Fund by using all proceeds from the fund to increase support for people affected by the September 11 terrorist attacks.

This decision, however, came after public pressure was put on the Red Cross by Members of Congress and the news media. I believe that it is important to send a message to charitable organizations that contributions should be used for the purposes for which they were given. That is why I introduced the resolution before us today.

House Concurrent Resolution 259 praises the people of the United States for their patriotism and their generosity in donating their money, time, and blood to send support to the victims of September 11. It also commends charitable organizations for their hard work in providing assistance, but urges them to use the funds collected for the purposes for which the money was given.

Mr. Speaker, I am grateful to the majority leader and the gentleman from Alaska (Chairman Young) for allowing this resolution to be considered under suspension of the rules. Many Americans lost their lives by the hands of terrorists on September 11, and their memory and sacrifice for their country should be honored by providing for the needs of their families in a timely and effective fashion.

I urge my colleagues to support House Concurrent Resolution 259.

Ms. JACKSON-LEE of Texas. Mr. Speaker, the incredible relief efforts that have taken

place after September 11, 2001 are unprecedented. Charitable donations collected for the victims of the attacks and their families, have exceeded \$1 billion in money alone. This spirit of good will and benevolence is what separates Americans and civilized people around the world from those who kill and seek to destroy out of hatred and for personal gain.

While the vast majority of these charitable efforts have been well meaning and appropriately administered, there have been reports, including by the Department of Justice, that some of these groups have allocated portions of the donations toward administrative and other non-disaster specific ends. While a great deal of these allocations may legitimately advance the delivery of services to individuals and families that are in need of relief, Congress has a responsibility to oversee this process in order to ensure that compliance with reasonable standards is ongoing.

This resolution acknowledges that the people and charitable organizations of the United States have a long and honorable tradition of assisting individuals, families, and communities in need. The vital role played by these people and organizations in delivering services to individuals and families that are in need of relief cannot be discounted.

This resolution also expresses the Sense of Congress praising the people of the United States for their patriotism and their donations of time, money and blood in the wake of the September 11 attacks. The resolution also commends the charitable organizations that provided assistance to the victims of the attacks and their families. It further urges the charities that collected relief money to use it for the purposes for which it was donated, and urges them to limit the extent that donations are used for administrative expenses. Furthermore, it condemns individuals and groups that fraudulently use contributions for objectives unrelated to the purposes for which the contributions were made.

In the aftermath of September 11, we must take the time to recognize the efforts of those who give to others who have lost so much. In doing so, we must take care to identify those who misappropriate and mismanage the fruits of those charitable efforts. This resolution helps to fulfill those two parallel obligations.

I urge my colleagues to support it.

Mr. CLEMENT. Mr. Speaker, I yield back the balance of my time.

Mr. LATOURETTE. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Ohio (Mr. LATOURETTE) that the House suspend the rules and agree to the concurrent resolution, House Concurrent Resolution 259.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the concurrent resolution was agreed to.

A motion to reconsider was laid on the table.

RAILROAD RETIREMENT AND SURVIVORS' IMPROVEMENT ACT OF 2001

Mr. QUINN. Mr. Speaker, I move to suspend the rules and concur in the

Senate amendments to the bill (H.R. 10) to provide for pension reform, and for other purposes.

The Clerk read as follows:

Senate amendments:

Strike out all after the enacting clause and insert:

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) *SHORT TITLE.*—This Act may be cited as the “Railroad Retirement and Survivors’ Improvement Act of 2001”.

(b) *TABLE OF CONTENTS.*—The table of contents for this Act is as follows:

Sec. 1. Short title; table of contents.

TITLE I—AMENDMENTS TO RAILROAD RETIREMENT ACT OF 1974

Sec. 101. Expansion of widow’s and widower’s benefits.

Sec. 102. Retirement age restoration.

Sec. 103. Vesting requirement.

Sec. 104. Repeal of railroad retirement maximum.

Sec. 105. Investment of railroad retirement assets.

Sec. 106. Elimination of supplemental annuity account.

Sec. 107. Transfer authority revisions.

Sec. 108. Annual ratio projections and certifications by the Railroad Retirement Board.

TITLE II—AMENDMENTS TO THE INTERNAL REVENUE CODE OF 1986

Sec. 201. Amendments to the Internal Revenue Code of 1986.

Sec. 202. Exemption from tax for National Railroad Retirement Investment Trust.

Sec. 203. Repeal of supplemental annuity tax.

Sec. 204. Employer, employee representative, and employee tier 2 tax rate adjustments.

TITLE I—AMENDMENTS TO RAILROAD RETIREMENT ACT OF 1974

SEC. 101. EXPANSION OF WIDOWS AND WIDOWER’S BENEFITS.

(a) *IN GENERAL.*—Section 4(g) of the Railroad Retirement Act of 1974 (45 U.S.C. 231(c)) is amended by adding at the end the following new subdivision:

“(10)(i) If for any month the unreduced annuity provided under this section for a widow or widower is less than the widow’s or widower’s initial minimum amount computed pursuant to paragraph (ii) of this subdivision, the unreduced annuity shall be increased to that initial minimum amount. For the purposes of this subdivision, the unreduced annuity is the annuity without regard to any deduction on account of work, without regard to any reduction for entitlement to an annuity under section 2(a)(1) of this Act, without regard to any reduction for entitlement to a benefit under title II of the Social Security Act, and without regard to any reduction for entitlement to a public service pension pursuant to section 202(e)(7), 202(f)(2), or 202(g)(4) of the Social Security Act.

“(ii) For the purposes of this subdivision, the widow or widower’s initial minimum amount is the amount of the unreduced annuity computed at the time an annuity is awarded to that widow or widower, except that—

“(A) in subsection (g)(1)(i) ‘100 per centum’ shall be substituted for ‘50 per centum’; and

“(B) in subsection (g)(2)(ii) ‘130 per centum’ shall be substituted for ‘80 per centum’ both places it appears.

“(iii) If a widow or widower who was previously entitled to a widow’s or widower’s annuity under section 2(d)(1)(ii) of this Act becomes entitled to a widow’s or widower’s annuity under section 2(d)(1)(i) of this Act, a new initial minimum amount shall be computed at

the time of award of the widow's or widower's annuity under section 2(d)(1)(i) of this Act."

(b) **EFFECTIVE DATE.**—

(1) **IN GENERAL.**—The amendment made by this section shall take effect on the first day of the first month that begins more than 30 days after enactment, and shall apply to annuity amounts accruing for months after the effective date in the case of annuities awarded—

(A) on or after that date; and

(B) before that date, but only if the annuity amount under section 4(g) of the Railroad Retirement Act of 1974 (45 U.S.C. 231c(g)) was computed under such section, as amended by the Omnibus Budget Reconciliation Act of 1981 (Public Law 97-35; 95 Stat. 357).

(2) **SPECIAL RULE FOR ANNUITIES AWARDED BEFORE THE EFFECTIVE DATE.**—In applying the amendment made by this section to annuities awarded before the effective date, the calculation of the initial minimum amount under new section 4(g)(10)(ii) of the Railroad Retirement Act of 1974 (45 U.S.C. 231c(g)(10)(ii)), as added by subsection (a), shall be made as of the date of the award of the widow's or widower's annuity.

SEC. 102. RETIREMENT AGE RESTORATION.

(a) **EMPLOYEE ANNUITIES.**—Section 3(a)(2) of the Railroad Retirement Act of 1974 (45 U.S.C. 231b(a)(2)) is amended by inserting after "(2)" the following new sentence: "For purposes of this subsection, individuals entitled to an annuity under section 2(a)(1)(ii) of this Act shall, except for the purposes of recomputations in accordance with section 215(f) of the Social Security Act, be deemed to have attained retirement age (as defined by section 216(l) of the Social Security Act)."

(b) **SPOUSE AND SURVIVOR ANNUITIES.**—Section 4(a)(2) of the Railroad Retirement Act of 1974 (45 U.S.C. 231c(a)(2)) is amended by striking "if an" and all that follows through "section 2(c)(1) of this Act" and inserting "a spouse entitled to an annuity under section 2(c)(1)(ii)(B) of this Act".

(c) **CONFORMING REPEALS.**—Sections 3(a)(3), 4(a)(3), and 4(a)(4) of the Railroad Retirement Act of 1974 (45 U.S.C. 231b(a)(3), 231c(a)(3), and 231c(a)(4)) are repealed.

(d) **EFFECTIVE DATES.**—

(1) **GENERALLY.**—Except as provided in paragraph (2), the amendments made by this section shall apply to annuities that begin to accrue on or after January 1, 2002.

(2) **EXCEPTION.**—The amount of the annuity provided for a spouse under section 4(a) of the Railroad Retirement Act of 1974 (45 U.S.C. 231c(a)) shall be computed under section 4(a)(3) of such Act, as in effect on December 31, 2001, if the annuity amount provided under section 3(a) of such Act (45 U.S.C. 231b(a)) for the individual on whose employment record the spouse annuity is based was computed under section 3(a)(3) of such Act, as in effect on December 31, 2001.

SEC. 103. VESTING REQUIREMENT.

(a) **CERTAIN ANNUITIES FOR INDIVIDUALS.**—Section 2(a) of the Railroad Retirement Act of 1974 (45 U.S.C. 231a(a)) is amended—

(1) by inserting in subdivision (1) "(or, for purposes of paragraphs (i), (iii), and (v), five years of service, all of which accrues after December 31, 1995)" after "ten years of service"; and

(2) by adding at the end the following new subdivision:

"(4) An individual who is entitled to an annuity under paragraph (v) of subdivision (1), but who does not have at least ten years of service, shall, prior to the month in which the individual attains age 62, be entitled only to an annuity amount computed under section 3(a) of this Act (without regard to section 3(a)(2) of this Act) or section 3(f)(3) of this Act. Upon attain-

ment of age 62, such an individual may also be entitled to an annuity amount computed under section 3(b), but such annuity amount shall be reduced for early retirement in the same manner as if the individual were entitled to an annuity under section 2(a)(1)(iii)."

(b) **COMPUTATION RULE FOR INDIVIDUALS' ANNUITIES.**—Section 3(a) of the Railroad Retirement Act of 1974 (45 U.S.C. 231b(a)), as amended by section 102 of this Act, is further amended by adding at the end the following new subdivision:

"(3) If an individual entitled to an annuity under section 2(a)(1)(i) or (iii) of this Act on the basis of less than ten years of service is entitled to a benefit under section 202(a), section 202(b), or section 202(c) of the Social Security Act which began to accrue before the annuity under section 2(a)(1)(i) or (iii) of this Act, the annuity amount provided such individual under this subsection, shall be computed as though the annuity under this Act began to accrue on the later of (A) the date on which the benefit under section 202(a), section 202(b), or section 202(c) of the Social Security Act began, or (B) the date on which the individual first met the conditions for entitlement to an age reduced annuity under this Act other than the conditions set forth in sections 2(e)(1) and 2(e)(2) of this Act and the requirement that an application be filed."

(c) **SURVIVORS' ANNUITIES.**—Section 2(d)(1) of the Railroad Retirement Act of 1974 (45 U.S.C. 231a(d)(1)) is amended by inserting "(or five years of service, all of which accrues after December 31, 1995)" after "ten years of service".

(d) **LIMITATION ON ANNUITY AMOUNTS.**—Section 2 of the Railroad Retirement Act of 1974 (45 U.S.C. 231a) is amended by adding at the end the following new subsection:

"(i) An individual entitled to an annuity under this section who has completed five years of service, all of which accrues after 1995, but who has not completed ten years of service, and the spouse, divorced spouse, and survivors of such individual, shall not be entitled to an annuity amount provided under section 3(a), section 4(a), or section 4(f) of this Act unless the individual, or the individual's spouse, divorced spouse, or survivors, would be entitled to a benefit under title II of the Social Security Act on the basis of the individual's employment record under both this Act and title II of the Social Security Act."

(e) **COMPUTATION RULE FOR SPOUSES' ANNUITIES.**—Section 4(a) of the Railroad Retirement Act of 1974 (45 U.S.C. 231c(a)), as amended by section 102 of this Act, is further amended by adding at the end the following new subdivision:

"(3) If a spouse entitled to an annuity under section 2(c)(1)(ii)(A), section 2(c)(1)(ii)(C), or section 2(c)(2) of this Act or a divorced spouse entitled to an annuity under section 2(c)(4) of this Act on the basis of the employment record of an employee who will have completed less than 10 years of service is entitled to a benefit under section 202(a), section 202(b), or section 202(c) of the Social Security Act which began to accrue before the annuity under section 2(c)(1)(ii)(A), section 2(c)(1)(ii)(C), section 2(c)(2), or section 2(c)(4) of this Act, the annuity amount provided under this subsection shall be computed as though the annuity under this Act began to accrue on the later of (A) the date on which the benefit under section 202(a), section 202(b), or section 202(c) of the Social Security Act began or (B) the first date on which the annuitant met the conditions for entitlement to an age reduced annuity under this Act other than the conditions set forth in sections 2(e)(1) and 2(e)(2) of this Act and the requirement that an application be filed."

(f) **APPLICATION DEEMING PROVISION.**—Section 5(b) of the Railroad Retirement Act of 1974 (45

U.S.C. 231d(b)) is amended by striking the second sentence and inserting the following new sentence: "An application filed with the Board for an employee annuity, spouse annuity, or divorced spouse annuity on the basis of the employment record of an employee who will have completed less than ten years of service shall be deemed to be an application for any benefit to which such applicant may be entitled under this Act or section 202(a), section 202(b), or section 202(c) of the Social Security Act. An application filed with the Board for an annuity on the basis of the employment record of an employee who will have completed ten years of service shall, unless the applicant specified otherwise, be deemed to be an application for any benefit to which such applicant may be entitled under this Act or title II of the Social Security Act."

(g) **CREDITING SERVICE UNDER THE SOCIAL SECURITY ACT.**—Section 18(2) of the Railroad Retirement Act of 1974 (45 U.S.C. 231q(2)) is amended—

(1) by inserting "(or less than five years of service, all of which accrues after December 31, 1995)" after "ten years of service" every place it appears; and

(2) by inserting "(or five or more years of service, all of which accrues after December 31, 1995)" after "ten or more years of service".

(h) **AUTOMATIC BENEFIT ELIGIBILITY ADJUSTMENTS.**—Section 19 of the Railroad Retirement Act of 1974 (45 U.S.C. 231r) is amended—

(1) by inserting "(or five or more years of service, all of which accrues after December 31, 1995)" after "ten years of service" in subsection (c); and

(2) by inserting "(or five or more years of service, all of which accrues after December 31, 1995)" after "ten years of service" in subsection (d)(2).

(i) **CONFORMING AMENDMENTS.**—

(1) Section 6(e)(1) of the Railroad Retirement Act of 1974 (45 U.S.C. 231e(1)) is amended by inserting "(or five or more years of service, all of which accrues after December 31, 1995)" after "ten years of service".

(2) Section 7(b)(2)(A) of the Railroad Retirement Act of 1974 (45 U.S.C. 231f(b)(2)(A)) is amended by inserting "(or five or more years of service, all of which accrues after December 31, 1995)" after "ten years of service".

(3) Section 205(i) of the Social Security Act (42 U.S.C. 405(i)) is amended by inserting "(or five or more years of service, all of which accrues after December 31, 1995)" after "ten years of service".

(4) Section 6(b)(2) of the Railroad Retirement Act of 1974 (45 U.S.C. 231e(b)(2)) is amended by inserting "(or five or more years of service, all of which accrues after December 31, 1995)" after "ten years of service" the second place it appears.

(j) **EFFECTIVE DATE.**—The amendments made by this section shall take effect on January 1, 2002.

SEC. 104. REPEAL OF RAILROAD RETIREMENT MAXIMUM.

(a) **EMPLOYEE ANNUITIES.**—

(1) **IN GENERAL.**—Section 3(f) of the Railroad Retirement Act of 1974 (45 U.S.C. 231b(f)) is amended—

(A) by striking subdivision (1); and

(B) by redesignating subdivisions (2) and (3) as subdivisions (1) and (2), respectively.

(2) **CONFORMING AMENDMENTS.**—

(A) The first sentence of section 3(f)(1) of the Railroad Retirement Act of 1974 (45 U.S.C. 231b(f)(1)), as redesignated by paragraph (1)(B), is amended by striking ", without regard to the provisions of subdivision (1) of this subsection,".

(B) Paragraphs (i) and (ii) of section 7(d)(2) of the Railroad Retirement Act of 1974 (45 U.S.C. 231f(d)(2)) are each amended by striking "section 3(f)(3)" and inserting "section 3(f)(2)".

(b) **SPOUSE AND SURVIVOR ANNUITIES.**—Section 4 of the Railroad Retirement Act of 1974 (45 U.S.C. 231c) is amended by striking subsection (c).

(c) **EFFECTIVE DATE.**—The amendments made by this section shall take effect on January 1, 2002, and shall apply to annuity amounts accruing for months after December 2001.

SEC. 105. INVESTMENT OF RAILROAD RETIREMENT ASSETS.

(a) **ESTABLISHMENT OF NATIONAL RAILROAD RETIREMENT INVESTMENT TRUST.**—Section 15 of the Railroad Retirement Act of 1974 (45 U.S.C. 231n) is amended by inserting after subsection (i) the following new subsection:

“(j) **NATIONAL RAILROAD RETIREMENT INVESTMENT TRUST.**—

“(1) **ESTABLISHMENT.**—The National Railroad Retirement Investment Trust (hereinafter in this subsection referred to as the ‘Trust’) is hereby established as a trust domiciled in the District of Columbia and shall, to the extent not inconsistent with this Act, be subject to the laws of the District of Columbia applicable to such trusts. The Trust shall manage and invest its assets in the manner set forth in this subsection.

“(2) **NOT A FEDERAL AGENCY OR INSTRUMENTALITY.**—The Trust is not a department, agency, or instrumentality of the Government of the United States and shall not be subject to title 31, United States Code.

“(3) **BOARD OF TRUSTEES.**—

“(A) **GENERALLY.**—

“(i) **MEMBERSHIP.**—The Trust shall have a Board of Trustees, consisting of 7 members. Three shall represent the interests of labor, 3 shall represent the interests of management, and 1 shall be an independent Trustee. The members of the Board of Trustees shall not be considered officers or employees of the Government of the United States.

“(ii) **SELECTION.**—

“(I) The 3 members representing the interests of labor shall be selected by the joint recommendation of labor organizations, national in scope, organized in accordance with section 2 of the Railway Labor Act, and representing at least $\frac{2}{3}$ of all active employees, represented by such national labor organizations, covered under this Act.

“(II) The 3 members representing the interests of management shall be selected by the joint recommendation of carriers as defined in section 1 of the Railway Labor Act employing at least $\frac{2}{3}$ of all active employees covered under this Act.

“(III) The independent member shall be selected by a majority of the other 6 members of the Board of Trustees.

A member of the Board of Trustees may be removed in the same manner and by the same constituency that selected that member.

“(iii) **DISPUTE RESOLUTION.**—In the event that the parties specified in subclause (I), (II), or (III) of the previous clause cannot agree on the selection of Trustees within 60 days of the date of enactment or 60 days from any subsequent date that a position of the Board of Trustees becomes vacant, an impartial umpire to decide such dispute shall, on the petition of a party to the dispute, be appointed by the District Court of the United States for the District of Columbia.

“(B) **QUALIFICATIONS.**—Members of the Board of Trustees shall be appointed only from among persons who have experience and expertise in the management of financial investments and pension plans. No member of the Railroad Retirement Board shall be eligible to be a member of the Board of Trustees.

“(C) **TERMS.**—Except as provided in this subparagraph, each member shall be appointed for a 3-year term. The initial members appointed under this paragraph shall be divided into equal groups so nearly as may be, of which one group

will be appointed for a 1-year term, one for a 2-year term, and one for a 3-year term. The Trustee initially selected pursuant to clause (ii)(III) shall be appointed to a 3-year term. A vacancy in the Board of Trustees shall not affect the powers of the Board of Trustees and shall be filled in the same manner as the selection of the member whose departure caused the vacancy. Upon the expiration of a term of a member of the Board of Trustees, that member shall continue to serve until a successor is appointed.

“(4) **POWERS OF THE BOARD OF TRUSTEES.**—The Board of Trustees shall—

“(A) retain independent advisers to assist it in the formulation and adoption of its investment guidelines;

“(B) retain independent investment managers to invest the assets of the Trust in a manner consistent with such investment guidelines;

“(C) invest assets in the Trust, pursuant to the policies adopted in subparagraph (A);

“(D) pay administrative expenses of the Trust from the assets in the Trust; and

“(E) transfer money to the disbursing agent or as otherwise provided in section 7(b)(4), to pay benefits payable under this Act from the assets of the Trust.

“(5) **REPORTING REQUIREMENTS AND FIDUCIARY STANDARDS.**—The following reporting requirements and fiduciary standards shall apply with respect to the Trust:

“(A) **DUTIES OF THE BOARD OF TRUSTEES.**—The Trust and each member of the Board of Trustees shall discharge their duties (including the voting of proxies) with respect to the assets of the Trust solely in the interest of the Railroad Retirement Board and through it, the participants and beneficiaries of the programs funded under this Act—

“(i) for the exclusive purpose of—

“(I) providing benefits to participants and their beneficiaries; and

“(II) defraying reasonable expenses of administering the functions of the Trust;

“(ii) with the care, skill, prudence, and diligence under the circumstances then prevailing that a prudent person acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of a like character and with like aims;

“(iii) by diversifying investments so as to minimize the risk of large losses and to avoid disproportionate influence over a particular industry or firm, unless under the circumstances it is clearly prudent not to do so; and

“(iv) in accordance with Trust governing documents and instruments insofar as such documents and instruments are consistent with this Act.

“(B) **PROHIBITIONS WITH RESPECT TO MEMBERS OF THE BOARD OF TRUSTEES.**—No member of the Board of Trustees shall—

“(i) deal with the assets of the Trust in the trustee's own interest or for the trustee's own account;

“(ii) in an individual or in any other capacity act in any transaction involving the assets of the Trust on behalf of a party (or represent a party) whose interests are adverse to the interests of the Trust, the Railroad Retirement Board, or the interests of participants or beneficiaries; or

“(iii) receive any consideration for the trustee's own personal account from any party dealing with the assets of the Trust.

“(C) **EXCULPATORY PROVISIONS AND INSURANCE.**—Any provision in an agreement or instrument that purports to relieve a trustee from responsibility or liability for any responsibility, obligation, or duty under this Act shall be void: Provided, however, That nothing shall preclude—

“(i) the Trust from purchasing insurance for its trustees or for itself to cover liability or losses

occurring by reason of the act or omission of a trustee, if such insurance permits recourse by the insurer against the trustee in the case of a breach of a fiduciary obligation by such trustee;

“(ii) a trustee from purchasing insurance to cover liability under this section from and for his own account; or

“(iii) an employer or an employee organization from purchasing insurance to cover potential liability of one or more trustees with respect to their fiduciary responsibilities, obligations, and duties under this section.

“(D) **BONDING.**—Every trustee and every person who handles funds or other property of the Trust (hereafter in this subsection referred to as ‘Trust official’) shall be bonded. Such bond shall provide protection to the Trust against loss by reason of acts of fraud or dishonesty on the part of any Trust official, directly or through the connivance of others, and shall be in accordance with the following:

“(i) The amount of such bond shall be fixed at the beginning of each fiscal year of the Trust by the Railroad Retirement Board. Such amount shall not be less than 10 percent of the amount of the funds handled. In no case shall such bond be less than \$1,000 nor more than \$500,000, except that the Railroad Retirement Board, after consideration of the record, may prescribe an amount in excess of \$500,000, subject to the 10 per centum limitation of the preceding sentence.

“(ii) It shall be unlawful for any Trust official to receive, handle, disburse, or otherwise exercise custody or control of any of the funds or other property of the Trust without being bonded as required by this subsection and it shall be unlawful for any Trust official, or any other person having authority to direct the performance of such functions, to permit such functions, or any of them, to be performed by any Trust official, with respect to whom the requirements of this subsection have not been met.

“(iii) It shall be unlawful for any person to procure any bond required by this subsection from any surety or other company or through any agent or broker in whose business operations such person has any control or significant financial interest, direct or indirect.

“(E) **AUDIT AND REPORT.**—

“(i) The Trust shall annually engage an independent qualified public accountant to audit the financial statements of the Trust.

“(ii) The Trust shall submit an annual management report to the Congress not later than 180 days after the end of the Trust's fiscal year. A management report under this subsection shall include—

“(I) a statement of financial position;

“(II) a statement of operations;

“(III) a statement of cash flows;

“(IV) a statement on internal accounting and administrative control systems;

“(V) the report resulting from an audit of the financial statements of the Trust conducted under clause (i); and

“(VI) any other comments and information necessary to inform the Congress about the operations and financial condition of the Trust.

“(iii) The Trust shall provide the President, the Railroad Retirement Board, and the Director of the Office of Management and Budget a copy of the management report when it is submitted to Congress.

“(F) **ENFORCEMENT.**—The Railroad Retirement Board may bring a civil action—

“(i) to enjoin any act or practice by the Trust, its Board of Trustees, or its employees or agents that violates any provision of this Act; or

“(ii) to obtain other appropriate relief to redress such violations, or to enforce any provisions of this Act.

“(G) **RULES AND ADMINISTRATIVE POWERS.**—The Board of Trustees shall have the authority to make rules to govern its operations, employ

professional staff, and contract with outside advisers, including the Railroad Retirement Board, to provide legal, accounting, investment advisory, or other services necessary for the proper administration of this subsection. In the case of contracts with investment advisory services, compensation for such services may be on a fixed contract fee basis or on such other terms and conditions as are customary for such services.

“(7) QUORUM.—Five members of the Board of Trustees constitute a quorum to do business. Investment guidelines must be adopted by a unanimous vote of the entire Board of Trustees. All other decisions of the Board of Trustees shall be decided by a majority vote of the quorum present. All decisions of the Board of Trustees shall be entered upon the records of the Board of Trustees.

“(8) FUNDING.—The expenses of the Trust and the Board of Trustees incurred under this subsection shall be paid from the Trust.”.

(b) CONFORMING AND TECHNICAL AMENDMENTS GOVERNING INVESTMENTS.—Section 15(e) of the Railroad Retirement Act of 1974 (45 U.S.C. 231n(e)) is amended—

(1) in the first sentence, by striking “, the Dual Benefits Payments Account” and all that follows through “may be made only” in the second sentence and inserting “and the Dual Benefits Payments Account as are not transferred to the National Railroad Retirement Investment Trust as the Board may determine”;

(2) by striking “the Second Liberty Bond Act, as amended” and inserting “chapter 31 of title 31”; and

(3) by striking “the foregoing requirements” and inserting “the requirements of this subsection”.

(c) MEANS OF FINANCING.—For all purposes of the Congressional Budget Act of 1974, the Balanced Budget and Emergency Deficit Control Act of 1985, and chapter 11 of title 31, United States Code, and notwithstanding section 20 of the Office of Management and Budget Circular No. A-11, the purchase or sale of non-Federal assets (other than gains or losses from such transactions) by the National Railroad Retirement Investment Trust shall be treated as a means of financing.

(d) EFFECTIVE DATE.—The amendments made by this section shall take effect on the first day of the month that begins more than 30 days after enactment.

SEC. 106. ELIMINATION OF SUPPLEMENTAL ANNUITY ACCOUNT.

(a) SOURCE OF PAYMENTS.—Section 7(c)(1) of the Railroad Retirement Act of 1974 (45 U.S.C. 231f(c)(1)) is amended by striking “payments of supplemental annuities under section 2(b) of this Act shall be made from the Railroad Retirement Supplemental Account, and”.

(b) ELIMINATION OF ACCOUNT.—Section 15(c) of the Railroad Retirement Act of 1974 (45 U.S.C. 231n(c)) is repealed.

(c) AMENDMENT TO RAILROAD RETIREMENT ACCOUNT.—Section 15(a) of the Railroad Retirement Act of 1974 (45 U.S.C. 231n(a)) is amended by striking “, except those portions of the amounts covered into the Treasury under sections 3211(b).” and all that follows through the end of the subsection and inserting a period.

(d) TRANSFER.—

(1) DETERMINATION.—As soon as possible after December 31, 2001, the Railroad Retirement Board shall—

(A) determine the amount of funds in the Railroad Retirement Supplemental Account under section 15(c) of the Railroad Retirement Act of 1974 (45 U.S.C. 231n(c)) as of the date of such determination; and

(B) direct the Secretary of the Treasury to transfer such funds to the National Railroad Retirement Investment Trust under section 15(f) of such Act (as added by section 105).

(2) TRANSFER BY THE SECRETARY OF THE TREASURY.—The Secretary of the Treasury shall make the transfer described in paragraph (1).

(e) EFFECTIVE DATE.—

(1) IN GENERAL.—Subject to paragraph (2), the amendments made by subsections (a), (b), and (c) shall take effect January 1, 2002.

(2) ACCOUNT IN EXISTENCE UNTIL TRANSFER MADE.—The Railroad Retirement Supplemental Account under section 15(c) of the Railroad Retirement Act of 1974 (45 U.S.C. 231n(c)) shall continue to exist until the date that the Secretary of the Treasury makes the transfer described in subsection (d)(2).

SEC. 107. TRANSFER AUTHORITY REVISIONS.

(a) RAILROAD RETIREMENT ACCOUNT.—Section 15 of the Railroad Retirement Act of 1974 (45 U.S.C. 231n) is amended by adding after subsection (j) the following new subsection:

“(k) TRANSFERS TO THE TRUST.—The Board shall, upon establishment of the National Railroad Retirement Investment Trust and from time to time thereafter, direct the Secretary of the Treasury to transfer, in such manner as will maximize the investment returns to the Railroad Retirement system, that portion of the Railroad Retirement Account that is not needed to pay current administrative expenses of the Board to the National Railroad Retirement Investment Trust. The Secretary shall make that transfer.”.

(b) TRANSFERS FROM THE NATIONAL RAILROAD RETIREMENT INVESTMENT TRUST.—Section 15 of the Railroad Retirement Act of 1974 (45 U.S.C. 231n), as amended by subsection (a), is further amended by adding after subsection (k) the following new subsection:

“(l) NATIONAL RAILROAD RETIREMENT INVESTMENT TRUST.—The National Railroad Retirement Investment Trust shall from time to time transfer to the disbursing agent described in section 7(b)(4) or as otherwise directed by the Railroad Retirement Board pursuant to section 7(b)(4), such amounts as may be necessary to pay benefits under this Act (other than benefits paid from the Social Security Equivalent Benefit Account or the Dual Benefit Payments Account).”.

(c) SOCIAL SECURITY EQUIVALENT BENEFIT ACCOUNT.—

(1) TRANSFERS TO TRUST.—Section 15A(d)(2) of the Railroad Retirement Act of 1974 (45 U.S.C. 231n-1(d)(2)) is amended to read as follows:

“(2) Upon establishment of the National Railroad Retirement Investment Trust and from time to time thereafter, the Board shall direct the Secretary of the Treasury to transfer, in such manner as will maximize the investment returns to the Railroad Retirement system, the balance of the Social Security Equivalent Benefit Account not needed to pay current benefits and administrative expenses required to be paid from that Account to the National Railroad Retirement Investment Trust, and the Secretary shall make that transfer. Any balance transferred under this paragraph shall be used by the National Railroad Retirement Investment Trust only to pay benefits under this Act or to purchase obligations of the United States that are backed by the full faith and credit of the United States pursuant to chapter 31 of title 31, United States Code. The proceeds of sales of, and the interest income from, such obligations shall be used by the Trust only to pay benefits under this Act.”.

(2) TRANSFERS TO DISBURSING AGENT.—Section 15A(c)(1) of the Railroad Retirement Act of 1974 (45 U.S.C. 231n-1(c)(1)) is amended by adding at the end the following new sentence: “The Secretary shall from time to time transfer to the disbursing agent under section 7(b)(4) amounts necessary to pay those benefits.”.

(3) CONFORMING AMENDMENT.—Section 15A(d)(1) of the Railroad Retirement Act of 1974 (45 U.S.C. 231n-1(d)(1)) is amended by striking the second and third sentences.

(d) DUAL BENEFITS PAYMENTS ACCOUNT.—Section 15(d)(1) of the Railroad Retirement Act of 1974 (45 U.S.C. 231n(d)(1)) is amended by adding at the end the following new sentence: “The Secretary of the Treasury shall from time to time transfer from the Dual Benefits Payments Account to the disbursing agent under section 7(b)(4) amounts necessary to pay benefits payable from that Account.”.

(e) CERTIFICATION BY THE BOARD AND PAYMENT.—Paragraph (4) of section 7(b) of the Railroad Retirement Act of 1974 (45 U.S.C. 231f(b)(4)) is amended to read as follows:

“(4)(A) The Railroad Retirement Board, after consultation with the Board of Trustees of the National Railroad Retirement Investment Trust and the Secretary of the Treasury, shall enter into an arrangement with a nongovernmental financial institution to serve as disbursing agent for benefits payable under this Act who shall disburse consolidated benefits under this Act to each recipient. Pending the taking effect of that arrangement, benefits shall be paid as under the law in effect prior to the enactment of the Railroad Retirement and Survivors’ Improvement Act of 2001.

“(B) The Board shall from time to time certify—

“(i) to the Secretary of the Treasury the amounts required to be transferred from the Social Security Equivalent Benefit Account and the Dual Benefits Payments Account to the disbursing agent to make payments of benefits and the Secretary of the Treasury shall transfer those amounts;

“(ii) to the Board of Trustees of the National Railroad Retirement Investment Trust the amounts required to be transferred from the National Railroad Retirement Investment Trust to the disbursing agent to make payments of benefits and the Board of Trustees shall transfer those amounts; and

“(iii) to the disbursing agent the name and address of each individual entitled to receive a payment, the amount of such payment, and the time at which the payment should be made.”.

(f) BENEFIT PAYMENTS.—Section 7(c)(1) of the Railroad Retirement Act of 1974 (45 U.S.C. 231f(c)(1)) is amended—

(1) by striking “from the Railroad Retirement Account” and inserting “by the disbursing agent under subsection (b)(4) from money transferred to it from the National Railroad Retirement Investment Trust or the Social Security Equivalent Benefit Account, as the case may be”; and

(2) by inserting “by the disbursing agent under subsection (b)(4) from money transferred to it” after “Public Law 93-445 shall be made”.

(g) TRANSITIONAL RULE FOR EXISTING OBLIGATION.—In making transfers under sections 15(k) and 15A(d)(2) of the Railroad Retirement Act of 1974, as amended by subsections (a) and (c), respectively, the Railroad Retirement Board shall consult with the Secretary of the Treasury to design an appropriate method to transfer obligations held as of the date of enactment of this Act or to convert such obligations to cash at the discretion of the Railroad Retirement Board prior to transfer. The National Railroad Retirement Investment Trust may hold to maturity any obligations so received or may redeem them prior to maturity, as the Trust deems appropriate.

SEC. 108. ANNUAL RATIO PROJECTIONS AND CERTIFICATIONS BY THE RAILROAD RETIREMENT BOARD.

(a) PROJECTIONS.—Section 22(a)(1) of the Railroad Retirement Act of 1974 (45 U.S.C. 231u(a)(1)) is amended—

(1) by inserting after the first sentence the following new sentence: “On or before May 1 of each year beginning in 2003, the Railroad Retirement Board shall compute its projection of

the account benefits ratio and the average account benefits ratio (as defined by section 3241(c) of the Internal Revenue Code of 1986) for each of the next succeeding five fiscal years.”; and

(2) by striking “the projection prepared pursuant to the preceding sentence” and inserting “the projections prepared pursuant to the preceding two sentences”.

(b) CERTIFICATIONS.—The Railroad Retirement Act of 1974 (45 U.S.C. 231 et seq.) is amended by adding at the end the following new section:

“COMPUTATION AND CERTIFICATION OF ACCOUNT BENEFIT RATIOS

“SEC. 23. (a) INITIAL COMPUTATION AND CERTIFICATION.—On or before November 1, 2003, the Railroad Retirement Board shall—

“(1) compute the account benefits ratios for each of the most recent 10 preceding fiscal years, and

“(2) certify the account benefits ratios for each such fiscal year to the Secretary of the Treasury.

“(b) COMPUTATIONS AND CERTIFICATIONS AFTER 2003.—On or before November 1 of each year after 2003, the Railroad Retirement Board shall—

“(1) compute the account benefits ratio for the fiscal year ending in such year, and

“(2) certify the account benefits ratio for such fiscal year to the Secretary of the Treasury.

“(c) DEFINITION.—As used in this section, the term ‘account benefits ratio’ has the meaning given that term in section 3241(c) of the Internal Revenue Code of 1986.”.

TITLE II—AMENDMENTS TO THE INTERNAL REVENUE CODE OF 1986

SEC. 201. AMENDMENTS TO THE INTERNAL REVENUE CODE OF 1986.

Except as otherwise provided, whenever in this title an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Internal Revenue Code of 1986.

SEC. 202. EXEMPTION FROM TAX FOR NATIONAL RAILROAD RETIREMENT INVESTMENT TRUST.

Subsection (c) of section 501 is amended by adding at the end the following new paragraph:

“(28) The National Railroad Retirement Investment Trust established under section 15(j) of the Railroad Retirement Act of 1974.”.

SEC. 203. REPEAL OF SUPPLEMENTAL ANNUITY TAX.

(a) REPEAL OF TAX ON EMPLOYEE REPRESENTATIVES.—Section 3211 is amended by striking subsection (b).

(b) REPEAL OF TAX ON EMPLOYERS.—Section 3221 is amended by striking subsections (c) and (d) and by redesignating subsection (e) as subsection (c).

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to calendar years beginning after December 31, 2001.

SEC. 204. EMPLOYER, EMPLOYEE REPRESENTATIVE, AND EMPLOYEE TIER 2 TAX RATE ADJUSTMENTS.

(a) RATE OF TAX ON EMPLOYERS.—Subsection (b) of section 3221 is amended to read as follows:

“(b) TIER 2 TAX.—

“(1) IN GENERAL.—In addition to other taxes, there is hereby imposed on every employer an excise tax, with respect to having individuals in his employ, equal to the applicable percentage of the compensation paid during any calendar year by such employer for services rendered to such employee.

“(2) APPLICABLE PERCENTAGE.—For purposes of paragraph (1), the term ‘applicable percentage’ means—

“(A) 15.6 percent in the case of compensation paid during 2002,

“(B) 14.2 percent in the case of compensation paid during 2003, and

“(C) in the case of compensation paid during any calendar year after 2003, the percentage determined under section 3241 for such calendar year.”.

(b) RATE OF TAX ON EMPLOYEE REPRESENTATIVES.—Section 3211, as amended by section 203, is amended by striking subsection (a) and inserting the following new subsections:

“(a) TIER 1 TAX.—In addition to other taxes, there is hereby imposed on the income of each employee representative a tax equal to the applicable percentage of the compensation received during any calendar year by such employee representative for services rendered by such employee representative. For purposes of the preceding sentence, the term ‘applicable percentage’ means the percentage equal to the sum of the rates of tax in effect under subsections (a) and (b) of section 3101 and subsections (a) and (b) of section 3111 for the calendar year.

“(b) TIER 2 TAX.—

“(1) IN GENERAL.—In addition to other taxes, there is hereby imposed on the income of each employee representative a tax equal to the applicable percentage of the compensation received during any calendar year by such employee representative for services rendered by such employee representative.

“(2) APPLICABLE PERCENTAGE.—For purposes of paragraph (1), the term ‘applicable percentage’ means—

“(A) 14.75 percent in the case of compensation received during 2002,

“(B) 14.20 percent in the case of compensation received during 2003, and

“(C) in the case of compensation received during any calendar year after 2003, the percentage determined under section 3241 for such calendar year.

“(c) CROSS REFERENCE.—

“For application of different contribution bases with respect to the taxes imposed by subsections (a) and (b), see section 3231(e)(2).”.

(c) RATE OF TAX ON EMPLOYEES.—Subsection (b) of section 3201 is amended to read as follows:

“(b) TIER 2 TAX.—

“(1) IN GENERAL.—In addition to other taxes, there is hereby imposed on the income of each employee a tax equal to the applicable percentage of the compensation received during any calendar year by such employee for services rendered by such employee.

“(2) APPLICABLE PERCENTAGE.—For purposes of paragraph (1), the term ‘applicable percentage’ means—

“(A) 4.90 percent in the case of compensation received during 2002 or 2003, and

“(B) in the case of compensation received during any calendar year after 2003, the percentage determined under section 3241 for such calendar year.”.

(d) DETERMINATION OF RATE.—Chapter 22 is amended by adding at the end the following new subchapter:

“Subchapter E—Tier 2 Tax Rate Determination

“Sec. 3241. Determination of tier 2 tax rate based on average account benefits ratio.

“SEC. 3241. DETERMINATION OF TIER 2 TAX RATE BASED ON AVERAGE ACCOUNT BENEFITS RATIO.

“(a) IN GENERAL.—For purposes of sections 3201(b), 3211(b), and 3221(b), the applicable percentage for any calendar year is the percentage determined in accordance with the table in subsection (b).

“(b) TAX RATE SCHEDULE.—

“Average account benefits ratio		Applicable percentage for sections 3211(b) and 3221(b)	Applicable percentage for section 3201(b)
At least	But less than		
2.5	22.1	4.9	

“Average account benefits ratio		Applicable percentage for sections 3211(b) and 3221(b)	Applicable percentage for section 3201(b)
At least	But less than		
2.5	3.0	18.1	4.9
3.0	3.5	15.1	4.9
3.5	4.0	14.1	4.9
4.0	6.1	13.1	4.9
6.1	6.5	12.6	4.4
6.5	7.0	12.1	3.9
7.0	7.5	11.6	3.4
7.5	8.0	11.1	2.9
8.0	8.5	10.1	1.9
8.5	9.0	9.1	0.9
9.0		8.2	0

“(c) DEFINITIONS RELATED TO DETERMINATION OF RATES OF TAX.—

“(1) AVERAGE ACCOUNT BENEFITS RATIO.—For purposes of this section, the term ‘average account benefits ratio’ means, with respect to any calendar year, the average determined by the Secretary of the account benefits ratios for the 10 most recent fiscal years ending before such calendar year. If the amount determined under the preceding sentence is not a multiple of 0.1, such amount shall be increased to the next highest multiple of 0.1.

“(2) ACCOUNT BENEFITS RATIO.—For purposes of this section, the term ‘account benefits ratio’ means, with respect to any fiscal year, the amount determined by the Railroad Retirement Board by dividing the fair market value of the assets in the Railroad Retirement Account and of the National Railroad Retirement Investment Trust (and for years before 2002, the Social Security Equivalent Benefits Account) as of the close of such fiscal year by the total benefits and administrative expenses paid from the Railroad Retirement Account and the National Railroad Retirement Investment Trust during such fiscal year.

“(d) NOTICE.—No later than December 1 of each calendar year, the Secretary shall publish a notice in the Federal Register of the rates of tax determined under this section which are applicable for the following calendar year.”.

(e) CONFORMING AMENDMENTS.—

(1) Section 24(d)(3)(A)(iii) is amended by striking “section 3211(a)(1)” and inserting “section 3211(a)”.

(2) Section 72(r)(2)(B)(i) is amended by striking “3211(a)(2)” and inserting “3211(b)”.

(3) Paragraphs (2)(A)(iii)(II) and (4)(A) of section 3231(e) are amended by striking “3211(a)(1)” and inserting “3211(a)”.

(4) Section 3231(e)(2)(B)(ii)(I) is amended by striking “3211(a)(2)” and inserting “3211(b)”.

(5) The table of subchapters for chapter 22 is amended by adding at the end the following new item:

“Subchapter E. Tier 2 tax rate determination.”.

(f) EFFECTIVE DATE.—The amendments made by this section shall apply to calendar years beginning after December 31, 2001.

Amend the title so as to read: “An Act to modernize the financing of the railroad retirement system and to provide enhanced benefits to employees and beneficiaries.”.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from New York (Mr. QUINN) and the gentleman from Tennessee (Mr. CLEMENT) each will control 20 minutes.

The Chair recognizes the gentleman from New York (Mr. QUINN).

Mr. QUINN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise today in steadfast support of H.R. 10, the Railroad Retirement and Survivors' Improvement Act of 2001.

H.R. 10 is identical to the railroad retirement reform legislation passed by the House earlier this year with over 380 votes. Consideration of the bill today is merely a procedural step required pursuant to its Senate approval to move the legislation to the President's desk for signature.

Built into the legislation is an automatic safety net behind the future investment strategy. The railroad retirement system now has reserves of more than 6 years of benefit payments. Under the bill, future payroll taxes would automatically adjust to reflect the performance of pension investments. If reserves fall below the 4-year benefit levels, automatic employer tax increases would be triggered. If reserves go above the 6 years in the future, further tax reductions for railroads and either tax relief or additional benefits for workers would be provided.

This bill, Mr. Speaker, enjoys one of the highest levels of bipartisan support in recent congressional history. It is sound, commonsense legislation that helps our railroads stay competitive while providing needed retirement benefits for all rail workers and their families, without costing the American taxpayers a single dime.

I want to commend our committee full chairman, the gentleman from Alaska (Mr. YOUNG), the ranking member, the gentleman from Minnesota (Mr. OBERSTAR), and the subcommittee ranking member and my partner, the gentleman from Tennessee (Mr. CLEMENT), for their leadership on this legislation.

This is the workers' own money, Mr. Speaker. They deserve to improve its returns and their benefit payments. I urge all Members to support H.R. 10.

Mr. Speaker, I reserve the balance of my time.

Mr. CLEMENT. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I say to the gentleman from New York (Mr. QUINN), it is good to have him back. He has just had back surgery, and I am glad he has made a speedy recovery. We need him here very badly.

Mr. Speaker, it is my sincere pleasure to manage H.R. 10, the Railroad Retirement and Survivors' Improvement Act of 2001.

Today, as the ranking member of the Subcommittee on Railroads, in fact, it is even a greater pleasure to be here today than the two previous times this exact same measure has come to the floor and passed with unequivocal, overwhelmingly strong majorities.

The reason for my happiness is simple: with the passage of this bill today, all that will remain is the President's promised signature before the over 250,000 railroad employees and the 700,000 retirees and survivors of railroad workers can finally have what they have deserved for years: a modern and equitable retirement plan.

It has been this goal that has led Democrats and Republicans alike to work together with rail management and rail labor to craft a measure so sound that it had 368 cosponsors as it passed through the House this summer by a vote of 384 to 33.

As the ranking member of the Subcommittee on Railroads, I can personally speak of the hard work and total commitment to this issue by the gentleman from New York (Chairman QUINN) and all members of our subcommittee on both sides of the aisle.

This support, along with the tireless leadership of the ranking member, the gentleman from Minnesota (Mr. OBERSTAR), and the gentleman from Alaska (Chairman YOUNG), built a train that could not be stopped. Whether temporarily stalled by procedure or debate, railroad retirement reform continued to move forward, despite the opposition of the few who wish to derail it.

Thus it brings me great satisfaction today that this bill can finally depart this branch of government and begin its journey carrying enhanced benefits toward the workers and retirees of our Nation's rail system.

The overwhelming majority of the Members know that this is a good bill. They know it has the support of both management and labor. This is a vote that should require little soul searching. Members know that this is right for railroad workers and their survivors. They know it is right for the industry and for America as a whole.

I urge my colleagues to vote yes on the bill. It is time we retired the debate on railroad retirement and let America's railroad workers and survivors enjoy the financial health and security they have worked long and hard for.

Mr. Speaker, I want to say this, too, as we close. I want to thank our staff, Democrat and Republican staff alike. On the Democratic side, I might say, Mr. Speaker, I want to thank Ward McCarrager, Frank Mulvey, David Hymfeld, Steve Gardner, Rachel Carr.

I want to thank our full committee and the staff of the Subcommittee on Railroads. All of them have done a great job bringing about a great bill.

Mr. Speaker, I reserve the balance of my time.

Mr. QUINN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I would simply say at this point that I thank the gentleman from Tennessee for his kind remarks. This is one of our subcommittee's clear issues we have been working on now since we came here together in a bipartisan way. We know that it is a bipartisan issue.

I thank my good friend, the gentleman from Tennessee (Mr. CLEMENT), for his kind words.

Mr. CLEMENT. Mr. Speaker, I yield 1 minute to the gentleman from Michigan (Mr. SMITH).

Mr. SMITH of Michigan. Mr. Speaker, let me just express my concern at scheduling a bill that requires taking \$15 billion out of the general fund to be on the suspension calendar.

I am concerned that this is going to end up being a disadvantage to railroad workers, because the railroad has said when they need more taxes, they will increase the tax rate. So here again, I am very concerned that we are taking this bill that is so expensive up on suspension; and I would, at the appropriate time, ask for a roll call vote.

I rise in opposition to H.R. 10. I do not oppose what this bill is trying to accomplish. Railroad workers should have the opportunity to invest their money in the stock market and earn a higher rate of return. I oppose this bill because it will not achieve its intended goal. This bill would cut taxes and raise benefits for railroad retirement beneficiaries in exchange for promises to pay higher taxes in the future. This is an irresponsible and shortsighted approach to reform.

This bill's supporters will dispute this. They will say things like this bill "modernizes" the system. They will say, "it's their money, we should let them invest it." They will say, "we only want to let the railroads do what everyone else does." Don't believe it for a minute.

First, this bill does not modernize the railroad retirement system. There's nothing "modern" about increasing benefits today while putting off tax increases until tomorrow. That's the oldest trick in the book.

Second, despite what we will hear from the other side, it's not their money. The railroad retirement program has paid out more in benefits than it has collected in payroll taxes every single year since 1957. The surplus that exists today in the railroad retirement trust fund is made up entirely of taxpayer subsidies enacted by Congress over the years.

Third, even if the railroads were responsible for all of the money in the trust fund, that does not mean they can afford to increase benefits and reduce payroll taxes at the same time. According the actuaries at the Railroad Retirement Board, the higher returns earned from investing in the stock market won't pay for the tax cuts and benefit increases they have proposed. As a result, this bill will reduce the trust fund by nearly 65% and trigger an automatic payroll tax increase of nearly 70% on employers.

The supporters will insist the bill places the responsibility to pay future benefits on the railroads if their investments don't work out. But, let me read to you what the railroad industry thinks of its responsibility. Here is a quote from the United Transportation Union Newsletter dated May of 2000:

The legislation also requires that the railroads would be responsible if the trust fund falls below a certain level. If this happens, a tax would automatically be placed solely on the carriers in order to replenish the fund. In order to add a final assurance to the integrity of the fund, it is still bound by the full faith and credit of the United States government. They would be required to pay the obligations of the fund if, for some reason, the other safety nets in place were insufficient.

Earlier this year, the Lincoln Journal Star [8/15/01] reported:

Other unions and the Association of American Railroads are promoting the bill as a self-financed shoo-in. In fact, the U.S. government would still back the retirement fund, acknowledged Obie O'Bannon, vice president of legislative affairs for the association. But, he pointed out, the "automatic tax ratchet" would require the railroads to kick in more money any time the fund's balance falls below four times annual benefits, so that's protection that would mean all U.S. railroads would face insolvency before the federal liability applies.

Let me repeat the last sentence because some of my colleagues might have missed its implication. The article says, "all railroads would face insolvency before the federal liability applies."

That statement might seem overly dramatic until you take a look at the estimates prepared by the Railroad Retirement Board. According to the actuaries, the bill would increase the employer payroll tax by nearly 70 percent over the next twenty-five years. That's an increase the railroads readily admit they cannot afford to pay.

Finally, those who support this bill will insist they only want to let the railroads invest their own funds—so-called Tier II—like everyone else. Unlike other private sector pension plans that must comply with the funding requirements of the Employee Retirement Income Security Act (ERISA), this bill would allow the railroads to reduce their payroll taxes and increase their benefits before they ever earn a single penny on Wall Street.

Moreover, it should be noted that despite claims to the contrary, the bill would not be limited to the use of Tier II funds. The National Association of Retired Veteran Railroad Employees (NARVE) continues to tell its members—

... not a dime of Tier 1 money is used for railroad early retirement, either under current law or under our reform bill. The money for early retirement is paid for entirely by rail workers and employers through Tier 2 taxes. ...

In reality, the amendment requires all of the funds remaining in the Social Security Equivalent Benefit Account (Tier I) at the end of each year be transferred to the new railroad investment account and used to pay for Tier II benefits. That means, Social Security funds will be used to pay early retirement benefits for railroad workers.

Now, don't get me wrong, I'm not opposed to railroad workers retiring at age 60, or any other age they can afford. But, I am opposed to using social security funds to pay for non-social security benefits. That is exactly what this bill does. I understand the frustration railroad workers must feel having to come to Congress to ask for legislation to improve their retirement benefits. However, the railroad retirement program is not just an industry pension fund. It is also a federal entitlement program that is ultimately backed up by the U.S. taxpayer.

Congress has a duty and a responsibility not only to consider what is best for the railroads, but also what is fair to the taxpayers. As currently written, this bill would essentially allow the railroads to borrow \$15 billion—interest free—from their own pension fund to pay for lower taxes and higher benefits and then try to make them pay it back at a rate they

cannot afford. Fixing this bill would require a number of changes. Foremost among these changes would be the requirement that the railroads actually earn a higher rate of return on their investments before they reduce their taxes and increases their benefits.

I believe railroad workers deserve the opportunity to invest in the stock market and earn a higher rate of return. I would like to help develop a plan to accomplish this goal. Unfortunately, the bill before us today is fundamentally flawed. I would urge my colleagues who care about the future of Railroad Retirement to vote against this bill. Railroad workers deserve better and we can do better.

□ 1845

Mr. CLEMENT. Mr. Speaker, I yield myself such time as I may consume.

We have fully debated this. I hear the gentleman from Michigan's (Mr. SMITH) point of view. I do not agree with it.

Mr. OBERSTAR. Mr. Speaker, our long struggle to improve the lot of the Nation's 250,000 railroad workers and 700,000 retirees and to provide relief for our Nation's financially ailing railroad industry is finally coming to an end. The Senate is to be congratulated for expeditiously considering the railroad retirement reform legislation and for passing it overwhelmingly, 90–9. The Senate-passed bill, H.R. 10, is identical to H.R. 1140, enacted by the House on July 31, 2001, by an equally strong vote of 384–33.

This bill is the product of an historic agreement reached by railroad labor and management following two years of often-difficult negotiations. The benefit improvements and tax cuts are made possible by changing the current law that limits the investment of Railroad Retirement Trust Fund assets to government securities.

The proposed changes in the law governing how Railroad Retirement Trust Fund assets can be invested will not affect the solvency of the Railroad Retirement system. The Tier I portion of the program, which provides Social Security level benefits, will continue to be invested only in government securities. Only Tier II funds, the part of the system that provides pension plan type benefits above Social Security benefit levels, will be eligible for investment in assets other than government securities. The projected increases in trust fund income from these changes are based on fairly conservative forecasts of the rates of return that could be earned from such a diversified portfolio—about two percentage points above the return on government securities. Most importantly, if the investments fail to perform as well as expected, workers' pensions are further protected as this legislation requires that the railroads absorb any future tax increases that might be necessary to keep the system solvent. Ultimately, the Federal government continues to be responsible for the security of the Railroad Retirement System.

The proposed legislation provides the first major benefit improvements in railroad retirement in more than 25 years. The primary benefit improvement are:

(1) The age at which employees can retire with full benefits is reduced from 62 years to 60 years with 30 years of service as it was before changes made in 1983.

(2) The number of years required for vesting in the Railroad Retirement System is reduced from ten years to five years similar to most other pension plans.

(3) The benefits of widows and widowers are improved so that a surviving spouse's annuity would be guaranteed to be no less than the amount the retiree was receiving in the month before his or her death, and

(4) If the retirement plan becomes overfunded, benefits are automatically improved.

H.R. 4844 also reduces significantly the payroll taxes paid by the railroads. By the third year following passage of this bill, the railroads stand to gain nearly \$400 million annually for lower payroll taxes. All of these savings go directly to the railroads' bottom lines and can be used to make investments needed in the railroad infrastructure and to improve the wages and working conditions of railway workers.

It is important to note that nothing in this legislation alters the fundamental nature of the program. Railroad retirement benefits will continue to be guaranteed, in the final analysis, by the United States Government.

Last year, the House passed this bill overwhelmingly, but the Senate failed to act before the 106th Congress ended. This year the House, once again passed this important measure by an overwhelming margin—and this time the Senate has acted. Only the bill number is different from what the House has already passed.

This is a good bill. It is good for workers, it is good for retirees and their survivors, it is good for the railroads, and it is good for the country. I urge all Members to support it today so we can get it to the President before the holiday seasons.

Mr. RAHALL. Mr. Speaker, I am pleased that the House will finally have the opportunity to send the "Railroad Retirement and Survivors' Improvement Act of 2001" to the White House to be enacted into law. We will send this bill to President Bush for his signature shortly.

In the Third District of West Virginia, I represent 8,300 citizens who will benefit from this bill. This ranks southern West Virginia seventh in the nation. The bill will double benefits for widows of railroad retirees, reduce the retirement age from 62 to 60 years of age with 30 years of service, and allow a person to be vested in the system after five years of service, rather than 10 years, as currently required.

I constantly hear from anxious constituents asking when the bill will be enacted. Projections suggest benefits, which are modest to begin with, will nearly double after this bill passes. This bill means a lot to railroad retirees. It is an example of the type of legislation in which people can see direct benefits to improve their daily lives and quality of life.

We have endured a long, rough road getting to this day. This bill includes the exact provisions of H.R. 4844, which I helped to write in the 106th Congress, and which passed the House by an overwhelming bi-partisan vote of 391–25 on September 7, 2000.

My constituents were disappointed and frustrated last year when the bill was not enacted into law, especially since it is a product of two years of negotiation between railroad workers and management of the railroad industry.

Now, in the 107th Congress, we have done our job in the House. We passed the House version of Railroad Retirement bill H.R. 1140, on July 31st by another overwhelming bipartisan vote of 384–33.

Finally, the Senate passed the bill last week, on December 5, 2001, by a vote of 90–9.

When this bill becomes law, it will enable railroad retirees and widows to enjoy a better quality of life, by receiving the increased benefits they greatly deserve, and which they have worked so long to earn. They spent their working lives paying into their retirement, and they deserve decent, adequate benefits to live comfortably in their retirement years.

Mr. CLEMENT. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. COOKSEY). The question is on the motion offered by the gentleman from New York (Mr. QUINN) that the House suspend the rules and concur in the Senate amendments to the bill, H.R. 10.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds of those present have voted in the affirmative.

Mr. SMITH of Michigan. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, the Chair will now put the question on each motion to suspend the rules on which further proceedings were postponed earlier today.

Votes will be taken in the following order:

H. Con. Res. 281, by the yeas and nays;

H.R. 3282, by the yeas and nays; and

H.R. 10, concur in Senate amendments, by the yeas and nays.

The Chair will reduce to 5 minutes the time for any electronic vote after the first such vote in this series.

HONORING JOHN NY MICHEAL SPANN, FIRST AMERICAN KILLED IN COMBAT IN WAR AGAINST TERRORISM IN AFGHANISTAN, AND PLEDGING CONTINUED SUPPORT FOR MEMBERS OF ARMED FORCES

The SPEAKER pro tempore. The pending business is the question of suspending the rules and agreeing to the concurrent resolution, H. Con. Res. 281.

The Clerk read the title of the concurrent resolution.

The SPEAKER pro tempore. The question is on the motion offered by

the gentleman from Florida (Mr. GOSS) that the House suspend the rules and agree to the concurrent resolution, H. Con. Res. 281, on which the yeas and nays are ordered.

The vote was taken by electronic device, and there were—yeas 401, nays 0, not voting 32, as follows:

□ 1913

Mr. EHLERS changed his vote from "nay" to "yea."

So (two-thirds having voted in favor thereof) the rules were suspended and the concurrent resolution was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. COOKSEY). Pursuant to clause 8 of rule XX, the Chair announces that he will reduce to 5 minutes the minimum time for electronic voting on each additional motion to suspend the rules on which the Chair has postponed further proceedings.

MIKE MANSFIELD FEDERAL BUILDING AND UNITED STATES COURTHOUSE

The SPEAKER pro tempore. The pending business is the question of suspending the rules and passing the bill, H.R. 3282.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Ohio (Mr. LATOURETTE) that the House suspend the rules and pass the bill, H.R. 3282, on which the yeas and nays are ordered.

This will be a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 401, nays 0, not voting 32, as follows:

□ 1922

So (two-thirds having voted in favor thereof) the rules were suspended and the bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

RAILROAD RETIREMENT AND SURVIVORS' IMPROVEMENT ACT OF 2001

The SPEAKER pro tempore (Mr. COOKSEY). The pending business is the question of suspending the rules and concurring in the Senate amendments to the bill, H.R. 10.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from New York (Mr. QUINN) that the House suspend the rules and concur in the Senate amendments to the bill, H.R. 10, on which the yeas and nays are ordered.

This will be a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 369, nays 33, not voting 31, as follows:

[Roll No. 485]

□ 1932

Mr. DELAY changed his vote from “yea” to “nay.”

So (two-thirds having voted in favor thereof) the rules were suspended and the Senate amendments were concurred in.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

REMOVAL OF NAME OF MEMBER AS COSPONSOR OF H. CON. RES. 253

Mr. PALLONE. Mr. Speaker, I ask unanimous consent to have my name removed as a cosponsor of H. Con. Res. 253.

The SPEAKER pro tempore (Mr. COOKSEY). Is there objection to the request of the gentleman from New Jersey?

There was no objection.

REMOVAL OF NAME OF MEMBER AS COSPONSOR OF H.R. 2107

Mr. BECERRA. Mr. Speaker, I ask unanimous consent to have my name removed as a cosponsor of H.R. 2107.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, the Chair announces that he will postpone further proceedings today on the remaining motions to suspend the rules on which a recorded vote or the yeas and nays are ordered, or on which the vote is objected to under clause 6 of rule XX.

Any record votes on postponed questions will be taken tomorrow.

DEPARTMENT OF TRANSPORTATION POLICY RESPONSIBILITY REALIGNMENT ACT

Mr. LATOURETTE. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3441) to amend title 49, United States Code, to realign the policy responsibility in the Department of Transportation, and for other purposes.

The Clerk read as follows:

H.R. 3441

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. REALIGNMENT OF POLICY RESPONSIBILITY IN THE DEPARTMENT OF TRANSPORTATION.

(a) Section 102 of title 49, United States Code, is amended—

(1) by redesignating subsection (d) as subsection (g);

(2) by inserting a new subsection (d) as follows:

“(d) The Department has an Under Secretary of Transportation for Policy appointed by the President, by and with the advice and consent of the Senate. The Under Secretary shall provide leadership in the development of policy for the Department, supervise the policy activities of Assistant

Secretaries with primary responsibility for aviation, international, and other transportation policy development and carry out other powers and duties prescribed by the Secretary. The Under Secretary acts for the Secretary when the Secretary and the Deputy Secretary are absent or unable to serve, or when the offices of Secretary and Deputy Secretary are vacant.”; and

(3) in subsection (e) by striking “Secretary and the Deputy Secretary” each place it appears in the last sentence and inserting “Secretary, Deputy Secretary, and Under Secretary of Transportation for Policy”.

(b) Section 102 of title 49, United States Code, is further amended by striking subsection (g), as redesignated by subsection (a)(1), on the date that an individual is appointed to the position of Under Secretary of Transportation for Policy under section 102(d), as added by subsection (a)(2).

SEC. 2. ASSISTANT SECRETARY FOR PUBLIC AFFAIRS.

Section 102(e) of title 49, United States Code, is amended by striking “4 Assistant Secretaries” and inserting “5 Assistant Secretaries”.

SEC. 3. POSITIONS IN EXECUTIVE SERVICE.

(a) Section 5314 of title 5, United States Code, is amended by inserting before

“Administrator of the National Highway Traffic Safety Administration.” the following:

“Under Secretary of Transportation for Policy.”.

(b) Section 5315 of title 5, United States Code, is amended by striking

“Assistant Secretaries of Transportation (4).”

and inserting the following:

“Assistant Secretaries of Transportation (5).”.

(c) Effective on the date that an individual is appointed to the position of Under Secretary of Transportation for Policy under section 102(d) of title 49, United States Code, as added by section 1(a)(2) of this Act, section 5316 of title 5, United States Code, is amended by striking “Associate Deputy Secretary, Department of Transportation.”.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Ohio (Mr. LATOURETTE) and the gentleman from Tennessee (Mr. CLEMENT) each will control 20 minutes.

The Chair recognizes the gentleman from Ohio (Mr. LATOURETTE).

Mr. LATOURETTE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 3441 realigns transportation policy responsibility within the Department of Transportation and was requested by the Department. As the Department of Transportation reorganizes and refocuses its efforts to ensure America's transportation security, it is important that it is able to develop policy across transportation modes.

Under the current organization of the Department, policy development is spread over three offices within the Department of Transportation. This results in a fragmented approach to policy development. The purpose of this bill is to provide a seamless, long-range and strategic approach to development of policy in DOT by establishing a new Under Secretary for Transportation

Policy, who will be appointed by the President and confirmed by the Senate.

In order to ensure better communication with the public and the press, the bill will also create an Assistant Secretary for Public Affairs. This will round out the management team for the Secretary to allow for better management of the Department.

This bipartisan bill, Mr. Speaker, is also strongly supported by the Department of Transportation. Transportation policy is too important to be undertaken in a haphazard manner in this day when transportation has become so essential to our economic well-being. Proper lines of authority and communication are vital to the continued operation of the Department.

For that reason, I strongly support this bill. I urge my colleagues to do the same.

Mr. Speaker, I reserve the balance of my time.

Mr. CLEMENT. Mr. Speaker, I yield myself such time as I may consume.

I rise in strong support of H.R. 3441, the Department of Transportation Policy Responsibility Realignment Act.

The most important provision in this bill creates a new position in DOT of Under Secretary of Transportation for Policy. The person selected for this important position will be the third-ranking executive in the Department and will be responsible for coordinating the Department's domestic and international policies for all modes of transportation. This type of coordination is the very reason the Department was formed. We certainly should have an official responsible for integrating and coordinating all transportation policy, and developing intermodal transportation.

I am pleased that the administration has announced that if this legislation is passed its nominee will be Jeffrey Shane. Mr. Shane has a long and distinguished career in transportation and was the Department's Assistant Secretary for Policy and International Affairs in the George H. Bush administration. He is superbly qualified for this position, and we are extremely fortunate that he has been willing to give up a successful law practice to return to the government.

I am also pleased that Secretary Mineta has asked Mr. Shane to rebuild the Department's policy staff, especially the aviation policy staff, which has been drastically reduced in recent years. Secretary Mineta has directed Mr. Shane to develop "a world class think tank" at DOT. I enthusiastically support this objective and look forward to working with Mr. Shane on all issues of transportation policy.

I urge my colleagues to support the bill.

Mr. Speaker, I yield such time as he may consume to the gentleman from Minnesota (Mr. OBERSTAR), the ranking Democrat on the Committee on Trans-

portation and Infrastructure, who has distinguished himself in so many ways in keeping the committee moving forward in the 21st century.

Mr. OBERSTAR. I thank the gentleman for those kind words and for yielding me the time.

Mr. Speaker, I am delighted the leadership of the committee has moved quickly to bring this bill to the House floor. I strongly support the initiative to create a new position of Under Secretary for Transportation Policy. It will help this Department to carry out its very significant and far-reaching responsibilities to develop integrated domestic and international transportation policies.

I have had the good fortune of being present at the creation of the Department of Transportation in 1966 when I was administrative assistant to my predecessor in Congress, John Blatnik, who then was chairman of the Executive and Legislative Reorganization Subcommittee of the House Committee on Government Operations. He was asked by then President Lyndon Johnson to manage and bring to the House floor legislation to create a Department of Transportation, out of recognition that what we had was a fragmentation, a great diversity of modes of transportation, each with their own stovepipe means of operation but without a single overarching transportation policy.

It was President Johnson's objective to bring all these entities together in one new department that would be able to deal with transportation as an entity. We did that. It took quite some effort to bring together modal administrations that for years had operated on auto pilot, without any coordination, without interaction among them. The first Secretary of Transportation, Alan Boyd, took to the task with great vigor and enthusiasm and his successors have done the same. It has taken well over 30 years to craft a spirit of transportation within the Department.

In the passage of ISTEA, we brought this concept of a Department of Transportation with a culture of transportation to its, I think, logical conclusion. The Intermodal Surface Transportation Efficiency Act really culminated years of effort of creating a transportation spirit and policy and need for intermodal communication within the Department, culminated all in one piece of legislation. It was an extraordinary step forward in the history of transportation in America.

The new Under Secretary will be the third-ranking official in the Department. He will manage all Department-wide offices dealing with policy and with intermodal transportation to develop comprehensive, sound and inter-related transportation policies. I might say that 16 years ago I introduced the first legislation to create a position of under secretary for intermodalism in

the Department of Transportation, and it is now coming to be.

Both because the position has been created and because of the person who has been nominated to fill that position, Jeffrey N. Shane, I would say that never in the 35-year history of the Department has a person been named for a position at DOT with better or more appropriate credentials than Jeff Shane, with the sole exception of the current Secretary of Transportation, Norm Mineta.

Jeff comes to this position with the sweep of intellect, with the personal and professional integrity, and with more than 3 decades of professional experience in the Department of State and the Department of Transportation on international aviation trade and policy matters, qualities that will enable him to take command of the duties of the office on which he is about to enter with clarity of purpose, with alacrity and, best of all, without a learning curve.

□ 1945

My experience with Jeff Shane dates back to well over a decade and a half, to his service at State and DOT in both the Ronald Reagan and George H. Bush administrations. I worked with him extensively on international aviation passenger and cargo trade matters, as well as domestic aviation matters, in my capacity then as chairman of the Subcommittee on Investigations and Oversight and Aviation authorizing subcommittee.

I found Jeff Shane always to be the very model of intellectual integrity; thoroughly knowledgeable on a wide range of issues on which he was called to testify before our committee, well-informed, and, very importantly, a consistently vigilant, vigorous advocate for U.S. aviation interests and a skillful negotiator.

Jeff was the architect of our government's original Open Skies policy to promote competition in our bilateral aviation trade agreements. Under this policy, a great many competitive agreements were negotiated during the first Bush administration, and the Clinton administration continued the policy with great success. The result has been that aviation trade markets in passenger and cargo, in which we once had 30 percent of market share, we now have 60 to 70 percent of market share and are the dominant aviation trade partner.

Jeff Shane's experience extends well beyond aviation to other modes of transportation, as exemplified by a discussion he and I had shortly after the enactment of ISTEA in 1991. Jeff said, "This is one of the most extraordinary, innovative transportation measures ever enacted. It has had the exceptionally beneficial effect of causing all of us at the Assistant Secretary-Policy level to come together, share our

thoughts, understand each other's mode of transportation better and to begin thinking, as well as acting, intermodally, something we have long needed to do in this department."

That is an extraordinary observation and admission to make on the part of a policy person in any department, and that reflects the candor with which Jeff approaches his service in the public sector.

Secretary Mineta has said to me several times that he would like Jeff Shane to work to upgrade the department's policy office, and, as he put it, make it a "world-class think tank." We need that. We need that kind of support at the policy level of the Department of Transportation.

Two years ago, I met with Jeff Shane and Charlie Hunnicutt, who had held the Assistant Secretary position during the Clinton Administration, to explore means of upgrading the Department's aviation policy staff, a staff that deals with the most important issues in the department in negotiating international aviation rights for our airlines, providing expert advice to the Department of Justice when the department is considering airline mergers, and carrying out the department's regulatory responsibilities, including predatory practices, computer reservation systems and adequate competition in Internet ticket sales.

It is deplorable that over the past 15 years, the DOT aviation staff has been eroded by budget cutting decisions. The staff has decreased from 166 at the time of the Civil Aeronautics Board sunset in 1985, to fewer than 100 today. Furthermore, as many as half of the staff could well retire in the next few years.

It was a great tribute to Jeff Shane that in his career outside of government, he was concerned about the quality of government service among those who continued in the department. He and I took many opportunities over the past few years to raise awareness on the Hill and within the aviation community of the critical importance of this unique staff, and it is so encouraging to me that Secretary Mineta has recognized the problem and is giving Jeff Shane a mandate to correct it. I can think of no one better to do this, no one better qualified to attract the staff, to inspire that staff and to keep them interested and motivated, than Jeff Shane.

In these perilous post-September 11 times and in the aftermath of enactment of our most recent aviation and transportation security law, DOT needs at the policy level a person with Jeff Shane's experience, intellectual capacity, honesty and openness to new ideas, as well as energy to pursue and implement innovation. Jeff Shane's reentry into public service will produce better transportation policy decisions, to the great benefit of the Nation's economy

and to all who use our transportation systems, as well as to the benefit of the Department of Transportation.

This new position is long overdue, much needed, and will serve our country and our transportation policy well. After all, transportation does represent 11 percent of our Nation's gross domestic product. That is \$1.1 trillion, an impact that we must nurture and strengthen, and this legislation will help do that.

Mr. CLEMENT. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. LATOURETTE. Mr. Speaker, I yield myself the balance of my time just to say that one of the treasures and great assets of not only the Committee on Transportation and Infrastructure, but the Congress is the gentleman from Minnesota (Mr. OBERSTAR). The remarks that the gentleman just made, going through the entire history of the Department of Transportation, indicate why we rely on him so heavily, and why our committee continues to prosper in a very bipartisan way.

It is thanks to his efforts that I continue to learn from him.

I urge passage of the bill.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. OSE). The question is on the motion offered by the gentleman from Ohio (Mr. LATOURETTE) that the House suspend the rules and pass the bill, H.R. 3441.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

NAMING MEMBER AS MAJORITY MANAGER OF TIME ON H.R. 3442, NATIONAL MUSEUM OF AFRICAN AMERICAN HISTORY AND CULTURE PLAN FOR ACTION PRESIDENTIAL COMMISSION ACT OF 2001

Mr. MCINNIS. Mr. Speaker, I ask unanimous consent that the gentleman from Ohio (Mr. LATOURETTE) be allowed to manage the floor time on H.R. 3442.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Colorado?

There was no objection.

NATIONAL MUSEUM OF AFRICAN AMERICAN HISTORY AND CULTURE PLAN FOR ACTION PRESIDENTIAL COMMISSION ACT OF 2001

Mr. LATOURETTE. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3442) to establish the National Museum of African American History and Culture Plan for Action

Presidential Commission to develop a plan of action for the establishment and maintenance of the National Museum of African American History and Culture in Washington, D.C., and for other purposes.

The Clerk read as follows:

H.R. 3442

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "National Museum of African American History and Culture Plan for Action Presidential Commission Act of 2001".

SEC. 2. ESTABLISHMENT OF COMMISSION.

(a) IN GENERAL.—There is established the National Museum of African American History and Culture Plan for Action Presidential Commission (hereafter in this Act referred to as the "Commission").

(b) MEMBERSHIP.—The Commission shall consist of not more than 23 members appointed as follows:

(1) The President shall appoint 7 voting members.

(2) The Speaker of the House of Representatives and the Senate Majority Leader shall each appoint 6 voting members.

(3) In addition to the members appointed under paragraph (2), the Speaker of the House of Representatives and the Senate Majority Leader shall each appoint 2 additional nonvoting members.

(c) QUALIFICATIONS.—Members of the Commission shall be chosen from the following professional groups:

(1) Professional museum associations, including the Association of African American Museums and African American Museum Cultural Complex, Inc.

(2) Academic institutions and groups committed to the research and study of African American life, art, history, and culture, including Historically Black Colleges and Universities and the Joint Center for Political and Economic Studies.

SEC. 3. FUNCTIONS OF THE COMMISSION.

(a) PLAN OF ACTION FOR ESTABLISHMENT AND MAINTENANCE OF MUSEUM.—

(1) IN GENERAL.—The Commission shall submit a report to the President and the Congress containing its recommendations with respect to a plan of action for the establishment and maintenance of the National Museum of African American History and Culture in Washington, D.C. (hereafter in this Act referred to as the "Museum").

(2) NATIONAL CONFERENCE.—In developing the recommendations, the commission shall convene a national conference on the Museum, comprised of individuals committed to the advancement of African American life, art, history, and culture, not later than 3 months after the date of the enactment of this Act.

(b) FUNDRAISING PLAN.—The Commission shall develop a fundraising plan for supporting the creation and maintenance of the Museum through contributions by the American people, and a separate plan on fundraising by the African American community.

(c) REPORT ON ISSUES.—The Commission shall examine and submit a report to the President and the Congress on the following issues:

(1) The availability and cost of collections to be acquired and housed in the Museum.

(2) The impact of the Museum on regional African American museums.

(3) Possible locations for the Museum on or adjacent to the National Mall in Washington, D.C.

(4) The cost of converting the Smithsonian Institution's Arts and Industries Building into a modern museum with requisite temperature and humidity controls.

(5) Whether the Museum should be located within the Smithsonian Institution.

(6) The governance and organizational structure from which the museum should operate.

(d) **LEGISLATION TO CARRY OUT PLAN OF ACTION.**—Based on the recommendations contained in the report submitted under subsection (a) and the report submitted under subsection (c), the Commission shall submit for consideration to the Committee on Transportation and Infrastructure of the House of Representatives, the Committee on House Administration of the House of Representatives, the Committee on Rules and Administration of the Senate, and the Committees on Appropriations of the House of Representatives and Senate a legislative plan of action to create and construct the Museum.

SEC. 4. ADMINISTRATIVE PROVISIONS.

(a) **FACILITIES AND SUPPORT OF SECRETARY OF INTERIOR.**—The Secretary of the Interior shall provide the administrative services, facilities, and funds necessary for the performance of the Commission's functions.

(b) **COMPENSATION.**—Each member of the Commission who is not an officer or employee of the Federal government may receive compensation for each day on which the member is engaged in the work of the Commission, at a daily rate to be determined by the Secretary of the Interior.

(c) **TRAVEL EXPENSES.**—Each member shall receive travel expenses, including per diem in lieu of subsistence, in accordance with applicable provisions under subchapter I of chapter 57 of title 5, United States Code.

SEC. 5. DEADLINE FOR SUBMISSION OF REPORTS; TERMINATION.

(a) **DEADLINE.**—The Commission shall submit final versions of the reports and plans required under section 3 not later than 9 months after the date of the enactment of this Act.

(b) **TERMINATION.**—The Commission shall terminate not later than 30 days after submitting the final versions of reports and plans pursuant to subsection (a).

SEC. 6. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated \$3,000,000 for activities of the Commission during fiscal year 2002.

The **SPEAKER** pro tempore. Pursuant to the rule, the gentleman from Ohio (Mr. LATOURETTE) and the gentleman from Tennessee (Mr. CLEMENT) each will control 20 minutes.

The Chair recognizes the gentleman from Ohio (Mr. LATOURETTE).

Mr. LATOURETTE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 3442 establishes the National Museum of African American History and Culture Plan for Action Presidential Commission, which will develop a plan to establish and maintain the National Museum of African American History and Culture in Washington, D.C. I want to commend the gentleman from Oklahoma (Mr. WATTS) and the gentleman from Georgia (Mr. LEWIS) for bringing this legislation to our attention.

Mr. Speaker, I yield such time as he may consume to the distinguished gen-

tleman from Oklahoma (Mr. WATTS) to further amplify and to explain the purpose of the commission and the ultimate goal of the legislation.

Mr. WATTS of Oklahoma. Mr. Speaker, I thank my friend, the gentleman from Ohio, for yielding me time.

Mr. Speaker, the contributions made by African Americans to our Nation and to our communities need to be not only celebrated, but demonstrated. The legislation we are considering today establishes a Presidential Commission to create a blueprint on how to move forward on a National Museum of African American History and Culture.

African Americans have made countless contributions throughout the history of our country. From the founding of this great Nation, African Americans fought for independence from Great Britain, liberty in the Civil War and equal rights in the peaceful marches of the civil rights movement. As my colleagues are aware, African Americans played a key role in the actual construction of prominent landmarks, such as the White House and the building where we stand today, the United States Capitol.

From language, to art, to science, to technology, to food and music and total spiritual heritage, African Americans have made an extraordinary, indelible mark on American culture and American history.

An African American Museum on the National Mall would be a valuable resource for all Americans, including visitors to our Nation's Capital. From scholarly research, to school field trips, to lunch hour leisure, its existence would serve a needed purpose by demonstrating the significance of African American history to American history.

I want to thank the gentleman from Alaska (Mr. YOUNG) with the Committee on Transportation and Infrastructure, the gentleman from Minnesota (Mr. OBERSTAR), the gentleman from Ohio (Mr. LATOURETTE), the gentleman from Ohio (Mr. NEY), the gentleman from Maryland (Mr. HOYER) and the gentleman from Illinois (Mr. COSTELLO), and I want to thank the gentleman from Georgia (Mr. LEWIS), who has worked tirelessly over the last 12 years to get us to this point on this issue.

This has been a bipartisan effort. It is my hope the importance of this initiative becomes a bicameral focus so we may put this legislation on the President's desk for his signature.

Mr. Speaker, this is an excellent blueprint for a permanent public exhibition of the history and culture of African Americans. It puts us one step closer toward the reality of a museum that celebrates and demonstrates the achievements, contributions and the lives of Americans of African descent.

I urge my colleagues to support this legislation and the effort to construct a National Museum as soon as possible.

Mr. CLEMENT. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of this legislation that will establish a Presidential Commission to develop a report for the President and the Congress regarding the establishment of a National Museum of African American History and Culture in Washington, D.C.

Among other issues, the report will address fund-raising, the availability and cost of these collections to be acquired and housed in the museum, possible locations here in the District of Columbia, the cost of converting the Arts and Industries Building owned by the Smithsonian Institute, and the governance and organizational structure of the new museum.

The report will include recommendations on a legislative plan of action, and will be submitted to the Committee on Transportation and Infrastructure, the Committee on House Administration, the Committee on Rules and the Senate. The Committee on Appropriations will also be involved.

Congress can expect to receive the report 9 months after enactment of this bill. Information contained in the report will provide the basis for Congress to make a prudent determination regarding the location, size, budget and construction costs for a world-class museum in our Nation's Capital.

Mr. Speaker, I wish to commend my colleagues, the gentleman from Georgia (Mr. LEWIS) and the gentleman from Oklahoma (Mr. WATTS) for their diligence and determination on this bill. The gentleman from Georgia (Mr. LEWIS) has been a steadfast champion for this innovative program more than a decade. We look forward to receiving the report from the Presidential Commission.

I urge my colleagues to support the bill.

Mr. Speaker, I yield 3 minutes to the gentleman from Georgia (Mr. LEWIS), who walked and marched with Martin Luther King, who has been a real champion in the U.S. House of Representatives, and I have read his book.

Mr. LEWIS of Georgia. Mr. Speaker, I want to thank my friend and colleague, the gentleman from Tennessee (Mr. CLEMENT), for yielding me time, from the great City of Nashville, where I had the opportunity to study and to learn much from the people of Tennessee and the people of Nashville.

Mr. Speaker, I want to thank all of my colleagues for working to bring this bill before us today. I rise today in support of H.R. 3442, the National Museum of African American History and Culture Plan for Action Presidential Commission Act of 2001.

During the past few months, Mr. Speaker, it has been my honor and pleasure to work with my friend and colleague, the gentleman from Oklahoma (Mr. WATTS), and his staff. I want

to take this opportunity to thank the staff of the Subcommittee on Public Buildings and also my own staff for their good work on this bill.

Mr. Speaker, this Commission would develop and recommend a legislative plan of action for creating a national African American museum. It is my hope and prayer that this will finally bring Congress closer to achieving the goal of establishing a national African American museum in our Nation's Capital.

□ 2000

This Presidential commission is a step, a necessary step in the right direction to preserve the rich history of African Americans.

As I travel across this land, I have been to several local African American museums in such cities as Memphis, Birmingham, Philadelphia, and Detroit. So I believe the time has long passed for a national African American museum right here in our Capitol city, right here in Washington.

I have introduced legislation during every session of Congress since 1988 to authorize a national African American museum. The time has come for passage of this legislation. By establishing this museum and placing it on the national Mall, we will be able to honor the legacy of African Americans and put it in a national light where it belongs.

African American history is an important part of our country; yet the vital and important contributions of African Americans go virtually unrecognized. Until we understand the full African American story, we cannot understand ourselves as a Nation. The African American story must be told and a national African American museum in Washington, D.C. is critical to telling that story.

This Presidential commission is our chance to take an important and productive step in establishing an African American museum and healing our Nation's racial wounds. This is our chance to create an African American community of every individual, an all-inclusive community that is at peace with itself, a beloved community.

Mr. Speaker, the time is right. The time is now.

Mr. CLEMENT. Mr. Speaker, I yield 4 minutes to the gentlewoman from the District of Columbia (Ms. NORTON), a real spokesperson for all of us on various issues, including this one.

Ms. NORTON. Mr. Speaker, I appreciate the kind words of the gentleman, and I very much appreciate his yielding me this time and his work on this bill, bringing it forward. I also appreciate the diligent work of the chairman of our Subcommittee on Economic Development, Public Buildings, and Emergency Management.

I especially want to thank the sponsors of this resolution, the gentleman

from Georgia (Mr. LEWIS) and the gentleman from Oklahoma (Mr. WATTS), for moving us forward for the first time with substantial action on a national museum of African American history on the Mall. This bill has been introduced for each of the 11 years I have been in Congress; and it was introduced for years before that, initially by the gentleman from Georgia (Mr. LEWIS).

If I may say a word about the persistence of the gentleman from Georgia (Mr. LEWIS) in introducing this bill. It is one thing to introduce a bill like this, a kind of showcase bill as a freshman Congressman, as he did. It is quite another thing to fight for a bill like this each and every year as he has. The gentleman moved on into the leadership of the Democrats and continued to make this bill a priority, so it is a special tribute to him to have this bill move forward; and I am very pleased that the gentleman from Oklahoma (Mr. WATTS) has joined him to make this a truly bipartisan effort.

Mr. Speaker, this bill has been regularly before the Subcommittee on Economic Development, Public Buildings and Emergency Management. I remember that almost one year I thought we were going to get there. We got a bill actually out of the House to renovate the tower at the Smithsonian to make it the African American museum on the Mall; but the Congress found out that even when we renovate it costs money, and the lack of money is what stopped this bill.

I want to report to the House that there are African Americans ready and willing to contribute funds to build this museum. I have had a very interesting conversation with one such potential contributor; and he said that unless the House took some action that showed there was some hope that this would happen, he would be reluctant to step forward. I think today's action is the kind of action that will encourage contributors to step forward, because the Presidential commission moves the idea forward in two ways. First, it is the first concrete action ever; and in this bill is all of the planning, all of the logistics. It contains all of the elements that our subcommittee, the Subcommittee on Economic Development, Public Buildings and Emergency Management, requires for monumental buildings. It is all here. All we have to do is do it once the commission finishes its work.

Second, this commission raises the importance of the idea, and I say to my colleagues, important it is. African Americans have been at the very center of the development of our country itself, let alone its history, from our music and all that is unique about African culture, all that is derivative to our most historic structures, including this Capitol building built with the labor of freed blacks and slaves.

Mr. Speaker, there are all manner of museums and monuments in this Cap-

ital, all manner of commemorations to events and to people of every kind, and to be kind, I will say many of them obscure. It is astonishing to me that we have entered the 21st century, the third century of our existence as a Nation, with precious few monuments or structures of any kind to commemorate African Americans or African American history. This bill, perhaps, assures that we will not go much longer if we value the history of our country. I thank the sponsors once again.

Mr. CLEMENT. Mr. Speaker, I yield 3 minutes to the gentlewoman from Texas (Ms. JACKSON-LEE) where I used to live.

Ms. JACKSON-LEE of Texas. Mr. Speaker, I thank the distinguished gentleman for his kind introduction and tell him that there is always a place for him in Texas.

Mr. Speaker, allow me again to thank the distinguished gentleman from Tennessee as well as the chairman of the subcommittee for his leadership and, collectively, the leadership of the ranking member and chairperson of the full Committee on Transportation and Infrastructure, knowing their continued concern on issues of, if you will, highlighting and honoring our history. It is important as well to thank the two authors of this legislation as it moves through the House, and that is the establishment of a Presidential commission. One step is a giant step for where we want to take these opportunities to be able to highlight and to reinforce the wonderment of this Nation, and that is that we are built on many shoulders.

The gentleman from Georgia (Mr. LEWIS) is an icon, and I thank him for his persistence and determination. Besides his own leadership in our caucus and on the Committee on Ways and Means, he has taken upon himself to frame for this Congress and this Nation the ability to honor those who have given of their lives to help this country be a better place to live. In his commitment to the Institute of Faith and Politics, he has educated so many Members of Congress about our civil rights history.

But this particular legislative initiative takes African American history to another level. It chronicles from the very beginning the important role that African Americans have played in this Nation and in nation-building. It is not a legislative initiative that takes us backwards; it is one that moves us forward.

I am very gratified that through a detailed commission we will now have a structure to begin the architectural building, if you will, of how we would create a national museum of African American history. Who will we talk to? What will that story be like? How will it be told? Who will we include, and not to exclude anyone. Where will we reach

to in order to make sure that it is an all-comprehensive story of the African American in this Nation?

These are very troubling times. September 11 drew all of us closer together. Now we approach the holiday season when families will be gathered and stories will be told. Will it not be wonderful to be able to come to the United States Capital in years to come because of the leadership of the gentleman from Georgia (Mr. LEWIS) and the gentleman from Oklahoma (Mr. WATTS), and ultimately from the work of this commission to be able to see the story of a very strong component of our history. This is not to deny the wonderment of the history of those who came across this Nation through Ellis Island or those who may have walked across the border from South America, or maybe those who came in a fishing boat. But what it says of those who came to this Nation in a slave boat have a very special history and now today that story will be told.

Mr. Speaker, I want to again thank the authors of this legislation and the committee for its wisdom in allowing us to debate this legislation, and I hope all of my colleagues will join me in enthusiastically supporting the first step of a very big step in our Nation.

Mr. CLEMENT. Mr. Speaker, I yield such time as he may consume to the gentleman from Minnesota (Mr. OBERSTAR), our ranking Democrat on the Committee on Transportation and Infrastructure.

Mr. OBERSTAR. Mr. Speaker, I rise in strong support of the legislation before us to establish a Presidential commission to develop a plan of action for the establishment and maintenance of the national museum of African American history and culture in Washington, D.C. It is a great tribute to the gentleman from Georgia (Mr. LEWIS) that he has worked so diligently and vigorously, in a bipartisan fashion with the gentleman from Oklahoma (Mr. WATTS), to bring this bill to the House floor.

For over a decade, the gentleman from Georgia (Mr. LEWIS) has been a persistent and a persuasive advocate for the establishment of a national African American museum, support for which is well established and has already been advocated for quite some time going back to the early 1990s by the Smithsonian Institution, which vigorously endorsed the concept of such a museum.

This commission that we are authorizing will supply significant information and data to support the size, the appropriate size of the building, the location, the budget, the extent and type of collection and displays to be managed there. Some of the ideas for the museum include exhibits on the reconstruction era, the Harlem Renaissance, and the Civil Rights movement. We also anticipate that the commission

and the museum to be established will work collaboratively with academic institutions to research and study African American life, history, art, and culture, as well as the abominable era of slave trade, which the gentlewoman from Texas alluded to so powerfully in her remarks.

As a part of the initiative we launch today, the Presidential commission will convene a national conference to consider and to include the views and opinions of learned persons who are dedicated to the advancement of African American life. This initiative is long overdue; and I strongly urge not only its support in this House, but swift enactment into law and establishment so that the progress can get quickly underway.

Mr. CLEMENT. Mr. Speaker, this is a very serious issue. We have had some excellent speakers to comment concerning this legislation, and we strongly support it.

Mr. Speaker, I have no further speakers, and I yield back the balance of my time.

Mr. LATOURETTE. Mr. Speaker, I urge passage of the bill, and I yield back the balance of our time.

The SPEAKER pro tempore (Mr. OSE). The question is on the motion offered by the gentleman from Ohio (Mr. LATOURETTE) that the House suspend the rules and pass the bill, H.R. 3442.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. LATOURETTE. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous materials on the bills H.R. 3282, H.R. 2595, H. Con. Res. 259, H.R. 10, H.R. 3441, H.R. 3442, and H.R. 3370, the legislation just considered.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

□ 2015

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. OSE). The Chair would like to clarify that the request of the gentleman from Colorado (Mr. McINNIS) was intended merely to transfer to the gentleman from Ohio majority debate time, assuming that another Member had made the motion to suspend the rules. Unanimous consent was not required to permit the Speaker to recognize any Member for a motion to suspend the rules.

KEEPING THE SOCIAL SECURITY PROMISE INITIATIVE

Mr. SHAW. Mr. Speaker, I move to suspend the rules and agree to the concurrent resolution (H. Con. Res. 282) expressing the sense of Congress that the Social Security promise should be kept.

The Clerk read as follows:

H. CON. RES. 282

Resolved by the House of Representatives (the Senate concurring),

SECTION 1. SHORT TITLE.

This concurrent resolution may be cited as the "Keeping the Social Security Promise Initiative".

SEC. 2. FINDINGS.

The Congress finds that—

(1) Social Security provides essential income security through retirement, disability, and survivor benefits for over 45 million Americans of all ages, without which nearly 50 percent of seniors would live in poverty;

(2) Social Security is of particular importance for low earners, especially widows and women caring for children, without which nearly 53 percent of elderly women would live in poverty;

(3) each payday, American workers send their hard-earned payroll taxes to Social Security and in return are promised income protections for themselves and their families upon retirement, disability, or death, and that commitment must be kept;

(4) Social Security payments to beneficiaries will exceed worker contributions to the Social Security trust funds beginning in 2016, as demographics, including the aging baby boom generation and increasing life expectancies, will result in fewer workers per beneficiary and threaten Social Security's essential income safety net with financial instability and insolvency;

(5) deferring action to save Social Security will result in loss of public confidence in the program, will increase the likelihood of spending cuts to other essential programs, and will expose beneficiaries, particularly those with low earnings, to poverty-threatening benefit cuts or reduce workers' take-home pay through burdensome payroll tax increases;

(6) workers' ability to save and invest for their own retirement will continue to be particularly important, especially for younger workers, to enhance their own retirement security; and

(7) the President should be commended for recognizing that Social Security is not prepared to fully fund the retirement of the baby boom and future generations and for establishing the bipartisan President's Commission to Strengthen Social Security, which will report its recommendations this fall.

SEC. 3. SENSE OF THE CONGRESS.

It is the sense of the Congress that—

(1) the President's Commission to Strengthen Social Security, recognizing the immense financial commitment of every American worker into the Social Security system, should present in its recommendations innovative ways to protect that commitment without lowering benefits or increasing taxes; and

(2) the President and the Congress should join to develop legislation to strengthen Social Security as soon as possible, and such legislation should—

(A) recognize the obstacles women face in securing financial stability at retirement or

in cases of disability or death and the essential role that the Social Security program plays in providing income security for women;

(B) recognize the unique needs of minorities and the critical role the Social Security program plays in preventing poverty and providing financial security for them and their families when income is reduced or lost due to retirement, disability, or death; and

(C) guarantee current law promised benefits, including cost-of-living adjustments that fully index for inflation, for current and future retirees, without increasing taxes.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Florida (Mr. SHAW) and the gentleman from Michigan (Mr. LEVIN) each will control 20 minutes.

The Chair recognizes the gentleman from Florida (Mr. SHAW).

Mr. SHAW. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, two-thirds of a century ago, any kind of income security was indeed rare. Today, however, the success of Social Security in providing income security and reducing poverty among the elderly is well known, and it is well known to everyone in this Chamber. Without Social Security, nearly half our seniors and over half of disabled workers would live in poverty today.

Yet, Social Security faces significant financial challenges ahead. Unless we modernize the program's Depression-era financial structure, program income will not cover the full cost of paying promised benefits soon after the baby boomers begin retiring.

Today we must let every American know that we will act as soon as possible to save Social Security, and we will not do it by placing undue burdens on today's retirees and workers by reducing benefits or increasing taxes.

Social Security provides at least half of the retirement income for over two-thirds of our seniors and 100 percent of income for almost one in every five seniors. Reducing Social Security benefits would have serious consequences for the majority of seniors, and would increase their number in poverty, which is why we must find ways to strengthen Social Security without cutting the benefits.

Social Security is also one of the largest financial obligations of many families. For around three-fourths of American families, the payroll tax is their largest tax liability. Increasing this tax burden would hit low- and middle-income families the hardest. In addition, it would reduce the already low rate of return on these contributions that workers may expect.

So we must find ways to strengthen Social Security without increasing Social Security taxes. Our decisions on how to strengthen Social Security are particularly important to women.

As we make choices, we must keep in mind the obstacles women face in ensuring financial security for them-

selves and their families and the key role Social Security plays in providing income security in the event of retirement, disability, or death. Without Social Security, over half of elderly women would live in poverty today. As we consider the program's improvements, we must not consider reducing benefits or cost-of-living increases that are so important, particularly to women.

We must also remember the critical role Social Security plays in providing financial security for minorities of all ages. African Americans are more likely to receive disability benefits. Since their life expectancy is shorter than average, survivor benefits are also critically important.

Also, about two-thirds of the African Americans and about three out of five Hispanic seniors would have income below poverty without Social Security. As we consider changes to the program, we must not reduce the benefits that are vital to preventing poverty among our minorities. We must protect Social Security for all Americans, especially for those who rely on it the most.

However, we must also work to ensure Social Security is fair to all generations. Our kids and grandkids need us to find a way to improve the low rates of return they will receive from Social Security. For example, a single man who is 31 years old today and earns average wages can expect a rate of return on his contribution only a little more than 1 percent, and kids born today can expect even less.

We cannot, in fairness, allow this to continue. The President's bipartisan Commission to Strengthen Social Security has talked about the unique needs of women and minorities, as well as the system's low rate of return, in its interim report and throughout all of its meetings. Today, the commission will provide a draft report with its recommendations for several options for modernizing and strengthening Social Security. This information will help us along the road towards a solution for Social Security's financial woes.

Ultimately, we, the Members of Congress, must make the final decision about which road to choose, and the American people are depending upon us to make the right choices. I hope we will make these decisions together on a bipartisan basis, because this is not a road upon which we can afford to falter or to lose our way. So let us begin today, as Congress first voices its views, and let that voice be a bipartisan one.

Mr. Speaker, it is for these reasons that I encourage all Members on both sides of the aisle to vote in favor of this critically important resolution. We must act now to assure Americans that any plan for saving Social Security will guarantee current law promised benefits, including cost-of-living adjustments for current and for future

retirees, without increasing our taxes. Our children, our grandchildren, and future generations deserve no less.

Mr. Speaker, I know that we will hear a lot tonight about privatization, and there will be some that will say that this resolution is a repudiation of individual retirement accounts for American workers. I would remind the Members that we just voted on the Railroad Retirement Fund, in which we took the railroad retirees out of Treasury bills and put them in stocks and bonds of corporations.

Our Social Security people, and by the way, I tell my Democrat friends that only two of them voted against that particular bill. So when Members get up to criticize Individual Retirement Accounts, I would advise Members, and I would guess that every speaker here tonight that speaks on this resolution and that mentions that Individual Retirement Accounts are something risky, that begin with they can get a lot more than 1 percent over the ages and over the long haul, it certainly shows that this is not a repudiation of the Individual Retirement Accounts. We have already voted on going towards the private sector of investment for American union retirees. Our retirees on Social Security deserve no less.

But let us not argue that tonight. Let us argue the future of the Social Security system and the need for us to work together to come up with a solution that will, in itself, nail down the fact that this retirement system is not only going to be there for our generation, it is going to be there for future generations and our grandkids. If we do less, they will turn our pictures to the wall. It is our obligation to do this. It is our opportunity to do this. So if we can break down the wall of partisanship and come forward with a plan that we can work together with, I will be most happy and anxious to work with Members on both sides of the aisle.

Mr. Speaker, I reserve the balance of my time.

Mr. LEVIN. Mr. Speaker, it is my pleasure to yield 7 minutes to the gentleman from Maine (Mr. ALLEN).

Mr. ALLEN. Mr. Speaker, I thank the gentleman for yielding time to me.

Mr. Speaker, I rise in support of the resolution because, like its author, I believe that the promise of Social Security should be kept for the millions of Americans, or in fact, all Americans who wind up qualifying for this vital program.

But I do have to say, Mr. Speaker, that this is a remarkable resolution in many ways, because in one section it praises President Bush's Social Security Commission.

On page 3 it reads: "The President should be commended for recognizing that Social Security is not prepared to fully fund the retirement of the baby boom and future generations, and for

establishing the bipartisan President's Commission to Strengthen Social Security," which is, coincidentally, reporting today.

That commission was established in order to push privatization proposals, and hopefully to come up with one privatization proposal. But this resolution contains no mention of the central purpose of the commission, which was to find a way to privatize Social Security, in full or in part.

When we go to the last section of the resolution, it is a sense of Congress that legislation should be developed which, among other things, would guarantee current law promised benefits, including cost-of-living adjustments that fully index for inflation for current and future retirees without increasing taxes.

That is an admirable goal, one that I support, but one that is exactly the opposite of what the President's Social Security Commission is recommending. In fact, what we now know, what some of us have been arguing for a long period of time but we now know from the commission's report itself, is that if we do nothing but privatize Social Security and create these partial accounts, it will consume \$1 trillion of Social Security or other funds over 10 years, \$1 trillion.

In response to the point of the gentleman from Florida (Mr. SHAW) that all of us, almost all of us, voted to allow the Railroad Retirement Fund to invest in the stock market, I would point out that that does not cost \$1 trillion in transition costs in order to do. So in that case, it made some sense.

But \$1 trillion is real money. The fact of life is that there are substantial administrative costs for creating private accounts, which is, after all, why Wall Street is so interested in having an individual account for virtually every member of Social Security.

Another point, another area of disagreement between us, is that the way we calculate the rate of return is subject to disagreement. We do not agree that it is 1 or 2 percent, we think the number is closer to 4 percent, and that that is comparable to guaranteed investments in U.S. Treasuries.

But beyond that, when people have Social Security, they have two things that go along with that program:

First, they have a form of disability insurance, because Social Security is there to provide a form of disability insurance. There is money there for survivors' benefits. In the aftermath of September 11, one thing we know about Social Security is that all those children who lost a parent in the attack on the World Trade Centers are qualifying for survivors' benefits. They will be helped by this program because that is part of what it does.

Now, over the last 2 years, and let me say, as I said before, Wall Street loves privatization of accounts. They will

make a lot of money doing that, but ordinary Americans should be terrified. In the last 2 years, the loss in value in the stock market approaches \$5 trillion. In those 2 years, Social Security did not lose one thin dime, not one. It provides the kind of assurance that we need.

The commission report coming out today did not do what the President wanted and have one plan for privatization; they rolled out three plans for privatization. But they do exactly what this resolution said we should not do. They do reduce Social Security benefits in different ways.

For example, they tie future COLAs to growth in prices, not wages, which will reduce the increase that Social Security beneficiaries are expected to get every year. There is a disguised increase in the retirement age. There is a reduction in disability payments.

What we are really talking about, Mr. Speaker, here is that we cannot privatize Social Security in full or in part without substantial costs. It is simply not possible, Mr. Speaker, to privatize Social Security, in full or in part, without these very substantial transition costs.

It is worth pointing out that in the space of less than 12 months we have converted the Federal budget from a situation where we could see surpluses virtually as far as the eye could see to a situation where we now see deficits virtually as far as the eye can see. And most of that loss, most of that loss, 55 percent, is due to the tax cut passed by this House and signed by the President in June.

Mr. Speaker, we are now using Social Security surplus dollars to fund the ordinary expenses of this government, and we are doing that in major part because of the tax cut that was passed here that was twice what a tax cut of reasonable size should have been.

So in conclusion, Mr. Speaker, it is very important, I believe, that we pass this resolution because the promise of Social Security should be kept; but let us not cloud this debate by what is really going on here.

□ 2030

This resolution rejects the principal purpose and the principal finding of the President's Commission on Social Security which was set up in order to push a privatization proposal, which now we know is the wrong thing for America.

Mr. SHAW. Mr. Speaker, I yield as much time as he may consume to the gentleman from California (Mr. THOMAS), the chairman of the Committee on Ways and Means for purposes of a colloquy.

Mr. THOMAS. Mr. Speaker, first of all, I want to thank the chairman of the Subcommittee on Social Security for bringing this particular resolution to the floor. My concern goes beyond

the particulars of this resolution, but clearly underscored in all of the discussion that we have about Social Security is the sensitivity in terms of the money that people pay into the payroll tax.

That is why I was stunned today to hear a prominent Member of the other body announce on the floor that he was willing to accept an idea that would mean an immediate \$40 billion loss in payroll taxes to the trust funds that we have all showed we have great concern about.

Mr. SHAW. Mr. Speaker, will the gentleman yield?

Mr. THOMAS. I yield to the gentleman from Florida.

Mr. SHAW. Mr. Speaker, I, too, do not understand and was quite amazed and disappointed to see when this Senator was willing to ask Social Security to bear the burden of the economic stimulus, when the program is facing its own serious financial challenges.

Mr. THOMAS. Apart from the obvious in immediate lost to the trust funds, there has been some concern about the ability to execute the proposal. The loss of funds is bad enough, but when we strip it to the essentials of the proposal, those organizations which are charged with the responsibility of dealing with the way in which payroll taxes are paid and accounting procedures are dealt with, the American Payroll Association, the American Society for Payroll Management, the National Payroll Reporting Consortium and the Society for Human Resource Management, all agree that it would take 6 months or more to try to get it correct in making this scheme work, but they had no guarantee that it would, in fact, be sound.

Mr. SHAW. Mr. Speaker, as a former certified public accountant, I can assure my colleague that making such a change would dramatically increase the risk of error in reporting Social Security wages. These wage reports must be accurate in order to assure beneficiaries receive their full and correct benefits in a timely way. This is very important.

Mr. THOMAS. Of course, it does not even address the game playing that would go on if we were able to set up a system and we were losing \$40 billion out of the trust fund. We would have employees negotiating with employers where particular benefits or amounts were going to be given so that they would just happen to fall within this holiday period, further complicating an attempt to make this system work.

Mr. SHAW. Not only would the employer be faced with employees trying to shift their wages to the payroll tax holiday month, employers would also have to contend with implementing a payroll tax holiday at the same time they are preparing W-2s and 1099s to meet the January 31 requirement as provided as a deadline. Having employers having to deal with these changes

at once would only risk incorrect reporting of Social Security wages. It could only risk incorrect reporting of income for Federal tax purposes.

Mr. THOMAS. In addition, of course, not everybody has the luxury of a large staff being paid to manage payroll and computers to deal with it. So we do not know the uneven burden that is going to be placed on employers who would now have to add a temporary change to the difficult, ongoing structure that is necessary. Of course, that does not even address the precedent of taking an enormous amount of general fund money and then moving it over to cover the losses out of the trust fund in the first place.

Mr. SHAW. I agree. Even if the lost payroll taxes were replaced with general revenue funds, we would be obscuring the clear connection between a person's contribution and the benefits he will receive. This is what President Roosevelt intended when he established Social Security and set up this separate trust fund. We should not take lightly the idea of breaking this critical connection, this firewall, if I may. Otherwise, we will find ourselves looking to the payroll system for every economic fix that we need.

Mr. THOMAS. Especially when they are arguing that we need to do this very risky scheme, jeopardizing the ability to be accurate, and committing enormous general funds to the trust fund to replace the hole in the trust fund that would bring insolvency from 2017 to 2006, and argue that they feel they need to do it for stimulus purposes. There are a whole lot better ways to stimulate the economy. The legislation passed by the House, the discussion between, just as recently today, a moderate group of Senators, both Democrats and Republicans and the President, none of those discussions involved risky schemes like this exposure of the payroll tax.

Mr. SHAW. My colleague is once again right. Now is the time for us to act wisely and not overreact. Several excellent ideas have been put forth by both parties. A payroll tax holiday was not in the House passed bill. The Senate has never passed such a bill and should not, at any time, be used in a stimulus package passed by either body.

Mr. THOMAS. Mr. Speaker, I want to thank the chairman of the Subcommittee on Social Security for the colloquy, and I want to praise him for his continued vigilance in not allowing people to play with the trust fund as was proposed by a prominent Senator just today.

Mr. SHAW. Mr. Speaker, I reserve the balance of my time.

Mr. LEVIN. Mr. Speaker, I yield myself such time as I shall consume.

I was listening with interest to my distinguished colleagues, and I think their colloquy was an example of true

bipartisanship in this sense. As I heard them, I think what they were describing was initially proposed by a Senator from their party. I hope they will send their colloquy to that gentleman.

Mr. SHAW. Mr. Speaker, will the gentleman yield on that?

Mr. LEVIN. No. Let us talk about this resolution. The gentleman used the time to talk about something that is not relevant to this resolution, and I thought that I would just put it in some perspective. Let me talk about this resolution, if I might.

The resolution before the House has very little to do with strengthening Social Security, which is indeed necessary, and it has very much to do with providing political distance to some Member of the majority party.

Does anyone seriously believe that it is a coincidence, a coincidence, that this resolution is being brought to the House floor on the very same day that the President's hand-picked Social Security Commission unanimously adopted its recommendations? The recommendations of the Commission should come as a surprise to no one. From the day the President appointed a one-sided commission, I do not, for a moment, challenge the views in terms of the integrity of their point of view, but it was very one-sided and the outcome was predetermined.

Indeed, the President's spokesman, Ari Fleischer, said it very clearly very early on in quotes, "The Commission will, of course, be comprised of people who share the President's view that private retirement accounts are the way to save Social Security."

This is the spokesperson of the President of the United States. It is now apparent from the Commission's recommendations that privatization would result in cuts in Social Security benefits. That is clear from the two plans of the Commission that spell out how to pay for privatization. Any doubt on this score has vanished over the course of the last year with the depletion, I think, the reckless depletion of the non-Social Security surplus. But this resolution wants to have it both ways.

It refers appropriately to the vital nature of Social Security, its guaranteed lifetime benefits, its COLAs, its important anti-poverty role and its special protections for women, low earners and minorities. It also says it rejects benefits cuts but it does not reject, it does not reject the misguided policy that would necessitate benefit reductions, the Bush administrations quest to privatize Social Security.

I urge my colleagues to vote for this resolution because it reaches the right conclusion. To vote no would only confuse the picture. But no one should believe that voting yes will make the President's privatization quest go away. That horse already left the barn.

The public deserves a thorough discussion of the Commission's privatiza-

tion plans. The impact of these plans can not be obscured by any smoke screen. As true in this instance, they are too transparent to work.

I want to just say a couple of other words in response to what my friend, the gentleman from Florida (Mr. SHAW) had to say. He said that this resolution is not a repudiation of privatization. Maybe I will let those words stand. I wish it had repudiated but it is silent.

Mr. SHAW. If the gentleman would yield, I would like to correct his statement as to my statement. I said a repudiation of private accounts, not privatization. There is a big difference.

Mr. LEVIN. All right. We will see as time unfolds if there is a difference. I do not see it. Indeed, in reference to the railroad retirement bill I think is misplaced. There are not individual accounts. The retirement monies are allowed to be invested as a whole. They are allowed to be invested. That is not privatization, nor is it private accounts.

So I think we need to understand what is going on here today with this resolution. We should vote for it. But we should not be misguided as to what is really going on here. I do not think there is any way in the end to duck the issue of strengthening Social Security. The President embraced privatization. He appointed members of a commission that embraced privatization. There was no effort to have any diversity on that key issue on the Commission.

So essentially, the President and his party have ended up with a Commission report that supports privatization, and in the only plans that spell out how they would pay for it, they provide for benefit cuts; and I do not know any way out of that equation. I do not think there is any way for anybody to explain it away. I think we owe it to the public to have a forthright discussion as to how we should strengthen Social Security. And those who favor privatization or private accounts should simply say so, indicate how they would be structured, indicated how they would be paid for; if they want to suggest general funds when those general funds by their own plans have been diminished, indeed I think destroyed, they can do so.

But if we are going to move ahead in strengthening Social Security, we are going to have to really tell the American people what we really mean and like it is.

So I support this resolution with the qualifications that I have mentioned.

Mr. Speaker, I reserve the balance of my time.

Mr. SHAW. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I would remind the gentleman from Michigan (Mr. LEVIN) that the Commission was made up of half Democrats and half Republicans. Only one former Republican Member of Congress and one Democratic former Member of Congress and one Democratic

former Senator, and so that is a 2-to-1 Democratic, as far as elected officials are concerned.

I would also say that no one in this body that I know of and the Commission report certainly did not endorse privatizing Social Security. That idea is not even out there and is not even under consideration.

Mr. Speaker, I yield 2 minutes to the gentleman from Texas (Mr. BRADY), a member of the Committee on Ways and Means.

Mr. BRADY of Texas. Mr. Speaker, Social Security needs to be preserved once and for all. By passing this legislation which was introduced by the chairman of the Social Security subcommittee, the gentleman from Florida (Mr. SHAW), the House of Representatives will make a strong statement that we do support reforming Social Security and ensuring its solvency once and for all without cutting benefits, increasing taxes on people whose payroll check does not go far enough as it is today.

□ 2045

We may have different ideas, but let us first agree that the current system is not financially sound for the baby boomers and the generations that follow. Common sense tells us that we must transition from this pay-as-you-go system that will run out of money to a traditional retirement plan where our money grows over time into a bigger nest egg. The only question is how and how soon. And let us agree that we ought to keep our Social Security promises, cost-of-living increases each year that really do reflect the cost of living for seniors, and keeping our promise on benefits and not increasing taxes.

Some people in Washington do not want to face up to this issue. They want to make it an election campaign issue. They want to run ads; they want to scare seniors with the phrase of privatization. Well, I think people in America want us to work on Social Security. They want to hear the good ideas. They want to be part of this process. And when we ask people up here who do not want to touch Social Security, who do not want to tackle Social Security, what their plan is for preserving it once and for all, there is nothing but silence.

I applaud the President for appointing this commission. They are tackling issues that we really need to tackle. This was an important first step in getting Congress and Washington to focus on preserving Social Security once and for all. Do not get me wrong, while I support the urgency, I strongly disagree with the committee's recommendations that reductions in benefits will be necessary to ensure Social Security's future solvency. I hope President Bush rejects those ideas.

Nonetheless, I look forward as a member of the committee to working

with my colleagues in the House, the President, my Democratic colleagues, and others in moving the ball forward on Social Security and preserving Social Security once and for all.

Mr. LEVIN. Mr. Speaker, I yield myself 1 minute.

The chairman of the subcommittee mentioned bipartisanship, and I just want to say a word about that.

I do not challenge or question the sincerity of the members of the commission. Indeed, very distinguished people. But true bipartisanship means, I think, if it is going to be at all effective, a reflection of the mainstream within each party. This commission, as Ari Fleischer said, had on it people who favored privatization. And that is what Mr. Fleischer said; these were his terms, private retirement accounts. All of them share the President's views that these accounts are the way to save Social Security.

So what we put in, we get out. And when we put in a uniform point of view that does not encompass the mainstream of both parties, we are going to get out of it deep division.

Mr. Speaker, I reserve the balance of my time.

Mr. SHAW. May I ask the Speaker how much time remains on both sides?

The SPEAKER pro tempore (Mr. OSE). The gentleman from Florida (Mr. SHAW) has 5 minutes remaining, and the gentleman from Michigan (Mr. LEVIN) has 4½ minutes remaining.

Mr. SHAW. Mr. Speaker, I yield 2½ minutes to the gentleman from Michigan (Mr. SMITH), who has worked long and hard on the problem of trying to do something with Social Security.

Mr. SMITH of Michigan. Mr. Speaker, everybody talks so calmly about Social Security. Let me just stress that the greatest danger is doing nothing.

I would suggest to the gentleman from Michigan (Mr. LEVIN) that everyone that criticizes anybody else's plan should come up with their own plan that is going to keep Social Security solvent. Look, we all agree this is a great program. Fifty percent of the people on retirement today would be at the poverty level if they did not have Social Security. So what are we going to do?

I just feel so strongly, and it is somewhat irritating that it is easy to criticize, to nit and pick. But I would humbly suggest that everybody that criticizes anybody else's plans, including the commission's, should come up with their own prompt proposal that keeps Social Security solvent.

Now, some people say, well, look, just pay back what we owe the trust fund and we will still be able to pay 70 percent of the benefits in 2034. Well, it is all going to take money. After there is less revenues coming in starting in 2018 than is required to pay benefits, the money has to come from some-

place. So we will come up with the money and pay back everything we owe the trust fund and then benefits are going to be cut 30 percent, and then, a few years later, 65 percent. That is not acceptable. The longer we put off a decision, the more drastic the changes are going to have to be made.

Let me suggest that nobody is suggesting privatizing Social Security. The commission came up with three proposals today. The middle proposal says, for example, an individual can invest, and it is optional, it is all optional, an individual can invest 4 percent of their taxable earnings, if they want to, into their privately owned account. So if they die before 65, it goes into their estate and not back to the government; and they are going to offset future benefits, assuming that they get a 2 percent rate of return on that interest. Even government bonds can do better than that.

Let us move ahead, let us be positive, let us come up with proposals that will save Social Security. Things have changed so much since I introduced my first Social Security bill in 1994. Now we are talking about the reality of a problem. America is becoming better informed. But until America realizes where their Social Security checks come from, we are probably not going to convince most Americans that we need to fix the problem.

Where it comes from is existing workers. It is a Ponzi game. Existing workers today put in their money, and it is immediately sent out to existing retirees. That needs to be changed over time, and let us get with it.

Mr. LEVIN. Mr. Speaker, I yield myself the balance of my time.

Opposing private retirement accounts is not nitpicking. It is a major issue. And among Democrats and some Republicans there is deep resistance to it.

In terms of specific proposals, I would suggest, as was true in the early 1980s, if we are going to have a commission, let it be diverse, let it have a broad range of opinions. Do not have anybody, whether it is the President or the Congress, picking people who agree with them; in the President's case, people who believe in private retirement accounts, which is, I think, a legitimate privatization method in terms of what we call it. I do not think it is legitimate, but we can legitimately call it privatization.

Mr. Speaker, I believe the issues really are clear. I think the discussion here has been even more to the point than I expected in terms of what this resolution is all about and what is behind it. And therefore, within those qualifications, I suggest Members come here and vote, if a vote is called for.

Mr. Speaker, I yield back the balance of my time.

Mr. SHAW. Mr. Speaker, I yield myself the balance of my time.

The gentleman from Michigan and I worked for many years on welfare reform. The President vetoed my bill twice. In the end, we came together and we worked together, and America is better off for it. We supported it in a bipartisan way. We can do the same with Social Security.

The gentleman does not like the idea of investment in the private sector. If he has a better idea, bring it to me. I will have hearings on it. And if it is better than the investment in the private sector, I will support it.

The reason we are looking at investment in the private sector through individual retirement accounts is that is the only way we figured out we can get a sufficient return that is going to leave the program there strong enough for our kids and our grandkids.

What we are talking about tonight is working together to preserve that program in a bipartisan way, to preserve it so that our kids and our grandkids are going to get a fair deal. Can we go to our kids and our grandkids, can I go home and tell them they are going to pay 12.4 percent of their wages and FICA taxes and, oh, by the way, you are going to take a cut after taking care of my generation and our Social Security benefits? That is wrong. That is wrong. And we do not need to do it. But if we continue the partisan bickering, we will need to do it.

I would challenge my friends on the other side of the aisle to come forward with a plan. The reaction has been absolutely absent. There are not even phantom plans out there to deal with this. We have to work together. Come forward with a plan, sponsor a plan, have it programmed and say that it is going to save Social Security for all time and we will work with it and have it scored that way. For us to continue the bickering on both sides of the aisle with regard to this is terrible.

This commission has worked hard, and as the gentleman correctly pointed out, they are distinguished individuals. They worked hard. Maybe the gentleman does not like the results, maybe I do not like the results, I think we can do better; but their job was not to legislate. Their job was to come forth with ideas, and this is what they have done.

I commend the President for putting together this bipartisan commission to come back to us. They have shown there is a problem out there. This resolution very clearly states that the Social Security System is going to be in trouble in 2016. So tomorrow when we get a big vote, and I am going to ask for a recorded vote, this is going to be an acknowledgment by the Congress that there is a problem that must be faced.

Let us face it now and let us face it together.

Mr. ENGLISH. Mr. Speaker, I rise in strong support of H. Con. Res. 282, Keeping the So-

cial Security Promise Initiative. This resolution simply reaffirms Congress's resolve to strengthen the Social Security program for future generations without lowering benefits or increasing taxes. Mr. Speaker, Social Security provides essential retirement security for more than 45 million Americans. With each paycheck, workers send their hard-earned payroll taxes to Social Security with the promise of security in their retirement. In reforming the system Congress should not do anything that will jeopardize that security or break our promises to America's seniors.

President Bush has recognized that Social Security cannot sustain the imminent retirement of the baby boomers and future generations. He should be commended for creating a bipartisan Commission to Strengthen Social Security. The final report is due on December 21, 2001. The Commission has proposed three options to date, two of which would reduce benefits.

The responsibility for reforming Social Security ultimately lies with the Congress. I believe we can protect Social Security's commitment to our current and future retirees without lowering benefits or raising taxes while providing cost-of-living adjustments. With Social Security anticipated to run a deficit in 2016, now is the time for Congress and the President to work together in a bipartisan fashion to put Social Security on sound financial footing for generations to come.

I ask my colleagues to support H. Con. Res. 282.

Mr. FORBES. Mr. Speaker, I rise in strong support of H. Con. Res. 282, which reiterates Congress' commitment to our seniors to keep the promise of Social Security.

For years now, Congress and the public have known that Social Security would soon be facing serious financing challenges due to shifting demographics. With the aging of the baby boom generation, the number of retiring Americans receiving benefits is beginning to overwhelm the number of working Americans paying into the Social Security system. In addition, thanks to important medical advances and healthy behavioral changes, Americans are living longer. The result of these factors is that beginning in 2016, Social Security payments will exceed worker contributions into the trust funds.

This is a scary prospect for the millions of Americans who receive Social Security benefits. Many of those individuals depend upon their monthly Social Security checks to survive. As we fight our global war on terrorism, we must not lose sight of the fact that terror can come in many forms. It is every bit as frightening to an elderly man or woman that the Social Security check might be late—and far more real. Too many of these people are living from one check to the next and balancing food against medicine. As their Representatives in Congress, we should at least provide them with the security of the promise of Social Security.

It is also a scary prospect, Mr. Speaker, for the millions of Americans who are approaching retirement. They have been paying into the Social Security trust funds because they have to, not because they believe in Social Security. In fact, numerous studies have shown that more young Americans believe in UFOs than in their future Social Security checks.

It is clear that Social Security in its current form—the form it has had since the Great Depression—is unsustainable. If we are to keep the promise that so many seniors and working Americans have relied upon for years, we must reform this program. There are many possibilities for reform, including adding personal investment options. The President appointed a commission of experts from business, think tanks, and government to explore these alternatives and to make recommendations to Congress for change. They are expected to vote on their final report today, and Congress should consider their recommendations with due deliberative speed. We must act quickly, but more importantly, we must act right.

But throughout our deliberations, Mr. Speaker, we must maintain our steadfastness to keep the promise of Social Security. We should not raise Social Security taxes and we should not cut benefits. We must use the innovative spirit that is America's hallmark to meet this challenge and find a way to strengthen and improve Social Security.

Building upon the Social Security lock box legislation that this body has already approved, this resolution lays the groundwork for our coming debate, reaffirming our commitment to Social Security's beneficiaries, in particular, the most vulnerable beneficiaries—the low-income, the women, and minorities. I look forward to reviewing these issues with my colleagues and developing a real solution to this challenge.

I urge all my colleagues to support H. Con. Res. 282.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Florida (Mr. SHAW) that the House suspend the rules and agree to the concurrent resolution, H. Con. Res. 282.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds of those present have voted in the affirmative.

Mr. SHAW. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

GENERAL LEAVE

Mr. SHAW. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and to include extraneous material on the subject of House Concurrent Resolution 282.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

REPORT ON RESOLUTION PROVIDING FOR CONSIDERATION OF H.R. 3295, HELP AMERICA VOTE ACT OF 2001

Mr. REYNOLDS, from the Committee on Rules, submitted a privileged report (Rept. No. 107-331) on the resolution (H. Res. 311) providing for consideration of the bill (H.R. 3295) to establish a program to provide funds to States to replace punch card voting systems, to establish the Election Assistance Commission to assist in the administration of Federal elections and to otherwise provide assistance with the administration of certain Federal election laws and programs, to establish minimum election administration standards for States and units of local government with responsibility for the administration of Federal elections, and for other purposes, which was referred to the House Calendar and ordered to be printed.

REPORT ON RESOLUTION WAIVING POINTS OF ORDER AGAINST THE CONFERENCE REPORT ON H.R. 2883, INTELLIGENCE AUTHORIZATION ACT FOR FISCAL YEAR 2002

Mr. REYNOLDS, from the Committee on Rules, submitted a privileged report (Rept. No. 107-332) on the resolution (H. Res. 312) waiving points of order against the conference report to accompany the bill (H.R. 2883) to authorize appropriations for fiscal year 2002 for intelligence and intelligence-related activities of the United States Government, the Community Management Account, and the Central Intelligence Agency Retirement and Disability System, and for other purposes, which was referred to the House Calendar and ordered to be printed.

HOMESTEAD NATIONAL MONUMENT OF AMERICA ADDITIONS ACT

Mr. MCINNIS. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 38) to provide for additional lands to be included within the boundaries of the Homestead National Monument of America in the State of Nebraska, and for other purposes, as amended.

The Clerk read as follows:

H.R. 38

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Homestead National Monument of America Additions Act".

SEC. 2. DEFINITIONS.

In this Act:

(1) **MAP.**—The term "map" means the map entitled "Proposed Boundary Adjustment, Homestead National Monument of America, Gage County, Nebraska", numbered 368/80036 and dated March 2000.

(2) **MONUMENT.**—The term "Monument" means the Homestead National Monument of America, Nebraska.

(3) **SECRETARY.**—The term "Secretary" means the Secretary of the Interior.

SEC. 3. ADDITIONS TO HOMESTEAD NATIONAL MONUMENT OF AMERICA.

(a) **IN GENERAL.**—The Secretary may acquire, by donation or by purchase with appropriated or donated funds, from willing sellers only, the privately-owned property described in paragraphs (1) and (2) of subsection (b). The Secretary may acquire, by donation only, the State-owned property described in paragraphs (3) and (4) of subsection (b).

(b) **PARCELS.**—The parcels referred to in subsection (a) are the following:

(1) **GRAFF PROPERTY.**—The parcel consisting of approximately 15.98 acres of privately-owned land, as depicted on the map.

(2) **PIONEER ACRES GREEN.**—The parcel consisting of approximately 3 acres of privately-owned land, as depicted on the map.

(3) **SEGMENT OF STATE HIGHWAY 4.**—The parcel consisting of approximately 5.6 acres of State-owned land including Nebraska State Highway 4, as depicted on the map.

(4) **STATE TRIANGLE.**—The parcel consisting of approximately 8.3 acres of State-owned land, as depicted on the map.

(c) **BOUNDARY ADJUSTMENT.**—Upon acquisition of a parcel described in subsection (b), the Secretary shall modify the boundary of the Monument to include the parcel. Any parcel included within the boundary shall be administered by the Secretary as part of the Monument.

(d) **DEADLINE FOR ACQUISITION OF CERTAIN PROPERTY.**—If the property described in subsection (b)(1) is not acquired by the Secretary from a willing seller within 5 years after the date of the enactment of this Act, the Secretary shall no longer be authorized to acquire such property pursuant to this Act and such property shall not become part of the Monument pursuant to this Act.

(e) **AVAILABILITY OF MAP.**—The map shall be on file in the appropriate offices of the National Park Service.

(f) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated to carry out this Act \$400,000.

SEC. 4. COOPERATIVE AGREEMENTS.

The Secretary may enter into cooperative agreements with the State of Nebraska, Gage County, local units of government, private groups, and individuals for operation, maintenance, interpretation, recreation, and other purposes related to the proposed Homestead Heritage Highway to be located in the general vicinity of the Monument.

The SPEAKER pro tempore (Mr. JOHNSON of Illinois). Pursuant to the rule, the gentleman from Colorado (Mr. MCINNIS) and the gentleman from Colorado (Mr. UDALL) each will control 20 minutes.

The Chair recognizes the gentleman from Colorado (Mr. MCINNIS).

□ 2100

Mr. MCINNIS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 38 introduced by the gentleman from Nebraska (Mr. BEREUTER) would authorize the expansion of Homestead National Monument of America in Beatrice, Nebraska, by 30 acres.

The monument, which currently encompasses 189 acres, was established to commemorate the Homestead Act of 1862, one of the significant and enduring events in the western expansion of the United States. The Act granted 160

acres of free land to claimants willing to live on the frontier. The monument includes the site of one of the first homesteads claimed, located in the tallgrass prairie landscape that so many pioneers settled and traversed.

Mr. Speaker, the 30 acres would be acquired from willing sellers, two privately owned and two owned by the State of Nebraska. The bill also authorizes \$400,000 to purchase the parcels of land. The bill is supported by the National Park Service and the majority and minority of the committee.

Mr. Speaker, I urge my colleagues to support H.R. 38, as amended.

Mr. Speaker, I reserve the balance of my time.

Mr. UDALL of Colorado. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of this legislation. The Homestead National Monument of America was created in 1936 to commemorate the Homestead Act of 1862 and its significant role in the settlement of the American west.

The monument includes the first parcel of land claimed under the Homestead Act as well as the Freeman School, an original, one-room schoolhouse adjacent to that parcel. The monument is listed in the National Register of Historic Places.

H.R. 38 authorizes the Secretary to acquire two specific parcels of private property, either by donation or purchase from willing sellers, and two parcels of State-owned land, by donation only. Once the land is acquired, the Secretary would be authorized to alter the boundaries of the monument to include these new properties.

It is our understanding that this expansion will allow the National Park Service to better protect the monument's historic resources from potential flood damage and aid in interpretation of the site.

Mr. Speaker, I support passage of H.R. 38.

Mr. BEREUTER. Mr. Speaker, this Member rises in strong support of H.R. 38, a bill this Member re-introduced on January 3, 2001, as during the prior 106th Congress, this Member introduced the same legislation.

This Member would like to begin by thanking the distinguished gentleman from California (Mr. RADANOVICH), the Chairman of the National Parks, Recreation, and Public Lands Subcommittee, and the distinguished gentleman from the Virgin Islands (Mrs. CHRISTENSEN), the ranking Member of the Subcommittee, for their work in bringing this bill to the Floor. This Member would also like to express his appreciation to the distinguished gentleman from Utah (Mr. HANSEN), the Chairman of the Resources Committee, and the distinguished gentleman from West Virginia (Mr. RAHALL), for their efforts to move this legislation forward.

This legislation, the Homestead National Monument of America Additions Act, is a straightforward bill. It is also noncontroversial. The bill would simply adjust the boundaries of

Homestead National Monument of America and allow a small amount of additional land to be included within its boundaries. It is also important to note that the funding necessary to implement this bill was appropriated last fiscal year.

The legislation being considered today reflects the recommendations in the recently completed General Management Plan (GMP) calling for a minor boundary expansion for Homestead National Monument. Unfortunately, the current visitor center is located in a 100-year flood plain. The acquisition of land outside the existing boundaries as recommended in the GMP would allow a new "Homestead Heritage Center" to be constructed outside the floodplain. This location would offer greater protection to the Monument's collections, interpretive exhibits, public research facilities, and administrative offices.

As the bill makes clear, the land for the Heritage Center would be acquired on a willing-seller basis. It is this Member's understanding that all of the individuals who would be involved in the boundary adjustment have expressed a willingness to sell for a negotiated price.

Homestead National Monument of America commemorates the lives and accomplishments of all pioneers and the changes to the land and the people as a result of the Homestead Act of 1862, which is recognized as one of the most important laws in U.S. history. This Monument was authorized by legislation enacted in 1936. The FY96 Interior Appropriations Act directed the National Park Service to complete a General Management Plan to begin planning for improvements at Homestead. The General Management Plan, which was completed last year, made recommendations for improvements that are needed to help ensure that Homestead is able to reach its full potential as a place where Americans can more effectively appreciate the Homestead Act and its effects upon the nation.

Homestead National Monument of America is truly a unique treasure among the National Park Service jewels. The authorizing legislation makes it clear that Homestead was intended to have a special place among Park Service units. According to the original legislation:

It shall be the duty of the Secretary of the Interior to lay out said land in a suitable and enduring manner so that the same may be maintained as an appropriate monument to retain for posterity a proper memorial emblematic of the hardships and the pioneer life through which the early settlers passed in the settlement, cultivation, and civilization of the great West. It shall be his duty to erect suitable buildings to be used as a museum in which shall be preserved literature applying to such settlement and agricultural implements used in bringing the western plains to its present state of high civilization, and to use the said tract of land for such other objects and purposes as in his judgment may perpetuate the history of this country mainly developed by the homestead law.

Clearly, this authorizing legislation sets some lofty goals. This Member believes that H.R. 38 would help the Monument achieve the potential which was first described in its authorizing legislation.

This Member urges his colleagues to support H.R. 38.

Mr. UDALL of Colorado. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. MCINNIS. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. JOHNSON of Illinois). The question is on the motion offered by the gentleman from Colorado (Mr. MCINNIS) that the House suspend the rules and pass the bill, H.R. 38, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

JAMES PEAK WILDERNESS AND PROTECTION AREA ACT

Mr. MCINNIS. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 1576) to designate the James Peak Wilderness and Protection Area in the Arapaho and Roosevelt National Forests in the State of Colorado, and for other purposes, as amended.

The Clerk read as follows:

H.R. 1576

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "James Peak Wilderness and Protection Area Act".

SEC. 2. WILDERNESS DESIGNATION.

(a) **INCLUSION WITH OTHER COLORADO WILDERNESS AREAS.**—Section 2(a) of the Colorado Wilderness Act of 1993 (Public Law 103-77; 107 Stat. 756; 16 U.S.C. 1132 note) is amended by adding at the end the following new paragraph:

"(21) Certain lands in the Arapaho/Roosevelt National Forest which comprise approximately 14,000 acres, as generally depicted on a map entitled 'Proposed James Peak Wilderness', dated September 2001, and which shall be known as the James Peak Wilderness."

(b) **ADDITION TO THE INDIAN PEAKS WILDERNESS AREA.**—Section 3 of the Indian Peaks Wilderness Area and Arapaho National Recreation Area and the Oregon Islands Wilderness Area Act (Public Law 95-450; 92 Stat. 1095; 16 U.S.C. 1132 note) is amended by adding at the end the following new subsections:

"(c) The approximately 2,232 acres of Federal lands in the Arapaho/Roosevelt National Forest generally depicted on the map entitled 'Ranch Creek Addition to Indian Peaks Wilderness' dated September 2001, are hereby added to the Indian Peaks Wilderness Area.

"(d) The approximately 963 acres of Federal lands in the Arapaho/Roosevelt National Forest generally depicted on the map entitled 'Fourth of July Addition to Indian Peaks Wilderness' dated September 2001, are hereby added to the Indian Peaks Wilderness Area."

(c) **MAPS AND BOUNDARY DESCRIPTIONS.**—As soon as practicable after the date of the enactment of this Act, the Secretary of Agriculture (hereafter in this Act referred to as the "Secretary") shall file with the Committee on Resources of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a map and a boundary description of the area designated as wilderness by subsection (a) and of the area added to the Indian Peaks

Wilderness Area by subsection (b). The maps and boundary descriptions shall have the same force and effect as if included in the Colorado Wilderness Act of 1993 and the Indian Peaks Wilderness Area and Arapaho National Recreation Area and the Oregon Islands Wilderness Area Act, respectively, except that the Secretary may correct clerical and typographical errors in the maps and boundary descriptions. The maps and boundary descriptions shall be on file and available for public inspection in the office of the Chief of the Forest Service, Department of Agriculture and in the office of the Forest Supervisor of the Arapaho/Roosevelt National Forest.

SEC. 3. DESIGNATION OF JAMES PEAK PROTECTION AREA, COLORADO.

(a) **FINDINGS AND PURPOSE.**—

(1) **FINDINGS.**—The Congress finds the following:

(A) The lands covered by this section include important resources and values, including wildlife habitat, clean water, open space, and opportunities for solitude.

(B) These lands also include areas that are suitable for recreational uses, including use of snowmobiles in times of adequate snow cover as well as use of other motorized and nonmotorized mechanical devices.

(C) These lands should be managed in a way that affords permanent protection to their resources and values while permitting continued recreational uses in appropriate locales and subject to appropriate regulations.

(2) **PURPOSE.**—The purpose of this section is to provide for management of certain lands in the Arapaho/Roosevelt National Forest in a manner consistent with the 1997 Revised Land and Resources Management Plan for this forest in order to protect the natural qualities of these areas.

(b) **DESIGNATION.**—The approximately 16,000 acres of land in the Arapaho/Roosevelt National Forest generally depicted on the map entitled "Proposed James Peak Protection Area", dated September 2001, are hereby designated as the James Peak Protection Area (hereafter in this Act referred to as the "Protection Area").

(c) **MAP AND BOUNDARY DESCRIPTION.**—As soon as practicable after the date of the enactment of this Act, the Secretary shall file with the Committee on Resources of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a map and a boundary description of the Protection Area. The map and boundary description shall have the same force and effect as if included in this Act, except that the Secretary may correct clerical and typographical errors in the map and boundary description. The map and boundary description shall be on file and available for public inspection in the office of the Chief of the Forest Service, Department of Agriculture, and in the office of the Forest Supervisor of the Arapaho/Roosevelt National Forest.

(d) **MANAGEMENT.**—

(1) **IN GENERAL.**—Except as otherwise provided in this section, the Protection Area shall be managed and administered by the Secretary in the same manner as the management area prescription designations identified for these lands in the 1997 Revision of the Land and Resource Management Plan for the Arapaho/Roosevelt National Forest and the Pawnee National Grasslands. Such management and administration shall be in accordance with the following:

(A) **GRAZING.**—Nothing in this Act, including the establishment of the Protection Area, shall affect grazing on lands within or outside of the Protection Area.

(B) **MINING WITHDRAWAL.**—Subject to valid existing rights, all Federal land within the Protection Area and all land and interests in land acquired for the Protection Area by the United States are withdrawn from—

(i) all forms of entry, appropriation, or disposal under the public land laws;

(ii) location, entry, and patent under the mining laws; and

(iii) the operation of the mineral leasing, mineral materials, and geothermal leasing laws, and all amendments thereto.

Nothing in this subparagraph shall be construed to affect discretionary authority of the Secretary under other Federal laws to grant, issue, or renew rights-of-way or other land use authorizations consistent with the other provisions of this Act.

(C) **MOTORIZED AND MECHANIZED TRAVEL.**—

(i) **REVIEW AND INVENTORY.**—Not later than two years after the date of the enactment of this Act, the Secretary, in consultation with interested parties, shall complete a review and inventory of all roads and trails in the Protection Area on which use was allowed on September 10, 2001, except those lands managed under the management prescription referred to in subparagraph (F). During the review and inventory, the Secretary may—

(I) connect existing roads and trails in the inventoried area to other existing roads and trails in the inventoried area for the purpose of mechanized and other nonmotorized use on any lands within the Protection Area as long as there is no net gain in the total mileage of either roads or trails open for public use within the Protection Area; and

(II) close or remove roads or trails within the Protection Area that the Secretary determines to be undesirable, except those roads or trails managed pursuant to paragraph (2) of this subsection or subsection (e)(3).

(ii) **AFTER COMPLETION OF INVENTORY.**—After completion of the review and inventory required by clause (i), the Secretary shall ensure that motorized and mechanized travel within the Protection Area shall be permitted only on those roads and trails identified as open to use in the inventory or established pursuant to subparagraph (D).

(D) **NEW ROADS AND TRAILS.**—No new roads or trails shall be established within the Protection Area except those which the Secretary shall establish as follows:

(i) Roads and trails established to replace roads or trails of the same character and scope which have become nonserviceable through reasons other than neglect.

(ii) Nonpermanent roads as needed for hazardous fuels reduction or other control of fire, insect or disease control projects, or other management purposes.

(iii) Roads determined to be appropriate for reasonable access under section 4(b)(2).

(iv) A loop trail established pursuant to section 6.

(v) Construction of a trail for nonmotorized use following the corridor designated as the Continental Divide Trail.

(E) **TIMBER HARVESTING.**—No timber harvesting shall be allowed within the Protection Area except to the extent needed for hazardous fuels reduction or other control of fire, insect or disease control projects, or protection of public health or safety.

(F) **SPECIAL INTEREST AREA.**—The management prescription applicable to the lands described in the 1997 Revision of the Land and Resource Management Plan as the James Peak Special Interest Area shall also be applicable to all the lands in the Protection Area that are bounded on the north by Rollins Pass Road, on the east by the Continental Divide, and on the west by the 11,300 foot elevation contour as shown on the map referred to in subsection (b). In addition, motorized vehicle use shall not be permitted on any part of the Rogers Pass trail.

(2) **NATURAL GAS PIPELINE.**—The Secretary shall allow for maintenance of rights-of-ways

and access roads located within the Protection Area to the extent necessary to operate the natural gas pipeline permitted under the Arapaho/Roosevelt National Forest master permit numbered 4138.01 in a manner that avoids negative impacts on public safety and allows for compliance with Federal pipeline safety requirements. Such maintenance may include vegetation management, road maintenance, ground stabilization, and motorized vehicle access.

(3) **PERMANENT FEDERAL OWNERSHIP.**—All right, title, and interest of the United States, held on or acquired after the date of the enactment of this Act, to lands within the boundaries of the Protection Area shall be retained by the United States.

(e) **ISSUES RELATED TO WATER.**—

(1) **STATUTORY CONSTRUCTION.**—

(A) Nothing in this Act shall constitute or be construed to constitute either an express or implied reservation of any water or water rights with respect to the lands within the Protection Area.

(B) Nothing in this Act shall affect any conditional or absolute water rights in the State of Colorado existing on the date of the enactment of this Act.

(C) Nothing in this subsection shall be construed as establishing a precedent with regard to any future protection area designation.

(D) Nothing in this Act shall be construed as limiting, altering, modifying, or amending any of the interstate compacts or equitable apportionment decrees that apportion water among and between the State of Colorado and other States.

(2) **COLORADO WATER LAW.**—The Secretary shall follow the procedural and substantive requirements of the law of the State of Colorado in order to obtain and hold any new water rights with respect to the Protection Area.

(3) **WATER INFRASTRUCTURE.**—Nothing in this Act (including the provisions related to establishment or management of the Protection Area) shall affect, impede, interfere with, or diminish the operation, existence, access, maintenance, improvement, or construction of water facilities and infrastructure, rights-of-way, or other water-related property, interests, and uses, (including the use of motorized vehicles and equipment existing or located on lands within the Protection Area) on any lands except those lands managed under the management prescription referred to in subsection (d)(1)(F).

SEC. 4. **INHOLDINGS.**

(a) **STATE LAND BOARD LANDS.**—If the Colorado State Land Board informs the Secretary that the Board is willing to transfer to the United States some or all of the lands owned by the Board located within the Protection Area, the Secretary shall promptly seek to reach agreement with the Board regarding terms and conditions for acquisition of such lands by the United States by purchase or exchange.

(b) **JIM CREEK INHOLDING.**—

(1) **ACQUISITION OF LANDS.**—The Secretary shall enter into negotiations with the owner of lands located within the portion of the Jim Creek drainage within the Protection Area for the purpose of acquiring the lands by purchase or exchange, but the United States shall not acquire such lands without the consent of the owner of the lands.

(2) **LANDOWNER RIGHTS.**—Nothing in this Act shall affect any rights of the owner of lands located within the Jim Creek drainage within the Protection Area, including any right to reasonable access to such lands by motorized or other means as determined by the Forest Service and the landowner consistent with applicable law and relevant and appropriate rules and regulations governing such access.

(c) **REPORT.**—

(1) **IN GENERAL.**—The Secretary shall submit to the Committee on Resources of the House of

Representatives and the Committee on Energy and Natural Resources of the Senate a report concerning any agreement or the status of negotiations conducted pursuant to—

(A) subsection (a), upon conclusion of an agreement for acquisition by the United States of lands referred to in subsection (a), or 1 year after the date of the enactment of this Act, whichever occurs first; and

(B) subsection (b), upon conclusion of an agreement for acquisition by the United States of lands referred to in subsection (b), or 1 year after the date of the enactment of this Act, whichever occurs first.

(2) **FUNDING INFORMATION.**—The report required by this subsection shall indicate to what extent funds are available to the Secretary as of the date of the report for the acquisition of the relevant lands and whether additional funds need to be appropriated or otherwise made available to the Secretary for such purpose.

(d) **MANAGEMENT OF ACQUISITIONS.**—Any lands within the James Peak Wilderness or the Protection Area acquired by the United States after the date of the enactment of this Act shall be added to the James Peak Wilderness or the Protection Area, respectively, and managed accordingly.

SEC. 5. **JAMES PEAK FALL RIVER TRAILHEAD.**

(a) **SERVICES AND FACILITIES.**—Following the consultation required by subsection (c), the Forest Supervisor of the Arapaho/Roosevelt National Forest in the State of Colorado (in this section referred to as the “Forest Supervisor”) shall establish a trailhead and corresponding facilities and services to regulate use of National Forest System lands in the vicinity of the Fall River basin south of the communities of Alice Township and St. Mary’s Glacier in the State of Colorado. The facilities and services shall include the following:

(1) Trailhead parking.

(2) Public restroom accommodations.

(3) Trailhead and trail maintenance.

(b) **PERSONNEL.**—The Forest Supervisor shall assign Forest Service personnel to provide appropriate management and oversight of the area described in subsection (a).

(c) **CONSULTATION.**—The Forest Supervisor shall consult with the Clear Creek County commissioners and with residents of Alice Township and St. Mary’s Glacier regarding—

(1) the appropriate location of facilities and services in the area described in subsection (a); and

(2) appropriate measures that may be needed in this area—

(A) to provide access by emergency or law enforcement vehicles;

(B) for public health; and

(C) to address concerns regarding impeded access by local residents.

(d) **REPORT.**—After the consultation required by subsection (c), the Forest Supervisor shall submit to the Committee on Resources and the Committee on Appropriations of the House of Representatives and the Committee on Energy and Natural Resources and the Committee on Appropriations of the Senate a report regarding the amount of any additional funding required to implement this section.

SEC. 6. **LOOP TRAIL STUDY; AUTHORIZATION.**

(a) **STUDY.**—Not later than three years after funds are first made available for this purpose, the Secretary, in consultation with interested parties, shall complete a study of the suitability and feasibility of establishing, consistent with the purpose set forth in section 3(a)(2), a loop trail for mechanized and other nonmotorized recreation connecting the trail designated as “Rogers Pass” and the trail designated as “Rollins Pass Road”.

(b) **ESTABLISHMENT.**—If the results of the study required by subsection (a) indicate that

establishment of such a loop trail would be suitable and feasible, consistent with the purpose set forth in section 3(a)(2), the Secretary shall establish the loop trail in a manner consistent with that purpose.

SEC. 7. OTHER ADMINISTRATIVE PROVISIONS.

(a) **BUFFER ZONES.**—The designation by this Act or by amendments made by this Act of wilderness areas and the Protection Area in the State of Colorado shall not create or imply the creation of protective perimeters or buffer zones around any wilderness area or the Protection Area. The fact that nonwilderness activities or uses can be seen or heard from within a wilderness area or Protection Area shall not, of itself, preclude such activities or uses up to the boundary of the wilderness area or the Protection Area.

(b) **ROLLINS PASS ROAD.**—If requested by one or more of the Colorado Counties of Grand, Gilpin, and Boulder, the Secretary shall provide technical assistance and otherwise cooperate with respect to repairing the Rollins Pass road in those counties sufficiently to allow two-wheel-drive vehicles to travel between Colorado State Highway 119 and U.S. Highway 40. If this road is repaired to such extent, the Secretary shall close the motorized roads and trails on Forest Service land indicated on the map entitled "Rollins Pass Road Reopening: Attendant Road and Trail Closures", dated September 2001.

SEC. 8. WILDERNESS POTENTIAL.

(a) **IN GENERAL.**—Nothing in this Act shall preclude or restrict the authority of the Secretary to evaluate the suitability of lands in the Protection Area for inclusion in the National Wilderness Preservation System or to make recommendations to Congress for such inclusion.

(b) **EVALUATION OF CERTAIN LANDS.**—In connection with the first revision of the land and resources management plan for the Arapaho/Roosevelt National Forest after the date of the enactment of this Act, the Secretary shall evaluate the suitability of the lands managed under the management prescription referred to in section 3(d)(1)(F) for inclusion in the National Wilderness Preservation System and make recommendations to Congress regarding such inclusion.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Colorado (Mr. McINNIS) and the gentleman from Colorado (Mr. UDALL) each will control 20 minutes.

The Chair recognizes the gentleman from Colorado (Mr. McINNIS).

Mr. McINNIS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 1576 introduced by the gentleman from Colorado (Mr. UDALL) establishes the James Peak Wilderness Area, adds to the existing Indian Peaks Wilderness Area, and designates a James Peak Protection Area, all within the Arapaho-Roosevelt National Forest located in the State of Colorado.

As the gentleman from Colorado (Mr. UDALL) knows, I have a particular interest in this piece of legislation. That is because the majority of land impacted by the proposal actually falls within the boundary of the Third Congressional District of the State of Colorado, my district. The area in question is truly spectacular. There is no denying that it deserves special protection. That is something that all sides have agreed on for some period of time.

Where there has not been agreement over the years is on the question of actually how and under what congressional designation the James Peak area should be managed.

While Gilpin, Clear Creek and Boulder Counties all fall in the district of the gentleman from Colorado (Mr. UDALL), I have long supported the wilderness designation for these lands within the borders of their counties; Grand County, in my district, has not. Grand County's opposition is the primary reason that this bill did not progress in either the 105th or the 106th Congress. Today, thanks to the good-faith efforts of a number of Members, we have been able to overcome the differences that have stalled this bill in the past and reached a consensus agreement that enjoys wide-spread local support.

The agreement was submitted in the form of an amendment I offered to the bill at full committee markup earlier this year. The compromise is a simple and straightforward one. For those communities that have expressed support for the wilderness designation, my amendment would establish exactly that, wilderness.

For those lands where a local consensus for wilderness has not emerged, the amendment would statutorily lock in the existing management framework as established in the local forest plan, a highly protective regime that will afford substantial protections for this landscape, while allowing certain recreational activities and important other access considerations to continue. This is the protection area.

Within the protection area, the bill includes language protecting access and maintenance rights for existing water facilities in the area, a critical element and an issue that was overlooked in the bill as it was originally introduced. It requires the Federal Government to acquire any new water rights in the protection area under the substantive and procedural requirements of Colorado water law. I repeat, under the substantive and procedural requirements under Colorado water law. It directs the Forest Service to sit down with mountain biking enthusiasts and environmentalists to decide which recreational trails should remain open, and which should be closed.

Finally, it leaves open an opportunity for the Forest Service and the affected local communities to reconsider wilderness designation for the lands in the protection area some time down the road.

Mr. Speaker, I note that the acreage numbers in the bill are estimates, and reaffirm the fact that the map accompanying this legislation is intended to be the controlling statement on the boundary issue. At a subcommittee meeting earlier this year, I promised the gentleman from Colorado (Mr. UDALL) and my friends in the environ-

mental community that if they would support my compromise proposal, I would do everything I could to see that this bill made its way through the House of Representatives before the end of year. With their support in hand, Mr. Speaker, today I fulfill that promise.

In closing, Mr. Speaker, I would like to offer special thanks to the gentleman from Colorado (Mr. UDALL); his staff; Dave Bull and Craig McGuire with the Forest Service; the Grand County commissioners, Duane Daily, James Newberry, and Bob Anderson; the Boulder, Clear Creek and Gilpin County commissioners, especially Web Sill; Steve Smith with the Colorado Sierra Club; Sara Duncan with the Denver Water Board; the Headwaters Trail Alliance; the International Mountain Biking Alliance; Lisa Daly with legislative counsel; and my staff and the Committee on Resources staff.

Mr. Speaker, I salute our former colleague, David Skaggs, who first introduced this measure during the 105th Congress and was very dedicated to the proposition. These people have all put forth a lot of effort and energy into this legislation today. They deserve real credit. I would also like to thank the majority leader and his staff for scheduling this vote.

Mr. Speaker, I urge Members to support H.R. 1576.

Mr. Speaker, I reserve the balance of my time.

Mr. UDALL of Colorado. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in strong support of this bill. I begin by thanking the chairman of the subcommittee, the gentleman from Colorado (Mr. McINNIS), as well as the chairman of the Committee on Resources, the gentleman from Utah (Mr. HANSEN), and the gentleman from West Virginia (Mr. RAHALL) for making it possible for the House to be considering it today. In particular, the hard work and leadership of the gentleman from Colorado (Mr. McINNIS) have been essential, and I appreciate all the gentleman has done in connection with this legislation which will provide additional protection for a key part of the high alpine environment along Colorado's Continental Divide.

Rising to 13,294 feet above sea level, James Peak is a dramatic feature of this part of the front range section of our State. It is a dominant feature in a 26,000-acre roadless area within the Arapaho-Roosevelt National Forest that straddles this part of the Continental Divide. The peak itself was named after Dr. Edwin James, a prominent botanist and journalist with the Stephen H. Long expedition to Colorado way back in 1820.

During that expedition, James became the first Anglo-American to climb a 14,000 foot peak in the continental United States, the one that is

now known as Pike's Peak near Colorado Springs. That name, of course, referred to Zebulon Pike, who had earlier seen and described but never climbed that peak.

In fact, historians say Long tried to change the name of Pike's Peak in honor of Dr. James' ascent, but by the time of the Long expedition, the name Pike's Peak was too well established. As an alternative, the more northerly peak, visible from many places in the Denver metro area, was named after Dr. James in the 1860s.

As my colleague has mentioned, the James Peak roadless area includes lands within four counties. Three of those counties, Boulder, Clear Creek and Gilpin, are on the east side of the divide, within Colorado's Second Congressional District. The other, Grand County, is on the western side in the Third Congressional District.

The area offers outstanding recreational opportunities for hiking, skiing, fishing and backpacking. It includes a dozen spectacular alpine lakes, including the Forest Lakes, Arapaho Lakes, and Heart Lake. It is one of the highest rated areas for biological diversity on the entire Arapaho National Forest. It includes unique habitat for wildlife, miles of riparian corridors, stands of old growth forests, and it is home to some threatened and endangered species.

Adding James Peak to the chain of protected lands from Berthoud Pass to the Wyoming boundary will promote movement of sensitive species such as wolverine, lynx, and pine marten, and improve the chances of these and similar species that only thrive in wilderness settings.

Currently, this is the largest wilderness area on the Northern Front Range that has no specific statutory protection. Under current law it is open to mining claims and other developments that can occur on general national forest lands. In my opinion, these roadless lands are eminently qualified for and deserve to be added to the National Wilderness Preservation System, and that is the view of many Coloradans as well.

My predecessor, David Skaggs, introduced a James Peak Wilderness bill, but action on it was not completed. Since my first election to Congress, I have been working to protect the wilderness qualities of the James Peak area. I introduced a bill in the 106th Congress that would have designated about 22,000 acres of the James Peak roadless areas as wilderness, including about 8,000 acres in Grand County.

The proposal was designed to renew discussions for the appropriate management of these lands that qualify for wilderness consideration, and that discussion certainly has taken place. In fact, the bill before us today has been shaped by nearly 2 years of discussions with county officials, interested groups

and the general public. The previous bill had broad support. However, after its introduction, the Grand County commissioners, which includes the western side of James Peak, expressed some concerns with the proposed wilderness designation for the land in that county. So I undertook to work with the Grand County commissioners and interested residents of that part of the State.

We held several discussions, including a public meeting in Grand County. After that, the Grand County commissioners put forth a suggestion for designation of a James Peak Protection Area that would include both the Grand County part of the roadless area and additional lands as well. That suggestion is a key part of the bill now before the House.

Mr. Speaker, the bill introduced earlier this year included wilderness designation of about 14,000 acres of the James Peak roadless area in Boulder, Clear Creek and Gilpin Counties. It also included a designation of about 18,000 acres in Grand County as the James Peak Protection Area, and would have added 2,000 acres in Grand County to the Indian Peaks Wilderness Area in accordance with the recommendation of the Forest Service. Within the protection area, there would have been an 8,000 acre wilderness study area. I included the wilderness study provision after the Grand County commissioners indicated that they would not oppose having the Forest Service again review the lands involved for possible wilderness designation.

□ 2115

They indicated that they were aware that the Forest Service had reviewed this area in the past and could have recommended it for wilderness but did not do so. The commissioners also indicated that if the Forest Service were to review the area again, they would respect that process.

I thought, and still think, that the bill as introduced was a sound, balanced measure that deserved their support and the support of the Congress. However, the bill before us today differs in several ways from the version I introduced earlier. Instead, as it comes to the House, the bill incorporates a number of changes developed through negotiations between the chairman of the subcommittee, the gentleman from Colorado (Mr. MCINNIS), and myself.

One of those changes is that the bill before us does not provide for an immediate wilderness study of any of the lands in the protection area. And there are other changes as well, including an increase in the additions to existing wilderness. In short, this bill is a compromise but it is a good compromise. It does not do everything I would have liked, but it probably does more than some others would have liked. That is what a compromise is all about.

In particular, as I have mentioned, it does not designate as much wilderness as I would have preferred on the western side of the James Peak area. But it also does not preclude the Forest Service from revisiting that issue in the future, and in fact it makes it clear that at least part of these lands on the west side will be reviewed for possible wilderness recommendations.

In any event, some of these lands on the west side, the ones designated in the bill as the James Peak protection area and specifically the "special interest area" lands within this designation, are to be managed by the Forest Service for their pristine and roadless qualities. Furthermore, the present forest plan restrictions for this area are to be locked in place with the additional restrictions prohibiting commercial logging, land exchanges, mining activities, and new recreational trail development.

This "protection area" designation has been designed especially for these lands. It should not be seen as something that necessarily can be applied elsewhere in Colorado or elsewhere as a substitute for wilderness designation where that designation is appropriate. But I think it is appropriate in the way it addresses the management of the lands involved.

On one related point, I want to compliment what my colleague, the gentleman from Colorado (Mr. MCINNIS), also said, it should be noted that it is the intention that the final map and boundary description will make clear that the existing water diversion and impoundment facilities owned by the Denver Water Board and other entities are not within the protection area because the boundary is set back so that these facilities, including an aqueduct, are excluded from the designation. I would also like to take this opportunity to acknowledge and thank all of the people who made this legislation possible. There are too many of them for me to mention them all, and I am deeply grateful for all their contributions; but let me highlight some who made particular contributions:

All of the county commissioners in the four counties, Boulder, Clear Creek, Gilpin and Grand, deserve thanks for their support and input. I want to especially thank Gilpin County Commissioner Web Sill. I would also recognize and applaud the passion and perseverance of the local conservationists who saw the value of these lands early on. These include Bill Ikler of Nederland, Colorado; Kirk Cunningham and Linda Batlin of Boulder, Colorado; Sue Howell of Idaho Springs, Colorado; and Matt Sugar of Winter Park, Colorado.

I also must thank Sierra Club regional representative Steve Smith. Steve was a member of the staff of my predecessor, Congressman David Skaggs, and has been involved in land

protection in Colorado for over 20 years. His understanding of the issues as well as his tenacity and diplomacy were indispensable to working out these compromises. Finally, I want to add a special note of appreciation for the work of Doug Young of my staff. His dedication, persistence and expertise were crucial in the process that has brought us to this point.

Mr. Speaker, the James Peak area is indeed special. With the continuing pressure of population growth along Colorado's Front Range, I am concerned that if we do not protect these lands now, we could lose a critical resource for future generations.

In closing, again I want to thank my colleague particularly, the gentleman from Colorado (Mr. MCINNIS), the chairman of the subcommittee, for his invaluable assistance and leadership and his friendship. I look forward to working with him in the future when we have the opportunity. I urge passage of this much-needed bill.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. MCINNIS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, there are a couple of points here I would like to make very clear. First of all, there are a couple of other thank-yous I want to make: Josh Penry on my staff, Melissa Simpson and a couple of others in the staff, Christopher and some others, put a lot of effort into this. I understand the gentleman's comment in regards to model. I think this should be a piece of model legislation or legislation on which to model future compromises, the reason being is that this bill required a lot of local effort.

The gentleman from Colorado (Mr. UDALL) was involved at the grassroots level in putting that compromise together. That is the exact kind of model for the future of Colorado that we should look forward to. As the gentleman from Colorado (Mr. UDALL) realizes, between the two of us and our staffs, we were able to go to Colorado and bring these various factions together. Wilderness will never receive further designation in Colorado in my opinion if it is going to be black and white, that clear. It can never be that clear a line. There has to be compromise, and there has to be local support. I think that was recognized by my colleague, the gentleman from Colorado (Mr. UDALL). But I want to make it clear on the record that this should be a model piece of legislation for future discussions in regards to wilderness.

I also want to point out that this bill was introduced in the 105th session and in the 106th session. It never received a hearing. It never got a vote. The reason that it is here on the floor today is because the gentleman from Colorado (Mr. UDALL) and the communities and

myself were able to come together. I would hope that as a result of what we saw, the compromise that came here tonight that brought this bill to the floor, we will also see the same kind of, I guess, courtesies, or reciprocation from the gentleman from Colorado (Mr. UDALL) in regards to the Deep Creek wilderness.

As he knows, these bills were close to being companion bills. The Deep Creek bill still has some work in regards to description and so on before we can get it to hearing, but I would hope that my colleague will also put forth his efforts and energies as I did with his bill; I hope he puts the same kind of energy and efforts to making my bill on the Deep Creek wilderness become a reality.

Mr. UDALL of Colorado. Mr. Speaker, will the gentleman yield?

Mr. MCINNIS. I yield to the gentleman from Colorado.

Mr. UDALL of Colorado. Mr. Speaker, I thank the gentleman for yielding. I wanted to make the statement that I look forward to working with him on the Deep Creek wilderness proposal. Also if I could, I might just point out, I think the process was a model, first and foremost. We brought people together on an ongoing basis. Nobody walked away from the table. We had differences of opinion and differences of approaches over, as he points out, almost a 3-year or arguably a longer period of time given that Congressman Skaggs introduced the bill back in the 105th Congress. But nobody walked away from the process. People were trusting of other people's motives even though there was perhaps a difference in approach and opinion.

I hope that we can bring that model not only to our State, Colorado, but around the West as we continue to have to deal with some of these thorny issues that surround the use of public lands. People operated in good faith. I thank the chairman again for his support and work, and I look forward to working with him in the future.

Mr. MCINNIS. I would point out to the gentleman from Colorado that, yes, people were at the table, but it required leadership to get something done at the table. They were willing to sit at the table, they were willing to sit politely and have a discussion; but it took your leadership, it took my leadership, it took the leadership of these county commissioners to come in with this kind of compromise. It also took some resistance on our part for people who at the last minute want to pull off the table or try and squash the deal by always moving the goal posts. I am afraid we are going to see that in Deep Creek. I would hope, as I said, that you would reciprocate with the same kind of leadership that I showed, I think, with your bill, that you would show with my bill. But I think you have done a tremendous job. I also want to

commend Mr. Sloss and his efforts. We both live close there.

Mr. UDALL of Colorado. If the gentleman will yield further, if I might, I was remiss in not acknowledging the tremendous staff work on the part of Stan Sloss who anybody who works with the Committee on Resources knows is an institution and is a great resource not just to Democrats but to Republicans as well and is a tremendous resource to all of us. I thank the gentleman for acknowledging Stan Sloss and the great work that he does.

Mr. MCINNIS. On a lighter moment, as the gentleman knows, Mr. Sloss' mother was my school teacher many years ago, so I walked the straight line as a result of the lessons I learned from that fine lady.

Mr. Speaker, I ask for favorable consideration of the bill.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. JOHNSON of Illinois). The question is on the motion offered by the gentleman from Colorado (Mr. MCINNIS) that the House suspend the rules and pass the bill, H.R. 1576, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

NATIVE AMERICAN CULTURAL CENTER AND MUSEUM AUTHORIZATION ACT

Mr. MCINNIS. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 2742) to authorize the construction of a Native American Cultural Center and Museum in Oklahoma City, Oklahoma.

The Clerk read as follows:

H.R. 2742

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. OKLAHOMA NATIVE AMERICAN CULTURAL CENTER AND MUSEUM.

(a) FINDINGS.—Congress makes the following findings:

(1) In order to promote better understanding between Indian and non-Indian citizens of the United States, and in light of the Federal Government's continuing trust responsibilities to Indian tribes, it is appropriate, desirable, and a proper function of the Federal Government to provide grants for the development of a museum designated to display the heritage and culture of Indian tribes.

(2) In recognition of the unique status and history of Indian tribes in the State of Oklahoma and the role of the Federal Government in such history, it is appropriate and proper for the museum referred to in paragraph (1) to be located in the State of Oklahoma.

(b) GRANT.—

(1) IN GENERAL.—The Secretary shall offer to award financial equaling not more than \$33,000,000 and technical assistance to the Authority to be used for the development

and construction of a Native American Cultural Center and Museum in Oklahoma City, Oklahoma.

(2) AGREEMENT.—To be eligible to receive a grant under paragraph (1), the appropriate official of the Authority shall—

(A) enter into a grant agreement with the Secretary which shall specify the duties of the Authority under this section, including provisions for continual maintenance of the Center by the Authority without the use of Federal funds; and

(B) demonstrate, to the satisfaction of the Secretary, that the Authority has raised, or has commitments from private persons or State or local government agencies for, an amount that is equal to not less than 66 percent of the cost to the Authority of the activities to be carried out under the grant.

(3) LIMITATION.—The amount of any grant awarded under paragraph (1) shall not exceed 33 percent of the cost of the activities to be funded under the grant.

(4) IN-KIND CONTRIBUTION.—When calculating the cost share of the Authority under this Act, the Secretary shall reduce such cost share obligation by the fair market value of the approximately 300 acres of land donated by Oklahoma City for the Center, if such land is used for the Center.

(c) DEFINITIONS.—For the purposes of this Act:

(1) AUTHORITY.—The term “Authority” means the Native American Cultural and Educational Authority of Oklahoma, and agency of the State of Oklahoma.

(2) CENTER.—The term “Center” means the Native American Cultural Center and Museum authorized pursuant to this section.

(3) SECRETARY.—The term “Secretary” means the Secretary of the Interior.

(d) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary to grant assistance under subsection (b)(1), \$8,250,000 for each of fiscal years 2003 through 2006.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Colorado (Mr. MCINNIS) and the gentleman from Oklahoma (Mr. CARSON) each will control 20 minutes.

The Chair recognizes the gentleman from Colorado (Mr. MCINNIS).

Mr. MCINNIS. Mr. Speaker, I yield myself such time as I may consume.

H.R. 2742 is legislation introduced by the gentleman from Oklahoma (Mr. CARSON) which directs the Secretary of the Interior to grant \$33 million in financial assistance grants and technical assistance to the Native American Cultural and Educational Authority for the development of the Native American Cultural Center and Museum in Oklahoma City, Oklahoma. The bill authorizes appropriations to the Secretary of the Interior for \$8.25 million for the fiscal years 2003 through 2006.

The committee held a hearing on October 17, 2001, and favorably reported it out of full committee by unanimous consent on November 28, 2001. The Oklahoma delegation, the 39 tribes recognized by the State of Oklahoma and the Oklahoma State legislature all support H.R. 2742.

Mr. Speaker, I respectfully request an affirmative vote on the passage of this important bill for the State of Oklahoma.

Mr. Speaker, I reserve the balance of my time.

Mr. CARSON of Oklahoma. Mr. Speaker, I yield myself such time as I may consume.

I would like to begin by expressing my sincere appreciation to Chairman HANSEN of the Committee on Resources, Ranking Member RAHALL and the entire Committee on Resources staff for their leadership and hard work in bringing H.R. 2742 to the floor of the House of Representatives. I would like to especially single out the gentleman from Colorado (Mr. MCINNIS) for his leadership on this issue as well as my indispensable aide, Jessica Werner, whose passion for this issue and whose expertise is greater than my own. I rise in support of H.R. 2742, a bill to authorize, as the gentleman from Colorado said, the construction of a Native American Cultural Center and Museum in Oklahoma City, Oklahoma. As an enrolled member of the Cherokee tribe and representing the most Native American district in the entire country, H.R. 2742 and the Native American Cultural Center and Museum planned for Oklahoma City, Oklahoma, carry great significance for me.

The area encompassed by the boundaries of the State of Oklahoma, often referred to as “Native America,” has had a special relationship with Indian nations since long before it became a State in 1907. Beginning in the 1820s, the five civilized tribes from the southeastern United States were relocated to Indian Territory over numerous routes, the most famous being the Cherokee Trail of Tears. Forced off their ancestral lands by State and Federal governments, the tribes suffered great hardships during the rigorous trips west. This forced march of eastern tribes to the West under the Indian Removal Act of 1830 is the best known movement of American Indians to what is now Oklahoma. Thirty-nine tribes are recognized by the State, including both tribes forced to Oklahoma and tribes native to the plains.

These tribes collectively and individually have played an invaluable role in the evolution of the State of Oklahoma. Indeed, the culture and history of Oklahoma are inseparable from that of the 39 tribes. Nevertheless, before the creation of the Native American Cultural and Educational Authority of Oklahoma, there has been little statewide effort to recognize the contributions and sacrifices made by the tribes, and no Federal effort in my State.

In 1994, the Oklahoma legislature created the Native American Cultural and Educational Authority to promote the history of Native Americans for the mutual benefit of the State of Oklahoma and its Indian and non-Indian citizens. By that legislation, the authority was authorized and empowered to construct and operate a cultural center and museum on a chosen site in

Oklahoma. Since 1994, various entities, including the authority, the State legislature, the Office of the Governor, Native American groups, and a stellar design team have worked together and developed an impressive and extensive plan for the creation of the Native American Cultural Center and Museum in Oklahoma City, which three cities in Oklahoma initially bid for.

□ 2130

The approximately 300-acre site donated by Oklahoma City where the center will be located will have a Great Promontory, a Court of Nations, a Court of the Wind, a Hall of the People, Permanent and Temporary Galleries, a “Who We Are” Theater, a Multi-Purpose Theater, a Demonstration Gallery, Family Center, Study Center, Discovery Center, a Lodge, Hotel and Conference Center, a Visitor Center and Dancing Grounds.

As an affiliate of the Smithsonian Institution, the museum will be able to rotate exhibits with the Native American Smithsonian Institute being built not far from where I stand here in Washington, enriching both of the museum’s collections.

Some of the main goals tied to the creation of the Native American Cultural Center and Museum are, first, to link the past, present and future of Indian Nations and present them to the visitor in a way that he or she can experience and understand fully; second, to preserve and promote the living cultures of Native Americans, in language and history, dance, arts, cultural values and spirituality; and, third, to strive for economic self-sufficiency and to engender the principles of environmental sustainability.

This massive endeavor, representing and promoting all 39 tribes in Oklahoma, is truly awe-inspiring and worthy of Federal financial and technical support. The design team includes Ralph Appelbaum, whose achievements include the United States Holocaust Museum, and Bill Fain, who helped design the TransAmerica Building in San Francisco. The world class team has enjoyed the strong support of Governor Frank Keating of Oklahoma, as well as Senator NICKLES and Senator INHOFE, and Senator CAMPBELL of Colorado, as well as the Oklahoma State Legislature, and the gentleman from Oklahoma (Mr. WATKINS), the gentleman from Oklahoma (Mr. WATTS), the gentleman from Oklahoma (Mr. LARGENT) and the gentleman from Oklahoma (Mr. ISTOOK), to name just a few.

H.R. 2742, as the gentleman from Colorado (Mr. MCINNIS) noted, would authorize the appropriation of \$33 million over a period of four fiscal years beginning in 2003. However, appropriation of Federal dollars is contingent upon private, city and State sources, accounting for 66 percent of the total cost. Thus, the center is neither wholly dependent upon Federal funds nor given

access to Federal funds until a local commitment has been adequately demonstrated.

Nevertheless, Federal funds are necessary and reasonable. Given the Federal Government's significant role, indeed determining role, in relocating many of the 39 tribes now a part of Oklahoma, it seems more than appropriate for the Federal Government to award grants to the Native American Cultural and Educational Authority for the development of this museum, committed to preserving the history and culture of these tribes.

Furthermore, a precedent has been set for the Federal funding of State museums. To name a few examples, from 1986 to 1994, the Steamtown Railroad Museum in Pennsylvania was appropriated more than \$80 million in Federal funds. From 1996 to 1997, the Hispanic Cultural Center in New Mexico was appropriated \$16 million. Under the Omnibus Indian Advancement Act of the 106th Congress, appropriations amounting to over \$18 million were authorized for the Wakpa Sica Reconciliation Place in Fort Pierre, South Dakota.

The construction of this museum and, hence, this legislation, is not only necessary for the preservation of Indian cultures, but carries deep significance in the State of Oklahoma and, I believe, to the Nation too. Felix Cohen, in his landmark treatise on Indian law, remarked that, "like the miner's canary, the Indian marks the shift from fresh air to poison gas in our political atmosphere; and our treatment of Indians, even more than our treatment of other minorities, reflects the rise and fall in our democratic faith."

With this bill, in a State formed by the cruelties of our Nation's Indian policy, we build finally a monument to all which has endured. We now celebrate what was once despised, and we now preserve what our Nation for too long tried to eradicate.

Mr. Speaker, I reserve the balance of my time.

Mr. MCINNIS. Mr. Speaker, I yield such time as he may consume to the gentleman from Oklahoma (Mr. ISTOOK).

Mr. ISTOOK. Mr. Speaker, I thank the gentleman for yielding me time. I want to especially express my appreciation to my colleague, the gentleman from Oklahoma (Mr. CARSON) for offering H.R. 2742. I certainly rise in support of it.

As the gentleman from Oklahoma (Mr. CARSON) mentioned, he is an enrolled member of the Cherokee Tribe. In fact, there are some 67 tribes that originally inhabited what became known as Indian Territory, and now is known as the State of Oklahoma.

Through a chapter in our Nation's history, of which we cannot be proud, we had the Trail of Tears with the movement of Indian Tribes across the

country, from eastern parts of the Nation, from Florida and Alabama and other states in the Southeast in particular, moved by the U.S. Government to Oklahoma.

Now we need to recognize what they built there, what they established under adverse conditions, in a good land but not the land that was originally theirs, but the land that became theirs. It is fitting and proper that the Federal Government participate in establishing this center about the education, the culture and the history of the Tribes that were moved across the country to become the homeland of now the State of Oklahoma.

Mr. Speaker, this legislation, which is supported by the Tribes to preserve their heritage in the lands which became theirs, is a partnership piece of legislation. It states that the money to be provided by the Federal Government will be matched two-to-one by funds being provided by State and local and private sources.

Indeed, the State legislature has already appropriated \$6.5 million. There has been a grant of land from the City of Oklahoma City of some 300 acres, in the prime location where Interstates 40 and 35 come together next to downtown Oklahoma City on the banks of the North Canadian River. In that prime location will be erected the proud monument and preservation of the history and culture of the Indian Tribes that inhabited so much of the country and came to rest in the State of Oklahoma.

Private donations are being solicited. We are not asking for the Federal Government to assume the cost of operating this. We are not asking the Federal Government to even bear the lion's share of the funding for this. We are saying that State, local and private sources will provide two-thirds of the funding, and the Federal Government is only being asked to provide one-third. That is more than fair, Mr. Speaker, and it is just that we provide this funding, that we authorize it today, and appropriate it over this 4-year period, as the bill calls to be done.

I want to express my appreciation for the partnership of the many people and several Indian Tribes involved in this, the civic leaders in the city of Oklahoma City, the State legislators. I want to single out one member of the State legislature in particular, State Senator Enoch Kelly Haney, a Native American who was responsible for much of the vision regarding this center. In fact, he is also an artist. He is a sculpture. He is donating his work of the statue of a Native American to be the new statue atop the new dome being put on the Oklahoma State Capitol.

I also want to express appreciation to Governor Bill Anaotubby of the Chickasaw Nation, Principle Chief Perry Beaver of the Muscogee Creek Nation,

Former Chief Joe Byrd of the Cherokee Nation, Former Chief Elmer Manatowa of the Sac & Fox Nation, and Dr. Bud Sahmaunt of the Kiowa Tribe. They have all served on the Board of Directors of the Native American Cultural and Educational Authority and have been involved in the planning for this museum.

I again want to express my special appreciation to my colleague, the gentleman from Oklahoma (Mr. CARSON), for sponsoring this legislation, knowing that it is not just a matter of things that are important to the people in his district, but also that are important to the people throughout the State of Oklahoma and to the preservation of Native American history and culture for people throughout the United States of America as well.

AMENDMENT OFFERED BY MR. MCINNIS

Mr. MCINNIS. Mr. Speaker, I ask unanimous consent on page 2, line 21 of the bill, that the word "assistance" be inserted after the word "financial."

The SPEAKER pro tempore (Mr. JOHNSON of Illinois). Is there objection to the request of the gentleman from Colorado?

There was no objection.

Mr. MCINNIS. Mr. Speaker, I yield such time as he may consume to my good friend, the gentleman from Oklahoma (Mr. WATKINS).

Mr. WATKINS of Oklahoma. Mr. Speaker, I thank the gentleman for yielding me time.

Mr. Speaker, first I would like to express my thanks to the gentleman from the Second Congressional District of Oklahoma (Mr. CARSON), for his tremendous work in this area of Native Americans and also on this particular bill. He has done a great job putting this bill together, bringing it to light and moving it forward to where we are tonight.

I am delighted to be a cosponsor with the gentleman and with other Oklahomans. It is so fitting that this museum honoring the Native Americans be in Oklahoma City. To a lot of people, they may not realize that the word "Oklahoma" means "red man," and that in Oklahoma we have more Native Americans per capita than any other State in the Nation. We have one of the largest populations, of course.

I am delighted to say that, even in my own family, that I have a child that is part Cherokee. I also have grandchildren that are part Cherokee and part Creek, two of them are part Creek, so in our family we have a lot of discussions from time to time about the various cultural activities and other things that we feel like need to be done for the socioeconomic conditions of Native Americans.

Mr. Speaker, I myself have grown up with and among the Choctaw Indians. I am always delighted to say I was the only non-Native American on the baseball team when I was growing up, and

also the only non-Native American on the basketball team in my little hometown of Bennington, Oklahoma, which was one of the early-time headquarters of Native Americans and one of the largest populations of Native Americans of Choctaw background.

In my immediate family, I spent probably more time with the Native American families, spending nights there and spending many days working in their culture and understanding the culture of the Native Americans in my district.

But we have longed for the time, I think, where we should hold up and honor the Native Americans for their tremendous sacrifice, for their tremendous contributions, not only to our State of Oklahoma, but to this Nation and to really our freedoms that we enjoy today. Probably there is no one any more American that feels the patriotism of being American than our Native American brothers and sisters.

So, for this particular legislation to come forth concerning this Native American museum, to hold this up, I want to commend my good friend, the gentleman from Oklahoma (Mr. CARSON) for his efforts. I am sincere about that, what the gentleman is doing along these lines.

So without anything else, I would like to say I appreciate the time of the chairman. I know, Mr. Chairman, in Colorado you have a lot of Native Americans in your fine State also.

I rise today in support of H.R. 2742. This legislation will authorize a grant for the development and construction of a Native American Cultural Center and Museum in Oklahoma City, Oklahoma. I thank the gentleman from Oklahoma, Brad Carson, for his work on behalf of Native Americans and also for offering this legislation that I am proud to co-sponsor.

Oklahoma has one of the largest American Indian populations of any state. Currently, Oklahoma is home to 39 recognized Indian Tribes. We are very proud in Oklahoma of our Native American heritage. In fact, Oklahoma means "red man." I know from my personal experience Native Americans in my area of Oklahoma make a major contribution to the state.

In 1994, the Oklahoma Legislature created the Native American Cultural and Educational Authority (NACEA) "to promote the history and culture of Native Americans for the mutual benefit of the state of Oklahoma and its American Indian and non-Indian citizens." That legislation authorized the NACEA to construct and operate a Cultural Center and Museum on a chosen site in Oklahoma City. I know the Center will promote the proud history and culture of Oklahoma Native Americans.

I want to again thank my colleague for his tremendous work and role in bringing this legislation to the floor and urge passage of this important bill.

Mr. MCINNIS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I might add, Native Americans are well protected by the gentleman from Oklahoma (Mr. WAT-

KINS) in Oklahoma as well. He watches out for all of them.

Mr. Speaker, I ask for favorable consideration of the bill.

Mr. LARGENT. Mr. Speaker, I rise today encouraged by the congressional support for the Native American Cultural Center and Museum to be built in Oklahoma City. Oklahoma, which boasts the highest Native American population in this country, has long needed a starting point from which to guide interested persons through our rich history. I believe that travelers passing through Oklahoma's crossroads will now encounter a facility so reflective of our State heritage, that their curiosity will be piqued. It is my hope that education and healing will occur as the pains and triumphs of our people are experienced on the grounds of this meeting place.

The Center's central location will not only benefit the heart of our people, but will also spur on the Oklahoma economy by providing new opportunities for Native American entrepreneurs and other local businesses. Furthermore, travelers will have a great place to begin their study of the intriguing native people who have ancestral roots throughout our nation. I believe in this way, visitors will experience the true Native America.

It is always wise to build upon existing strengths. It is obvious that Oklahoma's strength lies in the incredible people who have shaped its history. I look forward to the new strengths to be revealed through the creation of this native American center.

Mr. KILDEE. Mr. Speaker, as Co-Chair of the Congressional Native American Caucus, I rise in strong support of H.R. 2742, a bill that authorizes the Secretary of Interior to award financial assistance grants and technical assistance grants to the Native American cultural and educational authority for the construction of a Native American cultural center and museum in Oklahoma City, Oklahoma.

The bill authorizes a Federal appropriation of \$33 million over a period of four fiscal years beginning in 2003. The Federal appropriation, however, is contingent upon private, city and State sources accounting for 66 percent of the total cost of the project.

Mr. Speaker, support for a Native American Cultural Center and Museum in a state that has one of the largest Native American population of any state is long overdue. This bill has the bipartisan support of the Congressional Native American Caucus, the Oklahoma Congressional Delegation and the State's elected officials too.

Mr. Speaker, I ask my colleagues to support this bill.

Mr. RAHALL. Mr. Speaker, I want to congratulate our colleague, BRAD CARSON of Oklahoma, for all his hard work and sponsorship of H.R. 2741.

Promised as the original Indian Territory, the State of Oklahoma has clearly been enriched through its Indian heritage from the Trail of Tears which moved eastern Indian tribes into the state, through the settlements of the Oklahoma Sooners, to the 39 tribes living within its border today.

It is truly a story worth telling and I look forward to one day visiting the Native American Cultural Center and Museum we are authorizing today.

Mr. CARSON of Oklahoma. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. MCINNIS. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Colorado (Mr. MCINNIS) that the House suspend the rules and pass the bill, H.R. 2742, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. MCINNIS. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days in which to revise and extend their remarks on the 3 bills just considered, H.R. 38, H.R. 1576 and H.R. 2742.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Colorado?

There was no objection.

BASIC PILOT EXTENSION ACT OF 2001

Mr. SENSENBRENNER. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3030) to extend the "Basic Pilot" employment verification system, and for other purposes, as amended.

The Clerk read as follows:

H.R. 3030

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Basic Pilot Extension Act of 2001".

SEC. 2. EXTENSION OF PROGRAMS.

Section 401(b) of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (8 U.S.C. 1324a note) is amended by striking "4-year period" and inserting "6-year period".

SEC. 3. EFFECTIVE DATE.

The amendment made by this Act shall take effect on the date of the enactment of this Act.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Wisconsin (Mr. SENSENBRENNER) and the gentlewoman from Texas (Ms. JACKSON-LEE) each will control 20 minutes.

The Chair recognizes the gentleman from Wisconsin (Mr. SENSENBRENNER).

GENERAL LEAVE

Mr. SENSENBRENNER. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous material on H.R. 3030.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Wisconsin?

There was no objection.

Mr. SENSENBRENNER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the Immigration Reform and Control Act of 1986 made it unlawful for employers to knowingly hire or employ aliens not eligible to work and required employers to check the identity and work eligibility documents of all new employees. Under this Act, if the documents provided by an employee reasonably appear on their face to be genuine, the employer has met its document review obligations.

The easy availability of counterfeit documents has made a mockery of the Immigration Reform and Control Act.

□ 2145

Fake documents are produced by the millions and can be obtained cheaply.

Congress responded to this dilemma in the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 by instituting employment eligibility confirmation pilot programs for volunteer employers that were to last for 4 years.

Under the basic pilot, the Social Security numbers and alien identification numbers of new hires are checked against Social Security Administration and Immigration and Naturalization Service records in order to weed out documents containing counterfeit numbers and real numbers used by multiple individuals. Operation of the pilot program commenced in November of 1997 and expires this month.

The 1996 Act required that the INS provide a report to Congress on the operation of the pilot programs within 3 months after the end of the third and fourth year in which the programs are in effect. The reports were to, one, assess the benefits of the pilot programs to employers and the degree to which they assist in the enforcement of the rules regarding the employment of aliens; and, two, to include recommendations on whether or not the pilot program should be continued or modified.

The INS has not complied. That is no surprise. The agency provided Congress with no report after the third year of operation of the basic pilot program, despite being mandated to do so by law, and there is no assurance that one will be provided within the time limits specified by law after the fourth year of operation. The INS' failure to obey the law and to provide the reports as required by law is unfortunately a frequent failing of this agency. It can only be hoped that once the immigration functions of the Justice Department are restructured and the INS is abolished will such negligence and/or malfeasance be a thing of the past.

In any event, Congress must now decide upon the reauthorization of the

basic pilot program in the absence of the agency reports, required by law, on the program. We have received word from industry implementing the basic pilot program that it has been a great success and that industry representatives favor a 2-year extension of the program.

The committee has received no adverse comment regarding the basic pilot program. In light of the continuing relevance of the original goals of the basic pilot program, and the evidence of its successful operation, we all should support a 2-year extension. H.R. 3030, introduced by our colleague, the gentleman from Iowa (Mr. LATHAM), provides that extension.

I can only hope that when we are again called upon to consider the merits of this pilot program we will have in hand an evaluation of the program's operation from the Justice Department. The INS is supposed to enforce the law. The Justice Department is the agency in the executive branch to ensure that the law is being enforced; and unfortunately, the law is not being complied with, and the reports we asked for in 1996 by law have not been submitted by the Immigration and Naturalization Service.

I urge my colleagues to support H.R. 3030; and let me say that I hope at the end of 2 years the immigration service will read laws passed by Congress and signed by the President so that once again the Congress is not put in this embarrassing situation of legislating without required reports.

Mr. Speaker, I reserve the balance of my time.

Ms. JACKSON-LEE of Texas. Mr. Speaker, I yield myself such time as I may consume.

I rise with great enthusiasm on supporting the extension with respect to H.R. 3030, a bill to extend the basic pilot employment verification system. I would imagine if we were to take a survey of all of the legal immigrants in the United States, we would find a minuscule proportion engaged in any illegal and/or terroristic activities. However, since September 11, a new page has been turned as relates to immigration laws and those who are immigrants.

Congress created the program that we speak of tonight as part of the Illegal Immigration Reform and Immigration Responsibility Act of 1996 to help employers comply with laws that bar them from knowingly hiring ineligible workers. I would venture to say that most Americans would agree that it is important to assure that as employers are hiring, that they have the necessary information to hire those who are here in the United States legally.

At the same time, I believe that under the leadership of our new Commissioner Ziglar that we will also begin to be able to confront issues of terrorism and those who would pro-

mote it, would come into this country illegally, and separate that from the necessity of improving our immigration laws overall and addressing those individuals that want to access immigration legally with dignity.

I am supporting this legislation, but I hope as well this House and the other body will be able to move forward to address a number of issues that have been put on the table. As a co-chair of the Democratic Task Force on Immigration, I hope we will be able to look at the issue of family reunification, earned access to legalization, increase our review of border safety and protection, look at the enhanced temporary worker program; and yes, I think it is important to end unfair discrimination against legal immigrants.

As my colleagues know, in this instance, this particular pilot bill, the Congress is exploring new ways and methods and techniques to assure the security and integrity of the way in which we admit and track aliens who apply for nonimmigrant visas. We do live in dangerous times, as I have already noted.

This bill is extending a pilot program that will improve and ensure integrity in the employment verification process. I believe that this is a process that no one disagrees with. Those who want to access legalization, those who want to support family reunification, and certainly those legal immigrants who are seeking employment, they have their documentation and they have no problem with the employers verifying that documentation.

This bill introduced by the gentleman from Iowa (Mr. LATHAM) extends the basic pilot employment verification point under expedited procedures. The basic employment verification system is a program that many companies use to ensure that new companies are legal. This program is a voluntary electronic employment verification system which allows employers to verify I-9 documents. Companies with facilities in any of the pilot States may use the verification program throughout all of their facilities, including States outside the program. That is a very important aspect of this particular legislation.

Approximately 2,000 employers are presently using the basic pilot program, which creates a very valid data processing system that allows accuracy in access to determine if the individual that they want to hire, the person that is presenting themselves as a legal immigrant, has the documentation and does have the required legal documentation.

In title IV of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996, Congress authorized the Immigration and Naturalization Service to conduct voluntary pilot programs that allow these participating

employers to access by computer certain governmental databases for purposes of new employment verification. This program allows employers signing a memorandum of understanding with the INS to query an INS Social Security Administration database regarding the work authorization status of a new employment applicant instead of simply recording and retaining the number of documents that such applicants choose to submit.

The basic pilot program provides greater ease of verification for employers and employees and greater deterrence of the use of fraudulent INS and SSA documents. We need a system like this system-wide in the INS in order to be able to address the differentiation between those who want to access legalization rightly and those who want to be in this country illegally.

Industries, such as meat packing and food processing, have stated an interest in cooperating with the INS to maximize its ability to assure its interests in cooperating with the INS in order to make sure that their workforce is authorized. Many believe that while the program does not provide 100 percent deterrence of persons seeking unauthorized employment, it is far superior to the current practice of recording I-9 forms, the number of documents physically presented by new employees.

This gives something for the employers to rely upon. This puts the onus and responsibility on the INS to have a database on which they can rely. This moves immigration into the 21st century.

I support this legislation because it is needed, because section 401(b) of the 1996 Act states that the Attorney General shall terminate the pilot program at the end of the 4-year period beginning on the first day the pilot program is in effect. H.R. 3030 extends the life of the program by 2 years, from 4 years to 6 years, giving us, as the chairman indicated, additional data so that we can again respond to those who wish to access legalization and as well maintain legal documentation and be in this country as we would want them to be in a country that believes in the diversity as well as the responsibility of those who seek access to legalization in treating them fairly.

This pilot program enhances the current I-9 form employment verification process by providing employers with greater assurances that they are not hiring unauthorized aliens and by establishing larger obstacles to aliens seeking to work illegally, but thereby rewarding those who seek to access the right documentation and to follow the laws of this Nation.

Again, I hope that we will support this legislation. We are a country of immigrants and a country of laws.

Mr. Speaker. I am gratified to be here today to vote on a bill that will improve the employ-

ment verification process. As you know, the Congress is exploring new ways, methods, and techniques to ensure the security and integrity of the way in which we admit and track aliens who apply for non-immigrant visas. We do live in dangerous times. This bill is extending a pilot program that would improve and ensure integrity in the employment verification process.

This bill, introduced by Congressman TOM LATHAM, extends the Basic Pilot employment verification program under expedited procedures. The Basic employment verification system is a program that many companies use to ensure that new companies are legal. This program is a voluntary electronic employment verification system, which allow employers to verify I-9 documents. Companies with facilities in any of the "pilot" states may use the verification program throughout all of their facilities, including states outside the program. Approximately 2,000 employers are presently using the Basic Pilot Program.

In Title IV of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996, Congress authorized the Immigration and Naturalization Service to conduct voluntary pilot programs that allow these participating employers to access by computer certain governmental databases for purposes of new employment verification. This program allows employers signing a memorandum of understanding (MOU) with the INS to query an INS-Social Security Administration (SSA) data base regarding the work-authorization status of new employment applicants, instead of simply recording and retaining the numbers of documents that such applicants chose to submit. The Basic Pilot Program provides greater ease of verification for employers and employees and greater deterrence of the use of fraudulent INS and SSA documents.

Industries such as meat packing and food processing have stated an interest in cooperating with the INS to maximize its ability to ensure its interest in cooperating with the INS to maximize its ability to ensure its workforce is authorized. Many believe that while the program does not provide 100 percent deterrence of persons seeking unauthorized employment, it is far superior to the current practice of recording in I-9 forms the numbers of documents physically presented by new employees.

I support this legislation because it is needed because Section 401(b) of the 1996 Act states that "the . . . Attorney General shall terminate a pilot program at the end of the 4-year period beginning on the first day the pilot program is in effect." H.R. 3030 extends the life of the program by two years, from four years to six years. This pilot program enhances the current I-9 form employment verification process by providing employers with greater assurances that they are not hiring unauthorized aliens and by establishing larger obstacles to aliens seeking to work illegally. I support this legislation.

Mr. Speaker, I reserve the balance of my time.

Mr. SENSENBRENNER. Mr. Speaker, I have no further speakers, and I am prepared to yield back if the gentlewoman from Texas (Ms. JACKSON-LEE) does the same.

Ms. JACKSON-LEE of Texas. Mr. Speaker, I yield myself such time as I may consume.

Let me just conclude by simply adding that I hope as we pass this legislation we will be able to as well bring to finalization 245(I) that helps with family unification; that we will realize that immigration issues are separated from those who would promote and do harm to the United States versus those who are hungry to be in a country that provides opportunity and democracy.

I would hope that we would look to the issues of earned access to legalization as we look to border safety and protection, work of the enhanced temporary worker program and continue to work against unfair discrimination against legal immigrants as we look to put this country on sure footing, fighting the terrible terrorists, but as well recognizing the value of immigrants who have come to this country and contributed with hard work and sincere commitment to our values and our principles.

I ask that my colleagues support H.R. 3030.

Mr. LATHAM. Mr. Speaker, today I rise to commend the judiciary committee on a job well done and ask for the expedient passage of H.R. 3030, a bill to extend the basic pilot employment verification program. This bill will reauthorize the recently expired program for an additional two years at minimal cost to the government.

H.R. 3030 will further the aims of this body by encouraging greater cooperation between industry and the federal government—something I believe my colleagues on both sides of the aisle can support.

This program, originally the brain-child of my good friend Representative KEN CALVERT, allows eligible employers to use a joint Immigration and Naturalization Service (INS)—Social Security Administration (SSA) database to verify that prospective employees are employable under existing law. Furthermore, it has the desirable effect of providing greater ease of verification for employers and greater deterrence to those who would fraudulently use legal documents.

Currently used by approximately 1,758 companies in the states of California, Florida, Illinois, Nebraska, New York, and Texas, as well as facilities owned by these companies in states not explicitly covered, this program has been beneficial to industries ranging from meat packing to direct mail.

As we continue to debate INS reform, I believe it is incumbent upon us that we reauthorize programs that have been successful and recognize these programs as the model for such future efforts.

Mr. CALVERT. Mr. Speaker, I stand today in strong support of this important legislation. In 1994, during my first term in Congress I introduced a bill to create a system now known as the Basic Pilot Program. Representing a district very close to the U.S./Mexico border, I heard from many INS agents dissatisfied with the tools they were given to track illegal immigrants and from employers who wanted a way to verify the employment eligibility of prospective employees. As we discussed the means

to develop such a system, one idea that kept cropping up was a simple 1-800 telephone number that businesses could use to verify the Social Security numbers of people they had hired.

In 1996, I was successful in getting the Basic Pilot Program included in the Immigration Reform Act and I am pleased that companies across the country are now using the toll free verification line. I applaud my friend from Iowa for moving to extend the program. Now, more than ever, it is clear that we need to provide tools that will help the INS track people in this country illegally.

Even while this program continues, we will be working together to ensure that the INS meets the requirements of the 1996 law. I have asked INS to complete their report on the Basic Pilot Program and will work with the Service, the gentleman from Iowa and the Chairman of the Committee on ways to improve and expand the program to all fifty states.

Again, I would like to thank the gentleman from Iowa for introducing this key legislation and would urge all my colleagues to vote for its passage.

Ms. JACKSON-LEE of Texas. Mr. Speaker, I yield back the balance of my time.

Mr. SENSENBRENNER. Mr. Speaker, I also yield back the balance of my time.

The SPEAKER pro tempore (Mr. JOHNSON of Illinois). The question is on the motion offered by the gentleman from Wisconsin (Mr. SENSENBRENNER) that the House suspend the rules and pass the bill, H.R. 3030, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

The title of the bill was amended so as to read: "A bill to extend the basic pilot program for employment eligibility verification, and for other purposes."

A motion to reconsider was laid on the table.

ANTI-HOAX TERRORISM ACT OF 2001

Mr. SENSENBRENNER. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3209) to amend title 18, United States Code, with respect to false communications about certain criminal violations, and for other purposes, as amended.

The Clerk read as follows:

H.R. 3209

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Anti-Hoax Terrorism Act of 2001".

SEC. 2. HOAXES AND RECOVERY COSTS.

(a) **PROHIBITION ON HOAXES.**—Chapter 47 of title 18, United States Code, is amended by inserting after section 1036 the following:

"§ 1037. False information and hoaxes

"(a) **CRIMINAL VIOLATION.**—Whoever engages in any conduct, with intent to convey false or

misleading information, under circumstances where such information may reasonably be believed and where such information concerns an activity which would constitute a violation of section 175, 229, 831, or 2332a, shall be fined under this title or imprisoned not more than 5 years, or both.

"(b) **CIVIL ACTION.**—Whoever engages in any conduct, with intent to convey false or misleading information, under circumstances where such information concerns an activity which would constitute a violation of section 175, 229, 831, or 2332a, is liable in a civil action to any party incurring expenses incident to any emergency or investigative response to that conduct, for those expenses.

"(c) **REIMBURSEMENT.**—The court, in imposing a sentence on a defendant who has been convicted of an offense under subsection (a), shall order the defendant to reimburse any party incurring expenses incident to any emergency or investigative response to that conduct, for those expenses. A person ordered to make reimbursement under this subsection shall be jointly and severally liable for such expenses with each other person, if any, who is ordered to make reimbursement under this subsection for the same expenses. An order of reimbursement under this subsection shall, for the purposes of enforcement, be treated as a civil judgment."

(b) **CLERICAL AMENDMENT.**—The table of sections at the beginning of chapter 47 of title 18, United States Code, is amended by adding after the item for section 1036 the following:

"1037. False information and hoaxes."

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Wisconsin (Mr. SENSENBRENNER) and the gentleman from California (Mr. SCHIFF) each will control 20 minutes.

The Chair recognizes the gentleman from Wisconsin (Mr. SENSENBRENNER).

GENERAL LEAVE

Mr. SENSENBRENNER. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous material on H.R. 3209, the bill presently under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Wisconsin?

There was no objection.

□ 2200

Mr. SENSENBRENNER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 3209 would impose civil and criminal penalties to deter and punish a person or persons for perpetrating a hoax that others could reasonably believe is or may be a biological, chemical, nuclear attack, or an attack using some other type of weapon of mass destruction.

Mr. Speaker, today is a very important day to this Nation in many respects. It has been 3 months since New York and the Pentagon were turned into Ground Zero and our national innocence was shattered. Since that time, anthrax and the U.S. mail have become synonymous; monthly Federal warnings about new terrorist attacks have become expected; and a heightened level of alertness on the part of

the American people has become necessary.

In the wake of September 11, 2001, and the anthrax attacks, the news media has graphically described the likely devastation caused by chemical, biological, or nuclear attacks on our citizens and on our country. America is in a state of high alert, and this has brought both apprehension and new responsibility.

Due to these concerns, Americans are responsibly reporting suspicious behavior and events to the authorities. This is necessary to protect our country and our freedoms. Unfortunately, while our emergency responders and law enforcement are stretched to the limits responding to real threats, they have had to respond to an increased number of hoaxes. These hoaxes are not meant to be funny; rather, they are meant to terrorize and to frighten.

These hoaxes distract Federal, State, and local law enforcement, criminal investigators, and emergency responders from real crises and real threats. As a result, they place both the public and our national security at risk.

Amazingly, the criminal code does not always cover such crimes. While under current law it is a felony to commit a hoax with regard to tampered food products, it is not necessarily a felony to commit a hoax that scares the public into believing that they have been exposed to a deadly disease such as anthrax, a disease that has been militarized and used to kill innocent Americans since September 11.

H.R. 3209, the Anti-hoax Terrorism Act of 2001, closes the existing gap. This is important and necessary legislation, as it will make it a felony to perpetrate a hoax related to biological, chemical, nuclear, and weapons of mass destruction attacks. The person or persons committing such a hoax will be subject to civil and criminal penalties and responsible for reimbursement of any emergency or investigative expense due to the hoax.

The Department of Justice and the FBI have testified before the Subcommittee on Crime and made it clear that these types of hoaxes threaten the health and safety of the American public and our national security.

Mr. Speaker, I urge my colleagues to support this bill, and I reserve the balance of my time.

Mr. SCHIFF. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I want to thank the gentleman from Wisconsin (Chairman SENSENBRENNER) for his leadership on this issue, and I would also like to extend my appreciation to the chairman of the Subcommittee on Crime, the gentleman from Texas (Mr. SMITH), for introducing this bill and for all of his leadership on this issue.

I am proud to serve as a member of the Subcommittee on Crime where the bill was first heard, and also to be a cosponsor of H.R. 3209.

Mr. Speaker, our communities are struggling every day to meet the demands of our citizens and prepare for all kinds of potential terrorist attacks. They are working around the clock to develop and strengthen protocols to respond swiftly and safely in the event of an attack.

But our communities are doing all of this with very limited resources. Every time a threat is identified, authorities spring into action, donning protective gear, bolstering hospital staffing, coordinating local, State, and Federal efforts, and calling upon additional law enforcement personnel to respond.

These reports from our citizens are critical. We certainly want to encourage people to continue to be vigilant and report suspicious activity. A false alarm, however, is a false alarm. But every time a suspected threat turns out to be a hoax, it costs the taxpayers an enormous amount.

In Los Angeles, a man who phoned in an anthrax threat because he wanted to avoid appearing in bankruptcy court that day, his call succeeded in shutting down the court and the courthouse, and cost taxpayers \$600,000.

In addition to closing down the very functioning of government, it is a tremendous waste of our precious resources. The resources that could be going into prevention and training are wasted. The manpower that is required to respond to a hoax is wasted. The funding that could be used to hire additional emergency personnel is wasted.

While millions of dollars are going into the effort to combat terrorism, we frankly do not have a dollar to waste. We simply cannot allow reports that come from hoaxes to clog up the investigation of other potentially life-threatening dangers. Our citizens need to be acutely aware that hoaxes have consequences. It shakes our sense of safety; the fear that many citizens are struggling to cope with continues to grow as a result of hoaxes; there are financial consequences; and there are community consequences. There ought to be criminal consequences.

The Anti-Hoax Terrorism Act of 2001, H.R. 3209, would create criminal and civil penalties for falsely reporting a chemical, biological, or nuclear threat. This would include threats that are in written or verbal form, as well as those communicated through physical actions. It is legislation that should not be necessary, but, regrettably, is certainly needed now. Those who would prey on the fears of the American public should be punished.

As America works to regain its footing and return to as much of a normal life as possible, hoaxes only serve as a cruel joke on the American public. Those who would commit the ultimate prank on this Nation must be aware that they are, in effect, serving as accomplices to terrorism. They are interrupting murder investigations, and they are obstructing justice.

According to the FBI, there are an estimated 7,000 agents spread out across the country investigating possible sources and suspects in the anthrax attacks. Can we really afford to have even one of those agents pulled off the killer's trail because of a hoax?

Mr. Speaker, we cannot allow these hoaxes to go unchallenged. We do not have a minute to waste, we do not have a dollar to waste, we do not have an investigator to waste, we do not have a citizen to waste. The time for anti-hoax legislation is now. I urge the House to adopt the strongest possible measure.

Again, I want to thank the gentleman from Wisconsin (Chairman SENBRENNER) and the gentleman from Texas (Chairman SMITH) for bringing this bill to the floor today.

Mr. Speaker, I yield 3 minutes to the gentleman from Texas (Ms. JACKSON-LEE).

Ms. JACKSON-LEE of Texas. Mr. Speaker, this is a good bill. I rise to support this legislation.

I met with my emergency first responders a few days after September 11 and then sometime after the beginning of the anthrax scares around the Nation. The hazardous materials team in my Houston Fire Department in just a couple of days had some 75 calls of individuals who thought they saw or thought they were reporting the sight of anthrax.

Those are innocent calls, but they do take up a lot of the resources of our first responders and our community resources. Those individuals, however, should not be prosecuted.

My concern with this legislation is to ensure that that does not happen. I am hoping that the legislative history and the debate in the committee will make it clear that our intent in this legislation is to ensure that those with criminal intent, to do harm by calling in hoaxes and frightening communities, should be punished. I agree with that.

I offered an amendment, however, to be sure that that was the case; that the hoax would be perpetrated with malicious intent. That amendment was not approved, but I believe there was sufficient discussion in the committee to suggest that those that we are attempting to prosecute are those with criminal intent.

For example, we would hope that the incident of a local prosecutor in Chicago who recently placed an envelope containing sugar on a colleague's desk, who was administratively punished by being forced to resign from his job, would not be subject to this particular legislation. The prank demonstrates poor taste and bad judgment, but he should not be subject to Federal prosecution.

Likewise, our youth should not be subject to Federal prosecution if they are engaged in a prank, of course, that we would not approve of, but certainly that did not have the criminal intent.

I think it is important, Mr. Speaker, that as we move through these very trying times, that we can be aware that we can balance legislative intent with protecting Americans. I hope that this House will have an opportunity to address some of the executive orders that deal with the violation of the sixth amendment that allows the Justice Department to listen in on those who are addressing or having a relationship with their attorney.

At the same time, I hope we will be able to address the question of the thousands of detainees who are being detained by the Justice Department, and I hope we will also have an ability to address in this House military tribunals. We can protect Americans, provide legislation that makes sense, and at the same time, uphold our Constitution, our Bill of Rights, and our values.

I support the Anti-Hoax Terrorism Act of 2001. It is a well-thought-out bill. It has had hearings in the Committee on the Judiciary. I think we need to do more as it relates to other offerings of legal representations that have not had the oversight of the United States Congress.

Mr. Speaker, I rise in support of H.R. 3209, the Anti-Hoax Terrorism Act of 2001. I feel this bill could have been more narrowly tailored as it went through the Subcommittee on Crime, and subsequently the full Committee on the Judiciary. However, in light of the exponentially increasing amounts of bioterrorism threats that have occurred since September 11, I strongly favor a Federal anti-hoax provision now more than ever.

H.R. 3209 creates a Federal criminal penalty and a civil cause of action for anyone who conveys intentionally any false information about a threat involving biological, chemical, or nuclear weapons or weapons of mass destruction.

Mr. Speaker, the purpose of this bill should not be to prosecute innocent mistakes or someone making a report concerning a suspected substance, but rather to deliberate and malicious hoaxes reported by individuals who know they are disseminating false information.

In Committee, I offered an amendment that would require the government to prove that the hoax was perpetrated with "malicious" intent. This requirement would have been analogous with the mens rea requirement of similar legislation introduced in the Senate by Senator LEAHY, Chairman of the Senate Committee on the Judiciary.

H.R. 3209, as written, does not require that the offenses be committed with malicious intent. This could result in Federal prosecutions of individuals who simply disseminate erroneous information about potential acts of terrorism.

Also subject to Federal prosecution under this bill would be incidents that amount to nothing more than mere jokes. A local prosecutor in Chicago recently placed an envelope containing sugar on a colleague's desk. He was administratively punished by being forced to resign from his job. While I believe this prank demonstrates poor taste and bad judgment, this should not be subject to Federal prosecution.

The language in my amendment would have given prosecutors a means to distinguish between a person who is actually threatening to use anthrax on a victim on one hand, and a person who never intends to use it, but truly wants the victim or police to think they have done so. The latter is what we are trying to prevent.

My colleagues on the other side have said we should simply "trust" and "have hope" that Federal prosecutors will exercise their discretion and avoid prosecuting hoax cases. I don't believe we should rely on a "hope" for good judgment and discretion when this bill could have been more narrowly tailored to avoid capriciousness.

Nevertheless, Mr. Speaker, especially in this time of national crisis, I support the effort to punish people who perpetrate hoaxes involving biological, chemical, or nuclear materials or other weapons of mass destruction. We must act immediately to provide law enforcement with the tools it needs to address this problem.

Mr. SMITH of Texas. Mr. Speaker, as Chairman of the Subcommittee on Crime, I support H.R. 3209, the "Anti-Hoax Terrorism Act of 2001," a bipartisan bill I introduced along with Chairman SENSENBRENNER and ranking Members Mr. CONYERS and SCOTT.

Tragically, some have used the shadow of fear cast by the September 11th and the subsequent anthrax attacks to terrorize others with hoaxes of biological and chemical attacks.

The purpose of H.R. 3209 is to address this serious and growing problem. Under current law, it is a felony to perpetrate a hoax such as falsely saying there is a bomb on an airplane. It is also a felony to communicate a threat over interstate commerce threatening personal injury to another.

However, if the hoax pertains to a biological or chemical weapons attack instead of a bomb or does not contain a specific threat, then the law may not apply. This is clearly a gap in existing law that must be closed.

If someone places white powder on a computer with a note that "this is anthrax" or send white powder through the mail, such conduct may cause panic but not violate Federal law. And no federal law is violated when the government spends time, money, and effort responding to such hoaxes. But public safety is threatened when resources are diverted from investigating legitimate threats.

This legislation makes it a felony to perpetrate a hoax related to biological, chemical, and nuclear attacks. If a hoax causes a hospital to be evacuated, people could die; if a hoax causes a business to close, people could lose their jobs; and if a hoax preoccupies law enforcement officials, the public is denied protection from other crimes.

A hoax of terrorism threatens public safety and national security, overburdens law enforcement officials and emergency workers and chips away at the Nation's morale.

As we are reminded today, the three-month anniversary of the attacks against the World Trade Center and the Pentagon, America is engaged in a war on terrorism. Those who rely on fear as a weapon, should be held responsible for their actions.

H.R. 3209 imposes criminal and civil penalties that reflect the serious nature of these hoax crimes.

I urge my colleagues to support H.R. 3209.

Mr. BRADY of Texas. Mr. Speaker, I would like to express my strong support for H.R. 3209, "The Anti-Hoax Terrorism Act of 2001." I am a co-sponsor of this important and necessary legislation which was introduced by my good friend and fellow Texan, LAMAR SMITH and is a step in the right direction. Making it a felony to perpetrate a hoax related to a biological, chemical or nuclear attack and making those who engage in this conduct liable for the expenses caused as a result of their fraudulent action brings these criminals to justice and makes them responsible for their terrible actions. It is important that our nation address this issue so that those misguided individuals who choose to perform such fraudulent acts are prosecuted to the fullest extent of the law and those that consider performing these same acts are deterred from doing so.

I know from first hand experience how costly these fake anthrax hoaxes can be. On October 15th, The Memorial Hermann Hospital, in my hometown of The Woodlands, Texas, was closed for several hours after a false anthrax scare. Sandee Sherf, a resident of Magnolia, Texas and a constituent of the 8th Congressional District, received a strange package at her place of business. When she opened the package, a white substance flew up in her face and she was exposed. She immediately went to the emergency room at Memorial Hermann, where the emergency room subsequently shut down for about five hours as a precautionary measure.

Fortunately, the tests for the substance suspected of being anthrax proved to be negative but the cost of responding to this false incident has proved to be costly financially and in other ways. The Federal Bureau of Investigation and the Shenandoah Police Department both expended valuable man hours investigating this incident. The Woodlands Fire Department had to decontaminate the entire area where the incident occurred and the emergency room where Ms. Sherf went for treatment. Most disturbing was the fact that Memorial Hermann Hospital had to withhold its valuable services from the community for several hours while decontaminating its facilities. Patients in need of medical treatment with real illness were turned away and had to go seek treatment many miles away just so the emergency responders could properly decontaminate the facilities to ensure the public's safety. What a tragedy it would have been if someone with a real emergency had perished because Memorial Hermann had been closed and couldn't offer its help.

Regrettably, the same thing that happened in The Woodlands is happening in other areas of our country. The FBI reported that between October 1st to October 15th, their agency had received more than 2,300 reports of incidents or suspected incidents involving anthrax. We cannot afford in these trying times to have the valuable resources of our police agencies being wasted in dealing with these hoaxes. These false claims have become a serious headache for law enforcement officials, who are overwhelmed with calls from worried Americans concerned about possible anthrax contamination.

It is for these reasons that I co-sponsored this valuable legislation and fully support its

passage here in the House of Representatives. We, as Americans, cannot afford to continue to waste valuable time and resources fighting these hoaxes when they can be used for better purposes such as making sure our communities across our nation are safe from true terrorist attacks in the future.

Mr. SCHIFF. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. SENSENBRENNER. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. TERRY). The question is on the motion offered by the gentleman from Wisconsin (Mr. SENSENBRENNER) that the House suspend the rules and pass the bill, H.R. 3209, as amended.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds of those present have voted in the affirmative.

Mr. SENSENBRENNER. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

CORRECTIONS CALENDAR

The SPEAKER pro tempore. This is the day for the call of the Corrections Calendar.

The Clerk will call the bill on the Corrections Calendar.

COMMUNITY RECOGNITION ACT OF 2001

The Clerk called the bill (H.R. 1022) to amend title 4, United States Code, to make sure the rules of etiquette for flying the flag of the United States do not preclude the flying of flags at half mast when ordered by city and local officials.

The Clerk read the bill, as follows:

H.R. 1022

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Community Recognition Act of 2001".

SEC. 2. FLAG CODE AMENDMENT.

Section 7(m) of title 4, United States Code, is amended by inserting after the sentence beginning "In the event of the death of a present or former official of the government of any State" the following: "In the event of the death of a present or former official of any city or locality, the chief elected official of that locality may proclaim that the National flag shall be flown at half staff."

The SPEAKER pro tempore. Pursuant to the rule, the bill is considered read for amendment.

COMMITTEE AMENDMENT

The SPEAKER pro tempore. The Clerk will report the amendment recommended by the Committee on the Judiciary.

The Clerk read as follows:

Committee Amendment:
Page 2 line 9 insert "other."

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Wisconsin (Mr. SENSENBRENNER) and the gentlewoman from Texas (Ms. JACKSON-LEE) will each control 30 minutes.

The Chair recognizes the gentleman from Wisconsin (Mr. SENSENBRENNER).

GENERAL LEAVE

Mr. SENSENBRENNER. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and to include extraneous material on H.R. 1022, the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Wisconsin?

There was no objection.

Mr. SENSENBRENNER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 1022, which amends the flag code to make sure that the rules of etiquette for flying the flag of the United States do not preclude the flying of flags at half mast when ordered by city and local officials. This is an omission in the current flag code.

On June 28, 2001, the Corrections Day Advisory Group met and recommended that H.R. 1022 be placed upon the Corrections Calendar and the Judiciary Committee passed it by voice vote on November 15.

Unfortunately, as of late, we have had increased occasion to visit the rules and etiquette in place for the honoring of public servants. Although at the time which Mr. DOOLITTLE of California introduced H.R. 1022 the calamity of September 11 was far off, the content of this legislation rings more loudly after the events of that day, and affords Congress an opportunity to visit the laws involving recognition of those who provide public service to us all.

Currently, under the Flag Code, authority is granted only to the President of the United States or the Governor of any State, territory, or possession to order that the national flag be flown at half staff in recognition of the death of a current or former official of the government, including public safety officers.

Under this existing law, in the event of the death of a local official who is chosen to be honored by having the national flag lowered, direct permission must be sought by local officials from either the President or their Governor. The result of the current practice is a chain of communication which is not always timely and can result in the missed opportunity to honor some of these deceased public servants.

By passing H.R. 1022 today, we can solve this problem by granting authority directly to the locally elected leaders to call for and approve such recognition. Immediate authorization will be granted at the local level, ensuring that no local hero passes without the community support and recognition which he or she deserves. I urge all Members to support H.R. 1022.

Mr. Speaker, I reserve the balance of my time.

Ms. JACKSON-LEE of Texas. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of this legislation, H.R. 1022, and I am delighted that the Committee on the Judiciary has taken this legislation up to ensure a correction.

I do not believe particularly that we need this legislation, but I do think it is important to correct and to resolve the concerns of some local leaders who are under the mistaken impression that they cannot now fly the flag of the United States at half-staff to honor the passing of a local official.

In fact, as the Supreme Court has ruled on several occasions, Congress does not have the power to prohibit any expression using the flag. The Court has gone so far as to strike down laws prohibiting the burning of the flag as a sign of disrespect. Certainly, if that is the case, then a local government may honor a local official, which is certainly an appropriate and uplifting use of the flag, who has served his or her community by flying the flag at half-staff. We hope they will do so.

Nonetheless, title IV of the United States Code does provide rules for flag etiquette. While those rules have no force of law, they do provide a guide for those seeking to display the flag in accordance with the accepted rules of conduct.

In fact, I commend those rules to my colleagues. I think some may be surprised to learn that using the flag on advertising and others matters common to political campaigns are also technically prohibited by Federal law. Although local officials are not now prohibited from using the flag to honor a deceased local official, it will certainly do no harm to make clear that there is no reason why my colleagues should not support it. I would commend that to the local officials.

I hope that since we have obviously found time to pass laws permitting that which should already be permitted, perhaps we will also in the future be able to tackle some of our vital issues dealing with, of course, INS reform and other issues that I think are extremely important.

Mr. Speaker, I rise in support of this legislation, not because there is any great need for it, but because it will resolve the concerns of some local leaders who are under the mistaken impression that they cannot now fly the flag of the United States at half staff to honor the passing of a local official.

In fact, as the Supreme Court has ruled on several occasions, Congress does not have the power to prohibit any expression using the flag. The Court has gone so far as to strike down laws prohibiting the burning of the flag as a sign of disrespect. Certainly, if that is the case, then a local government may honor a local official who has served his or her community by flying the flag at half staff.

Nonetheless, title 4 of the United States Code does provide rules for flag etiquette. While these rules have no force of law, they do provide a guide for those seeking to display the flag in accordance to accepted rules of conduct. In fact, I commend those rules to my colleagues. I think that some of you may be surprised to learn that using the flag on advertising and in other manners common to political campaigns are also technically prohibited by federal law. Although local officials are not now prohibited from using the flag to honor a deceased local official it will certainly do no harm to make that clear, and there is no reason why my colleagues should not support it.

I hope that, since we have obviously found time to pass a law permitting that which is already permitted, perhaps we can next tackle some of the even more pressing issues affecting our constituents and their communities: providing health insurance for working families, extending unemployment insurance for the victims of this current recession, and creating new jobs at living wages so that working families can have the dignity of work without seeing their children grow up in poverty as is too often the case these days.

I am pleased to join in voting for this measure.

Mr. Speaker, Chairman SENSENBRENNER and Ranking Member CONYERS.

I rise in support of H.R. 1022, which simply authorizes the chief elected official of a locality, in the event of the death of a present or former official of that locality, to proclaim that the national flag shall be flown at half staff. This bill amends Title 4, United States Code, ensuring that the important rules of etiquette for flying the flag of the United States do not preclude the flying of flags at half mast when ordered by city and local officials.

This Section currently gives such explicit authority only to the President or, for certain purposes, the Governor of the state. This language is unnecessary and technically confusing because the subsection also reads in part that the flag may be flown at half staff "in accordance with recognized customs or practices not inconsistent with law."

The U.S. Supreme Court has, on two occasions, held that display of the flag, or the burning of the flag, are forms of expression protected by the First Amendment to the Constitution. As such, laws that mandate appropriate flag etiquette are unenforceable.

This bill simply clarifies that there should be no such interference in such instances.

I urge my colleagues to support it.

Mr. CAMP. Mr. Speaker, I rise today in strong support of H.R. 1022, the Community Recognition Act of 2001.

As chairman of the Speaker's advisory group on corrections, it was my pleasure to work with Congressman DOOLITTLE, the members of the corrections day advisory group and the Judiciary Committee to expedite consideration of this legislation.

On June 28th, Mr. DOOLITTLE brought H.R. 1022 before the Speaker's advisory group, where it received unanimous support. In order for a bill to be placed on the Corrections Calendar it must be recommended by the advisory group and favorably reported from the committee of jurisdiction.

I am proud that we are able to highlight the Community Recognition Act today by using

the Corrections Calendar. This is truly a technical correction and is fitting for consideration on the Corrections Calendar.

H.R. 1022 amends the U.S. Code, regarding rules of etiquette for flying the flag. Current law only grants the authority to order that the flag be flown at half mast to the President and State Governors. In the event of the death of a current or former local official, many communities want the flag to be lowered as a way to pay tribute to those who so honorably served. However, it can often prove difficult to obtain proper authority in the timely manner needed.

This oversight in the U.S. Code has prevented communities across America from the right to honor their fellow citizens without having to receive the express and time consuming permission of either the President or their Governor. I urge my colleagues to join with me today to correct this burdensome requirement.

The Corrections Calendar was created to fix small technical corrections, such as this. I would like to thank Chairman SENSENBRENNER for moving this bill through the committee and Congressman DOOLITTLE for introducing the legislation and for utilizing the Corrections Calendar.

Mr. Speaker, this is a straightforward, bipartisan bill that "corrects" an inefficient and burdensome law. I urge my colleagues to support the bill.

Mr. DOOLITTLE. Mr. Speaker, I rise today because the last duty performed to honor a local hero should not be thwarted by a technical flaw in the law. Let me explain. The Federal Flag Code provides guidelines for the display of the U.S. flag, but grants only the president and governors the authority to fly the flag at half-mast. While this code does not expressly outlaw local government officials from lowering the flag to half-staff, it does not expressly permit it. This technicality has upset local officials across the country who believe that communities should have the right to honor their fellow citizens without permission from their respective governors or the President of the United States.

This quirk in the Federal Flag Code came to my attention when my friend and constituent, former Mayor George Magnuson of Rocklin, California sought to honor his friend and fellow volunteer firefighter, Cliff Graves, who died in the line of duty. Shortly after speaking to Mayor Magnuson I realized that this needless hurdle had to be corrected. That prompted me to introduce H.R. 1022, The "Community Recognition Act." This simple, yet important, legislation authorizes the chief elected official of a locality, in the event of a death of a present or former official of that locality, to proclaim that the national flag be flown at half staff.

Mr. Speaker, at the time I introduced H.R. 1022, the tragedy of September 11th was unfathomable. But, in light of the thousands of men and women who perished in those barbaric attacks now more than ever this simple correction needs to be made so they can be mourned in an appropriate fashion without undue delay.

I thank the Chairman of the House Judiciary Committee, Mr. SENSENBRENNER, for shepherding H.R. 1022 through his committee in an expeditious manner, and I urge my colleagues to support this legislation.

Ms. JACKSON-LEE of Texas. Mr. Speaker, I ask my colleagues to support H.R. 1022, and I yield back the balance of my time.

□ 2215

Mr. SENSENBRENNER. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. TERRY). Pursuant the rule, the previous question is ordered on the amendment recommended by the Committee on the Judiciary and on the bill.

The question is on the committee amendment.

The committee amendment was agreed to.

The SPEAKER pro tempore. The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed and read a third time, and was read the third time.

The SPEAKER pro tempore. The question is on passage of the bill.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, three-fifths of those present have voted in the affirmative.

Ms. JACKSON-LEE of Texas. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

SMALL BUSINESS INVESTMENT COMPANY AMENDMENTS ACT OF 2001

Mr. MANZULLO. Mr. Speaker, I move to suspend the rules and concur in the Senate amendment to the House amendment to S. 1196, to amend the Small Business Investment Act of 1958, and for other purposes.

The Clerk read as follows:

Senate Amendment to House Amendment: Page 13 of the House engrossed amendment, strike out all after line 8 over to and including line 2 on page 16 and insert:

SEC. 6. REDUCTION OF FEES.

(a) TWO-YEAR REDUCTION OF SECTION 7(a) FEES.—

(1) GUARANTEE FEES.—Section 7(a)(18) of the Small Business Act (15 U.S.C. 636(a)(18)) is amended by adding at the end the following:

"(C) TWO-YEAR REDUCTION IN FEES.—With respect to loans approved during the 2-year period beginning on October 1, 2002, the guarantee fee under subparagraph (A) shall be as follows:

"(i) A guarantee fee equal to 1 percent of the deferred participation share of a total loan amount that is not more than \$150,000.

"(ii) A guarantee fee equal to 2.5 percent of the deferred participation share of a total loan amount that is more than \$150,000, but not more than \$700,000.

"(iii) A guarantee fee equal to 3.5 percent of the deferred participation share of a total loan amount that is more than \$700,000."

(2) ANNUAL FEES.—Section 7(a)(23)(A) of the Small Business Act (15 U.S.C. 636(a)(23)(A)) is amended by adding at the end the following: "With respect to loans approved during the 2-year period beginning on October 1, 2002, the annual fee assessed and collected under the preceding sentence shall be in an amount equal to 0.25 percent of the outstanding balance of the deferred participation share of the loan."

(b) REDUCTION OF SECTION 504 FEES.—Section 503 of the Small Business Investment Act of 1958 (15 U.S.C. 697) is amended—

(1) in subsection (b)(7)(A)—

(A) by redesignating clauses (i) and (ii) as subclauses (I) and (II), respectively, and moving the margins 2 ems to the right;

(B) by striking "not exceed the lesser" and inserting "not exceed—

"(i) the lesser"; and

(C) by adding at the end the following:

"(ii) 50 percent of the amount established under clause (i) in the case of a loan made during the 2-year period beginning on October 1, 2002, for the life of the loan; and"; and

(2) by adding at the end the following:

"(i) TWO-YEAR WAIVER OF FEES.—The Administration may not assess or collect any up front guarantee fee with respect to loans made under this title during the 2-year period beginning on October 1, 2002."

(c) BUDGETARY TREATMENT OF LOANS AND FINANCINGS.—Assistance made available under any loan made or approved by the Small Business Administration under section 7(a) of the Small Business Act (15 U.S.C. 636(a)) or financings made under title V of the Small Business Investment Act of 1958 (15 U.S.C. 695 et seq.), during the 2-year period beginning on October 1, 2002, shall be treated as separate programs of the Small Business Administration for purposes of the Federal Credit Reform Act of 1990 only.

(d) USE OF FUNDS.—The amendments made by this section to section 503 of the Small Business Investment Act of 1958, shall be effective only to the extent that funds are made available under appropriations Acts, which funds shall be utilized by the Administrator to offset the cost (as such term is defined in section 502 of the Federal Credit Reform Act of 1990) of such amendments.

(e) EFFECTIVE DATE.—The amendments made by this section shall become effective on October 1, 2002.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Illinois (Mr. MANZULLO) and the gentleman from New York (Ms. VELÁZQUEZ) each will control 20 minutes.

The Chair recognizes the gentleman from Illinois (Mr. MANZULLO).

GENERAL LEAVE

Mr. MANZULLO. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous matters on this legislation.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Illinois?

There was no objection.

Mr. MANZULLO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the purpose of this bill is to keep venture capital flowing to small businesses during this critical time to our Nation's economic recovery. The main purpose of S. 1196 is to adjust the fees charged to participate in security SBICs from 1 percent to 1.38

percent. This change is necessary because there is no funding for the participating securities SBICs program.

The other provision of S. 1196 modestly lowers the fees in the other main access to capital programs of the SBA, the 7(a) General Business Loan Program and the 504 Certified Development Company CDC program.

Last month the SBA administrator sent me a letter in support of this and revitalized the 7(a) and 504 programs. Mr. Speaker, the text of that letter is as follows:

U.S. SMALL BUSINESS ADMINISTRATION,
Washington, DC, November 27, 2001.

The Hon. DONALD MANZULLO,
Chairman, Committee on Small Business, House
of Representatives, Washington, DC.

DEAR MR. CHAIRMAN: The purpose of this letter is to express the U.S. Small Business Administration's (SBA) views on S. 1196, the Small Business Investment Company (SBIC) Amendments Act of 2001.

SBA applauds the Congress on passing the President's proposed legislation that enables the SBIC Participating Securities Program to flourish and expand without additional discretionary appropriations. SBA also applauds the Congress for including the technical amendments that were included in the President's proposal to further enhance the program.

SBA agrees with the concept that we must revitalize the 7(a) and 504 programs. Over the past several years the number of loans to women, Hispanic, African American, and veteran small business owners has either decreased or remained relatively flat. Furthermore, these groups receive a low percentage of the loans, with women receiving 21 percent, Hispanics 8 percent, African Americans 4 percent, and veterans 11 percent. More than 60 percent of the loans made to women, Hispanics and African Americans, the fastest growing small business population, are less than \$150,000. In addition, most businesses are started with less than \$150,000. Yet the legislation fails to specifically target fee reduction in 7(a) loans of \$150,000 or less.

SBA feels very strongly that because of limited resources, and the statistics set forth above, that fee reductions should be targeted to those small businesses seeking loans under \$150,000.

The Office of Management and Budget advises that there is no objection from the standpoint of the President's program to the submission of these views for the consideration of Congress.

SBA welcomes the opportunity to work with Congress to revitalize the 7(a) and 504 programs for the benefit of small businesses.

Sincerely,

HECTOR V. BARRETO,
Administrator.

Mr. Barreto suggested that any fee reduction should be weighted to smaller loan borrowers and I agree. That is why I concur with the Senate's action that makes a few changes to House Amendment 7(a) Program.

I rise in support of S. 1196 and concur with the Senate to House amendment and I urge my colleagues to support these needed changes to these SBA programs.

Mr. Speaker, I reserve the balance of my time.

Ms. VELÁZQUEZ. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in strong support of S. 1196, the Small Business Technical Correction Act of 2001. This legislation will make much needed improvement here to the Small Business Investment Company Program, the Small Business Administration's General Loan Program, and the Certified Development Company Program to ensure that they are able to meet the new challenges facing this Nation's small businesses.

Mr. Speaker, recent reports reflect that the economy is heading into a recession and small businesses now more than ever need access to capital at an affordable rate. Surveys of senior loan officers have reported tightening of credit. No one sector of the economy is hurt more by this restriction than small business. Today, through changes to the SBIC program, we will expand the programs size and volume to include an entirely new array of opportunities for small business to receive equity investment.

The SBIC program has invested nearly \$15 billion in more than 90,000 small businesses. And more importantly, \$600 million in businesses in low and moderate income areas throughout the Nation. Thanks to the SBIC program, such successes like Intel, FedEx, America Online and Staples launched themselves into the universe of Fortune 500 companies.

While this does raise the fees on the SBIC program, it also puts the program on a footing where no Federal subsidies are going to be required. This has created some concern that these changes will put equity investment out of reach for many small business. To offset this we have included a reduction in the fee of the SBA general loan program. This will bring some equity into a program that has according to Congressional Budget Office estimates overcharged both lenders and small businesses by at least a billion dollars.

Today with the passage of S. 1196 we will make the SBA 7(a) loan program more accessible and affordable to small businesses by drastically reducing the cost of the program. These changes will immediately free up millions of dollars for more lending spurring much needed economic revitalization. I strongly encourage my colleagues to support this legislation.

Mr. Speaker, I yield such time as he may consume to the gentleman from Illinois (Mr. DAVIS).

Mr. DAVIS of Illinois. Mr. Speaker, I thank the gentlewoman for yielding me time.

Mr. Speaker, I rise in support of S. 1196, the Small Business Investment Company Amendments Act. This legislation achieves a number of objectives for small businesses in their goal of obtaining ready sources of growth capital. This program is a true investment partner for entrepreneurs providing critical equity capital to new and existing companies.

Indeed, SBICs have invested nearly \$15 billion in long term debt and equity capital to more than 90,000 small businesses. At the same time, they have provided growth and startup capital totalling more than \$600 million to businesses in low and moderate income areas throughout the Nation.

After 10 years of solid economic growth, America has entered an economic downturn. For the first time in a decade, the economic indicators benchmark showing where we are and where we are going have gone down. Job losses in technology and manufacturing have risen dramatically and corporate bankruptcies were nearly double what they were last year. Consumer confidence hit its lowest point in over a decade. Even though the U.S. stock market saw a significant gain in the last 10 years, however, the bottom has virtually fallen out as a result of the events of September 11.

Now every industry has taken a huge hit as profits and employment figures head into a free fall. Part of the solution for this problem is for Congress and the President to implement a sound and fair fiscal policy that will provide an economic stimulus for the general public and small businesses. Since small businesses account for 99 percent of America's employers, it can play a vital role in bringing America out of this economic downturn.

To help American small businesses survive this economic downturn, the small business administration must engage all available resources in facilitating entrepreneurship development, provide low and no interest loans and more technical assistance programs to small businesses. S. 1196 is one approach that can assist the small business administration, and I urge all of my colleagues to support S. 1196.

Ms. VELÁZQUEZ. Mr. Speaker, I yield myself such time as I may consume. Mr. Speaker, this has been a long process and I want to thank my staff, particularly Mr. Michael Day, and Mr. Manzullo's staff for their tremendous effort in getting this bill done.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. MANZULLO. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Illinois (Mr. MANZULLO) that the House suspend the rules and concur in the Senate amendment to the House amendment to S. 1196.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the Senate amendment to the House amendment was concurred in.

A motion to reconsider was laid on the table.

**PUBLIC HEALTH SECURITY AND
BIOTERRORISM RESPONSE ACT
OF 2001**

Mr. TAUZIN. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3448) to improve the ability of the United States to prevent, prepare for, and respond to bioterrorism and other public health emergencies.

The Clerk read as follows:

H.R. 3448

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION. 1. SHORT TITLE; TABLE OF CONTENTS.

(a) **SHORT TITLE.**—This Act may be cited as the “Public Health Security and Bioterrorism Response Act of 2001”.

(b) **TABLE OF CONTENTS.**—The table of contents of the Act is as follows:

Sec. 1. Short title; table of contents.

**TITLE I—NATIONAL PREPAREDNESS
FOR BIOTERRORISM AND OTHER PUBLIC
HEALTH EMERGENCIES**

**Subtitle A—National Preparedness and
Response Planning, Coordinating, and
Reporting**

- Sec. 101. National preparedness and response.
- Sec. 102. Assistant Secretary for Emergency Preparedness; National Disaster Medical System.
- Sec. 103. Improving ability of Centers for Disease Control and Prevention with respect to bioterrorism and other public health emergencies; facilities.
- Sec. 104. Advisory committees and communications.
- Sec. 105. Education of health care personnel; training regarding pediatric issues.
- Sec. 106. Grants regarding shortages of certain health professionals.
- Sec. 107. Emergency system for verification of credentials of health professions volunteers.
- Sec. 108. Enhancing preparedness activities for bioterrorism and other public health emergencies.
- Sec. 109. Improving State and local core public health capacities.
- Sec. 110. Antimicrobial resistance program.
- Sec. 111. Study regarding communications abilities of public health agencies.
- Sec. 112. Supplies and services in lieu of award funds.
- Sec. 113. Additional amendments.
- Sec. 114. Study regarding local emergency response methods.

**Subtitle B—National Stockpile;
Development of Priority Countermeasures**

- Sec. 121. National stockpile.
- Sec. 122. Accelerated approval of priority countermeasures.
- Sec. 123. Use of animal trials in approval of certain drugs and biologics; issuance of rule.
- Sec. 124. Security for countermeasure development and production.
- Sec. 125. Accelerated countermeasure research and development.
- Sec. 126. Evaluation of new and emerging technologies regarding bioterrorist attack and other public health emergencies.
- Sec. 127. Potassium iodide.

**Subtitle C—Emergency Authorities;
Additional Provisions**

- Sec. 131. Expanded authority of Secretary of Health and Human Services to respond to public health emergencies.
- Sec. 132. Streamlining and clarifying communicable disease quarantine provisions.
- Sec. 133. Emergency waiver of Medicare, Medicaid, and SCHIP requirements.
- Sec. 134. Provision for expiration of public health emergencies.
- Sec. 135. Designated State public emergency announcement plan.
- Sec. 136. Expanded research by Secretary of Energy.
- Sec. 137. Agency for Toxic Substances and Disease Registry.
- Sec. 138. Expanded research on worker health and safety.
- Sec. 139. Technology opportunities program support.

Subtitle D—Authorization of Appropriations

Sec. 151. Authorization of Appropriations.

**TITLE II—ENHANCING CONTROLS ON
DANGEROUS BIOLOGICAL AGENTS AND
TOXINS**

Sec. 201. Regulation of certain biological agents and toxins.

**TITLE III—AMENDMENTS TO FEDERAL
FOOD, DRUG, AND COSMETIC ACT**

Subtitle A—Protection of Food Supply

- Sec. 301. Protection against intentional adulteration of food.
- Sec. 302. Administrative detention.
- Sec. 303. Permissive debarment regarding food importation.
- Sec. 304. Maintenance and inspection of records for foods.
- Sec. 305. Registration.
- Sec. 306. Prior notice of imported food shipments.
- Sec. 307. Authority to mark articles refused admission into United States.
- Sec. 308. Prohibition against port shopping for importation.
- Sec. 309. Notices to States regarding imported food.
- Sec. 310. Grants to States for inspections; response to notice regarding adulterated imported food.

Subtitle B—Protection of Drug Supply

- Sec. 311. Annual registration of foreign manufacturers; shipping information; drug and device listing.
- Sec. 312. Requirement of additional information regarding import components intended for use in export products.

**TITLE IV—DRINKING WATER SECURITY
AND SAFETY**

Sec. 401. Amendment of the Safe Drinking Water Act.

**TITLE I—NATIONAL PREPAREDNESS FOR
BIOTERRORISM AND OTHER PUBLIC
HEALTH EMERGENCIES**

**Subtitle A—National Preparedness and
Response Planning, Coordinating, and
Reporting**

**SEC. 101. NATIONAL PREPAREDNESS AND
RESPONSE.**

The Public Health Service Act (42 U.S.C. 201 et seq.) is amended by adding at the end the following title:

**“TITLE XXVIII—NATIONAL PREPARED-
NESS FOR BIOTERRORISM AND OTHER
PUBLIC HEALTH EMERGENCIES**

**“Subtitle A—National Preparedness and
Response Planning, Coordinating, and
Reporting**

“SEC. 2801. NATIONAL PREPAREDNESS PLAN.

“(a) **IN GENERAL.**—

“(1) **PREPAREDNESS AND RESPONSE REGARDING PUBLIC HEALTH EMERGENCIES.**—The Secretary shall further develop and implement a coordinated strategy, building upon the core public health capabilities established pursuant to section 319A, for carrying out health-related activities to prepare for and respond effectively to bioterrorism and other public health emergencies, including the preparation of a plan under this section. The Secretary shall periodically thereafter review and as appropriate revise the plan.

“(2) **CONSULTATION.**—The Secretary shall carry out paragraph (1) in consultation with the Secretary of Defense, the Director of the Federal Emergency Management Agency, the Secretary of Veterans Affairs, the Attorney General, the Secretary of Agriculture, the Secretary of Energy, the Secretary of Labor, and the Administrator of the Environmental Protection Agency, and with other appropriate public and private entities.

“(3) **NATIONAL APPROACH.**—In carrying out paragraph (1), the Secretary shall collaborate with the States toward the goal of ensuring that the activities of the Secretary regarding bioterrorism and other public health emergencies are coordinated with activities of the States, including through local governments, such that there is a national plan for preparedness for and responding effectively to such emergencies.

“(4) **EVALUATION OF PROGRESS.**—The plan under paragraph (1) shall provide for specific benchmarks and outcome measures for evaluating the progress of the Secretary and the States, including local governments, with respect to the plan under paragraph (1), including progress toward achieving the goals specified in subsection (b).

“(b) **PREPAREDNESS GOALS.**—The plan under subsection (a) shall include provisions for achieving the following goals with respect to preparedness for and responding effectively to bioterrorism and other public health emergencies:

“(1) Providing effective assistance to State and local governments in the event of such an emergency.

“(2) Ensuring that State and local governments have adequate and appropriate capacity to detect and respond effectively to such emergencies, including capacities for the following:

“(A) Effective public health surveillance and reporting mechanisms at the State and local levels.

“(B) Adequate laboratory readiness.

“(C) Properly trained and equipped emergency response, public health, and medical personnel.

“(D) Health and safety protection of workers involved in responding to such an emergency.

“(E) Public health agencies that are prepared to coordinate health services (including mental health services) during and after such emergencies.

“(F) Participation in communications networks that can effectively disseminate relevant information in a timely and secure manner to appropriate public and private entities and to the public.

“(3) Developing and maintaining medical countermeasures (such as drugs, vaccines and other biological products, and medical

devices) against biological agents that may be used in such emergencies.

“(4) Ensuring coordination and minimizing duplication of Federal, State, and local planning, preparedness, and response activities, including among agencies during the investigation of a suspicious disease outbreak.

“(5) Ensuring adequate readiness of hospitals and other health care facilities to respond effectively to such emergencies.

“(c) EVALUATION OF USING VA R&D CAPABILITIES.—The Secretary shall evaluate the feasibility of using the biomedical research and development capabilities of the Department of Veterans Affairs, in conjunction with that Department’s affiliations with health-professions universities, as a means to assist the Secretary in achieving the goals specified in subsection (b).

“(d) REPORTS TO CONGRESS.—

“(1) INITIAL REPORT TO CONGRESS.—Not later than one year after the date of the enactment of the Public Health Security and Bioterrorism Response Act of 2001, the Secretary shall submit to the Committee on Energy and Commerce of the House of Representatives, and the Committee on Health, Education, Labor, and Pensions of the Senate, a report concerning progress with respect to the plan under subsection (a), including progress toward achieving the goals specified in subsection (b).

“(2) BIENNIAL REPORTS.—Not later than 2 years after the date on which the report under paragraph (1) is submitted, and biennially thereafter, the Secretary shall submit to each of the committees specified in such paragraph a report concerning the progress made with respect to the plan under subsection (a), including the goals under subsection (b).

“(3) ADDITIONAL AUTHORITY.—Reports submitted under paragraph (2) by the Secretary shall make recommendations concerning—

“(A) any additional legislative authority that the Secretary determines is necessary for fully implementing the plan under subsection (a), including meeting the goals under subsection (b); and

“(B) any additional legislative authority that the Secretary determines is necessary under section 319 to protect the public health in the event that a condition described in section 319(a) occurs.

“(e) OTHER REPORTS.—Not later than one year after the date of the enactment of the Public Health Security and Bioterrorism Response Act of 2001, the Secretary shall submit to each of the committees specified in paragraph (1) a report concerning—

“(1) the recommendations and findings of the EPIC Advisory Committee under section 319F(c)(3);

“(2) the characteristics that may render a rural community uniquely vulnerable to a biological attack, including distance, lack of emergency transport, hospital or laboratory capacity, lack of integration of Federal or State public health networks, workforce deficits, or other relevant conditions;

“(3) the characteristics that may render areas or populations designated as medically underserved populations (as defined in section 330) uniquely vulnerable to a biological attack, including significant numbers of low-income or uninsured individuals, lack of affordable and accessible health care services, insufficient public and primary health care resources, lack of integration of Federal or State public health networks, workforce deficits, or other relevant conditions; and

“(4) the recommendations of the Secretary with respect to additional legislative authority that the Secretary determines is nec-

essary to effectively strengthen rural communities, or medically underserved populations (as defined in section 330).

“(f) RULE OF CONSTRUCTION.—This section may not be construed as expanding or limiting any of the authorities of the Secretary that, on the day before the date of the enactment of the Public Health Security and Bioterrorism Response Act of 2001, were in effect with respect to preparing for and responding effectively to bioterrorism and other public health emergencies.”.

SEC. 102. ASSISTANT SECRETARY FOR EMERGENCY PREPAREDNESS; NATIONAL DISASTER MEDICAL SYSTEM.

(a) IN GENERAL.—Title XXVIII of the Public Health Service Act, as added by section 101 of this Act, is amended by adding at the end the following subtitle:

“Subtitle B—Emergency Preparedness and Response

“SEC. 2811. COORDINATION OF PREPAREDNESS FOR AND RESPONSE TO BIOTERRORISM AND OTHER PUBLIC HEALTH EMERGENCIES.

“(a) ASSISTANT SECRETARY FOR EMERGENCY PREPAREDNESS.—

“(1) IN GENERAL.—There is established within the Department of Health and Human Services the position of Assistant Secretary for Emergency Preparedness. The President, by and with the advice and consent of the Senate, shall appoint an individual to serve in such position. Such Assistant Secretary shall report to the Secretary.

“(2) DUTIES.—Subject to the authority of the Secretary, the Assistant Secretary for Emergency Preparedness shall carry out the following duties:

“(A) Coordinate on behalf of the Secretary—

“(i) all interagency interfaces between the Department of Health and Human Services (referred to in this paragraph as the ‘Department’) and other departments, agencies and offices of the United States, including the activities of the joint interdepartmental working groups under subsections (a) and (b) of section 319F; and

“(ii) all interfaces between the Department and State and local entities with responsibility for emergency preparedness.

“(B) Coordinate the operations of the National Disaster Medical System and any other emergency response activities within the Department of Health and Human Services that are related to bioterrorism or public health emergencies.

“(C) Coordinate the efforts of the Department to bolster State and local emergency preparedness for a bioterrorist attack or other public health emergency, and evaluate the progress of such entities in meeting the benchmarks and other outcome measures contained in the national plan and in meeting the core public health capabilities established pursuant to 319A.

“(D) Coordinate the activities of the Department with respect to research and development of priority vaccines, other biological products, drugs, and devices useful for detecting or responding to a bioterrorist attack or other public health emergency.

“(E) Coordinate the activities of the Department with respect to public education, awareness, and information relating to bioterrorism or other public health emergencies, including the activities and recommendations of the EPIC Advisory Committee under section 319F(c)(3).

“(F) Coordinate all other functions within the Department of Health and Human Services relating to emergency preparedness, including matters relating to bioterrorism and

other public health emergencies that are addressed in the national plan under section 2801.

“(G) Any other duties determined appropriate by the Secretary.

“(b) NATIONAL DISASTER MEDICAL SYSTEM.—

“(1) IN GENERAL.—The Secretary shall provide for the operation in accordance with this section of a system to be known as the National Disaster Medical System (in this section referred to as the ‘National System’). The Secretary shall designate the Assistant Secretary for Emergency Preparedness as the head of the National System, subject to the authority of the Secretary.

“(2) FEDERAL AND STATE COLLABORATIVE SYSTEM.—

“(A) IN GENERAL.—The National System shall be a coordinated effort by the Federal agencies specified in subparagraph (B), working in collaboration with the States and other appropriate public or private entities, to carry out the purposes described in paragraph (3).

“(B) PARTICIPATING FEDERAL AGENCIES.—The Federal agencies referred to in subparagraph (A) are the Department of Health and Human Services, the Federal Emergency Management Agency, the Department of Defense, and the Department of Veterans Affairs.

“(3) PURPOSE OF SYSTEM.—

“(A) IN GENERAL.—The Secretary may activate the National System to—

“(i) provide health services, health-related social services, other appropriate human services, and appropriate auxiliary services to respond to the needs of victims of a public health emergency (whether or not determined to be a public health emergency under section 319); or

“(ii) be present at locations, and for periods of time, specified by the Secretary on the basis that the Secretary has determined that a location is at risk of a public health emergency during the time specified.

“(B) ONGOING ACTIVITIES.—The National System shall carry out such ongoing activities as may be necessary to prepare for the provision of services described in subparagraph (A) in the event that the Secretary activates the National System for such purposes.

“(C) TEST FOR MOBILIZATION OF SYSTEM.—During the one-year period beginning on the date of the enactment of the Public Health Security and Bioterrorism Response Act of 2001, the Secretary shall conduct an exercise to test the capability and timeliness of the National System to mobilize and otherwise respond effectively to a bioterrorist attack or other public health emergency that affects two or more geographic locations concurrently. Thereafter, the Secretary may periodically conduct such exercises regarding the National System as the Secretary determines to be appropriate.

“(c) CRITERIA.—

“(1) IN GENERAL.—The Secretary shall establish criteria for the operation of the National System.

“(2) EDUCATION AND TRAINING OF PERSONNEL.—In carrying out paragraph (1), the Secretary shall establish criteria regarding the education and training of individuals who provide emergency services through the National System. In the case of permanent, full-time positions in the Department of Health and Human Services that involve significant supervisory roles within the National System, the criteria shall require that individuals in such positions have completed appropriate education or training programs as determined by the Secretary.

“(3) PARTICIPATION AGREEMENTS FOR NON-FEDERAL ENTITIES.—In carrying out paragraph (1), the Secretary shall establish criteria regarding the participation of States and private entities in the National System, including criteria regarding agreements for such participation. The criteria shall include the following:

“(A) Provisions relating to the custody and use of Federal personal property by such entities, which may in the discretion of the Secretary include authorizing the custody and use of such property on a reimbursable basis to respond to emergency situations for which the National System has not been activated by the Secretary pursuant to subsection (b)(3)(A).

“(B) Provisions relating to circumstances in which an individual or entity has agreements with both the National System and another entity regarding the provision of emergency services by the individual. Such provisions shall address the issue of priorities among the agreements involved.

“(d) INTERMITTENT DISASTER-RESPONSE PERSONNEL.—

“(1) IN GENERAL.—For the purpose of assisting the National System in carrying out duties under this section, the Secretary may appoint individuals to serve as intermittent personnel of such System in accordance with applicable civil service laws and regulations.

“(2) LIABILITY.—For purposes of section 224(a) and the remedies described in such section, an individual appointed under paragraph (1) shall, while acting within the scope of such appointment, be considered to be an employee of the Public Health Service performing medical, surgical, dental, or related functions. With respect to the participation of individuals appointed under paragraph (1) in training programs authorized by the Assistant Secretary for Emergency Preparedness or a comparable official of any Federal agency specified in subsection (b)(2)(B), acts of individuals so appointed that are within the scope of such participation shall be considered within the scope of the appointment under paragraph (1) (regardless of whether the individuals receive compensation for such participation).

“(e) CERTAIN EMPLOYMENT ISSUES REGARDING INTERMITTENT APPOINTMENTS.—

“(1) INTERMITTENT DISASTER-RESPONSE APPOINTEE.—For purposes of this subsection, the term ‘intermittent disaster-response appointee’ means an individual appointed by the Secretary under subsection (d).

“(2) COMPENSATION FOR WORK INJURIES.—An intermittent disaster-response appointee shall, while acting in the scope of such appointment, be considered to be an employee of the Public Health Service performing medical, surgical, dental, or related functions, and an injury sustained by such an individual shall be deemed ‘in the performance of duty’, for purposes of chapter 81 of title 5, United States Code, pertaining to compensation for work injuries. With respect to the participation of individuals appointed under subsection (d) in training programs authorized by the Assistant Secretary for Emergency Preparedness or a comparable official of any Federal agency specified in subsection (b)(2)(B), injuries sustained by such an individual, while acting within the scope of such participation, also shall be deemed ‘in the performance of duty’ for purposes of chapter 81 of title 5, United States Code (regardless of whether the individuals receive compensation for such participation). In the event of an injury to such an intermittent disaster-response appointee, the Secretary of Labor shall be responsible for making determina-

tions as to whether the claimant is entitled to compensation or other benefits in accordance with chapter 81 of title 5, United States Code.

“(3) EMPLOYMENT AND REEMPLOYMENT RIGHTS.—

“(A) IN GENERAL.—Service as an intermittent disaster-response appointee when the Secretary activates the National System or when the individual participates in a training program authorized by the Assistant Secretary for Emergency Preparedness or a comparable official of any Federal agency specified in subsection (b)(2)(B) shall be deemed ‘service in the uniformed services’ for purposes of chapter 43 of title 38, United States Code, pertaining to employment and reemployment rights of individuals who have performed service in the uniformed services (regardless of whether the individual receives compensation for such participation). All rights and obligations of such persons and procedures for assistance, enforcement, and investigation shall be as provided for in chapter 43 of title 38, United States Code.

“(B) NOTICE OF ABSENCE FROM POSITION OF EMPLOYMENT.—Preclusion of giving notice of service by necessity of Service as an intermittent disaster-response appointee when the Secretary activates the National System shall be deemed preclusion by ‘military necessity’ for purposes of section 4312(b) of title 38, United States Code, pertaining to giving notice of absence from a position of employment. A determination of such necessity shall be made by the Secretary, in consultation with the Secretary of Defense, and shall not be subject to judicial review.

“(4) LIMITATION.—An intermittent disaster-response appointee shall not be deemed an employee of the Department of Health and Human Services for purposes other than those specifically set forth in this section.

“(f) DEFINITION.—For purposes of this section, the term ‘auxiliary services’ includes mortuary services, veterinary services, and other services that are determined by the Secretary to be appropriate with respect to the needs referred to in subsection (b)(3)(A).

“(g) AUTHORIZATION OF APPROPRIATIONS.—For the purpose of providing for the Assistant Secretary for Emergency Preparedness and the operations of the National System, other than purposes for which amounts in the Public Health Emergency Fund under section 319 are available, there are authorized to be appropriated such sums as may be necessary for each of the fiscal years 2002 through 2006.”

(b) SENSE OF CONGRESS REGARDING RESOURCES OF NATIONAL SYSTEM.—It is the sense of the Congress that the Secretary of Health and Human Services should provide sufficient resources to individuals and entities tasked to carry out the duties of the National Disaster Medical System for reimbursement of expenses, operations, purchase and maintenance of equipment, training, and other funds expended in furtherance of such National System.

SEC. 103. IMPROVING ABILITY OF CENTERS FOR DISEASE CONTROL AND PREVENTION WITH RESPECT TO BIOTERRORISM AND OTHER PUBLIC HEALTH EMERGENCIES; FACILITIES.

Section 319D of the Public Health Service Act (42 U.S.C. 247d-4) is amended to read as follows:

“SEC. 319D. REVITALIZING THE CENTERS FOR DISEASE CONTROL AND PREVENTION.

“(a) FINDINGS.—Congress finds that the Centers for Disease Control and Prevention have an essential role in defending against and combatting public health threats of the

21st century and requires secure and modern facilities, and expanded and improved capabilities related to biological threats or attacks or other public health emergencies, sufficient to enable such Centers to conduct this important mission.

“(b) IMPROVING THE CAPACITIES OF THE CENTERS FOR DISEASE CONTROL AND PREVENTION.—

“(1) IN GENERAL.—The Secretary shall expand, enhance, and improve the capabilities of the Centers for Disease Control and Prevention relating to preparedness for and responding effectively to bioterrorism and other public health emergencies. Activities that may be carried out under the preceding sentence include—

“(A) expanding or enhancing the training of personnel;

“(B) improving communications facilities and networks;

“(C) improving capabilities for public health surveillance and reporting activities;

“(D) improving laboratory facilities related to bioterrorism, including increasing the security of such facilities; and

“(E) such other activities as the Secretary determines appropriate.

“(2) IMPROVING PUBLIC HEALTH LABORATORY CAPACITY.—

“(A) IN GENERAL.—The Secretary, directly or through awards of grants, contracts, or cooperative agreements, shall provide for the establishment of a coordinated network of public health laboratories, that may, at the discretion of the Secretary, include laboratories that serve as regional reference laboratories.

“(B) PRIORITY.—In carrying out subparagraph (A), the Secretary shall give priority to projects that include State or local government financial commitments, that seek to incorporate multiple public health and safety services or diagnostic databases into an integrated public health or regional reference laboratory, and that cover geographic areas lacking advanced diagnostic and safety-level laboratory capabilities.

“(3) NATIONAL PUBLIC HEALTH COMMUNICATIONS AND SURVEILLANCE NETWORK.—

“(A) IN GENERAL.—The Secretary, directly or through awards of grants, contracts, or cooperative agreements, shall provide for the establishment of integrated public health communications and surveillance networks between and among—

“(i) Federal, State, and local public health officials;

“(ii) public and private health-related laboratories, hospitals, and other health care facilities; and

“(iii) any other entities determined appropriate by the Secretary.

“(B) REQUIREMENTS.—The Secretary shall ensure that networks under subparagraph (A) allow for the timely sharing and discussion, in a secure manner, of essential information concerning a bioterrorist attack or other public health emergency, or recommended methods for responding to such an attack or emergency.

“(4) CONTINUITY OF EFFORT.—To the maximum extent practicable, the Secretary, in conducting activities under paragraphs (1) through (3), shall administer such activities in a manner that intensifies, expands, or enhances activities being carried out on the date of enactment of this subsection.

“(c) FACILITIES.—

“(1) IN GENERAL.—The Director of the Centers for Disease Control and Prevention may design, construct, and equip new facilities,

renovate existing facilities (including laboratories, laboratory support buildings, scientific communication facilities, transshipment complexes, secured and isolated parking structures, office buildings, and other facilities and infrastructure), and upgrade security of such facilities, in order to better conduct the capacities described in section 319A, and for supporting related public health activities.

“(2) **MULTIYEAR CONTRACTING AUTHORITY.**—For any project of designing, constructing, equipping, or renovating any facility under paragraph (1), the Director of the Centers for Disease Control and Prevention may enter into a single contract or related contracts that collectively include the full scope of the project, and the solicitation and contract shall contain the clause ‘availability of funds’ found at section 52.232-18 of title 48, Code of Federal Regulations.

“(d) **AUTHORIZATION OF APPROPRIATIONS.**—

“(1) **IN GENERAL.**—For the purposes of achieving the mission of the Centers for Disease Control and Prevention described in subsection (a), for carrying out subsection (b), for better conducting the capacities described in section 319A, and for supporting related public health activities, there are authorized to be appropriated such sums as may be necessary for each of the fiscal years 2002 through 2006.

“(2) **FACILITIES.**—For the purpose of carrying out subsection (c), there are authorized to be appropriated \$300,000,000 for each of the fiscal years 2002 and 2003, and such sums as may be necessary for each of the fiscal years 2004 through 2006.”

SEC. 104. ADVISORY COMMITTEES AND COMMUNICATIONS.

Section 319F of the Public Health Service Act (42 U.S.C. 247d-6) is amended—

(1) by redesignating subsections (c) through (i) as subsections (e) through (k), respectively; and

(2) by inserting after subsection (b) the following subsections:

“(c) **ADVICE TO THE FEDERAL GOVERNMENT.**—

“(1) **REQUIRED ADVISORY COMMITTEES.**—In coordination with the working groups under subsections (a) and (b), the Secretary shall establish advisory committees in accordance with paragraphs (2) and (3) to provide expert recommendations to assist such working groups in carrying out their respective responsibilities under subsections (a) and (b).

“(2) **NATIONAL ADVISORY COMMITTEE ON CHILDREN AND TERRORISM.**—

“(A) **IN GENERAL.**—For purposes of paragraph (1), the Secretary shall establish an advisory committee to be known as the National Advisory Committee on Children and Terrorism (referred to in this paragraph as the ‘Advisory Committee’).

“(B) **DUTIES.**—The Advisory Committee shall provide recommendations regarding—

“(i) the preparedness of the health care (including mental health care) system to respond to bioterrorism as it relates to children;

“(ii) needed changes to the health care and emergency medical service systems and emergency medical services protocols to meet the special needs of children; and

“(iii) changes, if necessary, to the national stockpile under section 121 of the Public Health Security and Bioterrorism Response Act of 2001 to meet the special needs of children.

“(C) **COMPOSITION.**—The Advisory Committee shall be composed of such Federal officials as may be appropriate to address the special needs of the diverse population

groups of children, and child health experts on infectious disease, environmental health, toxicology, and other relevant professional disciplines.

“(D) **TERMINATION.**—The Advisory Committee terminates one year after the date of the enactment of the Public Health Security and Bioterrorism Response Act of 2001.

“(3) **EMERGENCY PUBLIC INFORMATION AND COMMUNICATIONS ADVISORY COMMITTEE.**—

“(A) **IN GENERAL.**—For purposes of paragraph (1), the Secretary shall establish an advisory committee to be known as the Emergency Public Information and Communications Advisory Committee (referred to in this paragraph as the ‘EPIC Advisory Committee’).

“(B) **DUTIES.**—The EPIC Advisory Committee shall make recommendations and report on appropriate ways to communicate public-health information regarding biological attacks to the public.

“(C) **COMPOSITION.**—The EPIC Advisory Committee shall be composed of individuals representing a diverse group of experts in public health, communications, behavioral psychology, and other areas determined appropriate by the Secretary.

“(D) **DISSEMINATION.**—The Secretary shall ensure that the recommendations of the EPIC Advisory Committee are widely disseminated to the media, State and local governments, poison control centers, and others as the Secretary determines appropriate.

“(E) **TERMINATION.**—The EPIC Advisory Committee terminates one year after the date of the enactment of the Public Health Security and Bioterrorism Response Act of 2001.

“(d) **STRATEGY FOR COMMUNICATION OF INFORMATION REGARDING BIOLOGICAL ATTACK.**—In coordination with the joint interdepartmental working group under subsection (b), the Secretary, acting through the Assistant Secretary for Emergency Preparedness, shall develop a strategy for effectively communicating information regarding a biological attack, and shall develop means by which to communicate such information. The Secretary may carry out the preceding sentence directly or through grants, contracts, or cooperative agreements.”

SEC. 105. EDUCATION OF HEALTH CARE PERSONNEL; TRAINING REGARDING PEDIATRIC ISSUES.

Section 319F(g) of the Public Health Service Act, as redesignated by section 104(1) of this Act, is amended to read as follows:

“(g) **EDUCATION; TRAINING REGARDING PEDIATRIC ISSUES.**—

“(1) **MATERIALS; CORE CURRICULUM.**—The Secretary, in collaboration with members of the working group described in subsection (b), and professional organizations and societies, shall—

“(A) develop materials for teaching the elements of a core curriculum for the recognition and identification (including proficiency testing) of potential bioweapons and other agents that may create a public health emergency, and for the care of victims of such emergencies, recognizing the special needs of children and other vulnerable populations, to public health officials, medical professionals, emergency physicians and other emergency department staff, laboratory personnel, and other personnel working in health care facilities (including poison control centers);

“(B) develop a core curriculum and materials for community-wide planning by State and local governments, hospitals and other health care facilities, emergency response units, and appropriate public and private

sector entities to respond to a bioterrorist attack or other public health emergency;

“(C) provide for dissemination and teaching of the materials described in subparagraphs (A) and (B) by all appropriate means, including telemedicine, long-distance learning, or other such means; and

“(D) to the extent practicable, establish and maintain an electronic database of individuals participating in training or education programs carried out under this section, for the purpose of providing continuing education materials and information to such participants.

“(2) **GRANTS.**—In carrying out paragraph (1), the Secretary may award grants to, or enter into cooperative agreements with, professional organizations and societies, private accrediting organizations, or other nonprofit institutions or entities meeting criteria established by the Secretary, and may enter into interagency cooperative agreements with other Federal agencies.

“(3) **HEALTH-RELATED ASSISTANCE FOR EMERGENCY RESPONSE PERSONNEL TRAINING.**—The Secretary, in consultation with the Attorney General and the Director of the Federal Emergency Management Agency, may provide assistance with respect to health-related aspects of emergency response personnel training carried out by the Department of Justice and the Federal Emergency Management Agency.”

SEC. 106. GRANTS REGARDING SHORTAGES OF CERTAIN HEALTH PROFESSIONALS.

Part B of title III of the Public Health Service Act (42 U.S.C. 243 et seq.) is amended by inserting after section 319G the following section:

“SEC. 319H. GRANTS REGARDING TRAINING AND EDUCATION OF CERTAIN HEALTH PROFESSIONALS.

“(a) **IN GENERAL.**—The Secretary may make awards of grants and cooperative agreements to appropriate public and nonprofit private health or educational entities, including health professions schools and programs as defined in section 799B, for the purpose of providing low-interest loans, partial scholarships, partial fellowships, revolving loan funds, or other cost-sharing forms of assistance for the education and training of individuals in any category of health professions for which there is a shortage that the Secretary determines should be alleviated in order to prepare for or respond effectively to bioterrorism and other public health emergencies.

“(b) **AUTHORITY REGARDING NON-FEDERAL CONTRIBUTIONS.**—The Secretary may require as a condition of an award under subsection (a) that a grantee under such subsection provide non-Federal contributions toward the purpose described in such subsection.

“(c) **AUTHORIZATION OF APPROPRIATIONS.**—For the purpose of carrying out this section, there are authorized to be appropriated such sums as may be necessary for each of the fiscal years 2002 through 2006.”

SEC. 107. EMERGENCY SYSTEM FOR VERIFICATION OF CREDENTIALS OF HEALTH PROFESSIONS VOLUNTEERS.

Part B of title III of the Public Health Service Act, as amended by section 106 of this Act, is amended by inserting after section 319H the following section:

“SEC. 319I. EMERGENCY SYSTEM FOR VERIFICATION OF HEALTH PROFESSIONS VOLUNTEERS.

“(a) **IN GENERAL.**—The Secretary shall, directly or through an award of a grant, contract, or cooperative agreement, establish and maintain a system for verifying the credentials, licenses, accreditations, and hospital privileges of individuals, who during

public health emergencies volunteer to serve as health professionals (referred to in this section as the 'verification system'). In carrying out the preceding sentence, the Secretary shall provide for an electronic database for the verification system.

“(b) CERTAIN CRITERIA.—The Secretary shall establish criteria regarding the verification system under subsection (a), including provisions regarding the promptness and efficiency of the system in collecting, storing, updating, and disseminating information on the credentials, licenses, accreditations, and hospital privileges of volunteers described in subsection (a).

“(c) ADVANCE REGISTRATION OF VOLUNTEERS.—In order to facilitate the availability of health professionals during a public health emergency, the Secretary shall provide for the advance registration with the system of health professionals who are willing to serve as volunteers described in subsection (a), and may carry out activities to encourage health professionals to register with the system.

“(d) OTHER ASSISTANCE.—The Secretary may make grants and provide technical assistance to States and other public or non-profit private entities for activities relating to the verification system developed under subsection (a).

“(e) COORDINATION AMONG STATES.—The Secretary shall encourage each State to provide legal authority during a public health emergency for health professionals authorized in another State to provide certain health services to provide such health services in the State.

“(f) RULE OF CONSTRUCTION.—This section may not be construed as authorizing the Secretary to issue requirements regarding the provision by the States of credentials, licenses, accreditations, or hospital privileges.

“(g) AUTHORIZATION OF APPROPRIATIONS.—For the purpose of carrying out this section, there are authorized to be appropriated \$2,000,000 for fiscal year 2002, and such sums as may be necessary for each of the fiscal years 2003 through 2006.”

SEC. 108. ENHANCING PREPAREDNESS ACTIVITIES FOR BIOTERRORISM AND OTHER PUBLIC HEALTH EMERGENCIES.

Section 319F of the Public Health Service Act (42 U.S.C. 247d-6) is amended—

(1) by amending subsection (a) to read as follows:

“(a) WORKING GROUP ON PREPAREDNESS FOR ACTS OF BIOTERRORISM.—The Secretary, in coordination with the Secretary of Defense, the Director of the Federal Emergency Management Agency, the Attorney General, the Secretary of Veterans Affairs, the Secretary of Agriculture, the Secretary of Energy, and the Administrator of the Environmental Protection Agency shall establish a joint interdepartmental working group on preparedness and readiness for the medical and public health effects of a bioterrorist attack on the civilian population. Such joint working group shall—

“(1) coordinate and prioritize research on, and the development of countermeasures against, pathogens likely to be used in a bioterrorist attack on the civilian population;

“(2) facilitate the development, production, and regulatory review of priority countermeasures (as defined in subsection (h)(2)(C)) for a bioterrorist attack on the civilian population;

“(3) coordinate research and development into equipment to detect pathogens likely to be used in a bioterrorist attack on the civilian population and protect against infection from such pathogens;

“(4) develop shared standards for equipment to detect and to protect against infection from pathogens likely to be used in a bioterrorist attack on the civilian population; and

“(5) coordinate the development, maintenance, and procedures for the release and distribution of strategic reserves of vaccines, drugs, and medical supplies which may be needed rapidly after a bioterrorist attack upon the civilian population, including consideration of vulnerable populations (such as children, the elderly, and individuals with disabilities).”

(2) in subsection (b)(1), by striking “The Secretary” and all that follows through “shall establish” and inserting the following: “The Secretary, in collaboration with the Secretary of Defense, the Director of the Federal Emergency Management Agency, the Attorney General, the Secretary of Veterans Affairs, the Secretary of Agriculture, the Secretary of Labor, and the Administrator of the Environmental Protection Agency, shall establish”;

(3) in subsection (b)(2)—

(A) in subparagraph (A), by striking “respond to a bioterrorist attack; and” and inserting the following: “respond to a bioterrorist attack, including the provision of appropriate safety and health training and protective measures for medical, emergency service, and other personnel responding to such attacks;”;

(B) in subparagraph (B), by striking the period and inserting “; and”;

(C) by adding at the end the following subparagraph:

“(C) subject to compliance with other provisions of Federal law, clarify the responsibilities among Federal officials for the investigation of suspicious outbreaks of disease, and revise the interagency plan known as the Federal response plan accordingly.”

(4) in subsection (b)(3), by striking “Assistant Secretary for Health” and inserting “Assistant Secretary for Emergency Preparedness”;

(5) in subsection (e) (as redesignated by section 104(1) of this Act)—

(A) in paragraph (1), by striking “The Secretary” and all that follows and inserting the following: “In consultation with the working group established under subsection (b), the Secretary shall, based on criteria established by the Secretary, award grants to or enter into cooperative agreements with eligible entities to increase their capacity to detect, diagnose, and respond to acts of bioterrorism upon the civilian population.”;

(B) in paragraph (2)—

(i) by striking “or” after “clinic.”;

(ii) by inserting before the period the following: “, professional organizations and societies, schools or programs that train medical laboratory personnel, private accrediting organizations, or other nonprofit institutions or entities meeting criteria established by the Secretary”;

(C) in paragraph (3)—

(i) in the matter preceding subparagraph (A), by striking “the priorities” and inserting “any priorities”;

(ii) by striking subparagraphs (A) through (D) and inserting the following:

“(A) developing community-wide plans involving the public and private health care infrastructure to respond to bioterrorism or other public health emergencies, which are coordinated with the capacities of applicable national, State, and local health agencies;

“(B) training health care professionals and public health personnel to enhance the ability of such personnel to recognize the symp-

oms and epidemiological characteristics of exposure to a potential bioweapon, or other agents that may cause a public health emergency;

“(C) addressing rapid and accurate identification of potential bioweapons, or other agents that may cause a public health emergency;

“(D) coordinating medical care for individuals during public health emergencies, including bioterrorism;

“(E) conducting exercises to test the capability and timeliness of public health emergency response activities;

“(F) facilitating and coordinating rapid communication of data generated from a bioterrorist attack or public health emergency among national, State, and local health agencies, emergency response personnel, and health care providers and facilities; and

“(G) purchasing or upgrading equipment, supplies, pharmaceuticals or other countermeasures to enhance preparedness for and response to bioterrorism or other public health emergencies, consistent with a plan described in subparagraph (A).”;

(D) in paragraph (4)—

(i) in subparagraph (A), by striking “and” after the semicolon at the end;

(ii) in subparagraph (B), by striking the period at the end and inserting “; and”;

(iii) by adding at the end the following subparagraph:

“(C) coordinate grants under this subsection with grants under 319C.”

SEC. 109. IMPROVING STATE AND LOCAL CORE PUBLIC HEALTH CAPACITIES.

Section 319C of the Public Health Service Act (42 U.S.C. 247d-3) is amended—

(1) in subsection (a), by striking “competitive”;

(2) in subsection (c)—

(A) in paragraph (3), by striking “health care providers; and” and inserting “health care providers, including poison control centers”;

(B) by redesignating paragraph (4) as paragraph (7); and

(C) by inserting after paragraph (3) the following paragraphs:

“(4) purchase or upgrade equipment, supplies, pharmaceuticals or other countermeasures to enhance preparedness for and response to bioterrorism or other public health emergencies, consistent with a plan described in paragraph (3);

“(5) conduct exercises to test the capability and timeliness of public health emergency response activities;

“(6) within the meaning of part B of title XII, develop and implement the trauma care component of the State plan for the provision of emergency medical services; and”

SEC. 110. ANTIMICROBIAL RESISTANCE PROGRAM.

Section 319E of the Public Health Service Act (42 U.S.C. 247d-5) is amended—

(1) in subsection (b)—

(A) by striking “shall conduct and support” and inserting “shall directly or through awards of grants or cooperative agreements to public or private entities provide for the conduct of”;

(B) by amending paragraph (4) to read as follows:

“(4) the sequencing of the genomes, or other appropriate DNA analysis, or other necessary comparative analysis, of priority pathogens (as determined by the Director of the National Institutes of Health in consultation with the task force established under subsection (a)), in collaboration and coordination with the activities of the Department of Defense and the Joint Genome Institute of the Department of Energy; and”

(2) in subsection (e)(2), by inserting after “societies,” the following: “schools or programs that train medical laboratory personnel,”; and

(3) in subsection (g), by striking “and such sums” and all that follows and inserting the following: “\$25,000,000 for each of the fiscal years 2002 and 2003, and such sums as may be necessary for each of the fiscal years 2004 through 2006.”.

SEC. 111. STUDY REGARDING COMMUNICATIONS ABILITIES OF PUBLIC HEALTH AGENCIES.

The Secretary of Health and Human Services, in consultation with the Federal Communications Commission, the National Telecommunications and Information Administration, and other appropriate Federal agencies, shall conduct a study to ensure that local public health entities have the ability to maintain communications in the event of a bioterrorist attack or other public health emergency. The study shall examine whether redundancies are required in the telecommunications system for public health entities to maintain systems operability and connectivity during such emergencies. The study shall also include recommendations to industry and public health entities about how to implement such redundancies if necessary.

SEC. 112. SUPPLIES AND SERVICES IN LIEU OF AWARD FUNDS.

Part B of title III of the Public Health Service Act, as amended by section 107 of this Act, is amended by inserting after section 319I the following section:

“SEC. 319J. SUPPLIES AND SERVICES IN LIEU OF AWARD FUNDS

“(a) IN GENERAL.—Upon the request of a recipient of an award under any of sections 319 through 319I or section 319K, the Secretary may, subject to subsection (b), provide supplies, equipment, and services for the purpose of aiding the recipient in carrying out the purposes for which the award is made and, for such purposes, may detail to the recipient any officer or employee of the Department of Health and Human Services.

“(b) CORRESPONDING REDUCTION IN PAYMENTS.—With respect to a request described in subsection (a), the Secretary shall reduce the amount of payments under the award involved by an amount equal to the costs of detaching personnel and the fair market value of any supplies, equipment, or services provided by the Secretary. The Secretary shall, for the payment of expenses incurred in complying with such request, expend the amounts withheld.”.

SEC. 113. ADDITIONAL AMENDMENTS.

Part B of title III of the Public Health Service Act (42 U.S.C. 243 et seq) is amended—

(1) in section 319A(a)(1), by striking “10 years” and inserting “five years”; and

(2) in section 319B(a), in the first sentence, by striking “10 years” and inserting “five years”.

SEC. 114. STUDY REGARDING LOCAL EMERGENCY RESPONSE METHODS.

The Secretary of Health and Human Services shall conduct a study of best-practices methods for the provision of emergency response services through local governments (including through contractors and volunteers of such governments) in a consistent manner in response to acts of bioterrorism or other public health emergencies. Not later than 180 days after the date of the enactment of this Act, the Secretary shall submit to the Congress a report describing the findings of the study.

Subtitle B—National Stockpile; Development of Priority Countermeasures

SEC. 121. NATIONAL STOCKPILE.

(a) IN GENERAL.—The Secretary of Health and Human Services (referred to in this section as the “Secretary”) shall maintain a stockpile or stockpiles of drugs, vaccines and other biological products, medical devices, and other supplies in such numbers, types, and amounts as are determined by the Secretary to be adequate to meet the health security needs of the United States, including consideration of vulnerable populations (such as children, the elderly, and individuals with disabilities), in the event of a bioterrorist attack or other public health emergency.

(b) PROCEDURES.—The Secretary, in managing the stockpile under subsection (a), shall—

(1) consult with the Director of the Federal Emergency Management Agency, the Secretary of Defense, the Secretary of Veterans Affairs, the Attorney General, the Secretary of Energy, and the Administrator of the Environmental Protection Agency;

(2) ensure that adequate procedures are followed with respect to such stockpile for inventory management and accounting, and for the physical security of the stockpile;

(3) in consultation with Federal, State, and local officials, take into consideration the timing and location of special events;

(4) review and revise, as appropriate, the contents of the stockpile on a regular basis to ensure that emerging threats, advanced technologies, and new countermeasures are adequately considered; and

(5) devise plans for the effective and timely distribution of the stockpile, in consultation with appropriate Federal, State and local agencies, and the public and private health care infrastructure.

(c) DEFINITION.—For purposes of subsection (a), the term “stockpile” includes—

(1) a physical accumulation (at one or more locations) of the supplies described in subsection (a); or

(2) a contractual agreement between the Secretary and a vendor or vendors under which such vendor or vendors agree to provide to the Secretary supplies described in subsection (a).

(d) AUTHORIZATION OF APPROPRIATIONS.—For the purpose of carrying out this section, there are authorized to be appropriated \$1,155,000,000 for fiscal year 2002, and such sums as may be necessary for each of fiscal years 2003 through 2006.

SEC. 122. ACCELERATED APPROVAL OF PRIORITY COUNTERMEASURES.

(a) IN GENERAL.—The Secretary of Health and Human Services may designate a priority countermeasure as a fast-track product pursuant to section 506 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 356). Such a designation may be made prior to the submission of—

(1) a request for designation by the sponsor; or

(2) an application for the investigation of the drug under section 505(i) of such Act or section 351(a)(3) of the Public Health Service Act. Nothing in this subsection shall be construed to prohibit a sponsor from declining such a designation.

(b) REVIEW OF PRIORITY COUNTERMEASURE NOT DESIGNATED AS FAST-TRACK PRODUCT.—A priority countermeasure shall be subject to the performance goals established by the Commissioner of Food and Drugs, unless it is designated as a fast-track product.

(c) DEFINITION.—For purposes of this section, the term “priority countermeasure”

means a drug or biological product that is a countermeasure to treat, identify, or prevent infection by a biological agent or toxin listed pursuant to section 351A(a)(1) or harm from any other agent that may cause a public health emergency.

SEC. 123. USE OF ANIMAL TRIALS IN APPROVAL OF CERTAIN DRUGS AND BIOLOGICS; ISSUANCE OF RULE.

Not later than 180 days after the date of the enactment of this Act, the Secretary of Health and Human Services shall complete the process of rulemaking that was commenced with the issuance of the proposed rule entitled “New Drug and Biological Drug Products: Evidence Needed to Demonstrate Efficacy of New Drugs for Use Against Lethal or Permanently Disabling Toxic Substances When Efficacy Studies in Humans Ethically Cannot be Conducted” published in the Federal Register on October 5, 1999 (64 Fed. Reg. 53960).

SEC. 124. SECURITY FOR COUNTERMEASURE DEVELOPMENT AND PRODUCTION.

Part B of title III of the Public Health Service Act, as amended by section 112 of this Act, is amended by inserting after section 319J the following section:

“SEC. 319K. SECURITY FOR COUNTERMEASURE DEVELOPMENT AND PRODUCTION.

“The Secretary, in consultation with the Attorney General and the Secretary of Defense, may provide technical or other assistance to provide security to persons or facilities that conduct development, production, distribution, or storage of priority countermeasures (as defined in section 319F(h)(2)(C)).”.

SEC. 125. ACCELERATED COUNTERMEASURE RESEARCH AND DEVELOPMENT.

Section 319F(h) of the Public Health Service Act, as redesignated by section 104(1) of this Act, is amended—

(1) by redesignating paragraphs (1) through (4), as subparagraphs (A) through (D), respectively;

(2) by striking “The Secretary” and inserting the following:

“(1) IN GENERAL.—The Secretary”;

(3) by moving each of subparagraphs (A) through (D) (as so redesignated) two ems to the right; and

(4) by adding at the end the following:

“(2) ACCELERATED COUNTERMEASURE RESEARCH AND DEVELOPMENT.—

“(A) IN GENERAL.—With respect to pathogens of potential use in a bioterrorist attack, and other agents that may cause a public health emergency, the Secretary, taking into consideration any recommendations of the working group under subsection (a), shall conduct, and award grants, contracts, or cooperative agreements for, research, investigations, experiments, demonstrations, and studies in the health sciences relating to—

“(i) the epidemiology and pathogenesis of such pathogens;

“(ii) the development of new vaccines and therapeutics for use against such pathogens and other agents;

“(iii) the development of diagnostic tests to detect such pathogens and other agents; and

“(iv) other relevant areas of research; with consideration given to the needs of children and other vulnerable populations.

“(B) ROLE OF DEPARTMENT OF VETERANS AFFAIRS.—In carrying out subparagraph (A), the Secretary shall consider using the biomedical research and development capabilities of the Department of Veterans Affairs, in conjunction with that Department’s affiliations with health-professions universities. When advantageous to the Government in

furtherance of the purposes of such subparagraph, the Secretary may enter into cooperative agreements with the Secretary of Veterans Affairs to achieve such purposes.

“(C) PRIORITY COUNTERMEASURES.—For purposes of this paragraph, the term ‘priority countermeasure’ means a countermeasure, including a drug, medical or other technological device, biological product, or diagnostic test, to treat, identify, or prevent infection by a biological agent or toxin listed pursuant to section 351A(a)(1) or harm from any other agent that may cause a public health emergency.”

SEC. 126. EVALUATION OF NEW AND EMERGING TECHNOLOGIES REGARDING BIOTERRORIST ATTACK AND OTHER PUBLIC HEALTH EMERGENCIES.

(a) IN GENERAL.—The Secretary of Health and Human Services (referred to in this section as the “Secretary”) shall promptly carry out a program to evaluate new and emerging technologies that are designed to improve or enhance the ability of public health or safety officials to detect, identify, diagnose, or conduct public health surveillance activities relating to a bioterrorist attack or other public health emergency.

(b) CERTAIN ACTIVITIES.—In carrying out this subsection, the Secretary shall—

(1) survey existing technology programs funded by the Federal Government for potentially useful technologies;

(2) promptly issue a request for information from non-Federal public and private entities for ongoing activities in this area; and

(3) evaluate technologies identified under paragraphs (1) and (2) pursuant to subsection (c).

(c) CONSULTATION AND EVALUATION.—In carrying out subsection (b)(3), the Secretary shall consult with the joint interdepartmental working group under section 319F(a) of the Public Health Service Act, as well as other appropriate public, nonprofit, and private entities, to develop criteria for the evaluation of such technologies and to conduct such evaluations.

(d) REPORT.—Not later than 180 days after the date of the enactment of this Act, the Secretary shall submit to the Committee on Energy and Commerce of the House of Representatives, and the Committee on Health, Education, Labor, and Pensions of the Senate, a report that provides a list of priority technologies whose development or deployment or both should be accelerated, and the estimated cost of doing so.

SEC. 127. POTASSIUM IODIDE.

(a) IN GENERAL.—Through the national stockpile under section 121, the Secretary of Health and Human Services (in this section referred to as the “Secretary”), subject to subsection (b), shall make available to State and local governments potassium iodide tablets for stockpiling and for distribution as appropriate to public facilities, such as schools and hospitals, that are within 20 miles of a nuclear power plant, in quantities sufficient to provide adequate protection for the populations within such miles.

(b) STATE AND LOCAL PLANS.—Subsection (a) applies with respect to a State or local government if the government involved meets the following conditions:

(1) Such government submits to the Secretary, and to the Director of the Federal Emergency Management Agency, a plan for the stockpiling of potassium iodide tablets, and for the distribution and utilization of potassium iodide tablets in the event of a nuclear incident.

(2) The plan is accompanied by certifications by such government that—

(A) the government has not received sufficient quantities of potassium iodide tablets from the Nuclear Regulatory Commission; and

(B) in the case of a local government, such government has submitted the plan to the State involved.

(c) GUIDELINES.—In consultation with the Director of the Federal Emergency Management Agency and with the Nuclear Regulatory Commission, the Secretary shall establish guidelines for the stockpiling of potassium iodide tablets, and for the distribution and utilization of potassium iodide tablets in the event of a nuclear incident.

(d) INFORMATION.—The Secretary shall carry out activities to inform State and local governments of the program under this section.

(e) REPORT.—Not later than six months after the date of the enactment of this Act, the Secretary shall submit to the Congress a report—

(1) on whether potassium iodide tablets have been made available under subsection (a) and the extent to which State and local governments have established stockpiles of such tablets; and

(2) the measures taken by the Secretary to implement this section.

(f) APPLICABILITY.—Subsections (a) and (d) cease to apply as requirements if the Secretary determines that there is an alternative and more effective medical treatment to address adverse thyroid conditions that may result from the release of radionuclides from nuclear power plants.

Subtitle C—Emergency Authorities; Additional Provisions

SEC. 131. EXPANDED AUTHORITY OF SECRETARY OF HEALTH AND HUMAN SERVICES TO RESPOND TO PUBLIC HEALTH EMERGENCIES.

(a) TRANSFERS OF FUNDS.—Section 319 of the Public Health Service Act (42 U.S.C. 247d) is amended by adding at the end the following:

“(d) TRANSFERS OF FUNDS BETWEEN PROGRAMS AND ACCOUNTS.—

“(1) IN GENERAL.—At any time during a public health emergency declared by the Secretary under subsection (a), the Secretary may, subject to paragraph (2), transfer funds, to the extent authorized by law, between appropriations accounts administered by the Secretary under this Act, without regard to any waiting period imposed by any other provision of law, including any provision of an appropriations Act, except as provided in paragraphs (3) and (4).

“(2) AMOUNT OF TRANSFERS.—With respect to the public health emergency involved:

“(A) The Secretary may not make a transfer under paragraph (1) in an amount exceeding a reasonable estimate by the Secretary of the amount necessary to respond to the emergency involved for a period of 60 days.

“(B) Subsequent transfers under paragraph (1) may be made by the Secretary, subject to compliance with subparagraph (A).

“(3) NOTIFICATION.—Not later than 48 hours prior to making a transfer under paragraph (1), the Secretary shall submit a notice of the intent to make such transfer to the Committee on Appropriations of the House of Representatives, the Committee on Energy and Commerce of the House of Representatives, the Committee on Appropriations of the Senate, and the Committee on Health, Education, Labor, and Pensions of the Senate.

“(4) SCOPE.—Paragraph (1) shall apply, notwithstanding any other provision of law including any provision of an appropriations

Act and any Act enacted after the date of enactment of this subsection, unless such provision specifically refers to and overrides this subsection.”

(b) REPORTING DEADLINES.—Section 319 of the Public Health Service Act (42 U.S.C. 247d), as amended by subsection (a), is further amended by adding at the end the following:

“(e) DATA SUBMITTAL AND REPORTING DEADLINES.—In any case in which the Secretary determines that, wholly or partially as a result of a public health emergency that has been declared pursuant to subsection (a), individuals or public or private entities are unable to comply with deadlines for the submission to the Secretary of data or reports required under any law administered by the Secretary, the Secretary may, notwithstanding any other provision of law, grant such extensions of such deadlines as the circumstances reasonably require, and may waive, wholly or partially, any sanctions otherwise applicable to such failure to comply. Before or promptly after granting such an extension or waiver, the Secretary shall notify the Congress of such action and publish in the Federal Register a notice of the extension or waiver.”

SEC. 132. STREAMLINING AND CLARIFYING COMMUNICABLE DISEASE QUARANTINE PROVISIONS.

(a) ELIMINATION OF PREREQUISITE FOR NATIONAL ADVISORY HEALTH COUNCIL RECOMMENDATION BEFORE ISSUING QUARANTINE RULES.—

(1) EXECUTIVE ORDERS SPECIFYING DISEASES SUBJECT TO INDIVIDUAL DETENTIONS.—Section 361(b) of the Public Health Act (42 U.S.C. 264(b)) is amended by striking “Executive orders of the President upon the recommendation of the National Advisory Health Council and the Surgeon General” and inserting “Executive orders of the President upon the recommendation of the Secretary, in consultation with the Surgeon General.”

(2) REGULATIONS PROVIDING FOR APPREHENSION OF INDIVIDUALS.—Section 361(d) of the Public Health Act (42 U.S.C. 264(d)) is amended by striking “On recommendation of the National Advisory Health Council, regulations” and inserting “Regulations”.

(3) REGULATIONS PROVIDING FOR APPREHENSION OF INDIVIDUALS IN WARTIME.—Section 363 of the Public Health Act (42 U.S.C. 266) is amended by striking “the Surgeon General, on recommendation of the National Advisory Health Council,” and inserting “the Secretary, in consultation with the Surgeon General.”

(b) APPREHENSION AUTHORITY TO APPLY IN CASES OF EXPOSURE TO DISEASE.—

(1) REGULATIONS PROVIDING FOR APPREHENSION OF INDIVIDUALS.—Section 361(d) of the Public Health Act (42 U.S.C. 264(d)), as amended by subsection (a)(2), is further amended by inserting “or exposed to” after “to be infected with”.

(2) REGULATIONS PROVIDING FOR APPREHENSION OF INDIVIDUALS IN WARTIME.—Section 363 of the Public Health Act (42 U.S.C. 266), as amended by subsection (a)(3), is further amended by inserting “or exposed to” after “to be infected with”.

(c) STATE AUTHORITY.—Section 361 of the Public Health Act (42 U.S.C. 264) is amended by adding at the end the following:

“(e) Nothing in this section or section 363, or the regulations promulgated under such sections, may be construed as superseding any provision under State law (including regulations and including provisions established by political subdivisions of States), except to the extent that such a provision

conflicts with an exercise of Federal authority under this section or section 363.”.

SEC. 133. EMERGENCY WAIVER OF MEDICARE, MEDICAID, AND SCHIP REQUIREMENTS.

(a) **WAIVER AUTHORITY.**—Title XI of the Social Security Act (42 U.S.C. 1301 et seq.) is amended by inserting after section 1134 the following new section:

“SEC. 1135. AUTHORITY TO WAIVE REQUIREMENTS DURING NATIONAL EMERGENCIES.

“(a) **PURPOSE.**—

“(1) **IN GENERAL.**—The purpose of this section is to enable the Secretary to ensure to the maximum extent feasible, in any emergency area and during an emergency period—

“(A) that sufficient health care items and services are available to meet the needs of individuals in such area enrolled in the programs under titles XVIII, XIX, and XXI; and

“(B) that health care providers (as defined in subsection (g)) that furnish such items and services in good faith, but that are unable to comply with one or more requirements described in subsection (b), may be reimbursed for such items and services and exempted from sanctions for such noncompliance, absent any determination of fraud or abuse.

“(2) **EMERGENCY AREA; EMERGENCY PERIOD.**—For purposes of this section, an ‘emergency area’ is a geographical area in which, and an ‘emergency period’ is the period during which, there exists—

“(A) an emergency or disaster declared by the President pursuant to the National Emergencies Act or the Robert T. Stafford Disaster Relief and Emergency Assistance Act; and

“(B) a public health emergency declared by the Secretary pursuant to section 319 of the Public Health Service Act.

“(b) **SECRETARIAL AUTHORITY.**—To the extent necessary to accomplish the purposes specified in subsection (a), the Secretary is authorized, subject to the provisions of this section, to temporarily waive or modify the application of, with respect to health care items and services furnished in any emergency area (or portion of such an area) during an emergency period, the requirements of titles XVIII, XIX, or XXI, or any regulation thereunder (and the requirements of this title, and regulations thereunder, insofar as they relate to such titles), pertaining to—

“(1) conditions of participation or other certification requirements for an individual health care provider or types of providers; program participation and similar requirements for an individual health care provider or types of providers; and pre-approval requirements;

“(2) requirements that physicians and other health care professionals be licensed in the State in which they provide such services, if they have equivalent licensing in another State;

“(3) sanctions under section 1867 (relating to examination and treatment for emergency medical conditions and women in labor) for a transfer of an individual who has not been stabilized in violation of subsection (c) of such section if the transfer arises out of the circumstances of the emergency;

“(4) sanctions under section 1877(g) (relating to limitations on physician referral); and

“(5) deadlines and timetables for performance of required activities, except that such deadlines and timetables may only be modified, not waived.

“(c) **AUTHORITY FOR RETROACTIVE WAIVER.**—A waiver or modification of require-

ments pursuant to this section may, at the Secretary’s discretion, be made retroactive to the beginning of the emergency period or any subsequent date in such period specified by the Secretary.

“(d) **NOTIFICATION OF CONGRESS.**—The Secretary shall provide advance written notice to the Congress at least two days before exercising the authority under this section with respect to an emergency area. Such a notice shall include a description of the specific provisions that will be waived or modified, the health care providers to whom the waiver or modification will apply, the geographic area in which the waiver or modification will apply, and the period of time for which the waiver or modification will be in effect.

“(e) **DURATION OF WAIVER.**—

“(1) **IN GENERAL.**—A waiver or modification of requirements pursuant to this section terminates upon—

“(A) the termination of the applicable declaration of emergency or disaster described in subsection (a)(2)(B);

“(B) the termination of the applicable declaration of public health emergency described in subsection (a)(2)(B); or

“(C) subject to paragraph (2), the termination of a period of 90 days from the date the waiver or modification is first published (or, if applicable, the date of extension of the waiver or modification under paragraph (2)).

“(2) **EXTENSION OF 90-DAY PERIODS.**—The Secretary may, by notice, provide for an extension of a 90-day period described in paragraph (1)(C) (or an additional period provided under this paragraph) for additional period or periods (not to exceed, except as subsequently provided under this paragraph, 90 days each), but any such extension shall not affect or prevent the termination of a waiver or modification under subparagraph (A) or (B) of paragraph (1).

“(f) **REPORT TO CONGRESS.**—Within one year after the end of the emergency period in an emergency area in which the Secretary exercised the authority provided under this section, the Secretary shall report to the Congress regarding the approaches used to accomplish the purposes described in subsection (a), including an evaluation of the success of such approaches and recommendations for improved approaches should the need for such emergency authority arise in the future.

“(g) **HEALTH CARE PROVIDER DEFINED.**—For purposes of this section, the term ‘health care provider’ means any entity that furnishes health care items or services, and includes a hospital or other provider of services, a physician or other health care practitioner or professional, a health care facility, or a supplier of health care items or services.”.

(b) **EFFECTIVE DATE.**—The amendments made by subsection (a) shall be effective on and after September 11, 2001.

SEC. 134. PROVISION FOR EXPIRATION OF PUBLIC HEALTH EMERGENCIES.

Section 319(a) of the Public Health Service Act (42 U.S.C. 247d(a)), is amended by adding at the end the following new sentence: “Any such determination of a public health emergency terminates upon the Secretary declaring that the emergency no longer exists, or upon the expiration of the 90-day period beginning on the date on which the determination is made by the Secretary, whichever occurs first. Determinations that terminate under the preceding sentence may be renewed by the Secretary (on the basis of the same or additional facts), and the preceding sentence applies to each such renewal.”.

SEC. 135. DESIGNATED STATE PUBLIC EMERGENCY ANNOUNCEMENT PLAN.

Section 613(b) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5196b(b)) is amended—

(1) in paragraph (5), by striking “and” at the end;

(2) in paragraph (6), by striking the period and inserting “; and”; and

(3) by adding at the end the following:

“(7) include a plan for providing information to the public in a coordinated manner.”.

SEC. 136. EXPANDED RESEARCH BY SECRETARY OF ENERGY.

(a) **IN GENERAL.**—In coordination with the joint interdepartmental working group under section 319F(a) of the Public Health Service Act, the Secretary of Energy and the Administrator of the National Nuclear Security Administration shall expand, enhance, and intensify research relevant to the rapid detection and identification of pathogens likely to be used in a bioterrorism attack or other agents that may cause a public health emergency.

(b) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated to carry out this section such sums as may be necessary for each of the fiscal years 2002 through 2006.

SEC. 137. AGENCY FOR TOXIC SUBSTANCE AND DISEASE REGISTRY.

(a) **IN GENERAL.**—In planning for and responding to bioterrorism and other public health emergencies, including assisting State health departments, the Secretary of Health and Human Services (in this section referred to as the “Secretary”) shall take into account the role and expertise of the Agency for Toxic Substances and Disease Registry (in this section referred to as “ATSDR”).

(b) **AUTHORIZATION OF APPROPRIATIONS.**—For the purpose of providing resources (including increased personnel, as appropriate) for ATSDR to use authorities under section 104(i) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 to assist the Secretary in planning for or responding to bioterrorism or other public health emergencies, there are authorized to be appropriated to the Secretary such sums as may be necessary for each of the fiscal years 2002 through 2006, in addition to any other authorizations of appropriations that are available for such purpose.

SEC. 138. EXPANDED RESEARCH ON WORKER HEALTH AND SAFETY.

The Secretary, acting through the Director of the National Institute of Occupational Safety and Health, shall enhance and expand research as deemed appropriate on the health and safety of workers who are at risk for bioterrorist threats or attacks in the workplace.

SEC. 139. TECHNOLOGY OPPORTUNITIES PROGRAM SUPPORT.

For fiscal years 2003 and 2004, all of the information infrastructure grants provided by the National Telecommunications and Information Administration (under the program also known as the Technology Opportunities Program) shall be used to provide grants to health providers to facilitate participation in the national public health communications and surveillance networks authorized under section 319D(b)(3) of the Public Health Service Act.

Subtitle D—Authorization of Appropriations

SEC. 151. AUTHORIZATION OF APPROPRIATIONS.

(a) **IN GENERAL.**—For the purpose of carrying out activities of the Department of Health and Human Services in accordance

with the provisions referred to in subsection (b), including making awards of grants, cooperative agreements, or contracts and providing other assistance to States and other public or private entities, there are authorized to be appropriated \$2,720,000,000 for fiscal year 2002, and such sums as may be necessary for each of the fiscal years 2003 through 2006.

(b) **RELEVANT PROVISIONS.**—For purposes of this section, the provisions referred to in this subsection are—

(1) the provisions of this title;

(2) sections 319A through 319K of the Public Health Service Act;

(3) title XXVIII of such Act; and

(4) section 301 of such Act, to the extent that such section is used as the authority of the Secretary of Health and Human Services to carry out activities to supplement the activities carried out under the provisions referred to in paragraphs (1) through (3); except that this section does not have any applicability with respect to the use of section 301 of such Act as authority for activities of the National Institutes of Health.

(c) **FISCAL YEAR 2002.**—

(1) **IN GENERAL.**—The aggregate amount of authorizations of appropriations under this title and under the Public Health Service Act for fiscal year 2002 for the purpose described in subsection (a) does not exceed the amount specified for fiscal year 2002 in such subsection, notwithstanding other authorizations of appropriations.

(2) **ALLOCATIONS OF AUTHORIZATIONS.**—Of the amount that is authorized to be appropriated under subsection (a) for fiscal year 2002, the following authorizations of appropriations for such fiscal year for the purpose described in such subsection apply:

(A) For making awards of grants, cooperative agreements, or contracts and providing other assistance to States and other public or private entities, \$1,000,000,000 is authorized, of which—

(i) \$455,000,000 is authorized for grants under section 319C of the Public Health Service Act;

(ii) \$455,000,000 is authorized for grants or cooperative agreements under section 319F of such Act; and

(iii) \$40,000,000 is authorized for grants or cooperative agreements under section 319H of the Public Health Service Act, as added by section 106 of this Act (relating to shortages of certain health professionals).

(B) For the national stockpile under section 121 of this Act, other than activities of the National Institutes of Health regarding smallpox vaccine, \$1,155,000,000 is authorized, of which \$509,000,000 is authorized for the acquisition of smallpox vaccine.

(C) For the Centers for Disease Control and Prevention, other than purposes to which the authorization established in subparagraph (A) applies, \$450,000,000, of which \$300,000,000 is authorized for facilities of such Centers for purposes described in section 399D(c) of the Public Health Service Act.

(D) For activities on antimicrobial resistance under section 319E of such Act, \$25,000,000 is authorized.

TITLE II—ENHANCING CONTROLS ON DANGEROUS BIOLOGICAL AGENTS AND TOXINS

SEC. 201. REGULATION OF CERTAIN BIOLOGICAL AGENTS AND TOXINS.

(a) **BIOLOGICAL AGENTS PROVISIONS OF THE ANTITERRORISM AND EFFECTIVE DEATH PENALTY ACT OF 1996; CODIFICATION IN THE PUBLIC HEALTH SERVICE ACT, WITH AMENDMENTS.**—

(1) **PUBLIC HEALTH SERVICE ACT.**—Subpart 1 of part F of title III of the Public Health Service Act (42 U.S.C. 262 et seq.) is amended by inserting after section 351 the following:

“SEC. 351A. ENHANCED CONTROL OF DANGEROUS BIOLOGICAL AGENTS AND TOXINS.

“(a) **REGULATORY CONTROL OF CERTAIN BIOLOGICAL AGENTS AND TOXINS.**—

“(1) **LIST OF BIOLOGICAL AGENTS AND TOXINS.**—

“(A) **IN GENERAL.**—The Secretary shall by regulation establish and maintain a list of each biological agent and each toxin that has the potential to pose a severe threat to public health and safety.

“(B) **CRITERIA.**—In determining whether to include an agent or toxin on the list under subparagraph (A), the Secretary shall—

“(i) consider—

“(I) the effect on human health of exposure to the agent or toxin;

“(II) the degree of contagiousness of the agent or toxin and the methods by which the agent or toxin is transferred to humans;

“(III) the availability and effectiveness of immunizations to prevent and treatments for any illness resulting from infection by the agent or toxin; and

“(IV) any other criteria that the Secretary considers appropriate; and

“(i) consult with scientific experts representing appropriate professional groups.

“(2) **BIENNIAL PUBLICATION.**—The Secretary shall publish the list under paragraph (1) biennially, or at such more frequent intervals as the Secretary determines to be appropriate. Before publishing the list, the Secretary shall review the list, and shall make such revisions as are appropriate to protect the public health and safety. In reviewing and revising the list, the Secretary shall consider the needs of vulnerable populations, including children, and shall consult with appropriate Federal agencies and State and local public health officials.

“(b) **REGULATION OF TRANSFERS OF LISTED BIOLOGICAL AGENTS AND TOXINS.**—The Secretary shall by regulation provide for—

“(1) the establishment and enforcement of safety procedures for the transfer of biological agents and toxins listed pursuant to subsection (a)(1), including measures to ensure—

“(A) proper training and appropriate skills to handle such agents and toxins; and

“(B) proper laboratory facilities to contain and dispose of such agents and toxins;

“(2) safeguards to prevent access to such agents and toxins for use in domestic or international terrorism or for any other criminal purpose;

“(3) the establishment of procedures to protect the public safety in the event of a transfer or potential transfer of a biological agent or toxin in violation of the safety procedures established under paragraph (1) or the safeguards established under paragraph (2); and

“(4) appropriate availability of biological agents and toxins for research, education, and other legitimate purposes.

“(c) **POSSESSION AND USE OF LISTED BIOLOGICAL AGENTS AND TOXINS.**—The Secretary shall by regulation provide for the establishment and enforcement of standards and procedures governing the possession and use of biological agents and toxins listed pursuant to subsection (a)(1) in order to protect the public health and safety, including the measures, safeguards, procedures, and availability of such agents and toxins described in paragraphs (1) through (4) of subsection (b), respectively.

“(d) **REGISTRATION AND TRACEABILITY MECHANISMS; DATABASE.**—Regulations under subsections (b) and (c) shall require registration of the possession, use, and transfer of biological agents and toxins listed pursuant to subsection (a)(1), and such registration shall

include (if available to the registered person) information regarding the characterization of such biological agents and toxins to facilitate their identification and traceability. The Secretary shall maintain a national database of the location of such agents and toxins, with information regarding their characterizations.

“(e) **INSPECTIONS.**—The Secretary may conduct inspections to ensure that persons subject to regulations under subsection (b) or (c) are in compliance with such regulations, including provisions regarding security and restrictions on access under subsection (g).

“(f) **EXEMPTIONS.**—The Secretary may establish exemptions from the applicability of provisions of regulations under subsection (b) or (c) if the Secretary determines that such exemptions are consistent with protecting the public health and safety. In the case of a clinical laboratory that is in possession of a biological agent or toxin listed pursuant to subsection (a)(1), such an exemption may be provided only if such agent or toxin has been presented for diagnosis, verification, or proficiency testing, and upon identification or verification of the agent or toxin, such laboratory—

“(1) promptly notifies the Secretary or other public health authorities when required under Federal or State law; and

“(2) transfers or destroys the agent or toxin in accordance with such regulations.

“(g) **SECURITY REQUIREMENTS FOR REGISTERED PERSONS.**—

“(1) **IN GENERAL.**—In carrying out the provisions of subsections (b) and (c) that relate to safeguards, the Secretary, in consultation with the Attorney General, shall by regulation establish appropriate security requirements for persons possessing, using, or transferring biological agents or toxins listed pursuant to subsection (a)(1), and ensure compliance with such requirements as a condition of registration under subsection (b) or (c).

“(2) **LIMITING ACCESS TO LISTED AGENTS AND TOXINS.**—

“(A) **IN GENERAL.**—Regulations issued under subsections (b) and (c) shall include provisions—

“(i) to restrict access to biological agents and toxins listed pursuant to subsection (a)(1) to only those individuals who have a legitimate need for access, as determined according to the purposes for which the registration under such regulations is provided; and

“(ii) to ensure that individuals granted such access are not—

“(I) restricted persons, as defined in section 175b of title 18, United States Code;

“(II) named in a warrant issued to a Federal or State law enforcement agency for participation in any domestic or international act of terrorism or other act of violence;

“(III) under investigation for involvement with a domestic or international terrorist or criminal organization by any Federal law enforcement or intelligence agency; or

“(IV) suspected by any Federal law enforcement or intelligence agency of seeking to obtain covertly information relating to biological agents or toxins on behalf of the intelligence or military operations of a foreign nation.

“(B) **SCREENING PROTOCOL.**—To carry out subparagraph (A), the Secretary shall require that registered persons promptly submit the names and other identifying information for individuals described in subparagraph (A)(i) to the Secretary and the Attorney General, with which information the Attorney General shall promptly use criminal,

immigration, and national security databases available to the Federal Government to identify whether such individuals satisfy the conditions for access under subparagraph (A)(ii). The Secretary, in consultation with the Attorney General and other Federal agencies, shall periodically review and as appropriate revise the protocol for screening individuals for purposes of subparagraph (A), and may require by regulation additional screening measures if determined necessary to achieve the purposes of this section.

“(3) ASSISTANCE FOR CERTAIN ENTITIES.—The Secretary, in consultation with the Attorney General, may make awards of grants, contracts, or cooperative agreements to public and nonprofit private entities (other than Federal agencies), and may provide technical assistance to such entities, to improve security of the facilities of registered persons.

“(h) DISCLOSURE OF INFORMATION.—

“(1) IN GENERAL.—Any information in the possession of any Federal agency that identifies a person, or the geographic location of a person, who is registered pursuant to regulations under this section (including regulations promulgated before the effective date of this subsection), and any site-specific information relating to the type, quantity, or identity of a biological agent or toxin listed pursuant to subsection (a)(1) or the site-specific security mechanisms in place to protect such agents and toxins, shall not be disclosed under section 552(a) of title 5, United States Code.

“(2) DISCLOSURES FOR PUBLIC HEALTH AND SAFETY; CONGRESS.—Nothing in this section may be construed as preventing the head of any Federal agency—

“(A) from making disclosures of information described in paragraph (1) for purposes of protecting the public health and safety; or

“(B) from making disclosures of such information to any committee or subcommittee of the Congress with appropriate jurisdiction, upon request.

“(i) CIVIL MONEY PENALTY.—

“(1) IN GENERAL.—In addition to any other penalties that may apply under law, any person who violates any provision of regulations under subsection (b) or (c) shall be subject to the United States for a civil money penalty in an amount not exceeding \$250,000 in the case of an individual and \$500,000 in the case of any other person.

“(2) APPLICABILITY OF CERTAIN PROVISIONS.—The provisions of section 1128A of the Social Security Act (other than subsections (a), (b), (h), and (i), the first sentence of subsection (c), and paragraphs (1) and (2) of subsection (f)) shall apply to a civil money penalty under paragraph (1) in the same manner as such provisions apply to a penalty or proceeding under section 1128A(a) of such Act. The Secretary may delegate authority under this subsection in the same manner as provided in section 1128A(j)(2) of the Social Security Act, and such authority shall include all powers as contained in section 6 of the Inspector General Act of 1978.

“(j) COORDINATION WITH REGULATIONS UNDER VIRUS-SERUM-TOXIN ACT.—

“(1) IN GENERAL.—In establishing and enforcing regulations under subsections (b) and (c), the Secretary shall consult with the Secretary of Agriculture to ensure that such activities are coordinated, to the greatest extent practicable, with regulations governing certain biological agents and toxins listed pursuant to subsection (a)(1) issued by the Secretary of Agriculture under the Act commonly known as the Virus-Serum-Toxin Act (the eighth paragraph under the heading ‘Bureau of Animal Industry’ in the Act of March

4, 1913; 21 U.S.C. 151-159) (in this subsection referred to as the ‘VST Act’). The purpose of such coordination shall be—

“(A) to minimize any conflicts between the regulations issued by, or the activities of, the Secretary of Health and Human Services and the Secretary of Agriculture with respect to such agents and toxins;

“(B) to minimize the administrative burden on persons subject to regulations under both this section and the VST Act;

“(C) to ensure the appropriate availability of such agents and toxins for legitimate agricultural or veterinary research, education, or other such purposes; and

“(D) to ensure the establishment of a national database of such agents or toxins pursuant to subsection (d).

“(2) PERSONS REGULATED BY DEPARTMENT OF AGRICULTURE.—With respect to persons possessing or using biological agents or toxins listed pursuant to subsection (a)(1) who, as of the date of enactment of the Public Health Security and Bioterrorism Response Act of 2001, possess an unexpired, unrevoked, and unsuspended permit or license from the Department of Agriculture for such possession or use, such persons may, for purposes of registration under subsection (b) or (c), submit to the Secretary of Health and Human Services the same information previously provided to the Secretary of Agriculture to obtain such permit or license, provided that the information so submitted is accurate as of the time of submittal to the Secretary of Health and Human Services, and provided further that such Secretary may, after review of such submission, request such additional information as the Secretary determines to be necessary to achieve the purposes of this section.

“(3) SAVINGS PROVISION.—Nothing in this section shall be construed as limiting any authority of the Secretary of Agriculture under the VST Act or any regulations issued thereunder.

“(k) DEFINITIONS.—For purposes of this section:

“(1) The terms ‘biological agent’ and ‘toxin’ have the meanings given such terms in section 178 of title 18, United States Code.

“(2) The term ‘registered person’ means a person registered under regulations under subsection (b) or (c).

“(1) AUTHORIZATION OF APPROPRIATIONS.—For the purpose of carrying out this section, there are authorized to be appropriated such sums as may be necessary for each of the fiscal years 2002 through 2006.”

(2) RELATION TO OTHER LAWS.—

(A) RULE OF CONSTRUCTION.—Regulations promulgated by the Secretary of Health and Human Services under section 511 of the Antiterrorism and Effective Death Penalty Act of 1996 are deemed to have been promulgated under section 351A of the Public Health Service Act, as added by paragraph (1) of this subsection. Such regulations, including the list under subsection (d)(1) of such section 511, that were in effect on the day before the date of the enactment of this Act remain in effect until modified by the Secretary (including any revisions required under subsection (a)(2) of such section 351A).

(B) CONFORMING AMENDMENT.—Subsections (d), (e), (f), and (g) of section 511 of the Antiterrorism and Effective Death Penalty Act of 1996 (42 U.S.C. 262 note) are repealed.

(3) DATE CERTAIN FOR PROMULGATION OF CERTAIN REGULATIONS; EFFECTIVE DATE REGARDING CRIMINAL AND CIVIL PENALTIES.—With respect to section 351A of the Public Health Service Act (as added by paragraph (1) of this subsection):

(A) Not later than 30 days after the date of the enactment of this Act, the Secretary of Health and Human Services shall promulgate an interim final rule requiring all persons in possession of biological agents or toxins listed pursuant to subsection (a)(1) of such section (unless exempt under subsection (e) of such section) to provide notice to the Secretary of such possession, and to include in the notice such additional information as the Secretary may require for compliance with subsection (d) of such section or any other provision of such section, by not later than 30 days after the date on which such rule is promulgated. Such interim final rule takes effect on the date on which the rule is promulgated, except as follows:

(i) For purposes of section 175b(c) of title 18, United States Code (relating to criminal penalties), as added by subsection (a)(1)(E) of this section, the rule takes effect 60 days after the date on which the rule is promulgated.

(ii) For purposes of subsection (i) of such section 351A (relating to civil penalties), the rule takes effect 60 days after the date on which the rule is promulgated.

(B) Not later than 120 days after the date of enactment of this Act, such Secretary shall promulgate an interim final rule for carrying out subsections (b) and (c) of such section 351A. Such interim final rule takes effect 60 days after the date on which the rule is promulgated.

(4) EFFECTIVE DATE REGARDING DISCLOSURE OF INFORMATION.—Subsection (h) of section 351A of the Public Health Service Act, as added by paragraph (1) of this subsection, is deemed to have taken effect on the effective date of the Antiterrorism and Effective Death Penalty Act of 1996.

(b) CRIMINAL PENALTIES REGARDING SELECT AGENTS.—

(1) IN GENERAL.—Section 175b of title 18, United States Code, as added by section 817 of Public Law 107-56, is amended—

(A) by striking “(a)” and inserting “(a)(1)”;

(B) by transferring subsection (c) from the current placement of the subsection and inserting the subsection before subsection (b);

(C) by striking “(c)” and inserting “(2);

(D) by redesignating subsection (b) as subsection (d); and

(E) by inserting before subsection (d) (as so redesignated) the following subsections:

“(b) TRANSFER TO UNREGISTERED PERSON.—Whoever knowingly transfers a select agent to a person without first verifying with the Secretary of Health and Human Services that the person has obtained a registration required by regulations under subsection (b) or (c) of section 351A of the Public Health Service Act shall be fined under this title, or imprisoned for not more than 5 years, or both.

“(c) UNREGISTERED FOR POSSESSION.—Whoever knowingly possesses a biological agent or toxin where such agent or toxin is a select agent for which such person has not obtained a registration required by regulations under section 351A(c) of the Public Health Service Act shall be fined under this title, or imprisoned for not more than 5 years, or both.”

(2) CONFORMING AMENDMENTS.—Chapter 10 of title 18, United States Code, is amended—

(A) in section 175b (as added by section 817 of Public Law 107-56 and amended by paragraph (1) of this subsection)—

(i) in subsection (d)(1), by striking “The term” and all that follows through “does not include” and inserting the following: “The term ‘select agent’ means a biological agent or toxin to which subsection (a) applies. Such term (including for purposes of subsection (a)) does not include”; and

(ii) in the heading for the section, by striking “**Possession by restricted persons**” and inserting “**Select agents**”; and

(B) in the chapter analysis, in the item relating to section 175b, by striking “Possession by restricted persons.” and inserting “Select agents.”.

(3) TECHNICAL CORRECTIONS.—Chapter 10 of title 18, United States Code, as amended by section 817 of Public Law 107-56 and paragraphs (1) and (2) of this subsection, is amended—

(A) in section 175—

(i) in subsection (a), in the second sentence, by striking “this section” and inserting “this subsection”; and

(ii) in subsection (c), by striking “protective” and all that follows and inserting “protective, bona fide research, or other peaceful purposes.”;

(B) in section 175b—

(i) in subsection (a)(1), by striking “described in subsection (b)” and all that follows and inserting the following: “shall ship or transport in or affecting interstate or foreign commerce, or possess in or affecting interstate or foreign commerce, any biological agent or toxin, or receive any biological agent or toxin that has been shipped or transported in interstate or foreign commerce, if the biological agent or toxin is listed as a select agent in Appendix A of part 72 of title 42, Code of Federal Regulations, pursuant to section 351A of the Public Health Service Act, and is not exempted under subsection (h) of section 72.6, or Appendix A of part 72, of title 42, Code of Federal Regulations.”; and

(ii) in subsection (d)(3), by striking “section 1010(a)(3)” and inserting “section 101(a)(3)”;

(C) in section 176(a)(1)(A), by striking “exists by reason of” and inserting “pertains to”; and

(D) in section 178—

(i) in paragraph (1), by striking “means any micro-organism” and all that follows through “product, capable of” and inserting the following: “means any microorganism (including, but not limited to, bacteria, viruses, fungi, rickettsiae or protozoa), or infectious substance, or any naturally occurring, bioengineered or synthesized component of any such microorganism or infectious substance, capable of”;

(ii) in paragraph (2), by striking “means the toxic” and all that follows through “including—” and inserting the following: “means the toxic material or product of plants, animals, microorganisms (including, but not limited to, bacteria, viruses, fungi, rickettsiae or protozoa), or infectious substances, or a recombinant or synthesized molecule, whatever their origin and method of production, and includes—”;

(iii) in paragraph (4), by striking “recombinant molecule,” and all that follows through “biotechnology,” and inserting “recombinant or synthesized molecule.”.

(4) ADDITIONAL TECHNICAL CORRECTION.—Section 2332a of title 18, United States Code, is amended—

(A) in subsection (a), in the matter preceding paragraph (1), by striking “section 229F)” and all that follows through “section 178)—” and inserting “section 229F)—”;

(B) in subsection (c)(2)(C), by striking “a disease organism” and inserting “a biological agent, toxin, or vector (as those terms are defined in section 178 of this title)”.

(C) SECURITY UPGRADES AT THE DEPARTMENT OF HEALTH AND HUMAN SERVICES.—For the purpose of enabling the Secretary of Health and Human Services to secure exist-

ing facilities of the Department of Health and Human Services where biological agents or toxins listed under section 351A(a)(1) of the Public Health Service Act are housed or researched, or where vaccines are housed or researched, there are authorized to be appropriated such sums as may be necessary for fiscal year 2002 and each subsequent fiscal year.

(d) REPORT TO CONGRESS.—Not later than 1 year after the date of the enactment of this Act, the Secretary of Health and Human Services, after consultation with other appropriate Federal agencies, shall submit to the Congress a report that—

(1) describes the extent to which there has been compliance by governmental and private entities with applicable regulations under section 351A of the Public Health Service Act (as added by subsection (a) of this section), including the extent of compliance before the date of the enactment of this Act, and including the extent of compliance with regulations promulgated after such date of enactment;

(2) describes the actions to date and future plans of the Secretary for updating the list of biological agents and toxins under such section 351A;

(3) describes the actions to date and future plans of the Secretary for determining compliance with regulations under such section 351A and for taking appropriate enforcement actions; and

(4) provides any recommendations of the Secretary for administrative or legislative initiatives regarding such section 351A.

TITLE III—AMENDMENTS TO FEDERAL FOOD, DRUG, AND COSMETIC ACT

Subtitle A—Protection of Food Supply

SEC. 301. PROTECTION AGAINST INTENTIONAL ADULTERATION OF FOOD.

(a) INCREASING INSPECTIONS FOR DETECTION OF INTENTIONAL ADULTERATION OF FOOD.—Section 801 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 381) is amended by adding at the end the following subsection:

“(h)(1) The Secretary shall give high priority to increasing the number of inspections under this section for the purpose of enabling the Secretary to inspect food offered for import at ports of entry into the United States, with the greatest priority given to inspections to detect the intentional adulteration of food.”.

(b) IMPROVEMENTS TO INFORMATION MANAGEMENT SYSTEMS.—Section 801(h) of the Federal Food, Drug, and Cosmetic Act, as added by subsection (a) of this section, is amended by adding at the end the following paragraphs:

“(2) The Secretary shall give high priority to making necessary improvements to the information management systems of the Food and Drug Administration that contain information related to foods imported or offered for import into the United States for purposes of improving the ability of the Secretary to allocate resources, detect the intentional adulteration of food, and facilitate the importation of food that is in compliance with this Act.

“(3) The Secretary shall submit to the Committee on Energy and Commerce of the House of Representatives, and the Committee on Health, Education, Labor, and Pensions of the Senate, periodic reports describing the activities of the Secretary under paragraphs (1) and (2).”.

(c) TESTING FOR RAPID DETECTION OF INTENTIONAL ADULTERATION OF FOOD.—Section 801 of the Federal Food, Drug, and Cosmetic Act, as amended by subsection (a) of this section, is amended by adding at the end the following:

“(i)(1) For use in inspections of food under this section, the Secretary shall provide for research on the development of tests and sampling methodologies—

“(A) whose purpose is to test food in order to rapidly detect the adulteration of the food, with the greatest priority given to detect the intentional adulteration of food; and

“(B) whose results offer significant improvements over the available technology in terms of accuracy, timing, or costs.

“(2) In providing for research under paragraph (1), the Secretary shall give priority to conducting research on the development of tests that are suitable for inspections of food at ports of entry into the United States.

“(3) In providing for research under paragraph (1), the Secretary shall as appropriate coordinate with the Director of the Centers for Disease Control and Prevention, the Director of the National Institutes of Health, the Administrator of the Environmental Protection Agency, and the Secretary of Agriculture.

“(4) The Secretary shall annually submit to the Committee on Energy and Commerce of the House of Representatives, and the Committee on Health, Education, Labor, and Pensions of the Senate, a report describing the progress made in research under paragraph (1), including progress regarding paragraph (2).”.

(d) ASSESSMENT OF THREAT OF INTENTIONAL ADULTERATION OF FOOD.—The Secretary of Health and Human Services, acting through the Commissioner of Food and Drugs, shall ensure that, not later than six months after the date of the enactment of this Act—

(1) the assessment that (as of such date of enactment) is being conducted on the threat of the intentional adulteration of food is completed; and

(2) a report describing the findings of the assessment is submitted to the Committee on Energy and Commerce of the House of Representatives and to the Committee on Health, Education, Labor, and Pensions of the Senate.

(e) AUTHORIZATION OF APPROPRIATIONS.—For the purpose of carrying out this section and the amendments made by this section, there are authorized to be appropriated \$100,000,000 for fiscal year 2002, and such sums as may be necessary for each of the fiscal years 2003 through 2006, in addition to other authorizations of appropriations that are available for such purpose.

SEC. 302. ADMINISTRATIVE DETENTION.

(a) EXPANDED AUTHORITY.—Section 304 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 334) is amended by adding at the end the following subsection:

“(h) ADMINISTRATIVE DETENTION OF FOODS.—

“(1) DETENTION AUTHORITY.—

“(A) IN GENERAL.—An officer or qualified employee of the Food and Drug Administration may order the detention, in accordance with this subsection, of any article of food that is found during an inspection, examination, or investigation under this Act conducted by such officer or qualified employee, if the officer or qualified employee has credible evidence or information indicating that such article presents a threat of serious adverse health consequences or death to humans or animals.

“(B) SECRETARY’S APPROVAL.—An article of food may be ordered detained under subparagraph (A) only if the Secretary or an official designated by the Secretary approves the order. An official may not be so designated

unless the official is the director of the district under this Act in which the article involved is located, or is an official senior to such director.

“(2) PERIOD OF DETENTION.—An article of food may be detained under paragraph (1) for a reasonable period, not to exceed 20 days, unless a greater period, not to exceed 30 days, is necessary, to enable the Secretary to institute an action under subsection (a) or section 302. The Secretary shall by regulation provide for procedures for instituting such action on an expedited basis with respect to perishable foods.

“(3) SECURITY OF DETAINED ARTICLE.—An order under paragraph (1) with respect to an article of food may require that such article be labeled or marked as detained, and may require that the article be removed to a secure facility. An article subject to such an order shall not be transferred by any person from the place at which the article is ordered detained, or from the place to which the article is so removed, as the case may be, until released by the Secretary or until the expiration of the detention period applicable under such order, whichever occurs first.

“(4) APPEAL OF DETENTION ORDER.—With respect to an article of food ordered detained under paragraph (1), any person who would be entitled to be a claimant for such article if the article were seized under subsection (a) may appeal the order to the Secretary. Within 72 hours after such an appeal is filed, the Secretary, after providing opportunity for an informal hearing, shall confirm or terminate the order involved, and such confirmation by the Secretary shall be considered a final agency action for purposes of section 702 of title 5, United States Code. If during such 72-hour period the Secretary fails to provide such an opportunity, or to confirm or terminate such order, the order is deemed to be terminated.”

(b) PROHIBITED ACT.—Section 301 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 331) is amended by adding at the end the following:

“(bb) The transfer of an article of food in violation of an order under section 304(h), or the removal or alteration of any mark or label required by the order to identify the article as detained.”

(c) TEMPORARY HOLDS AT PORTS OF ENTRY.—Section 801 of the Federal Food, Drug, and Cosmetic Act, as amended by section 301(c) of this Act, is amended by adding at the end the following:

“(j)(1) If an officer or qualified employee of the Food and Drug Administration has credible evidence or information indicating that an article of food presents a threat of serious adverse health consequences or death to humans or animals, and such officer or qualified employee is unable to inspect, examine, or investigate such article upon the article being offered for import at a port of entry into the United States, the officer or qualified employee shall request the Secretary of Treasury to hold the food at the port of entry for a reasonable period of time, not to exceed 24 hours, for the purpose of enabling the Secretary to inspect, examine, or investigate the article as appropriate.

“(2) The Secretary shall request the Secretary of Treasury to remove an article held pursuant to paragraph (1) to a secure facility, as appropriate. During the period of time that such article is so held, the article shall not be transferred by any person from the port of entry into the United States for the article, or from the secure facility to which the article has been removed, as the case may be.

“(3) An officer or qualified employee of the Food and Drug Administration may make a request under paragraph (1) only if the Secretary or an official designated by the Secretary approves the request. An official may not be so designated unless the official is the director of the district under this Act in which the article involved is located, or is an official senior to such director.

“(4) With respect to an article of food for which a request under paragraph (1) is made, the Secretary, promptly after the request is made, shall notify the State in which the port of entry involved is located that the request has been made, and as applicable, that such article is being held under this subsection.”

SEC. 303. PERMISSIVE DEBARMENT REGARDING FOOD IMPORTATION.

(a) IN GENERAL.—Section 306(b) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 335a(b)) is amended—

(1) in paragraph (1)—

(A) in subparagraph (A), by striking “or” after the comma at the end;

(B) in subparagraph (B), by striking the period at the end and inserting “, or”; and

(C) by adding at the end the following subparagraph:

“(C) a person from importing an article of food or offering such an article for import into the United States.”

(2) in paragraph (2), in the matter preceding subparagraph (A), by inserting “subparagraph (A) or (B) of” before “paragraph (1)”; and

(3) by redesignating paragraph (3) as paragraph (4); and

(4) by inserting after paragraph (2) the following paragraph:

“(3) PERSONS SUBJECT TO PERMISSIVE DEBARMENT; FOOD IMPORTATION.—A person is subject to debarment under paragraph (1)(C) if—

“(A) the person has been convicted of a felony for conduct relating to the importation into the United States of any article of food; or

“(B)(i) the person has repeatedly imported or offered for import adulterated articles of food; and

“(ii) the person knew, or should have known, that such articles were adulterated.”

(b) CONFORMING AMENDMENTS.—Section 306 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 335a) is amended—

(1) in subsection (a), in the heading for the subsection, by striking “MANDATORY DEBARMENT.—” and inserting “MANDATORY DEBARMENT; CERTAIN DRUG APPLICATIONS.—”; and

(2) in subsection (b)—

(A) in the heading for the subsection, by striking “PERMISSIVE DEBARMENT.—” and inserting “PERMISSIVE DEBARMENT; CERTAIN DRUG APPLICATIONS.—”; and

(B) in paragraph (2), in the heading for the paragraph, by striking “PERMISSIVE DEBARMENT.—” and inserting “PERMISSIVE DEBARMENT; CERTAIN DRUG APPLICATIONS.—”; and

(3) in subsection (c)(2)(A)(iii), by striking “subsection (b)(2)” and inserting “paragraph (2) or (3) of subsection (b)”; and

(4) in subsection (d)(3)—

(A) in subparagraph (A)(i), by striking “or (b)(2)(A)” and inserting “or paragraph (2)(A) or (3) of subsection (b)”; and

(B) in subparagraph (A)(ii)(II), by inserting “in applicable cases,” before “sufficient audits”; and

(C) in subparagraph (B), in each of clauses (i) and (ii), by inserting “or subsection (b)(3)” after “subsection (b)(2)(B).”

(c) EFFECTIVE DATES.—Section 306(1)(2) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 335a(1)(2)) is amended—

(1) in the first sentence—

(A) by striking “and” after “subsection (b)(2)”; and

(B) by inserting “, and subsection (b)(3)” after “subsection (b)(2)(B)”; and

(2) in the second sentence, by inserting “, subsection (b)(3),” after “subsection (b)(2)(B).”

(d) PROHIBITED ACT.—Section 301 of the Federal Food, Drug, and Cosmetic Act, as amended by section 302(b) of this Act, is amended by adding at the end the following:

“(cc) The importing or offering for import into the United States of an article of food by, with the assistance of, or at the direction of, a person debarred under section 306(b)(1)(C).”

SEC. 304. MAINTENANCE AND INSPECTION OF RECORDS FOR FOODS.

(a) IN GENERAL.—Chapter IV of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 341 et seq.) is amended by adding at the end the following section:

“SEC. 414. MAINTENANCE AND INSPECTION OF RECORDS.

“(a) RECORDS INSPECTION.—If the Secretary has credible evidence or information indicating that an article of food presents a threat of serious adverse health consequences or death to humans or animals, each person (excluding farms and restaurants) who manufactures, processes, packs, distributes, receives, holds, or imports such article shall, at the request of an officer or employee duly designated by the Secretary, permit such officer or employee, upon presentation of appropriate credentials and a written notice to such person, at reasonable times and within reasonable limits and in a reasonable manner, to have access to and copy all records relating to such article that are needed to assist the Secretary in investigating such credible evidence or information. The requirement under the preceding sentence applies to all records relating to the manufacture, processing, packing, distribution, receipt, holding, or importation of such article maintained by or on behalf of such person in any format (including paper and electronic formats) and at any location.

“(b) REGULATIONS CONCERNING RECORD-KEEPING.—The Secretary, in consultation and coordination, as appropriate, with other Federal departments and agencies with responsibilities for regulating food safety, may by regulation establish requirements regarding the maintenance of records by persons (excluding farms and restaurants) who manufacture, process, pack, transport, distribute, receive, hold, or import food, as may be necessary to trace the source and chain of distribution of food and its packaging in order to address credible threats of serious adverse health consequences or death to humans or animals. The Secretary shall take into account the size of a business in promulgating regulations under this section.

“(c) PROTECTION OF SENSITIVE INFORMATION.—The Secretary shall take appropriate measures to ensure that there are in effect effective procedures to prevent the unauthorized disclosure of any trade secret or confidential information that is obtained by the Secretary pursuant to this section.

“(d) LIMITATIONS.—This section shall not be construed—

“(1) to limit the authority of the Secretary to inspect records or to require maintenance of records under any other provision of this Act;

“(2) to authorize the Secretary to impose any requirements with respect to a food to

the extent that it is within the exclusive jurisdiction of the Secretary of Agriculture pursuant to the Federal Meat Inspection Act (21 U.S.C. 601 et seq.), the Poultry Products Inspection Act (21 U.S.C. 451 et seq.), or the Egg Products Inspection Act (21 U.S.C. 1031 et seq.);

“(3) to have any legal effect on section 552 of title 5, United States Code, or section 1905 of title 18, United States Code; or

“(4) to extend to recipes for food, financial data, pricing data, personnel data, research data, or sales data (other than shipment data regarding sales).”.

(b) **FACTORY INSPECTION.**—Section 704(a) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 374(a)) is amended—

(1) in paragraph (1), by inserting after the first sentence the following new sentence: “In the case of any person (excluding farms and restaurants) who manufactures, processes, packs, transports, distributes, holds, or imports foods, the inspection shall extend to all records and other information described in section 414 when the Secretary has credible evidence or information indicating that an article of food presents a threat of serious adverse health consequences or death to humans or animals, subject to the limitations established in section 414(d).”; and

(2) in paragraph (2), in the matter preceding subparagraph (A), by striking “second sentence” and inserting “third sentence”.

(c) **PROHIBITED ACT.**—Section 301(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 331(e)) is amended—

(1) by striking “by section 412, 504, or 703” and inserting “by section 412, 414, 504, 703, or 704(a); and

(2) by striking “under section 412” and inserting “under section 412, 414(b)”.

SEC. 305. REGISTRATION.

(a) **IN GENERAL.**—Chapter IV of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 341 et seq.), as amended by section 304 of this Act, is amended by adding at the end the following:

“SEC. 415. REGISTRATION.

“(a) REGISTRATION.—

“(1) **IN GENERAL.**—Any facility (excluding farms) engaged in manufacturing, processing, packing, or holding food for consumption in the United States shall be registered with the Secretary. To be registered—

“(A) for a domestic facility, the owner, operator, or agent in charge of the facility shall submit a registration to the Secretary; and

“(B) for a foreign facility, the owner, operator, or agent in charge of the facility shall submit a registration to the Secretary and shall include with the registration the name of the United States agent for the facility.

“(2) **REGISTRATION.**—An entity (referred to in this section as the ‘registrant’) shall submit a registration under paragraph (1) to the Secretary containing information necessary to notify the Secretary of the identity and address of each facility at which, and all trade names under which, the registrant conducts business and, when determined necessary by the Secretary through guidance, the general food category (as identified under section 170.3 of title 21, Code of Federal Regulations, or successor regulations) of any food manufactured, processed, packed, or held at such facility. The registrant shall notify the Secretary in a timely manner of changes to such information.

“(3) **PROCEDURE.**—Upon receipt of a completed registration described in paragraph (1), the Secretary shall notify the registrant of the receipt of such registration and assign a registration number to each registered facility.

“(4) **LIST.**—The Secretary shall compile and maintain an up-to-date list of facilities that are registered under this section. Such list and other information required to be submitted under this subsection shall not be subject to the disclosure requirements of section 552 of title 5, United States Code.

“(b) **EXEMPTION.**—The Secretary shall by regulation exempt types of retail establishments from the requirements of subsection (a) only if the Secretary determines that the registration of such facilities is not needed for effective enforcement of this chapter and any regulations issued under this chapter.

“(c) **FACILITY.**—For purposes of this section, the term ‘facility’ includes any factory, warehouse, or establishment (including a factory, warehouse, or establishment of an importer), that manufactures, processes, packs, or holds food. Such term does not include restaurants or other establishments in which food is served solely for immediate human consumption.

“(d) **RULE OF CONSTRUCTION.**—Nothing in this section shall be construed to authorize the Secretary to require an application, review, or licensing process.”.

(b) PROHIBITED ACTS.—

(1) **IN GENERAL.**—Section 301 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 331), as amended by section 303(d) of this Act, is amended by adding at the end the following:

“(dd) The failure to register in accordance with section 415.”.

(2) **MISBRANDED FOOD.**—Section 403 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 343) is amended by adding at the end the following:

“(t) If it is manufactured, processed, packed, or held in a facility that is not registered in accordance with section 415.”.

(c) **EFFECTIVE DATE.**—The amendment made by subsection (b) shall take effect 180 days after the date of the enactment of this Act.

(d) **NOTICE.**—Not later than 60 days after the date of the enactment of this Act, the Secretary of Health and Human Services, after consultation with appropriate State and local officials, shall take sufficient measures to notify entities that manufacture, process, pack, or hold food for consumption in the United States of the requirement pursuant to this section that facilities be registered with the Secretary. The Secretary shall develop guidance, as needed, to identify facilities required to register under this section.

(e) **ELECTRONIC FILING.**—For the purpose of reducing paperwork and reporting burdens, the Secretary of Health and Human Services may provide for, and encourage the use of, electronic methods of submitting to the Secretary registrations required pursuant to this section. In providing for the electronic submission of such registrations, the Secretary shall ensure adequate authentication protocols are used to enable identification of the registrant and validation of the data as appropriate.

(f) **SAVINGS CLAUSE.**—This section may not be construed as authorizing the Secretary of Health and Human Services to impose any requirements with respect to a food to the extent that it is within the exclusive jurisdiction of the Secretary of Agriculture pursuant to the Federal Meat Inspection Act (21 U.S.C. 601 et seq.), the Poultry Products Inspection Act (21 U.S.C. 451 et seq.), or the Egg Products Inspection Act (21 U.S.C. 1031 et seq.).

SEC. 306. PRIOR NOTICE OF IMPORTED FOOD SHIPMENTS.

(a) **IN GENERAL.**—Section 801 of the Federal Food, Drug, and Cosmetic Act, as amended

by section 302(c) of this Act, is amended by adding at the end the following subsection:

“(k)(1) In the case of an article of food that is being imported or offered for import into the United States, the Secretary, after consultation with the Secretary of the Treasury, shall by regulation require, for the purpose of enabling such article to be inspected at ports of entry into the United States, the submission to the Secretary of a notice providing the identity of each of the following: The article; the manufacturer and shipper of the article, and if known within the specified period of time that notice is required to be provided, the grower of the article; the country from which the article originates; the country from which the article is shipped; and the anticipated port of entry for the article. An article of food imported or offered for import without submission of such notice in accordance with regulations under this paragraph shall be refused admission into the United States. Nothing in this section may be construed as a limitation on the port of entry for an article of food.

“(2)(A) Regulations under paragraph (1) shall require that a notice under such paragraph be provided by a specified period of time, not fewer than 24 hours, in advance of the time of the importation of the article of food involved or the offering of the food for import, except that the advance period so required may not exceed 72 hours.

“(B)(i) If an article of food is being imported or offered for import into the United States and a notice under paragraph (1) is not provided in advance in accordance with subparagraph (A), such article shall be held at the port of entry for the article, and may not be delivered to the importer, owner, or consignee of the article, until such notice is submitted to the Secretary, and the Secretary examines the notice and determines that the notice is in accordance with regulations under paragraph (1). The preceding sentence may not be construed as authorizing such delivery pursuant to the execution of a bond, pending such a determination by the Secretary.

“(ii) In carrying out clause (i) with respect to an article of food, the Secretary shall determine whether there is in the possession of the Secretary any credible evidence or information indicating that such article presents a threat of serious adverse health consequences or death to humans or animals.

“(3)(A) This subsection may not be construed as limiting the authority of the Secretary to obtain information under any other provision of this Act.

“(B) This subsection may not be construed as authorizing the Secretary to impose any requirements with respect to a food to the extent that it is within the exclusive jurisdiction of the Secretary of Agriculture pursuant to the Federal Meat Inspection Act (21 U.S.C. 601 et seq.), the Poultry Products Inspection Act (21 U.S.C. 451 et seq.), or the Egg Products Inspection Act (21 U.S.C. 1031 et seq.).”.

(b) **PROHIBITED ACT.**—Section 301 of the Federal Food, Drug, and Cosmetic Act, as amended by section 305(b)(1) of this Act, is amended by adding at the end the following:

“(ee) The importing or offering for import into the United States of an article of food in violation of regulations under section 801(k).”.

SEC. 307. AUTHORITY TO MARK ARTICLES REFUSED ADMISSION INTO UNITED STATES.

(a) **IN GENERAL.**—Section 801 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 381(a)), as amended by section 306(a) of this

Act, is amended by adding at the end the following:

“(1)(1) If a food has been refused admission under subsection (a), other than such a food that is required to be destroyed, and the Secretary determines that the food presents a threat of serious adverse health consequences or death to humans or animals, the Secretary may require the owner or consignee of the food to affix to the container of the food a label that clearly and conspicuously bears the statement: ‘UNITED STATES: REFUSED ENTRY’.

“(2) All expenses in connection with affixing a label under paragraph (1) shall be paid by the owner or consignee of the food involved, and in default of such payment, shall constitute a lien against future importations made by such owner or consignee.

“(3) A requirement under paragraph (1) remains in effect until the Secretary determines that the food involved has been brought into compliance with this Act.”.

(b) MISBRANDED FOODS.—Section 403 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 343), as amended by section 305(b)(2) of this Act, is amended by adding at the end the following:

“(u) If it fails to bear a label required by the Secretary under section 801(1)(1) (relating to food refused admission into the United States).”.

(c) RULE OF CONSTRUCTION.—With respect to articles of food that are imported or offered for import into the United States, nothing in this section shall be construed to limit the authority of the Secretary of Health and Human Services or the Secretary of the Treasury to require the marking of refused articles of food under any other provision of law.

SEC. 308. PROHIBITION AGAINST PORT SHOPPING FOR IMPORTATION.

Section 402 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 342) is amended by adding at the end the following:

“(h) If it is an article of food imported or offered for import into the United States and such article has previously been refused admission under section 801(a), unless the person reoffering the article affirmatively establishes, at the expense of the owner or consignee of the article, that the article is not adulterated, as determined by the Secretary.”.

SEC. 309. NOTICES TO STATES REGARDING IMPORTED FOOD.

Chapter IX of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 391 et seq.) is amended by adding at the end the following new section:

“SEC. 908. NOTICES TO STATES REGARDING IMPORTED FOOD.

“(a) IN GENERAL.—If the Secretary has credible evidence or information indicating that a shipment of imported food or portion thereof presents a threat of serious adverse health consequences or death to humans or animals, the Secretary shall provide notice regarding such threat to the States in which the food is held or will be held, and to the States in which the manufacturer, packer, or distributor of the food is located, to the extent that the Secretary has knowledge of which States are so involved. In providing the notice to a State, the Secretary shall request the State to take such action as the State considers appropriate, if any, to protect the public health regarding the food involved.

“(b) RULE OF CONSTRUCTION.—Subsection (a) may not be construed as limiting the authority of the Secretary with respect to adulterated food under any other provision of this Act.”.

SEC. 310. GRANTS TO STATES FOR INSPECTIONS; RESPONSE TO NOTICE REGARDING ADULTERATED IMPORTED FOOD.

Chapter IX of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 391 et seq.), as amended by section 309 of this Act, is amended by adding at the end the following new section:

“SEC. 909. GRANTS TO STATES REGARDING FOOD INSPECTIONS.

“(a) IN GENERAL.—The Secretary may make grants to States and Territories for the purpose of conducting with respect to food examinations, inspections, investigations, and related activities under section 702 through individuals who, under subsection (a) of such section, are duly commissioned by the Secretary as officers of the Department.

“(b) NOTICES REGARDING ADULTERATED IMPORTED FOOD.—The Secretary may make grants to the States for the purpose of assisting the States with the costs of taking appropriate action to protect the public health in response to notices under section 908, including planning and otherwise preparing to take such action.

“(c) AUTHORIZATION OF APPROPRIATIONS.—For the purpose of carrying out this section, there are authorized to be appropriated such sums as may be necessary for each of the fiscal years 2002 through 2006.”.

Subtitle B—Protection of Drug Supply

SEC. 311. ANNUAL REGISTRATION OF FOREIGN MANUFACTURERS; SHIPPING INFORMATION; DRUG AND DEVICE LISTING.

(a) ANNUAL REGISTRATION; LISTING.—

(1) IN GENERAL.—Section 510 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360) is amended—

(A) in subsection (i)(1)—

(i) by striking “Any establishment” and inserting “On or before December 31 of each year, any establishment”;

(ii) by striking “establishment and the name” and inserting “establishment, the name”; and

(iii) by inserting before the period the following: “, the name of each importer of such drug or device in the United States that is known to the establishment, and the name of each carrier used by the establishment in transporting such drug or device to the United States for purposes of importation”; and

(B) in subsection (j)(1), in the first sentence, by striking “or (d)” and inserting “(d), or (i)”.

(2) MISBRANDING.—Section 502(o) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 352(o)) is amended by striking “in any State”.

(b) IMPORTATION; STATEMENT REGARDING REGISTRATION OF MANUFACTURER.—

(1) IN GENERAL.—Section 801 of the Federal Food, Drug, and Cosmetic Act, as amended by section 307(a) of this Act, is amended by adding at the end the following subsection:

“(m) A drug or device that is imported or offered for import into the United States may be refused admission if the importer of the drug or device does not, at the time of offering the drug or device for import, submit to the Secretary a statement that identifies the registration under section 510(i) of each establishment that with respect to such drug or device is required under such section to register with the Secretary.”.

(2) PROHIBITED ACT.—Section 301 of the Federal Food, Drug, and Cosmetic Act, as amended by section 306(b) of this Act, is amended by adding at the end the following:

“(ff) The importing or offering for import into the United States of a drug or device

with respect to which there is a failure to comply with an order of the Secretary to submit to the Secretary a statement under section 801(m).”.

(c) EFFECTIVE DATE.—The amendments made by this section take effect upon the expiration of the 180-day period beginning on the date of the enactment of this Act.

SEC. 312. REQUIREMENT OF ADDITIONAL INFORMATION REGARDING IMPORT COMPONENTS INTENDED FOR USE IN EXPORT PRODUCTS.

(a) IN GENERAL.—Section 801(d)(3) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 381(d)(3)) is amended to read as follows:

“(3)(A) Subject to subparagraph (B), no component of a drug, no component part or accessory of a device, or other article of device requiring further processing, which is ready or suitable for use for health-related purposes, and no article of a food additive, color additive, or dietary supplement, including a product in bulk form, shall be excluded from importation into the United States under subsection (a) if each of the following conditions is met:

“(i) The importer of such article of a drug or device or importer of such article of a food additive, color additive, or dietary supplement submits to the Secretary, at the time of initial importation, a statement in accordance with the following:

“(I) Such statement provides that such article is intended to be further processed by the initial owner or consignee, or incorporated by the initial owner or consignee, into a drug, biological product, device, food, food additive, color additive, or dietary supplement that will be exported by the initial owner or consignee from the United States in accordance with subsection (e) or section 802, or with section 351(h) of the Public Health Service Act.

“(II) The statement identifies the manufacturer of such article and each processor, packer, distributor, carrier, or other entity that had possession of the article in the chain of possession of the article from the manufacturer to such importer of the article.

“(ii) If such article is known to be, or to contain or bear, any chemical substance or biological substance, the statement under clause (i) is accompanied by such certificates of analysis as are necessary to identify each such substance.

“(iii) At the time of initial importation and before the delivery of such article to the importer or the initial owner or consignee, such owner or consignee executes a good and sufficient bond providing for the payment of such liquidated damages in the event of default as may be required pursuant to regulations of the Secretary of the Treasury.

“(iv) Such article is used and exported by the initial owner or consignee in accordance with the intent described under clause (i)(I), except for any portions of the article that are destroyed.

“(v) The initial owner or consignee maintains records on the use or destruction of such article or portions thereof, as the case may be, and submits to the Secretary any such records requested by the Secretary.

“(vi) Upon request of the Secretary, the initial owner or consignee submits a report that provides an accounting of the exportation or destruction of such article or portions thereof, and the manner in which such owner or consignee complied with the requirements of this subparagraph.

“(B) Subparagraph (A) does not apply to the import or offering for import into the United States of an article if the Secretary

determines that there is credible evidence or information indicating that such article presents a threat of serious adverse health consequences or death to humans or animals.

“(C) This section may not be construed as affecting the responsibility of the Secretary to ensure that articles imported into the United States under authority of subparagraph (A) meet each of the conditions established in such subparagraph for importation.”.

(b) **PROHIBITED ACT.**—Section 301(w) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 331(w)) is amended to read as follows:

“(w) The making of a knowingly false statement in any statement, certificate of analysis, record, or report required or requested under section 801(d)(3); the failure to submit a certificate of analysis as required under such section; the failure to maintain records or to submit records or reports as required by such section; the release into interstate commerce of any article or portion thereof imported into the United States under such section or any finished product made from such article or portion, except for export in accordance with section 801(e) or 802, or with section 351(h) of the Public Health Service Act; or the failure to so export or to destroy such an article or portions thereof, or such a finished product.”.

(c) **EFFECTIVE DATE.**—The amendments made by this section take effect upon the expiration of the 90-day period beginning on the date of the enactment of this Act.

TITLE IV—DRINKING WATER SECURITY AND SAFETY

SEC. 401. AMENDMENT OF THE SAFE DRINKING WATER ACT.

The Safe Drinking Water Act (title XIV of the Public Health Service Act) is amended as follows:

(1) By inserting the following new sections after section 1432:

“SEC. 1433. TERRORIST AND OTHER INTENTIONAL ACTS.

“(a) **VULNERABILITY ASSESSMENTS.**—(1) Each community water system serving a population of greater than 3,300 persons shall conduct an assessment of the vulnerability of its system to a terrorist attack or other intentional acts intended to substantially disrupt the ability of the system to provide a safe and reliable supply of drinking water. The vulnerability assessment shall include, but not be limited to, a review of pipes and constructed conveyances, physical barriers, water collection, pretreatment, treatment, storage and distribution facilities, electronic, computer or other automated systems which are utilized by the public water system, the use, storage, or handling of various chemicals, and the operation and maintenance of such system. The Administrator, not later than March 1, 2002, after consultation with appropriate departments and agencies of the Federal Government and with State and local governments, shall provide baseline information to community water systems required to conduct vulnerability assessments regarding which kinds of terrorist attacks or other intentional acts are the probable threats to—

“(A) substantially disrupt the ability of the system to provide a safe and reliable supply of drinking water; or

“(B) otherwise present significant public health concerns.

“(2) Each community water system referred to in paragraph (1) shall certify to the Administrator that the system has conducted an assessment complying with paragraph (1) prior to:

“(A) December 31, 2002, in the case of systems serving a population of 100,000 or more.

“(B) June 30, 2003, in the case of systems serving a population of 50,000 or more but less than 100,000.

“(C) December 31, 2003, in the case of systems serving a population greater than 3,300 but less than 50,000.

“(b) **EMERGENCY RESPONSE PLAN.**—Each community water system serving a population greater than 3,300 shall prepare or revise, where necessary, an emergency response plan that incorporates the results of vulnerability assessments that have been completed. Each such community water system shall certify to the Administrator, as soon as reasonably possible after the enactment of this section, but not later than 6 months after the completion of the vulnerability assessment under subsection (a), that the system has completed such plan. The emergency response plan shall include, but not be limited to, plans, procedures, and identification of equipment that can be implemented or utilized in the event of a terrorist or other intentional attack on the public water system. The emergency response plan shall also include actions, procedures, and identification of equipment which can obviate or significantly lessen the impact of terrorist attacks or other intentional actions on the public health and the safety and supply of drinking water provided to communities and individuals. Community water systems shall, to the extent possible, coordinate with existing Local Emergency Planning Committees established under the Emergency Planning and Community Right-to-Know Act (42 U.S.C. 11001, et seq.) when preparing or revising an emergency response plan under this subsection.

“(c) **GUIDANCE TO SMALL PUBLIC WATER SYSTEMS.**—The Administrator shall provide guidance to community water systems serving a population of less than 3,300 persons on how to conduct vulnerability assessments, prepare emergency response plans, and address threats from terrorist attacks or other intentional actions designed to disrupt the provision of safe drinking water or significantly affect the public health or significantly affect the safety or supply of drinking water provided to communities and individuals.

“(d) **FUNDING.**—There are authorized to be appropriated to carry out this section not more than \$120,000,000 for the fiscal year 2002 and such sums as may be necessary for fiscal year 2003 and fiscal year 2004. The Administrator, in coordination with State and local governments, may provide financial assistance to community water systems for purposes of compliance with the requirements of subsections (a) and (b) and to community water systems for expenses and contracts designed to address basic security enhancements of critical importance and significant threats to public health and the supply of drinking water as determined by a vulnerability assessment under subsection (a).

“SEC. 1434. CONTAMINANT PREVENTION, DETECTION AND RESPONSE.

“(a) **IN GENERAL.**—The Administrator, in consultation with the Centers for Disease Control and, after consultation with appropriate departments and agencies of the Federal Government and with State and local governments, shall review (or enter into contracts or cooperative agreements to provide for a review of) current and future methods to prevent, detect and respond to the intentional introduction of chemical, biological or radiological contaminants into community water systems and source water for community water systems, including each of the following:

“(1) Methods, means and equipment designed to monitor and detect chemical, biological, and radiological contaminants and reduce the likelihood that such contaminants can be successfully introduced into water supplies intended to be used for drinking water.

“(2) Methods and means to provide sufficient notice to operators of public water systems, and individuals served by such systems, of the introduction of chemical, biological or radiological contaminants and the possible effect of such introduction on public health and the safety and supply of drinking water.

“(3) Procedures and equipment necessary to prevent the flow of contaminated drinking water to individuals served by public water systems.

“(4) Methods, means, and equipment which could negate or mitigate deleterious effects on public health and the safety and supply caused by the introduction of contaminants into water intended to be used for drinking water, including an examination of the effectiveness of various drinking water technologies in removing, inactivating, or neutralizing biological, chemical, and radiological contaminants.

“(5) Biomedical research into the short-term and long-term impact on public health of various chemical, biological and radiological contaminants that may be introduced into public water systems through terrorist or other intentional acts.

“(b) **FUNDING.**—For the authorization of appropriations to carry out this section, see section 1435(c).

“SEC. 1435. SUPPLY DISRUPTION PREVENTION, DETECTION AND RESPONSE.

“(a) **DISRUPTION OF SUPPLY OR SAFETY.**—The Administrator, in coordination with the appropriate departments and agencies of the Federal Government, shall review (or enter into contracts or cooperative agreements to provide for a review of) methods and means by which terrorists or other individuals or groups could disrupt the supply of safe drinking water or take other actions against water collection, pretreatment, treatment, storage and distribution facilities which could render such water significantly less safe for human consumption, including each of the following:

“(1) Methods and means by which pipes and other constructed conveyances utilized in public water systems could be destroyed or otherwise prevented from providing adequate supplies of drinking water meeting applicable public health standards.

“(2) Methods and means by which collection, pretreatment, treatment, storage and distribution facilities utilized or used in connection with public water systems and collection and pretreatment storage facilities used in connection with public water systems could be destroyed or otherwise prevented from providing adequate supplies of drinking water meeting applicable public health standards.

“(3) Methods and means by which pipes, constructed conveyances, collection, pretreatment, treatment, storage and distribution systems that are utilized in connection with public water systems could be altered or affected so as to be subject to cross-contamination of drinking water supplies.

“(4) Methods and means by which pipes, constructed conveyances, collection, pretreatment, treatment, storage and distribution systems that are utilized in connection with public water systems could be reasonably protected from terrorist attacks

or other acts intended to disrupt the supply or affect the safety of drinking water.

“(b) ALTERNATIVE SOURCES.—the review under this section shall also include a review of the methods and means by which alternative supplies of drinking water could be provided in the event of the destruction, impairment or contamination of public water systems.

“(c) FUNDING.—There are authorized to be appropriated to carry out this section and section 1434 not more than \$15,000,000 for the fiscal year 2002 and such sums as may be necessary for fiscal year 2003 and fiscal year 2004.”

(2) Section 1414(i)(1) is amended by inserting “1433” after “1417”.

(3) Section 1431 is amended by inserting in the first sentence after “drinking water” the following: “, or that there is a threatened or potential terrorist attack (or other intentional act designed to disrupt the provision of safe drinking water or to impact adversely the safety of drinking water supplied to communities and individuals), which”.

(4) Section 1432 is amended as follows:

(A) By striking “5 years” in subsection (a) and inserting “20 years”.

(B) By striking “3 years” in subsection (b) and inserting “10 years”.

(C) By striking “\$50,000” in subsection (c) and inserting “\$1,000,000”.

(D) By striking “\$20,000” in subsection (c) and inserting “\$100,000”.

(5) Section 1442 is amended as follows:

(A) By striking “this subparagraph” in subsection (b) and inserting “this subsection”.

(B) By amending subsection (d) to read as follows:

“(d) There are authorized to be appropriated to carry out subsection (b) not more than \$35,000,000 for the fiscal year 2002 and such sums as may be necessary for each fiscal year thereafter.”

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Louisiana (Mr. TAUZIN) and the gentleman from Michigan (Mr. DINGELL) each will control 20 minutes.

The Chair recognizes the gentleman from Louisiana (Mr. Tauzin).

GENERAL LEAVE

Mr. TAUZIN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and to insert extraneous material on the bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Louisiana?

There was no objection.

Mr. TAUZIN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in strong support of the Public Health Security and Biodefense Act of 2001 which I have introduced with my good friend, the gentleman from Michigan (Mr. DINGELL) the ranking member of the Committee on Energy and Commerce and a strong bipartisan list of co-sponsors. This may be the last piece of legislation we consider tonight, Mr. Speaker, but it is, by far, the most serious one and the most important one, and we will be asking for a recorded vote tomorrow on this important legislation.

The legislation is all about safety and security of American families and

of our country. Today we are stepping up to the profound threats of terrorism and other public health emergencies. And we do so by combining smart and innovative policy with additional resources to prepare the country for bioterrorist threats and to improve our abilities to respond quickly and effectively to such threats when they arise.

Mr. Speaker, let me be very specific about the important investments that this legislation will make and the dramatic range of issues it will address.

First, Title I of the bill significantly steps up our preparedness and our capacity to identify and respond to threats. This Title will improve communications between and among the levels of government, public health officials, the first responders and health care providers and the health care facilities during emergencies.

Our bill authorizes \$1 billion in FY 2002 in grants to States, local governments, and other public and private health care facilities and other entities to improve planning and preparedness activities, to enhance laboratory capacity, and to educate and train the health personnel that will take care of folks who are subject to any kinds of such threats.

We specifically authorized \$40 million in FY 2002 for training grants to relieve shortages in critical health care professions. The Department of Health and Human Services will have a new focus, an improved coordination and accountability through a new assistant secretary of emergency preparedness. The legislation also authorizes the national disaster medical system, new planning and reporting provision, health professional verification systems during emergencies, the training exercises, and improved communication strategies. The bill further authorizes \$450 million in FY 2002 for the Centers for Disease Control and Prevention to upgrade its capacity to deal with public health threats, to renovate its facilities and to improve its securities.

H.R. 3448 will also ensure that we have sufficient drugs, vaccines and other supplies for our Nation's health security. Title I, for example, authorizes more than \$1.1 billion for the Secretary of Health and Human Services to expand our current National stockpiles of medicines and other supplies, including the purchase of smallpox vaccines, will encourage and expand research and develop of drugs of vaccines and devices to combat bioterrorism and other potential disease outbreaks in our country. The bill also will enhance controls on deadly biological agents in order to help prevent bioterrorism and establish a national database of dangerous pathogens.

Title II imposes new registration requirements on all possessors of the 36 most dangerous biological agents and toxins. It mandates tough new safety and security requirements to ensure

that only legitimate scientists working in appropriate laboratory facilities can gain access to these potential weapons of mass destruction.

Title II also enhances criminal penalties for those caught in possession of those agents or transferring them without proper registration. And Title III of the bill will help protect American safety in their food and drug supplies. We are increasing by \$100 million the Food and Drug Administration's resources to hire more inspectors at the border, to develop new methods to detect contaminated foods. In addition, we are providing the Secretary the additional regulatory authority he requested for the FDA to detain food and to investigate credible evidence of contamination and improve access to records and recordkeeping to assist the Secretary in investigating any threats to our food supply. This title also improves our enforcement and inspection capabilities for those drug supplies. The new resources and authorities will substantially improve our country's ability to ensure the safety confidence in both our food and our drug supplies.

□ 2230

Title 4 of the legislation will ensure that drinking water systems across the country assess their vulnerability to terrorist attack and develop emergency plans to prepare for and respond to those attacks. This title also requires a comprehensive review of the ways to detect and respond to chemical, biological, and radiological contamination of drinking water, as well as way to prevent and mitigate the effects of physical attacks. In addition, existing criminal penalties and fines for tampering with drinking water systems are substantially increased. A total of \$170 million in fiscal year 2002 is authorized for these important efforts.

Americans deserve to know that we are taking concerted action today to protect the water they drink every single day. Title IV will lay the groundwork for developing the necessary information, and emergency planning and response efforts that are needed to address this new threat.

Mr. Speaker, this legislation builds on the tremendous work and leadership of our President, President Bush, and his administration, over the last 3 months. Importantly, it builds on existing programs rather than creating new ones that will only delay the distribution of monies to the front lines. We have spent time to integrate programs and to make sure our national efforts are focused and better coordinated. We have worked closely with the administration to achieve this result, and I am frankly very confident the President will sign this bill.

I want to thank the gentleman from Michigan (Mr. DINGELL) and the other members of the committee on both sides of the aisle for their tireless and

extraordinarily good-faith efforts to produce a great bill. This is remarkable legislation, Mr. Speaker, for remarkable times. The House can be very proud not only of this product but also of a country that is responding in such a unified way as exemplified by the bipartisan spirit in which we bring this legislation to the floor.

America, I think, will be proud of our commitment made in this bill to the right investments and the smart policy choices to meet the challenges and protect our Nation's public health. I urge all my colleagues to support this very landmark legislation.

Mr. Speaker, I submit for the RECORD letters to and from the Chairman of the Committee on Science and myself regarding this legislation.

HOUSE OF REPRESENTATIVES,
COMMITTEE ON ENERGY AND COMMERCE,
Washington, DC, December 11, 2001.

Hon. SHERWOOD L. BOEHLERT,
Chairman, Committee on Science, House of Representatives, Rayburn House Office Building, Washington, DC.

DEAR CHAIRMAN BOEHLERT: Thank you for your letter regarding H.R. ____, the Public Health Security and Bioterrorism Response Act of 2001.

I appreciate your willingness not to seek a referral of the bill. I agree that your decision to forgo action on the bill will not prejudice the Committee on Science with respect to its jurisdictional prerogatives on this or similar legislation. Further, I recognize your right to request conferees on those provisions within the Committee on Science's jurisdiction should they be the subject of a House-Senate conference.

I will include your letter and this response in the Congressional Record when the bill is considered on the Floor.

Sincerely,

W.J. "BILLY" TAUZIN,
Chairman.

HOUSE OF REPRESENTATIVES,
COMMITTEE ON SCIENCE,
Washington, DC, December 11, 2001.

Hon. W.J. TAUZIN,
Chairman, Committee on Energy and Commerce, Rayburn HOB, Washington, DC.

DEAR MR. CHAIRMAN: Earlier today you and your colleagues introduced the "Public Health Security and Bioterrorism Response Act of 2001." Knowing of your interest in moving the legislation through the House as quickly as possible, I am prepared not to seek a sequential referral of the bill's provisions that affect the jurisdiction of the Science Committee. Despite waiving the right to seek a referral, the Science Committee does not waive its jurisdiction over the bill. Additionally, the Science Committee expressly reserves its authority to seek conferees on any provisions that are within its jurisdiction during any House-Senate conference that may be convened on this legislation or like provisions in the bill or similar legislation which falls within the Science Committee's jurisdiction. I ask for your commitment to support any request by the Science Committee for conferees on the bill, as well as any similar or related legislation.

Based on a quick review, here are some of the provisions I believe affect the Science Committee's jurisdiction:

Section 108 (Working Group on Preparedness). New subsections (a)(1)-(3) require a

joint working group, including DOE and EPA, to coordinate and prioritize research, facilitate the development of countermeasures, and coordinate research and development.

Section 108 (Working Group on Preparedness). New subsection (a)(4) requires the Working Group, including DOE and EPA, to develop shared standards for equipment.

Section 126 (Evaluation of New and Emerging Technologies). Subsection (b) requires the Secretary of HHS to survey existing technology programs funded by the Federal Government for potentially useful technologies and, in consultation with an interagency working group that includes DOE and EPA, to evaluate technologies.

Section 137 (Expanded Research by Secretary of Energy). This authorizes DOE research related to bioterrorist attacks.

Section 401 (Drinking Water Security and Safety). This reauthorizes an existing environmental research and development program in the Safe Drinking Water Act. Section 401 also authorizes two new programs, in proposed sections 1434 and 1435 of the SDWA, that direct EPA to "review current and future methods and means" relating to contamination and physical disruption of water systems. These provisions are similar to provisions in the Science Committee's bill, H.R. 3178.

H.R. 3178 passed the Science Committee on November 15. It authorizes EPA research related activities to develop anti-terrorism tools for water and wastewater agencies. Since our markup of H.R. 3178, my staff has worked with your staff to clarify the text of H.R. 3178 to prevent or reduce any jurisdictional issues. I look forward to the continued cooperation between our two Committees on both H.R. 3178 and the "Public Health Security and Bioterrorism Response Act of 2001."

I request that you include this exchange of letters in the Congressional Record as part of the Floor debate on the bill.

Thank you again for your consideration and attention regarding these matters.

Sincerely,

SHERWOOD BOEHLERT,
Chairman.

Mr. Speaker, I reserve the balance of my time.

Mr. DINGELL. Mr. Speaker, I yield myself 3 minutes.

Mr. Speaker, today we are considering bipartisan legislation on a matter of utmost national importance, our preparedness against terrorism. I want to begin by commending my good friend, the chairman of the committee, the gentleman from Louisiana (Mr. TAUZIN), the gentleman from Florida (Mr. BILIRAKIS), and the gentleman from Iowa (Mr. GANSKE), as well as my colleagues, the gentleman from Ohio (Mr. BROWN), the gentleman from New Jersey (Mr. MENENDEZ), and the gentleman from New Jersey (Mr. PALLONE), the gentleman from Florida (Mr. Deutsch), who worked so hard on this, and the gentlewoman from California (Ms. HARMAN).

This bill was put together in the best bipartisan traditions of the way the Committee on Energy and Commerce has always worked, and it resolves in the best possible way the questions that concern us with regard to preparedness and protection of our people against bioterrorism.

There are many excellent provisions in the legislation, including improvement and protection of drinking water supply, tighter controls on dangerous biological agents, and a number of other things, including putting support where it needs to be put to help our people to address the problems which they have on the local level and to improve Federal-local cooperation in these matters. It also does something very important, and that is it improves inspection resources for imported food.

These are only a downpayment on what will ultimately be necessary, but nonetheless they are an enormous increase over the way things are done at this particular time.

Mr. Speaker, I urge my colleagues, without exception, to support it. It is bipartisan, it is good, it is in the public interest; and I again commend my colleagues, including our chairman, for the fine work which has been done on this very difficult and very important piece of legislation.

In addition, Mr. Speaker, I include for the RECORD a detailed explanation of the bill:

Title III, Subtitle A—Protection of Food Supply, addresses existing deficiencies in the Nation's food safety infrastructure and takes appropriate steps to protect the Nation's food supply from new threats of terrorism. In particular, it authorizes new powers and \$100 million to the Food and Drug Administration (FDA) so it can increase and improve inspections of imported food at the 307 different U.S. ports of entry. With the additional funds and authorities in this bill, FDA should be equipped to inspect about 2 percent of all imported food shipments. While this remains significantly less than FDA's recommendation to inspect 10 percent of all imported food shipments, this legislation is an important downpayment.

The subtitle also provides for permissive debarment of scofflaw food importers, requires prior notice of shipments, provides administrative detention authority, requires registration and recordkeeping, and bars port shopping. Vigorous and targeted use of these new authorities should enable the Secretary to mitigate problems caused by too few inspectors.

For example, under this subtitle the Secretary must possess credible evidence or information indicating that a specific shipment or article of food presents a serious health threat to exercise his full detention authority. However, the bill establishes a broader, less-stringent standard for the Secretary to exercise a more limited temporary hold authority. Under the temporary hold provision, the Secretary need only have credible evidence or information indicating that an article of food, not a specific article of food, presents a serious health threat. If, for example, the FDA is in possession of credible evidence or information indicating that a category of food or food from a certain geographical region presents such a threat, the Secretary may use this authority to temporarily hold shipments or articles of food (up to 24 hours) based on that information. This will enable the Secretary to appropriately dispatch FDA resources to gather credible evidence or information (based upon FDA inspection, examination or investigation) about specific shipments or articles of food. Once FDA has such evidence or information,

the Secretary may then detain any such shipments or articles of food under the detention authority (up to 30 days). The temporary hold authority is intended to function as an investigative tool that enables FDA to use its detention authority, and its resources, more effectively. Accordingly, the circumstances under which temporary hold authority can be invoked are broader than those under which detention authority can be invoked.

Title III, Subtitle B—Protection of Drug Supply, includes Section 312, which requires additional information regarding import components intended for use in export products. This section does not change any definitions of regulated articles or the scope of regulation of those articles as set forth in the Federal Food, Drug, and Cosmetic Act (FFDCA) and its implementing regulations. Further, it is not the intent of this section for the Secretary of Treasury to engage in a new rulemaking to determine the requirement for bonds for goods imported under section 801(d)(3) of the FFDCA. Existing requirements for the bonding of goods imported for further processing and export should be applied. Finally, certificates of analysis are not required if the only chemical or biological component of the good imported under 801(d)(3) is de minimus, incidental, and poses no danger to human or animal health.

Title IV—Drinking Water Security and Safety, adds a new section 1433 to the Safe Drinking Water Act that requires community water systems to conduct assessments of the vulnerability of its system to a terrorist attack. Sandia National Laboratories, under a contract with the Environmental Protection Agency (EPA), has developed a new methodology for assessing and improving the security of drinking water systems. Under Section 1433 vulnerability assessments should include comprehensive site characterizations, a determination of the consequences of intentional acts or terrorist attacks, and an analysis of the use, storage, or handling of various chemicals to see whether a substitution to less dangerous chemicals will enhance the safety and health of the public in the case of an attack. For example, many drinking water systems are switching away from liquid chlorine to other chemicals that minimize the risk of an airborne toxic plume in case of a tank explosion. Further, the term “physical barriers” should be interpreted to include “buffer zones” to a physical attack.

Section 1433 also requires that emergency response plans be prepared or revised by community water systems after the vulnerability assessments. In FY 2002, the bill authorizes \$120 million to assist water systems in conducting vulnerability assessments and preparing emergency response plans. This funding is available to also provide financial assistance to water systems for basic security enhancements and to address significant threats to public health. Basic security enhancements of critical importance include management systems, operating procedures, re-keying locks, buffer zones, cameras, fencing, hardening of storage tanks, equipment for back flow monitoring, security screening of contractor support services, and intrusion alert systems.

The bill charges the EPA, working with other agencies such as CDC and the FBI, to provide water systems with a consistent definition of the range of threats facing a system. This will help ensure that quality vulnerability assessments are conducted.

Title IV also contains amendments to Section 1432 of the Safe Drinking Water Act to

increase the criminal penalties for tampering or threatening to tamper with a public drinking water system.

Finally, the bill amends Section 1431 of the Safe Drinking Water Act to provide new authority to the Administrator to take actions to assure the safety of the public and protect supplies of drinking water in circumstances of a threatened or potential terrorist attack at a community water system which may present an imminent and substantial endangerment to the health of persons.

The term “potential terrorist attack” should be interpreted in the context of the President’s announcements that the United States is engaged in a war against terrorism and faces “continuing and immediate threats of further attacks.” Senior government officials have repeatedly warned that critical infrastructure facilities should remain on a high state of alert due to the possibility of a terrorist attack. Critical infrastructure protection is an issue of importance to economic and national security. Presidential Decision Directive 63 released in May 1998 identified water supply as one of the 12 areas critical to the functioning of the country.

The Government has a responsibility to protect our citizens, and that responsibility begins with homeland security. Where the Administrator receives information that critical community water system infrastructures, such as a utility pumping system or chemical storage tanks, are vulnerable to potential terrorist attack that may present an imminent and substantial endangerment he or she may use the authority provided by Section 1431 to protect the health and safety of the public or prevent the disruption of drinking water supplies.

Mr. Speaker, I reserve the balance of my time.

Mr. TAUZIN. Mr. Speaker, I am pleased to yield 3 minutes to the gentleman from Florida (Mr. BILIRAKIS), the chairman of the Subcommittee on Health of the Committee on Energy and Commerce.

Mr. BILIRAKIS. Mr. Speaker, I thank the gentleman for yielding me this time, and I too rise in support of this bill.

As we know, today is the 3-month anniversary of the worst terrorist attack on American soil in history. Our thoughts and prayers are with the victims and their families today and every day. I share the concerns, we all share the concerns of all Americans who are worried about future terrorist activities, including bioterrorist attacks. With the recent anthrax outbreak, bioterrorism of course has become a reality.

Bioterrorism is an issue that has been explored by the Committee on Energy and Commerce and my Subcommittee on Health for several years. Because we cannot know when or how a public health threat might occur, we must be prepared to combat any biological agent in any form. I am pleased that we were able to work on a bipartisan, underline bipartisan, basis to craft this reasonable and responsible legislative package.

State and local governments will be the first to respond to a bioterrorist attack. This legislation requires the Sec-

retary of Health and Human Services to work with local governments to develop bioterrorist preparedness plans. This legislation requires the CDC to enhance training of personnel, improve their communications network and intensify security to protect important research and dangerous pathogens.

Since health care providers will be the first to respond to a public health emergency, it is essential that we have health professionals ready to deal with health care needs in the event of a bioterrorist attack. This legislation begins to address shortages in areas such as medical technologists and pharmacists by providing grants to train and educate individuals in areas of the greatest need.

As vice chairman of the House Committee on Veterans’ Affairs, I also believe it is essential that we fully utilize all of our Federal resources in our fight against bioterrorism. This legislation requires the Department of Health and Human Services to work with the Department of Veterans Affairs and the Department of Defense in developing our national response. These agencies have significant resources and expertise and are crucial to our efforts.

In addition, this legislation increases the protection of the Nation’s food supply. In the past, too few resources have been dedicated to food security, and this legislation is a great improvement. Secretary of Health and Human Services Tommy Thompson recently testified before the committee that the Food and Drug Administration must increase the number of inspectors at the borders.

I would like in closing, Mr. Speaker, to thank the staff, who dedicated many long hours to developing this legislation. For the majority, that includes Nandan Kenkeremath, Tom DiLenge, Amit Sachdev, Brent DelMonte, Bob Meyers, and Pat Morrissey. From the minority, that includes John Ford, Edith Holleman, and Bruce Gwinn. And I would also like to extend a special thank you to legislative counsel Pete Goodloe, who was instrumental in drafting this legislation. All of the staff, all of them, spent countless hours, especially over the Thanksgiving holiday, to prepare this vital legislation.

I too urge our colleagues to join us in supporting this bill. It is important that we act this year to increase our readiness and our safety.

Mr. DINGELL. Mr. Speaker, I yield 3 minutes to the gentleman from Ohio (Mr. BROWN).

Mr. BROWN of Ohio. Mr. Speaker, I thank the gentleman for yielding me this time; and I am pleased to join my colleagues, the gentleman from Michigan (Mr. DINGELL), the gentleman from Louisiana (Mr. TAUZIN), the gentleman from Florida (Mr. BILIRAKIS), the gentleman from New Jersey (Mr. PALLONE), and the gentleman from

Florida (Mr. DEUTSCH), in offering this bipartisan bioterrorism preparedness bill.

I want to thank the Committee on Energy and Commerce staff, who worked so hard on this bill, as mentioned by the gentleman from Florida (Mr. BILIRAKIS), including Ann Esposito, John Ford, Dave Nelson, Edith Holleman, and Bruce Gwinn. Also, legislative counsel Pete Goodloe, who worked so very hard on all of this.

The events of September 11 and the recent spate of anthrax attacks have significantly underscored the importance, to be sure, of our Nation's public health infrastructure. We need to pay far more attention to the first responders to a public health emergency, to the key health agencies charged with addressing and preventing these emergencies, and to the safeguards needed to minimize threats in the future.

We must have sufficient antibiotic and vaccine stockpiles, we must have the ability to rapidly distribute medical supplies and deploy medical personnel, and we must cultivate the expertise and technology necessary to identify and eliminate threats before they become public health crises.

This bill was written to provide new authority to Food and Drug Administration border inspectors in terms of food safety, to require the development of rapid testing techniques, and to authorize \$100 million of new found for all of FDA's border inspection activities. These provisions will increase FDA's presence at the border and allow for the inspection of a greater percentage of our imported foods, making our food supplies safer from bioterrorists.

Eight years ago, before budget cuts in this Congress, 8 percent of food was inspected at the border. Today, it is about one-tenth of that. It is less than 1 percent. The safety of imported foods and the need for greater enhanced inspection resources at the border have long been a concern of many of us on this side of the aisle, a fact highlighted by the imported food safety bills I have introduced with the gentleman from Michigan (Mr. STUPAK), the gentleman from New Jersey (Mr. PALLONE), and the gentleman from Michigan (Mr. DINGELL), and others during the past several sessions of Congress.

The food safety provisions of this bill are a good downpayment on improving our food safety inspection system, but they do not obviate the need for passage of a more substantial food safety reform like the one we introduced in October.

I am pleased that a provision to equip State and local health departments to rapidly identify antibiotic resistant strains of illness was in fact included in the bill. Because antibiotic resistant microbes can be difficult to treat, even under normal circumstances, they pose a significant threat to public health. We know that

antibiotic-resistant strains of anthrax and other agents can, in fact, have been engineered for the purposes of bioterrorism. A new or unexpected antibiotic-resistant strain of illness is a red flag. It could signal a bioterrorist attack. So the sooner we identify it, the sooner we can deploy the resources needed to treat it.

The ability to monitor antibiotic resistance becomes even more critical over the longer term. Whether the goal is bioterrorism preparedness or simply maintaining our ability to combat everyday illnesses and infectious disease, a major, major function of the Centers for Disease Control, we simply cannot assess the adequacy of our antibiotic supply over time as long as antibiotic resistance remains a variable.

This bill is not the last word on bioterrorism, but it is a solid first step; and I am proud to be one of its chief co-sponsors.

Mr. TAUZIN. Mr. Speaker, I am proud to yield 2 minutes to the gentleman from North Carolina (Mr. BURR), the vice chairman of the Committee on Energy and Commerce and the chairman of the task force which helped produce this bill.

Mr. BURR of North Carolina. Mr. Speaker, I thank the chairman for yielding me this time, I also thank the ranking member; but more importantly, I thank all the members of the Committee on Energy and Commerce because traditionally we do not get things done as quickly in the body as we have on this bill.

I want to take this opportunity to personally thank the staff on both sides of the aisle, many of whom are here tonight, and many who spent tens, if not hundreds, of hours on this bill, and much of it over the Thanksgiving break.

Mr. Speaker, 3 months ago, we were attacked in a savage way. Over these 3 months, we have seen what is good about America; the response of the American people, in many cases to individuals they did not know. What we have seen good about this institution is its ability to throw down the partisanship that sometimes overtakes us and for Democrats and Republicans to work together on an initiative that America needs today.

We have come a long way in restructuring our public health agencies in this country. This is only the first step, though. We have a long way to go to reach a point that communities deserve for us to have in place. Through this legislation we strengthen our Federal disaster response efforts by authorizing in law the National Disaster Medical System.

This legislation provides for the much-needed resources to improve the Centers for Disease Control, not only the facilities upgrade that is needed in Atlanta, but also an additional \$150 million in the first year to make sure

that the overuse of laboratories, the space needs, everything that they need to respond to a threat that we clearly do not fully understand today are in fact in place.

We send money directly to States and to local public health agencies in order for them to build out their core capacity to deal with bioterrorism and other public health threats.

Mr. Speaker, in this, we update and strengthen the pharmaceutical stockpiles, and we establish a core educational curriculum to train health care professionals for public health emergencies.

I urge all of my colleagues to support this legislation today, but we cannot quit until the public health network in the U.S. is trained, equipped, and prepared to handle all responses and all threats in the future.

Mr. DINGELL. Mr. Speaker, I yield 3 minutes to the gentleman from New Jersey (Mr. PALLONE).

Mr. PALLONE. Mr. Speaker, I come to the House floor also to offer my support for this crucial piece of legislation; and again I want to thank our ranking member, the gentleman from Michigan (Mr. DINGELL), and the ranking member of the subcommittee, the gentleman from Ohio (Mr. BROWN), and the gentleman from Florida (Mr. DEUTSCH), and all the staff that I see here tonight who worked so hard on this bill, and stress the importance of the bill.

□ 2245

When the terrorist attacks against the World Trade Center and the Pentagon took place on September 11, I know that my constituents in particular and all Americans were concerned about possible threats from biological and chemical warfare that might follow. On September 28, the General Accounting Office published a report that stated, in fact, our health departments are ill-equipped, that we are vulnerable to bioterrorism and underfunded on the Federal, State and local level.

Mr. Speaker, I believe that this bill will remedy this problem in a crucial way. I want to discuss briefly the water security component of the bill. With the strong leadership of the gentleman from Louisiana (Mr. TAUZIN) and ranking member, the gentleman from Michigan (Mr. DINGELL), we were able to include language requiring large water systems serving more than 3,300 persons to conduct a vulnerability assessment and prepare or update emergency response plans within 6 months after the completion of the vulnerability assessment. In the process of completing this assessment, serious consideration would be given to the potential consequences of attack.

For example, what would happen if the on-site chlorine tanks are attacked with explosives? Should safer substitutes for liquid chlorine be used?

What are the health risks to the public if we are faced with an air-borne toxic chlorine cloud?

These are the types of questions that need to be evaluated and answered in a vulnerability assessment.

In addition to the assessment, I was pleased that funding was authorized in the bill to provide for technical assistance grants from EPA and funding for publicly owned water systems in an emergency situation. I do not have to explain the importance of protecting the public from potential disruption of water service or biological-chemical contamination of drinking water supplies. Water security has got to be a top priority in any bioterrorism bill that Congress considers.

On September 12, President Bush made a comment. He said America is going forward, and as we do so, we must remain keenly aware of the threats to our country. Those in authority should take appropriate precautions to protect our citizens. And according to this bill, Mr. Speaker, the EPA will have that authority that the President referred to if an assessment is completed and there is sign of significant vulnerability, it is a relief to know that the EPA, using its emergency powers, will be able to work with the community water systems to promptly correct the inadequacies.

I know that the gentleman from Louisiana (Mr. TAUZIN) and the gentleman from Michigan (Mr. DINGELL) worked hard to make sure that this safe drinking water component is in the bill. I think it is very important that it is in the bill, and I congratulate them and the staff again for making sure that this is a part of the bioterrorism response.

Mr. TAUZIN. Mr. Speaker, I yield 2 minutes to the gentleman from Iowa (Mr. GANSKE), a distinguished member of our committee.

Mr. GANSKE. Mr. Speaker, I am pleased to support this bill. My congratulations to the chairman of the committee and to the ranking member. This is probably one of the more significant public health pieces of legislation that Congress has done in a long time and we need to do it. As a physician, I can tell Members this country is not able to handle an epidemic. There are very few hospitals, if any, in this country that can handle an epidemic, and that includes Johns Hopkins or the University of Iowa Hospital.

This bill provides funding to begin to bolster our public health response to a bioterrorist attack. We need to provide more funds for medicines and vaccines. We need to bolster the CDC. We need to facilitate communications between the Federal Government, the State governments, local governments. Those things are handled in this bill.

There is a lot in this bill that is very necessary and important. The one thing that was a concern earlier in the

discussion on this bill was whether Members provide block grants or grants back to the States. I introduced, along with the gentleman from Arkansas (Mr. BERRY) a few weeks ago. We had about a billion dollars for that. We think that is important because a lot of States are strapped for cash, and they need some help. That is in this bill as well. I very much appreciate the efforts of the chairman and the ranking member, the staff, for this bill.

In essence, the bill that I introduced a couple of weeks ago and this bill are very similar. This is a bipartisan bill. It is a bicameral bill. It is my understanding that the administration is in favor of this bill. This bill should move. I encourage all Members of the House to vote for the bill, and for the Senate to do the same so we can move it to the President's desk.

Mr. DINGELL. Mr. Speaker, I yield 3 minutes to the gentleman from Florida (Mr. DEUTSCH).

Mr. DEUTSCH. Mr. Speaker, I join my colleagues in thanking the chairman of the full committee and the ranking member as well, as well as our excellent staff on both sides.

This bill is a product of the entire House, and particularly the Committee on Energy and Commerce can be very proud of. This legislation very well might go down as the very most important piece of legislation that this Congress passes in this session. It has not gotten the most attention at this point in time, and I hope what it tries to prevent does not get as much attention because in a sense that would mean a success.

But I highlight some of the issues that we are facing, and really the world obviously changed, each of our lives changed, America changed on September 11. This bill is a step towards dealing with some of those changes. The budgeting that we had in the past, literally in the past year, in last year's fiscal year, amounted to approximately \$100 million towards bioterrorism. This bill now raises that level to effectively about \$3 billion. Obviously, an incredibly dramatic increase.

I think there have been Members who have expressed a viewpoint, and in a sense I share it, maybe that number should even be larger. Even \$30 billion, an order of magnitude different than hopefully what we will appropriate and authorize in this legislation. But as we work towards that, it is a question whether or not the agencies could even deal with this large of an increase, but to that other level I am not sure it would be possible.

Let me focus on one of the areas where this bill is going to have a very significant effect, and that is the threat of biological terrorism in the United States. The bill specifically authorizes \$450 million for smallpox vaccine, requires the Secretary to devise a plan for the distribution of the na-

tional stockpile, including the smallpox vaccine. The Secretary can designate priority countermeasures as fast track products for FDA approval. It requires the FDA to issue a final rule allowing for animal studies to prove efficacy of certain vaccines and drug countermeasures, and the secretary can award grants or contracts for research to develop new vaccines, treatments or therapies to counteract bioterrorist agents.

Mr. Speaker, we have shifted the emphasis far greater and far more than we had in the past, and this is exactly the response we should be doing. Along with many of my colleagues, I have visited CDC since September 11. They cry out for the need that this bill specifically is addressing. Mr. Speaker, I urge my colleagues to support adoption of the legislation.

Mr. TAUZIN. Mr. Speaker, I yield 2 minutes to the gentlewoman from New Mexico (Mrs. WILSON).

Mrs. WILSON. Mr. Speaker, I commend the chairman and ranking member for their work on this bill. Sometimes we do things quickly and quietly in this House and get important things done; and probably in the last 3 months, this legislation will stand the test of time as one of the most important pieces of legislation that we do in this House during this session.

What it is about is protecting Americans from getting sick or dying from a disease spread intentionally by people who want to destroy us. It is a very new world, and we have to change the way that we do things because the world has changed, and be better prepared so we can detect disease sooner, we can respond sooner and more effectively, and we can develop new cures for diseases that are now being genetically engineered by people who have evil intent.

Mr. Speaker, in the last 3 months, we have learned that our laboratory system is fragile and can be easily overwhelmed by two relatively small but frightening anthrax attacks here on the East Coast; and that the Centers for Disease Control are not large enough and need to be modernized. We need to expand and integrate that national network of capacity in our laboratories and our research institutions. We need to invest in research and development to develop new ways to detect pathogens in the air, in the water, in food, and detect them quickly without having to wait for someone to get sick before we act.

We do not have a register of the dangerous pathogens in this country. We did not know which laboratories have this particular strain of Ames anthrax. We need to register them, and also have cultures of them so that we know the DNA of each pathogen that is being used in the United States for research. This is a very good bill, Mr. Speaker. I

am proud to support it, and I look forward to its prompt passage in this House and in the United States Senate.

Mr. DINGELL. Mr. Speaker, I reserve the balance of my time.

Mr. TAUZIN. Mr. Speaker, I yield 2 minutes to the gentleman from Georgia (Mr. LINDER), who was the principal sponsor of a separate piece of legislation to expand and improve upon the capacities of the CDC.

Mr. LINDER. Mr. Speaker, this is a remarkable feat to move a piece of legislation so important so fast and so well done, and I congratulate the gentlemen. I particularly thank the gentleman from North Carolina (Mr. BURR) who headed up the task force to ensure that my bill, H.R. 3219, wound up in this bill.

My bill reauthorized the rebuilding of the CDC \$300 million for 2 years in a row and multiyear contracting. Let me tell Members about the CDC. It is a 55-year-old institution, the largest institution of the Federal Government not located in the metro area here. It is a world class intellectual community in a third world facility. Many Members have visited it.

The CDC facility needs to be upgraded, particularly the security around it. We have dangerous bugs and viruses there that are being stored three stories above the loading dock. We need to do this. I am grateful for Members' response, and I am sure that the Senate will respond equally. The Secretary of HHS is in favor of this bill. It is not common in my 27 years in public life that we can introduce a bill on November 1 and have it voted on December 11. I am grateful for this bill.

Mr. TAUZIN. Mr. Speaker, I yield 2 minutes to the gentleman from New Jersey (Mr. SMITH).

Mr. SMITH of New Jersey. Mr. Speaker, I rise in strong support of H.R. 3448. As chairman of the Committee on Veterans Affairs, I am pleased that the legislation recognizes the vital role that the Department of Veterans Affairs can and should play in helping our Nation prepare for future biological attacks.

As many Members know, the VA owns and operates the largest integrated health care network in the world, consisting of 172 medical centers, over 800 outpatient clinics, and 90 major research programs and are ideally suited to try to work, in collaboration with other agencies of government, on trying to respond to one of these terrorist attacks.

I would also point out to Members that the anthrax letters originated in my district in Trenton and Hamilton Township, New Jersey. And as all of the different bodies came together, CDC, Department of Health and the others, the VA stood ready and was able to provide, if it was necessary, Cipro and other antibiotics, because they are a major stockpiling of those

pharmaceutical assets. I am happy that the chairman include in section 101(c) a requirement for the Secretary of Health and Human Services to evaluate the feasibility of using biomedical research and development capabilities of the VA in developing a comprehensive national response to bioterrorist attacks.

□ 2300

Again, the VA is ideally suited for this. I have introduced a number of bills that would try to further that. I think we really need to make sure that they have a very prominent seat at the table.

Mr. DINGELL. Mr. Speaker, I yield myself such time as I may consume.

All the Democrats have agreed with me this is a superb piece of legislation and they have all gone home to bed so that they could vote on it tomorrow.

Mr. Speaker, I yield back the balance of my time.

Mr. TAUZIN. Mr. Speaker, I yield myself such time as I may consume.

Let me conclude by thanking my dear friend, the gentleman from Michigan (Mr. DINGELL), for the extraordinary cooperation shown on this bill. Speakers have said this before, but I want to emphasize this: this may be the most important thing we conclude in terms of important legislation for our country's sake as we wind down this session before Christmas. It is our intent to take a vote on this tomorrow and hopefully ask the other body to move on it very quickly.

Ms. JACKSON-LEE of Texas. Mr. Speaker, I would also like to thank House Energy and Commerce Committee Chairman BILLY TAUZIN and Ranking Member JOHN DINGELL for this important bi-partisan legislation, H.R. 3448, so that we can fulfill our promise to the American people in terms of preparedness against bioterrorism.

For weeks, the House Energy and Commerce Committee worked tirelessly to strengthen our public health infrastructure at the national, state and local levels to better protect our Nation and our people. This legislation is the fruit of those efforts.

As a Member of the Homeland Security Task Force and as Vice-Chair of the Domestic Law Enforcement Working Group, I fully appreciate and respect the legislative effort before us. This balanced legislation, while by no means a complete fix to our problem of bioterrorism and homeland security, is an excellent beginning.

The Act broadly authorizes funds for planning, preparation, and response, and places particular emphasis on the state and local level. Importantly, the resources provided in this Act will go directly to those in the front lines who need them the most.

Specifically, the Act authorizes more than \$1 billion in grants to states, local governments, and other public and private health care facilities and other entities to improve planning and preparedness activities, enhance laboratory capacity, educate and train health care personnel, and to develop new drugs, therapies, and vaccines.

The Act authorizes \$450 million for the Centers for Disease Control and Prevention to upgrade their own capacities to deal with public health threats, to renovate their facilities and to improve their security. It also authorizes more than \$1 billion for the Secretary of Health and Human Services to expand our current national stockpiles of medicines and other supplies, including the purchase of additional smallpox vaccines.

The Act also establishes a national database of dangerous pathogens, and imposes new registration requirements on all possessors of the 36 most deadly biological agents and toxins and mandates tough new safety and security requirements.

Furthermore, the Act contains new protections for our Nation's food supply by increasing by \$100 million FDA resources to enable the Secretary to hire more inspectors at our borders and develop new methods to detect contaminated foods.

Finally, the Act provides greater protections against chemical, biological or radiological attacks on our drinking water by authorizing over \$100 million for the development of vulnerability analyses and emergency response plans for our drinking water systems.

This legislation is greatly needed now. As Members of Congress, entrusted with the security of our great Nation, our greatest responsibility is to provide the tools needed to get the job done. This legislation does that.

I urge my colleagues to support it.

Mrs. MCCARTHY of Missouri. Mr. Speaker, I rise in favor of the Public Health Security and Bioterrorism Response Act of 2001. In the three months since September 11, Congress has passed important legislation, including an Emergency Supplemental Appropriations package, an airline safety bill, and the war powers resolution to assist in the recovery, rebuilding, and protection of our homeland. The Public Health Security and Bioterrorism Response Act will contribute to the protection of our country and is critical to preparing the first responders for biological and chemical events.

This fall, I have held two conversations with the community in Kansas City. More than 250 citizens, including police, fire, emergency medical, public health, and government officials exchanged important ideas on how to secure proper communication systems for emergency response action in the event of a crisis. These first responders expressed that the current public health resources are not sufficient to protect the city in the face of a bioterrorist attack. The Public Health Security and Bioterrorism Response Act of 2001 authorizes \$2.69 billion for national, state, and local efforts to be prepared for bioterrorism and other public health emergencies. This bill will provide money to the local communities and will give them the flexibility they desire in determining its use. Section 106, amending Section 319H (a), page 33, states that "the Secretary may make awards of grants and cooperative agreements to appropriate public and nonprofit private health or education entities . . . for the purpose of providing low-interest loans, partial scholarships, partial fellowships, revolving loan funds, or other cost-sharing forms of assistance for the education and training of individuals in any category of health professions for which there is a shortage that the Secretary

determines should be alleviated in order to prepare for or respond effectively to bioterrorism and other public health emergencies.”

This legislation is specifically designed for the first responders. As it states in Section 108, this law will protect those who “Respond to a bioterrorist attack, including the provision of appropriate safety and health training and protective measures for medical, emergency service, and other personnel responding to such attacks.

In a bistate community such as the metropolitan Kansas City Area a community wide response is needed to protect our citizens. Fortunately in my community, the Mid America Regional Council's Metropolitan Medical Response System (MMRS) is a role model for our nation to follow. In light of the horrific attacks on our country and the ongoing biological and chemical threats facing our citizens this bill addresses the needs of a metropolitan area through Sec. 108, page 40, line 6, “(A) developing community wide plans involving the public and private health care infrastructure to respond to bioterrorism or other public health emergencies, which are coordinated with the capacities of applicable national, State, and local health agencies.”

These resources are essential in building our public health infrastructure and will allow for not only the upgrading of the Centers of Disease Control and Prevention and the purchase of the smallpox vaccine, but also grants for local communities to develop and implement emergency plans, the education of health care personnel, and the continuation of state and local preparedness activities. Due to this legislation, local governments across the country will receive increased funds and will be better prepared to meet their communities' public health needs.

Protection of the food supply and the security and safety of our drinking water are national concerns that are also addressed in this comprehensive bill. These include assessments of the threats to the food and water supplies, increased inspection of imported food, improved information management systems, and the development of rapid detection inspection methods. The Public Health Security and Bioterrorism Response Act of 2001 once implemented by our local public health and safety authorities will help to alleviate the fears of contamination of our food and water supplies.

Thank you Chairman TAUZIN and Ranking Member, Mr. DINGELL, for constructing this bipartisan bill. I fully support the passage of this legislation and am confident that it will contribute to the amplification of the public health infrastructure and local bioterrorism preparedness.

Mr. MARKEY. Mr. Speaker, I rise in support of the Public Health Security and Bioterrorism Response Act of 2001. This strong bipartisan effort increases funding for important public health response in the event of a bioterrorist attacks, and ultimately will help thousands of lives beyond those potentially threatened by bioterrorism. Today bioterrorism calls us to arms—but let us not forget that improving the public health system serves to protect against the more common but equally devastating threat of infectious disease—these illnesses end the lives of thousands of Americans daily

and continue to be the third leading cause of death in the United States. This bill is a positive step forward in addressing this ongoing problem by improving our currently underfunded public health system.

I am especially pleased that the bill includes provisions aimed at increasing stockpiles of potassium iodide as a public health response in the event of a successful terrorist attack on or accident at a nuclear power plant as well as provisions establishing new registration requirements and new rules limiting access to, and improving usage procedures for “select agents.”

Potassium iodide is to radiation exposure of the thyroid what Cipro is to Anthrax. Since potassium iodide must be taken within a few hours of exposure to radioactive iodine to be effective, it needs to be easily obtained by the people who live close to a nuclear reactor. While this provision doesn't go as far as I would personally prefer, it represents a good first step towards distributing stockpiles of this substance to local public health officials without requiring a formal request from the States. I look forward to improving this provision as this bill moves through the legislative process.

Under the compromise provision I worked out with the sponsors of this bill, the Secretary of Health and Human Services would be required to make potassium iodide available to State and local governments for stockpiling and distribution to public facilities, such as schools and hospitals, within 20 miles of every nuclear power plant in the United States. Potassium iodide has been proven to protect the thyroid gland from diseases caused by exposure to radioactive iodine released during a nuclear catastrophe. Children are most vulnerable to radiation-induced thyroid diseases because their thyroid glands are very active. To receive the drug, State and local governments must submit a plan for distribution and utilization of the tablets in the event of a nuclear incident. While I personally would like to see much larger stockpiles that would cover populations even further from the reactor, funding limitations and other factors did not make that possible at this juncture. I remain hopeful, however, that we can build on this first step so that we have a strong, public-health based program in place that assures that all citizens that may need potassium iodide in a crisis will be able to get it in a timely fashion.

I also applaud the inclusion of other provisions amending a 1996 bioterrorism law I had co-authored which required facilities that transfer potentially lethal biologic agents to register with the Centers for Disease Control (CDC). Today's bill expands the requirements for registration with the CDC by requiring all facilities that possess any one of a series of select agents to register with the CDC and establishes new criminal offenses involving the handling of these agents.

The Public Health Security and Bioterrorism Act of 2001 is a strong, bipartisan step towards protecting the public from the threat of bioterrorism or nuclear terrorism. I urge your support of this bill.

Mr. BUYER. Mr. Speaker, I rise in support of the Public Health Security and Bioterrorism Response Act. This legislation will strengthen our ability to conduct a war against terrorism, whether with biological, chemical, or radiological agents.

I am particularly pleased that this legislation contains a version of legislation I introduced to provide health professionals with access to the very best information we have for treatment of injuries or diseases from weapons of mass destruction or natural disasters. Our health care professionals are not resourced or trained with the proper tools to detect, diagnose, and treat casualties in the face of biological, chemical and radiological weapons.

The very best information we have for medical treatment of injuries or diseases as a result of these weapons currently resides with the Department of Defense and the Department of Veterans Affairs. There is no need to reinvent the wheel with regard to medical knowledge on weapons of mass destruction. It currently resides with the federal government. We have an obligation to get this information into the hands of all medical professionals who need it.

Section 105 of this bill directs the Secretary of Health and Human Services to develop and provide educational material to health professionals for the response to weapons of mass destruction. The Department of Defense and Department of Veterans Affairs have seats at the table with the Secretary in this program.

It is my intent with this Section that the educational material and curriculum that already exist within DOD and VA be adapted and provided to health professionals in civilian settings. We cannot afford to assume that our country will never have to experience a massive biological, chemical, or radiological attack. The combination of DOD's expertise in the field of treating casualties resulting from an unconventional attack and the VA's infrastructure of 171 medical centers, 800 clinics, satellite broadcasting capabilities and a pre-existing affiliation with 107 medical schools should enable current and future medical professions in this entire country to become knowledgeable and medically competent in the treatment of casualties of weapons of mass destruction.

Health care providers all across the country are not looking for anthrax, botulism, smallpox, and other such diseases. You do not diagnose what you have not been training to see. Now medical professionals will be trained to see and treat injuries or diseases from unconventional sources.

Let me also take a moment to explain what this provision does not do. It does not establish a federal curriculum for medical schools. It does not mandate that medical schools teach particular educational material. It does not set any new community standard with regard to health care and practice.

What I am interested in doing is sharing the information that is readily available through DOD and the VA with the civilian health care community. Our civilian health care system must develop effective, practical responses to these deadly weapons. It must do this through planning, training, preparation for future terrorist attacks. Section 105 will help.

Mr. Speaker, I would also like to briefly express my view regarding Title III of this bill, which addresses the security of our food, especially imported food. While I am pleased that this legislation pays special attention to the security of our food sources, let me be clear that I will encourage the Secretary of

HHS to exempt small businesses, and farms from the registration or the recordkeeping requirements of Title III. While I understand the bill exempts farms from recordkeeping, I do think that it is not necessary for American farmers to register with the Secretary of HHS as suppliers of food. Furthermore, I do not think that small retail food establishments, those in smaller rural communities, or those that serve a particular niche in a larger community should be required to register. To me, this is common sense, and I will be urging this approach to the Secretary.

This is a good measure that the Committee has worked very hard to produce and I urge the passage of the bill.

Mr. GILLMOR. Mr. Speaker, I rise in support of this anti-terror legislation and urge all my colleagues to vote in support of it.

Three months ago, to the date, our country was reminded that freedom is not free. It is a painful lesson, but one from which we have learned in the past and one we should never forget.

On one of the buildings here in Washington lies the inscription of John Philpot Curran's famous quote: "Eternal vigilance is the price of liberty." The legislation before us establishes the first down payment on securing our borders. I want to congratulate Chairman TAUZIN and the distinguished Ranking Member, JOHN DINGELL, for their vision on this project, as well as all the other subcommittee chairs, their ranking members and the committee staff for its hard work.

As Chairman of the House Subcommittee on Environment and Hazardous Materials, which has jurisdiction over hazardous chemicals and drinking water, I am particularly pleased with many of the sections in this bill. Our committee has been researching and evaluating over the last couple of months to come up with a reasoned and responsible approach. We have worked hard to encourage improvement in places that needed it and avoided either slowing or punishing those who have taken pro-active steps to secure our public's health and its environment.

For starters, Title II of this bill closes current reporting loopholes for those people either receiving or transporting select, dangerous toxic agents. Now, not only will there be an established screening process to keep suspected criminals or terrorists away from these chemicals, but all people who possess these chemicals must report that they have them to the Federal government.

In addition, Title III of our legislation provides new procedures to assess and detect efforts to intentionally harm our food and its delivery system. The legislation calls for advance notice of food coming into the country, extra maintenance of shipping records, and grants new authorities and money to the Federal government to commission food inspectors to handle any manpower shortages.

Finally, Title IV addresses the crucial issue of protecting our nation's drinking water. It encourages water systems to assess their vulnerabilities, come up with a response plan, and take any necessary actions to secure their facilities. Next, it calls for a review of current methods to diminish threats as well as for biomedical research on chemical, biological, and radiological contaminants. And on the issue of

unfunded mandates, this title provides the funding to communities to make requirements become realities.

Mr. Speaker, again, I thank you for this time to speak in favor of this bill and I urge all my colleagues to support it. As I mentioned at the beginning of my remarks, freedom is not free. We can take the step of learning from September 11 and prepare for the future. Or, we can hold our breath and "wait for the other shoe to drop." I hope we will all decide to be vigilant.

Ms. SLAUGHTER. Mr. Speaker, I rise today in strong support of the Public Health Security and Bioterrorism Response Act.

Three months ago, our Nation was the victim of a vicious and unprincipled terrorist attack. Thousands of innocent Americans perished in New York, Virginia, and Pennsylvania. We owe it to the victims, survivors, and their families to ensure that this terrible tragedy cannot be repeated.

The Public Health Security and Bioterrorism Response Act is an important step toward guaranteeing the safety and security of all our citizens. This bill will make major strides in protecting our food supply and our water supply. It will allow the government to track the movement of deadly biological agents and toxins, such as anthrax. And perhaps most importantly, it will significantly upgrade our public health infrastructure to allow for coordination, information sharing, and dissemination of crucial data.

I would like to extend my personal gratitude to Commerce Committee Chairman BILLY TAUZIN and Ranking Member JOHN DINGELL for including in this package numerous provisions from by bill, H.R. 3106, the Protecting America's Children Against Terrorism Act. I was proud to sponsor this bill along with my colleague from New York, Senator HILLARY RODHAM CLINTON. Significant portions of this legislation were also included in the Senate's bioterrorism package, S. 1756.

The Public Health Security and Bioterrorism Response Act includes portions of H.R. 3106 addressing: The establishment of an advisory committee on children and terrorism; Training for health care personnel to meet the needs of children in the event of a public health emergency; Increased research on issues such as the proper dosages of vaccines and antidotes for children; and The inclusion of pediatric supplies and equipment in the National Pharmaceutical Stockpile Program.

These provisions are crucial to ensure that our nation is prepared to care for children in the event of any type of public health emergency. The events of September 11 revealed to us the gaps in our systems for dealing with such an emergency; it is our duty to address those needs before we are called upon to respond again.

Mr. Speaker, I fully support the Public Health Security and Bioterrorism Response Act and urge my colleagues to do the same.

Mr. UPTON. Mr. Speaker, I rise in strong support of the Public Health Security and Bioterrorism Response Act. Just as the horrendous terrorist attacks of September 11 brought home to Americans the cruel face of hate, fanaticism, and outright evil and the need to wage war on international terrorism, so the anthrax attacks have brought home to

us our vulnerability to bioterrorism attacks on our homefront.

What was perhaps an abstract concern has become very, very real. I have traveled home to my district every week since September 11th, and I have heard the real fear in mothers' and fathers' voices and in the questions children ask me when I visit with them in their schools. Will we be ready should our communities suffer anthrax or smallpox attacks? Will we have the vaccines and antibiotics we need? Will emergency response teams and emergency medical services be ready to swing quickly into action? Will our health professionals be trained to recognize symptoms and quickly communicate suspicious outbreaks?

While home in Michigan, I have also met with emergency response teams at the local and state levels. While they are doing their best to prepare coordinated responses to worst-case scenarios, they need better tools—better weapons in their armories—to meet the threat of bioterrorist attacks.

Enacting the comprehensive, bipartisan bill before us today will go a long way in giving my local communities, my state, and this nation the tools and infrastructure needed to assure individuals and families and communities across the nation that we will have the strongest possible defense against potential acts and the ability to respond quickly and effectively should an attack nevertheless succeed.

Specifically, this bill will provide the funds necessary to substantially upgrade the Centers for Disease Control and Prevention's laboratories, facilities and communications capacities, as well as our state and local public health department's capabilities. It will create a national stockpile of vaccines, biologics, drugs, and medical devices to meet the health security needs of our people. The bill recognizes the enormous challenges that not only the CDC, but also the Food and Drug Administration must meet if we are to be prepared with sufficient vaccines and effective antibiotics. It provides the FDA with the authorities needed to meet those challenges without compromising public health. This bill will also slam shut some gaping loopholes in our regulation of the possession of chemical and biological agents that could be used to launch attacks. And it provides comprehensive protection for our drinking water and food supplies.

I am proud, not only as a Member of Congress, but also as a husband and father and community leader to be an original cosponsor of the Public Health Security and Bioterrorism Response Act of 2001. With the passage and enactment of this bill, we can say "YES" when a parent, a student, or a local community leader asks us if we are prepared for bioterrorism.

Ms. HARMAN. Mr. Speaker, I rise in strong support of the Public Health Security and Bioterrorism Response Act of 2001, and I commend Chairman TAUZIN and Ranking Member DINGELL for their leadership in fashioning this bipartisan measure. This important piece of legislation will take the first step toward ensuring that we will be able to prevent—and better respond to—any future bioterrorist attack.

The National Commission on Terrorism, on which I served last year, concluded that it is not a matter of if a bioterrorist attack will occur, but only a question of when. We saw

that expectation realized in October and November, when anthrax-laden letters caused the death of six Americans. And we will likely see it happen again.

Substantial evidence exists that al Qaeda and rogue states like Iraq have attempted to acquire biological agents, and they have certainly proven their ability to inflict mass death on the United States. The threat of bioterrorism is real, and our nation must be prepared to respond to any eventuality.

Our Government's response to the bioterrorist attacks of October was deeply flawed. We have talented people and good plans, but we have been lacking the resources and coordination to make our response effective. We must act now to improve our terrorism response, before another tragedy occurs.

This legislation improves the coordination and capacity of bioterrorism response, the security of biological agents, and the safety of our food and water supplies. It makes a substantial investment in programs that fund communications systems, laboratory improvements, and training programs across the nation.

Most important, the bill directs this investment to the state and local governments that need it most. All terrorism response is local, but in the past far too much of our counterterrorism funding has remained at the federal level. This bill will begin to correct this deficiency.

I am particularly glad that this bill includes funds to speed up the renovation of CDC's buildings and facilities. I have visited to the Centers for Disease Control and Prevention in Atlanta and seen talented people working in shabby conditions. This legislation will invest \$300 million in each of the next two years to improve the security of CDC facilities and construct much-needed research facilities. Improving our bioterrorism response must begin with the basics—and that means investing in critical infrastructure and facilities.

I am proud to cosponsor this legislation, and encourage all of my colleagues to support these needed measures.

Mr. TAUZIN. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. TERRY). The question is on the motion offered by the gentleman from Louisiana (Mr. TAUZIN) that the House suspend the rules and pass the bill, H.R. 3448.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds of those present have voted in the affirmative.

Mr. TAUZIN. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

DEPARTMENT OF VETERANS AFFAIRS HEALTH CARE PROGRAMS ENHANCEMENT ACT OF 2001

Mr. SMITH of New Jersey. Mr. Speaker, I move to suspend the rules

and pass the bill (H.R. 3447) to amend title 38, United States Code, to enhance the authority of the Secretary of Veterans Affairs to recruit and retain qualified nurses for the Veterans Health Administration, to provide an additional basis for establishing the inability of veterans to defray expenses of necessary medical care, to enhance certain health care programs of the Department of Veterans Affairs, and for other purposes.

The Clerk read as follows:

H.R. 3447

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the "Department of Veterans Affairs Health Care Programs Enhancement Act of 2001".

(b) TABLE OF CONTENTS.—The table of contents for this Act is as follows:

Sec. 1. Short title; table of contents.

Sec. 2. References to title 38, United States Code.

TITLE I—ENHANCEMENT OF NURSE RECRUITMENT AND RETENTION AUTHORITIES

Subtitle A—Recruitment Authorities

Sec. 101. Enhancement of employee incentive scholarship program.

Sec. 102. Enhancement of education debt reduction program.

Sec. 103. Report on requests for waivers of pay reductions for reemployed annuitants to fill nurse positions.

Subtitle B—Retention Authorities

Sec. 121. Additional pay for Saturday tours of duty for additional health care professionals in the Veterans Health Administration.

Sec. 122. Unused sick leave included in annuity computation of registered nurses within the Veterans Health Administration.

Sec. 123. Evaluation of Department of Veterans Affairs nurse managed clinics.

Sec. 124. Staffing levels for operations of medical facilities.

Sec. 125. Annual report on use of authorities to enhance retention of experienced nurses.

Sec. 126. Report on mandatory overtime for nurses and nursing assistants in Department of Veterans Affairs facilities.

Subtitle C—Other Authorities

Sec. 131. Organizational responsibility of the Director of the Nursing Service.

Sec. 132. Computation of annuity for part-time service performed by certain health-care professionals before April 7, 1986.

Sec. 133. Modification of nurse locality pay authorities.

Subtitle D—National Commission on VA Nursing

Sec. 141. Establishment of Commission.

Sec. 142. Duties of Commission.

Sec. 143. Reports.

Sec. 144. Powers.

Sec. 145. Personnel matters.

Sec. 146. Termination of Commission.

TITLE II—OTHER MATTERS

Sec. 201. Authority for Secretary of Veterans Affairs to provide service dogs for veterans with certain disabilities.

Sec. 202. Management of health care for certain low-income veterans.

Sec. 203. Maintenance of capacity for specialized treatment and rehabilitative needs of disabled veterans.

Sec. 204. Program for provision of chiropractic care and services to veterans.

Sec. 205. Funds for field offices of the Office of Research Compliance and Assurance.

Sec. 206. Major medical facility construction.

Sec. 207. Sense of Congress on special telephone services for veterans.

Sec. 208. Recodification of bereavement counseling authority and certain other health-related authorities.

Sec. 209. Extension of expiring collections authorities.

Sec. 210. Personal emergency response system for veterans with service-connected disabilities.

Sec. 211. One-year extension of eligibility for health care of veterans who served in Southwest Asia during the Persian Gulf War.

SEC. 2. REFERENCES TO TITLE 38, UNITED STATES CODE.

Except as otherwise expressly provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of title 38, United States Code.

TITLE I—ENHANCEMENT OF NURSE RECRUITMENT AND RETENTION AUTHORITIES

Subtitle A—Recruitment Authorities

SEC. 101. ENHANCEMENT OF EMPLOYEE INCENTIVE SCHOLARSHIP PROGRAM.

(a) PERMANENT AUTHORITY.—(1) Section 7676 is repealed.

(2) The table of sections at the beginning of chapter 76 is amended by striking the item relating to section 7676.

(b) MINIMUM PERIOD OF DEPARTMENT EMPLOYMENT FOR ELIGIBILITY.—Section 7672(b) is amended by striking "2 years" and inserting "one year".

(c) SCHOLARSHIP AMOUNT.—Subsection (b) of section 7673 is amended—

(1) in paragraph (1), by striking "for any 1 year" and inserting "for the equivalent of one year of full-time coursework"; and

(2) by striking paragraph (2) and inserting the following new paragraph (2):

"(2) in the case of a participant in the Program who is a part-time student, shall bear the same ratio to the amount that would be paid under paragraph (1) if the participant were a full-time student in the course of education or training being pursued by the participant as the coursework carried by the participant to full-time coursework in that course of education or training."

(d) LIMITATION ON PAYMENT.—Subsection (c) of section 7673 is amended to read as follows:

"(c) LIMITATIONS ON PERIOD OF PAYMENT.—(1) The maximum number of school years for which a scholarship may be paid under subsection (a) to a participant in the Program shall be six school years.

"(2) A participant in the Program may not receive a scholarship under subsection (a) for more than the equivalent of three years of full-time coursework."

(e) FULL-TIME COURSEWORK.—Section 7673 is further amended by adding at the end the following new subsection:

“(e) **FULL-TIME COURSEWORK.**—For purposes of this section, full-time coursework shall consist of the following:

“(1) In the case of undergraduate coursework, 30 semester hours per undergraduate school year.

“(2) In the case of graduate coursework, 18 semester hours per graduate school year.”.

(f) **ANNUAL ADJUSTMENT OF MAXIMUM SCHOLARSHIP AMOUNT.**—Section 7631 is amended—

(1) in subsection (a)(1), by striking “and the maximum Selected Reserve member stipend amount” and inserting “the maximum Selected Reserve member stipend amount, the maximum employee incentive scholarship amount,”; and

(2) in subsection (b)—

(A) by redesignating paragraph (4) as paragraph (6); and

(B) by inserting after paragraph (3) the following new paragraph (4):

“(4) The term ‘maximum employee incentive scholarship amount’ means the maximum amount of the scholarship payable to a participant in the Department of Veterans Affairs Employee Incentive Scholarship Program under subchapter VI of this chapter, as specified in section 7673(b)(1) of this title and as previously adjusted (if at all) in accordance with this section.”.

(g) **TECHNICAL AMENDMENTS.**—Section 7631(b) is further amended by striking “this subsection” each place it appears and inserting “this section”.

SEC. 102. ENHANCEMENT OF EDUCATION DEBT REDUCTION PROGRAM.

(a) **PERMANENT AUTHORITY.**—(1) Section 7684 is repealed.

(2) The table of sections at the beginning of chapter 76 is amended by striking the item relating to section 7684.

(b) **ELIGIBLE INDIVIDUALS.**—Subsection (a)(1) of section 7682 is amended—

(1) by striking “under an appointment under section 7402(b) of this title in a position” and inserting “in a position (as determined by the Secretary) providing direct-patient care services or services incident to direct-patient care services”; and

(2) by striking “(as determined by the Secretary)” and inserting “(as so determined)”.

(c) **MAXIMUM DEBT REDUCTION AMOUNT.**—Section 7683(d)(1) is amended—

(1) by striking “for a year”; and

(2) by striking “exceed—” and all that follows through the end of the paragraph and inserting “exceed \$44,000 over a total of five years of participation in the Program, of which not more than \$10,000 of such payments may be made in each of the fourth and fifth years of participation in the Program.”.

(d) **ANNUAL ADJUSTMENT OF MAXIMUM DEBT REDUCTION PAYMENTS AMOUNT.**—(1) Section 7631, as amended by section 101(f) of this Act, is further amended—

(A) in subsection (a)(1), by inserting before the period at the end of the first sentence the following: “and the maximum education debt reduction payments amount”; and

(B) in subsection (b), by inserting after paragraph (4) the following new paragraph (5):

“(5) The term ‘maximum education debt reduction payments amount’ means the maximum amount of education debt reduction payments payable to a participant in the Department of Veterans Affairs Education Debt Reduction Program under subchapter VII of this chapter, as specified in section 7683(d)(1) of this title and as previously adjusted (if at all) in accordance with this section.”.

(2) Notwithstanding section 7631(a)(1) of title 38, United States Code, as amended by

paragraph (1), the Secretary of Veterans Affairs shall not increase the maximum education debt reduction payments amount under that section in calendar year 2002.

(e) **TEMPORARY EXPANSION OF INDIVIDUALS ELIGIBLE FOR PARTICIPATION IN PROGRAM.**—

(1) Notwithstanding section 7682(c) of title 38, United States Code, the Secretary of Veterans Affairs may treat a covered individual as being a recently appointed employee in the Veterans Health Administration under section 7682(a) of that title for purposes of eligibility in the Education Debt Reduction Program if the Secretary determines that the participation of the individual in the Program under this subsection would further the purposes of the Program.

(2) For purposes of this subsection, a covered individual is any individual otherwise described by section 7682(a) of title 38, United States Code, as in effect on the day before the date of the enactment of this Act, who—

(A) was appointed as an employee in a position described in paragraph (1) of that section, as so in effect, between January 1, 1999, and December 31, 2001; and

(B) is an employee in such position, or in another position described in paragraph (1) of that section, as so in effect, at the time of application for treatment as a covered individual under this subsection.

(3) The Secretary shall make determinations regarding the exercise of the authority in this subsection on a case-by-case basis.

(4) The Secretary may not exercise the authority in this subsection after June 30, 2002. The expiration of the authority in this subsection shall not affect the treatment of an individual under this subsection before that date as a covered individual for purposes of eligibility in the Education Debt Reduction Program.

(5) In this subsection, the term “Education Debt Reduction Program” means the Department of Veterans Affairs Education Debt Reduction Program under subchapter VII of chapter 76 of title 38, United States Code.

SEC. 103. REPORT ON REQUESTS FOR WAIVERS OF PAY REDUCTIONS FOR REEMPLOYED ANNUITANTS TO FILL NURSE POSITIONS.

(a) **REPORT.**—Not later than March 28 of each of 2002 and 2003, the Secretary of Veterans Affairs shall submit to the Committees on Veterans' Affairs of the Senate and the House of Representatives and to the National Commission on VA Nursing established under subtitle D a report describing each request of the Secretary, during the fiscal year preceding such report, to the Director of the Office of Personnel Management for the following:

(1) A waiver under subsection (i)(1)(A) of section 8344 of title 5, United States Code, of the provisions of such section in order to meet requirements of the Department of Veterans Affairs for appointments to nurse positions in the Veterans Health Administration.

(2) A waiver under subsection (f)(1)(A) of section 8468 of title 5, United States Code, of the provisions of such section in order to meet requirements of the Department for appointments to such positions.

(3) A grant of authority under subsection (i)(1)(B) of section 8344 of title 5, United States Code, for the waiver of the provisions of such section in order to meet requirements of the Department for appointments to such positions.

(4) A grant of authority under subsection (f)(1)(B) of section 8468 of title 5, United States Code, for the waiver of the provisions of such section in order to meet requirements of the Department for appointments to such positions.

(b) **INFORMATION ON RESPONSES TO REQUESTS.**—The report under subsection (a) shall specify for each request covered by the report—

(1) the response of the Director to such request; and

(2) if such request was granted, whether or not the waiver or authority, as the case may be, assisted the Secretary in meeting requirements of the Department for appointments to nurse positions in the Veterans Health Administration.

Subtitle B—Retention Authorities

SEC. 121. ADDITIONAL PAY FOR SATURDAY TOURS OF DUTY FOR ADDITIONAL HEALTH CARE PROFESSIONALS IN THE VETERANS HEALTH ADMINISTRATION.

(a) **IN GENERAL.**—Section 7454(b) is amended—

(1) by inserting “(1)” after “(b)”;

(2) by adding at the end the following new paragraph:

“(2) Health care professionals employed in positions referred to in paragraph (1) shall be entitled to additional pay on the same basis as provided for nurses in section 7453(c) of this title.”.

(b) **APPLICABILITY.**—The amendments made by subsection (a) shall apply with respect to pay periods beginning on or after the date of the enactment of this Act.

SEC. 122. UNUSED SICK LEAVE INCLUDED IN ANNUITY COMPUTATION OF REGISTERED NURSES WITHIN THE VETERANS HEALTH ADMINISTRATION.

(a) **ANNUITY COMPUTATION.**—Section 8415 of title 5, United States Code, is amended by adding at the end the following new subsection:

“(i) In computing an annuity under this subchapter, the total service of an employee who retires from the position of a registered nurse with the Veterans Health Administration on an immediate annuity, or dies while employed in that position leaving any survivor entitled to an annuity, includes the days of unused sick leave to the credit of that employee under a formal leave system, except that such days shall not be counted in determining average pay or annuity eligibility under this subchapter.”.

(b) **DEPOSIT NOT REQUIRED.**—Section 8422(d) of such title is amended—

(1) by inserting “(1)” before “Under such regulations”; and

(2) by adding at the end the following:

“(2) Deposit may not be required for days of unused sick leave credited under section 8415(i).”.

(c) **EFFECTIVE DATE.**—The amendments made by this section shall take effect 60 days after the date of the enactment of this Act and shall apply to individuals who separate from service on or after that effective date.

SEC. 123. EVALUATION OF DEPARTMENT OF VETERANS AFFAIRS NURSE MANAGED CLINICS.

(a) **EVALUATION.**—The Secretary of Veterans Affairs shall carry out an evaluation of the efficacy of the nurse managed health care clinics of the Department of Veterans Affairs. The Secretary shall complete the evaluation not later than 18 months after the date of the enactment of this Act.

(b) **CLINICS TO BE EVALUATED.**—(1) In carrying out the evaluation under subsection (a), the Secretary shall consider nurse managed health care clinics, including primary care clinics and geriatric care clinics, located in three different geographic service areas of the Department.

(2) If there are not nurse managed health care clinics located in three different geographic service areas as of the commencement of the evaluation, the Secretary shall—

(A) establish nurse managed health care clinics in additional geographic service areas such that there are nurse managed health care clinics in three different geographic service areas for purposes of the evaluation; and

(B) include such clinics, as so established, in the evaluation.

(c) MATTERS TO BE EVALUATED.—In carrying out the evaluation under subsection (a), the Secretary shall address the following:

- (1) Patient satisfaction.
- (2) Provider experiences.
- (3) Cost of care.
- (4) Access to care, including waiting time for care.
- (5) The functional status of patients receiving care.

(6) Any other matters the Secretary considers appropriate.

(d) REPORT.—Not later than 18 months after the date of the enactment of this Act, the Secretary shall submit to the Committees on Veterans' Affairs of the Senate and the House of Representatives a report on the evaluation carried out under subsection (a). The report shall address the matters specified in subsection (c) and include any other information, and any recommendations, that the Secretary considers appropriate. The Secretary shall provide a copy of the report to the National Commission on VA Nursing established under subtitle D.

SEC. 124. STAFFING LEVELS FOR OPERATIONS OF MEDICAL FACILITIES.

(a) IN GENERAL.—Section 8110(a) is amended—

(1) in paragraph (1), by inserting after “complete care of patients,” in the fifth sentence the following: “and in a manner consistent with the policies of the Secretary on overtime,”; and

(2) in paragraph (2)—

(A) by inserting “, including the staffing required to maintain such capacities,” after “all Department medical facilities”;

(B) by striking “and to minimize” and inserting “, to minimize”; and

(C) by inserting before the period the following: “, and to ensure that eligible veterans are provided such care and services in an appropriate manner”.

(b) NATIONWIDE POLICY ON STAFFING.—Paragraph (3) of that section is amended—

(1) in subparagraph (A), by inserting “the adequacy of staff levels for compliance with the policy established under subparagraph (C),” after “regarding”; and

(2) by inserting after subparagraph (B) the following new subparagraph:

“(C) The Secretary shall, in consultation with the Under Secretary for Health, establish a nationwide policy on the staffing of Department medical facilities in order to ensure that such facilities have adequate staff for the provision to veterans of appropriate, high-quality care and services. The policy shall take into account the staffing levels and mixture of staff skills required for the range of care and services provided veterans in Department facilities.”.

SEC. 125. ANNUAL REPORT ON USE OF AUTHORITIES TO ENHANCE RETENTION OF EXPERIENCED NURSES.

(a) ANNUAL REPORT.—(1) Subchapter II of chapter 73 is amended by adding at the end the following new section:

“§ 7324. Annual report on use of authorities to enhance retention of experienced nurses

“(a) ANNUAL REPORT.—Not later than January 31 each year, the Secretary, acting through the Under Secretary for Health, shall submit to Congress a report on the use

during the preceding year of authorities for purposes of retaining experienced nurses in the Veterans Health Administration, as follows:

“(1) The authorities under chapter 76 of this title.

“(2) The authority under VA Directive 5102.1, relating to the Department of Veterans Affairs nurse qualification standard, dated November 10, 1999, or any successor directive.

“(3) Any other authorities available to the Secretary for those purposes.

“(b) REPORT ELEMENTS.—Each report under subsection (a) shall specify for the period covered by such report, for each Department medical facility and for each geographic service area of the Department, the following:

“(1) The number of waivers requested under the authority referred to in subsection (a)(2), and the number of waivers granted under that authority, to promote to the Nurse II grade or Nurse III grade under the Nurse Schedule under section 7404(b)(1) of this title any nurse who has not completed a baccalaureate degree in nursing in a recognized school of nursing, set forth by age, race, and years of experience of the individuals subject to such waiver requests and waivers, as the case may be.

“(2) The programs carried out to facilitate the use of nursing education programs by experienced nurses, including programs for flexible scheduling, scholarships, salary replacement pay, and on-site classes.”.

(2) The table of sections at the beginning of chapter 73 is amended by inserting after the item relating to section 7323 the following new item:

“7324. Annual report on use of authorities to enhance retention of experienced nurses.”.

(b) INITIAL REPORT.—The initial report required under section 7324 of title 38, United States Code, as added by subsection (a), shall be submitted to the National Commission on VA Nursing established under subtitle D as well as to Congress.

SEC. 126. REPORT ON MANDATORY OVERTIME FOR NURSES AND NURSING ASSISTANTS IN DEPARTMENT OF VETERANS AFFAIRS FACILITIES.

(a) REPORT.—Not later than 180 days after the date of the enactment of this Act, the Secretary of Veterans Affairs shall submit to the Committees on Veterans' Affairs of the Senate and the House of Representatives and to the National Commission on VA Nursing established under subtitle D a report on the mandatory overtime required of licensed nurses and nursing assistants providing direct patient care at Department of Veterans Affairs medical facilities during 2001.

(b) MANDATORY OVERTIME.—For purposes of the report under subsection (a), mandatory overtime shall consist of any period in which a nurse or nursing assistant is mandated or otherwise required, whether directly or indirectly, to work or be in on-duty status in excess of—

- (1) a scheduled workshift or duty period;
- (2) 12 hours in any 24-hour period; or
- (3) 80 hours in any period of 14 consecutive days.

(c) ELEMENTS.—The report under subsection (a) shall include the following:

(1) A description of the amount of mandatory overtime described in that subsection at each Department medical facility during the period covered by the report.

(2) A description of the mechanisms employed by the Secretary to monitor overtime of the nurses and nursing assistants referred to in that subsection.

(3) An assessment of the effects of the mandatory overtime of such nurses and nursing assistants on patient care, including any reported association with medical errors.

(4) Recommendations regarding mechanisms for preventing mandatory overtime in other than emergency situations by such nurses and nursing assistants.

(5) Any other matters that the Secretary considers appropriate.

Subtitle C—Other Authorities

SEC. 131. ORGANIZATIONAL RESPONSIBILITY OF THE DIRECTOR OF THE NURSING SERVICE.

Section 7306(a)(5) is amended by inserting “, and report directly to,” after “responsible to”.

SEC. 132. COMPUTATION OF ANNUITY FOR PART-TIME SERVICE PERFORMED BY CERTAIN HEALTH-CARE PROFESSIONALS BEFORE APRIL 7, 1986.

Section 7426 is amended by adding at the end the following new subsection:

“(c) The provisions of subsection (b) shall not apply to the part-time service before April 7, 1986, of a registered nurse, physician assistant, or expanded-function dental auxiliary. In computing the annuity under the applicable provision of law specified in that subsection of an individual covered by the preceding sentence, the service described in that sentence shall be credited as full-time service.”.

SEC. 133. MODIFICATION OF NURSE LOCALITY PAY AUTHORITIES.

Section 7451 is amended—

(1) in subsection (d)(3)—

(A) in subparagraph (A), by striking “beginning rates of” each place it appears;

(B) in subparagraph (B), by striking “beginning rates of” the first place it appears; and

(C) in subparagraph (C)(i), by striking “beginning rates of” each place it appears;

(2) in subsection (d)(4)—

(A) by striking “or at any other time that an adjustment in rates of pay is scheduled to take place under this subsection” in the first sentence; and

(B) by striking the second sentence; and

(3) in subsection (e)(4)—

(A) in subparagraph (A), by striking “grade in a”;

(B) in subparagraph (B)—

(i) by striking “grade of a”; and

(ii) by striking “that grade” and inserting “that position”; and

(C) in subparagraph (D), by striking “grade of a”.

Subtitle D—National Commission on VA Nursing

SEC. 141. ESTABLISHMENT OF COMMISSION.

(a) ESTABLISHMENT.—There is hereby established in the Department of Veterans Affairs a commission to be known as the “National Commission on VA Nursing” (hereinafter in this subtitle referred to as the “Commission”).

(b) COMPOSITION.—The Commission shall be composed of 12 members appointed by the Secretary of Veterans Affairs as follows:

(1) At least two shall be recognized representatives of employees (including nurses) of the Department of Veterans Affairs.

(2) At least one shall be a representative of professional associations of nurses of the Department or similar organizations affiliated with the Department's health care practitioners.

(3) At least one shall be a nurse from a nursing school affiliated with the Department of Veterans Affairs.

(4) At least two shall be representatives of veterans.

(5) At least one shall be an economist.

(6) The remainder shall be appointed in such manner as the Secretary considers appropriate.

(c) **CHAIR OF COMMISSION.**—The Secretary of Veterans Affairs shall designate one of the members of the Commission to chair the Commission.

(d) **PERIOD OF APPOINTMENT; VACANCIES.**—Members shall be appointed for the life of the Commission. Any vacancy in the Commission shall be filled in the same manner as the original appointment.

(e) **INITIAL ORGANIZATION REQUIREMENTS.**—All appointments to the Commission shall be made not later than 60 days after the date of the enactment of this Act. The Commission shall convene its first meeting not later than 60 days after the date as of which all members of the Commission have been appointed.

SEC. 142. DUTIES OF COMMISSION.

(a) **ASSESSMENT.**—The Commission shall—

(1) consider legislative and organizational policy changes to enhance the recruitment and retention of nurses and other nursing personnel by the Department of Veterans Affairs; and

(2) assess the future of the nursing profession within the Department.

(b) **RECOMMENDATIONS.**—The Commission shall recommend legislative and organizational policy changes to enhance the recruitment and retention of nurses and other nursing personnel in the Department.

SEC. 143. REPORTS.

(a) **COMMISSION REPORT.**—The Commission shall, not later than 20 years after the date of its first meeting, submit to Congress and the Secretary of Veterans Affairs a report on the Commission's findings and recommendations.

(b) **SECRETARY OF VETERANS AFFAIRS REPORT.**—Not later than 60 days after the date of the Commission's report under subsection (a), the Secretary shall submit to Congress a report—

(1) providing the Secretary's views on the Commission's findings and recommendations; and

(2) explaining what actions, if any, the Secretary intends to take to implement the recommendations of the Commission and the Secretary's reasons for doing so.

SEC. 144. POWERS.

(a) **HEARINGS.**—The Commission or, at its direction, any panel or member of the Commission, may, for the purpose of carrying out the provisions of this subtitle, hold hearings and take testimony to the extent that the Commission or any member considers advisable.

(b) **INFORMATION.**—The Commission may secure directly from any Federal department or agency information that the Commission considers necessary to enable the Commission to carry out its responsibilities under this subtitle.

SEC. 145. PERSONNEL MATTERS.

(a) **PAY OF MEMBERS.**—Members of the Commission shall serve without pay by reason of their work on the Commission.

(b) **TRAVEL EXPENSES.**—The members of the Commission shall be allowed travel expenses, including per diem in lieu of subsistence, at rates authorized for employees of agencies under subchapter I of chapter 57 of title 5, United States Code, while away from their homes or regular places of business in the performance of services for the Commission.

(c) **STAFF.**—(1) The Secretary may, without regard to the provisions of title 5, United States Code, governing appointments in the

competitive service, appoint a staff director and such additional personnel as may be necessary to enable the Commission to perform its duties.

(2) The Secretary may fix the pay of the staff director and other personnel appointed under paragraph (1) without regard to the provisions of chapter 51 and subchapter III of chapter 53 of title 5, United States Code, relating to classification of positions and General Schedule pay rates, except that the rate of pay fixed under this paragraph for the staff director may not exceed the rate payable for level V of the Executive Schedule under section 5316 of such title and the rate of pay for other personnel may not exceed the maximum rate payable for grade GS-15 of the General Schedule.

(d) **DETAIL OF GOVERNMENT EMPLOYEES.**—Upon request of the Secretary, the head of any Federal department or agency may detail, on a nonreimbursable basis, any personnel of that department or agency to the Commission to assist it in carrying out its duties.

SEC. 146. TERMINATION OF COMMISSION.

The Commission shall terminate 90 days after the date of the submission of its report under section 143(a).

TITLE II—OTHER MATTERS

SEC. 201. AUTHORITY FOR SECRETARY OF VETERANS AFFAIRS TO PROVIDE SERVICE DOGS FOR VETERANS WITH CERTAIN DISABILITIES.

(a) **AUTHORITY.**—Section 1714 is amended—

(1) in subsection (b)—

(A) by striking "seeing-eye or" the first place it appears;

(B) by striking "who are entitled to disability compensation" and inserting "who are enrolled under section 1705 of this title";

(C) by striking "and may pay" and all that follows through "such seeing-eye or guide dogs"; and

(D) by striking "handicap" and inserting "disability"; and

(2) by adding at the end the following new subsections:

"(c) The Secretary may, in accordance with the priority specified in section 1705 of this title, provide—

"(1) service dogs trained for the aid of the hearing impaired to veterans who are hearing impaired and are enrolled under section 1705 of this title; and

"(2) service dogs trained for the aid of persons with spinal cord injury or dysfunction or other chronic impairment that substantially limits mobility to veterans with such injury, dysfunction, or impairment who are enrolled under section 1705 of this title.

"(d) In the case of a veteran provided a dog under subsection (b) or (c), the Secretary may pay travel and incidental expenses for that veteran under the terms and conditions set forth in section 111 of this title to and from the veteran's home for expenses incurred in becoming adjusted to the dog."

(b) **CLERICAL AMENDMENTS.**—(1) The heading for such section is amended to read as follows:

"§1714. Fitting and training in use of prosthetic appliances; guide dogs; service dogs".

(2) The item relating to such section in the table of sections at the beginning of chapter 17 is amended to read as follows:

"1714. Fitting and training in use of prosthetic appliances; guide dogs; service dogs."

SEC. 202. MANAGEMENT OF HEALTH CARE FOR CERTAIN LOW-INCOME VETERANS.

(a) **PRIORITY OF ENROLLMENT IN PATIENT ENROLLMENT SYSTEM.**—Section 1705(a) is

amended by striking paragraph (7) and inserting the following new paragraphs:

"(7) Veterans described in section 1710(a)(3) of this title who are eligible for treatment as a low-income family under section 3(b) of the United States Housing Act of 1937 (42 U.S.C. 1437a(b)) for the area in which such veterans reside, regardless of whether such veterans are treated as single person families under paragraph (3)(A) of such section 3(b) or as families under paragraph (3)(B) of such section 3(b).

"(8) Veterans described in section 1710(a)(3) of this title who are not covered by paragraph (7)."

(b) **REDUCED COPAYMENTS FOR CARE.**—Subsection (f) of section 1710 is amended—

(1) in paragraph (1), by inserting "or (4)" after "paragraph (2)";

(2) by redesignating paragraph (4) as paragraph (5); and

(3) by inserting after paragraph (3) the following new paragraph (4):

"(4) In the case of a veteran covered by this subsection who is also described by section 1705(a)(7) of this title, the amount for which the veteran shall be liable to the United States for hospital care under this subsection shall be an amount equal to 20 percent of the total amount for which the veteran would otherwise be liable for such care under subparagraphs (2)(B) and (3)(A) but for this paragraph."

(c) **EFFECTIVE DATE.**—The amendments made by this section shall take effect on October 1, 2002.

SEC. 203. MAINTENANCE OF CAPACITY FOR SPECIALIZED TREATMENT AND REHABILITATIVE NEEDS OF DISABLED VETERANS.

(a) **MAINTENANCE OF CAPACITY ON A GEOGRAPHIC SERVICE AREA BASIS.**—Section 1706(b) is amended—

(1) in paragraph (1)—

(A) in the first sentence, by inserting "(and each geographic service area of the Veterans Health Administration)" after "ensure that the Department"; and

(B) in clause (B), by inserting "(and each geographic service area of the Veterans Health Administration)" after "overall capacity of the Department";

(2) by redesignating paragraphs (2) and (3) as paragraphs (5) and (6), respectively; and

(3) by inserting after paragraph (1) the following new paragraphs:

"(2) For purposes of paragraph (1), the capacity of the Department (and each geographic service area of the Veterans Health Administration) to provide for the specialized treatment and rehabilitative needs of disabled veterans (including veterans with spinal cord dysfunction, traumatic brain injury, blindness, prosthetics and sensory aids, and mental illness) within distinct programs or facilities shall be measured for seriously mentally ill veterans as follows (with all such data to be provided by geographic service area and totaled nationally):

"(A) For mental health intensive community-based care, the number of discrete intensive care teams constituted to provide such intensive services to seriously mentally ill veterans and the number of veterans provided such care.

"(B) For opioid substitution programs, the number of patients treated annually and the amounts expended.

"(C) For dual-diagnosis patients, the number treated annually and the amounts expended.

"(D) For substance-use disorder programs—

“(i) the number of beds (whether hospital, nursing home, or other designated beds) employed and the average bed occupancy of such beds;

“(ii) the percentage of unique patients admitted directly to outpatient care during the fiscal year who had two or more additional visits to specialized outpatient care within 30 days of their first visit, with a comparison from 1996 until the date of the report;

“(iii) the percentage of unique inpatients with substance-use disorder diagnoses treated during the fiscal year who had one or more specialized clinic visits within three days of their index discharge, with a comparison from 1996 until the date of the report;

“(iv) the percentage of unique outpatients seen in a facility or geographic service area during the fiscal year who had one or more specialized clinic visits, with a comparison from 1996 until the date of the report; and

“(v) the rate of recidivism of patients at each specialized clinic in each geographic service area of the Veterans Health Administration.

“(E) For mental health programs, the number and type of staff that are available at each facility to provide specialized mental health treatment, including satellite clinics, outpatient programs, and community-based outpatient clinics, with a comparison from 1996 to the date of the report.

“(F) The number of such clinics providing mental health care, the number and type of mental health staff at each such clinic, and the type of mental health programs at each such clinic.

“(G) The total amounts expended for mental health during the fiscal year.

“(3) For purposes of paragraph (1), the capacity of the Department (and each geographic service area of the Veterans Health Administration) to provide for the specialized treatment and rehabilitative needs of disabled veterans within distinct programs or facilities shall be measured for veterans with spinal cord dysfunction, traumatic brain injury, blindness, or prosthetics and sensory aids as follows (with all such data to be provided by geographic service area and totaled nationally):

“(A) For spinal cord injury and dysfunction specialized centers and for blind rehabilitation specialized centers, the number of staffed beds and the number of full-time equivalent employees assigned to provide care at such centers.

“(B) For prosthetics and sensory aids, the annual amount expended.

“(C) For traumatic brain injury, the number of patients treated annually and the amounts expended.

“(4) In carrying out paragraph (1), the Secretary may not use patient outcome data as a substitute for, or the equivalent of, compliance with the requirement under that paragraph for maintenance of capacity.”.

(b) **EXTENSION OF ANNUAL REPORT REQUIREMENT.**—Paragraph (5) of such section, as so redesignated, is amended—

(1) by inserting “(A)” before “Not later than”;

(2) by striking “April 1, 1999, April 1, 2000, and April 1, 2001” and inserting “April 1 of each year through 2004”;

(3) by adding at the end of subparagraph (A), as designated by paragraph (1), the following new sentence: “Each such report shall include information on recidivism rates associated with substance-use disorder treatment.”; and

(4) by adding at the end of such paragraph the following new subparagraphs:

“(B) In preparing each report under subparagraph (A), the Secretary shall use standardized data and data definitions.

“(C) Each report under subparagraph (A) shall be audited by the Inspector General of the Department, who shall submit to Congress a certification as to the accuracy of each such report.”.

SEC. 204. PROGRAM FOR PROVISION OF CHIROPRACTIC CARE AND SERVICES TO VETERANS.

(a) **REQUIREMENT FOR PROGRAM.**—Subject to the provisions of this section, the Secretary of Veterans Affairs shall carry out a program to provide chiropractic care and services to veterans through Department of Veterans Affairs medical centers and clinics.

(b) **ELIGIBLE VETERANS.**—Veterans eligible to receive chiropractic care and services under the program are veterans who are enrolled in the system of patient enrollment under section 1705 of title 38, United States Code.

(c) **LOCATION OF PROGRAM.**—The program shall be carried out at sites designated by the Secretary for purposes of the program. The Secretary shall designate at least one site for such program in each geographic service area of the Veterans Health Administration. The sites so designated shall be medical centers and clinics located in urban areas and in rural areas.

(d) **CARE AND SERVICES AVAILABLE.**—The chiropractic care and services available under the program shall include a variety of chiropractic care and services for neuro-musculoskeletal conditions, including subluxation complex.

(e) **OTHER ADMINISTRATIVE MATTERS.**—(1) The Secretary shall carry out the program through personal service contracts and by appointment of licensed chiropractors in Department medical centers and clinics.

(2) As part of the program, the Secretary shall provide training and materials relating to chiropractic care and services to Department health care providers assigned to primary care teams for the purpose of familiarizing such providers with the benefits of chiropractic care and services.

(f) **REGULATIONS.**—The Secretary shall prescribe regulations to carry out this section.

(g) **CHIROPRACTIC ADVISORY COMMITTEE.**—(1) The Secretary shall establish an advisory committee to provide direct assistance and advice to the Secretary in the development and implementation of the chiropractic health program.

(2) The membership of the advisory committee shall include members of the chiropractic care profession and such other members as the Secretary considers appropriate.

(3) Matters on which the advisory committee shall assist and advise the Secretary shall include the following:

(A) Protocols governing referral to chiropractors.

(B) Protocols governing direct access to chiropractic care.

(C) Protocols governing scope of practice of chiropractic practitioners.

(D) Definition of services to be provided.

(E) Such other matters the Secretary determines to be appropriate.

(4) The advisory committee shall cease to exist on December 31, 2004.

SEC. 205. FUNDS FOR FIELD OFFICES OF THE OFFICE OF RESEARCH COMPLIANCE AND ASSURANCE.

(a) **IN GENERAL.**—Section 7303 is amended by adding at the end the following new subsection:

“(e) Amounts for the activities of the field offices of the Office of Research Compliance

and Assurance of the Department shall be derived from amounts appropriated for the Veterans Health Administration for Medical Care (rather than from amounts appropriated for the Veterans Health Administration for Medical and Prosthetic Research).”.

(b) **APPLICABILITY TO FISCAL YEAR 2002.**—In order to carry out subsection (e) of section 7303 of title 38, United States Code, as added by subsection (a), for fiscal year 2002, the Secretary of Veterans Affairs shall transfer such sums as necessary for that purpose from amounts appropriated for the Veterans Health Administration for Medical and Prosthetic Research for fiscal year 2002 to amounts appropriated for the Veterans Health Administration for Medical Care for that fiscal year.

SEC. 206. MAJOR MEDICAL FACILITY CONSTRUCTION.

(a) **PROJECT AUTHORIZED.**—The Secretary of Veterans Affairs may carry out a major medical facility project for the renovation from electrical fire of the Department of Veterans Affairs Medical Center, Miami, Florida, in an amount not to exceed \$28,300,000.

(b) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated to the Secretary of Veterans Affairs for the Construction, Major Projects Account, for fiscal year 2002, \$28,300,000 for the project authorized by subsection (a).

(c) **LIMITATION.**—The project authorized by subsection (a) may only be carried out using—

(1) funds appropriated for fiscal year 2002 pursuant to the authorization of appropriations in subsection (b);

(2) funds appropriated for Construction, Major Projects, for a fiscal year before fiscal year 2002 that remain available for obligation; and

(3) funds appropriated for Construction, Major Projects, for fiscal year 2002 for a category of activity not specific to a project.

SEC. 207. SENSE OF CONGRESS ON SPECIAL TELEPHONE SERVICES FOR VETERANS.

It is the sense of Congress that the Secretary of Veterans Affairs should conduct an assessment of all special telephone services for veterans (such as help lines and hotlines) that are provided by the Department of Veterans Affairs and that any such assessment, if conducted, should include assessment of the geographical coverage, availability, utilization, effectiveness, management, coordination, staffing, and cost of those services and should include a survey of veterans to measure their satisfaction with current special telephone services and the demand for additional services.

SEC. 208. RECODIFICATION OF BEREAVEMENT COUNSELING AUTHORITY AND CERTAIN OTHER HEALTH-RELATED AUTHORITIES.

(a) **STATUTORY REORGANIZATION.**—Subchapter I of chapter 17 is amended—

(1) in section 1701(6)—

(A) by striking subparagraph (B) and the sentence following that subparagraph;

(B) by striking “services—” in the matter preceding subparagraph (A) and inserting “services, the following:”; and

(C) by striking subparagraph (A) and inserting the following:

“(A) Surgical services.

“(B) Dental services and appliances as described in sections 1710 and 1712 of this title.

“(C) Optometric and podiatric services.

“(D) Preventive health services.

“(E) In the case of a person otherwise receiving care or services under this chapter—

“(i) wheelchairs, artificial limbs, trusses, and similar appliances;

“(ii) special clothing made necessary by the wearing of prosthetic appliances; and

“(iii) such other supplies or services as the Secretary determines to be reasonable and necessary.

“(F) Travel and incidental expenses pursuant to section 111 of this title.”; and

(2) in section 1707—

(A) by inserting “(a)” at the beginning of the text of the section; and

(B) by adding at the end the following:

“(b) The Secretary may furnish sensorineural aids only in accordance with guidelines prescribed by the Secretary.”.

(b) CONSOLIDATION OF PROVISIONS RELATING TO PERSONS OTHER THAN VETERANS.—Such chapter is further amended by adding at the end the following new subchapter:

“SUBCHAPTER VIII—HEALTH CARE OF PERSONS OTHER THAN VETERANS

“§ 1782. Counseling, training, and mental health services for immediate family members

“(a) COUNSELING FOR FAMILY MEMBERS OF VETERANS RECEIVING SERVICE-CONNECTED TREATMENT.—In the case of a veteran who is receiving treatment for a service-connected disability pursuant to paragraph (1) or (2) of section 1710(a) of this title, the Secretary shall provide to individuals described in subsection (c) such consultation, professional counseling, training, and mental health services as are necessary in connection with that treatment.

“(b) COUNSELING FOR FAMILY MEMBERS OF VETERANS RECEIVING NON-SERVICE-CONNECTED TREATMENT.—In the case of a veteran who is eligible to receive treatment for a non-service-connected disability under the conditions described in paragraph (1), (2), or (3) of section 1710(a) of this title, the Secretary may, in the discretion of the Secretary, provide to individuals described in subsection (c) such consultation, professional counseling, training, and mental health services as are necessary in connection with that treatment if—

“(1) those services were initiated during the veteran’s hospitalization; and

“(2) the continued provision of those services on an outpatient basis is essential to permit the discharge of the veteran from the hospital.

“(c) ELIGIBLE INDIVIDUALS.—Individuals who may be provided services under this subsection are—

“(1) the members of the immediate family or the legal guardian of a veteran; or

“(2) the individual in whose household such veteran certifies an intention to live.

“(d) TRAVEL AND TRANSPORTATION AUTHORIZED.—Services provided under subsections (a) and (b) may include, under the terms and conditions set forth in section 111 of this title, travel and incidental expenses of individuals described in subsection (c) in the case of any of the following:

“(1) A veteran who is receiving care for a service-connected disability.

“(2) A dependent or survivor receiving care under the last sentence of section 1783(b) of this title.

“§ 1783. Bereavement counseling

“(a) DEATHS OF VETERANS.—In the case of an individual who was a recipient of services under section 1782 of this title at the time of the death of the veteran, the Secretary may provide bereavement counseling to that individual in the case of a death—

“(1) that was unexpected; or

“(2) that occurred while the veteran was participating in a hospice program (or a

similar program) conducted by the Secretary.

“(b) DEATHS IN ACTIVE SERVICE.—The Secretary may provide bereavement counseling to an individual who is a member of the immediate family of a member of the Armed Forces who dies in the active military, naval, or air service in the line of duty and under circumstances not due to the person’s own misconduct.

“(c) BEREAVEMENT COUNSELING DEFINED.—For purposes of this section, the term ‘bereavement counseling’ means such counseling services, for a limited period, as the Secretary determines to be reasonable and necessary to assist an individual with the emotional and psychological stress accompanying the death of another individual.

“§ 1784. Humanitarian care

“The Secretary may furnish hospital care or medical services as a humanitarian service in emergency cases, but the Secretary shall charge for such care and services at rates prescribed by the Secretary.”.

(c) TRANSFER OF CHAMPVA SECTION.—Section 1713 is—

(1) transferred to subchapter VIII of chapter 17 of title 38, United States Code, as added by subsection (b), and inserted after the subchapter heading;

(2) redesignated as section 1781; and

(3) amended by adding at the end of subsection (b) the following new sentence: “A dependent or survivor receiving care under the preceding sentence shall be eligible for the same medical services as a veteran, including services under sections 1782 and 1783 of this title.”.

(d) REPEAL OF RECODIFIED AUTHORITY.—Section 1711 is amended by striking subsection (b).

(e) CROSS REFERENCE AMENDMENTS.—Title 38, United States Code, is further amended as follows:

(1) Section 103(d)(5)(B) is amended by striking “1713” and inserting “1781”.

(2) Sections 1701(5) is amended by striking “1713(b)” in subparagraphs (B) and (C)(i) and inserting “1781(b)”.

(3) Section 1712A(b) is amended—

(A) in the last sentence of paragraph (1), by striking “section 1711(b)” and inserting “section 1784”;

(A) in paragraph (2), by striking “section 1701(6)(B)” and inserting “sections 1782 and 1783”.

(4) Section 1729(f) is amended by striking “section 1711(b)” and inserting “section 1784”.

(5) Section 1729A(b) is amended—

(A) by redesignating paragraph (7) as paragraph (8); and

(B) by inserting after paragraph (6) the following new paragraph (7):

“(7) Section 1784 of this title.”.

(6) Section 8111(g) is amended—

(A) in paragraph (4), by inserting “services under sections 1782 and 1783 of this title” after “of this title.”; and

(B) in paragraph (5), by striking “section 1711(b) or 1713” and inserting “section 1782, 1783, or 1784”.

(7) Section 8111A(a)(2) is amended by inserting “, and the term ‘medical services’ includes services under sections 1782 and 1783 of this title” before the period at the end.

(8) Section 8152(1) is amended by inserting “services under sections 1782 and 1783 of this title,” after “of this title.”.

(9) Sections 8502(b), 8520(a), and 8521 are amended by striking “the last sentence of section 1713(b)” and inserting “the penultimate sentence of section 1781(b)”.

(f) CLERICAL AMENDMENTS.—

(1) The table of sections at the beginning of such chapter is amended—

(A) by striking the item relating to section 1707 and inserting the following:

“1707. Limitations.”;

(B) by striking the item relating to section 1713; and

(C) by adding at the end the following:

“SUBCHAPTER VIII—HEALTH CARE OF PERSONS OTHER THAN VETERANS

“1781. Medical care for survivors and dependents of certain veterans.

“1782. Counseling, training, and mental health services for immediate family members.

“1783. Bereavement counseling.

“1784. Humanitarian care.”.

(2) The heading for section 1707 is amended to read as follows:

“§ 1707. Limitations”.

SEC. 209. EXTENSION OF EXPIRING COLLECTIONS AUTHORITIES.

(a) HEALTH CARE COPAYMENTS.—Section 1710(f)(2)(B) is amended by striking “September 30, 2002” and inserting “September 30, 2007”.

(b) MEDICAL CARE COST RECOVERY.—Section 1729(a)(2)(E) is amended by striking “October 1, 2002” and inserting “October 1, 2007”.

SEC. 210. PERSONAL EMERGENCY RESPONSE SYSTEM FOR VETERANS WITH SERVICE-CONNECTED DISABILITIES.

(a) EVALUATION AND STUDY.—The Secretary of Veterans Affairs shall carry out an evaluation and study of the feasibility and desirability of providing a personal emergency response system to veterans who have service-connected disabilities. The evaluation and study shall be commenced not later than 60 days after the date of the enactment of this Act.

(b) REPORT.—Not later than 180 days after the date of the enactment of this Act, the Secretary shall submit to the Committees on Veterans’ Affairs of the Senate and House of Representatives a report on the evaluation and study under subsection (a). The Secretary shall include in the report the Secretary’s findings resulting from the evaluation and study and the Secretary’s conclusion as to whether the Department of Veterans Affairs should provide a personal emergency response system to veterans with service-connected disabilities.

(c) AUTHORITY TO PROVIDE SYSTEM.—If the Secretary concludes in the report under subsection (b) that a personal emergency response system should be provided by the Department of Veterans Affairs to veterans with service-connected disabilities—

(1) the Secretary may provide such a system, without charge, to any veteran with a service-connected disability who is enrolled under section 1705 of title 38, United States Code, and who submits an application for such a system under subsection (d); and

(2) the Secretary may contract with one or more vendors to furnish such a system.

(d) APPLICATION.—A personal emergency response system may be provided to a veteran under subsection (c)(1) only upon the submission by the veteran of an application for the system. Any such application shall be in such form and manner as the Secretary may require.

(e) DEFINITION.—For purposes of this section, the term “personal emergency response system” means a device—

(1) that can be activated by an individual who is experiencing a medical emergency to notify appropriate emergency medical personnel that the individual is experiencing a medical emergency; and

(2) that provides the individual's location through a Global Positioning System indicator.

SEC. 211. ONE-YEAR EXTENSION OF ELIGIBILITY FOR HEALTH CARE OF VETERANS WHO SERVED IN SOUTHWEST ASIA DURING THE PERSIAN GULF WAR.

Section 1710(e)(3)(B) is amended by striking "December 31, 2001" and inserting "December 31, 2002".

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from New Jersey (Mr. SMITH) and the gentleman from Illinois (Mr. EVANS) each will control 20 minutes.

The Chair recognizes the gentleman from New Jersey (Mr. SMITH).

Mr. SMITH of New Jersey. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in strong support of H.R. 3447, the Department of Veterans Affairs Health Care Programs Enhancement Act of 2001. Although this bill was only recently introduced, it is the product of many months of work by both bodies. It is derived from the following bills: H.R. 2792 which passed the House on October 23; S. 1160; S. 1188; and S. 1221. The bill would accomplish improvements in health care and related services for our Nation's veterans.

The distinguished chairman of the Subcommittee on Health the gentleman from Kansas (Mr. MORAN) deserves special recognition for his original authorship of major components of this bill. I salute his leadership in formulating it for final House consideration in the first session of the 107th Congress. I also appreciate the hard work of our colleagues on the Senate Committee on Veterans' Affairs who have contributed major portions of this legislation as well.

Mr. Speaker, this bill would enhance nurse recruitment and staffing in the Department of Veterans Affairs health care system and improve VA health care for veterans. The bill would also authorize significant new veterans health care benefits, including VA chiropractic care for disabled veterans on a nationwide basis. This legislation would provide greater accountability in the conduct of VA health care programs and would give substantial relief from copayments now required of poor veterans in urban areas.

Mr. Speaker, all of these changes are good for veterans and they are good for the Nation. I anticipate that, after House passage, this bill will be taken up immediately by the Senate and passed without further amendment. It represents an agreement between the two Committees on Veterans' Affairs on these matters; and while it is a compromise on several House-authored provisions, we recommend it as sound, progressive policy.

Mr. Speaker, I want to thank our full committee ranking member the gentleman from Illinois (Mr. EVANS) for his close cooperation on this bipartisan

bill. He is a valued partner as we work together to keep our great country's commitments to those men and women who have defended our precious freedoms. The gentleman from California (Mr. FILNER), the ranking member of our Subcommittee on Health, has also worked hard on this bill, in particular for the new chiropractic care services for our veterans. I thank him for his contributions as well.

The leadership on both sides of the aisle have facilitated the clearance for consideration of this bill, which the committee also deeply appreciates. I want to especially thank the majority leader, the gentleman from Texas (Mr. ARMEY), for facilitating that as well. We were able to work through this process in remarkably short order because our House leadership continues to make veterans issues a priority.

Mr. Speaker, I urge all of my colleagues to support this measure. It has broad backing and sends the right message: Congress will be attentive to the people's business and stand by those courageous men and women who have answered the call to arms.

Mr. Speaker, I reserve the balance of my time.

Mr. EVANS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of this legislation. I want to thank the chairman again, the gentleman from New Jersey, who has been a long and undeterred advocate for this legislation. I want to thank the gentleman from Kansas (Mr. MORAN) and the gentleman from California (Mr. FILNER), the chairman and ranking member of the Subcommittee on Health, for their continuing work on the complex issues in this bill. I want to particularly recognize the abiding interest of the gentlewoman from California (Mrs. CAPPS) in ensuring better access to health care services for our veterans. At her urging, we have included a comprehensive study of telephone services available through the Department.

I also want to express my appreciation to members of the committee staff on both sides of the aisle for their persistence in reaching a good compromise on this bill.

For many years, I have strongly advocated the provision of chiropractic care as an alternative source of health care for veterans. Medicare, most State Medicaid programs, and the Department of Defense have developed means of reimbursing or even, in the latter case, hiring chiropractors to meet their beneficiaries' needs. VA, unfortunately, has been slower to adopt chiropractic care. As a result, the legislation requires VA to have a permanent, national chiropractic program; and I trust VA will now ensure that veterans are better able to access these important services.

The chairman mentioned the nurses that are the backbone of any health

care system. We also listed them. I want to thank the gentleman from New Mexico (Mr. UDALL) for introducing H.R. 3017, which contains many of the nurse recruitment and retention provisions that have been included in this bill.

This bill recognizes that income alone is not a fair measure of a veteran's standard of living because of geographic cost-of-living differences, which can be significant. Veterans in the Chicago area, for example, may not be able to stretch their dollars as far as veterans in lower-cost areas. I am pleased that, in recognition of these differing costs of living, this bill will reduce the burden of acute hospital inpatient copayments for some veterans.

In a report I requested from the GAO last year, they said that VA could not confirm that these important but expensive programs for veterans with longer term service-connected conditions were not being eroded under fiscal pressure to treat more veterans at a lower cost per patient. I am pleased that this bill also provides a strong reporting requirement for specialized programs for disabled veterans.

Following the trend to place care in community and outpatient settings, the committee has been greatly concerned with the availability of VA health care services for seriously mentally ill veterans. Veterans' advocates, advocates of mentally ill people and even internal working groups have continually validated these concerns. The legislation will allow the Congress to monitor these important programs and intervene if measures indicate that would be necessary.

Mr. Speaker, I am proud to support this legislation. I believe in the long run we will be able to ensure an improved health care system for our Nation's veterans.

This important measure provides a number of changes in current law that will allow VA to remain competitive in recruiting and retaining its nurse workforce. Critically, this measure retains and strengthens reporting requirements on the specialized programs for veterans with disabilities, many of which VA has perfected since the days following World War II. It will provide some relief in meeting VA copayment requirements for acute hospital inpatient care to veterans with marginal incomes. It will also address a significant deficit in the VA's care continuum by developing a permanent program for chiropractic care within the Department of Veterans Affairs.

I believe this bill moves VA in the right direction to meet new and evolving challenges and I am proud to have participated in its development. I want to thank my Committee Chairman, the gentleman from New Jersey, CHRIS SMITH, who has been a strong and undeterred advocate of this legislation. I want to thank JERRY MORAN and BOB FILNER, the Chairman and Ranking Member of the Health Subcommittee, for continuing to work on the complex range of issues this bill addresses. I also want to thank Congresswoman LOIS

CAPPS for her abiding interest in ensuring better access to health care services for veterans. At her urging, we have included a comprehensive study of telephone services available through the Department. I also want to express my appreciation to members of the Committee staff from both sides of the aisle for their persistence in reaching a good compromise on this bill.

For many years, I have strongly advocated the provision of chiropractic as an alternative source of health care for veterans. Chiropractors are capable of promoting wellness and preventing illness without relying upon pharmaceutical drugs or surgical interventions. For the millions of Americans who choose to use chiropractors—often paying for their services “out-of-pocket”—the benefits of chiropractic care are clear. Gradually, the federal government has recognized the importance of the care chiropractors provide in the health care continuum—Medicare, most state Medicaid programs, and the Department of Defense have developed means or reimbursing or even, in the latter case, hiring chiropractors to meet their beneficiaries’ needs. Many private insurers also reimburse care from chiropractors.

VA has been much slower to adopt chiropractic. Under the Veterans Millennium Health Care and Benefits Act, VA was directed to develop a policy on chiropractic care. Unfortunately, it appeared that the VA circled the wagons and resorted to practices that have actually reduced veterans’ use of chiropractic in the last year. I called on VA and representatives of chiropractic providers to discuss opportunities for VA to develop a policy on chiropractic care as the Millennium Act had directed it to do. After several interactions with chiropractor representatives this summer, VA ultimately told me that if I and the other Members that participated in this dialogue wanted VA to increase or enhance its use of chiropractors in VA, we would have to mandate VA to do it. We have now developed an approach that requires VA to have a permanent, national chiropractic program, and I trust VA will now ensure that veterans are better able to access these important services.

This bill adjusts copayments for veterans with marginal incomes. In so doing, it recognizes that income alone is not a fair measure of a veteran’s standard of living because of the often significant differences in geographic costs-of-living. Veterans in the Chicago area, for example, may not be able to stretch their dollars as far as veterans in lower cost areas. I am pleased that, in recognition of these differing “costs of living”, this bill will reduce the burden of acute hospital inpatient copayments for some veterans.

The Department of Veterans Affairs Health Care Programs Enhancement Act of 2001 will allow VA to remain a competitive employer during the current scarcity of nurses in the labor market. I want to thank my friend TOM UDALL for introducing H.R. 3017, which contains many of the nurse recruitment and retention provisions that have been included in this bill.

Nurses are the backbone of any health care system and their role is no less critical within VA. Yet, it is easy to see why this profession is once again facing a crisis in developing and

maintaining its workforce. My mother was a nurse so I well understand the demands and pressures of this vocation—hours are long and often unpredictable. The work takes a psychic and physical toll. In recent years, nurses complain of having more of their time devoted to administrative activities than to working with their patients—often the most satisfying part of their job. H.R. 3447 will help address some of the reasons this profession is facing its current challenges by having experts offer solutions to some of the issues that confront the profession, by providing more flexible educational tools as incentives for its current and future workforce, and by ensuring that the Department is reviewing safe staffing patterns and practices to support its dedicated workforce.

I am pleased that this bill also provides a strong reporting requirement for specialized programs for disabled veterans. Some of these programs were developed in direct response to the needs of veterans returning from war with combat-incurred disabilities, such as spinal cord injuries, blindness, or post-traumatic stress disorder, and have become unique chronic care programs in a health care world that generally seems to prefer dealing with acute illnesses. In a report I requested from the General Accounting Office last year, GAO said that VA could not assure that these important, but expensive, programs for veterans with longer-term service-connected conditions were not being eroded under fiscal pressure to treat more veterans at a lower cost per patient.

Following a new trend to place care in community and outpatient settings, this Committee has also been greatly concerned with the availability of VA services for seriously mentally ill veterans—veterans’ advocates, advocates of mentally ill people and even internal working groups have continually validated these concerns. This legislation will allow Congress to monitor these important programs and intervene if measures indicate that would be necessary.

Mr. Speaker, I am proud to support this legislation. I believe that in so doing we will ensure an improved health care system for our nation’s veterans.

SUMMARY—H.R. 3447—DEPARTMENT OF VETERANS AFFAIRS HEALTH CARE PROGRAMS ENHANCEMENT ACT OF 2001
H.R. 3447 would:

1. Enhance eligibility and benefits for the Employee Incentive Scholarship and Education Debt Reduction Programs by enabling VA nurses to pursue advanced degrees while continuing to care for veterans, in order to improve recruitment and retention of nurses within the VA health care system.

2. Mandate that VA provide Saturday premium pay to title 5/title 38 hybrid employees. Such hybrid-authority employees include licensed vocational nurses, pharmacists, certified or registered respiratory therapists, physical therapists, and occupational therapists.

3. Require VA to develop a nationwide policy on staffing standards to ensure that veterans are provided with safe and high quality care, taking into consideration the numbers and skill mix required of staff in specific health care settings. Require a report on the use of mandatory overtime by licensed nursing staff and nursing assistants in each VA health care facility; include in report a description of the amount of mandatory overtime used by facilities.

4. Change reporting responsibility of the Director of the Nursing Service to report to the Under Secretary for Health.

5. Recompute annuities for part-time service performed by certain health care professionals before April 7, 1986.

6. Establish a 12-member National Commission on VA Nursing that would assess legislative and organizational policy changes to enhance the recruitment and retention of nurses by the Department and the future of the nursing profession within the Department, and recommend legislative and organizational policy changes to enhance the recruitment and retention of nursing personnel in the Department.

7. Authorize service dogs to be provided by VA to a veteran suffering from spinal cord injuries or dysfunction, other diseases causing physical immobility, hearing loss or other types of disabilities susceptible to improvement or enhanced functioning in activities of daily living through employment of a service dog.

8. Modify VA’s system of determining non-service-connected veterans’ “ability to pay” for VA health care services by introducing (as an upper income bound contrasted with current income limits) the “Low Income Housing Limits” employed by the Department of Housing and Urban Development (HUD), used by HUD to determine family income thresholds for housing assistance. This index is adjusted for all Standard Metropolitan Statistical Areas (SMSAs), and is updated periodically by HUD to reflect economic changes within the SMSAs. Would retain current-law means test national income threshold, but reduce co-payments by 80 percent for near-poor veterans who require acute VA hospital inpatient care.

9. Strengthen the mandate for VA to maintain capacity in specialized medical programs for veterans by requiring VA and each of its Veterans Integrated Service Networks to maintain the national capacity in certain specialized health care programs for veterans (those with serious mental illness, including substance use disorders, and spinal cord, brain injured and blinded veterans; veterans who need prosthetics and sensory aids); and extend capacity reporting requirement for 3 years.

10. Establish a program of chiropractic services in each Veterans Integrated Service Network and require VA to provide training and educational materials on chiropractic services to VA health care providers. Authorize VA to employ chiropractors as federal employees and obtain chiropractic services through contracts; create a VA advisory committee on chiropractic health care.

11. Require the Office of Research Compliance and Assurance, which conducts oversight and compliance reviews of VA research and development, be funded by the Medical Care appropriation, rather than the Medical and Prosthetic Research appropriation.

12. Authorize \$28,300,000 for major medical facility construction project at the Miami, Florida VA Medical Center.

13. Require Secretary of Veterans Affairs to assess all special telephone services made available to veterans, such as “help lines” and “hotlines.” Assessment would include geographical coverage, availability, utilization, effectiveness, management, coordination, staffing, cost, and a survey of veterans to measure effectiveness of these telephone services and future needs. A report to Congress would be required within 1 year of enactment.

14. Extend expiring authorities for VA to collect proceeds from veterans’ health insurance policies for care provided for non-service connected care.

15. Provide authority for the Secretary to study, and then if determined feasible, obtain personal emergency-notification and response systems for service-disabled veterans.

16. Extend VA's authority to provide health care for those who served in the Persian Gulf until December 31, 2002.

Mr. FILNER. Mr. Speaker, I rise in support of the "Department of Veterans Affairs Health Care Programs Enhancement Act of 2001". I want to thank Chairman CHRISTOPHER SMITH, Ranking Member LANE EVANS and Chairman JERRY MORAN of the Health Subcommittee for addressing some of the concerns I raised about earlier versions of the bill. We now have a bill to which I am pleased to lend my support.

Mr. Speaker, as a long-time advocate of chiropractic and a user of its services, I am, perhaps, most gratified that we have agreed to a comprehensive proposal to create a permanent chiropractic program within the Department of Veterans Affairs. This legislation will require VA to establish a national chiropractic program that will make chiropractic services available in each geographic service area. VA has rebuffed Congress and the chiropractic profession time and time again in an attempt to bring better access to chiropractic services under the VA's umbrella. We asked VA to develop a policy under the Veterans Millennium Health Care and Benefits Act, but leaving the policy development in VA's hands, veterans' access to chiropractic services has worsened. We simply cannot allow VA to keep barring the door to chiropractic care.

Today is a fresh start for chiropractic care in VA. While I prefer the chiropractic care version this House approved in H.R. 2792, as amended, the provision in the bill before us today ensures that chiropractic care will be available in every VA network. To ensure that this program's implementation is smooth, the conference agreement establishes a chiropractic advisory committee that will provide VA the expertise and advocacy needed to address the issues involved in hiring chiropractors and ensuring that chiropractors are able to participate in its workforce using their skills and training to their fullest potential. I believe that this bill offers the fundamentals from which VA can begin to develop a sound chiropractic program. Eventually, I believe it will be necessary for VA to establish a director of chiropractic service and for Congress to specify, in law, an established number of sites for chiropractic care. Still, for the first time, this law will ensure that veterans have a real opportunity to access this important part of the health care continuum.

In our Subcommittee hearing this Fall, we heard from many of the veterans' service organizations and animal trainers on the invaluable assistance provided by service dogs to severely disabled people. I am pleased that this bill retains this provision.

We have strengthened the requirements for VA to report to Congress on programs that serve some of our most vulnerable veterans. We have focused these reporting requirements on VA's mental health programs. I believe this will give Congress a much clearer idea about what types of valuable specialized services are eroding. I am also pleased that these reports will make geographic service areas accountable for maintaining programs

under their authority. For too long, we have heard VA's central office indicate that they are helpless over controlling the activities of their field managers. Making the networks accountable for the maintenance of specialized programs to serve disabled veterans puts the responsibility where the authority lies.

Mr. Speaker, I believe thousands of veterans will benefit from a provision in this bill, strongly advocated by Chairman SMITH, that adjusts VA copayments for acute hospital inpatient care to the cost-of-living veterans experience in different areas of the country. Salaries, food, and housing costs vary greatly across this Nation. This legislation permits VA to use a widely employed index of geographic variances in cost of living—one already used by the Department of Housing and Urban Development to assess a family's ability to afford housing—to gauge veterans' ability to pay for health care services. This legislation ensures that veterans, who are eligible for low-income housing in a given geographic location, but who are not considered medically indigent under the national Department of Veterans Affairs means-test, are given a break on the acute inpatient hospital copayments they would otherwise have to make.

I want to extend a special thanks to Congresswoman LOIS CAPPS for introducing H.R. 1435. This bill raised the Committee's awareness of the need for a round-the-clock telephone crisis and referral service. We intend to have the VA investigate its current resources and recommend a strategy for enhancing its current capabilities.

This measure contains a charter for a new Commission on VA Nursing. As we know, the nursing profession, inside and outside of VA has changed and VA must be prepared to be an "employer of choice" in the future. This Commission can give expert advice on where VA must position itself now and in the future to attract the best nurses available to treat our veterans. In addition, it contains provisions from S. 1188, and its companion introduced in the House by TOM UDALL, H.R. 3017. These provisions will provide additional opportunities for VA to recruit and retain nurses—an invaluable component of its health care staff.

The Health Care Programs Enhancement Act is a strong measure and I urge my colleagues to support the bill.

Mr. EVANS. Mr. Speaker, I yield back the balance of my time.

□ 2310

Mr. SMITH of New Jersey. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. TERRY). The question is on the motion offered by the gentleman from New Jersey (Mr. SMITH) that the House suspend the rules and pass the bill, H.R. 3447.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. SMITH of New Jersey. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous material on H.R. 3447.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New Jersey?

There was no objection.

SPECIAL ORDERS

The SPEAKER pro tempore. Under the Speaker's announced policy of January 3, 2001, and under a previous order of the House, the following Members will be recognized for 5 minutes each.

SUPPORT H.R. 3443, FAIRNESS TO ALL VIETNAM VETERANS ACT

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from California (Mr. HORN) is recognized for 5 minutes.

Mr. HORN. Mr. Speaker, I rise to introduce the Fairness to All Vietnam Veterans Act, H.R. 3443. This legislation directs the Secretary of Defense to report to Congress an appropriate way to recognize and honor Vietnam veterans who died in service of our Nation, but whose names are not listed on the Vietnam Veterans Memorial Wall.

Constituents began contacting my District Office regarding 74 members who died on the destroyer USS *Frank E. Evans* who are not listed on the Vietnam Veterans Memorial Wall. The names of these 74 brave Americans, and many others who have lost their lives serving the United States during the Vietnam conflict, deserve proper recognition. Some have been excluded due to technicalities. We should honor all the men and women of the Vietnam conflict who gave their lives serving our country.

The destroyer *Evans* was first launched near the end of the Second World War and was recommissioned for Korea and again for Vietnam. The *Evans* sailed from the Port of Long Beach for the last time in the spring of 1969. After seeing serious combat off the coast of Vietnam, the *Evans* was sent to a brief training exercise called Operation Sea Spirit in the South China Sea. This operation involved over 40 ships of the Southeast Asia Treaty Organization.

On the morning of June 3, 1969, the crew of the *Evans* awoke to the sounds of the Australian carrier, *Melbourne*, splitting in half the American destroyer *Evans*. The forward half, where all 74 deaths took place, sank in 3 minutes. Although they were in the South China Sea, these sailors have been excluded from the wall because their downed vessel was just outside the designated combat zone which determines

inclusion on the Vietnam Veterans Memorial Wall.

Although these men did not die in direct combat, they were instrumental in forwarding American objectives in Vietnam and participated in conflict just days before the collision that claimed their lives. The historical and personal records of the *Evans* tell a story of valor and patriotism, and, for some, the ultimate sacrifice for their country.

I believe that after examining the important role these men played in the Vietnam conflict, I hope you will agree that those who died deserve the honor of being listed on the Vietnam Veterans Memorial Wall.

Unfortunately, the case of the *Evans* does not stand alone. There are many families across the United States whose loved ones have been excluded from proper recognition.

I believe it is time for the Department of Defense to examine current policies for placement on the Vietnam Veterans Memorial Wall. H.R. 3443 asks for a complete study of the current standards and for an examination of those who died, such as those 74 on the *Evans*, that seem appropriate for inclusion on the wall.

The Fairness to All Vietnam Veterans Act has the support of the United States Ship *Frank E. Evans* Association, as well as hundreds of family members across the country, hoping to see loved ones properly recognized. I urge my colleagues to support and pass this much-needed and overdue piece of legislation.

Mr. Speaker, I include for the RECORD the bill, as well as various comments from Mr. Hennessy, a distinguished columnist of the Press Telegram in Long Beach, California.

H.R. 3443

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Fairness to All Vietnam Veterans Act".

SEC. 2. FINDINGS.

Congress finds as follows:

(1) Public Law 96-297 (94 Stat. 827) authorized the Vietnam Veterans Memorial Fund, Inc., (the "Memorial Fund") to construct a memorial "in honor and recognition of the men and women of the Armed Forces of the United States who served in the Vietnam war".

(2) The Memorial Fund determined that the most fitting tribute to those who served in the Vietnam war would be to permanently inscribe the names of the members of the Armed Forces who died during the Vietnam war, or who remained missing at the conclusion of the war, on a memorial wall.

(3) The Memorial Fund relied on the Department of Defense to compile the list of individuals whose names would be inscribed on the memorial wall and the criteria for inclusion on such list.

(4) The Memorial Fund established procedures under which mistakes and omissions in the inscription of names on the memorial wall could be corrected.

(5) Under such procedures, the Department of Defense established eligibility requirements that must be met before the Memorial Fund will make arrangements for the name of a veteran to be inscribed on the memorial wall.

(6) The Department of Defense determines the eligibility requirements and has periodically modified such requirements.

(7) As of February 1981, in order for the name of a veteran to be eligible for inscription on the memorial wall, the veteran must have—

(A) died in Vietnam between November 1, 1955, and December 31, 1960;

(B) died in a specified geographic combat zone on or after January 1, 1961;

(C) died as a result of physical wounds sustained in such combat zone; or

(D) died while participating in, or providing direct support to, a combat mission immediately en route to or returning from such combat zone.

(8) Public Law 106-214 (114 Stat. 335) authorizes the American Battle Monuments Commission to provide for the placement of a plaque within the Vietnam Veterans Memorial "to honor those Vietnam veterans who died after their service in the Vietnam war, but as a direct result of that service, and whose names are not otherwise eligible for placement on the memorial wall".

(9) The names of a number of veterans who died during the Vietnam war are not eligible for inscription on the memorial wall or the plaque.

(10) Examples of such names include the names of the 74 servicemembers who died aboard the USS *Frank E. Evans* (DD-174) on June 3, 1969, while the ship was briefly outside the combat zone participating in a training exercise.

SEC. 3. STUDY AND REPORT.

(a) STUDY.—The Secretary of Defense shall conduct a study that—

(1) identifies the veterans (as defined in section 101(2) of title 38, United States Code) who died on or after November 1, 1955, as a direct or indirect result of military operations in southeast Asia and whose names are not eligible for inscription on the memorial wall of the Vietnam Veterans Memorial;

(2) evaluates the feasibility and equitability of revising the eligibility requirements applicable to the inscription of names on the memorial wall to be more inclusive of such veterans; and

(3) evaluates the feasibility and equitability of creating an appropriate alternative means of recognition for such veterans.

(b) REPORT.—Not later than 1 year after the date of the enactment of this Act, the Secretary of Defense shall submit to Congress a report based on the study conducted under subsection (a). Such report shall include—

(1) the reasons (organized by category) that the names of the veterans identified under subsection (a)(1) are not eligible for inscription on the memorial wall under current eligibility requirements, and the number of veterans affected in each category;

(2) a list of the alternative eligibility requirements considered under subsection (a)(2);

(3) a list of the alternative means of recognition considered under subsection (a)(3); and

(4) the conclusions and recommendations of the Secretary of Defense with regard to the feasibility and equitability of each alternative considered.

(c) CONSULTATIONS.—In conducting the study under subsection (a) and preparing the

report under subsection (b), the Secretary of Defense shall consult with—

- (1) the Secretary of Veterans Affairs;
- (2) the Secretary of the Interior;
- (3) the Vietnam Veterans Memorial Fund, Inc.;
- (4) the American Battle Monuments Commission;
- (5) the Vietnam Women's Memorial, Inc.; and
- (6) the National Capital Planning Commission.

THEY MUST BE REMEMBERED

(By Tom Hennessy)

There will be speeches this weekend; Memorial Day remembrances of heroic people and hallowed names.

But those hallowed names are not likely to include the USS *Frank E. Evans*. Or the 74 largely forgotten crew members who died aboard the destroyer at the height of the Vietnam War.

And whose names are not listed on the Vietnam Wall.

This is their story.

Launched near the end of World War II, recommissioned for Korea and again for Vietnam, the *Evans* sailed from her home port, Long Beach, in the spring of 1969. It would be her last voyage.

After combat off the coast of Vietnam, she and her 272-man crew were ordered to join "Operation Sea Spirit," a training exercise involving 40-plus ships of the Southeast Asia Treaty Organization.

On the morning of June 3, she was in the South China Sea with companion ships that included the *Melbourne*, an Australian carrier.

"I had watched a movie the night before," says Tom Manley of Long Beach. "I'd left my clothes on because I had the early morning watch and had gone to sleep about midnight."

At 3:30 a.m., Manley and shipmates were awakened in terrifying fashion.

"The whole ship turned over on its side," says Manley. "Everybody fell down. A guy came down the ladder with a flashlight and said . . . that we needed to get out."

A boilerman 3rd class, Manley helped shipmates to their feet. One, Pete Taylor, had broken his arm. Together, he and Manley managed to reach the ship's fantail.

"A lot of guys were jumping in the water," says Manley. "Pete was worried. Because of his broken arm, he couldn't swim. I said I'd try to find a life jacket in case we had to go into the water. I walked toward the front of the ship where they kept the life jackets."

Manley was stunned by what he saw. "There was no front of the ship. It was gone."

HORRIFIC MESSAGE

Aboard the American carrier *Kearsage*, Doug Care of Santa Clarita was working the *Sea Spirit* radio circuit.

"I had been on the circuit about five minutes when the radio came to life with a fellow with an Australian accent and impeccable radio procedure. He gave a message I'll never forget:

"Melbourne has just collided with *Evans*. Envision many casualties. Request all possible assistance."

Care thought it was "a stupid time" for a drill. But as he read the message back to the *Melbourne*, he knew it was no drill. For one thing, "the admiral aboard the *Kearsage* was looking over my shoulder still in his bathrobe."

In the forward engine room of the *Evans*, Roy "Pete" Peters also knew it was no drill.

He had been standing messenger mid-watch when an order came to increase speed, followed by a second order to throttle down and stop.

We immediately stopped all forward movement and were all thrown forward and down," he recalls. "All the lights went out. Steam immediately filled the compartment and made it hard to breathe."

As Peters was slammed to the deck and burned by the steam, the ocean began entering the engine room. It was a mixed blessing.

"The cold water felt good, but I was a noqualified swimmer in boot camp and barely made it around the pool to qualify as a swimmer," he said.

Peters began working his way toward the top of the engine room, hoping to find an air pocket.

"I felt the water rising up my chest toward my face. I knew I was going to die . . . I heard guys praying and crying. I remember hearing Terry Baughman (a shipmate) crying, 'God, please help us!'"

"As the water rose, I could see the faces of my mother and father and I saw the face of my girlfriend, Karen. I promised that if I got out of there, I would go back and marry her if she would have me."

CHAOS ABOVE

Crew member Bill Thibeault of Norwich, Conn., managed to get topside.

"There were helicopters flying around and lights all over. I didn't really realize what had happened until I got onto the ship's uppermost deck. Then I saw all the torn-up metal and pipes and everything, and I thought, 'Where's the rest of the ship?'"

The Evans had been struck amidships, and cut in two. The forward half, where all the deaths took place, sank in three minutes. The other half would be destroyed months later in target practice.

"I give the Melbourne credit," says Manley. "They turned the ship around and it was back within minutes even though it had damage to its front. They were trying to help us."

Cargo nets were lowered on the carrier and its crew "came down and helped some of our people."

"We assembled on the fantail of the Melbourne," he says. "They must have broke out their full ration of Foster lager. There were cases all over the place."

Manley and others were transferred to the Kearsage.

"It took three days until we got to Subic Bay (in the Philippines)," he says. "There was no way to tell anyone who was alive and who wasn't. My sister was calling (the Navy) every day and they wouldn't tell her anything. The Navy wouldn't release any information. When I got to Subic, I was able to call."

In New York City, Dorothy Reilly, a Roman Catholic nun, caught the end of a newscast by Walter Cronkite. "He immediately broke in and said that the Frank E. Evans had been sunk . . . I said out loud, 'That's by brother's ship.'"

"I ran to the radio to see if there was more news. I remembered someone saying that there were two ships with almost the same name, but when I heard on the radio that the ship was from Long Beach, I knew it was the ship my brother was on as well as his 20-year-old son."

Lawrence J. Reilly Sr. survived. His son, Lawrence Jr., did not.

There was a memorial service later for young Lawrence Reilly, who had lived in Long Beach. In the middle of it, his son, 15 months old, cried out, "Daddy."

"It was a heart-wrenching moment," says Dorothy. "The newspapers carried that picture and even if it were not in print, it would be indelibly printed in the hearts of all who heard that cry."

Peters, the Evans crew member who had been sure he was going to die, did not. Someone in the engine room had found a hatch leading to safety.

Peters was treated aboard the Melbourne for burns, then airlifted to the Kearsage, where he underwent surgery to remove burned skin. He was hospitalized in Subic Bay.

Of his injuries, he says, "I am sure others had it worse."

Yes, Peters did marry his girlfriend, Karen. They just celebrated their 31st anniversary. Peter has an insurance business in Redondo Beach.

The captain of the Evans was later reprimanded, "but most of us survivors never felt he was guilty of anything," says Peters.

The Melbourne's skipper was acquitted and then resigned from the Australian Navy.

THREE IN FAMILY

Seventy-four men, including five from Long Beach, lost their lives aboard the Evans in the dark, early hours of June 3, 1969. A list appears with this column, and three names on it resonate like the script from "Saving Private Ryan": Gary Loren Sage, Gregory Allen Sage, Kelly Jo Sage.

They were brothers.

"They were also my cousins," says Gayle Pierce, of Lincoln, Neb. "Their memorial is in Niobrara, Neb., their hometown. It is a great memorial."

Two years ago, on Memorial Day, a ceremony was held at the Sage Memorial. Eighteen members of the USS Frank E. Evans Association (which will convene in Long Beach in 2003) showed up in Niobrara to honor the three fallen shipmates.

"I think it is just wonderful that so many persons have kept the memories of these men alive," Pierce says.

MISSING NAMES

But on The Vietnam Memorial wall, the nation's most visible reminder of the war, the memory of the lost Evans crew members has not been kept alive. Their names are not listed.

Why not?

"Technicalities," Peters says with frustration. "I've done a lot of research on this."

To qualify for the wall, he says, a veteran had to have been killed in the combat zone, en route to it or while returning from a combat mission.

For the 74 lost Evans men that parameter is very thin, as Peters notes.

"We'd been on the gun line for two weeks. We came off the line and rendezvoused with the other ships for Operation Sea Spirit."

(A year earlier, appreciative Army officials had cited the Evans for "Conspicuously outstanding gunfire support in a critical and demanding phase of the war.")

Peters and everyone else interviewed for this column believe the names of the men belong on the wall.

"I think they should be there," says Manley, 54, and accounting manager. "I had three tours in Vietnam, but I knew guys on that ship who died who had more tours than I did. It's just not right."

His wife, Mary, agrees, but more tersely.

"It stinks," she says.

Thibeault, the Connecticut survivor, says the lost men should be regarded as combatants.

"They weren't killed in action. But we were there. We had fired our guns. These guys should be remembered."

He has tried to have them remembered in another way.

"I've contacted The History Channel. I've been trying to contact some Hollywood people as well, without any success. There should be a movie about this."

Through the years, Manley has remained somewhat tight-lipped. Mary says he has only begun to talk about it recently.

Yet, a few days ago, they note, their daughter, Jennifer, 24, asked, "What's the Evans?"

Says Manley, "Maybe I haven't talked about it enough."

STATUS REPORT ON CURRENT SPENDING LEVELS OF ON-BUDGET SPENDING AND REVENUES FOR FY 2002 AND THE 5-YEAR PERIOD FY 2002 THROUGH FY 2006

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Iowa (Mr. NUSSLE) is recognized for 5 minutes.

Mr. NUSSLE. Mr. Speaker, to facilitate the application of sections 302 and 311 of the Congressional Budget Act and section 201 of the conference report accompanying H. Con. Res. 83, I am transmitting a status report on the current levels of on-budget spending and revenues for fiscal year 2002 and for the five-year period of fiscal years 2002 through 2006. This status report is current through December 5, 2001.

The term "current level" refers to the amounts of spending and revenues estimated for each fiscal year based on laws enacted or awaiting the President's signature.

The first table in the report compares the current levels of total budget authority, outlays, and revenues with the aggregate levels set forth by H. Con. Res. 83. This comparison is needed to enforce section 311(a) of the Budget Act, which creates a point of order against measures that would breach the budget resolution's aggregate levels. The table does not show budget authority and outlays for years after fiscal year 2002 because appropriations for those years have not yet been considered.

The second table compares the current levels of budget authority and outlays for discretionary action by each authorizing committee with the "section 302(a)" allocations made under H. Con. Res. 83 for fiscal year 2002 and fiscal years 2002 through 2006. "Discretionary action" refers to legislation enacted after the adoption of the budget resolution. This comparison is needed to enforce section 302(f) of the Budget Act, which creates a point of order against measures that would breach the section 302(a) discretionary action allocation of new budget authority for the committee that reported the measure. It is also needed to implement section 311(b), which exempts committees that comply with their allocations from the point of order under section 311(a).

The third table compares the current levels of discretionary appropriations for fiscal year 2002 with the "section 302(b)" suballocations of discretionary budget authority and outlays among Appropriations subcommittees. The comparison is also needed to enforce section 302(f) of the Budget Act because the point of order under that section equally applies to measures that would breach the applicable section 302(b) suballocation.

The fourth table gives the current level for 2003 of accounts identified for advance appropriations in the statement of managers accompanying H. Con. Res. 83. This list is needed to enforce section 201 of the budget resolution, which creates a point of order against appropriation bills that contain advance appropriations that are: (i) not identified in the statement of managers or (ii) would cause the aggregate amount of such appropriations to exceed the level specified in the resolution.

The fifth table compares discretionary appropriations to the levels provided by section 251(c) of the Balanced Budget and Emergency Deficit Control Act of 1985. If at the end of a session discretionary spending in any category exceeds the limits set forth in section 251(c) (as adjusted pursuant to section 251(b)), a sequestration of amounts within that category is automatically triggered to bring spending within the established limits. As the determination of the need for a sequestration is based on the report of the President required by section 254, this table is provided for informational purposes only. The sixth and final table gives this same comparison relative to the revised section 251(c) limits envisioned by the budget resolution.

REPORT TO THE SPEAKER FROM THE COMMITTEE ON THE BUDGET—STATUS OF THE FISCAL YEAR 2002 CONGRESSIONAL BUDGET ADOPTED IN H. CON. RES. 83—REFLECTING ACTION COMPLETED AS OF DECEMBER 5, 2001

[On-budget amounts, in millions of dollars]

	Fiscal year 2002	Fiscal years 2002–2006
Appropriate Level:		
Budget authority	1,666,635	n.a.
Outlays	1,615,644	n.a.
Revenues	1,638,202	8,878,506
Current Level:		
Budget authority	1,619,571	n.a.
Outlays	1,603,368	n.a.
Revenues	1,673,487	8,898,383
Current Level over (+) / under (–)		
Appropriate level:		
Budget authority	–47,064	n.a.
Outlays	–12,276	n.a.
Revenues	35,285	19,877

n.a.=Not applicable because annual appropriations Acts for fiscal years 2003 through 2006 will not be considered until future sessions of Congress.

BUDGET AUTHORITY

Enactment of measures providing new budget authority for FY 2002 in excess of \$47,064,000,000 (if not already included in the current level estimate) would cause FY 2002 budget authority to exceed the appropriate level set by H. Con. Res. 83.

OUTLAYS

Enactment of measures providing new outlays for FY 2002 in excess of \$12,276,000,000 (if not already included in the current level estimate) would cause FY 2002 outlays to exceed the appropriate level set by H. Con. Res. 83.

REVENUES

Enactment of measures that would result in revenue loss for FY 2002 in excess of \$35,285,000,000 (if not already included in the current level estimate) would cause revenues to fall below the appropriate level set by H. Con. Res. 83.

Enactment of measures resulting in revenue loss for the period FY 2002 through 2006 in excess of \$19,877,000,000 (if not already included in the current level estimate) would cause revenues to fall below the appropriate levels set by H. Con. Res. 83.

U.S. CONGRESS,
CONGRESSIONAL BUDGET OFFICE,
Washington, DC, December 6, 2001.

Hon. JIM NUSSLE,
Chairman, Committee on the Budget, House of Representatives, Washington, DC.

DEAR MR. CHAIRMAN: The enclosed report shows the effects of Congressional action on the fiscal year 2002 budget and is current through December 5, 2001. This report is submitted under section 308(b) and in aid of section 311 of the Congressional Budget Act, as amended.

The estimates of budget authority, outlays, and revenues are consistent with the technical and economic assumptions of H. Con. Res. 83, the Concurrent Resolution on the Budget for Fiscal Year 2002. The budget resolution figures incorporate revisions submitted by the Committee on the Budget to the House reflect funding for emergency requirements, disability reviews, an Earned Income Tax Credit compliance initiative, and adoption assistance. These revisions are required by section 314 of the Congressional Budget Act, as amended. In addition, section 218 of H. Con. Res. 83 provides for an allocation increase to accommodate House action on the President's revised request for defense spending.

Since my last letter dated September 6, 2001, the following legislation has been enacted into law, and has changed budget authority, outlays, and revenues for 2002:

acted into law, and has changed budget authority, outlays, and revenues for 2002:

An act to provide for the expedited payment of certain public safety officer benefits (Public Law 107-37);

Emergency supplemental appropriations for recovery and response to terrorist attacks (Public Law 107-38);

Air Transportation Safety and System Stabilization Act (Public Law 107-42);

An act to implement an agreement for a U.S.-Jordan Free Trade Area (Public Law 107-43);

A joint resolution approving the extension of nondiscriminatory treatment to products of the Socialist Republic of Vietnam (Public Law 107-52);

The U.S.A. PATRIOT Act (Public Law 107-56);

The Departments of Interior and Related Agencies Appropriations Act, 2002 (Public Law 107-63);

The Military Construction Appropriations Act, 2002 (Public Law 107-64);

The Energy and Water Development Appropriations Act, 2002 (Public Law 107-66);

The Treasury and General Government Appropriations Act, 2002 (Public Law 107-67);

The Legislative Branch Appropriations Act, 2002 (Public Law 107-68);

An act making continued appropriations, 2002 (Public Law 107-70);

The Departments of Veterans, and Housing and Urban Development and Independent Agencies Appropriations Act, 2002 (Public Law 107-73);

The Agriculture, Rural Development, Related Agencies Appropriations Act, 2002 (Public Law 107-76); and

The Departments of Commerce, Justice, and State, the Judiciary and Related Agencies Appropriations Act, 2002 (Public Law 107-77)

In addition, the Congress has cleared for the President's signature the Department of Transportation and Related Agencies Appropriations Act, 2002 (H.R. 2299).

Sincerely,

BARRY B. ANDERSON
(For Dan L. Crippen, Director).

Enclosure.

FISCAL YEAR 2002 HOUSE CURRENT LEVEL REPORT AS OF DECEMBER 5, 2001

[In millions of dollars]

	Budget authority	Outlays	Revenues
Enacted in previous sessions:			
Revenues			1,703,488
Permanents and other spending legislation	984,540	934,501

Source: Congressional Budget Office.
Notes: P.L. = Public Law.

Section 314 of the Congressional Budget Act, as amended, requires that the House Budget Committee revise the budget resolution to reflect funding provided in bills reported by the House for emergency requirements, disability reviews, an Earned Income tax Credit compliance initiative, and adoption assistance. In addition Sec. 218 of H. Con. Res. 83 provides for an allocation increase to accommodate House action on the President's revised request for defense spending. To date, the Budget Committee has increased the budget authority allocation in the budget resolution by \$40,147 million and the outlay allocation by \$25,170 million for these purposes. Of those amounts, \$38,701 million in budget authority and \$25,027 million in outlays are not included in current level because the funding has not yet been enacted.

For comparability purposes, current level budget authority excludes \$1,349 million that was appropriated for mass transit. The budget authority for mass transit, which is exempt from the allocations made for the discretionary categories pursuant to sections 302(a)(1) and 302(b)(1) of the Congressional Budget Act, is not included in H. Con. Res. 83. Total budget authority including mass transit is \$1,620,920 million.

TRIBUTE TO DISTINGUISHED PROFESSOR DAN DAVIS

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Illinois (Mr. DAVIS) is recognized for 5 minutes.

Mr. DAVIS of Illinois. Mr. Speaker, there is no greater profession than that of teaching, and I rise to pay tribute to an outstanding educator who, over a 30 year span, has positively impacted the lives of thousands of people.

Dan Davis was recently selected Distinguished Professor of the Year by the faculty and staff of Malcolm X Community College in Chicago under the leadership of Dr. Wayne Watson, Chancellor of the Chicago City Colleges, and Mrs. Ziri Campbell, President of Malcolm X College.

Professor Davis graduated from Crane High School, All American, All State and All City in varsity basketball. He holds a BA degree in education, Summa Cum Laude, and a Masters Degree from Northwestern University in Health and Physical Education.

Dan and I both live in the same community and oftentimes are mistaken for each other since I, too, am sometimes called Dan Davis. I usually tell people that the difference is while Dan was scoring points in basketball, I was analyzing the game from the bench, and while he was graduating Summa Cum Laude, I was graduating "Thank You Laude."

Dan Davis played varsity basketball and was an All Big Ten Academic Selection in 1968-1969 from Northwestern. He has served as Athletic Director for Malcolm X College for the past 13 years, Project Administrator for the National Youth Sports Program for the past 13 years, and Illinois State Coordi-

nator for the National Youth Sports Program for the past 9 years.

In addition to his regular teaching and directorship responsibilities, Coach Davis is an active participant in College Governance, Student Government, Local 1600 of the AFL-CIO, former Vice Chair, and the President's Scholarship Gala Committee.

In 1992, coach Davis was selected by the United States Department of State to teach and to serve as Athlete and Program Specialist in Africa. He taught and supervised sports clinics in Egypt, Uganda and Kenya. Professor Davis also served as Vice President for Personnel and Head Basketball Coach for the United States Upper Deck All Stars Professional Basketball Team, which toured Europe from 1996 to 1998.

Professor Davis has earned meritorious awards, among the top ten in the United States, from Malcolm X College for eight consecutive years.

□ 2320

In 1997, Malcolm X college won the Silver Conte Award, designating Malcolm X College's program as the best in the Nation.

Dan Davis has been instrumental in assisting more than 300 students and student athletes in acquiring scholarships as well as their college degrees. Equally important, Professor Davis is viewed by many of his professional peers as a coach, a master teacher and a mentor extraordinary because of his high standards and unswerving commitments to his student, his community, education and his college, where he is indeed a distinguished professor.

In addition to being a distinguished professor, Dan Davis is a distinguished citizen, a good neighbor, a role model, a person who grew up in an inner city

community, Crane High School, which at one time housed what is now Malcolm X College. He returned home, brought his skills and attributes and has given something back, has given something of himself on a regular basis.

Yes, I congratulate Dan Davis and his family for their outstanding citizenship. All of us who know him are proud of his accomplishments. I commend him for not only being a distinguished professor, he is indeed an outstanding citizen and a distinguished American.

IN HONOR OF THE CONSTRUCTION TRADES

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from New York (Mrs. MALONEY) is recognized for 5 minutes.

Mrs. MALONEY of New York. Mr. Speaker, on the three-month anniversary of September 11, I rise to pay tribute to the unsung heroes of the World Trade Center disaster—the thousands of volunteers from the construction trades and the New York City construction industry.

As we all know, the rescue and recovery efforts in response to the attacks on the World Trade Center involved unprecedented, selfless acts of heroism by thousands of firefighters, police officers, Emergency Medical Service workers, and ordinary citizens, who all risked their lives to save others.

But often overlooked is the heroism of thousands of men and women from the building trades who ALSO risked their lives and their health working side-by-side uniformed rescue workers all along.

These volunteers—construction workers, iron and steel workers, and many others—toiled alongside firefighters and police officers, digging tunnels and gaining access to victims by operating cranes, burning steel, driving

trucks, and moving debris by hand as part of the "Bucket Brigade."

Many of these individuals gave their time and labor for a week or more, giving up their salaries, families and the comforts of daily life to search for survivors around the clock.

They did so at great risk to their health as fires raged and toxic fumes emanated from the burning rubble.

Three months later, those fires are still smoldering, and the fumes are still endangering everyone working at Ground Zero.

But even as their boots melt from the heat of the fires below, hundreds of workers are persevering at the site, removing what remains of seven office buildings that once symbolized the center of the global economy.

They embrace this unprecedented and perilous challenge out of enduring determination to get New York get back on its feet and one day restore Lower Manhattan's majesty and vibrance.

Throughout this heartbreaking process, these unsung heroes have shown profound respect for the victims and their families.

The hushed silence at the site, which lasted for many days after the bombing, reflected an appreciation for the magnitude of the horror—and the fact that they were working on the surface of a mass grave.

I want to extend my deepest gratitude to the New York City Department of Construction and Design, who, at my request, preserved a segment of the ruins to be transformed into a national monument at an appropriate time in the future.

We all remember images of steel fragments from the towers that plunged upright into the pavement like arrows in the hearts of all New Yorkers, and nearby fire trucks that were partially submerged in the rubble.

Thanks to the care and respect that workers have demonstrated in dismantling and removing the wreckage, these images will be preserved in honor of those who were lost, and in remembrance of a black Tuesday that this nation must never forget.

The scores of companies, organizations and union members who have cooperated in clearing the site with extraordinary speed, efficiency and safety include, but are not limited to: a special team of the New York City Office of Emergency Management and the New York City Department of Design and Construction; with main contractors Turner Construction Co./Plaza Construction, Bovis Construction, Amec Construction and Tully Construction; and dozens of subcontractors, including Thornton-Tomasette Engineering, LZA Engineering, New York Crane, Bay Crane, Cranes Inc., Slattery Association, Grace Industries, Big Apple Demolition, Regional Scaffolding & Hoisting, Atlantic-Heydt Scaffolding, York Scaffolding, Weeks Marine, and Bechtel Corp.

In addition, many other entities worked to resolve the daily problems confronted by the Fire Department of New York, the New York City Police Department and the Port Authority Police Department in rescuing and recovering their own.

Every New York City agency, especially the New York City Department of Sanitation and the Department of Environmental Protection, was involved, as were the New York State Police, The National Guard, the Federal Emer-

gency Management Administration, the Army Corps of Engineers, Con Edison, Verizon, and the Port Authority of New York and New Jersey.

Mr. Speaker, many Members of Congress and the Senate have come to Ground Zero. They have seen devastation, but also resilience and redemption in the work that's being done there.

I know I speak for this entire body in expressing our country's deep appreciation for the risks taken and sacrifices made by the unsung heroes at Ground Zero, who have reminded us what the American spirit is all about.

PAKISTAN TIES TO TALIBAN

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from New Jersey (Mr. PALLONE) is recognized for 5 minutes.

Mr. PALLONE. Mr. Speaker, I come to the House floor this evening to talk about several matters of concern regarding Pakistan.

I appreciate Pakistan's willingness to assist us in the fight against Osama bin Laden and his terrorist networks, and I know that General Musharraf continues to make a concerted effort to cooperate with the United States in our global fight against terrorism. Under the current circumstances, due to the attacks of September 11, I do feel that it is appropriate to provide economic assistance to Pakistan for General Musharraf's willingness to support the U.S. in seizing Osama bin Laden and eliminating the al Qaeda terrorist network. In fact, I also felt that it was appropriate that the economic sanctions that were in place against Pakistan were rightfully lifted by President Bush earlier this year.

However, Mr. Speaker, I stand strong in my argument against military aid to Pakistan, even under the current circumstances. I oppose the lifting of military sanctions, and I still feel the U.S. should exercise its discretion not to provide military assistance.

The Pakistani dictatorial government has in the past been directly involved in the planning and logistical support of Taliban military operations. Not only has Pakistan provided institutional support to terrorist activities by the Taliban and other groups, it has also provided weapons as a result of its irresponsible weapons export policies. Withholding military assistance to Pakistan will help pressure Musharraf to withdraw its support to terrorist groups.

Mr. Speaker, there have been several recent reports that corroborate the difficulty Pakistan has in separating itself from the Taliban. According to an article from last Saturday's New York Times, Western and Pakistani officials report that one month after the Pakistani government agreed to end its support of the Taliban, its intelligence agency was still providing safe passage

for weapons and ammunition to arm them.

In September, the U.S. issued an ultimatum to Pakistan that if they wanted to join the United States in the fight against terrorism, Pakistan had to end its ties to the Taliban.

Pakistani intelligence claims that the last sanctioned delivery of weapons to the Taliban occurred about a month after the U.S. issued this ultimatum. However, it is clear that the Inter-Services Intelligence, ISI, has perpetuated military support of the Taliban. The ISI is a powerful group of military jihadi who are not representatives of the government. Nevertheless, they operate fiercely within Pakistan; and accordingly, Pakistan inevitably engages in logistical and military support of the Taliban.

My other concern at this time, Mr. Speaker, regarding Pakistan is that it is a nuclear power. A country with nuclear power that has links to the Taliban and al Qaeda is a recipe for disaster. An article reported that nuclear experts in Pakistan may, in fact, have links to al Qaeda. The fear is that nuclear experts have the knowledge and experience to provide nuclear weapons and related technology to transfer these goods to terrorists.

The article in the New York Times reports that American intelligence officials are increasingly convinced that Pakistan may become the site of a furtive struggle between those trying to keep nuclear technology secure and those looking to export it for terrorism or for profit.

Mr. Speaker, my last comment is that historically, U.S. arms exports to Pakistan have been used against India, primarily through crossborder military action in Kashmir. Since the terrifying example of terrorism in India on October 1 when a suicide car bomb exploded in front of the Kashmir State Assembly while it was in session, there have literally been murder incidents on a daily basis in Kashmir. The escalated terrorist violence in India has been horrific and left numerous civilians and military men victim to cold-blooded murder.

Last week I read that suspected terrorists shot and killed a judge in Kashmir, along with his friends and two guards. This is the first attack on the judiciary of Jammu and Kashmir state. Over the weekend I read that an Islamic militant group invaded an Indian army convoy in Kashmir and the attack left nearly 10 men dead and over 20 wounded.

These examples of murder by Pakistani-based militant groups should be evidence enough that weapons can and will fall into the hands of terrorist networks and potentially be used against India and other U.S. allies.

Mr. Speaker, I realize that the Bush administration is not proposing any major change in policy with regard to

military assistance to Pakistan, but with removal of congressional sanctions, stepped up military assistance remains a possibility. I continue to oppose that option, and I believe that the circumstances in Pakistan this weekend and over the last few weeks still do not warrant that kind of military assistance.

PUBLIC HEALTH SECURITY AND BIOTERRORISM RESPONSE ACT

The SPEAKER pro tempore. Under the Speaker's announced policy of January 3, 2001, the gentlewoman from New Mexico (Mrs. WILSON) is recognized for half of the time until midnight as the designee of the majority leader.

Mrs. WILSON. Mr. Speaker, the hour is late, at least here on the east coast, but we have just prepared for passage tomorrow morning a landmark piece of legislation to improve health security in this country, and I think it deserves some additional explanation as to what is in that bill and how it will help America to prepare for and to defend against any bioterrorist attack against American citizens here at home, and I would like to take a few minutes to explain how we came to this legislation and what it is intended to do and some of its provisions.

We expect to vote on this bill tomorrow here in the House although we debated it here on the floor about half an hour ago.

We need to be better prepared for terrorist attacks involving biological agents. There are about 36 different pathogens, or germs, that are designated by the Centers for Disease Control as extremely dangerous. They are in a list that is maintained by the Centers for Disease Control, and we have got to be better prepared against those kinds of biological toxins, because the fact is that the world has changed.

The idea of using disease as a weapon of warfare is not a new one. It has existed for a long time, and countries have developed biological warfare capabilities even in spite of the fact that there were treaties against that.

In 1979 there was an anthrax outbreak in the former Soviet Union near the town of Sverdlovsk, and it created some casualties near that site. At the time, America suspected that there was a biological warfare in Sverdlovsk, but we were able to confirm that after the end of the Cold War.

In the Gulf War and its aftermath, we knew that Iraq was developing biological warfare capability, including anthrax, and we also knew that they had used chemical warfare agents, including against their own people; and we have no illusions about the willingness of Saddam Hussein to destroy his own people or to use biological warfare against the United States or any other enemy of the Iraqi Government.

□ 2330

The use of biological warfare or serious toxins by terrorists is something that people have contemplated, but in some ways it goes into the unthinkable.

In Japan, there was use by a terrorist network of a nerve agent in the subway which kind of alerted us to the potential for using very toxic substances as a terrorist tool, but there was nothing like what we saw here on the east coast of the United States with the anthrax attack that followed on the September 11 attacks on the United States.

The fact is that terrorism has changed. It changed in a very significant way. In the 1970s and 1980s, most terrorist networks were either fighting in wars of national liberation, trying to get attention for a cause, trying to shock governments for effect, but they actually avoided mass casualties, and did not want to have a response against their cause by public opinion writ large. They did not want mass death.

But the terrorists we are dealing with now, and unfortunately, there are cells throughout the world, want to cause massive death and high numbers of casualties. The threat has changed, and America has to change with it.

In the 1970s and 1980s and certainly through the 1990s, our response to the threat of bioterrorism was largely to deal with our military. We developed a vaccine for anthrax, and while it was highly controversial and there were some problems with it, we began inoculating American military personnel against some strains of anthrax. We focused on military protection and not on homeland defense.

We also developed what are called National Guard civil support teams in about 27 States now, where there are teams of people who are designed to deal with unusual threats within the United States; but still, those were relatively small efforts, and focused on the capabilities of our military.

It was really about force protection for the military: How do we keep the American military able to continue to fight for the United States in the face of a potential biological warfare attack. We really did not deal completely with the threat of bioterrorism here at home.

The fact is that a new effort is required in the wake of the anthrax attacks and the new kind of terrorism represented by Osama bin Laden and his al-Qaeda network. What we saw in New York and in Washington, D.C. is frightening, but it is also something we have to cope with. We have seen a terrorist network that has the ability to organize and plan simultaneous attacks, rather sophisticated attacks, in the United States. They were able to maintain secrecy over a period of time within the United States. They did not come from outside, they were within

us, within the United States. They had access to the money in order to carry out this very sophisticated operation, and their objective was not to shock or to win in the realm of world public opinion; their objective was mass casualties and the deaths of thousands of civilians.

In light of that, and in light of the anthrax attacks that followed on the attacks in New York and Washington, D.C., we know we have a new need that we have not faced in this country before. It is going to involve all levels of government, because it is the local fire department and the local emergency room of our hospitals that will see the first impact of any epidemic that is caused by a bioterrorist agent. We have to make sure that everybody is trained that needs to be trained.

Likewise, at the State level and at the Federal level, there are also different kinds of responsibilities. At the National Centers for Disease Control, they worked with States and other networks, but there are all levels of government involved, and it will involve also private entities.

If I am sick, I do not go to the government. If my children are sick, I do not go to the government, I go to our doctor. Our doctor has to be connected in to an early alert system, just as everyone's doctor needs to be. That will involve planning, it will involve training of people, it will involve the development of curricula and ways of communicating very quickly to medical professionals throughout this country what they should be looking for, what kinds of symptoms show up in the first hours, and how to distinguish those symptoms from other things that might not be so threatening: What is the difference between anthrax and the flu, and how as a doctor in rural New Mexico can I make that distinction so that I can care for my patients, but I do not have to frighten them unnecessarily?

The second thing we knew we needed to do was to expand the availability of vaccines and medical equipment to deal with a large crisis. That is something that the Secretary of Health and Human Services, Tommy Thompson, brought to our attention in the Committee on Energy and Commerce, that in the event of a mass outbreak, not a naturally-occurring outbreak of a disease but the intentional spreading of disease in different parts of the United States simultaneously, that we were not prepared for that kind of a man-made epidemic, and so we need to expand our stockpiles of vaccines. We need to increase the availability of smallpox vaccine. We need to make sure that we have the stockpiles of medical equipment and diagnostic equipment to be able to deal with any epidemic very quickly and effectively across the United States.

We knew that we needed to better control and know about what pathogens exist in the United States. One of the things that I think surprised a lot of people after the outbreak of anthrax here in Washington and New York and Florida was that one of the first questions the FBI asked was, well, what labs in the United States have anthrax?

The first answer was, we do not know, because there is no requirement to say what we have. The only requirement in Federal law is that one has to report or register, as it says in the law, we have to report when we transfer a culture from one entity to another entity.

So if I am a researcher working at the University of Iowa, and I have been for 20 years, on very dangerous pathogens, I do not have to tell anybody unless I take one of my samples and send it up to another university, the University of Minnesota. I would only have to tell them that I transferred it.

That does not make any sense. We need to know, of all these 36 very toxic pathogens, these germs that can cause such havoc to our health, we need to know who has them; and even more than that, in addition to requiring that we register what we have, we need to have a sample, a culture of what germs everybody has and is doing research on in the United States.

The reason is this: We can now map the genes not only of the human being but of almost any organism. If we can have an encyclopedia, if you will, of all of these dangerous toxins within the United States and know what their DNA, their genetic code is, then if there is an outbreak of anthrax, we can tell what the parents are or who the parents are, if you will.

Then we can help law enforcement deal with any outbreak and possibly determine where that outbreak is likely to come from, or, perhaps even more importantly, be able to rule out large numbers of samples, or even rule out that the sample came from within the United States.

So the bill that we are going to vote on tomorrow requires the registration of any of these dangerous serious germs, these 36 germs that are listed by the CDC, and also providing a sample of that, and creating a national registry, a genomic registry of what the genes of these germs look like.

We know that our food systems and our water systems are vulnerable to contamination. We have 54,000 community water systems across the country, most of them serving very small villages and communities across the country. We have probably 100 or 200 very large water systems, but most of our water systems are very small. They are often run on a voluntary basis or a cooperative basis, where people get together and they have treated well water. Unfortunately, they are also

vulnerable because of that. We need to make sure that our water supply and our food supply is safe, and develop ways to survey any potential contamination of them.

We also knew that we needed to do more research, not only research on countermeasures, but research to better understand these pathogens, to know what their vulnerabilities are so that our vaccines and our public health response can be much better.

We need better ways of mapping and surveying disease outbreaks, and detecting when we have hazardous germs that are present.

All of us saw in the news in the last couple of weeks the men in the white suits with their Q-tip swabs going around testing things and wiping things and putting them on Petri dishes and trying to grow something, and then putting it under a microscope, and maybe 2 or 3 days later they would know whether they had anthrax or not on that particular sample that they took from the back of a telephone somewhere in the Capitol building.

Well, that does not make any sense in this day and age. We need to be able to research, develop, and deploy the technology for real-time continuous monitoring of the air, of the water; even do portal monitoring, so if one walks through a door and there is some kind of a germ that comes in with one that is a very serious germ, we can detect it, just like walking through a metal detector at the airport, entirely passively.

We know we need better communications, and to plan communications in advance, not only between public health doctors and State health laboratories and the CDC, but between Federal officials and the public. The public needs information.

□ 2340

If there is a problem, we need to know about it so we can deal with it. And that means getting the straight scoop from Federal agencies even if they do not know everything, if they can just in a clear way tell us what they do know. We need to plan those things in advance because once there is a crisis, everybody starts working off the back of an envelope; and it is much easier to have those things thought out in advance.

Finally, we know that we need to expand our laboratory capacity and expand the Centers for Disease Control. The anthrax attacks on the eastern coast of the United States were relatively small. They were frightening. They caused sickness and they caused death. But in a way maybe it was the canary in the mine shaft. They were relatively small attacks involving four letters in three different States. But it overwhelmed our laboratory system. We do not have the capacity in our laboratory system. We do not even have a

level 4, which is to deal with the most serious pathogens; we do not even have a level 4 laboratory in the United States west of the Mississippi River.

We are not prepared to be able to deal with a potential outbreak and epidemic and we need to. So in a bipartisan way in the House we came up with the Public Health Security and Bio-Terrorism Response Act. We hope to vote on it tomorrow, and it has some very important things in it. It has \$1 billion authorized for planning and preparedness activities, for training, for lab capacity, to educate health care personnel and develop curriculum for health care personnel and to develop new drugs and new therapies and new vaccines against the most serious toxins that we can face in a country in a man-made epidemic.

It authorizes \$450 million for the Centers for Disease Control. We are going to update and modernize the CDC, and this bill will include funds to do that. We put into the bill \$1 billion for the Secretary of Health and Human Services to expand the national stock piles of vaccine and medical equipment and other supplies, to purchase more small pox vaccines, to have things ready if we need it.

I remember as a young lieutenant in the Air Force I was stationed overseas in England, and one of the things we had in England were prepositioned hospitals that were kind of stored in pallets in these old World War II hangars that were rehabilitated for this purpose so that if we ever did go to war in Europe, we would have prepositioned hospitals ready to go there in storage in the event of an emergency. It is kind of still within the project that we are talking about, making sure we have the supplies on hand to counteract any man-made epidemic.

We establish a national data base of dangerous pathogens. The CDC can update that list anytime they want to. Right now there are 36 very different dangerous diseases on that list, and we require that they be registered and that they give us a culture of that germ so that we can have a national encyclopedia of the genomes of these different samples from around the country. There is \$100 million that is authorized for the Food and Drug Administration to hire more inspectors at our borders to make sure we are monitoring our food supply.

We certainly need to increase the research and development to be able to detect things remotely and give these people the tools to make this meaningful so that they can reassure us that the food supply is safe, that it has not been contaminated. And there is \$100 million in the bill to develop vulnerability analyses and emergency response plans for our water systems.

Overall this is a very good bill. It sets out national policy in public health safety. It will require that the

establishment within the health and human services department of an office of emergency preparedness require the development of national plans to deal with a new bioterrorist threat.

There are some things that it does not do. We do not claim that this bill includes all the things we are going to need to do to protect the public health. We know that probably next year we are going to have to do some things with the National Guard and the military to strengthen that first response that every Governor turns to when something goes wrong in their State. We do know that this really deals mostly with living things, with pathogens, with organisms and not so much with other kinds of poisons, whether they be radionuclides or chemicals. And those surveillance systems are different than those you see for disease. And we need to think differently about how we do that.

Finally, it does not include water research and development for real-time monitoring. That is in a separate bill. It is sponsored by the gentleman from New York (Mr. BOEHLERT), and we may see that come forward here possibly this week or next week to really expand our research and development on water safety and water monitoring.

This is a very good solid bill. It is a very important bill, in some ways because it has been worked quietly and in a bipartisan way here in the House; we have not talked about it much. We have not explained what is in here, and I think it is a real concern of Americans. I know it is a concern of mine of, well, what if there is something that makes my family sick; and how do we know whether someone is trying to hurt them or hurt us. What if someone were to be as organized and as ruthless as there were in the attacks on September 11; but instead of using aircraft, they used disease. They use small pox or they were more effective with anthrax or ebola or all kinds of other things that would be devastating to our families and our communities.

The Federal Government has a responsibility to step up to the challenge, to change the way we think about our health and our health security. And I think this bill goes a long way to taking us there. And I commend the gentleman from Louisiana (Mr. TAUZIN) and the gentleman from Michigan (Mr. DINGELL) for their leadership on this. And I look forward to an overwhelming vote on this tomorrow to pass the bioterrorism bill.

RECESS

The SPEAKER pro tempore (Mr. TERRY). Pursuant to clause 12 of rule I, the Chair declares the House in recess subject to the call of the Chair.

Accordingly (at 11 o'clock and 47 minutes p.m.), the House stood in recess subject to the call of the Chair.

□ 0900

AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mr. ISAKSON) at 9 a.m.

LEAVE OF ABSENCE

By unanimous consent, leave of absence was granted to:

Mr. GONZALEZ (at the request of Mr. GEPHARDT) for today and December 12 on account of personal business.

Mr. LUTHER (at the request of Mr. GEPHARDT) for today on account of family matters.

Mr. UNDERWOOD (at the request of Mr. GEPHARDT) for today through December 13 on account of official business.

Mr. CULBERSON (at the request of Mr. ARMEY) for today and until noon on December 12 on account of official business.

Mr. WAMP (at the request of Mr. ARMEY) for today on account of illness.

SPECIAL ORDERS GRANTED

By unanimous consent, permission to address the House, following the legislative program and any special orders heretofore entered, was granted to:

(The following Members (at the request of Mr. DAVIS of Illinois) to revise and extend their remarks and include extraneous material:)

Mr. DEFazio, for 5 minutes, today.

Mr. BROWN of Ohio, for 5 minutes, today.

Mr. DAVIS of Illinois, for 5 minutes, today.

Mr. LIPINSKI, for 5 minutes, today.

Mrs. CLAYTON, for 5 minutes, today.

Mrs. MALONEY of New York, for 5 minutes, today.

Mr. PALLONE, for 5 minutes, today.

(The following Members (at the request of Mrs. WILSON) to revise and extend their remarks and include extraneous material:)

Mr. HORN, for 5 minutes, today.

Mr. NUSSLE, for 5 minutes, today.

SENATE CONCURRENT RESOLUTION

A concurrent resolution of the Senate of the following title was taken from the Speaker's table and, under the rule, referred as follows:

S. Con. Res. 91. Concurrent resolution expressing deep gratitude to the government and the people of the Philippines for their sympathy and support since September 11, 2001, and for other purposes; to the Committee on International Relations.

ADJOURNMENT

Mr. BOEHNER. Mr. Speaker, I move that the House do now adjourn.

The motion was agreed to; accordingly (at 9 o'clock and 1 minute a.m.),

the House adjourned until today, December 12, 2001, at 10 a.m.

EXECUTIVE COMMUNICATIONS, ETC.

Under clause 8 of rule XII, executive communications were taken from the Speaker's table and referred as follows:

4780. A letter from the Chief, Programs and Legislation Division, Department of the Air Force, Department of Defense, transmitting notification that the Commander of Air Force Material Command is initiating a standard cost comparison of the Aircraft Maintenance and Support Activities at Edwards Air Force Base, California, pursuant to 10 U.S.C. 2461; to the Committee on Armed Services.

4781. A letter from the Secretary, Department of Education, transmitting Final Regulations—Direct Grant Programs, pursuant to 20 U.S.C. 1232(f); to the Committee on Education and the Workforce.

4782. A letter from the Acting Assistant General Counsel for Regulatory Services, Department of Education, transmitting the Department's final rule—Direct Grant Programs (RIN: 1890-AA02) received November 29, 2001, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Education and the Workforce.

4783. A letter from the Assistant Secretary for Legislative Affairs, Department of State, transmitting a listing of gifts by the U.S. Government to foreign individuals during fiscal year 2001, pursuant to 22 U.S.C. 2694(2); to the Committee on International Relations.

DELETIONS OF SPONSORS FROM PUBLIC BILLS AND RESOLUTIONS

Under clause 7 of rule XII, sponsors were deleted from public bills and resolution as follows:

H.R. 2107: Mr. BECERRA.
 H. Con. Res. 253: Mr. PALLONE.

AMENDMENTS

Under clause 8 of rule XVIII, proposed amendments were submitted as follows:

H.R. 3295

OFFERED BY MS. CARSON OF INDIANA

AMENDMENT No.1 Add at the end of section 502 the following:

(8) The State does not prohibit any individual who is a veteran from registering to vote for any election for public office, or from voting in any election for public office, on the grounds that the individual has been convicted of a felony if (at the time the individual seeks to register to vote or vote) the individual is no longer in the custody of the State or the Federal government as a result of the individual's conviction. For purposes of this paragraph, the term "veteran" means a person who served in the active military, naval, or air service (as defined in section 101(24) of title 38, United States Code) and who was discharged or released therefrom under conditions characterized as honorable.

EXTENSIONS OF REMARKS

TRIBUTE TO ART VALENTI, PRESIDENT OF U.A.W. LOCAL 900 RETIREE CHAPTER

HON. DAVID E. BONIOR

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 11, 2001

Mr. BONIOR. Mr. Speaker, today I rise to recognize a man who has dedicated more than 62 years to the United Automobile Workers, Art Valenti. As one of the original in-plant organizers who fought to bring the union to the Ford Motor Company, Art Valenti has dedicated his life the union movement. This year, as U.A.W. Local 900 members gathered to celebrate their 60th Anniversary, they recognized the Art "Little Caesar" Valenti for dedicating his life to Local 900 and the U.A.W. organization.

Beginning work at the old Ford-Lincoln plant on Livernois in 1939, Art was discharged just a year later on Friday, December 13, 1940. This marked the start of his long and laborious fight against the anti-labor programs in place at the Ford Service Department. Regardless of the many obstacles, Art began his efforts to organize workers in Detroit. Holding dances that raised countless funds to support union efforts, Art began organizing at his base, and was actively involved in many battles and a strike at the Ford Rouge Plant. When the U.A.W. Ford Agreement was signed in June of 1941, Art was reinstated to his job at the Ford Lincoln Plant and became an organizer and Charter member of Local 900, then a part of Local 600. Art "Little Caesar" Valenti continued as a union representative, and while Treasurer and activist continued his fight against unfair practices of the Ford-Lincoln supervision and Service Department. In the years following, Art served his local and cause as a trustee, guide, and Executive Board member to Local 900, as well as served as District Committeeman, Bargaining Committeeman, and finally President of Local 900. His hard work and tireless efforts established dinners for Retirees as appreciation for their years of service, won the largest individual back pay award at the time, and was one of only 25 American Trade Unionists to be sent to Denmark to visit with Danish Trade Unionists in 1952.

Art's dedication only continued with time, gaining appointment to the Vice President of the International Union's staff in 1957, where he remained until his retirement in June of 1980. Even after retirement, "Little Caesar" Valenti's commitment carried him to become elected as President of the U.A.W. Local 900 Retiree Chapter in 1981, where he has continued to bring the same fire and loyalty to his brothers and the union cause.

I applaud Art Valenti for his leadership, commitment, and service, and I urge my colleagues to join me in saluting him for his exemplary years of leadership and service.

TRIBUTE TO STEVEN E. HYMAN

HON. PATRICK J. KENNEDY

OF RHODE ISLAND

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 11, 2001

Mr. KENNEDY of Rhode Island. Mr. Speaker, Dr. Steve Hyman, Director of the National Institute of Mental Health at NIH, recently left NIMH to become Provost of Harvard University. While I am very happy that he has chosen to take this important step, I very much regret that public service is losing such a significant figure working on behalf of patients and families affected by mental illness.

Steve is a very well known neuroscientist, and also a gifted communicator. We have worked together on several issues and events, most recently a briefing for Members and staff on the mental health effects of terrorism in the wake of the awful events of September 11, 2001. Steve has a remarkable ability to leave his audience—whether it is lay or scientific—with a more complete understanding of whatever complex issue he is addressing. This is critical to those of us who work to reduce and eliminate the entrenched stigma about mental illness that so unfairly plagues patients and families. As a scientist, Steve has many times asserted that science shows us absolutely no reason to treat those with mental illnesses as anything other than respected individuals affected by treatable illnesses who deserve health insurance coverage completely commensurate with the coverage provided for physical ailments. In fact, NIMH recently held a meeting in which I participated, focusing on the very real relationship between depression and physical disorders—something that is critical to understand.

For too long, those suffering from depression, bipolar disorder, schizophrenia, anxiety disorders, or any of the other diseases that affect our brain and behavior, have faced discrimination, shame, and even scorn. Leaders like Steve have given us the tools we need to argue forcefully and credibly for equal treatment and equal justice. I believe that his leadership, scientific expertise, and his active participation in trying to educate policymakers like us, as well as our constituents—the American public—have moved us far down the path to eliminating stigma. Steve and NIMH were very much involved in the development of the unprecedented Surgeon General's Report on Mental Health, a groundbreaking document that has had a major impact in this country. He also was a key participant in the equally groundbreaking White House Conference on Mental Health held in June of 1999, a public event that featured the President and First Lady, the Vice President and Mrs. Gore, and many, many Members of Congress.

While we will miss Steve Hyman, I am confident that the course he has set for NIMH, and the people he has left to steer it, will en-

able it to continue to move steadily forward. I know that Steve has left a strong institution, but he has also left a major challenge for his successor—to continue the momentum that he has built up over the five and one-half years he served us as NIMH Director. I haven't known him for a long number of years, but I do know Steve Hyman well enough to know that he will continue his role as champion of patients and their families, and that we are all better off for it.

TRIBUTE TO AMANDA JENKINS, SARAH GOSHMAN, AND MELISSA NUNNENKAMP

HON. STEVE ISRAEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 11, 2001

Mr. ISRAEL. Mr. Speaker, it is with great pride that I rise today to recognize three of New York's outstanding young students: Amanda Jenkins, Sarah Goshman and Melissa Nunnenkamp. In January, the young women of their troop will honor them by bestowing upon them the Girl Scouts Gold Medal.

Since the beginning of this century, the Girl Scouts of America have provided thousands of youngsters each year the opportunity to make friends, explore new ideas, and develop leadership skills while learning self-reliance and teamwork.

These awards are presented only to those who possess the qualities that make our nation great: commitment to excellence, hard work, and genuine love of community service. The Gold Awards represent the highest awards attainable by junior and high school Girl Scouts.

I ask my colleagues to join me in congratulating the recipients of these awards, as their activities are indeed worthy of praise. Their leadership benefits our community and they serve as role models for their peers.

Also, we must not forget the unsung heroes, who continue to devote a large part of their lives to make all this possible. Therefore, I salute the families, scout leaders, and countless others who have given generously of their time and energy in support of scouting.

It is with great pride that I recognize the achievements of Amanda, Sarah and Melissa and bring the attention of Congress to these successful young women on their day of recognition.

PERSONAL EXPLANATION

HON. LUIS V. GUTIERREZ

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 11, 2001

Mr. GUTIERREZ. Mr. Speaker, a previously scheduled commitment prevented me from being in Washington, D.C. and voting on H. Con. Res. 280 on December 4, 2001. Consistent with my record of strong support for Israel, I would have voted yes on this important legislation. H. Con. Res. 280 expresses solidarity with the people of Israel in the fight against terrorism.

The horrific murders of 26 innocent people by Palestinian terrorists during the weekend of December 1–2 make clear the need for all Americans to show their support for the people and Israel during this dangerous and troubled time. Our nation has no more consistent friend and ally in the international struggle against terrorism than Israel. The people of Israel set an invaluable international example with their commitment to democracy and freedom and dedication to working for peace. The people of Israel continue to pay a high price for these ideals. Their nation remains a target of a deadly and unrelenting terror campaign that is often aimed directly at young people and families. Israel deserves and needs our unwavering support at this difficult time.

I strongly support the resolution's call for the Palestinian Authority to destroy the infrastructure of Palestinian terrorist groups and to pursue and arrest terrorist whose incarceration has been called for by Israel. I strongly urge President Bush to take any and all steps to assure these goals are met, including suspending all relations with Yasir Arafat and the Palestinian Authority if necessary.

The safety and security of all people of the world who value freedom and respect the rule of law has never been more threatened. The United States and Israel must remain the closest of allies in our mutual quest to stop terrorism and work for peace. I am pleased to give H. Con. Res. 280 my unqualified support.

TRIBUTE TO ANNETTE M. RAINWATER, DEDICATED ACTIVIST AND COMMUNITY ORGANIZER

HON. DAVID E. BONIOR

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 11, 2001

Mr. BONIOR. Mr. Speaker, I rise today to honor a woman who has given her life to the pursuit of justice and equality.

Annette M. Rainwater is one of Detroit's most committed activists. She came of age at a time when our country and our democracy were at a crossroads. When Dr. King called on Americans to join together to stand up for their rights, to register voters, to fulfill the promise of democracy, she answered that call. She answered it with passion, intelligence, and faith that we could shape a better future. Not only did Annette get involved, she stayed involved. Over the years, she has held leadership positions with such organizations as the

Southern Christian Leadership Council, the NAACP, the Student Nonviolent Coordinating Committee, and the National Political Congress of Black Women, just to name a few. But in all of these roles, her capacity to inspire others and her determination shone through.

Annette also worked tirelessly in her community. As a precinct delegate, she knocked on countless doors and recruited many volunteers. When it came time to get out the vote, Annette was always ready to help. She has offered her skills as an organizer as well, through her roles as a Board member of the Fifteenth Democratic District Congressional Organization and Democratic Party State Central member. She has also been a dedicated public servant, serving as the chief of staff for Councilman Clyde Cleveland.

Although Annette is retiring, she will leave a legacy of activists and public servants to continue her work. She has been a mentor to many, including Llena Jackson-Leslie, Vice President of the National Women's Political Caucus, Judge Greg Mathis, and Wayne County Commissioner Jewel Ware. These leaders and others will help keep the stories of the civil rights struggle alive—and help make sure that we move forward, and never forget where we've been.

To paraphrase Dr. Martin Luther King, the measure of a person is not where she stands in moments of comfort and convenience, but where she stands at times of challenge and controversy. During one of the most difficult times in our history, Annette Rainwater stood for justice, equality, and a future that would allow all Americans the opportunity to reach our fullest potential.

Detroit is a better place because Annette Rainwater calls it home. She has earned our thanks for her half-century of selfless dedication to creating a more just city, state and nation.

BOOK DEVELOPED BY RON MORGAN

HON. DAVE WELDON

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 11, 2001

Mr. WELDON of Florida. Mr. Speaker, Ron Morgan of Cape Canaveral, Florida, is becoming a well known expert on the U.S. flag. He has developed a comprehensive book, *The American Spirit in the New Millennium*, that endeavors to renew pride in our flag and to present a fair case about its legal protections, effectively countering the arguments of those who would allow our flag to be desecrated. He wants to inspire further research and study of not just the history of the flag, but United States history, law and government. I am proud that Ron Morgan is my constituent on Florida's Space Coast, and I thank him for his hard work and dedication to promote the values represented in our flag. I wish to enter into the CONGRESSIONAL RECORD a chapter from his book that was updated since the September 11 attacks:

AMERICA UNITED—A CALL TO HONOR

On January 1 in the year 2000, the entire world was transfixed as a glowing ball of

light descended above Times Square, amid the cheers and adulations of over one million New Yorkers. The amazing technology of the last century provided live pictures of this joyous event to every nation in the world, as the global celebration of Y2K signaled the grand commencement of this new millennium.

On September 11 in the year 2001, the entire world was transfixed as the symbol of this new millennium, the mighty twin towers of the World Trade Center, descended in a horrendous roar of fiery steel and concrete, with the unspeakable loss of thousands of innocent men, women and children from America and from 80 sovereign nations around the globe. The amazing technology of the last century provided live pictures of this insane crime against humanity, as the world reeled in terror.

As the immensity of the horror overcame the paralyzing visual shock, people from every nation on earth truly believed they were witnessing the beginning of the end of the civilized world—or as many describe it, the Apocalypse. The bright sunshine was instantly transformed into the pitch-blackness of a moonless night by billowing clouds of black carbon, grey concrete and white ash. Clouds that had not been seen in our nation for 70 years, since the towering clouds of brown dust swept relentlessly across the Great Plains in the 1930's and turned America's heartland into America's wasteland.

Fellow human beings began to emerge from those clouds, from the darkness into the light. Some walked, some ran, some carried each other—but all moved with dignity. The eerie, ash covered figures that stepped out of those clouds into the waiting arms of the rescuers, displayed no recognizable ethnic or racial characteristics visible to the naked eye.

We were one with them, and they were ours. New York City was truly united in a heroic display of courage, self-sacrifice, and compassion.

The mightiest city on the planet was brought to its knees in seconds by an act of barbarism unparalleled in history. But as the dust settled amid the raging fires that still burned, a wondrous transformation slowly enveloped that scene of mindless carnage.

The true American spirit began to rise higher than the tall towers that once dominated the skyline of New York. It gave vibrant notice that we have suffered a grievous wound, we have lost uncounted lives, but we will not be bowed, we will endure!

The spirit of courage that drove our fearless and tireless firefighters, police officers, medical personnel and scores of civilian volunteers, who offered their own lives to save others. The spirit of help that mobilized the entire city to aid and comfort the victims, their families and the rescuers who continued to brave unrelenting danger. The spirit of prayer that brought people of all faiths together, as never before in memory.

The spirit that galvanized the entire nation, with volunteers from every state and even foreign nations streaming in New York to help in the enormous effort of recovery. The United States Congress and the Administration were truly unified for the first time since World War II. Our nation spoke with one voice, with one purpose and with one message—This terror shall not endure. Our citizens and our freedoms shall be defended and preserved. Justice under law will prevail!

And the unyielding symbol of the American spirit began to appear on the helmets and the tunics of the incredible rescue personnel. It began to appear on cabs, buses,

trucks, cars and subway trains. It appeared on apartments, shop windows, buildings, houses, street signs, light poles and trees. It was worn on lapels, shirts, jackets and hats. It was carried by hand and was waved on high. It was draped on the smoldering steel frames of a once mighty edifice, as a proud badge of honor and an unmistakable pledge of resolve and perseverance in the face of unconscionable evil. The Flag of the United States of America became our rallying cry and our inspiration, just as it has countless times before in the face of tragedy and adversity. It asked nothing in return, just the chance to serve us if we needed something beyond ourselves to remind us of our goal.

There is an incredible historical mosaic that blends and intertwines the past and the present in every city, town, and village in America. That mosaic was never more vividly displayed than in the streets of downtown New York on those fateful days in September 2001.

212 years ago President George Washington knelt down in St. Paul's Chapel, nestled near the Battery on the island of Manhattan, New York. It was April 30, 1789. He had walked to St. Paul's from Federal Hall, where he had just been inaugurated as the first President of the United States. He prayed for guidance to lead a fledgling nation, with honor, into the unknown waters of a new concept of government.

On September 16, 2001 Mayor Rudy Giuliani knelt down in St. Paul's Chapel on the island of Manhattan in the area now known as Ground Zero. He prayed for guidance to lead his wounded city, with honor, in a humanitarian rescue and recovery effort of unparalleled proportions.

St. Paul's is a stone's throw from the World Trade Plaza. It was saved and preserved during the skyscraper construction that totally surrounds it, only because it was listed on the Historic Registry! The twin towers rained down million of tons of debris that rocked the ground with the force of an earthquake. Loose steel and concrete tore apart mighty buildings and filled the city streets around this hallowed site. But not one pane of stained glass in the chapel windows was broken.

At Washington's National Cathedral, President George W. Bush spoke for America to the clerics of all faiths, to our national leaders and to the United Nations representatives assembled in the pews of the cathedral. He humbly prayed for guidance to lead this country and indeed the civilized world, into a new age of freedom from terror and tyranny.

We now realize that the splendor of this new millennium cannot be achieved if we do not meet this worldwide challenge to our very way of life. A challenge that heretofore existed only in shadows and darkness, but now is clear and visible and formidable. The task that lies ahead is a daunting task that will require courage, judgment, patience and—above all—perseverance. The American people are up to the task!

Let us pledge to each other our will, our commitment, our strength and our steadfast unity. Working together as one people, we can strive to meet the three primary goals of this great nation that are so eloquently described in the Declaration of Independence: That personal security of life without fear; the cherished freedoms of our individual and societal liberty; and, the profound enjoyment inherent in the pursuit of happiness and prosperity.

Our nation has issued a Call to Honor. The American people and our noble leaders have

stood up bravely and answered the call. They have answered the call with their sacrifice, their deeds and their generosity. They have proudly proclaimed their unity by gathering together with the one and only tangible object that truly represents each one of us individually and all of us collectively—the Flag of the United States.

America United is no longer a slogan. America United is now a reality!

SPEECH BY COUNTY COMMISSIONER RON RANKIN OF KOOTENAI COUNTY, IDAHO

HON. C.L. "BUTCH" OTTER

OF IDAHO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 11, 2001

Mr. OTTER. Mr. Speaker, I rise today to bring to the attention of the House a recent speech by County Commissioner Ron Rankin of Kootenai County, Idaho. Ron is a veteran of the United States Marines and is a tireless defender, like all Idahoans, of the rights our veterans preserved for us through their devotion. This speech was given by Commissioner Rankin on the occasion of the dedication of a new veteran's memorial. I urge my colleagues to read this speech and remember the sacrifices our veterans made for us and the continued sacrifices being made today by our men and women in uniform. With the consent of the House I would like to insert that speech for the record.

KOOTENAI COUNTY VETERANS MEMORIAL WALL DEDICATION, NOVEMBER 10, 2001

(By Commissioner Ronald D. Rankin)

Once there was a nation of patriots, men, women, and children who loved their country, their flag, and their freedom, and the independence guaranteed by their divinely inspired United States Constitution. They honored their soldiers who fought to preserve their freedom and independence.

Then came the Korean War, the first war our country fought that we were politically prohibited from winning. This was followed by the Viet Nam War where hoards of drug crazed traitors cursed and spat upon combat veterans returning from a war that cost over 50 thousand casualties. Our fighting men and women were pilloried for the treasonous political decisions that protracted that war far longer than any other in our history.

That "hippie generation" is now being replaced by a generation which has never witnessed a war like those of the 20th Century—a generation that will determine the future of our country, our United States constitution, and our freedom.

They must be taught and reminded what American veterans have sacrificed for them to be able to live in freedom.

To that end, and through most generous private contributions, Kootenai County citizens are carving highlights of history into stone. A remembrance of some of the great moments in history that have molded and formed our futures.

Each of the fourteen laser-etched stone photo panels on this wall will represent a major military mark in history.

On the inside of the foyer/gallery, will be found separate pamphlets each describing a great event of military history.

One will describe in detail the infamous attack on Pearl Harbor, not the entire World

War II but only Pearl Harbor. Another will describe in detail the barbaric Bataan Death March, where American prisoners of war were tortured, murdered and taken to Japan to work as slaves in the mines; another, the turning point of World War II in the Pacific—the Battle of Midway, where the sinking of so many Japanese aircraft carriers effectively broke the back of the Japanese fleet.

Two Jima; how that well known flag photograph came to be, and at what terrible cost.

The Navajo Code Talkers; American Indian patriots who saved the lives of thousands of their fellow Marines, sending and receiving combat messages in their ancient tongue that was undecipherable by Japanese intelligence.

A detailed account of the Battle of the Chosin Reservoir in 1950 in North Korea—an epic in Marine Corps history.

The epic landing at Normandy on "D" Day—1944.

The heroic 2nd Rangers scaling a 100 ft. cliff to take a German pill box at the top of the coastal cliffs of Normandy.

The Battle of the Bulge. The hard fought heroic battles that were the turning point in the war in Europe.

The air war over Europe and the heroes of the B-17's.

The emergence of helicopters and river gun boats as weapons of choice in Vietnam. These and more to be added, will be a source of unrevised history for our youth of future generations as well as some of our adults of today who have little knowledge of the sacrifice of our combat veterans past and present.

It is our resolve here today in dedicating this memorial wall, that our veterans will retake their places of honor and respect in the minds of those so blessed by the freedom they enjoy. A legacy of the sacrifices of the generations of patriots past and present who have worn the uniform of our country with pride and dedication to the principles we all hold dear.

May God Continue to Bless America in all of her righteous endeavors.

This I ask humbly in the name of Jesus Christ—Amen.

BIPARTISAN TRADE PROMOTION AUTHORITY ACT OF 2001

SPEECH OF

HON. LYNN C. WOOLSEY

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 6, 2001

Ms. WOOLSEY. Mr. Speaker, I rise in strong opposition to H.R. 3005, the Trade Promotion Authority Act.

I certainly recognize the value of trade, but contrary to the claims of the GOP leadership and Administration, passing fast track is not just about trade and the economy. It's about health, human rights, consumer and environmental standards. Unfortunately, the Thomas "fast track" bill is a roadmap to undermining these standards globally.

As members of Congress, we have an important role in shaping future trade agreements. As the influence of trade extends to other areas including health, education, and the environment, we must ensure that trade agreements reflect the values and standards that we have worked so hard to uphold. If we

pass H.R. 3005, we give up our authority to influence the content of future trade agreements, and we erode the government's ability to guard against direct attacks on the progress we have made. Even more important, we eliminate a crucial piece of the constitutional process by limiting democratic debate and stifling the voice of the people. That's undemocratic and it's not smart public policy.

The GOP leadership argues that passing H.R. 3005 is the patriotic thing to do. Make no mistake, "fast track" does not rebuild, it does not restore, it does not heal and it will not bring America together. Instead, by pushing this divisive issue forward, we are driving America and its government apart when what America needs is unity.

H.R. 3005 will not advance fair trade policies, but policies that are harmful to our nation and the world. We CAN foster trade while ensuring that American jobs, civil rights, and our natural resources are protected. We just can't accomplish this goal through the enactment of H.R. 3005. With its lack of enforcement measures, H.R. 3005 jeopardizes international environmental agreements, compromises job security for American workers and curbs economic growth. That's why I will continue to urge my colleagues to support free trade, but only when it's fair trade.

TRIBUTE TO JOSEPH M.
CARKENORD OF THE L'ANSE
CREUSE PUBLIC SCHOOLS

HON. DAVID E. BONIOR

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 11, 2001

Mr. BONIOR. Mr. Speaker, today I rise to recognize Mr. Joseph Carkenord as he retires from nearly 50 years of service to the L'Anse Creuse Public Schools. Mr. Carkenord has been a teacher, administrator, and Board of Education Member in the L'Anse Creuse Public Schools for nearly 50 years, and today marks the end of an era of dedication to the school district.

Raised in Indiana, Mr. Carkenord attended Ball State University, where he completed a Bachelor of Science degree in 1950. It was then that his teaching career began. Soon thereafter, Mr. Carkenord accepted a position at South River Elementary School in the L'Anse Creuse School District. This began a remarkable career of devotion to education and public service in Michigan. By 1955, Mr. Carkenord had earned a Master's degree and was appointed Principal of the elementary school.

In 1959, while still Principal at South River Elementary, Mr. Carkenord became the Director for Special Education in the district until 1969. At the same time, he served as Director of the L'Anse Creuse Summer Program. He also served as Principal of the Neil E. Reid Elementary School.

During his tenure, Mr. Carkenord has had the pleasure of serving as President of the Macomb County Elementary Principal's Association, on the Michigan Principal's Board of Directors, and on the L'Anse Creuse Board of Education, as President and Treasurer. Al-

though Mr. Carkenord has exhibited tireless support for public education, his commitment is just as strong. He and his wife Joann have resided in the L'Anse Creuse community for over 35 years. Their daughter and son, Barbara and Dr. David Carkenord are graduates of L'Anse Creuse High School North. We all expect his retirement not to diminish in way his continued commitment to the L'Anse Creuse Public Schools and its school board on which he serves.

It has been a privilege to our community to have Mr. Carkenord demonstrate leadership and commitment to public education and the L'Anse Creuse School District. I ask that my colleagues join me in celebrating Mr. Carkenord's retirement after nearly 50 years of public service to his community.

BIPARTISAN TRADE PROMOTION
AUTHORITY ACT OF 2001

SPEECH OF

HON. JIM NUSSLE

OF IOWA

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 6, 2001

Mr. NUSSLE. Mr. Speaker, earlier this year the President submitted to Congress his legislative agenda for international trade. I believe this agenda benefits America's consumers, farmers, and workers. Beyond that, I believe it will successfully advance a strategy for promoting freedom, economic development and increased living standards abroad. The key-stone of the President's agenda is Trade Promotion Authority or "TPA". TPA provides the President with a powerful tool to promote U.S. agriculture and manufactured goods abroad.

As I travel through Iowa, farmers have expressed to me their support for opening world markets for U.S. farm goods. According to U.S. Trade Representative Robert Zoellick, the President's primary trade negotiator, agriculture will be a primary factor in future trade negotiations. Indeed, agriculture currently accounts for more than 30% of all U.S. exports. On a national level, agricultural exports create 750,000 jobs, both on and off the farm.

Expanded trade opportunities very clearly benefit Iowa farms and the commodities that are raised on them. In my home district, approximately 35% of farm products are sold abroad. One in every five rows of corn are exported. This includes not just the unprocessed corn but value-added goods that create jobs including: meat, dairy and poultry products, corn feed, biodegradable plastics, and corn syrup. Soybean producers benefit from free and open trade as well. In the year 2000, U.S. exports of soybeans, soybean meal, and soybean oil totaled more than \$7 billion. Farmers want to earn a living from the land and with the free market without dependence on the government for financial assistance. TPA is essential to reach that goal. Congress is currently in the process of creating a new Farm Bill. However, any farm program devised would be fruitless without opening markets for farmers to sell their goods.

Agriculture is not the only business in my district that would benefit from opening international markets. According to the U.S. De-

partment of Commerce, 217 manufacturers in northeast Iowa export goods on a regular basis. The track record for business exports in Dubuque and the Waterloo-Cedar Falls area since the North American Free Trade Agreement (NAFTA) has been impressive to say the least. Since 1993, when NAFTA was signed into law, Dubuque has seen a 75% increase in export sales. Waterloo and Cedar Falls together have posted an impressive 95% increase in export sales during that time period!

Deere & Company, a Quad Cities-based company, has several facilities throughout Iowa, including facilities in both Dubuque and Waterloo. This company's stake in opening foreign markets is very high. Deere exported \$1.8 billion in U.S.-made products in 2000. This reflects 16% of its total sales and 35,000 jobs that are export dependent. Deere has a stated mission of increasing its sales overseas. This mission is of great benefit to Iowa's working families. Deere's Waterloo Works is the company's largest exporting plant. One in four of the green tractors produced in Waterloo is headed overseas. TPA is important to companies like Deere because it will help stabilize our domestic farm economy, and gives the President more latitude in negotiating tariffs with countries that are seeking to modernize their agricultural development.

Waterloo Industries is much smaller than Deere, but also has a very large stake in the global marketplace. Approximately 10% of its products are sold abroad. Waterloo Industries produces high quality tool boxes and cabinets for both home and industrial use. On average, this company ships 3 semi-truckloads of these products abroad every day. This reflects \$105,000 per day in sales and 1450 export dependent jobs, 10% of the company's workforce. Currently a third of Waterloo Industry's products to Canada, the remaining two-thirds are sold, among other places, in Europe, Australia, and Japan. It is my understanding that Waterloo Industries would like to expand its market in Asia and the Pacific. Tariffs for tool-boxes in some Pacific rim countries are as high as 30%. I am hopeful that TPA can aid the President in negotiating a decrease of these high tariffs.

For some 60 years, Presidents have used a TPA-like system to open markets abroad. Congress allowed trade negotiating authority for the President to lapse in 1995. While our economy has continued to grow and our exports have increased since that time, we can and should still do more. The European Union currently has 27 preferential agreements with other countries, Japan has 130, and the United States is a party to only three of them.

This summer House Ways and Means Committee Chairman Thomas worked extensively with pro-trade Democrats to forge legislation to grant TPA while allowing Congress to retain its right to oversee the process. H.R. 3005 establishes a special trade oversight committee in Congress to consider environmental, labor, and human rights aspects of trade negotiations, and mandates the U.S. trade Representative to consult this committee on a regular basis. In addition, this legislation complies with rules established by the World Trade Organization and our other trading partners.

Mr. Speaker, as we begin the 21st Century, it is becoming increasingly apparent that the

world is becoming a smaller place. More efficient means of transportation and communication have connected countries and regions of the world in ways that were unimaginable just a decade ago. Given these unprecedented changes and the United States' role in the world economy, it is critical that the United States be able to negotiate fair trade agreements with overseas nations. TPA offers the tools we need to face the challenges of our changing world economy. I urge my colleagues to vote in support of the H.R. 3005.

NATIONAL PEARL HARBOR
REMEMBRANCE DAY

HON. TIM ROEMER

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 11, 2001

Mr. ROEMER. Mr. Speaker, I rise today in recognition of the Sixtieth Anniversary of the attack on Pearl Harbor. This day allows Americans of all ages to honor and remember those who lost their lives in the attack on Pearl Harbor.

Early on the morning of Sunday, December 7, 1941, the Empire of Japan launched a brutal and unprovoked attack on the U.S. Navy, Army, Air Force, and Marine Corps bases at Pearl Harbor, Hawaii. Over 2,400 Americans were killed and 1,200 wounded on that fateful day—the day that President Roosevelt said “will live in infamy.”

It was not until after World War II ended that the American people were fully apprised of what a severe, crippling blow the attack on Pearl Harbor inflicted on our defenses. The best of our Navy and our Army in the Pacific was virtually wiped out in a single devastating blow. But the Japanese empire did not count on the galvanizing effect that this dastardly attack would have on the American people. In the wake of the events of September 11, 2001, we have once again witnessed how this powerful effect unites our country against evil.

Prior to December 7, 1941, the role of the United States in world affairs was the topic of intense debate. That debate ended as the bombs fell on Pearl Harbor. All Americans be-

came united in the effort for victory with a vigor and determination unknown in any American conflict, before or since, perhaps with the exception of the resolve demonstrated by the American people since September 11th. The ultimate tragedy of Pearl Harbor was the fact that it could have been predicted and prevented. Candidates for graduation at the Japanese military academies had been asked to plan an attack on Pearl Harbor as part of their final examinations each year since 1931. The Japanese secret code had been broken, and the State Department was aware that an attack was imminent. However, the location was not known, and so our commanders were not notified in a timely fashion.

Mr. Speaker, this does not mean, however, that our 3,600 casualties were killed or wounded in vain. The heroism demonstrated that fateful Sunday morning did much to inspire millions of Americans to greater sacrifice and heroism which was necessary for our ultimate victory. This year will mark the 60th Anniversary of Pearl Harbor and our thoughts and prayers will be those survivors and their families as well as the families who have lost sons and daughters in the war that followed.

RETIREMENT OF JOSEPH
THOMPSON

HON. JACK QUINN

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 11, 2001

Mr. QUINN. Mr. Speaker, the Department of Veterans Affairs, and the Veterans Benefits Administration (VBA) in particular, is losing a remarkable leader. Joseph Thompson, former Under Secretary for Benefits, is retiring after 26 years of service to veterans.

I met Joe at the start of my tenure as chairman of the Subcommittee on Benefits of the Veterans' Affairs Committee. I had a lot of detail to learn about the VA's claims process, and Joe's knowledge of the VBA was vast. A Vietnam veteran, Joe began his career with VA as a claims examiner in 1975, and through the years he worked in the Education Service, VA's Regional Office and Insurance Center in

Philadelphia as Assistant Director, and spent seven years as the Director of the Regional Office in New York. It was in this position that Joe reengineered the regional office's business processes and former Vice President Gore awarded the first “Hammer Award” for reinventing government to the New York Regional Office. Joe asked his coworkers personally to accept the award from the Vice President, which they did in Joe's presence. It was only natural that Joe Thompson would take the helm of the VBA. While managing almost 13,000 equally dedicated employees, Joe was responsible for administering the service-related disability compensation programs, needs-based pension programs, home loan guarantees, GI Bill education assistance, vocational rehabilitation and job placement services, and life insurance programs—and he rose to the task.

Joe Thompson is indeed a visionary person. Under his direction, VBA developed the Roadmap to Excellence in an effort to improve service delivery, the Balanced Scorecard, which measured performance by each regional office, and established a system to improve the integrity of performance data in order to greatly reduce false or erroneous reporting of outcome measures. These were seen at the time by some as unorthodox ideas, but veterans and VA's stakeholders are better off today because Joe challenged the status quo. Joe laid the bench mark for future VBA employees, and he set the bar rather high, in my opinion. He is one of the most creative and innovative public servants I have known. And the well-spring of growth and change that Joe inspired is Joe's legacy to his fellow veterans.

I have enjoyed a strong working relationship with Joe Thompson and consider him a friend. He is the epitome of the federal employee who reports to work each day because he wants to make a difference, especially for disabled veterans. And I can say without reservation that Joseph Thompson has met the challenge of leadership in public service. I wish Joe and his family all the best following retirement. I am sure Joe's family is proud of him; I know I am.

SENATE—Wednesday, December 12, 2001

The Senate met at 9:30 a.m. and was called to order by the Honorable HILLARY RODHAM CLINTON, a Senator from the State of New York.

PRAYER

The Chaplain, Dr. Lloyd John Ogilvie, offered the following prayer:

Almighty God, we praise You for Your faithfulness. Now in this sacred season, we join with Jews all over the world as they light their menorahs and remember Your faithfulness in keeping the eternal light burning in the temple. We gather with Christians around a manger scene and praise You for Your faithfulness in sending the Light of the World to dispel darkness. Your indefatigable love is incredible. You never give up on us. You persistently pursue us, offering us the way of peace to replace our perplexity. You offer Your good will to replace our grim wilfulness. In spite of everything humankind does to break Your heart, You are here, once again sending Your angel to tell us of Your good will, Your pleasure in us just as we are, and for all we were intended to be. Change all of our grim "bah humbug" attitudes to humble adoration.

Help us to be as kind to others as You have been to us, to express the same respect and tolerance for the struggles of others as You have expressed to us by turning our struggles into stepping stones, to understand us as we wish to be understood. Help us to shine with Your peace and good will. In the name of the Light of the World. Amen.

PLEDGE OF ALLEGIANCE

The Honorable HILLARY RODHAM CLINTON led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore (Mr. BYRD.)

The assistant legislative clerk read the following letter:

U.S. SENATE,
PRESIDENT PRO TEMPORE,
Washington, DC, December 12, 2001.

To the Senate:

Under the provisions of rule I, paragraph 3, of the Standing Rules of the Senate, I hereby appoint the Honorable HILLARY RODHAM

CLINTON, a Senator from the State of New York, to perform the duties of the Chair.

ROBERT C. BYRD,
President pro tempore.

Mrs. CLINTON thereupon assumed the chair as Acting President pro tempore.

RECOGNITION OF THE ACTING MAJORITY LEADER

The ACTING PRESIDENT pro tempore. The acting majority leader is recognized.

SCHEDULE

Mr. REID. Madam President, this morning we are going to be on the farm bill. There is going to be 50 minutes of debate equally divided and there will be a vote at approximately 10:20 this morning.

The majority leader has asked me to announce that he wants to work into the evening tonight to make significant progress on this bill. It is Wednesday. For those who want to leave Friday or this weekend, it is very clear to everyone we have to make progress on this bill. So I hope everyone will understand there will be no windows. We will have to work right through the evening, working as late as possible, as long as the managers think we are making progress on the bill.

RESERVATION OF LEADER TIME

The ACTING PRESIDENT pro tempore. Under the previous order, the leadership time is reserved.

AGRICULTURE, CONSERVATION, AND RURAL ENHANCEMENT ACT OF 2001.

The ACTING PRESIDENT pro tempore. Under the previous order, the Senate will now resume consideration of S. 1731, which the clerk will report.

The legislative clerk read as follows:

A bill (S. 1731) to strengthen the safety net for agricultural producers, to enhance resource conservation and rural development, to provide for farm credit, agricultural research, nutrition, and related programs, to ensure consumers abundant food and fiber, and for other purposes.

Pending:

Daschle (for Harkin) Amendment No. 2471, in the nature of a substitute.

Lugar/Domenici Amendment No. 2473 (to Amendment No. 2471), of a perfecting nature.

AMENDMENT NO. 2473

The ACTING PRESIDENT pro tempore. Under the previous order, there will now be 50 minutes of debate equal-

ly divided and controlled on the Lugar amendment, No. 2473.

The Senator from Indiana.

Mr. LUGAR. Madam President, I yield to myself the time I may require. Being mindful there are others who may wish to speak on my amendment but seeing none for the moment, let me review the amendment for the benefit of Senators who, perhaps, followed the debate yesterday.

I have offered an amendment which, in essence, changes substantially the ways in which farm families are supported in the United States of America. I have moved to a concept of a safety net in which, essentially, each farm family—regardless of the State, regardless of what products or farm animals or timber or what have you which comes from that farm—has equal standing. I think that amendment ought to be appealing to most States.

As I cited yesterday, just 6 States of the 50 receive about half of the payments under the current system. That would be concentrated further in the bill that now lies before us. That concentration really occurs regardless of State, although many States receive very few benefits at all. If, in fact, 6 States receive about half, the 44 divide the rest and, as I cited yesterday, many States have fewer than 10 percent of their farm families who participate in these payments at all.

I make that point again because I suspect it is not apparent to many Senators, to many people in the public as a whole, who believe we are talking today about the totality of agriculture in our country, farm families of all sizes. Much is said about small farm families, those who are in stress, in danger of losing their farms.

Without being disrespectful of anyone's views on these subjects, I pointed out these small family farms are not likely to gain much sustenance from the subsidies that are being suggested presently. Let me cite, without getting into anyone else's backyard, the situation in the State of Indiana.

The current program targets 16 percent of the payments in Indiana to 1 percent of the farms—1,007 farms. In fact, it becomes equally apparent at the top 2 percent, which gets 26 percent, a quarter of all the farms. By the time you get to the top 10 percent, which now includes 10,000 farms out of roughly 100,000 that received payments from 1996 to 2000, the top 10 percent receive 66 percent of all of the money.

Any way you look at it, the reasons for this are perfectly clear. Essentially, the payments are made on the basis of acreage and yield. Those farmers who

are strongest make use of research; they make use of marketing techniques. They, in fact, have costs that are less than the floor, so there are incentives to produce more each time we come along with another farm bill. And that will be the case again. Therefore, the gist of my amendment is we must change.

The distinguished chairman of the committee, as he responded last evening, said the Lugar amendment contemplates so much change it will be shocking to country bankers; it will be shocking to farmers generally. When you knock the props out of all kinds of layers of programs that have been built up year after year, one subsidy on top of another, even if it only touched 40 percent of farm families generally with 60 percent not touched at all, certainly there will be an impact on the 40 percent.

My point is the 40 percent overstates it. The real impact will be upon the 1's, the 2's, the very top numbers in terms of people who have very large enterprises. I think that is not the will of the Senate. But the effect of the policies has been this, as detailed State by State by the Environmental Working Group Web site. Any Senator, prior to a vote on this amendment, can go to that Web site and find out, person by person, every farm that has received subsidies during the last 5-year period that is covered, plus the summary I have cited.

The change I am suggesting is one that is still a generous amount of taxpayer money. Yesterday Investor Daily editorialized about the debate we are having and commended my bill as the best of the lot but suggested it is still a lot of money from some taxpayers in America to farmers. Indeed, it is to the extent that I am suggesting a farmer receive a voucher worth 6 percent of all that he or she produces on the farm and that it not be simply curtailed to wheat, corn, cotton, rice, and soybeans but to livestock, to fruits and vegetables, to wool, to whatever comes from that entity—all things added up on the Federal tax return that arrive at a total farm revenue picture.

I used the hypothetical farmer yesterday who received, say, \$100,000 of total receipts from all sources getting a voucher for \$6,000, enough to pay for a full farm insurance policy that guarantees 80 percent of the revenue based on the last 5 years.

There are very few businesses, if any, in America that could purchase this kind of revenue assurance that would guarantee—given the ups and downs of our economy—at least 80 percent of the revenue would be available come hell or high water, including bad weather, bad trade policies, and whatever. This \$6,000 voucher would not be paid for by the farmer. It is by virtue of the production indicated on the tax returns that he or she submits. It is possible,

because we already have a generous crop insurance program as I pointed out that undergirds agriculture now, that not all farmers will take advantage of that, which is too bad. The educational process must continue so farmers understand how much insurance and assurance they could obtain under current legislation.

My point is, we ought to be providing a safety net that has equality for all States, all crops, all conditions, and all sizes of farms and that genuinely meet the needs of a safety net as opposed to a haphazard disaster relief bill here or there on the appropriations of agriculture, and the perennial summer debates about supplemental assistance, that somehow there are shortfalls, even though this year we are having a record net income for all of agriculture—\$61 billion. It has never been higher.

Yet this debate proceeds as if the totality of American agriculture were in crisis. The 10-year bill suggested by the House of Representatives suggests the crisis inevitably goes on for 10 years adding one subsidy on top of another throughout that period of time.

That is what my amendment tries to stop. I appreciate that for many Senators the problem of explaining all of this to their constituents may be difficult. The easier course may be simply to say: I did my best for you.

As I witnessed the debate thus far, I have an impression that many Senators have come into that mode as they approach the distinguished chairman of the committee, or me, or other Members who have been involved in the debate. The question is not that overlayers of subsidies on top of subsidies is good for the country, good for farmers generally, good for the deficit, or good for whatever. The question is, what is in this bill for me, or my farmers, or the political support I can gain from the person to whom I can write that I was in there fighting for the last dollar for you.

I must admit that the bill which has been laid down before us by the Agriculture Committee has a lot of money in it. The disillusionment will come that 60 percent of farmers will find there is nothing in the bill for them—nothing. I hope they understand that before we conclude the debate.

In my State of Indiana, two-thirds of the farmers will find out very rapidly that there was very little left for them after the top 10 percent took the money. That will come as a disillusion, perhaps. But hope springs eternal, perhaps. A trickle-down theory might occur even in farm subsidy bills.

Let me point out that there is an opportunity here for both a safety net for farmers and finally a turnaround from a policy that came in a long time ago with deep origins in the row crops coming out of the Depression but less and less relevant to the actualities of farm-

ing in America today and what people actually do.

The 2 million farms that are listed by the census in most cases do not have active farmers on the farm. The most rapidly rising source of new farms in the country are persons who are professionals, doctors, lawyers, teachers, and others who purchase 50 acres, or sometimes more within a reasonable driving distance of their urban offices, or locations, because they like some space. If they produce on that entity of 50 acres or 100 or whatever the acreage may be, at least \$20,000 in sales of anything agricultural, they are classified under USDA standards as a farmer. So the 2 million are made up principally of persons who gain some income from the farm.

The only persons who gain the bulk of their income from the farm are commercial farmers in America. Most of them have 1,000 acres or more. They comprise roughly 10 percent to 15 percent of all of the entities. Even on those farms it is usual that one member of the family has a day job in the city or somewhere else.

That is the nature of the business. I mention this because, in an attempt to have a comprehensive farm bill, it is virtually impossible to target and to find 2 million people. I think my bill does this the best because it simply says whether you produce \$20,000, and you are in fact a lawyer, you still qualify as a farm so that there is at least something more than a casual interest in the farm. If you have \$20,000 in sales of any sort, you are eligible for the 6 percent voucher.

My bill is not excessively generous as you rise in income because after the first \$250,000 total revenue the voucher percentage drops to 4 percent to the next \$250,000. After \$500,000 to \$1 million in revenue, it is 1 percent. Then sales on your farm over \$1 million would not have the voucher. Thus, there is a limit effectively of about \$30,000 for a farm family coming from this program.

The distribution to all farm families in America in all States means that the money that is finally provided in my bill is spread even over a 10-year stretch. We are talking about a 5-year bill. Because many of these bills have been scored for 10, it is still less than the bill before us. But the cost of my bill in the 5 years we are talking about is dramatically less in large part because, although a lot of money is going to all the farm families at the rate of 6 percent of everything they are doing, essentially we are winding up the target prices, the loans, and the other subsidies on top of another. Therefore, as you subtract those savings, OMB has scored this 5-year experience in the commodity section of the Lugar bill of only \$5 billion as opposed to, as I recall, the \$27 billion for 5 years in the bill before us now. That is substantial money.

Let me point out that in addition there are some important aspects in the second section of my bill. The distinguished chairman of the committee, as he responded yesterday, pointed out that the committee bill has much more generous provisions for the nutrition section. I applaud that. I worked with the chairman to make certain we had very strong bipartisan support for doing more in the food stamp area, in the WIC Program, in the School Lunch Program, and in the feeding of people wherever they may be in America.

But there is a difference between the two bills—my bill, essentially, is the amendment before the Senate now—with some of the savings that come from this remarkable difference between \$5 billion for commodities in my bill and \$27 billion in Senator HARKIN's bill. My bill provides \$3.7 billion for nutrition in the first 5 years and the Harkin substitute \$1.6 billion. That is a substantial difference.

Yesterday, I detailed the extraordinary efforts of hunger groups throughout our country, of advocates not only for the poor but for better nutrition, of people involved in the School Lunch Program who regularly testified before our committee, as well as those who have been advocates for full coverage of the Women, Infants, and Children Program—the WIC Program—to fulfill those objectives.

My bill allocates \$3.7 billion in the next 5 years. If it were scored over 10 years, it would be up to \$11.9 billion. The Harkin substitute has \$1.6 billion in the first 5 years, scoring \$5.6 billion in the 10-year period, with less than half the nutrition impact. That is not by chance.

For Senators who believe one of the major points of a farm bill that comes from Agriculture, Nutrition, and Forestry ought to be the feeding of all Americans, in addition to targeted benefits for very few Americans on the production side, I hope they will find my amendment appealing. It was meant to be that way. The priorities are significant.

For the moment, Madam President, I will yield the floor so I will have a few moments, perhaps, at the end of the debate to refresh memories of Senators who may not have heard all of this presentation today and may be preparing for their votes.

I yield the floor and suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. LUGAR. Madam President, I ask unanimous consent the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. LUGAR. Madam President, I ask unanimous consent that the time in

the quorum call I am about to propound be charged equally against the two sides.

The ACTING PRESIDENT pro tempore. Is there objection?

Without objection, it is so ordered.

Mr. LUGAR. Madam President, I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. HARKIN. Madam President, I ask unanimous consent the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. HARKIN. Madam President, as I understand, again, for the benefit of all Senators, we are under an hour of debate evenly divided on the Lugar amendment regarding nutrition with a vote to occur at 10:30; is that correct?

The ACTING PRESIDENT pro tempore. Under the previous order, there is to be a 50-minute debate equally divided and controlled with the vote to occur at 10:25.

Mr. HARKIN. I understand I must have about 25 minutes.

The ACTING PRESIDENT pro tempore. The Senator is correct.

Mr. HARKIN. I thank the Presiding Officer.

Madam President, now that we have had some opportunity over the evening to look at Senator LUGAR's proposed nutrition title, I would like to discuss a little bit of the difference between his approach and the approach we came out of the committee with, again, keeping in mind that our nutrition title did come out of committee, if I am not mistaken, on a unanimous vote on that title.

Again, like so many other things that have come through any legislative process here, but especially on agriculture, I am sure there were things we might have wanted to do differently in one way or the other. Would we like to put more money in nutrition? Yes. But then we have to balance it with everything else we have. So we tried to come out with a balanced bill, as I said yesterday.

I really believe my colleague's amendment would upset that balance greatly. And even though we might want to do more for nutrition, I believe we have met our responsibilities for nutrition in this bill to meet the nutritional needs of our people. I will go through that shortly.

I did want to correct one thing. I believe my colleague and friend said that on nutrition our spending over 5 years is \$1.6 billion. Our data shows that our outlays for 5 years are \$2.2 billion. I just wanted to make that correction. I think his is \$3.7 billion and we are at \$2.2 billion. I do know his outlays are more than ours; at least I believe his budget authority is \$3.7 billion. I do

not know what the outlays are for 5 years, and perhaps Senator LUGAR could enlighten us on that. But I just want to talk about some of the differences and some of the potential problem areas I see in the title proposed by Senator LUGAR.

I think we have all agreed that the outreach for the Food Stamp Program is vitally important to make sure that eligible people understand they can participate and to get them to participate. In the past, this has really been a problem. So we put provisions in our bill that would provide for more outreach to go out and make people understand they are eligible for food stamps. That, I believe, is lacking in the Lugar proposal.

Again, this is one area where, if you look at the amount of money we have for nutrition, you have to understand that food stamps are an entitlement; that if the economy goes down, if people are out of work, if they qualify, they get food stamps. That is not included in our bill. That is just an entitlement. What is important is whether or not people know they can get food stamps, whether or not they know they are eligible, and the outreach programs that will bring people into the Food Stamp Program. That is where I believe we have met that obligation. The Lugar proposal does not. It is important to go out and get people to understand they are eligible for the Food Stamp Program. So we included a number of provisions to make sure that information about the Food Stamp Program and the applications are made available to eligible people who are not now participating in the program.

We also include pilot programs, testing different ways to go out and reach people. Those pilot programs are not in the Lugar proposal.

The committee bill also includes provisions that will help able-bodied adults without dependents—subject to time limits under the Food Stamp Program rules—to find jobs. For example, the committee bill allows a rigorous job search activity to count as a work requirement for able-bodied people without dependents. Quite frankly, if people are making an honest effort to find work, if they are in an approved job search program, why should they be penalized? They should be eligible. We have that in our bill. That is not in the Lugar proposal.

In our bill we have also designated funds specifically for employment and training activities for this very group of people. While States should have flexibility to use their employment and training funding as they see fit, they should be able to draw upon a special reserve for people who are subject to a time limit. If there is a time limit, they ought to be able to have some leeway for employment and training activities. Again, we have that in our bill. That is not in the Lugar proposal.

Our bill also acknowledges that people who participate in employment and training activities have certain additional expenses, such as transportation. If they are looking for a job—let's say they are in a training activity. They may have to go clear across town or across the city to this training activity. That costs money. We increase the amount of money available to States to help defray those costs. That is in our bill. That is not in the Lugar proposal.

Another key difference between what is in the committee-passed bill and Senator LUGAR's proposal is that we include a substantial commodity purchase of \$780 million over 5 years. At least \$50 million of that will go to purchase fruits and vegetables for the School Lunch Program. At least \$40 million a year must be used to purchase commodities for the TEFAP Program—The Emergency Food Assistance Program. Again, Senator Lugar's proposal only provides funding for TEFAP commodities, not for the School Lunch Program. Again, if we are talking about low-income families on food stamps who need nutritional help, it is their kids who are in school who get the free meals—free or reduced-price meals; mostly free in this case. So we provide money in the bill to go out and buy apples and to buy oranges and to buy other fruits and other vegetables for the School Lunch Program to meet the free and reduced-price School Lunch Program for these needy kids. That is not in the Lugar proposal. We provide \$40 million for the TEFAP Program; Senator LUGAR provides \$30 million, \$10 million less.

We also included a pilot program. This may seem insignificant, but I don't think so. We included a pilot program to test in public schools in four States to see whether or not distributing free fruits and vegetables is beneficial and whether students would take advantage of that. In other words, the idea is, if a student is in a public school, rather than going to the vending machine and putting in their 75 cents or a dollar now and getting a candy bar or something like that—usually in the vending machines there is candy, and then down at the bottom there is usually an apple at the same price—the kid is not going to buy the apple.

Let's say you provided in the school lunchroom free apples, free oranges. Let's say a student has a hunger pain. They can go to that vending machine and put in their \$1 or 75 cents or they can go to the lunchroom and pick up a free apple. We provide for that pilot program in four States. That is not in the Lugar proposal. This would also be a proposal beneficial to our fruit and vegetable growers. Certain vegetables we are talking about—carrots, broccoli, whatever, celery, different things such as that—that kids could get free

under this pilot program, it is not included in the Lugar proposal.

We also in our bill include a provision to strengthen nutrition education efforts in the Food Stamp Program. A lot of people in the Food Stamp Program use their food stamps and they buy Twinkies and potato chips and fat-filled kinds of food. It may not be very nutritious. We need more nutrition education in the Food Stamp Program. We include a provision to strengthen that. I do not believe that is in the Lugar proposal.

There is one other point I want to make, and that is in terms of whether or not people who are in certain programs, who rely on certain programs for noncash assistance, such as the Temporary Assistance to Needy Families—if you are getting child care and things such as that, if you are in that category, basically we are saying you should be eligible for the Food Stamp Program. You should not have to go back and qualify for this, qualify for that, and go through all the redtape. Senator LUGAR includes a provision that would have the effect of making people who rely on this noncash assistance ineligible for the Food Stamp Program. Again, a lot of times these people use the Food Stamp Program as a boost to help get back on the road to self-sufficiency.

Last year we worked to give States the option of liberalizing the food stamp vehicle. A number of States have already done this. They have changed their policies on the value of a car you can have. I wonder if it is going a bit far, as Senator LUGAR does, to require that all States exclude all vehicles from consideration in determining food stamp eligibility. We want to liberalize it. I think my State is way too low. When you have a State that says you can only have a car worth \$3,500, these are the people who need transportation to go back and forth to work. That is the kind of car that breaks down all the time. These rules ought to be raised. Some States are much higher.

I stand to be corrected, but I think Utah, for example, is several thousand—maybe more than that—higher in an automobile. It just makes sense to allow a person to have a decent car that doesn't break down all the time.

Senator LUGAR says we will require all the States to exclude all vehicles, as I read the amendment. I could be corrected on that, but that is the way I read it. That is going a bit far. We ought to let the States rate the eligibility, but to require them to exclude all vehicles may be loosening it up too much.

The restoration of the immigrant benefits provision is very controversial to some people. We tried to take a targeted approach where benefits are restored to the most needy legal immigrants; that is, children, the disabled,

refugees, asylum seekers. We say the kids who are of legal immigrants should not have to wait to get food stamps. Again, this is in line with our thinking that if you are a child, you ought to get nutrition because it saves on health care. We know that children who receive nutrition learn better. They will be better students. As far as kids go, we are saying: If you are a child of a legal immigrant, you should get food stamps now.

As I read the Lugar amendment, he says they have to wait 5 years—all immigrants who have been in the United States for at least 5 years. Under the committee-passed bill, we don't wait 5 years to restore benefits to children. We do it immediately, not 5 years from today.

Again, there are some significant differences between what Senator LUGAR is proposing and what we have done in the committee. It is true, I admit quite frankly, that Senator LUGAR puts more money into nutrition than we do. That is true. But I still will say that in terms of the program that most needy people rely on to meet their nutritional needs—that is, the Food Stamp Program—the most critical part of that is outreach, information, and support to people who are not now applying but who are eligible to get into the Food Stamp Program. That is what we do. That doesn't cost a lot of money. And if it does get people into the program, and they get food stamps, that is not counted. That is not counted on our ledger sheet.

I believe our bill actually will provide more nutritional support to people than the Lugar proposal, even though it doesn't show up on the balance sheet as such.

The other part is simply the fact that where Senator LUGAR is getting the money for this really does upset the balance we had in our commodity programs. I don't think this is the time to demolish farm commodity programs in order to adopt a wholly untested voucher system as a total replacement. That is the other side of this amendment. Farm programs are not perfect. I will be the first to admit it. But we cannot abandon the safety net at a time when it is obviously inadequate already.

What this amendment does is weaken help for all program crops—dairy, sugar, peanuts, everything—and it replaces it with a voucher program whereby a farmer can go out with a voucher and get crop insurance and can get insurance, not just for destruction of crops but for lack of income. It has been untested. We don't know if it would work.

This is something that probably ought to be done on a pilot program basis at some point, but not right now, a whole commodity program that we have structured. Quite frankly, I believe that on our committee we have a

lot of expertise. We have Senators on both sides who have been involved in agriculture for a long time. We have former Governors on our committee. We have former Congressmen on our committee. We have people who have been on the agriculture committees of their State legislatures, of the House of Representatives, and now in the Senate. We have people with a lot of expertise in agriculture on our committee.

These are not people who just sort of off the cuff decide to do something in agriculture. These are people, Senators, such as the present occupant of the Chair, who think very deeply about what is best for their people and what is best for the commodities in their State.

The Senators know their commodities and the programs. So we hammered out and worked out compromises and a commodity structured program that will benefit all of agriculture in America. Again, it may not be perfect. I daresay I haven't seen a Government program yet that is perfect. But to throw it all out the window and to substitute this untested, untried voucher program when we have no basis to understand how it would ever work right now would cause chaos and disruption all over agricultural America.

On the nutrition side, I believe that our approach, the committee approach we have come out with is responsible, reasonable; it gets to the kids who need nutrition; and it has a good outreach program to make sure people who are not on food stamps understand it. On the other hand, on the commodity side, I believe our commodity program is well structured, sound, responsible, evenhanded all over America, and it is built upon programs and ideas that we know work. We know direct payments work. We know loan rates work. We know that conservation payments work. These things out there have been tested and tried and they work. Now is not the time to pull the rug out from underneath our farmers for an untested program.

For both of those reasons—on the commodity side and nutrition side—I respectfully oppose the Lugar amendment and urge all Senators to support the well-thought-out, responsible nutrition title that we brought out from the committee. It is good, solid, and it is something for which I think we can be proud.

With that, I yield the floor and reserve the remainder of my time.

The PRESIDING OFFICER (Mr. MILLER). The Senator from Indiana is recognized.

Mr. LUGAR. Mr. President, I respectfully say to my distinguished colleague that the only well-thought-out aspect of the bill before us are thoughts as to how a Senator might be enticed by more money for particular crops for his or her State. It is a catchall bill. It

really has no particular philosophy. One subsidy is piled on top of another.

That is my point. Somebody has to bring an end to this chaos. The chaos is not going to be joyous if continued as the Senator from Iowa pointed out. Sixty percent of farmers get nothing from this; they are not going to get a dime. I hope that understanding finally comes through to agricultural America. This bill is targeted at a very few farmers. Forty percent at least have a chance; but as a matter of fact, as we pointed out numerous times, half of the payments go to 8 percent of those farmers who have a chance. And very sharply, large percentages go to a very few that fall behind the top 8 percent. In fact, by the time you get to the top 20 percent, 80 percent of the money is gone, even for that segment that is getting something.

This bill has been a grab bag of trying to figure out how various Senators might be enticed into a coalition if a certain amount of money was promised, regardless of who it goes to—the size of the farmers and the problems of the farmers notwithstanding. I have tried to shake up the order and say that if we are going to distribute money, let us do so to all farmers, all States, all crops, all animals, as opposed to the very few that are clearly the targets of the bill that came out of the Agriculture Committee.

The chairman is right. We have been doing it this way for almost 70 years. With increasing overproduction, increasing reduction of prices, this bill stomps down prices. They have no chance to come up. I hope there will not be any speeches next year on why prices are at an alltime low. Of course, they are going to be low. If you stimulate overproduction, they will go down every time. We have been doing that consistently year after year. To suggest that chaos ensues because you try to bring an end to this seems to me not very logical.

I admit that it would be a total surprise to the country if all farmers shared, if all States shared—a remarkable surprise. I think it would be a good surprise, as a matter of fact. That is why I am suggesting what is admittedly a very large change. We are winding up the old and trying out a true safety net for all of us in agriculture.

Let me respond briefly on the nutrition side. The distinguished chairman has pointed out what he believes are deficiencies in my approach. Let me say that, at the bottom line, we may not provide as much information about how you get the benefits, and perhaps that is a deficiency, but we simply provide more food, more nutrition for millions more Americans. That is pretty fundamental.

The outlays in our bill are \$4.1 billion, and the chairman's bill is \$2.1 billion. That is twice as much food. In ours, the budget authority is 3.7 and

his is 1.6—twice again. It is very hard to match the quantity of the service, the number of people being affected, by getting into the particulars.

Having said that, I am perfectly willing to work with the chairman, as he knows, to try to find whatever deficiencies we can meet, making certain that all Americans know of the possibility for whole meals. That is our intent, to have a very strong nutrition safety net with the assistance of almost every group in our society; they have been working at this longer than the chairman and I have.

I hope Members will vote for my amendment. I believe it is a significant change that will lead not only to less subsidization but to higher prices, higher real market values that come to farmers, with a safety net in the event there are weather disasters, trade disasters, and other things well beyond the ability of farmers to control.

I yield the floor.

Ms. CANTWELL. Mr. President, I rise today to discuss the Lugar amendment to the Farm bill before us and to express my strong support for the nutrition provisions included in the underlying bill as introduced by Senator HARKIN.

I want to make it clear that while I appreciate Senator LUGAR's investment in food stamps and food nutrition programs, I oppose the Lugar provisions on the commodity title because it undermines a crucial safety net for our Nation's farmers. These commodity assistance programs are vital to the competitiveness and survival of the U.S. farming base and the rural communities that depend on a healthy agricultural economy.

I applaud Senator LUGAR's attention to the need to expand the Food Stamp Program in this difficult economic time. The Food Stamp Program is one of the most effective and efficient ways we directly help low-income families, and the elderly and disabled. The language in Senator HARKIN's bill will make this important program more efficient and effective for those who rely on it most.

There is no doubt that the economy is weaker than it was at this time last year—or even this summer when we passed President Bush's tax cuts. In fact, the Congressional Budget Office, CBO, announced on Monday that the country has a \$63 billion deficit in the first 2 months of the new fiscal year. CBO's report attributes most of the extra spending to increased Medicaid costs and unemployment benefit claims.

This does not surprise me, especially when one considers these indicators of the current state of Washington's economy: Unemployment rose a half-point in October to reach 6.6 percent in the State—the highest rate in the Nation; new claims filed for unemployment insurance claims rose 33 percent over the

same month last year; we now have the highest number of initial unemployment insurance claims since 1981; and unfortunately, one of our strongest and most stable employers—Boeing—has announced that 14,000 of its workers in Washington State are going to be out of a job by next summer. This news is absolutely devastating for my State—according to the Seattle Chamber of Commerce, for every Boeing job lost the region loses another 1.7 jobs.

There is no doubt that our economy works best when people are working. But when people lose their jobs, they need help to manage their unemployment, train for new jobs, and make an easy transition to new careers. And this includes broad-based assistance to families, especially through the food stamp and other Federal nutrition programs. If families are hungry and not meeting their basic needs, they certainly cannot focus on the training they need to attain long-term stability and self-sufficiency.

I believe that strengthening the Food Stamp Program to assist low-wage workers and those recently out of work is a critical component of Congress's response to the weakening economy. Unfortunately, as the economy deteriorates many working families are joining the lines at local food banks. Just this week, the Seattle Times reported on the food shortages in our area food banks and the fact that so many families are now seeking assistance from the very food banks to which they once donated. In fact, food stamp participation in Washington State increased over the last 12 months by 8.2 percent. But I am particularly concerned about those who are eligible for food stamps but do not use them since we passed the 1996 welfare reform legislation, food stamp participation rate decreased 32.2 percent in Washington State.

Sadly, the percentage of households with children facing food insecurity—those who do not know where their next meal is coming from—is higher in Washington State than across the rest of the country. And food insecurity among emergency food recipients—those going to food banks, to emergency kitchens and shelters—is nearly 50 percent higher in Washington than the rest of the country. And this is despite the fact that over 315,000 people in the State of Washington participate in the Food Stamp Program, and 153,000 people participate in the Women, Infants, and Children, WIC, Program.

I strongly support the nutrition provisions in the underlying bill. In order to address the increasing need for food stamp and other Federal nutrition support, Senator HARKIN has increased mandatory food stamp spending by \$6.2 billion over the next 10 years.

The Harkin Farm bill provides an extension for transitional food stamps for

families moving from welfare to work; extension of benefits for adults without dependents; and increased funding for the employment and training program. The bill would allow households with children to set aside larger amounts of income before the food stamp benefits would begin to phase out.

Importantly, the bill simplifies the program for State administrators and participating families. Specifically, it simplifies income and resource counting, calculation of expenses for deductions, and determination of ongoing eligibility in the program. Together, these improvements will help both States and recipients because they lower burdens and increase coordination with other programs, such as Medicare, TANF, and child care, that the States administer.

I am particularly pleased that the bill restores food stamp benefits for all legal immigrant children and persons with disabilities. According to Census data, 27 percent of children in poverty live in immigrant families, 21 percent are citizen children of immigrant parents, and 6 percent are immigrants themselves.

Unfortunately, many citizen children of legal immigrants who remain eligible for the Food Stamp Program are not participating. Many of their families are confused about food stamp eligibility rules, and in some cases, the child's benefit is too small for the household to invest the effort to maintain eligibility. In fact, since 1994, over 1 million citizen children with immigrant parents have left the program despite remaining eligible.

After the Federal Government eliminated food stamp benefits for legal immigrants Washington State was the first State to put its own funds toward restoring food stamp eligibility for legal immigrants. The State Food Assistance Program uses State funds to support legal immigrants who were disqualified as a result of the 1996 welfare reform law. In fact, 11 percent of all food assistance clients in WA State are legal immigrants. This bill restores the Federal commitment to ensuring that legal immigrants have access to these important Federal programs.

When we passed President Bush's tax cut, I said that I believed the country is at a critical juncture in setting our fiscal priorities—deciding between maintaining our fiscal discipline and investing in the Nation's future education and health care needs, or cutting the very services used daily by our citizens. That statement is even more relevant today. Passing the food stamp expansions included in the Harkin Farm bill gives working families struggling to make ends meet the security they need in these uncertain times.

The PRESIDING OFFICER. Who yields time? If no one yields time, time is charged equally to both sides.

Mr. LUGAR. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. LUGAR. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. LUGAR. Mr. President, my understanding is that I have a minute and a half, which is declining as time goes by equally charged to both sides. So as opposed to seeing all of that decline, let me say I am most hopeful we are going to have a strong vote for the Lugar amendment because I believe it is a good amendment for all Americans.

I stress that because sometimes in our zeal in these agricultural debates we are doing the very best we can for those in agricultural America, and that may be in many of our States as much as 2 percent of the population. But the rest of America also listens to this debate and wonders why there should be, as in the underlying bill, a transfer of \$172 billion over the next 10 years from some Americans to a very few Americans—particularly, if 60 percent of the farmers don't participate at all and if it is narrowed to those who have very large farms. Most Americans, when confronted with that proposition, don't like it.

I am preaching today, I suppose, to the choir of all Americans and hoping that agricultural America also understands that if we are ever to have higher prices and market solutions on farms, we must get rid of the subsidies that are a part of the underlying bill. And I do that. At the same time, I provide assurance and a safety net which I believe is equitable to all farmers and likewise to all Americans who look into this and find at least some hope for farm legislation as we discuss the Lugar amendment. I ask for the support of my colleagues. I yield the floor.

The PRESIDING OFFICER. The Senator from Iowa.

Mr. HARKIN. Mr. President, how much time do I have remaining?

The PRESIDING OFFICER. Six minutes.

Mr. HARKIN. Mr. President, the Senator from Indiana just mentioned in rebuttal to my remarks about how not all farmers are getting benefits under this farm program. He is right. I believe the committee bill begins to change that somewhat. We include a conservation title in our bill that was supported unanimously by the committee that will begin to direct some funds toward those farmers who have not been included in our farm programs in the past—our vegetable farmers, organic farmers, fruits, minor crops. Now they will be able to get benefits from farm programs if they practice responsible stewardship of the land, protect the soil, and protect the water.

Quite frankly, I believe this is going to be one of the best provisions for other areas of the country that have not participated before in our farm programs. That is in the committee bill. I know Senator LUGAR's amendment does not touch that, but I understand there is going to be an amendment offered by Senators COCHRAN and ROBERTS that will take that away.

I hope those who believe that we have to expand our reach and include more farmers in our farm programs will oppose that amendment because this is the one element that will go out to help those smaller farmers and the farmers who have not been in the major crops before.

We also have an energy title. That energy title is new in this bill. Again, the Lugar amendment does not touch that. I understand that. I am not talking about that. The Cochran-Roberts amendment will basically defund all that. That is another provision that can help a lot of our smaller farmers and others who have not been included in farm programs in the past.

I wanted to make the point we have taken strides to reach out in this bill to get farm program benefits to all regions of America.

Senator LUGAR also spoke about low prices and overproduction. The answer to low farm prices is not to idle half of America and to put all these farms out of business. That certainly should not be our answer. If you like imported oil, you will love imported food. That seems to be the answer. We will just shut down all the farms in America and buy our food from overseas. Good luck when that starts happening.

We need agriculture. We need food security for our own Nation. We need to find new markets, new outlets for the great productivity, the great production capacity of American agriculture. That is what we need—new markets.

Conservation is a marker. I believe energy is a new marker. Whatever we can make from a barrel of oil we can make from a bushel of soybeans or a bushel of corn or a bushel of wheat. Biomass energy, plastics, biodiesel, ethanol—think of the possibilities—pharmaceuticals. There are all kinds of items that come from our crops that we have not even tried. I believe that is what this bill also starts to do: find those new markets for the great productive capacity of America in agriculture.

The answer is not just to shut down half of America. That is not the answer at all. Think what that is going to do to our small towns, our rural communities, our families if we do that.

We have to keep the production going. We have to find new markets, and that is what we start to do in this bill.

I believe also we have met all of the objectives of the nutrition community. We met with them. They testified be-

fore our committee on more than one occasion. Quite frankly, we met basically their objectives.

I also point out when Senator LUGAR says he provides more money for food—maybe yes, maybe no. Really what the Lugar amendment does is it increases the standard deduction a little bit. There are some additional provisions for able-bodied adults without dependents, but most of the money that is in the Lugar amendment is in simplifying rules, in simplifying programs. We include some of those in ours, but he goes a little bit further.

I still believe the most important thing we can do is to provide the underpinning of nutrition, as we did in the committee bill, and then do more outreach to make sure people who are eligible for food stamps know they can get them and make it easier for them to apply for food stamps. We do that in our bill. That outreach, quite frankly, is not in the Lugar amendment.

I think it is arguable whether the Senator provides more food than we do. I believe I can make the case we actually would provide more food because we do more outreach and get more people involved in the Food Stamp Program. We provide better commodity purchases for our school lunch programs. I believe that is a wash. Keep in mind the Lugar amendment destroys all our commodity programs, and we are not going to do that.

The PRESIDING OFFICER. The Senator's time has expired.

Mr. HARKIN. I understand all time has expired. I move to table the Lugar amendment and ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There is a sufficient second.

The question is on agreeing to the motion. The clerk will call the roll.

The assistant legislative clerk called the roll.

The result was announced—yeas 70, nays 30, as follows:

[Rollcall Vote No. 363 Leg.]

YEAS—70

Akaka	Dorgan	Lincoln
Allen	Durbin	Mikulski
Baucus	Edwards	Miller
Bayh	Feingold	Murray
Biden	Feinstein	Nelson (FL)
Bingaman	Fitzgerald	Nelson (NE)
Bond	Graham	Reid
Boxer	Gramm	Roberts
Breaux	Grassley	Rockefeller
Brownback	Harkin	Santorum
Byrd	Helms	Sarbanes
Cantwell	Hollings	Schumer
Carnahan	Hutchinson	Sessions
Carper	Hutchison	Shelby
Cleland	Inhofe	Smith (OR)
Clinton	Inouye	Snowe
Cochran	Jeffords	Specter
Conrad	Johnson	Stabenow
Craig	Kerry	Torricelli
Crapo	Kohl	Warner
Daschle	Landrieu	Wellstone
Dayton	Leahy	Wyden
DeWine	Levin	
Dodd	Lieberman	

NAYS—30

Allard	Enzi	McConnell
Bennett	Frist	Murkowski
Bunning	Gregg	Nickles
Burns	Hagel	Reed
Campbell	Hatch	Smith (NH)
Chafee	Kennedy	Stevens
Collins	Kyl	Thomas
Corzine	Lott	Thompson
Domenici	Lugar	Thurmond
Ensign	McCain	Voinovich

The motion was agreed to.

Mr. REID. Mr. President, I move to reconsider the vote.

Mr. HARKIN. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

The PRESIDING OFFICER. The Senator from Iowa.

Mr. HARKIN. Mr. President, we are making progress on the farm bill. We have a couple of big amendments that were very thoroughly debated and voted on. We are ready to move ahead with other amendments. We are ready to move on. If other Senators have amendments, we are open for business. We hope people will come forward. We have maybe some reasonable time limits. On the Lugar amendment we had a decent time limit. We debated it thoroughly.

It is vitally important that we finish this farm bill and that we do it expeditiously. I do not know exactly when we are going to go home for Christmas. This farm bill needs to be finished. We need to finish it expeditiously. The House passed their bill, and we need to pass ours and go to conference.

We can finish this bill today. I see no reason we can't finish it today if we have some healthy debate on a couple more amendments. I know Senators COCHRAN and ROBERTS have an amendment they want to offer, which is a major amendment. We could debate that today and have a vote on that today. There are perhaps other amendments. I haven't seen any, but I have heard about some. I think we could move through this bill today and get it finished and go to conference.

I urge all Senators who have amendments to come to the floor.

Mr. DORGAN. Mr. President, will the Senator yield for a question?

Mr. HARKIN. I am delighted to yield to my friend from North Dakota for a question.

Mr. DORGAN. Mr. President, I certainly share the Senator's interest in trying to conclude this farm bill or consideration of the farm bill. I am wondering, is there any opportunity at some point today to attempt to get a list of those who have amendments who wish to offer them on this legislation?

Mr. HARKIN. I think the Senator has made a good suggestion and a good inquiry. I hope that at sometime today, with the leaders of both sides, we can have a finite list of amendments, that we can agree on those, and move ahead, because if we do not, we will just be

here day after day after day after day, and, as the Senator well knows from his experience here, this could go on indefinitely.

So we do need to get a finite list. I hope we can get that done, I say to my friend.

Mr. DORGAN. If the Senator will yield further, I know it is certainly the goal of the Senator from Iowa to get a bill through the Senate, have a conference, and then get it on the President's desk for signature before we conclude this session of Congress. While I know that is ambitious, it certainly is achievable. I think we have the opportunity to finish this bill today or tomorrow. I know the chairman of the House Agriculture Committee is very anxious to go to conference.

Is the Senator aware that the chairman of the House committee has indicated he is very anxious to begin a conference, which suggests if we can get a bill completed through the Senate, and get it to conference, we will be able to perhaps get it out of conference and on to the White House?

Mr. HARKIN. I say to my friend from North Dakota, I think it is definitely possible we can get this done. I know that Congressman COMBEST and Congressman STENHOLM, the two leaders of the Agriculture Committee on the House side, are anxious to get to conference. They have basically looked over what we have here, and we have looked over what they have in their bill. Really, I do not think the conference would take that long. But we just have to get it out of the Senate.

Mr. DORGAN. One final question, if I might. I suspect the Senator from Iowa has been asked a dozen times now, before 11 o'clock, when we are going to finish this session of Congress or when we are going to finish this bill. I think everyone around here kind of wants to know when this session of Congress might end.

That makes it all the more urgent we finish our work on this bill because this bill, the stimulus, Defense appropriations, and a couple of others need to be completed. I appreciate the work of the Senator from Iowa and the Senator from Indiana. And I know the Senator from Mississippi is going to have an amendment.

I really hope we can have a good debate on important farm policy and then proceed along and see if we can get this bill into conference in the next 24, 48 hours. I appreciate the work of the Senator from Iowa and the Senator from Indiana.

Mr. HARKIN. I thank the Senator from North Dakota.

Seeing the Senator from Minnesota, who wants to speak, I yield the floor.

The PRESIDING OFFICER (Mr. FEINGOLD). The Senator from Minnesota.

Mr. BYRD. Will the Senator yield?

Mr. DAYTON. Sure.

The PRESIDING OFFICER. The Senator from West Virginia.

Mr. BYRD. Mr. President, while the leader is on the floor and while Mr. BAUCUS is on the floor, will the Senator yield to me for 5 minutes?

Mr. DAYTON. I yield.

The PRESIDING OFFICER. Without objection, it is so ordered.

FAST TRACK

Mr. BYRD. Has the Finance Committee reported out the fast track?

Mr. BAUCUS. No.

Mr. BYRD. Is it going to today?

Mr. BAUCUS. Yes.

Mr. BYRD. When?

Mr. BAUCUS. In about an hour.

Mr. BYRD. Does the committee have permission to meet?

Mr. BAUCUS. I don't know.

Mr. HARKIN. No.

Mr. BYRD. Parliamentary inquiry, Mr. President.

The PRESIDING OFFICER. The Senator from West Virginia.

Mr. BYRD. Mr. President, for the information of the Senate, what is the rule with respect to the meeting of committees during the operation of the Senate while the Senate is in session?

The PRESIDING OFFICER. When the Senate is in session, the committees may meet for 2 hours, but not beyond that, and not beyond 2 p.m.

Mr. BYRD. As of today, when would that time expire?

The PRESIDING OFFICER. At 11:30.

Mr. BYRD. At 11:30.

The PRESIDING OFFICER. At 11:30 a.m.

Mr. BYRD. So the committee may not meet after 11:30 without the permission of the Senate?

The PRESIDING OFFICER. The Senator is correct.

Mr. BYRD. I put the Senate on notice I will object to that committee meeting after 11:30 today while the Senate is in session.

Mr. President, along that line, may I say I have asked the chairman of the Finance Committee to give some of those of us who are opposed to fast track an opportunity to appear before the committee. I am not on the Finance Committee. I would like to have an opportunity to appear before that committee and speak against fast track. That is all I am asking.

I made that personal request of the chairman of the committee yesterday, and he said: Well, I could appear before the committee after it had acted on fast track, after it had marked up the bill.

Well, there is no point in my appearing before the committee after it has marked up the bill. That is a really silly suggestion, if I might say so: I will make my impassioned plea to the committee after the committee has met and marked up the bill. Why should I go appear before the com-

mittee after that committee has marked up the bill? What a silly proposition.

Mr. President, there are those of us—there are a few around here—who object to fast track. And I am sorry the distinguished chairman of that committee said no.

Now, as chairman of the Appropriations Committee, I don't think I would say that to any Senator. I would not say it to a Republican Senator; I would not say it to a Democratic Senator. The very idea, on a matter as important as fast track to discuss around here—I am just disappointed a Senator would get that kind of a brushoff.

Now understand, I went to the distinguished chairman yesterday and asked him if he would mind putting that matter off and allow some of us—or a few of us; I know one Senator who is against fast track—to allow us to appear before the committee. And I got kind of a brushoff, I would say. Well, all I could say was I was disappointed. I am still disappointed.

Let me read a section of the Constitution to Senators. Section 7 of article I, paragraph 1:

All Bills for raising Revenue shall originate in the House of Representatives; but—

Get this—

but—

Mr. President, may we have order in the rear of the Senate.

The PRESIDING OFFICER. The Senate will come to order, please.

Mr. BYRD. So I come to the conjunction "but"—paragraph 1, section 7, article I, of the U.S. Constitution. Here is what it says:

but the Senate may propose or concur with Amendments as on other Bills.

Now, we all know that when fast track is brought to the Senate, Senators may not propose amendments. In my way of reading the Constitution, that is not in accordance with what the Constitution says. What did the Framers mean? It is obvious that they meant the Senate could amend on any bill.

Let me read the whole section again, the whole paragraph, section 7:

All Bills for raising Revenue shall originate in the House of Representatives; but—

B-U-T—

the Senate may propose or concur with Amendments as on other Bills.

It doesn't say it "shall." The Senate may not want to offer any amendments, but it "may."

But now we come along with this so-called trade promotion authority. Ha, what a misnomer that is. And that is plain old fast track. And a lot of Senators and House Members are going to go to their oblivion on fast track if the people back home ever wake up to what is going on.

... but the Senate may propose or concur with Amendments as on other Bills.

It doesn't say "on some other Bills" or "on certain other Bills." It says "as on other Bills."

It seems to me the Senate has a right to amend. And I know there are some of us who sought to appear before the Supreme Court on the subject of the line-item veto, and the Supreme Court ruled that we do not qualify because we personally were not injured by the line-item veto. But on a case which was later brought by parties that did qualify as having been injured, the Supreme Court ruled the line-item veto was unconstitutional.

I wonder what the Supreme Court would say about fast track, especially in light of this constitutional provision. I am here to raise that question. If the committee can complete its business before 11:30, that will be in accordance with the rules. But if it doesn't, I hope somebody on that committee will make the point that the committee does not have permission to meet. I would object to any request made for that today.

I thank the distinguished Senator for yielding.

The PRESIDING OFFICER. The Senator from Minnesota.

Mr. DAYTON. I thank the distinguished Senator from West Virginia for raising a very important issue at this time. I ask unanimous consent that I may be permitted to speak for up to 15 minutes as in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BIDEN. Will the Senator yield briefly for a unanimous consent request?

Mr. DAYTON. I will yield while retaining my right to the floor.

Mr. BIDEN. I ask unanimous consent that at the cessation of the Senator's 15 minutes I be recognized to proceed for up to 15 minutes as in morning business, unless the managers of the bill have some business relating to the bill.

The PRESIDING OFFICER. Is there objection?

Mr. REID. Mr. President, we should give the Republicans, if they wish, 15 minutes in morning business following the Senator from Delaware.

The PRESIDING OFFICER. Is there objection to the request as amended by the Senator from Nevada?

Without objection, it is so ordered.

The Senator from Minnesota.

ECONOMIC STIMULUS

Mr. DAYTON. Mr. President, much has been said during the last weeks, regarding the negotiations between the Senate and the House over economic stimulus legislation. Most recently, the rhetoric of House Republican leaders and even a couple of our Senate colleagues has become heated and even vitriolic. Some of their comments about our majority leader would be expected from a bunch of adolescents in a junior high school locker-room. They reflect much more on those who utter

them than on the person about whom they are intended.

The House Republican leadership also seems unduly preoccupied with the process our Senate Democratic Caucus reportedly might use to consider this proposed legislation. I really don't see how that is any of their concern. What they should be concerned about, instead, is how their proposals will affect our national economy and the citizens of our country.

If people are wondering why we Senate Democrats are being so resolute, they should look at what the House Republicans are trying to foist upon us. Remember that their package was called "show business" by the Secretary of the Treasury. And that's the nicest thing one could say about it! It is a huge bundle of holiday goodies to the people who need them the very least: the wealthiest Americans and the largest corporations.

Much of the House bill has nothing to do with providing an economic stimulus. Rather, it is a massive giveaway of taxpayer dollars. Take their proposal to repeal the corporate alternative minimum tax. That is a provision which requires profitable businesses, with numerous deductions, to pay a minimum amount of corporate taxes. Without it, they would pay little or even nothing.

But the House Republicans did not only repeal this tax, they also made it retroactive to 1985, and they would immediately refund all the money companies paid under this provision during the last 15 years.

According to the Wall Street Journal, that would result in a lump sum payment of \$2.3 billion to the Ford Motor Company; \$1.4 billion to IBM; \$671 million to General Electric; \$608 million to Texas Utilities Company; \$572 million to Chevron Texaco; \$254 million to Enron—in total, \$25.4 billion of corporate payouts.

It is bad enough that these huge checks come from the U.S. Treasury, from the taxes paid by working Americans. What is even worse is that they would actually come out of the Social Security Trust Fund's surplus. That is because the surpluses in the other funds—in the Federal general fund and in the Medicare Fund—have already been wiped out by last spring's excessive tax cut and by the current recession. Now the House Republicans want to use the only surplus left: in the Social Security Trust Fund, to give these huge cash payments to mostly profitable corporations, and masquerade them as economic stimulus. Minnesota's largest newspaper, the Star-Tribune, in an editorial, called the House stimulus package, "... a brazen giveaway to affluent corporations." The Star-Tribune went on to say,

Senate Republicans vowed to do better—and they introduced an economic stimulus package that is a brazen giveaway to affluent individuals.

What the two packages have in common, apart from appealing narrow constituencies, is that they have turned fiscal stimulus inside out. They would do almost nothing to help the ailing economy today, but would continue to drain away Federal tax revenues for years to come, long after the economy has recovered.

To their credit, Senate Republicans rejected most of the corporate tax breaks that somehow found their way into the House fiscal package. Those provisions are so arcane and so irrelevant to the economy's current plight, that they could only have been written by corporate lobbyists.

But the Senate GOP approach has an entirely different set of flaws. Its main tactic is to accelerate a series of rate cuts in the individual income tax, cuts that were supposed to phase in during the next several years. Because these rate reductions go exclusively to upper-bracket taxpayers, the Center on Budget and Policy Priorities estimates that 55 percent of the tax relief would go to the top one percent of households. That is bad stimulus policy, because such households, already spending at high levels, tend to save more new money than they spend. It is also disastrous fiscal policy, because three-quarters of the tax cuts would take place after 2002, making Washington's long-term budget outlook even worse than it is today."

The Senate Republicans' proposal, which is also the President's proposal, would give \$500,000 over 4 years to families making \$5 million a year. And that figure illustrates another unwise feature of their plan. It's not just a one-time, economic stimulus, it gives continuing tax reductions to the wealthiest Americans, even after an economic recovery is underway.

The Republicans' insistence on these egregious proposals is why we don't have an economic stimulus bill today. I want to thank—and I believe the American people will thank—our Majority Leader, Senator DASCHLE, and our two principal Democratic negotiators, Senator BAUCUS and Senator ROCKEFELLER, for standing strongly against these giveaways, and for insisting on a bill that will provide a real, immediate economic stimulus. Our Democratic stimulus bill will direct money to working Americans, to people who have lost their jobs during this recession, and to businesses specifically for reinvestments in our economic recovery.

As the negotiations continue, I am hopeful that leaders in both Houses, from both parties, will retain those principles.

I am approaching the end of my first year of service in the U.S. Senate. I remain extraordinarily grateful to the people of Minnesota for giving me this opportunity. It has been a remarkable year for me, and for all of us. I have developed an enormous respect for the Senate, as an institution, and for many of its Members.

Yet, this economic stimulus debate reminds me of what I most disliked about Washington before I arrived here, and what I have seen too much of

while I have been here. It is the national interest being subverted by special interests; subverted by the special interests of the most affluent people and the most powerful corporations in America, by the individuals and institutions who already have the most and want more and more and more.

When I arrived here a year ago, we were looking at optimistic forecasts of Federal budget surpluses totaling trillions of dollars during the coming decade. What a wonderful opportunity, I thought we all would have to put this money to work for America by improving our Nation's schools, highways, sewer and water systems, and other infrastructure.

What an opportunity for all of us to work together and fulfill a 25-year broken promise that the Federal government would pay for 40 percent of the costs of special education in schools throughout this country. What a tremendous accomplishment in which we could all share: provide better educations and lifetime opportunities to thousands of children with disabilities; allow school boards and educators to restore funding for regular school programs and services, so that all students would receive better educations; and reduce the local property tax burdens of taxpayers to make up for this broken Federal promise.

I thought another of our top priorities would be a prescription drug program, to help our nation's senior citizens and people with severe disabilities afford the rising costs of their prescription medicines. During my campaign last year, I listened to so many heartbreaking stories of suffering and despair by elderly men and women—the most vulnerable, aged, and impoverished among us. They are good people, who have worked hard and been upstanding citizens throughout their lives. Yet, their retirement years are now being ravaged by the effects of these escalating drug prices on their fixed and limited incomes. Many seniors have cried as they told me their stories. Some have even told me they prayed to die rather than to continue to live in such desperation.

The budget resolution we passed last spring provided \$300 billion to fund a prescription drug program to help relieve these terrible financial burdens and to lift these good and deserving people out of their black despair. Yet, not one piece of legislation to accomplish this purpose has made it to this Senate floor this year. Not one.

Now, we're told, these anticipated budget surpluses have disappeared. There won't be enough money to fully fund special education. There won't be enough money for a prescription drug program.

Yet, there was enough money last spring to fund a \$1.3 trillion tax cut—40 percent of whose benefits will go to the wealthiest one percent of Americans.

Not enough for schoolchildren and the elderly. Over \$5 billion to millionaires and billionaires.

And now they are at it again. Those in Congress who championed last spring's huge tax giveaway are proposing another one under the guise of an economic stimulus. And at the very same time, House Republicans on the Education Conference Committee have rejected the Senate's proposal to increase funding for special education to its promised 40 percent.

They claim the entire IDEA program must first be reformed. Yet, a few weeks ago in the House, they passed an energy bill, giving over \$30 billion in additional tax breaks to energy companies and utilities. They didn't require any reform from them. The administration hadn't even requested these tax breaks—but the House Republicans just gave them to the big energy companies and utilities anyway.

There always seems to be enough money around here for the rich and the powerful, be they people, corporations, or other special interests. But there's no money for special education funding for children or for prescription drug coverage for seniors.

It's very hard for me to understand how 535 Members of Congress, who were elected to represent the best interests of all the American people, could have produced this result. It's very hard for me to explain it to the schoolchildren, parents, educators, and senior citizens I see back in Minnesota. And it's, thus, very, very hard for me to witness yet more of the same going into this so-called economic stimulus legislation.

We should pass a good economic stimulus package. It would benefit our country. But we would better do nothing than to pass another shameful example of greed and avarice once again. I yield the floor.

Mr. BIDEN. Mr. President, parliamentary inquiry: Am I able to proceed for 15 minutes as in morning business?

The PRESIDING OFFICER. Under the previous unanimous consent, the Senator may proceed for 15 minutes.

DEFEATING AND PREVENTING TERRORISM TAKES MORE THAN MISSILE DEFENSE

Mr. BIDEN. Mr. President, I rise this morning to speak to a decision that I am told and have read is about to be made by the President—a very significant decision and, I think, an incredibly dangerous one—to serve notice that the United States of America is going to withdraw from the ABM Treaty.

Under the treaty, as you know, a President is able to give notice 6 months in advance of the intention to withdraw.

Mr. President, we live in tumultuous times. The transition from the old cold

war alignments to new patterns of conflict and cooperation is picking up speed. This transition is not quiet, but noisy and violent. For 3 months now, it has been propelled by a new war.

In the modern world, high technology and rapid communications and transportation put our own country and our own people on the front lines of that war. We are on the cutting edge of revolutionary developments in everything from medicine to military affairs.

We are also on the receiving end of everything from anthrax to the attacks of September 11—and we will remain vulnerable in the years to come. The question is: how vulnerable?

How shall we deal with this accelerated and violent transition? How well is the Administration dealing with it?

And is their primary answer—withdrawing from ABM and building a star wars system—at all responsive to our vulnerabilities?

We can find some answers in both the experience of the last 3 months and the President's speech yesterday at the Citadel.

Wars are chaotic events, but they impose a discipline upon us.

We must focus on the highest-priority challenges.

We must use our resources wisely, rather than trying to satisfy every whim.

We must seek out and work with allies, rather than pretending that we can be utterly self-reliant.

How well have we done? In the short run, very well indeed.

Our people and institutions rose to the occasion on September 11 and in the weeks that followed.

We took care, and continue to take care, of our victims and their families.

We resolved to rebuild.

We brought force to bear in Afghanistan, and used diplomacy in neighboring states and among local factions, to prevail.

We have also gained vital support from countries around the world, although we have been slow to involve them on the ground. We have shared intelligence and gained important law enforcement actions in Europe in the Middle East, and in Asia.

We have begun to take action to combat bioterrorism. At home, we have learned some lessons the hard way and we have accepted the need to do more. We are stepping up vaccine production.

But we have yet to take the major actions that are needed to improve our public health capabilities at home—or our disease surveillance capabilities overseas, to give us advance notice of epidemics or potential biological weapons.

Neither have we moved decisively to find new, useful careers for the thousands of biological warfare specialists in Russia who might otherwise sell their goods their technology or their capabilities to Iran or Iraq, to Libya, or to well-funded terrorists.

This is no longer a matter for just those of us who have intelligence briefings to know—and we have known this for a long time. Now the world knows that rogue states and terrorists have, in fact, attempted to buy nuclear weapons, biological weapons, and chemical weapons.

The President recognizes the problem of bioterrorism, and listed it in his speech yesterday. At the Crawford summit, President Putin and he promised more cooperation to combat bioterrorism. So far, however, there has been a great deal more talk than action. Al-Qaida's eager quest for weapons of mass destruction has, in my view, highlighted and brought home to every American the importance of nonproliferation, of closing down the candy store, so to speak, where all these radical wackos go to shop.

The President understands this. In his speech yesterday, after talking about the need to modernize our military, he said:

America's next priority to prevent mass terror is to protect against proliferation of weapons of mass destruction and the means to deliver them. . . .

Working with other countries, we will strengthen nonproliferation treaties and toughen export controls. Together we must keep the world's most dangerous technology out of the hands of the world's most dangerous people.

That is correct and well-phrased rhetoric. It gives nonproliferation a high priority. It recognizes the importance of international treaties. But where, Mr. President, are the actions to match that rhetoric? The President offers only a new effort "to develop a comprehensive strategy on proliferation," something he has been promising for over a year.

Meanwhile, just last week, the United States of America singlehandedly brought to an abrupt and confusing halt the Biological Weapons Convention Review Conference that is held every 5 years. Why? Because the administration was determined not to allow any forum for the negotiation of an agreement to strengthen that convention.

This was diplomacy as provocation, in my view, and it was and is a self-defeating approach. It undermined our efforts to achieve agreement on proposals we made earlier in the conference, such as to address the need for countries to enact legislation making Biological Weapons Convention violations a crime. We asked that it be made a crime to violate the convention. We proposed that, but then we shut down the conference, killing even our own proposal, because we did not want any further discussion or a possible new agreement.

The President may understand the need to work with other countries, but some people under his authority do not seem to get it. For that matter, where are the actions to promote nonproliferation across the board?

The White House review of our programs in the former Soviet Union has been limping along for over 10 months. But when the fiscal year 2002 budget was presented, we were told the funds for Nunn-Lugar were being reduced. Those are the funds we use to send American personnel to Russia to dismantle their nuclear weapons delivery systems their strategic bombers and missiles.

We were told that the cut was not permanent, that the reason was they were reviewing whether or not the money was being well spent. While they are reviewing, those nuclear-tipped missiles sit there, and the inability of the Russians to dismantle them because of lack of money or capability still exists. Thus, we got promises of new efforts, but in the fiscal year 2002 budget there is actually a cut in these programs. The Department of Defense has left so many funds unspent that the appropriators tried to cut the Nunn-Lugar program just to get the Pentagon's attention.

Nonproliferation is, thus, our No. 2 priority, but the engine is still in first gear. The same is true of our supposed top priority: modernizing our military. The vaunted rethinking process in the Defense Department has yet to produce much that is new, and the fine performance of our forces in Afghanistan owes more to strategy and equipment developed in the Gulf War and the "revolution in military affairs" of the last decade than it does to anything new this year.

If you want action with your rhetoric, go down to the No. 3 priority in the President's speech: missile defense. Even there, however, the action is more diplomatic, or rather undiplomatic. If news reports are correct—and I know they are, based on my conversation today with the Secretary of State—the President will shortly announce his intention to withdraw in 6 months' time from the Anti-Ballistic Missile Treaty of 1972.

Russia will not like that. Some here will say: So what? What does it matter what Russia likes or does not like? But none of our allies likes it either. And China, I predict, will respond with an arms buildup, increasing tensions in South Asia, causing India and Pakistan to reconsider whether to increase their nuclear capability and, as strong as it sounds, in the near term—meaning in the next several years—this will cause the Japanese to begin a debate about whether or not they should be a nuclear power in an increasingly dangerous neighborhood. All of that is against our national interest.

But the President will invoke Article XV of the ABM Treaty, which allows a party to withdraw "if it decides that extraordinary events related to the subject matter of this Treaty have jeopardized its supreme interest." In my view, invoking this clause is a bit

of a stretch, to say the least. No new enemy has fielded an ICBM missile, which is the only missile our national missile defense is intended to stop. Tactical missile defense is not barred by the ABM Treaty, and Russia has said it would even amend the treaty to permit an expanded United States testing program. So where is the jeopardy to our supreme interest?

The administration has said it wants to conduct tests that would breach the ABM Treaty, but the head of the Ballistic Missile Defense Organization in the Pentagon told Congress earlier this year that no breach was needed to do all the tests that were needed and scheduled.

Informed scientists say the features added to the test program that might breach the treaty, which the Defense Department presented to the Armed Services Committee several months ago, are far from necessary, especially at this time. Phil Coyle, the former chief of testing for the Pentagon, says we can conduct several years of needed testing without having to breach the treaty's terms.

The administration wants to build an Alaska test bed with several missile silos at Fort Greely that it says could be used for an emergency deployment. But the new interceptor missile for the missile defense will not be ready yet. The so-called "kill vehicle," the thing that separates from the interceptor missile and hits the incoming warhead, will not have been tested against realistic targets yet. And the radars supporting this system, the battle management capabilities, are pointed at Russia, so they will not even see a North Korean missile as it flies into southern California, following the scenario cited by those who try to justify building a limited missile defense system.

So where is the real action on missile defense? Is the announcement of our intent to withdraw from the ABM Treaty a real action, or is it a White House Christmas present for the right wing, who dislike arms control under any circumstances and see this season of success in Afghanistan, unity on foreign policy, and Christmas as a propitious moment to make this announcement?

Is now the time for unilateral moves—now, while we are still building coalitions for a changed world in which old enemies can reduce their differences, at a minimum on the margins, and maybe even work together out of their own self-interest?

We are in a time of great risk. But there is also great opportunity. Despite the horrors visited upon us on September 11, the truth is we were attacked by the weakest of enemies. Al-Qaida is a group that no civilized state can tolerate. It was sheltered by a regime with almost no international legitimacy and little support, even in its

own land. Its goals and methods were so extreme as to be an object lesson to the world on why we must oppose all international terrorism. Many of its members and supporters, lacking in Afghanistan the popular support that in other wars have enabled guerillas to blend into the landscape, were left to fight an armed conflict in which our side could readily prevail, as we have done.

Meanwhile, the vast majority of countries, including some longtime adversaries, have lined up on our side. Their cooperation has been and will remain important in our war effort, in the war against terrorism. The war has also opened doors that have been shut for many years. Opportunities have expanded for cooperation on issues of mutual concern. As the President said yesterday at the Citadel:

All at once, a new threat to civilization is erasing old lines of rivalry and resentment between nations. Russia and America are building a new cooperative relationship.

We must seize the opportunity that this war has afforded us. Clausewitz long ago explained that triumph in war lies not so much in winning battles, but in following up on your victories. The same is true in the broader arena of international politics. We must follow up on the cooperation of the moment and turn it into a realignment of forces for decades to come—so that our grandchildren and great-grandchildren can look back on the 21st century and say that it did not replicate the carnage of the 20th century.

How many Presidents get that opportunity? How many times does a nation have that potential?

Withdrawal from the ABM Treaty will not make nonproliferation, which should be our highest priority and which combats our clearest danger, any easier to achieve. I find that especially worrisome.

A year ago we were on the verge of a deal with North Korea to end that country's long-range ballistic missile program and its sales of missiles and missile technology. Now we seem far away from such a deal, pursuing instead a missile defense that will be lucky to defend against a first-generation attack, let alone one with simple countermeasures, until the year 2010 or much later. What good will a missile defense in Alaska do, if North Korea threatens Japan or sells to countries that would attack our allies in Europe, or sells to terrorist groups that would put a nuclear weapon in the hull of a rusty tanker coming up the Delaware River or into New York Harbor or San Francisco Bay? How does withdrawal from the ABM Treaty help defend against those much more realistic, near-term threats?

What expenditures of money are we going to engage in? How are we going to deal with what Senator Baker, our Ambassador to Japan and former Re-

publican leader, said is the single most urgent unmet threat that America faces, made real by the knowledge that al-Qaida was trying to purchase a nuclear capability?

We must corral the fissile material and nuclear material in Russia as well as their chemical weapons. The Baker-Cutler report laid out clearly for us a specific program that would cost \$30 billion over the next 8 to 10 years, to shut down one department—the nuclear department—of the candy store that everyone is shopping in.

Senator LUGAR actually went to a facility with the Russian military that housed chemical weapons. He describes it as a clapboard building with windows and a padlock on the door, although its security has been improved with our help. He could fit three Howitzer shells in his briefcase. Those shells could do incredible damage to America.

How does withdrawal from the ABM Treaty defend against any of that? Which is more likely—an ICBM attack from a nation that does not now possess the capability, with a return address on it, knowing that certain annihilation would follow if one engaged in the attack; or the proliferation of weapons of mass destruction technology and weaponry, so it can be used surreptitiously?

If you walk away from a treaty with Russia, will that make Russia more inclined to stop its assistance to the Iranian missile program? Or will Russia be more attempted to continue that assistance? Russia has now stated, in a change from what they implied would happen after Crawford, that expansion of NATO, particularly to include the Baltic States, is not something they can likely tolerate—not that we should let that influence our decisions on NATO enlargement. Which do we gain more by—expanding NATO to the Baltic States, or scuttling the ABM Treaty with no immediate promises of gaining a real ability to protect against any of our genuine and immediate threats? If we end the ABM Treaty, will Russia stop nuclear deals of the sort that led us to sanction Russian institutions, or will it cozy up to Iran's illegal nuclear weapons program?

The President made nonproliferation the No. 2 priority yesterday and missile defense No. 3. I truly fear, however, that his impending actions on that third priority will torpedo his actions on his No. 2 priority. If that should occur, we and our allies will surely be the losers.

So far, the administration's conduct in the war on terrorism has shown discipline, perseverance, the ability to forge international consensus, and the flexibility to assume roles in the Middle East and in Afghanistan that the administration had hoped it could avoid. In this regard, the American people have been well served, and I compliment the President.

The war is only 3 months old, however, and the new patterns of cooperation and support are young and fragile. We should nourish them and build on them. This is not the time to throw brickbats in Geneva or to thumb our noses at treaties.

We read in Ecclesiastes: A time to tear down and a time to build up. In Afghanistan and elsewhere, we are rightfully and wonderfully tearing down the Taliban and al-Qaida. But if our victories are to be lasting and give lasting benefit, we must simultaneously build up the structures of international cooperation and nonproliferation. The opportunities afforded by a war will not last forever. Today the doors to international cooperation and American leadership are wide open. But if we slam them shut too often, we will lose our chance to restructure the world and we will be condemned to repeat the experience of the last century, rather than move beyond it.

I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. REID. Mr. President, I ask unanimous consent the order for the quorum call be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

AGRICULTURE, CONSERVATION, AND RURAL ENHANCEMENT ACT OF 2002—Continued

Mr. REID. Mr. President, we have been on this bill now—we started Monday with debate. We had good amendments offered yesterday, with full discussion. Today we have had a vote on Senator LUGAR's bill, which was in the form of an amendment.

I hope during the next few hours we can have other amendments offered. We are arriving at a point—staff has drawn up a unanimous consent request that I, at a later time, will propound to the Senate. That will be that there be a finite list of amendments so we know the universe from which we are working.

On our side, I say to my friend from Indiana, it appears we have just a few amendments, a very few. Maybe some of those won't even require a vote.

I have been told by various people on the minority side that they have some amendments to offer. I saw here, a minute ago, my friend from New Hampshire. He usually offers a sugar amendment. That is what he might be doing today.

In short, in the not too distant future I will seek approval by unanimous consent agreement to have a time for a finite list of amendments, and then, of course, after that we will ask that there be a cutoff period for the filing of

amendments. So I will just put everyone on alert that is what we are going to do. I hope we can move this legislation along.

The PRESIDING OFFICER. The Senator from Idaho.

Mr. CRAIG. Mr. President, I have listened to the Democratic assistant leader, the whip. I appreciate the sense of urgency of moving this legislation at this late hour.

We are dealing with a 5-year agricultural policy for our Nation. There is no question that it is critical and necessary that we deal with it. He and others have chosen to bring it before this body in the final hours of what should be a week toward recess or adjournment, awaiting the next session. I had hoped this would not be the case, but it is.

I would truly appreciate—and I think American agriculture would appreciate—a full debate. We have had that on the bill of the ranking member, Senator LUGAR—his alternative. It was important because it is a clear point of view that needs to be—must be—debated. We will have other alternatives up. I think the Cochran-Roberts alternative provision to the Harkin bill expresses clearly a balanced approach toward a 5-year agricultural policy.

The Senator from Nevada has within the Harkin bill a provision that, for western Senators and arid Western States, is an issue that is an anathema to western water law and the rights of States to determine the destiny of their own water. I and others will want to engage the Senator from Nevada on that issue. That could take some time.

I know of a good number of amendments that I think will be coming. The Senator from New Hampshire is now on the floor to offer an amendment in relation to the sugar program that is both within the Harkin provision and in the Cochran-Roberts provision. That, again, is another important issue for many of the Western States and many of the Southern States. My guess is it will deserve a reasonable and right amount of debate. In my State of Idaho, hundreds of farmers will be impacted, depending upon the success or failure of this amendment.

What I am trying to suggest to the Senator from Nevada is that even at a late hour and this rush to get things done, you don't craft 5-year policy in a day or in a few days. You do a year's policy, oftentimes, because we know we will come back to revisit it again and again every year.

We hope that when we are through here, our work product will be conferenced with the House and with the Secretary of Agriculture and this administration in a way that will establish a clear set of directions for production agriculture in this country. We know that production agriculture over the last good number of years has suffered mightily, under a situation of at

or below break-even costs for commodities, for all kinds of reasons.

The chairman of the Agriculture Committee is trying to remedy that in his bill. The ranking member has offered an alternative, and others will offer alternatives that have to be debated. I cannot, nor will I, support a rush to judgment.

Agriculture policy for my State is critical to the well-being of the No. 1 feature of Idaho's economy, and we cannot decide simply, on the eve of Christmas, in an effort to get things done quickly, that we debate something that does not expire until next September.

While I think we have adequate time this week to do so, and maybe next week, to address other issues—because it appears we will be here for some time—then we must do it thoroughly and appropriately. I hope the Senator will not push us to try to get us to a point of collapsing this into just a few more hours of debate. It is much too important to do so.

The PRESIDING OFFICER (Mr. AKAKA). The Senator from Nevada is recognized.

Mr. REID. I say briefly to my friend from Idaho, the Senator answered his own question—certainly mine. There is a lot to do on this bill. I acknowledge that. But we completed our last vote before 11 o'clock today. For the last hour, we have basically listened to people talking about the stimulus bill and the antiballistic missile treaty. The reason they have been talking about those things is there is nothing happening on the farm bill.

If we have these important issues—for example, everyone is familiar with the Cochran-Roberts legislation—let's get them here and get them voted on.

I am happy to see my friend from New Hampshire here. The distinguished Senator has always had a real issue with how sugar is handled. Good, he is here. Let's debate this and vote on it.

I hope, with other matters raised by the Senator from Idaho, people will come forward and do that, that we not have a slow walking of these amendments. We are not trying to rush anyone into anything. But we are saying when there is downtime here when people are not doing anything relating to the farm bill, it is not helping the cause. That is why I think no matter how many amendments there are, there should be a time for filing those amendments.

We are arriving at a point where I am going to ask consent to have a finite list of amendments, and we are going to see if they will agree to have a cut-off time for filing amendments. If that is not the case, then other action will have to be taken.

This legislation is important to America. We are doing everything we can to move it as expeditiously as possible. It is unfortunate that we are

working under time constraints. That is how it works in the Senate. We are always busy. There is always something coming up, this holiday or that holiday. The fact is, the farming community of America is more concerned about getting this legislation done than when we go home.

The PRESIDING OFFICER. The Senator from New Hampshire is recognized.

Mr. GREGG. Mr. President, I come to the floor to offer an amendment on behalf of myself, Senator LUGAR, and Senator MCCAIN, cosponsors of the amendment. This amendment deals with what has been a fairly well-debated and discussed issue in our farm policy; that is, how we price sugar in this country. The sugar program in this country has been, in my humble opinion, a fiasco and an atrocity with the inordinate and inappropriate burden on American consumers for years.

I call up my amendment.

AMENDMENT NO. 2466 TO AMENDMENT NO. 2471

The PRESIDING OFFICER. The clerk will report.

The bill clerk read as follows:

The Senator from New Hampshire [Mr. GREGG], for himself, Mr. MCCAIN, and Mr. LUGAR, proposes an amendment numbered 2466 to amendment No. 2471.

Mr. GREGG. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To phase out the sugar program and use any resulting savings to improve nutrition assistance)

Beginning on page 54, strike line 1 and all that follows through page 87, line 8, and insert the following:

CHAPTER 2—SUGAR

Subchapter A—Sugar Program

SEC. 141. SUGAR PROGRAM.

(a) IN GENERAL.—Section 156 of the Federal Agriculture Improvement and Reform Act of 1996 (7 U.S.C. 7272) is amended—

(1) in subsection (e), by striking paragraph (1) and inserting the following:

“(1) LOANS.—The Secretary shall carry out this section through the use of recourse loans.”;

(2) in subsection (f), by striking “2003” each place it appears and inserting “2006”;

(3) by redesignating subsection (i) as subsection (j);

(4) by inserting after subsection (h) the following:

“(i) PHASED REDUCTION OF LOAN RATE.—For each of the 2003, 2004, and 2005 crops of sugar beets and sugarcane, the Secretary shall lower the loan rate for each succeeding crop in a manner that progressively and uniformly lowers the loan rate for sugar beets and sugarcane to \$0 for the 2006 crop.”; and

(5) in subsection (j) (as redesignated), by striking “2002” and inserting “2005”.

(b) PROSPECTIVE REPEAL.—Effective beginning with the 2006 crop of sugar beets and sugarcane, section 156 of the Federal Agriculture Improvement and Reform Act of 1996 (7 U.S.C. 7272) is repealed.

SEC. 142. MARKETING ALLOTMENTS.

Part VII of subtitle B of title III of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1359aa et seq.) is repealed.

SEC. 143. CONFORMING AMENDMENTS.

(a) PRICE SUPPORT FOR NONBASIC AGRICULTURAL COMMODITIES.—Section 201(a) of the Agricultural Act of 1949 (7 U.S.C. 1446(a)) is amended by striking “milk, sugar beets, and sugarcane” and inserting “, and milk”.

(b) POWERS OF COMMODITY CREDIT CORPORATION.—Section 5(a) of the Commodity Credit Corporation Charter Act (15 U.S.C. 714c(a)) is amended by inserting “(other than sugar beets and sugarcane)” after “agricultural commodities”.

SEC. 144. CROPS.

Except as otherwise provided in this subchapter, this subchapter and the amendments made by this subchapter shall apply beginning with the 2003 crop of sugar beets and sugarcane.

Subchapter B—Food Stamp Program**SEC. 147. MAXIMUM EXCESS SHELTER EXPENSE DEDUCTION.**

(a) FISCAL YEARS 2002 THROUGH 2004.—

(1) IN GENERAL.—Section 5(e)(7)(B) of the Food Stamp Act of 1977 (7 U.S.C. 2014(e)(7)(B)) is amended—

(A) in clause (v), by striking “and” at the end; and

(B) by striking clause (vi) and inserting the following:

“(vi) for fiscal year 2002, \$354, \$566, \$477, \$416, and \$279 per month, respectively;

“(vii) for fiscal year 2003, \$390, \$602, \$513, \$452, and \$315 per month, respectively; and

“(viii) for fiscal year 2004, \$425, \$637, \$548, \$487, and \$350 per month, respectively.”.

(2) EFFECTIVE DATE.—The amendments made by this subsection take effect on the date of enactment of this Act.

(b) FISCAL YEAR 2005 AND THEREAFTER.—

(1) IN GENERAL.—Section 5(e)(7) of the Food Stamp Act of 1977 (7 U.S.C. 2014(e)(7)) is amended by striking subparagraph (B).

(2) EFFECTIVE DATE.—The amendment made by this subsection takes effect on October 1, 2004.

Mr. REID. Mr. President, if the Senator will yield for a question, again, I am not trying to hurry the Senator. Does the Senator have any idea how long his statement will take?

Mr. GREGG. My statement won't take more than about 15 or 20 minutes. I understand Senator MCCAIN will speak and Senator LUGAR may wish to speak. I don't know how long anyone else will want to take. I am going to ask for the yeas and nays as soon as our dialog is over.

Mr. President, I ask for the yeas and nays on my amendment.

The PRESIDING OFFICER. Is there a sufficient second?

There is a sufficient second.

The yeas and nays were ordered.

Mr. REID. Mr. President, there are only meetings going on from 1 until 2 o'clock. If we could vote at quarter to 1, that would be fine.

Mr. GREGG. I can't really at this time agree to a timeframe because of the fact that I am not sure who wants to speak in opposition. I want to give them adequate time. I don't mind going to a vote as soon as we can.

Mr. President, the sugar program as constituted and as it has evolved over the years has regrettably become a raid on the pocketbooks of the American consumer to benefit a small number of sugar producers in this Nation.

The price of sugar in the United States is approximately 2 to 2½ times what the price of sugar is on the world market. The burden of that inflated price is borne by the consumers. In fact, the cost to the consumers is approximately \$1.4 billion to \$1.8 billion a year depending on whose estimate you use. That inflated price is a function of the fact that we have set up a system of nonrecourse loans, a very arcane system which essentially guarantees to the producer of sugar in this country 18 cents for its cane sugar and 22.99 cents for sugar beet sugar. In comparison with the fact that if they were to grow and try to sell that type of sugar in the open markets, the amount they would actually get would be somewhere in the vicinity of 9 cents. The effect is that the U.S. consumer is paying the difference between 9 cents, which is what the world price is, and 22 cents for sugar.

If the market were appropriately adjusted to reflect world price, you would probably end up with a sugar price in the United States of around 12 cents, or approximately 55 percent of what the present price is in the United States.

The effect of this is that all products that use sugar have an inflated cost. It costs a lot more than it should.

Who bears that cost? The American consumer bears that cost. Who is the American consumer?

We hear all of this debate about small family farms and how we are trying to protect small family farms. That is a worthy cause, indeed. But the American consumer is also under a lot of economic pressure. The American consumer—especially if you are living on a fixed income, if you are a senior citizen living off your Social Security check, if you are a welfare mother living off payments from the Government, if you are in a family with a mother and a father working two jobs trying to make ends meet, trying to send children to school, and trying to make sure they have a good lifestyle for their family—is under a lot of economic pressure, too.

But it turns out that in order to benefit a very small number of growers—believe me, it is an incredibly small number of growers—we require all of these Americans to pay a lot more for the food they eat than they should have to pay if we had a market economy for sugar.

Forty-two percent of the benefit of the subsidy for sugar goes to 1 percent of the growers. There are some extraordinarily wealthy families and businesses in this country who are essentially putting their hands not in the cookie jar but in the pockets of the American citizenry and taking money out of that pocket so that they can have this ridiculous subsidy on sugar that is so unrelated to what it costs, No. 1, to produce it, and No. 2, what the world price is.

The sugar producer industry has told us for years: Well, this program doesn't cost a thing. It doesn't cost the American taxpayer anything because there was no tax payment to support the sugar program. That was true for many years. In fact, there was an assessment fee they paid into the Treasury. It was sort of what I call a purchase fee. They got to buy, with one dollar, five dollars. It was a great deal to them. They paid \$1 into the Treasury but they got \$5 back from the consumer.

This is one of the great sweetheart deals in American political history. They could charge the sugar producers their assessment fee and pay into the Treasury \$260 million, which I think they paid in on the average—something like that. What they failed to mention was that for that little assessment fee they got \$1.5 billion of subsidy.

That is a pretty good deal. There are not too many deals in this country even in our capitalist system where you get a guaranteed return of \$1.5 billion when you pay in \$260 million. There are not that many good deals like that out there anymore. I don't think there ever was. But there are for the sugar producers. That is history. That situation no longer exists.

Today, they are not paying in any more as a net issue. They are actually now getting paid tax dollars on top of this subsidy they get—tax dollars which amounted to about \$465 million because the Government, under the nonrecourse loan process, had to go out and buy the sugar. Not only do we have to buy the sugar, but we have to store the sugar. We are getting back to that time of the 1970s and 1980s when President Reagan came in and found warehouses full of butter. There were people in this country who needed butter. Reagan was smart enough to ask why we were storing all of this butter and to get rid of it. They gave it to people who needed it.

We are starting to do that with sugar again, just like we did with butter. We are starting to store sugar. Now we have one million tons of sugar. It is projected we are going to have 12 million tons of sugar in the next 10 years. It is going to cost us \$1.4 billion in tax dollars.

This isn't the subsidy that consumers pay. We are going to first hit people with a subsidy. They are going to have to pay more for sugar than they should have to pay. Then we are going to hit them with a tax to produce the sugar for which they are already paying too much—\$1.4 billion it is projected. We are going to have 12 million tons of sugar.

I do not know where we are going to put it. Maybe we are going to fill up the Grand Canyon. When you float the Grand Canyon, you will get all the sugar you ever wanted. We will have to find a place to put it. I am sure somebody will come up with a creative idea

of where we are going to put it. Storing it will cost a huge amount of money. I have forgotten, but I think it is maybe \$1 million. But there is an estimate for that, too. You have to figure we have to pay to store the sugar.

So we are going to have all this sugar we do not need. We are going to pay all these taxes we should not have to pay to buy this sugar we do not need. And then we are going to have this program which continues to produce sugar we do not need at a price which has no relationship to what the open market charges for sugar.

Just to reflect on that for a moment, I have a chart which shows the difference between the world market and the American price on sugar.

Some people will say: Oh, but this world market is a subsidized market. In some places it is. I acknowledge that. In some places it is a subsidized market. But not universally and not for a majority of the sugar producers in the world. In fact, if we were to open American markets to competition, you could be absolutely sure we could structure it in a way that the sugar that came into the country in a competitive way was not subsidized. So we would not have that problem. So as a practical matter, we can get around that issue, and it is not a legitimate issue.

So where are we? Basically, where we have been for many years. In the mid 1980s, the Congress had the good sense to say: Listen, this program makes very little sense. There are a lot of people making a lot of money at the expense of the consumers, and there is no market forces at work here at all. And there is no reason why we should continue a program that has all these detrimental effects.

There is another detrimental effect I need to mention, as long as we are at it, that is not a monetary one. It is an environmental one. We know that because we have so grossly overpriced the sugar production that there has been more of an impetus to create more sugar cane capability, especially in Florida. The effect of that, on especially the Everglades, has been devastating—so devastating, in fact, that last year, under the leadership of Senator SMITH from New Hampshire, we had to pass a new bill to correct the problems in the Everglades, which is another bill that is going to cost us a huge amount of money in order to correct the problem that was created by the subsidized sugar prices and the overproduction of sugar.

We know as we clear these fields for sugar cane production, especially in Florida—although there is now in place a system to try to get some logic to that process—we know that has a huge detrimental impact on the environment of that area because most of these areas are marginal wetlands and also critical wetlands and especially recharge areas for the Everglades.

So on top of all the other problems the program has, it has had this unintended consequence of creating a significantly environmentally damaging event, at least in Florida.

So where does that leave us? As I was mentioning, in the mid-1980s, we had the good sense, as a Congress, to say: Hey, listen. This makes no sense. This program makes no sense. Why should we be paying twice the price of sugar on the open market? Why should we be paying taxes to buy sugar we do not need? And why should we be sending the majority of this money to a small number of producers when the vast majority of Americans are affected?

So we actually had a few years without a sugar program. There will be an argument made, I suspect, that is what caused the price of sugar to fluctuate. Yes, it did. That was the idea, that you would start to see market activity in the sugar commodity. Unfortunately, we did not participate in this experiment long enough to find out whether we could bring market forces to bear. But we were clearly moving in that direction.

The argument that that fluctuation in price, which was the precursor of having a market event, is one reason you do not want to have sugar production subsidized or one reason you have to have sugar production subsidized is as if to say because Ford Motor Company cuts the price of its car and comes out with zero financing, we should suddenly subsidize Ford Motor Company because the market is clearly having an effect on their price.

This program is obviously important to a number of States that have producers. But you cannot justify it in its present structure. It needs to be reorganized.

So what my amendment does is to eliminate the nonrecourse loan event. It makes the loans recourse and takes the savings and moves them over to the Food Stamp Program so that people who are on food stamps and who need to buy food commodities which are suffering from an inflated price because of the sugar industry will have more money available to them to do that.

Remember, sugar goes beyond candy, by the way. Some people think it is always candy. Sugar is in just about any product you buy that is a processed product. It has sugar in it. So if you are on food stamps, and you are trying to buy some pasta or you are trying to buy a meat sauce or you are trying to buy some sort of hamburger assistance that gives it a little flare, all of those products, which are important to the nutrition of a person on food stamps, are having an inflated price because they have sugar in them.

This amendment says, let's take the savings which will be regenerated here and move it into the Food Stamp Program. It is a very reasonable amend-

ment. I am sure it is going to pass this year, even though it may not have passed in the last 7 years that I have offered it.

I reserve the remainder of my time.

Actually, I do not have any time left, so I yield the floor.

The PRESIDING OFFICER. The Senator from New Hampshire yields the floor.

Who seeks recognition?

The Senator from Idaho.

Mr. CRAIG. Mr. President, let me use some time now. I know other colleagues want to speak to this issue of the Gregg amendment. I will speak for a time on it because there are some important issues to be discussed.

The Senator from New Hampshire has, once again, portrayed the sugar program that has been a part of agricultural policy in this country for a good number of years as somehow evil and unjust, going to a small select group of people.

For the hundreds of farmers in Idaho who, for the last 2 years, have lost a lot of money raising sugar beets—and under the new provisions within the Harkin bill or the Cochran-Roberts substitute would make no more money—I find the arguments of the Senator from New Hampshire interesting and unique—interesting because he said he would eliminate the recourse loan program and transfer the money to the Food Stamp Program.

It is pretty difficult to transfer money that does not exist, No. 1, because under the no-net-cost approach that is provided within both versions that we are debating today, there is no authorized money specific to this program.

As we know, over the last good number of years, because of the buyout of the market store and resell into the market concept, actually the Department and the Secretary of Agriculture were making money. There has been this brief period of time when recourse loans were purchased back, but from 1991 to 1999 about \$279 million was actually made for the U.S. Treasury, all from the program. About 1.5 percent of the commodity program expenditure actually got caught up in recourse loans over the last year. But, again, that is that pool of money out there used for these purposes, with no specificity directed to the sugar program itself.

As the Senator has mentioned, the sugar program, as we call it, has—and his graph showed it—brought relative stability to the sugar market in this country. I say relative stability because during that period of time that he was talking about, in which there was not a program, there was a substantial runup and decline in price.

Not only were there dramatic peaks and valleys, not only did the consuming public feel it, but the large wholesale consumers were, when it was

at its peak, very concerned. It shoved the cost of their commodities—candy bars or soft drinks, other uses of sugar—up. But when that price then declined, of course, they didn't reduce the price of their product because they had already established a price in the market.

I find it most fascinating because there is the general assumption on the part of the Senator from New Hampshire that, if his amendment were to pass, the consumer would benefit, and there is absolutely no evidence in fact that that would happen. In fact, there is argument quite to the contrary.

Over the last couple of years we have seen a dramatic decline in sugar prices in this country, even with the current program. Nowhere have we seen any one retail product on the consumer market shelf decline as a result of the reduction in sugar. Where does it go? My guess is it goes into the profitable bottom line of that commercial producer out there. I don't argue that. It is the reality of what we are dealing with.

I don't think the amendment the Senator is offering brings down the price one penny on a candy bar, one penny on a bottle of pop, or any other commodity in the marketplace, from boxed cereal to any other product that has sugar added to it to enhance flavor and to characterize the product to see it come down. That is simply a false argument. The reason I use the word "false" is because the evidence that it would be quite to the contrary. The evidence is that it would not because clearly we have seen that kind of price not happen in the last several years.

The U.S. producer price for sugar has been running at 20-year lows for almost 2 years, down more than a fourth since 1996. That is under the current program. That is why this past year we have seen some forfeiture of sugar, and that is why the Department of Agriculture now owns some sugar.

The bill that is before us, the new policy that will become agricultural policy, changes that and moves us clearly back to a no-net cost to the consumer.

Grocers and manufacturers are not passing through these lower prices, as I have mentioned, whatever the product. While we have seen this drop in price almost to a historic low, the harm has not been to the consumer because they have not felt it, or, the positive side, it has been to the farm family who has been the producer of the product and has had to offer the flexibility that they must in a production scenario to offset those kinds of costs.

There are a good many other issues out there. I see several of my colleagues in the Chamber to debate this issue. I will deal with other portions of it as we come along.

The United States is required to import, under current law, nearly 1.5 mil-

lion tons of sugar or about 15 percent of its consumption. We already buy sugar off the world market. Each year, whether the U.S. market requires that sugar or not, that is the agreement. That is what the program offers.

In addition, unneeded sugar has entered the U.S. market outside of the sugar import quota through the creation of products from import quota circumvention. We, for the last several years, have had the frustration of what we call stuffed product, product that is intentionally enhanced with sugar, brought into this market reprocessed. The sugar is pulled out of the product—in this case molasses—to get around these kinds of limitations in the marketplace and limitations to the market itself. Why? Obviously, sugar is a commodity that moves. And we have now had court tests against that saying, yes, those are violations.

We also have an agreement with Mexico under the North American Free Trade Agreement that brings sugar into this market. So to suggest that we are immune to a world market is not all of the story. The story is that 15 percent of the sugar that is in the U.S. market is world market sugar.

When the Senator from New Hampshire quotes the world market price, he is quoting the open price. He is not quoting the price of Western Europe. He is not quoting the price anywhere else in the world. All prices differ based on supply, demand, and access to markets.

What we have tried to do over the years with the sugar program is create stability, stability to the consumer and to the producer. Historically, we have been very successful in doing just that.

We have done it in large part at no cost to the American taxpayer and, in fact, at less cost to the American consumer. The dramatic runups in sugar prices that had to be passed immediately through to the consumer simply have not existed.

There are a good number of other arguments I know my colleagues want to make on this issue. It is an important part of an overall agricultural policy for this country. It is an important part of an overall farming scenario for my State and for many other States in the Nation. It creates stability in the farm communities of my State. It has historically been a profitable commodity to raise in Idaho. It is no longer today.

I hope the programs we are debating that are within the Harkin bill and that are within the Roberts-Cochran substitute will bring stability back to the sugar beet producer in the Western States and in the Dakotas and Michigan, and certainly to the cane producer in the South.

I yield the floor. When the appropriate time comes, as the Senator from New Hampshire has already requested the yeas and nays on his amendment, I

will ask my colleagues to stand in opposition to it.

The PRESIDING OFFICER. The Senator from Wyoming, Mr. THOMAS.

Mr. THOMAS. Mr. President, I appreciate the comments of my friend from Idaho. It is an interesting issue. It affects much of the country, all the way from Wyoming to Hawaii cane sugar, Louisiana, down to Florida, back through our part of the world. We are talking about an industry that provides nearly 400,000 jobs.

It has been said that this is a small, minute industry. It is not. In fact, in my State it is one of the few agricultural crops which are refined, ready for the market, ready for the shelf when they leave our State. So we have factories there that provide employment, of course. In many rural communities, sugar is a very important economic issue, not only to farmers but also to processors. Economically, it generates \$26 million annually.

The debate over sugar takes place nearly every year, and the same arguments come up year after year. The fact is, there is a solid reason to have an industry of this kind, and I hope it will continue in the future. By world standards, U.S. producers are highly efficient—eighteenth lowest in the cost of production out of 96 producing countries and regions—despite, of course, having the highest labor and environmental standards. Some of the lowest cost is produced in the West. So we are interested and involved in that.

As was pointed out, often there is talk about the world market. The fact is, the world market is a dump market. It is what remains after the other countries use all they can and put it on the market. It is not an economic cost. To compare that is simply not true. The current prices in all world export markets are dumped.

Of course, as was mentioned, one of the things we have just gone through in terms of Canada is the unfair situation called stuffed molasses, where it is against the trade arrangements to bring in sugar. So they mix sugar and molasses, bring it across the line, take it back out of the molasses and market it as sugar. Fortunately, we were able to get a court decision on that. Hopefully that gimmick is closed. We will continue to work on it, of course.

The fact is that consumers do benefit. The retail price of sugar is virtually unchanged since 1990. Our prices are 20 percent below developed market prices. And interestingly enough, as is the case with lots of agriculture, the product price to the producer is quite different than to the consumer. I think it points it out here. The producer price, since 1996, is down 23 percent. At the same time, the consumer price is up 6 percent. So the idea that this program is a handicap to consumers is simply not accurate.

As I said, the price for sugar to the producer has fallen 23 percent, but grocery stores have not lowered their price. Cereal is up 6 percent. Cookies and cake are up 10 percent. Ice cream—my favorite thing—up 21 percent. So we have a program that affects many people, which has been good for consumers in this country. We have a program that has generated a good deal of money and since 1990 in market assessment tax. We have lots of good things in this program, and we need to continue to make sure it is there for consumers and it is there for producers.

I want to mention a couple of other items. As an industry, the U.S. retail price is 20 percent below the average of developed countries. It is third from the lowest in the world in the retail price of sugar. That is interesting, and it is good for consumers. Certainly, in terms of the work required to buy a pound of sugar, the United States is third from the bottom, only above Switzerland and Singapore. So in terms of our economy, sugar is a bargain for the consumer. As I mentioned, these prices have gone up.

So we have a program that has worked, a program that is very important to consumers, to producers and processors, and it will be changed some. We are going to have more within the industry an effort to control production so we don't have excessive production. That is going to be done. Not only have we had a good program, we are in the process of having an even stronger program. I will resist the amendment on the floor and urge my fellow Senators to do the same.

I yield the floor.

The PRESIDING OFFICER. The Senator from Louisiana is recognized.

Mr. BREAUX. Mr. President, I rise in opposition to the amendment related to the sugar program. That has become sort of a biannual exercise, where we must come to the floor and defend a program that has really worked in favor of not only the American producer but also the consumer of sugar products.

I don't know how many Members of Congress, the mail situation being what it is, have had a lot of people writing and telling us: You have to do something about this terrible sugar program because the price of sugar is so high that I can't afford to buy sugar to sweeten my tea or to use on the food in my home.

The fact is that the program has worked very well for both the producer of the product and also for the consumers of the products. It is a program that has a great deal of history. Since about 1985, the sugar program has had a loan much as the other commodities have had. The loan has been about 18 cents a pound for cane sugar producers. That has been the loan level for a number of years—for about 15 years now. It has allowed the American sugar producer to survive.

Very simply, the program works. If the market that exists for sugar is above the loan level, our producers are able to sell it for whatever they can get above the 18 cents level. If the price falls below the 18 cents level for sugarcane, then the Government will provide, in the form of a loan, that amount per pound to the American sugar producer. That allows them to stay in business.

The good news is, unlike some of the other commodities, our Government can help guarantee there will be a minimum price, trying to control the imports that come into this country. Some would argue that we should have free trade and they should be able to sell into this country anything they want anytime they want. The reality of the situation is that most countries—over 100—some countries in the world that try to sell sugar in this country—take care of their own domestic needs, and then they dump the rest into the U.S. market for any price they want. They don't care whether they get 18 cents, or 5 cents, or 8 cents for it; they just want to get rid of it. They attempt to dump whatever they don't need into the U.S. market, which, obviously, if we didn't have a program, would be allowed to destroy the industry in this country completely.

So the farm bill—it is a good package, and I thank the folks who have worked in committee to put it together—will continue that type of program, at no cost to the American taxpayer, which I think is unique in itself as far as this commodity is concerned. It is a good program, and it has worked.

This is really interesting, and I will use one chart. When people look at whether the price of sugar is going up—well, the price to the people who produce it is going down. Since 1996—these are producer prices, the people out in the field. Since 1996, the producer wholesale price level for sugar has gone down 23.4 percent. That is since 1996. So when people argue that somehow producers are getting rich off the program, the reality is that the price, according to the U.S. Department of Agriculture, has gone down 23.4 percent over the last 5 years for the people who actually produce the product.

If anybody has a complaint about the price of sugar—and what I mentioned in my opening comments is that we don't have people marching on Washington, or making phone calls, or writing letters saying the price of sugar is too expensive. Nobody is complaining about it. If you look at the facts, the products that have increased in price and some of the products you should go after are the candy industry, cereal, cookies and cakes, bakery products, and ice cream. Those products have gone up substantially higher over these years than the wholesale refined sugar

price. Retail sugar increased only 5.8 percent; that is all. So the housewife, or the person buying groceries for the family, has not noticed an inordinate increase in the price of sugar at all. It is in keeping with the cost of other inflationary price increases we have seen, or even more than the regular increases.

But there have been increases in products that use sugar. If there is a complaint, we ought to look at them. The wholesale price at which they buy the sugar has gone down 23 percent, but their price at the retail level has increased by as much as 21.4 percent in the case of ice cream and 14 percent in bakery products.

We have a program that has worked well. We have a loan program that sets a price that has been 18 cents since about 1985. It is a good program, and it operates at no cost to the taxpayer. It keeps beet farmers and sugarcane farmers in business. In Louisiana, all of our cane farmers are small family farmers; they are not large. They work hard every day. The only thing they need is a little bit of assistance that we provide in this program, at no cost to the taxpayer.

To change something that has worked would be the wrong policy. I strongly urge that we defeat the Gregg amendment to this important piece of legislation.

I yield the floor.

The PRESIDING OFFICER. The Senator from North Dakota, Mr. Conrad, is recognized.

Mr. CONRAD. Mr. President, I thank my colleague from Louisiana for his remarks because he is right on target with respect to this amendment.

This amendment of the Senator from New Hampshire is a mistake. When the Senator from New Hampshire gets up and tells our colleagues that the world price for sugar is just over 9 cents a pound, it is not true.

That is not what the world price of sugar is. If one thinks about it for a moment, it could not possibly be because the cost of producing sugar is over 16 cents a pound. In fact, it is about 16.3 cents a pound. So how could it possibly be that the world price for the commodity is just over half of what it costs to produce? It cannot be, or the entire sugar industry worldwide would be bankrupt. This is very clear.

I do not think there is anybody who really knows the sugar industry who does not understand that the cost of producing sugar is between 16 and 18 cents a pound. That is what it costs to produce. So anybody who tells you that the world price is a fraction of what it cost to produce is firing with blanks.

The hard reality is, that is not the world price of sugar. That is a dump price for sugar. I guess it is easy to understand how these misassumptions occur because people are not familiar with the industry. The fact is, the vast

majority of sugar in the world moves under long-term contracts. When they go to this so-called world price, they do not have what is the true price of sugar. What they have is what sugar is dumped for outside long-term contracts. It is a fraction of the sugar that is sold in the world.

If you want to do a reality test, what I am saying has to be true because if it was not, the entire industry would have gone bankrupt long ago because they would be getting a price for their product that is a fraction of what it cost to produce.

I respect the Senator from New Hampshire. I like him. I serve with him on the Budget Committee. He is one of our most able members. But when he talks about the world sugar market, he just has it wrong. When he says the price of world sugar is less than 10 cents a pound, that is not accurate. That is a dump price. That is the sugar that sells outside of long-term contracts.

The occupant of the chair, the Senator from Hawaii, is deeply knowledgeable on this matter. The Senator from Hawaii has helped lead this debate many years in this Chamber. He understands the industry, and he knows that the vast majority of sugar in the world sells under a long-term contract.

That is what I think is misleading the Senator from New Hampshire. Those long-term contracts are not part of this calculation on the so-called world price because, in fact, it is not a world price; it is a dump price. It is for sugar that sells outside of long-term contracts, that those who have produced more than they sell under long-term contracts go out and dump.

I want to go to the next point that I think is very important for people to understand. That is the developed countries' retail sugar prices. The United States is 20 percent below the average. This chart shows what retail sugar prices are in developed countries: Norway, 86 cents a pound; Japan, 84 cents a pound; Finland, 83 cents a pound; Belgium, 75 cents a pound; Denmark, 75 cents a pound, and on it goes. I am part Swedish, 62 cents. I am part Danish. Sugar is 75 cents there. Norway—I am part Norwegian, too—is 86 cents. They are paying a lot more in those countries for the retail price of sugar than we are paying.

I am part German, too. Germans are paying 45 cents per pound. Where is the United States? We are third from the bottom.

When our colleague from New Hampshire runs out here and says to everybody that the consumers are getting gouged, it is not true. It just does not stand up to any analysis. The fact is, we are third from the bottom in the developed world on what we pay for sugar.

I can understand how confusing the economics of this industry are to those

who are not familiar with the industry and not familiar with agriculture, but the reality is very simple: What farmers are getting has been going down and going down substantially over the last several years. We are on the brink of a massive failure of sugar producers all across this country because of the collapse in the prices they are being paid for their product.

The Senator from Louisiana showed the prices that sugar producers are receiving is down 24 percent. That is the reality. The other reality is that consumers in this country are getting on a relative basis, on a comparative basis, looking at what consumers pay in other developed countries, a very good deal. The truth is, it is a very competitively priced product in this country and right around the world.

Finally, the point I think is so important to me and so important to understand is when the Senator from New Hampshire says the world price of sugar is under 10 cents a pound and farmers are getting paid 18 cents or 22 cents and there is this huge profit, he does not have it right.

The world price of sugar is not 9.5 cents a pound. That is the dump price. That is what a small minority of the sugar produced in the world sells for, that sugar which is outside of long-term contracts. That is where the vast majority of sugar sells, and the vast majority of sugar sells for about 20 cents a pound. That is the reality, that is the fact, and we should not be misled or misguided as to the economics of this industry.

It would be a disaster for thousands of families who produce sugar all across this country if the Senator from New Hampshire were to prevail. You cannot be an island unto yourself. The fact is, the sugar industry is supported in virtually every country within which it is produced—in fact, every country. Not virtually every, not almost every, but every single country. That is what we are up against.

Either we can fight back and give our people a fair fighting chance or we can roll over and play dead and wave the white flag of surrender—give up, give in, and let these people go broke and be poorer for it as a nation.

I hope the Senate will respond, as we have, so many times in the past in recognizing that this industry is important to the strength of rural America, just as the rest of agriculture is critically important to the strength of rural America.

I thank the Chair and yield the floor.

The PRESIDING OFFICER. The Senator from Montana, Mr. BAUCUS, is recognized.

Mr. BAUCUS. Mr. President, I thank my good friends from North Dakota, Louisiana, and others who are speaking against this amendment and explaining the facts. Once the facts are known, I believe Senators will know this amendment is not a good idea.

We want a strong agriculture policy in America, and we want a level playing field. We know that much too often other countries tend to favor their producers, their industries, their companies at the expense of the United States, at least more so than we Americans do.

Every other country has a more, if I can use the term, socialistic policy; that is, tends more toward Government intervention in helping the producers and companies and their industries, than does the United States. Frankly, it is the view of the United States that we be a more free market, more independent, and let producers and companies pursue their own agenda. At least on a comparative basis that has made us stronger than other countries. It is a major strength of America. Having said that, we clearly don't want to make matters worse.

In the meantime, even though other countries do subsidize their producers or their companies or industries more than we do, we, through our ingenuity—this is a general statement; there are exceptions—are able to fight back with greater ingenuity, creativity, good old American can-do, common sense, and find a way to get the job done. We don't moan and complain but fight and get the job done.

This amendment moves us in the opposite direction. It says although the playing field is not level, although it is tilted today against the United States with respect to sugar, we will tilt it even more against American sugar producers. That is what this amendment does.

As other Senators have ably demonstrated, the facts show that compared to other countries the United States ranks, for Government support for sugar, third from the bottom. Other countries protect their sugar industry much more than the United States. Sugar prices in the United States are lower, significantly, to the consumer.

I am having a hard time understanding why this amendment is on the floor. Why would we as Americans want to hurt ourselves? It is unfathomable. I cannot come up with a reason—unless it sounds good on the surface because we have a quota system in the United States that provides stability to American producers. If that system in the United States were eliminated, or if the amendment pending of the Senator from New Hampshire were adopted, not only do producers already suffering suffer more—prices are down 23 percent—but local communities suffer: the shops, businesses, and gas stations. It is not just those who work in factories and the fields producing the cane or the beets.

Sugar is a valuable commodity in my state of Montana. More than \$188 million in economic activity is generated in Montana each year by the sugar and sweetener industries and creates close to 3,300 jobs in my state.

The production of sugar in the United States is a large and competitive operation. Throughout the Nation, the sugar industry generates 373,000 jobs in 42 States and creates \$21.2 billion in economic activity.

Our American sugar producers are among the most efficient in the world. The United States ranked 28 out of 102 sugar-producing countries for the lowest cost in overall sugar production. And the United States is the world's fourth largest sugar producer, trailing only Brazil, India, and China.

But despite these positive statistics, our sugar producers are hurting. Producer prices for sugar have fallen sharply since 1996. Wholesale refined beet sugar prices are down 23 percent. Prices for sugar have been running at a 20-year low for most of the past two years. This has caused a deep hardship for American sugarbeet and sugar cane farmers. Many have gone out of business and many more are on the brink of economic ruin.

We have seen 17 permanent sugar mill closures in the nation since 1996. These closings are devastating to entire communities. Devastating to our producers, mill employees, transportation, restaurants, small businesses, and the list goes on. Some producers are trying to buy mills that are on the brink of bankruptcy in order to protect further communities from these losses.

For example, the Rocky Mountain Sugar Growers Cooperative is in the process of purchasing several mills in the Montana, Colorado and Wyoming areas. These producers, and the cities that depend upon them, need a sugar policy that they can depend upon so that they can once again flourish.

We need a strong sugar policy. American sugar farmers are efficient by world standards, and are willing and prepared to compete on a level playing field against foreign sugar farmers, but they cannot compete against foreign governments. We must give them the level playing field they need.

I strongly urge this amendment be defeated. It does not make sense. Once the Senators know the facts, Senators will realize this amendment should not be adopted.

The PRESIDING OFFICER. The Senator from Louisiana is recognized.

Ms. LANDRIEU. Mr. President, I join my colleagues, who have spoken so eloquently and forcefully on this subject, in urging the Senate to defeat the Gregg amendment.

Mr. President, Louisiana is a sugar State. There are 18 sugar mills and two sugar refineries in Louisiana and we have more acreage devoted to sugarcane than any other State. Many of our parishes rely on the sugar industry for their economic vitality. It is an important industry that is hundreds of years old in the State of Louisiana and throughout many parts of our Nation. Nationwide, the sugar industry di-

rectly and indirectly affects 37,200 jobs in 42 States. It is a \$21 billion industry.

At this time in our Nation's history, with a recession underway, and with our efforts to try to build ourselves out of this recession, we want to do things in Congress that help, not hurt. The Gregg amendment is taking us in the wrong direction. We need to be creating jobs, not eliminating them. The sugar industry means thousands of jobs to Louisiana.

Are consumers harmed by our national sugar policy? Absolutely not. Sugar prices have been relatively stable because of this sugar mechanism in the farm bill. There are different provisions in this farm bill, but the sugar provision is unique in that it is a provision that can actually return money to the Federal Treasury. It is a self-help mechanism. From 1991 to 1999, this policy was a net revenue raiser of \$279 million. Sugar loans last year amounted to only a little over one percent of federal commodity expenditures, and this negligible cost will be defrayed as that sugar is gradually sold back into the market. In addition, between 1997 and 2001, the government rightly spent \$90 billion to save rural America from other commodity forfeitures. None of that money went to sugar producers.

Because the sugar industry does not enjoy the same types of price supports as other commodities, we have developed over many years in Congress a program that both maintains low retail prices and provides support to an industry that must compete with heavily subsidized foreign sugar programs. The Senator from New Hampshire's Amendment would replace production by efficient, unsubsidized American sugar farmers with sugar from less efficient, heavily subsidized producers from Brazil and Europe.

I believe the American sugar program is one worth supporting. It has been carefully crafted, and helps retain jobs in Louisiana and around the Nation. It is something we need to continue to support, not one to move away from.

Let me also add, I am particularly pleased with the vote the Senate had yesterday on the dairy provisions. By a one-vote margin we came to a compromise that will help strengthen the underlying farm bill. Rejecting the Senator from New Hampshire's amendment gives additional strength to a farm bill that helps keep price supports in place, that appropriately subsidizes certain crops, that enables the sugar industry to continue to flourish in Louisiana and throughout the Nation and, most importantly, protects jobs that are so important to our Nation at this particular time.

We have other challenges. We have trade issues that have to be worked out, but this amendment offered by Senator GREGG should be defeated.

I am happy to join my colleagues in support of that effort.

I yield the floor.

The PRESIDING OFFICER. The Senator from North Dakota.

Mr. DORGAN. I rise in opposition to the Gregg amendment. In my opinion, this is a terrible amendment. Essentially it abolishes the sugar program and significantly injures a good many family farmers who are struggling under ordinary circumstances to try to make a decent living.

I will try to correct some of the misconceptions about the sugar program. First, I thought I would point out that this debate is about this.

This is the fun-sized Baby Ruth candy bar. This debate is about candy corporations versus family farmers.

I intend to eat this Baby Ruth when I am finished. That is why I don't have a large, full-sized Baby Ruth. This is a fun size. Let me read for a moment the ingredients of this candy bar.

For the corporation that makes it, I am not casting aspersions upon your product. Since I intend to eat it, I would be telling people it is a pretty decent product. Let me describe what is in it.

Ingredients: Sugar. That is not in bold type, it just says sugar. That, of course, misses the point. There is a lot of sugar in this candy bar. That is what this debate is about. This debate is about the price of the sugar that this company is paying for and putting in this candy bar.

What else is in this candy bar? Although this debate is about sugar only, I thought it would be useful, perhaps, to read the entire list of ingredients: Roasted peanuts, corn syrup, partially hydrogenated palm kernel, coconut and soybean oils, high fructose corn syrup, dextrose, skim milk. And then emulsifiers—with a couple of emulsifying words I cannot pronounce—and artificial flavors, TBHQ. Maybe I won't eat this after I finish; maybe I will. Emulsifiers: Artificial flavors, carrageenan, TBHQ, and citric acid to preserve freshness. Then they have added caramel color.

So that is what is in this little old Baby Ruth. This issue is about the sugar, the first ingredient in this candy bar.

This amendment is not new. We have had this amendment time and time and time again because those who produce candy in this country, among others, want a lower cost of sugar.

Let me ask the question. Has anyone noticed recently that the price of candy bars has decreased? Go to the store, go to the candy counter and pick out a bar, any bar, and ask yourself, has there been a reduction in the price of that bar? Maybe a 10-percent cost reduction? Maybe 20? Maybe 30? Maybe 40? Anybody see any of that? I don't think so. Same candy, same price or higher price, but they are paying less for sugar.

Who gets the benefit of that so-called less for sugar? Those who receive lower

prices for sugar are the families out there in North Dakota and Minnesota and the Red River Valley who are producing sugar beets. They are good, hard-working honest folks. They produce a good product. They plant those beets and they hope very much they will get a decent crop. When they get a decent crop, they hope, through their marketing mechanisms, they will have a decent price.

But you know what has happened to the sugar producers and beet producers and cane producers and so on? The underlying farm bill has been so poor, so badly constructed in the last 6 or 8 years, that farmers, because the underlying farm bill for other crops has been so poor, farmers have planted more in beets. That is the fact. It relates, of course, to the underlying Freedom to Farm bill, which has been a terrible failure. But it is not just that there has been some additional acreage planted. That is not the issue that drives this today. We have had some price problems but that is not the issue that is driving all this.

Let me give an example of what is driving it. It always comes back to this, it seems to me. We have a circumstance where, for example, today, on Wednesday, we are going to import sugar from Brazil into this country. It is not supposed to be coming in. It is highly subsidized by Brazil. And Brazil ships its highly subsidized sugar to Canada. Then they load liquid molasses with Brazilian sugar and ship it into the United States in contravention of our trade laws. It is a so-called legal way of cheating. It happens in our trade laws virtually all the time and nobody can do a blessed thing about it.

So those who are farming out there in the Red River Valley, trying to produce beets, and hope beyond hope they can support their family and get a price for their beets, they take a look at this and say, what about this cheating in international trade, this so-called stuffed molasses?

I hold up a Baby Ruth. We all know what a Baby Ruth is. Has anybody ever eaten stuffed molasses? Stuffed molasses is a term of art in international trade that means someone has taken Brazilian sugar, ran it through Canada, added it to a liquid and moved it to the United States, taken the sugar out of it, and moved it back to Canada. It comes back again and again and again. All it is is a transport for Brazilian sugar which is unfairly subsidized, and that cuts the legs out from under our producers and nobody wishes to do anything about it.

I wish someone would come to the Chamber with half the energy with which they come to the Chamber on these kinds of bills to try to get rid of the sugar program and cut the legs out of our producers, I wish they would come to the Chamber with that energy and say, let's stop the cheating in international trade.

Let's stop the stuffed molasses, stop it dead. It is cheating, it is unfair, and undercuts American producers.

When we are talking about trade, does anyone think of the farmer in Minnesota or North Dakota who is out there trying to raise beets, that their responsibility is to compete against Brazilian producers who are being unfairly subsidized? Is that trade that is fair? I don't think so, not where I come from. In my hometown, we understand what fairness is. We grew up understanding the definition of the word "fair."

What is happening to our farmers in international trade, all of our farmers? And I can go through long lists dealing with the issue of durum wheat in Canada and others, but let me focus on this issue of trade in sugar to demonstrate how unfair it is to American producers. Yet we do not have any energy coming to the Chamber, except those of us who have been trying desperately to write a law which prohibits that molasses coming down here under the term of "stuffed molasses." That is simply a liquid truck to bring Brazilian sugar into this country to hurt American producers.

We have had people say today that the world price for sugar is way down here. The U.S. price for sugar is way up here. I guess they just miss the facts about how sugar is both produced and then marketed around the world. Almost all sugar around the world is traded by contract, country to country. That which is not is the residual amount of sugar surplus that is dumped on the open market at an artificial price. It has nothing at all to do with the market value at which sugar is selling or is being bought and sold. It has nothing to do with that.

So we have people come out here with a chart with a price that is irrelevant. It is just irrelevant. If this were automobiles, that would be the salvage price but it is irrelevant to what a new car is selling for.

On the issue of price, let's put that to rest once and for all. The price for sugar is the price at which sugar is traded internationally and predominantly the price at which it is traded internationally by contract is not at all related to the dump price that has been alleged as the world price by those who offer this amendment.

Let me hold up a couple of charts that other of my colleagues have used as well. Some say, well, this really doesn't matter. All that matters here is the price of sugar in the grocery store. The fact is, what matters is that this is an important part of this country's economy. It provides over 400,000 jobs, a good many of those jobs in North Dakota and the Red River Valley, men and women who have a dream to run a family farm and make a living, and they expect public policy to support that. They expect public policy

to weigh in in their favor against unfair trade.

Instead, too many bring public policy to the floor of the Senate that says let's give the candy corporations a little more benefit and take it away from those who are trying to run a family farm. I have nothing against candy corporations. I eat candy—probably more than I should. As I said, I intend to eat this piece of candy. But the candy corporations have done right well. What has happened is they have seen a substantial reduction in the price of sugar and they love it. They have seen a substantial increase in their profits and they enjoy it, but has the consumer seen any evidence that the price of sugar is lower than it was? No. This is a transfer from the pockets of those running a family farm trying to produce sugar beets to the corporate coffers in the accounts called "profits" in the pockets of some of the largest candy companies in the country. That is what it is. It is revenuesharing. It takes from those who have not and gives to those who have.

When you strip away all the pieces of this debate, this dispute is very simple at its core. This industry produces a great many jobs in this country. It is important to this country. It faces fundamentally unfair trade, and it has a sugar program that for many, many years has worked, contrary to other farm programs that have been miserable failures. Now we have had, routinely, people come to the floor of the Senate to say we want to take apart that which works. It doesn't make any sense to me.

The producer prices for sugar plummet. The wholesale refined price for sugar—you see what happened, a 23.4-percent reduction.

I asked the question about the candy bar, but let me ask it about a box of cereal. That cereal aisle in the grocery store is a wonderful aisle. It has so many different kinds of cereal these days you can hardly stop to see them all or understand them all. There are just lots and lots of boxes of cereal.

When I take my kids to the grocery store with me, they know all those names. They have seen them advertised. They want to buy the most byzantine boxes of cereal I have ever heard of. Occasionally they sneak them into the grocery cart.

Has anyone ever seen a reduction in the price of cereal as a result of a reduction in the price of sugar? I don't think so. Has anyone seen a reduction in the price of cookies or cakes at the retail level? No. They are heavy users of sugar. How about other bakery products? What about ice cream? Is ice cream selling at a substantial reduction? Of course, that is a tremendous carrier of sugar as well. No. I don't think so. What about doughnuts? Is the price of doughnuts down because the price of sugar has plummeted? I don't

think so. I think the price of doughnuts is up. I think the price of candy bars and cookies is up, including the profits of candy manufacturers who now want more. They want more. This is not enough. They want more.

They want to kill the sugar program. The answer to those interests that want to do that is, you are not going to be able to do it—not today, not tomorrow, not next month, and not next year. This is a program that works. It is constructed in a way that works. It works for American family farmers and for American consumers.

We have a stable supply of sugar and a stable price. We had it for a long time until the most recent problems that, in my judgment, came about because the underlying farm bill didn't work.

Stability of supply and price serves both the family farmer interests and consumer interests. I think there are other interests here. I admit that. There is the interest of the candy manufacturers, and there are interests of others. But I am most especially interested in the broader question of public interest that reflects those who live and work on our land in this country—family farms—and the interests of the broader spectrum of the American public who want a stable supply at reasonable prices on their grocery store shelves. That is what this issue is about.

I don't disparage those who have offered this. They come from their perspective. They represent the candy manufacturers. Some other interests want lower sugar prices.

I represent family farmers who want a fair deal. All they want is a fair deal. They are not getting it. This amendment would further destroy their opportunity to make a living. We are going to kill this amendment, I hope, in the next couple of hours.

I yield the floor.

The PRESIDING OFFICER (Mr. NELSON of Nebraska). The Senator from Hawaii is recognized.

Mr. AKAKA. Mr. President, I rise today to speak against the amendment being offered by my colleague from New Hampshire, Mr. GREGG, that will terminate the sugar program. This program is a vital subsidy that provides valuable assistance to U.S. sugar farmers and ensures that sugar remains an affordable commodity for American consumers. While we are all facing difficult times, I must remind my colleagues that American farmers are hurting.

We must also realize that should we lose the sugar program in our country, our sugar farmers would go out of business and we would be at the mercy of world sugar. We would be suffering with high prices. We would not be in control of prices, and the American public would be hurt.

United States producer prices for sugar have decreased by close to 30 per-

cent since 1996. Many sugar farmers have gone out of business and a number of beet and cane mills have closed. In the same period, 17 sugar mills have closed. Seven of those sugar mills were located in the State of Hawaii. Today we have just two sugar mills in Hawaii.

Opponents of the sugar program believe that this program is outdated and artificially inflates sugar prices for consumers. In fact, the opposite is true. The program has acted as a cushion against imports from the world dump market. Our sugar program has been successful in ensuring stable sugar supplies at reasonable prices. United States consumers pay an average of 17 cents less per pound of sugar than their counterparts in other industrialized nations. Low U.S. prices save consumers more than \$1 billion annually. Consumers elsewhere around the globe do not enjoy the low prices we have in America. Most American consumers would be amazed at the price of sugar in other industrialized nations, as revealed by my colleague from North Dakota. That is why I say that the sugar program is critical to American consumers.

While the sugar program had a modest cost for forfeitures of sugar loans in 2000, this cost amounted to only 1.5 percent of the Federal commodity program expenditures. These costs will be defrayed as sugar is gradually sold back into the market. Furthermore, U.S. retail sugar prices have remained virtually unchanged for more than a decade and are 20 percent below the developed-country average.

I urge my colleagues to reject this amendment No. 2466. If Congress terminates the sugar program, not only will a dynamic part of the economy disappear from many rural areas, but consumers will also lose a reliable supply of high-quality, low-price sugar.

I yield the floor. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. WELLSTONE. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. WELLSTONE. Mr. President, I was at a labor rally on the economic recovery plan and lost my voice, but I came back here to speak on this amendment. I have been following this debate a little bit. I wanted to comment on what I heard on the floor.

In that rally there were indeed some steel workers from the Iron Range of Minnesota, I say to my colleague from Minnesota. Basically, the message was this: We are out of work through no fault of our own. We are running out of unemployment insurance benefits, and we don't have coverage for our loved ones, for our children, or for our fami-

lies. I believe this is sort of a test case of whether or not we in the Senate, or for that matter in the administration, care about hard-working people. We are very much a part of our country coming together. In fact, we keep celebrating the firefighters and policemen and others. Now when America's working families really need help, where are we?

I will tell you, any economic recovery plan is just simply, as far as I am concerned, unconscionable without making sure we extend the unemployment insurance benefits to make sure that part-time workers are covered and to make sure we get the health care benefits to these people.

I do not know how we can possibly take these working families and put them in parentheses. We have had tens of billions of dollars of assistance for the airline industry. I look at the House of Representatives, and they have about \$30 billion-plus of tax breaks for the energy companies, including oil companies that made huge profits last year. They want to do away with the alternative minimum tax and give \$1 billion here and \$1 billion to this multinational corporation. They want to lock in these "Robin Hood in reverse" tax cuts, which provide more for the wealthiest top 1 percent. However at the same time we are worried about the Social Security surplus and say we have no money for children, for education, for the IDEA program, for children with special needs, or to help people who are out of work right now.

I will tell you, this is a test case of whether we have "compassionate conservatism" or the heart and soul of my party. Democrats need to fight hard for these working people. In any case, I think that is a transition to this debate because I am hearing a number of my colleagues in this Chamber talking about eliminating the sugar program.

By the way, a lot of our sugar beat growers, as my colleague from Minnesota knows, are independent producers. What is interesting is that this particular sugar program really sets the loan rate at good level, which gives our producers the ability to bargaining to get a decent price in the market, which, frankly, I want for all our farmers, far more than depending on AMTA payments and other direct Government money.

But I have to say to Senators—I have to figure out the right way to say this; if I say "cynical," it sounds as if that is too shrill—but I am skeptical about this commitment to the Food Stamp Program and more funding for nutrition programs. I am skeptical because during the debate on the welfare bill in 1996 that significantly cut food stamp benefits, which, by the way, is the major child nutrition safety net program in our country, and very successful, some of the very Senators who are on the floor today are saying the reason we need to cut the sugar program

is because we need to dramatically expand food nutrition programs. I think this is basically a cynical tradeoff, which will put under a bunch of independent producers and farmers, saying the reason we need to do this is because we need to dramatically expand food nutrition programs. I ask where were these Senators when we had a 30 percent reduction in food stamp enrollment. That was in the 1996 so-called welfare reform program. The fact is these Senators who had not a word to say.

I say to those Senators, where were you? In the committee, Senator HARKIN and Senator DAYTON and I have fought hard for food nutrition programs. Frankly, my bottom line in conference is, anything less than \$6.2 billion in the food nutrition program is unacceptable.

By the way, the House of Representatives, with a Republican majority, has \$3.6 billion for food nutrition programs. That is it. Now, all of a sudden, the very Senators—this is not a one-to-one correlation—but many of the very same Senators I have never seen out here as advocates for expanding food nutrition programs, for expanding the Food Stamp Program, all of a sudden, when it comes to this nifty, clever little way of trading off a farm program that gives producers some leverage in the market price to get a decent price versus the Food Stamp Program, now we have the amendment offered on the floor. This is transparent.

In our Agriculture Committee deliberations, I voted for the higher price-tag of \$10 billion for food nutrition programs. Senator LUGAR has been a good, strong advocate for food nutrition programs. I will say that. There is no question about it. My comments are not aimed at the Senator from Indiana because I think he has been a true champion on this issue. I am talking about a variety of things I have heard from a variety of different Senators. And I see where this vote is going.

But I said in the Agriculture Committee, I refuse to accept this cynical tradeoff of a commodity program that provides some income assistance for farmers and/or provides some leverage for our farmers to get a decent price in the marketplace, especially if they are family farmers—that is, the people who work the land, live on the land—and food nutrition programs.

Now, I along with others will have an amendment later on to target some of these commodity prices. From my point of view, not only can we take some of that for a higher loan rate and a better price for our producers, we can take some of that and put it in the food nutrition programs. Fine. But do not come out of here with an amendment that basically eliminates the program which will eliminate independent producers. In this particular case, we are talking about sugar beat producers, es-

pecially in the Red River Valley and other parts of our State of Minnesota.

Again, I would say that I am a little bit skeptical. I am a little bit skeptical of Senators who are coming out here who I have never heard a word from about cuts in the Food Stamp Program before, and now all of a sudden they become passionate advocates for the Food Stamp Program, if it gives them an opportunity to eliminate a whole bunch of independent producers, family farmers.

Do I think that some of these farm programs are an inverse relationship to need? Yes. Do I want to more target them? Yes. But I refuse to accept in tradeoff that is explicit—not implicit, but explicit—in this amendment that is before us today on the floor of the Senate.

Let me also say quite a few of the Senators who are out here with this amendment, and they can come out here and debate me, but I would bet that the historical record will show this: While we have had, in the past several years, a dramatic rise in the use of food shelves and food pantries, and while we have had any number of different reports that have come out, especially by the religious community, about the rise in the number of “food insecure households”—which is just another way of saying homes where people are hungry, maybe to the tune of about 30 million or thereabouts; I do not remember the exact figure, many of them children—while we have had reports about the dramatic rise of hunger and homelessness in our country, I have not heard one word from many of the Senators who have come out here today, who, all of a sudden, have become champions for the Food Stamp Program, if they can eliminate a farm program that will eliminate family farmers, independent producers in my State of Minnesota.

I say no to that. I hope my colleagues will join me.

I yield the floor.

The PRESIDING OFFICER. The Senator from Idaho.

Mr. CRAPO. Mr. President, I rise in opposition to the amendment. We have heard a lot of discussion over the years about the sugar amendment and the sugar program in the United States. In fact, as the distinguished Senator from Louisiana indicated, we seem to have this debate on at least a biennial basis. We have had this debate since I have been in Congress, and long before that.

It would seem people in the country, and particularly here in Congress, would ultimately come to recognize what the true facts about this program are. But, nevertheless, we continue to debate it.

I would like to talk a little bit about what really is at stake. There is a lot of discussion about the fact that the United States supposedly subsidizes its sugar and that that is a great cost to

the taxpayer, a great cost to the consumer, and an inequity in international trade.

The reality is, although there is a lot of talk about the world sugar price—and I am going to discuss that in more detail in a minute—it is a trumped-up argument.

The United States, as a matter of fact, has the sugar program because other nations are subsidizing their sugar. The world sugar price, as is so often debated in these halls, is a world-dumped sugar price.

What happens is, most nations that produce sugar produce enough sugar for what is consumed in their nation, and then they have some amount of sugar left over. That sugar that is left over is then able to be dumped on the world market through very anti-competitive and even predatory practices by these nations, where they are subsidizing the sugar production and dumping it into the world market in an effort to basically help their producers gain an unfair advantage against the producers in other nations.

What the United States did long ago was to recognize that if we were to allow this subsidized sugar to be dumped unjustifiably in the U.S. markets, it would drive the price of sugar in the United States unreasonably low and drive our producers out of business, thereby resulting in a capture of the market by these other nations and their producers. What we always see in the economic cycle when that happens is that then the price can go up, as those who have driven out their competitors and the competition can, then more easily control the price.

I show on this first chart what we are talking about in terms of the world sugar dump market price. The world average production cost to produce sugar is \$16.26, and the world market price that we often hear about is \$9.52, which is why we have deemed it the world dump price. What happens is that a price far below the cost of production of sugar is generated by those nations that subsidize and provide other anticompetitive barriers to the proper movement of sugar in a real market. It is this subsidized sugar that would flow into U.S. markets, significantly jeopardizing our producers in a way that would cause many of them to go out of business, that the U.S. sugar program is designed to stop. That is really what is at issue.

The question we must ask ourselves is, Is the United States going to step up to the plate and protect its sugar producers in an anticompetitive world market environment where clearly the competition is out there trying to drive our producers out of business?

Some respond by saying the U.S. sugar producers ought to be able to produce their sugar more efficiently or it really isn't a world dump price, and the fact is that U.S. sugar producers

want to keep their sugar at unreasonably high prices.

Again, the reality is, when we study the nations that have retail sugar prices—I distinguish here between a retail sugar price, the price the consumer pays at the marketplace to buy their sugar—the United States is clear down at the bottom of the developed countries in terms of the retail price paid for sugar in our markets. Our sugar producers are producing sugar efficiently. The price of sugar at our retail level in our markets is very competitive worldwide. In fact, as you can see here, we are clear down toward the bottom. The United States is third from the bottom among developed countries in terms of the low price of sugar.

The argument that our consumers are being hurt somehow by the sugar program is simply false. What is really at stake is that there are those who would like to push production of dumped sugar, of subsidized sugar, and dump that sugar into the U.S. markets to gain advantage.

If you want to look at whether that will cause the price of goods that utilize sugar to go down, you have to look at the marketplace in the United States. Every year we debate this, the argument is made that the sugar prices are unreasonably high because of the sugar program, and if we could get those sugar prices down, we would save the consumers in the United States a lot of money. If you look at what has happened to the price of sugar for the last 4 years, it has come down. It has come down about 25 percent.

We haven't seen the price of products that utilize sugar come down at all. The price of those products has generally gone up over the last 4 years. The savings there have not been passed on to consumers. Those savings, if any, in the reduction of the sugar price in the United States over the last 4 years, have gone directly into the pockets of the producers, those who utilize the lower cost sugar in their products but then continue to sell their products for either the same or an increased price.

The real issue is whether the United States will continue to protect its sugar beet farmers. Right now, talking about sugar beets, the sugar farmers throughout the United States are running at 20-year lows. For the past 2 years, the farmers in the United States are getting 20-year low prices, whereas the prices for the goods that utilize sugar have not come down at all.

We need to debunk some of these false theories or false rumors that have been placed out in the American public about what is happening in the sugar debate.

Another argument that is often made is that the sugar program involves the U.S. Government subsidizing heavily its own sugar to protect against this anticompetitive conduct. There are those who say even though we do rec-

ognize that there are predatory practices worldwide, the U.S. taxpayers should not be expected to be the ones who step up to the plate and protect.

Again, let's talk about the real facts. The way the sugar program works, the sugar producers themselves pay an assessment on their crops to help to fund the nonrecourse loan program that is established to protect the sugar industry. The sugar program basically consists of two very easy pieces: One, a nonrecourse loan; and, two, quotas on imports to protect us from dumped sugar being forced into U.S. markets.

If you look at what the cost to the U.S. Treasury has been as a result of this nonrecourse loan program, you find something very interesting. If you look at the last 12 years, this chart basically covers 9 or 10 years. The U.S. Treasury has gained money because of the sugar program because in each of the years 1991 through 1999, I believe in almost every year prior to that, the assessment paid by the sugar growers was more than was necessary to pay for the cost of the loan program, and the excess went right into the U.S. Treasury. The Federal Government was making money off of the sugar program to the taxpayers, not costing the taxpayers money.

It is true that in the year 2000 that reversed, and the loan assessments were not enough to cover it. And in that year there were costs to the taxpayer as a result of the nonrecourse loan program. We can't say that in every single year there is going to be a benefit to the U.S. Treasury. But we can look at history and historically, in the vast majority of the years, the U.S. sugar program operates at no cost to the U.S. taxpayer. In fact, it puts dollars in the Treasury which we then allocate to other important priorities in the United States.

Whether we are talking about the consumer, whether we are talking about the taxpayer, or whether we are talking about the sugar growers in the United States, the sugar program is a program that is designed for well-intentioned purposes and is working well. There is no reason we should have to go through this debate endlessly, as those who would like to drive the price of sugar down even further in the United States continue to attack the sugar program.

I encourage my colleagues to oppose the amendment to strike the sugar provisions from this bill.

The PRESIDING OFFICER. The Senator from Minnesota.

Mr. DAYTON. Mr. President, I associate myself with the remarks made by the Senator from Idaho and by the two Senators who preceded him from Minnesota and North Dakota. I was not aware until the Senator from Idaho pointed out the history in the sugar program, but I think this testimony today certainly underscores the bipar-

tisan support for this program and also the benefits not only to sugar beet producers in these respective States but, as Senator CRAPO has pointed out, to the American people.

I see no one else is here right now so I thought I would take a moment. I have been asked by the chairman of the Agriculture Committee, Senator HARKIN, who is managing this bill, to sit in for him briefly because he has to chair a conference committee on one of the appropriations subcommittees. In baseball terms that is called "reaching deep into the bench" to put me in that position. It does give me an opportunity to speak for a moment about the superb job which the chairman, Senator HARKIN, has done in leading our Agriculture Committee and also in bringing this bill to the floor.

As the Presiding Officer knows, since he and I were both on this committee for this first year, we have had the good fortune to serve under two very distinguished and outstanding chairmen of the committee. Senator LUGAR from Indiana, when we first joined the committee, provided magnificent leadership. His longstanding commitment and concern not only to American farmers and to setting the right policy for American farmers is evident, but also his deep support for the nutrition programs and benefiting children, consumers throughout this country.

When Senator HARKIN became chairman, I had the opportunity then, along with the Presiding Officer, to watch him provide the same kind of outstanding leadership. He has had the responsibility to bring this bill through our committee and to the Senate floor. I can honestly say, after watching him over the last couple months, one of the positions I would least want to assume is that of chairman of the Senate Agriculture Committee. While it has great responsibility and great opportunity to be of service to those States, such as Nebraska, Minnesota, and others, which are so heavily dependent on agriculture, frankly, the work the chairman has performed I think has been nothing short of miraculous, trying to pull together all the agricultural interests in our very diverse country.

We have had some of our differences and disagreements, certainly, but I think they have been more based on representing the interests of the farmers in our particular States than anything else. Maybe some are on philosophy and views on what the Government's role in agriculture policy ought to be. Most of all, we come from 50 diverse States with very different agricultural interests, and we are trying to knit that all together here.

Again, I think Senator HARKIN has been phenomenal in his ability to bring together all the points of view and to reflect not only the interests of his own State of Iowa—which, coincidentally, is contiguous to my State of

Minnesota, so we share many issues in common—but also those interests from all over the country. I think the bill that the chairman brought forward is really remarkable.

I have listened to the debate over the last couple of days. Again, there are many different points of view, and they all have considerable merit. I hear some who are critical of this effort because of the costs involved and the need to provide some of these supports to American farmers and producers, and I sometimes think we have lost the context for this legislation and the reason that we, even in the committee, had to adopt some of these provisions.

As a Senator from Minnesota, where commodities such as corn, wheat, soybeans, and dairy are certainly beneficiaries of these programs, I wish—and I know every farmer in Minnesota wishes and would greatly prefer not to—we did not have to receive any Government payments or subsidies whatsoever—call them AMTA, counter-cyclical, or whatever. They would much rather make a decent price and get a good profit in the marketplace.

I come from a business family, and I know the Presiding Officer has been involved in business as well. You don't stay in business in this country if you can't make a profit on what it is you produce and sell. That is what American farmers want to do. They are business men and women first and foremost. They love the land and the work they do, but they are in agriculture to make a profit—a sufficient profit to pay for all their equipment, their seed, and other investments, and to get a fair return. Most important, they want to be able to provide for their families.

Something strikes me as terribly wrong in this country when these hard-working men and women—America's farmers—want to spend their lives and devote their careers to feeding the people in our country and throughout this hungry world, yet they can't make a decent profit on what it is that they themselves produce. I know farm families in Minnesota where the families and their children are literally going hungry because they can't make enough producing commodities to be able to buy what they need for their own families.

That is the crisis we have seen in the past. I think we have seen it clearly—at least speaking from Minnesota's perspective—get worse and worse under the current farm bill. It was put together with all the best intentions. I don't think there was anybody in the Senate or in the House 6 years ago, when this bill was put together, who had any intention other than to best serve the interests of American farmers and the American people. But the fact remains that in the aftermath of that legislation, the decoupling of prices from payments and setting up of AMTA payments that were based on

pre-1996 levels of production has essentially locked in historical production, as well as the payments made according to the size of these farm operations, and that is, prices declined for many key commodities, and in subsequent years Members of Congress from both parties came back and agreed together, under the administration of the former Democratic President—so this was bipartisan—they came back together year after year and authorized these emergency payments.

Last year in the United States, the Federal Government was the largest provider of financing and income for American farmers. In some States, including parts of my own, net farm income in these areas was less than the amount of the Federal Government payments in support of these commodities. In other words, in the marketplace the farmers lost money. If they had not received these Government payments, they would have been out of business. That is again why, from my perspective, the Congress, and the administration, year after year, acted as they did, because they knew if they did not do so, given the market prices that were not just through the floor; they were in the sub-basement, the farmers would be going out of business. If they hadn't acted as they did, Minnesota farmers, by the thousands, would have been out of business.

Therefore, if we don't act as we are today, if we were to say take away all these subsidies and let's return the dollars and use them for some other purpose, that would absolutely bankrupt farmers in Minnesota and, I believe, throughout significant parts of this country.

So the goal of Chairman HARKIN's work and our work on the committee, as I view it, has been to take the predicament in which we find ourselves today with American agriculture and say how do we move ourselves out from behind this economic eight ball that we find ourselves behind and move forward in a way that restores some of the market prices, at least if I had my way, to levels that are such that farmers could make a good price and profit.

Even though we dodge that issue in this country, frankly, there are forces—and some have been referred to by some of my colleagues—who prefer to see the price that goes to the farmers themselves as low as possible, and who benefit from having low market prices for basic commodities because then, through the processing and the transport and retail and the like, they have a greater margin for profit in their own enterprises, striking that balance so that the American consumer, at the end of that, still pays a reasonable amount, which the consumers do today—remarkably less of their total family income as a percentage for basic food than virtually any other country in the world, because we

have an efficient agriculture system, one that overall provides food for the consumer at a low price, providing for quality as well.

Those who want to keep prices low—and we have had this discussion in the Agriculture Committee, the Chair will remember, with the Secretary of Agriculture, where I asked the Secretary, because there are some in that administration and part of that Department who reportedly, from what I have read of their remarks, think the prices should be kept fairly low, should not get too high, because then it would have a negative effect on our efforts to expand trade and the like.

So I asked the Secretary if she could provide for us what are the target market prices for these commodities that the administration thinks are in the best interests of American farmers, as well as trade and everything else. I have not yet received an answer to that question that I raised some time ago.

So to lay all the cards on the table here, clearly, as I say, there are many competing forces, and Chairman HARKIN, in my view, has done an extraordinary job of balancing them and putting this bill before us. I might say the same about the conservation title. I know Senator HARKIN and other Members have worked closely on that. He has been working on these new initiatives in conservation for the last couple of years. I know because I had an opportunity—and some of the environmental groups and farm groups in Minnesota told me even before I took office about how they have been working with Senator HARKIN and with his excellent staff for the last couple of years framing these conservation programs.

Senator HARKIN recognized that we have already in current law—through, again, bipartisan efforts and with bipartisan support—such very important conservation programs as CRP, WRP, the ways in which we have encouraged farmers and paid them through Federal funds to set aside lands that are probably better off not being in agricultural production—they may be marginal for that purpose; they may have environmental issues with extensive farm production—and where we therefore make it possible financially for farmers to do the right thing. What they would like to do is act as stewards of that land and to go ahead.

So we have seen those programs. They produce wonderful results and support the men and women in my State of Minnesota and across the country—environmental groups and farmers. This is one of those times when people from all different interests, backgrounds, and perspectives seem to agree that, again, within the right balance, setting aside this amount of acreage has been in the best interests of our country.

These are Federal Government programs that have worked for farmers

and environmentalists. They have worked to preserve our resources. They have worked for sports men and women, fisher men and women, and hunters.

Senator HARKIN wanted to focus in particular on those farmers who have land in production but who themselves, especially during these times of economic hardship, would like to undertake some improvements for conservation purposes and do not have the resources, sometimes even the technical know-how, to do so.

He crafted this new conservation program, the Conservation Security Act, which is a major component. It should be called the Harkin Conservation Security Act, to give due recognition to the leadership he has provided in support of farm organizations, environmental groups, and others in Minnesota and elsewhere in the country.

If we initiate a new approach which is successful, I believe it will be a tremendous cornerstone of our nationwide conservation efforts by providing farmers with funds and working with them and with people with expertise in farmland conservation so they can bring more of their agricultural production into the best conservation practices known and provide them with funds to do so. I think that is an extraordinarily important part of the legislation.

Finally, Mr. President, since I have the opportunity, I want to say how important I think the energy title of this legislation is. Again, I commend Senator HARKIN for his leadership in this area as well. He has been one of the champions in the Senate for a number of years in taking our agricultural commodities, such as corn, which is certainly prevalent in his State of Iowa and my State of Minnesota, and using corn for purposes of ethanol production, providing what is a winner all around, providing an additional market for domestic commodities so we raise the prices, as I said earlier, in the marketplace, and providing for cleaner fuel as an alternative, as a substitute for some of the hydrocarbon additives. Ethanol is an enormous contribution to a cleaner environment across this country, and also to domestic oil reserves.

I look forward next year to working in the area of expanding the use of soybeans for diesel fuel as an additive, and I know Senator HARKIN has been willing to take the leadership, along with myself and others, in that area as well.

Again, I commend the chairman. I certainly commend the ranking member as well, but I think through the chairman's hard work especially, we have a bill today I am very proud to support.

I thank the Chair, and I yield the floor.

The PRESIDING OFFICER. The Senator from North Dakota.

Mr. CONRAD. Mr. President, when I saw the Senator from Minnesota was speaking on the farm bill, I wanted to come and thank him publicly for the role he has played as a new member of the Senate Agriculture Committee.

The Senate Agriculture Committee deals with some of the most difficult issues when we are dealing with a new farm bill. This has been a debate that has extended over a long time. I point out that the Senator from Minnesota, as a new member of the Senate Agriculture Committee, in my judgment, has become one of its most thoughtful members. We saw that with respect to the amendments he offered and his debate, both in the public sessions and also the sessions in which there were only members discussing how we would proceed.

I thank him. It is awfully good to have a new colleague from a neighboring State who has done his homework on the issues in this farm bill. I believe that is the case with the Senator from Minnesota. I commend him for the role he has already played.

One of the things that happens around here is you develop respect based on your credibility, and the Senator from Minnesota I think has laid a basis that will serve him well for many years to come in the Senate.

I would be remiss if I did not acknowledge the role of the current occupant of the chair as well who is also a new member of the Senate Agriculture Committee, the former Governor of the State of Nebraska, almost a neighbor to North Dakota, but someone with whom we have shared interests and somebody who has played a very important role as well in bringing this farm bill before the Senate.

We can acknowledge there were many who said we would never be here. There are many who said we could not get a bill through the committee this year, we could not get a bill on to the floor of the Senate. Now they are saying we cannot get it out of the Senate. We will see. We know there are those who are opposed to moving this legislation this year. I think they are badly in error. Let me say why.

We are faced with the lowest prices in 50 years in agriculture. In October, the price review for agriculture came out, the so-called producer price index. It indicated the biggest drop in prices that farmers received in 91 years—the biggest monthly reduction.

Our major competitors are not waiting. The Europeans have clearly a plan and a strategy they are pursuing and pursuing aggressively. They are already providing their producers nearly 10 times as much in per acre support. They are providing 28 times as much in export subsidy to take markets that have traditionally been ours. They hope we are asleep. They hope we will not act. They hope we will debate this bill to death and not move forward.

I hope they are wrong. I believe they will be proven wrong. It is incredibly important to this country that they are wrong because if Europe prevails, if they are able to maintain this differential in which they are continuing to grab market share that traditionally has been ours—remember, in the last 20 years they have gone from the biggest importing region in the world to the biggest exporting region. They have done it in 20 years. They have done it the old-fashioned way: They have gone out and bought these markets.

We in this country will regret it for a very long time if we lose our world dominance in agriculture. We are very close. The stakes are enormous, and this farm bill is the test. I hope we pass it.

I thank the Chair and yield the floor.

Mr. INOUE. Mr. President, I rise to strongly oppose the Gregg amendment, which would essentially abolish the sugar program and place the remaining two sugarcane producers in my state out of business.

Hawaii cannot afford the dramatic increase in unemployment that will result from the shutdown of the remaining sugar operations. Sugar supports much of the employment base on the Islands of Kauai and Maui. If there is no relief to sugar prices, approximately 300 to 400 sugar and related workers will become unemployed. For a small island economy, this would be an enormous loss of jobs at a time when there are few alternative employment opportunities in the state. The sugar industry in Hawaii has declined to about one-third of its size compared to five years ago, and the remaining operations can remain globally competitive only as long as the U.S. sugar program is in place. The U.S. sugar program provides a cushion against imports from the world dump market, where prices have run about half the world average cost of producing sugar for most of the past two decades.

U.S. producer prices for sugar have been running at 20-year lows for the last two years, and it is extremely difficult for our producers to compete because sugar production around the world is heavily subsidized. Because of foreign subsidized surpluses the world dump market price has averaged, for the past decade and a half, only about half of the price it would have been in the absence of subsidies. For example, the European Union (EU) has transformed itself from one of the world's biggest sugar importers to one of the world's biggest exporters with extremely generous producer subsidies. The EU subsequently unloaded its surplus sugar onto the world dump market with massive export subsidies. Some 6 million metric tons of subsidized sugar is dumped on the world market each year, for whatever price it can bring in.

The U.S. sugar policy was a net revenue raiser of \$279 million from 1991 to

1999. The sugar provisions in S. 1731 allows American sugar farmers and producers to compete on a level playing field against foreign sugar farmers. I urge my colleagues to defeat the Gregg amendment.

The PRESIDING OFFICER. The Senator from Nevada.

Mr. REID. Mr. President, a couple of hours ago, I came to the Chamber and indicated we needed to move this legislation along. We have not moved it very far, although this has been a stimulating debate on the topic of sugar.

I have spoken to the Republican manager Senator LUGAR, and he has indicated he wants to speak, Senator ENZI wants to speak. And I see my friend from Arizona. I do not know if he has had an opportunity to speak yet. I say through the Chair to the Senator from Indiana, I do not know if the Senator from Arizona has spoken. I have not been in the Chamber all day. He may want to speak.

It appears not.

When Senator LUGAR finishes his statement and the Senator from Wyoming finishes his statement, I will move to table this amendment.

I also say to the manager of the bill for the minority, I hope sometime this afternoon we can have a cutoff for filing of amendments. If we are not able to determine how many amendments there will be and some time for a filing deadline, it appears people are not serious about moving this bill along.

I look forward to the next vote, and we can talk to the two leaders at that time.

The PRESIDING OFFICER. The Senator from Indiana.

Mr. LUGAR. Mr. President, I say to the distinguished colleague from Nevada in response, it is indeed my impression that following the debate on the sugar amendment, Senator DOMENICI wishes to offer an amendment, and then Senator BOND from Missouri will come in, and then Senator MCCAIN.

Mr. REID. That sounds good.

Mr. LUGAR. At least we know there will be some activity. I want to speak on the sugar program. For the moment, I am prepared to yield to my distinguished colleague from Wyoming because I will be here for quite awhile, and to conserve his time so he might be heard, I yield the floor, and I will ask for recognition again.

The PRESIDING OFFICER (Mr. CARPER). The Senator from Wyoming.

Mr. ENZI. Mr. President, I rise in opposition to the Gregg amendment which is to phase out the sugar program. The goal of U.S. sugar policy is for our producers to provide a consistent supply of inexpensive sugar to consumers. We have met that goal. Sugar is an important part of almost every food product. The U.S. sugar policy has provided food manufacturers with an unwavering supply of sugar without cost fluctuations. All con-

sumers have benefited from this steady supply. The U.S. sugar policy has allowed producers in Wyoming and other States to provide for the country's sugar needs without going out of business.

The Senator from New Hampshire claims the U.S. would be better served if we purchased our sugar from the world market. I will not deny the prices for sugar on the world market are less expensive than the current U.S. sugar prices. It is important to note that the world market is a dump market. It is comprised of surplus sugar from subsidized countries.

Countries such as Mexico supply the world market. Mexico now has an average overproduction of 631,000 pounds. Even though 250,000 pounds of that surplus production is accepted into our market under the NAFTA side level, the Mexican Government recently bought and paid the debts on almost half of the sugar refineries in Mexico. If that is not subsidization, I don't know what is.

I met with the folks from the Mexican senate yesterday. They were in the United States to talk about sugar. I had to remind them of their overproduction, and if the world market opens up it will grow even greater. I had to talk to them about the NAFTA side letter so that our high fructose corn syrup can go to Mexico and eliminate some of the overage we have here.

I know for a fact some of the people who served in this body at the time that NAFTA came up only voted for NAFTA on the basis of that side letter. That side letter is now not being recognized by the Mexican Government.

They are creating a crisis in America, a crisis in Wyoming. The sugar beet growers in Wyoming are working desperately to make their product work, to make sure there is an even domestic supply. We shifted all of our energy supply overseas—not all, but a good deal of it. You can see the crisis that this is causing at the present time in this country. Should we do that to sugar too; get rid of our local producers and have those countries in the other parts of the world ban together to control the price of sugar and make us pay through the nose for sugar? I don't think that is a very good idea.

Our sugar producers in Wyoming are coming up with alternate ways to make their production work better. One of the ways they are doing that is to buy the refineries. They are not asking the Federal Government to buy the refineries. They are buying the refineries. They are forming co-ops and putting their land up against the refinery. Why? They get a little bit of profit off of the sugar, off of the production of the sugar. They will get another little bit of profit off of the refining of the sugar. If they can put together enough of the different layers that are presently going to other people, they will

be able to make a living from the sugar.

Don't be fooled by the glut of sugar in the world market. The price may be low now, but I guarantee that will change. As soon as the U.S. accepts this amendment and begins buying from the world market, the price for sugar in that market will rise. We will be left at the mercy of the world market because our growers will no longer be in business.

In Wyoming alone, the Main Streets of at least four rural communities would become ghost towns. They will no longer be able to meet the needs of our own country. While sugar beets remain the No. 1 cash crop in Wyoming, the price farmers receive for their sugar is at a 20-year low. That shows the dire situation all agricultural producers are in this year. The companies that refine the sugar beets into sugar in Wyoming can no longer afford to remain open.

The farmers in my State and others have banded together to try to purchase the refineries. They are attempting and fighting to do everything they can to remain viable and competitive. These are not farmers waiting for the U.S. Government to bail them out; they are fighting for their own future.

The Senate should defeat this amendment. We should continue to support sugar beet and sugarcane farmers just as we support all farmers who produce agricultural commodities in the United States. The sugar program portion of the total net outlays for all commodity programs from 1996 to 2001 was only .19 percent, a small cost to maintain a steady supply of sugar to our consumers and to provide for communities that rely on the sugar community.

This becomes a domino effect. We talked about the problem with airlines and how people rely on airlines. If you are in a small community, one of the four small communities in Wyoming that rely on sugar beets, when the industry goes down, the whole economy goes—I don't care how well the airlines are flying. They are not asking for the United States to buy the sugar refineries as they have in Mexico. They are just asking for a fair chance at their economy and a little longer to develop these co-ops. I hope Members stick with us on the sugar amendment.

I yield the floor.

Mr. REID. Mr. President, I ask unanimous consent that following the statement of the Senator from Indiana, Senator BURNS be recognized for up to 15 minutes to speak on this amendment; Senator CRAIG be recognized to speak up to 15 minutes on this amendment; and that I then be recognized. I will move to table the underlying Craig amendment.

Mr. LUGAR. Reserving the right to object, my understanding—perhaps

someone can advise me—is that Senator GREGG wanted to make a final argument. Could the leader offer at least a proviso of time for Senator GREGG?

Mr. REID. That is appropriate, and I also ask unanimous consent that there be no intervening amendment prior to my motion to table.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

The Senator from Indiana.

Mr. LUGAR. Mr. President, I rise in support of the amendment offered by my distinguished colleague from New Hampshire, Senator GREGG, which, as has been pointed out by all speakers, effectively phases out the subsidies provided under the existing Federal sugar program.

Apropos of the comments made by my colleague from Wyoming, almost all farmers are supported by some program, as I attempted to point out this morning, and only about 40 percent of farmers in our country receive any benefits from all of these programs. I appreciate that colleagues find this difficult to believe, but nevertheless it happens to be the case. It is the case because historically programs arise attached to very specific crops. In the case of the row crop of wheat, corn, cotton, and rice and the evolution of things, soybeans have come into that category and there have been very special programs over the course of time established for sugar or peanuts, for tobacco, for wool and mohair. In due course, programs have come up largely through a sense of equity and disaster areas that have somehow touched upon so-called specialty crops.

But after all is said and done, the farm bill essentially is a focused bill historically on program crops. Sugar is one of these. As a result, those who are involved in the sugar program are among the 40 percent who are beneficiaries as opposed to the 60 percent of American farmers who are not.

Having said that, in the amendment I offered this morning I did not offer discriminatory comments with regard to the sugar program any more than other programs. Rather inclusively, I suggested that \$1 of revenue from sugar ought to be treated the same as \$1 of revenue, say, from honey or from wool or whatever. That would be true, in my judgment, for sugar farmers. If the farm does only the production of sugar, that is going to be the only item in the list. But, nevertheless, that sugar grower would have been entitled to a 6-percent voucher on the first \$250,000 of value, 4 percent on the next \$250,000. Admittedly, that would bring a certain amount of discomfort to a very small number of sugar growers.

But, as Senator GREGG pointed out, a very small number receive 40 percent of all the money in the sugar program, as is the case again and again in agricultural programs as they are now.

They go to a minority of farmers to begin with. A very small minority of that minority receive a disproportionate amount of the payments—such as, in the totality of things, 47 percent of payments going to just 8 percent of farmers.

The sugar distribution is even more pronounced, with a vengeance. Therefore, the amendment Senator GREGG offers, a phaseout of these sugar subsidies over the course of a period until we get to zero in the year 2006. There is a transition that phases into the world market that has been discussed. I will touch upon that. It offers, at least, a glidepath out of this, given the fact we are not going to have a whole farm view but continue with very specific commodities because the program has had very unfortunate results, as Senator GREGG has detailed and that I want to underline.

In essence, his amendment would phase out the so-called loan rate for sugar beets and sugarcane, reducing it to zero. Marketing allotments and quotas for both sugar beets and sugarcane would be eliminated beginning with the year 2003 crops. Senator GREGG's proposal would make the funding offset of approximately \$1.2 billion over 10 years, according to CBO estimates, available to lift the shelter cap in place in the Food Stamp Program. So, in essence, Senator GREGG is moving this money, which is going disproportionately to very large sugar growers, to nutrition programs for the poor.

Eliminating this cap, as the Senator points out, will help a large number of families whose actual housing and utility costs put them in a situation of choosing between shelter and food.

This morning, as we discussed my amendment, I chose to offer a solution of roughly doubling the amount of money over the course of 5 years in food programs. Senator GREGG goes about this in a different way, given the loss of my amendment this morning.

The Senate committee bill maintains, as it stands, many of the current sugar program provisions and, in fact, provides additional benefits that proponents have required as well. It eliminates the marketing assessment on sugar, reduces the CCC interest rate on pricing board loans, authorizes a payment-in-kind program, reestablishes the no-net-cost feature of the program, and provides the Secretary with authority to implement allotments on domestic sugar production.

The loan forfeiture penalty on sugar also is eliminated. The taxpayer cost of all of this is expected to be about \$530 million in mandatory new spending, above baseline, during the next 10 years. This is the CBO 10-year score.

I mention that because there has been considerable discussion. Whatever may be the merits or demerits of the sugar program, the costs to the tax-

payers is de minimis. Albeit, a small problem in the past year, but nevertheless this was an aberration, as suggested. But it is no aberration when CBO scores the sugar program in the Harkin bill as \$530 million. That is real money, taxpayer money over the next 10 years. This is hardly a harmless procedure.

There has been long debate about the effectiveness in the administration of the program. I wish to touch upon some of those problems as an illustration of unintended consequences of the sugar program.

The U.S. Government, for many years, as all have pointed out, has subsidized domestic sugar production through a combination of price supports but, perhaps equally effectively, import quotas. That has led to, if we were discussing this in a foreign policy debate, some very serious problems. For example, throughout the 1980s, as this body and the President of the United States seriously talked about democracy in Central and South America and in the Philippines, the sugar situation arose every time. The countries were attempting to help find their way to the ballot box but then, fairly rapidly, due to some type of economic consequences in which the newly elected officials could be supported, they ran up against the fact that we restrict the amount of sugar imports to this country and restrict them rather severely.

A so-called sugar quota system occurred in the world, country by country—literally of how many pounds each country was allowed to ship to us. It mattered not what the price was. The entire situation was carefully regulated. Why? Because those who had formulated the sugar program readily saw that if we were offering stimulus to production in this country at the same time mandating imports from other countries, a collision was going to occur—which has occurred, from time to time. But what also happened was that other countries around the world were prohibited, really, from the economic sustenance that those exports to our country would have meant for them.

So on the one hand we talked about foreign assistance, foreign aid to these countries to shore up their fledgling economies and fledgling democracies, but not through allowing them to ship to us something of which they had surpluses and in fact produced at a fairly low production cost.

Throughout this debate, the production cost, the worldwide cost has been mentioned at approximately 16.5 cents. But that is the average cost. That is almost saying there is some type of average cost for the production of corn in the United States of America, which means maybe approximately half of corn growers are more efficient than that. Some are very much more so, as a matter of fact.

I mention this because some countries have a natural advantage in the production of sugar that we do not have. This is an acquired skill in the United States. Our problem, then, in terms of foreign policy, was exacerbated further, as has been pointed out, when we came into the NAFTA agreement. This is a serious problem on the horizon, not touched upon in great detail today but it would be by anybody in a sugar conference because we pledged to have a fairly free flow of Mexican sugar.

This gets into other internal agricultural disputes because those who are producing high fructose syrup—and this is largely corn growers who are interested in this situation—feel badly treated by the Mexicans. They have protested in about every way, in all the various settlement fora, that they are being shut down by Mexican intransigence. Mexicans are replying: By the way, you are supposed to take our sugar.

So to say the least we have a problem here between corn growers, if we were in that fora, and sugar growers. Likewise, our treaty obligations somehow are in some disarray when it comes to this issue.

In any event, domestic sugar processors have benefited from price support loans that guarantee them at least two to three times the world price of sugar and sometimes more.

We touch upon, once again, this price of sugar. And others have pointed out that the true average of 16.5 cents is the world price. I took a look at the Wall Street Journal this morning, and it is now somewhat less than 8 cents. It has not been a good week for sugar.

The proponents at least of the sugar program point out that this is so-called dumped sugar and that what I and others don't understand is countries and big users contract with each other. Presumably the idea is that they contract at some price that must be adverse to their situation because clearly it must be higher than the world price. Apparently, do this year after year, and keep on doing it regardless of how far above the world price it is.

For a commonsense listener of this debate, that listener might say: Why, just to test out the system, don't you just buy the 8-cent sugar? Why would you want to make a contract at 15, 16, 17, or 18 cents? The sophisticated sugar producer might very well say: Well, because that is about what it cost. And, by and large, that is where the bulk of it is if you have a big contract. You really need a lot. You need a certainty of supply. You need continuity of management, and so forth, as some have pointed out, and long-term contracts. But you don't look at the daily posting in the Wall Street Journal. But if you have something out there, I understand that.

We have sophisticated discussions about sugar prices that involve all of these aspects of certainty.

With regard to the pricing of various commodities, in my farm experience from time to time the starch company has suggested that, if I would guarantee a flow of corn month by month, which means that I would bear the storage costs and the problems of transportation and marketing, and what have you, they would be prepared to pay a premium for every bushel of corn well above anything that I could sell it for in the futures market, for example. Why would they do that? Because a guarantee of a certain number of thousands of bushels month by month with a fairly short haul and certainty in the neighborhood is valuable to them.

I can well understand why people would come to contractual agreements on sugar that might be above the fluctuations of the world market at some point. However, for the domestic consumer of sugar—this includes others well beyond candy companies or those who are commercially involved in these operations—it would be attractive to consumers in the United States if they could consider the possibility of buying this dumped sugar. It is as inexpensive as the sugar that was not dumped. As a matter of fact, domestic producers say that would be unfair because our production costs are well above that cost.

One can understand their argument on this despite the contracts which they claim to have made at prices that are much higher in a situation. But consumers are always helped by markets and by genuine competition. There is a lot of it out there.

The suggestion is that somehow if we were seduced by the idea of 8-cent sugar and started buying, that suddenly it would be gone, and that it would be back to 16 cents. That is nonsense. My experience, at least in visiting people all over the world who are involved—in the Caribbean, South America and Philippines—is they have a lot of sugar. It would not just be dumped. It would come in a steady flow, and it would come at a cost that is substantially less than that which is now paid by consumers. We would have tax reductions across the board.

It has the same effect as a drop in the price of gasoline, which we all applaud. No one, to my knowledge, is condemning Saudi Arabia for dumping gasoline on the American market. As a matter of fact, we want them to dump some more—as much as they can. We fear that our good fortune might end at some point; that the cartel might get together and somehow remedy the predicament. But for the moment, as consumers of gasoline, we understand the issue clearly. So should we as consumers understand the issue of sugar, a common substance used by most of us.

I am saying in terms of our standard of living that our situation would be enhanced. It would be a tax cut through the Gregg amendment.

For the moment, however, imports are restricted through quotas that are among the last remaining protection barriers in U.S. trade law. That, of course, means even with our barrier with Mexico with whom we thought we had reduced the barrier—the whole purpose of NAFTA—and despite claims that the sugar program operated at no net cost in fiscal 2000, the sugar program cost the taxpayers—not consumers but taxpayers—\$465 million, according to the U.S. Department of Agriculture. That is a substantial sum of money.

Furthermore, as we have heard, the Federal Government ended fiscal year 2001, the last year we were in, owning 1 million tons of surplus sugar, some of which is now given back to producers as payment for plowing up their growing crops.

USDA projects that by decade's end, the Government will own not 1 million but 4 million tons of sugar acquired through this program—through forfeiture of sugar pledged for collateral for nonrecourse loans under the program.

Senator GREGG has said—and I affirm—that we cannot follow this indefensible path. Under our current international trade commitments, we must soon permit increasing imports and obligations under "WTO" and NAFTA, which, coupled with record high domestic projections, will result in a sugar supply far in excess of demand. A long-term and rational solution must be implemented in the near future.

I compliment the Senator from New Hampshire for at least a bypass solution rather than an abrupt termination. The sugar program, in essence, is a transfer of wealth from many who are not able to pay—low-income persons—to a fairly small group of producers, many of whom are, in fact, very large corporations and wealthy individuals.

We are now talking about the sugar producers—not the candy companies that have been given some criticism for their wealth and their financial means.

Nearly all other farm programs make transfer payments from the Treasury. Thus, the transfers—whatever their merits—bear some relation to ability to pay since they utilize funds generated by the progressive income tax. But the sugar program works just the opposite. Any tax on food places a greater burden on low-income Americans. Thus my point: Any decrease in the price, such as the ability of incoming shipments of sugar at the world market, serves as a tax decrease for the same reason.

The sugar program ultimately must hurt consumers, despite the pledge

that somehow stability is maintained, somehow that a moderate price is maintained, as opposed to prophecies that the price literally would take off if we were going to buy in the world exports at 8 cents.

Finally, I would just say, simply, the price of all food that contains sugar would be affected in addition to the raw product. Sugar growers' own statistics show that in developed countries with access to this world-priced sugar—and I cite particularly our friends in Australia and Canada; these are countries that really have not been so inhibited in utilizing the world-priced sugar at these prices—retail prices in Canada and Australia are lower than in the United States.

Only countries with protectionist sugar regimes—and that would include the European Union, of course—have consumer prices that are higher.

If this were entirely an economic debate, it would be serious enough because we are talking about consumers all over the country in what amounts to a tax increase. And now this is augmented by actual Treasury payments in the hundreds of millions of dollars.

Senator GREGG touched upon the Everglades. Let me go into this further.

Sugar production on approximately 500,000 acres at the top of the Everglades has substantially contributed to the environmental degradation of the Everglades. In 1996, the Senate Agriculture Committee supported the inclusion of \$200 million in that year to purchase lands in the Everglades agricultural area, simply to help in the process of restoration. This was a bipartisan effort and one which Florida Governor Bush called "the linchpin of Everglades restoration."

From my personal experience, for a variety of reasons, I was campaigning in Florida that year and was made well aware of what was a collision of cultures, so to speak. A very huge number of Floridians described the situation to me in detail. I went to the Everglades to see this degradation for myself, as well as the sugar plantations and all that was involved.

People could have rationalized, in times gone by, that, after all, human beings should be supported in agriculture, that the spoilation of whatever was there had happened elsewhere in our country at various times in history, that it was too bad if additives to the crop: fertilizers, chemicals, what have you, floated downstream and even got offshore and created all sorts of ecological difficulties; that is the way it goes. And to seriously talk about winding this up, at this point in history, even if it meant that you could never restore the Everglades, or even the waterways of Florida, was really beside the point.

But for many Floridians it was not beside the point. As a matter of fact, they proceeded to a very tough ref-

erendum campaign that was decided ultimately by a very narrow margin in favor of the sugar growers, not those who were in favor of restoring the Everglades.

Thus, as a result of that debate, and in part because many of us in the Nation as a whole believed that this is a very important environmental project, the Congress has come into it in a big way to try to work with those in the State of Florida who still, in a fairly modest way, are trying to wind up the worst of the predicaments and wrestle with the history of the past.

Let me just make the point, Members who are thoughtful about this sugar amendment need to think about the economics. I appreciate the problem is the Everglades, not North Dakota or Minnesota or sugar beets in the North. One cannot describe the same environmental catastrophes to those, and yet they are caught in the same economic problem. But we really need to consider the expenditures that are now going to be involved as the Congress, the President, and others, including the Governor of Florida, have become not only aware but determined, really, to turn around the course of history which ecologically has been disastrous in this situation.

Clearly, we ought not to be doing, in this bill, what we are doing, I fear, with almost every other crop; that is, offering incentives for more production. And that, I fear, we are doing again here. One can say that, after all, what is sauce for the goose is sauce for the gander. If you are going to offer more incentives to corn farmers to plant more corn, why be sparing with regard to the sugar brethren at this point?

I suppose there is a certain rough equity. If you are planning to simply overproduce everything, then, perhaps, consistency gets in the way here. But I would suggest that would be a mistake not only with regard to the sugar program but clearly with regard to the ecological and environmental consequences.

The right move is to wind up the sugar program. Members have pointed out such amendments have been offered seemingly for time in memorial. During the 25 years I have served on the committee, I cannot remember how many sugar amendments have arisen, but they have come frequently, at least one every farm bill, usually with great discouragement to the proponents.

I believe three farm bills back, if memory serves me right, a modest proposal came during the markup around the Agriculture Committee table. A Senator offered a suggestion that the loan rate be reduced by 2 cents. I think even in those days it was 18 cents or 16 cents. The suggestion was 2 cents be subtracted from that. That was roundly defeated. If it got three votes, that may overstate it. How could this be?

Why such support of a reduction of such a modest amount?

The fact is, around the table in the Agriculture Committee—and this is not news to the Senator from Delaware—many of us who are deeply interested in the crops and in the agricultural practices in our States have a feeling we have come to that table to protect whatever is there. Sometimes that is very difficult for Members. The case is tougher and tougher to defend as the years go on, but that does not deter most. Apologetically, we will say: I have to do what I have to do. I can be a statesman somewhere else, but not when it comes to sugar or peanuts or tobacco or even corn.

I understand that. As a result, what I often have observed, in 25 years, is that those who have something to protect, as a matter of fact, make up a very large majority of us around the table. The situation would be—I think simplicity may be overstating this, but, essentially, if you are there to protect tobacco, you call upon your brethren who are protecting sugar or protecting peanuts or wool and mohair or indigo or honey or whatever the program may be—all of these programs have been highly suspect for years. From time to time, some have actually been wound up. There was good fortune in this respect a couple of farm bills ago when I think we finished the honey program. Wool and mohair certainly was gone, but it reappeared, not because of a farm bill but in the dead of night, in an appropriations bill at the end of a session, such as now, the proponents have managed to bring it back. So even around the table, when we make reforms, they do not necessarily stick. Therefore, I admire the courage, the foresight, statesmanship, and the wisdom of the Senator from New Hampshire in trying again today.

He has offered a constructive amendment which is good for America. At some point we really have to think about that. We can become so parochial and so narrow in our focus that we believe that a very few growers of any crop, whether it be sugar or something else, are worthy of our utmost attention.

But Americans generally listening to this debate, I believe, will find the equation I have offered a reasonable one; namely, we welcome the so-called dumping of oil by Saudi Arabia and others; we welcome the lower price of gasoline because our cost of living situation is helped. We would welcome, in my judgment, the purchase of sugar at the world price. We would welcome the fulfillment of our agreement with Mexico because that is so important not only with regard to agriculture but with regard to general trade and prosperity with our neighbor to the south as well as an enhanced standard of living in this country. And we welcome

fulfillment of our WTO obligations because all of us want to export more of the things we do well in our States.

We cannot withhold our obligations to recognize that in other places sometimes people do things well also, and our consumers benefit from those laws of trade.

I call for support of the Gregg amendment and yield the floor.

The PRESIDING OFFICER. Under the previous order, the Senator from Montana is recognized for 15 minutes.

Mr. BURNS. Mr. President, it is hard to follow my friend from Indiana because he makes his argument so sound that it is hard to argue with him. I look upon the support we give American agriculture, no matter what segment, as an insurance policy.

The figure was that the sugar program costs the American taxpayers some \$460 million a year, something like that. That is in the neighborhood. That may not be correct. That is less than \$1.60 per American. I can't insure my car for that price. What we are talking about here is that even though sugar prices go down, we still see prices of those products that have a high preponderance of sugar in them continue to go up. That is the record. It is there for all to see.

If one looks at the total picture of \$73 billion a year we put into the agriculture budget, one has to remember that over half of that is programs on nutrition, food stamps, WIC, many others, meals on wheels, school lunch programs, all subsidized by the American taxpayer. The rest of it is farm programs and the administration of those farm programs.

I look at it as an insurance policy. No other country in the world has a grocery store like we do. Americans have to agree with me that when you go into a grocery store, there is a variety of anything you want to eat. I realize that maybe we don't look upon that as an important thing, but the second thing we do every day when we get up is eat. I don't know what the first thing you do is; that is up to you. But we all need it. We would like to have a little insurance and a little security in the food we buy both from a quality and quantity standpoint. And we do.

You can buy your meat, prepare it any way you want. Same thing with your fresh fruits and vegetables. This is just about the only country in the world, that has fresh vegetables even in the northern tier of States. When there is blowing snow outside, we can still buy fresh lettuce and vegetables. It is an infrastructure and a distribution system that is unmatched in the world.

Getting back to farmer income, for many years agriculture, at the production level, lived on 15 to 20 cents—and that varied—of the consumer dollar which went back to the American farmer. Now we are trying to get by on 9 or 10 cents. Our cost of production,

our cost of vehicles, our cost of machinery, of our fertilizer, our chemicals, everything it takes to produce a crop is higher. Let's take, for instance, wheat. In my State it is around \$2.75 a bushel. That is lower than it was coming out of World War II, 50 years ago.

We are a blessed nation. We can produce. The American farmer can turn it up, and they can produce it. My goodness, can they produce it. Yet when it comes time to write the check, not near as many of those dollars and pennies filter down to the American farmer. Think about this: When you buy a loaf of bread, less than a nickel's worth of wheat is in it.

Yes, the retail price of sugar in Canada is lower than in the United States, 6 cents a pound. No wonder the people who handle sugar in Canada like the idea of stuffing. This is the only industry where it is mandatory by law and by trade negotiations and trade agreements that we import so much sugar—not trying to overproduce here in the United States, but it is mandatory. It comes to about 15 to 20 percent of our total production is mandatorily put on our market. If we look at the surplus, that is just about our surplus.

We can talk about numbers and figures. In fact, we can swim in those numbers and figures. But at some time we have to take a real look at the men who are on the ground in charge of producing. They are the ones. It is on their backs that this good economy operates. We don't spend 50, 60, 70, or 80 percent of our income just to put a meal on the table. We do it for less than 20 cents.

In order to ensure that supply of quality and quantity, and also prepared in any way that you want, there has to be some sort of an insurance policy that that, too, will remain. We have bigger things to argue about in this Senate than this sugar program and what it costs. In fact, the cost, when you compare it to the rest of the economy, is nothing.

We could talk about food safety. We could talk about terrorism and its impact on our ability to move food from the producer to the table.

That is what we are talking about here. It is an industry that should be allowed to survive. Sugar producers did put forth a plan for why inventory management is the plan for sugar farmers, consumers, and taxpayers. Let's not get caught up in saying that if we take away a sugar program, the cost will go down to the consuming public, when the figures bear out that it is not true. That was very ably pointed out. That is not true.

If we had assurance that we could do a lot of things and provide food for those who are in need—that is what this does, and it makes it affordable. What it saves on the consumer side also saves on the Government side whenever we start talking about nutri-

tion programs and programs that we are willing, as Americans, to provide those who are in need. Nobody ever thinks about those savings.

On the loans—nobody ever thinks that—while we have the sugar, it is sold. Where did the money go? We just hear about the initial appropriation for the program, but we never get an accounting on how much the Government owned, how much it sold and the difference. If we lost a little money, then that takes that so-called—everybody hates this word—subsidy number way back. It is hard to get those accounting numbers.

So what I am saying is that Americans are willing to ensure the stability, the quality, and the supply. They are willing to accept and pay for that insurance policy. If you look at the whole bill, I think it is around \$250, \$270 a household across the country. You can't insure your car or your house for that, and you can't insure your life.

I had a cookie while coming over here. Obviously, I've had a lot of cookies in my life. I have never missed a meal, nor do I intend to. But I also understand that this society is the benefactor of people who really know how to produce. Now, talking about limitations and all of that, let me tell you folks that on the farm and ranch, the people who were inefficient, just playing around and trying to farm and could not, they are gone.

We are talking about an agriculture that is down to the point where these are the good people who know how to operate and they are efficient. Our production, as far as increasing our production per acre, has almost been capped out. We can't increase that any more. So the old analogy saying we have to be more efficient and increase our production per acre, and our cost—we will have more to sell, but our cost of production continues to edge up there, also.

I am always reminded of the two fellows in Montana—brothers—and they go to Mississippi and buy watermelons for 75 cents apiece and haul them to Montana and sell them for 74 cents apiece. One looked at the other and said: We are not making any money. The other suggested: We have to get a bigger truck. Well, that is not happening in agriculture anymore. That is not happening there.

So the consumers of America, who are benefactors of this great production, are willing, I think, to buy that insurance policy that says, yes, we will have a supply; yes, it will be ample; yes, it will be quality; and, yes, it is guaranteed to be at that grocery store that is open 24 hours a day and the ability to buy anything you want to eat, in any amount, at any quality, prepared in any way. That is what we are talking about there. That is what American agriculture is all about.

We want to help people. I don't know of anybody who ever showed up at our house who didn't get fed when mealtime rolled around. That is the way of the people of the prairies of this great country.

The Senator from Indiana knows of the values in rural America. They deserve to make a living—just to make a living. Sugar is no different. That is all they deserve.

Now, are there people who abuse the system? Sure, there are. There always are, but they are few. The people who really need the help are people who didn't buy a new pickup last year and didn't buy one all through this boom. We have seen cattle prices a little bit better now, but we haven't seen a great boom on the farm or ranch through this great economic recovery we came through. We did see our cost of production escalating. For everything we bought, prices went up because of the last boom.

I hope we will table this amendment and not send the wrong signal to agriculture and the American people that, yes, we like the insurance policy that we have and, yes, we like that security.

I yield the floor and yield back the remainder of my time.

The PRESIDING OFFICER. Under the previous order, the Senator from Idaho is recognized for 15 minutes.

Mr. CRAIG. Mr. President, debate on the Gregg amendment to the Harkin farm bill is nearly at an end. We have had an ample period of time to discuss the pros and cons of a national sugar policy not just for the producing beet or cane farmer in the great North, Northwest, or the South, but also a sugar policy for the American consumer, who has seen very stable sugar prices for well over a decade.

What I have recognized in my years of involvement with this issue is that the producing side of the sugar industry is very willing to create a dynamic program that does not cost the American taxpayer any money, creates a stability of price both at the farm level and also at the manufacturing level and, ultimately, the consumer level. That has been the historic pattern of a sugar policy, except for just the last 2 years.

In fact, over the course of the last decade, this program has not cost the American taxpayer any money. It has returned money to the Treasury of the United States. In fact, it has made money for taxpayers. The program of acquiring from the market, holding, and ultimately entering the market with the product has served us well.

There is now a large supply of sugar worldwide, including in the United States. We have seen some efforts of importers outside and inside our country to try to avoid the 15-percent volume level we allow coming into this country. Some have argued that if you kill the program, down comes the price

and the consumer benefits. Ironically, that just isn't true. The price is now down well below what it was a few years ago. Yet the price of a product that has substantial sweetener in it—sugar, I should say, as there are other forms of sweetener—hasn't gone down; it has gone up. Nearly 80 percent of the price of any food product on the market today is not the food itself; it is the cost of labor, the cost of processing, advertising, marketing, and shelving. All of that goes into the price the consumer pays.

So when a less than 20-percent item in the overall cost of a product declines, as other costs of input are going up, the consumer sees no difference and, in many instances, there is an increase, as some have talked about in the Chamber this afternoon.

In the Harkin bill that is before us, in a substitute that will be offered, known as the Cochran-Roberts bill, the sugar industry, working with the Congress in shaping the new policy, has recognized again the need to change, to be dynamic—not only to comport to budget requirements but also to deal with the consumer and make sure the consumer gets a reasonable shake and the producer gets stability in the market.

The sugar titles in both the House and Senate proposed farm bills direct the Secretary of Agriculture to operate the U.S. sugar policy “at no cost to the Federal Government by avoiding the forfeiture of sugar to the Commodity Credit Corporation.”

It is that forfeiture that some have seized on today that has only happened twice in a period of well over a decade that we want to get away from.

For somebody to suggest there is going to be a good deal of money to transfer to some other program within agriculture policy or the bill or the appropriations, that just is not the case. The new farm bill will restore to the Secretary of Agriculture a key authority that was suspended in the 1996 farm bill—the authority to limit domestic sugar sales during times of surplus through flexible marketing allotments.

The bill also grants the Secretary the authority to reduce Government sugar stocks and the potential for future sugar loan forfeitures by accepting bids for Government sugar in return for reducing future production.

The United States is required, as I mentioned earlier in the debate, to import 1.5 million tons of sugar, or about 15 percent of its consumption each year, whether the U.S. market requires that sugar or not.

In addition, unneeded sugar has entered the U.S. market—again, something mentioned by myself and others—to avoid the import quotas in creative ways, what we call stuffing or the stuffing of the product. Because of the special concessions of NAFTA and the concessions to Mexico combined with

this stuffing effort, we go beyond the 15 percent of total U.S. consumption or the 1.5 million tons.

The Secretary's current lack of ability to limit domestic supplies in the face of large and relatively uncontrolled imports resulted last year in historically low domestic sugar prices and the first significant sugar loan forfeiture in nearly two decades.

Once again, none of that translated to the market shelf; none of it translated to the consumer's pocketbook; all of it translated to the bottom line of the processor or the confectioners, and their profits went up at the cost of the consumer and not at the profit of the farmer.

Under the new farm bill, sugar marketing allotments will automatically be in place unless triggered by a high level of imports greater than 1.532 million short tons. With domestic sugar supplies under control, we believe the Secretary will be able to balance market supply and demand and ensure market price sufficient to avoid sugar loan forfeiture and any Government costs.

The Congressional Budget Office scoring of the new no-cost sugar policy, however, shows a modest cost. I recognize that even though it is clearly the intent and the purpose of the legislation not to have that.

Since CBO cannot assume other policy changes, it must assume that import quota circumvention problems will persist, that U.S. sugar imports will be high, and that marketing allotments in other years will not be triggered, and absent marketing allotments, sugar loan forfeitures might occur again.

Remember, I keep talking about the flow of product into the market. That is part of that world sugar my colleague from New Hampshire talks about, exposing well over 15 percent of the U.S. domestic market to the availability of that world product.

The industry, however, is convinced that policy changes will occur to rectify the import quota circumvention problems. We have had court tests in our favor. We are working now to block the ability of importers to stuff product with the hope of pulling that sugar out and entering it into the market. A successful U.S. Court of Appeals ruling, as I mentioned, has halted circumvention of the import sugar quota by a product entering through Canada and, as we know, it is called stuffed molasses.

Legislation is pending in the Senate, of which I am a coauthor, that addresses the circumvention problem. I hope we can move it. I hope all will join with us to disallow that kind of illegal act.

I believe that brings the debate full circle. The Senator from New Hampshire is worried and wants to eliminate the existing program. We are concerned

about the taxpayer and want to recreate the program in a way that not only protects the producer and stability but protects the taxpayer and offers the consumer stable prices in the market. We believe what we are offering today, what the Senator from New Hampshire is trying to strike, can accomplish that purpose.

I ask my colleagues to join us in voting to table the Gregg amendment and to give the adjusted policy, again, the opportunity to work its will in the market with the producer, with the consumer, to the advantage of all.

I yield back the remainder of my time.

The PRESIDING OFFICER (Mr. CLELAND). Under the previous order, the Senator from New Hampshire is recognized for 5 minutes.

Mr. GREGG. I thank the Chair.

Mr. President, we have heard a lot of debate on this program. I must take exception to some of the things said by the opposition because it appears they are inconsistent with the facts.

For example, the representation that this program is not going to continue to cost the taxpayers money is one which is not supported by the facts. In fact, USDA, which is responsible for the agricultural products of this country, has said we will purchase close to 4 million tons of sugar over the next decade. Where we are going to put this we do not know—somebody's garage, I guess—and that will cost us \$1.6 billion in tax revenue. So this is an expensive program. If we put it back into a marketplace concept, we will save the taxpayers those dollars, which dollars under this amendment can be used to assist people who are on food stamps who are trying to buy staples to live a decent life and have adequate nutrition.

Secondly, the point was made, and I do not understand the concept here, that foreign sugar is coming in through molasses, through spiking of molasses, and that is clearly affecting the availability of sugar in this country, and that is what we have to stop. Why do you think it is coming in? It is coming in because the price of sugar in this country is so absurdly high.

You can actually go through the huge exercise of taking molasses, spiking it in some other country, then shipping it into our country and refining it off, and you can still produce sugar that is dramatically less in cost than what it costs the American consumer to get sugar because we have this price which is 2½ to 3 times the going market rate of the sugar—22 cents and 18 cents versus about 9 cents. It is as if they are saying: The marketplace actually might work, but we are not going to allow it to work. If there is anything that shows that we can reduce the price of sugar to the American people, it is the fact people are willing to go through this huge machination to get

sugar into this country, around all the barriers the sugar producers have produced. It is counterintuitive at the extreme to make that argument.

This debate comes down to a very simple fact, which is this: 42 percent of the revenues and the benefit of this program are going to 1 percent of the farmers, but all the American people are paying \$1.9 billion in extra cost to support that program. The price of sugar is 2½ to 3 times the cost on the world market because we are trying to benefit a very narrow group of people who are very effective constituents, I guess, and argue their case effectively as constituents but clearly have no equity to their argument. As a practical matter, they are reaching into the pockets of the American people and taking dollars out of those pockets which could otherwise be used to purchase more food or better commodities.

It is a program which is totally counter to everything for which we as a capitalist, market-oriented society stand. It cannot be justified under any scenario other than it represents the power of one interest group to benefit at the expense of the American people and the American consumer.

I greatly appreciate the statement of the Senator from Indiana who knows more about agricultural policy than I will ever know, who forgot more about agricultural policy than I will ever know. In his support of the amendment he gave one of the clearest statements as to why this program is such a disaster from a standpoint of economics and from a standpoint of production and from a standpoint of its impact on the consumers of America and from a standpoint of its impact on the American taxpayer. I thank him for his support of this amendment. I hope people will listen to his logic and his reason and oppose the motion to table this amendment, which I understand is going to now be made by the assistant leader.

I yield the floor.

The PRESIDING OFFICER. The Senator from Nevada.

Mr. REID. Would the Senator have any objection to the manager of the bill speaking for 3 minutes prior to the vote?

Mr. GREGG. I have no objection.

Mr. REID. I ask Senator HARKIN be recognized for 3 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. HARKIN. Mr. President, I have not had anything to say about this amendment yet. I point out sugar is so cheap in this country you cannot believe it. It is cheap for the consumers buying it in the store. It is cheap when you go out to eat. The people who benefit from the Gregg amendment would be the manufacturers. They are not going to pass this on to the consumer. No way.

We want to keep our sugar farmers in business; 420,000 Americans are em-

ployed in the sugar industry. It would ruin them. It would ruin our corn sweetener market, further depressing extremely low corn prices in my part of the country. This is wrapped up in a lot more than just what the price of sugar is that Senator GREGG is trying to get at. I have always said sugar is probably one of the cheapest products anywhere for consumers.

Here is a bag of sugar, Holly Sugar. I am not pushing Holly Sugar, but that is what I happen to have. They are little bags of sugar. How expensive is this sugar? Go into any restaurant and take the sugar, put it in a glass, in your coffee; you can take two bags of sugar and put it in your coffee. Do you know what the price is? Nothing. It is so cheap that the restaurants do not even charge for it. Next time you go to a restaurant, have a cup of coffee, reach over and grab the bowl of sugar and put in a couple of teaspoons. They don't even charge because it is so cheap.

There has been a lot of talk in the Chamber about the sugar products. Sugar is one of the best buys for the American consumer today. A 5-pound bag of sugar at Safeway is \$2.

If you want to gouge the consumer and give more to the processors and the candy manufacturers and everybody else, then you want to vote for the amendment of Senator GREGG. If you want to help the sugar farmers and the 420,000 Americans who work in the sugar industry and corn farmers all over America who depend upon this, we ought to defeat the Gregg amendment. I point out on July 20, 2000, we had the same basic amendment before the Senate. It was defeated 65-32. I hope the same happens again today.

I yield the floor.

The PRESIDING OFFICER. The Senator from Nevada.

Mr. REID. I move to table the Gregg amendment, and I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second? There is a sufficient second.

The question is on agreeing to the motion. The clerk will call the roll.

The legislative clerk called the roll.

The result was announced—yeas 71, nays 29, as follows:

[Rollcall Vote No. 364 Leg.]

YEAS—71

Akaka	Clinton	Helms
Allard	Cochran	Hollings
Allen	Conrad	Hutchinson
Baucus	Craig	Inhofe
Bayh	Crapo	Inouye
Bennett	Daschle	Jeffords
Bingaman	Dayton	Johnson
Bond	Dodd	Kerry
Boxer	Domenici	Landrieu
Breaux	Dorgan	Leahy
Bunning	Durbin	Levin
Burns	Edwards	Lieberman
Byrd	Enzi	Lincoln
Campbell	Graham	Lott
Cantwell	Grassley	McConnell
Carnahan	Hagel	Mikulski
Carper	Harkin	Miller
Cleland	Hatch	Murkowski

Murray	Sessions	Thurmond
Nelson (FL)	Shelby	Torricelli
Nelson (NE)	Smith (OR)	Warner
Reid	Stabenow	Wellstone
Roberts	Stevens	Wyden
Rockefeller	Thomas	

NAYS—29

Biden	Frist	Reed
Brownback	Gramm	Santorum
Chafee	Gregg	Sarbanes
Collins	Hutchinson	Schumer
Corzine	Kennedy	Smith (NH)
DeWine	Kohl	Snowe
Ensign	Kyl	Specter
Feingold	Lugar	Thompson
Feinstein	McCain	Voinovich
Fitzgerald	Nickles	

The motion was agreed to.

Mr. HARKIN. I move to reconsider the vote and I move to lay that motion on the table.

The motion to lay on the table was agreed to.

The PRESIDING OFFICER. The Senator from Iowa.

Mr. HARKIN. Mr. President, we are making headway. We are making good progress. I thank the people who are offering these amendments. We have had good debates. We are moving right along. So I hope now we can have another amendment up and we can have more votes today and get this bill completed.

I understand Senator DOMENICI has an amendment he will be offering in a couple minutes. With that, again, I hope Senators will be ready to offer amendments. I hope we can have some time agreements and move through them. I hope we will have another vote very shortly.

The PRESIDING OFFICER. The Senator from Indiana.

Mr. LUGAR. Mr. President, I appreciate the words, as always, of our chairman. My understanding is, in a couple minutes Senator DOMENICI will offer an amendment. After disposition of the Domenici amendment, we are anticipating an amendment to be offered by Senator BOND, and then, following that, an amendment by Senator MCCAIN.

In the meanwhile, amendments might come from the other side of the aisle. But these three amendments are known quantities with the Members who wish to be recognized as we dispose of the amendments.

I thank the Chair and yield the floor.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. DOMENICI. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 2502 TO AMENDMENT NO. 2471

Mr. DOMENICI. Mr. President, I am going to offer an amendment on behalf of seven or eight Senators. I will name them in a moment. For the interest of the Senators, my discussion about this

amendment will probably take about a half hour, and then I understand about five or six Senators would like to speak. Nobody will be speaking extremely long, but we think this is a very important issue. More than just the Senator from New Mexico are desirous of being heard on this amendment.

I send the amendment to the desk and ask for its immediate consideration. I offer this on behalf of myself, Senators CRAIG, CRAPO, BURNS, HUTCHISON, ENZI, THOMAS, KYL, SMITH of Oregon, HATCH, ALLARD, and CAMPBELL. I have submitted it to other Senators. I fully expect more to join soon. I send it to the desk with those cosponsors at this point. As I receive others, I will submit them.

The PRESIDING OFFICER. The clerk will report.

The bill clerk read as follows:

The Senator from New Mexico [Mr. DOMENICI], for himself, Mr. CRAIG, Mr. BURNS, Mr. CRAPO, Mrs. HUTCHISON, Mr. ENZI, Mr. THOMAS, Mr. KYL, Mr. SMITH of Oregon, Mr. HATCH, Mr. ALLARD, and Mr. CAMPBELL, proposes an amendment No. 2502 to amendment No. 2471.

Mr. DOMENICI. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To strike the water conservation program)

On page 202, strike lines 14 through 22 and insert the following: "technical assistance)" after "the programs"; and

(3) in paragraph (2), by striking "subchapter C" and inserting "subchapters C and D".

Beginning on page 121-118, strike line 4 and all that follows through page 121-130, line 19.

Mr. DOMENICI. Mr. President, I understand we are engaged in what some would call a very serious effort. I want everyone to know my intention is not to in any way delay our process. As this issue evolves, Senators will know that for the West, this is a very important decision.

I note the presence of Senator REID who is also a western Senator. He had something to do with putting the provisions in that I would like to take out. So hopefully we will have some discussion before we are finished.

This is a motion to strike essentially all of the provisions, brand new provisions in the law, that would take the conservation program that we have in effect—that is called the conservation reserve program—and would create a brand new one for 1,100,000 acres of land in the West. It would say that the Secretary of Agriculture, not the Secretary of the Interior, as we have now, would have the authority to acquire this acreage, up to 1.2 million acres, and the water rights that come with it, and then to use the water rights for the first time in derogation of State water law. In other words, they could be used

for Federal purposes, not bound by State law.

This is a very big decision for States such as New Mexico and many Western States, as you can see, that in just a few hours, most of the Western States' Senators are on board trying to prevent this from becoming effective.

Actually, the conservation reserve program has been a very effective program. The Senator from New Mexico in no way intends to change that program. In fact, I believe the underlying bill that was produced by various Members who have been speaking in the Chamber even makes the conservation program bigger and perhaps even better. But there is another provision I am referring to that is brand new.

The language contained in this substitute requires that the Secretary of Agriculture devote 1.1 million acres of the conservation reserve program to a new water conservation program. That didn't exist before. We now have a water conservation program.

Specifically, this program will allow the Secretary of Agriculture to enter into contracts with private landowners, estates, or Indian tribes for the transfer of water or the permanent acquisition of water rights to benefit environmental concerns out in our waterways and in our various waters in the West.

When enrolling this new acreage, this language requires that the Secretary of Agriculture give priority to land associated with water rights. Heretofore water rights were not necessarily considered as a paramount reason or a high-priority reason for selecting these various acreages to make up the conservation reserve. This now says the Secretary of Agriculture will give high priority to these lands that are going into this reserve, if they have water rights along with them.

The purpose of the old program was to remove vulnerable land from production, not for the acquisition of water rights. Everybody here who has praised the conservation reserve program praised it because it removed vulnerable acreage from production and it had no higher purpose. Now we have established a brand new higher priority, and that is to acquire land if it has water rights.

In essence, this is an attempt to pirate private water rights from individuals for purely Federal interests. Allowing the Secretary of Agriculture to permanently acquire these water rights gives the Federal Government control over State water.

I don't think we ought to do this. I wish I would have had a chance to sit down across the table and discuss this approach with those who have put it in this Agriculture bill, including my good friend Harry Reid. I don't think western Senators, when confronted with their constituents and asked by their constituents in water-short

States whether it would be prudent to create a high-priority program that could take those water rights as part of a conservation reserve program and attribute them to the Federal Government so the Federal Government could use it for Federal purposes, environmental or otherwise, and in that manner run inconsistent, if they so desire, with State water law, would agree.

We already have shortages that are sufficient, which means we don't have enough water for the natural uses that we have been making for years. We don't have enough water in two of our basins in New Mexico that are alongside of rivers, be it the Rio Grande or the Pecos. We don't have enough water for the current users under existing State law, which is a water rights system built upon first in use and application.

The first in time that does that is first in time in terms of ownership and priority. That is an already existing system. It has existed under Spanish law in our State. Many States in the West have first in time of use, which creates first in right for waters along streams.

Here in the East there are many Senators who are going to say: This doesn't have anything to do with us. They are probably right. They don't have any shortage of water. In fact, many of the Eastern States do not have this allocation method. They use what is referred to in law school as the riparian rights system. If you are alongside of a stream, you use the water alongside the stream. Not so in States such as mine and Arizona and the others, Idaho, Iowa, Oregon. You use the water in proportion to your having taken it from the stream and put it to a beneficial use. In the Western States, that is either constitutionally established or statutorily established, but it is powerful proprietary interest in situations up and down and across our borders as water becomes more and more scarce.

In essence, all I choose to do in this amendment, where I am joined by the various Senators I have just named, is to say at the end of the session we should not be considering a change in water rights for the West.

(Ms. STABENOW assumed the chair.)

Mr. DOMENICI. I urge that Senators help us by just taking this out of the bill and saying another time, another place, we will have some significant hearings. Let's hear from our States and our communities, and let's hear from water ownership districts and associations, be they in Wyoming, New Mexico, or wherever. Let's hear from them and let's see how inserting this new bargaining chip in the middle of a river basin might have either a negative or positive effect.

I actually believe we do not need in the basins of New Mexico—which are very short of water right now, and

some are arguing whether there is enough for the already existing rights—another player plunked down on the stream that can, in fact, apply this water to another separate use and even abandon the State water law that controls how it is used, where it is applied, and what it is used for. I just don't think it is the right time.

I would have thought if we were going to make such a change or imposition on State law as it pertains to water, we would have gone a little slower and would not have come up with an agriculture bill where these water rights have not been part of any hearings in the appropriate committees. As a matter of fact, I am not sure but that these provisions would have been subject to the jurisdiction of the other committees besides Agriculture. I believe the Energy and Natural Resources Committee would have liked to look at this new language in terms of new priorities and new rights.

So this is an attempt on my part not to change but to just strike these provisions. I don't have amendments to the provisions crafted on behalf of Senator REID, or whomever, and put in this bill. I don't think we ought to do them tonight on an agriculture bill, when it could have a profound impact on water rights in the West. There are certain groups that maybe can't get all the water they want in our States, for what they see as important uses. They have come along and said maybe we can do it this way; we can let the Secretary of Agriculture acquire these water rights as part of an old program that had nothing to do with acquiring water rights but had to do with acquiring properties to be put in a reserve so that we would have a better chance for these properties and these lands to develop and become usable if they are taken out of use and put into a reserve.

Now somebody has found that we can take a piece of that and grab with it water rights and then let the Federal Government decide how to use them under Federal law, not State law. Changing the program—this old, good, solid program, the CRP program—could force many farmers to choose not to participate in a program for fear that they could be coerced into giving up their water rights.

I don't think this is the right thing to do. I don't believe we are anywhere close to correct in assuming that this should be a highest priority for the CRP in the future. I cannot believe that of all the uses out there that go along with the CRP, Conservation Reserve Program, that we could establish without any serious and significant hearings that the Secretary of Agriculture—a new person in this equation, as it used to be the Secretary of the Interior. Now we have added the Secretary of Agriculture in this bill, and I don't think that is a move we should have made without significant hearings either, but this would change that.

So I close my first round on the Senate floor by asking my distinguished friend, Senator REID, if he will consider taking these provisions out of this bill. I don't believe they belong here at this time, when we haven't had an opportunity for significant hearings regarding the subject, and when it is clear and obvious to this Senator that we are going to give the Secretary of Agriculture a whole new series of rights under a program that is working well now, working well to take lands out of production. Now we are going to say we are giving the Secretary of Agriculture a new authority—and it is of highest priority—to acquire lands for this program if they have water rights so the Federal Government has both water rights and Conservation Reserve Program land. Then once the Federal Government has it, the Secretary of Agriculture is no longer bound by State law but can accomplish in a basin that is strapped for water a conflicting use just to come along and plunk itself on the water with a brand new right not governed by the State law that has been in effect, in many cases, for decades on these river basins.

So I hope that Senators will go along with the huge preponderance of western Senators and say let's strike this provision for now. Let's go back next year and have hearings on what will this do to the water rights in the West. What will it do to water districts and river basins that are already so short of water that the next legal wars for the next decade or two are going to be over whether there is enough water for the existing priorities under State law. I think in many cases we are going to say there probably isn't. We are probably going to say, if there isn't, how can we justify a new high priority for the Federal Government to acquire these water rights as part of a Conservation Reserve Program and then use it as they see fit.

It is a pretty clear-cut case. Is now the time to do this or not? Again, I work on many issues with my distinguished friend, Senator REID from Nevada. We are chair and ranking members on an appropriations subcommittee that does a lot of great things. We understand each other very well. I actually didn't know anybody was working on this provision, including my friend, Senator REID, that would change or have the potential for changing the water rights priorities from State priorities to an imposition of Federal priorities on river basins that don't have enough water for what rights already exist and that are being applied under State law.

Mr. NICKLES. Will the Senator yield?

Mr. DOMENICI. Yes, I will.

Mr. NICKLES. Will the Senator be kind enough to add me as a cosponsor?

Mr. DOMENICI. I am delighted to do that. I yield the floor at this point.

Mr. REID. Madam President, I am happy to respond to my friend from New Mexico. However, there are a number of myths. A myth is something which I guess takes a long time to perpetuate, so maybe we will not call these full-blown myths, but there is some misinformation the Senator has been given.

I will talk about the first myth: Some claim that the water conservation program will preempt State law and allow the Federal Government to run water law in the States. That is simply not true.

Any application to enroll in the program would have to be approved by the State in which the farmer farms. For example, if a rancher in Nevada decided he or she wanted to be part of this program and the Department of Agriculture decided it was a good deal, they would have to go to Mike Turnipseed, Nevada's water engineer, and if he said no deal, there would be no deal. All this talk of coercion is without logic.

I find, and I say with respect to the senior Senator from New Mexico, when we have legislation and there are not any meritorious arguments against it, the first thing one says is there is another committee that has jurisdiction or it has multiple committee jurisdiction. That has been raised in this debate.

The other argument continually raised when one does not have substantive arguments to good legislation is: We need more hearings. Whenever you hear that, it should trigger figuring out what the real merits of the opposition might be, and the merits of the opposition to this program are very weak.

Myth No. 1: The water conservation program would preempt State law and allow the Federal Government to run water law in the States. Not true. It does not preempt State water law. Also, 41 million acres are in this big bad program. There are 41 million acres in the overall program. This little program Senator DOMENICI is talking about has 1.1 million acres. So 40 million acres basically are untouched by this.

Myth No. 2: The water conservation program would create a huge new Federal program to permanently buy water rights.

Fact, not fiction: 90 percent of the program is focused on short-term, 1- to 5-year contracts to lease water. Why do we focus on short-term leasing of water rights? We do it because, No. 1, leasing water for the short term keeps farmers in farming. After they have to deal with the Department of Agriculture for 1 year, they retain full ownership of their water.

No. 2, it provides a source of water for endangered species, for example, in drought years when other conflicts are very severe. That is when these con-

flicts come about dealing with endangered species, such as fish. It is because there is a shortage of water.

No. 3, it will provide a supplement to farmer income in years in which they face water supply restrictions due to Endangered Species Act concerns. This actually helps the farmers.

Keep in mind, this program requires a willing seller, a willing buyer, and we protect property rights. Why shouldn't somebody who is a rancher or farmer have the same property rights as somebody who runs an automotive dealership, or a manufacturer? Why shouldn't a rancher or farmer have the right to do with his property what he wishes?

Even if we say a willing seller and willing buyer, and that is what we have, they do not even have the ability to do that unless they get approval of the State water engineer, whether it is Wyoming, New Mexico, or Nevada. So all this talk about coercion is absolutely senseless.

Also, I would think my friends from the West would be happy for a change. We have a farm bill that gives help and actual money rather than verbiage to the western part of the United States. That is what the conservation section in this bill is about. I have stood in this Chamber and I have been to press conferences with the chairman of this committee. One thing about Senator HARKIN, in his legislative career in the House and the Senate, he has always been willing to do things that change the world in which we live for the better.

He, in this instance, has been willing to change the traditional way we do agriculture. That does not mean it is bad. It means it is wonderful; it is progressive. That is what this legislation is about. This legislation protects every farmer in the State of Iowa, but also it recognizes there are other parts of the country than the breadbasket of this country. Most of our groceries come from the State he represents and the States surrounding him.

The reason I have been willing to go forward on this legislation—and I say the whole bill. This is a big bill. I do not know how long the bill is, but it is big. We have a tiny little section, but I would vote for the bill anyway because I recognize what the Senator has done is excellent. There is more support for this legislation because it helps other parts of the country.

The people who are giving information, that the Senator from New Mexico is receiving, are giving bad information. Senator DOMENICI is a smart man. He has been mayor of a city. He has been here longer than I have. But when he says this program coerces farmers and States, he is wrong, it does not do that: Willing seller and willing buyer. If a farmer or rancher does not want to do a deal it is his property. He does not have to do a deal.

Another myth: The water conservation program would undermine private

property rights. I have touched on this a little bit. The water program is pro-private property rights—that is, the program is supportive of private property rights. This is a willing seller-lessor program. A farmer decides whether or not to lease or sell his water rights. There is nothing more pro property rights than allowing property owners to decide what to do with their own land and their own water.

Let's take, for example, the State of Nevada. I was telling someone the other day about Nevada. Nevada is a huge State. It is the seventh largest State in the country by acre. From the tip of the State to the top of the State is 750 miles, maybe 800 miles. It is very wide, more than 500 miles in the north. Madam President, we have very little water. We share the Colorado River with a lot of States, and the mighty Colorado has done a great deal for the western part of the United States. Compare that with some of the rivers in the State of Michigan.

I will never forget when I first came to Washington, I went to Virginia on a congressional retreat. I said: This must be the ocean. It was a river. The river was more than a mile wide. We do not have rivers like that in Nevada. What people in the east call creeks we call rivers.

I would like to name some rivers in Nevada. We have the Colorado that we share. We have the tiny, little Walker River. It is so important to Nevada, but it is a tiny river. One can walk across it in most places some of the year. The Truckee River, which is so important to Reno and Sparks, it has an irrigation district at the end of it. It is also a tiny little river, and there are many times of the year one can walk right across the river in various places.

Carson River is a little river that runs hard in the spring. It is a wild river in the mountains, but it is a little river. Many rivers in Nevada have no water most of the time.

We understand in Nevada what water is and what a shortage of water is, and I am not about to give away Nevada's water. I understand, though, that if a rancher in Nevada has land and he has water which he owns, he should be able to do with it what he wants. If there is a program out of 41 million acres—we have been able to get a program that has 1.1 million acres that allows this farmer, this rancher, for once, to do something with his property.

For example, I started talking about Nevada and I got carried away with my great State.

If a farmer in the Truckee River Basin in Nevada decided he would like to switch from growing alfalfa, a very intense water crop—and we grow a lot of it in Nevada, but it takes huge amounts of water—but he decides that he wants to grow native seed to help with restoration of rangeland in the Great Basin.

We have had fires in the desert, especially in the high desert, and we need to have seed to plant there. If a farmer decided he wanted to switch and grow native seed, why shouldn't he be able to go and say, I want to make a deal? We will lease your land for 2 years. We have saved the water. Something else can be done with it. It doesn't sound like we are doing bad things.

In fact, it seems to me we are giving a property owner, for lack of a better description, more tools in his tool box with which to make money and provide for his family. We are doing the right thing.

I have heard the term "taking." I know what a taking is. I am familiar in the Constitution that you cannot take a person's private property without due compensation. This has nothing to do with that. If the rancher decides he does not want to do native seed, he simply does not grow it. No one will force him to do it. Once he and the department decide they want to do it, they still have to get approval of the State water engineer.

I had somebody call me today complaining about the program. I said: Tell me what is wrong with the program. Listen to what they said. I was stunned. They said: Well, if somebody decides with their own property—I am paraphrasing—to make a deal and lease it for a year, 2, 3, or 4, up to 5 years, what they are doing in parched, arid Nevada, they are saying if they do that and you take certain land out of agriculture, it changes the ground water. And what they are saying is, if you allow the water to go downriver, you are stopping people from drilling wells and pumping water because of the irrigation that takes place.

That doesn't make very good sense for voting against this legislation.

Let me give another example. We have a beautiful lake in Nevada. We have two lakes like it. They are called freshwater desert terminus lakes. They are freaks of nature. Pyramid Lake was basically saved after work in this body to save it. Pyramid Lake, because of the first ever Bureau of Reclamation project, was going dry. Lake Winnemucca, the overflow from Pyramid Lake, did dry up. It is as dry as the ground on which I stand. But we have another desert terminus lake called Walker Lake. It is in the middle of nowhere. It is in a place called Mineral County.

Mineral County has always been very good to me. I have always carried Mineral County. On one occasion I was elected to the Senate I carried two counties: Clark County, where Las Vegas is, and Mineral County. I lost every other county in the State of Nevada. Mineral County always sticks with me. They have this big lake. There are only 28 lakes like Walker Lake and Pyramid Lake in the whole world. The lake has been drying up. We

have been very fortunate in the last 7 years. We have had a lot of water and it has been able to get into the lake. About 6 or 7 years ago we had a year and a half to go before all the fish in the lake would be dead it was so starved for new water. There are people who believe the lake is worth saving.

As I have indicated, we can do it and still take care of agriculture. There is an Indian reservation that depends on the water, little tiny Walker River. We can handle that. We have to do things differently from the past. We cannot do what we have done in the past because everyone will fail if that is the case.

Here is an example if somebody wanted to change their income and make more money, they go to native seed and do a deal with the Government. Some of the water would run into the lake and preserve that great natural beauty we have, Walker Lake. They should be able to do that. Or, the alternative is wait until we get into a real bad problem, and endangered species problem, and lawsuits are filed. This is a way to avoid that or have money available to help solve the problems. There are places all over the Western United States that benefit from this.

I repeat, farmers who choose not to participate in the program will not be hurt. Some farmers who choose to enter into short-term agreements to transfer water during drought years will actually benefit their colleague farmers who decide not to participate because, if some farmers lease water for fish and drought years, it will ensure there is enough water for both farming and farmers and those who are dealing with the threatened and endangered species.

Mr. CRAPO. Will the Senator yield?

Mr. REID. I will be happy to at some point, but I have a statement that is quite long. If the Senator would be kind enough to keep track of the questions, I will be happy to explain.

Another myth: The U.S. Department of Agriculture has no authority for businesses offering to help mitigate farmers for endangered species or other conflicts. Federal agencies have affirmative obligations. They have no choice under the Endangered Species Act to do all they can to conserve species.

I say to my friend from Idaho, his predecessor, now the Governor of Idaho, and I, Senator CHAFEE and Senator BAUCUS, had a great endangered species bill we brought to the floor. For various reasons, the then-majority leader, Senator LOTT, decided not to bring it up. We lost a great opportunity for a bipartisan revamping of the Endangered Species Act. We didn't do that. It is too bad.

I talked to Senator BAUCUS earlier today about another subject and that came up. That was a good move we made. It is too bad the legislation did not become law.

All Federal agencies have affirmative obligation under the Endangered Spe-

cies Act to do all they can to conserve species. When it comes to conserving endangered fish, agriculture and water is the main issue. This program will help USDA and the States help farmers and help mitigate these endangered species conflicts.

The Department of Agriculture is the perfect agency to interact with farmers in the conflicts. They trust the USDA more than, say, the Fish and Wildlife Service.

Madam President, willing sellers, willing buyers—this legislation in this bill that the committee supported is legislation that is pro-private property. There is nothing that prevents a State from saying: I don't like what you are doing, farmer. You cannot change what you have been doing. The State water engineer has the right to do that.

The conservation title in this legislation is a very important new program to help mitigate the conflicts between farmers and the environment. It is not only for that purpose; it is to give farmers and ranchers the ability to do things differently than they have in the past, to make money in a different way than in the past. This has nothing to do with making money. If they don't want to do it, no one orders them to do it.

The controversies I talked about, which come up on occasion, usually come to a head in drought years when Endangered Species Act protections trump water over ranchers for farmers and ranchers. There is example after example. We had legislation here earlier this year. I don't recall the exact date, but Senator SMITH from Oregon was very concerned about what was going on. I don't know his feelings on this legislation but if this legislation had been in effect when the problem started in Oregon there wouldn't be the problems. Farmers would have some alternative. As I understand it, we have given them some financial relief. But they are in bad shape. This could have helped them.

These controversies result in some really difficult situations. Irrigation pumps providing water to farmers are on occasion cut off so threatened and endangered fish, for example, don't go extinct. You may not like the endangered species law, but it is the law. You have to deal with it. You cannot avoid it.

When these conflicts reach this critical stage, there is not much we can do to alleviate the economic impact. This happens to ranchers and farmers and the regional economies tied to farming and ranching.

There is, in the West, a new West. When I was raised in Nevada, mining and ranching were really big. They are still big, but the rest of my State has grown. Las Vegas has grown so much, 70 percent of the people live in that metropolitan area now. All the ranches and farms that were in Clark County

are gone now. There may be a few people raising a little bit of hay for their horses, but basically it is gone now. So there is a new West, in the sense that there are things other than ranching and mining.

That does not take away from the importance of these two industries. I have spoken on the floor for long periods of time defending mining. People say to me all the time—and people write nasty letters to the editor—asking, how can somebody who says he is for the environment support mining?

I do it for a lot of reasons. One is my father was a miner. In fact, my staff brought to my attention yesterday some news articles that one of them found, going through the Library of Congress, I guess, out of curiosity about me. When I was 10 days old, my father was blasted—what we call blasted. He was working in a mine. The bad fuse did not have the workplace protection they have now. They lit the holes, one of the pieces of fuse ran, one of the holes went off, and of course blew him into the air, blew the soles off his shoes, blew out his light. He was in a vertical mine shaft.

When they set off the holes, they have a ladder they can take up with them they call a sinking ladder. He was, I guess, in a state of shock. He tried to climb out of this hole. He didn't realize one of the legs of the ladder had been blown off, so every time he tried to climb up, he would fall. He couldn't figure it out.

It was a brave man who heard the hole go off and knew that he hadn't come up to the next level. Knowing there were 10 other levels burning, this man named Carl Myers came down to that shaft—my dad was a bigger man than he—and carried my dad out of that mine. He received a Carnegie Medal for saving my dad's life when I was 10 days old. That is when that incident took place.

So I defend mining for a lot of reasons. I do it for my father. I do it because it is good for Nevada. We have thousands and thousands—the best blue-collar jobs we have in Nevada relate to mining. I think a lot of people who complain about mining don't know what they are talking about, for lack of a better description.

Ranching is important. Ranching doesn't create a lot of jobs, but it creates a way of life that we should all envy. So that is why I do what I can to recognize that we have a new West but we also have an old West that we need to protect. This legislation is about protecting the old West, keeping farmers and ranchers in business. Those people who are crying out in a shrill voice that this legislation hurts them, I do not believe that.

We need to create programs to help lessen conflicts in drought years. The water conservation program included in Chairman HARKIN's bill is the first

tool we have in a Federal farm policy that actually addresses this problem. I commend him again and again for doing this. This legislation has support of people who had never supported this legislation before. I am sorry to say there are some ranchers and farmers who are being given bad information. They should be happy that we are trying to give them other tools, I say, in their toolbox, so that they can do things they have never been able to do before.

Again, I repeat for a fifth time: Willing sellers and willing buyers. If a rancher or farmer decides he wants to do something different and he has the ability to work something out with the Department of Agriculture, great, I hope they can do that. But if they do that and the State water engineer, rightly or wrongly, denies them the ability to go forward, that is his prerogative. That is what State water law is all about. And this legislation protects State water law.

Here is how this program works. It is very similar to a program farmers already are familiar with, which is extremely popular, called the Conservation Reserve Program, CRP.

Under CRP, farmers enroll land in the farm, reducing farming on their land and improving wildlife habitat on other land. This is the law now. The farmer collects a payment for participating for a 10- to 15-year contract term. That is the law now. We decided not to go for a 15-year contract period but for a 1- to 5-year contract period. Under the new Conservation Water Program, the one they are trying to strip from this bill, a farmer could enroll that land to a program and do farming on their land, but instead of focusing on wildlife improvements on the land, the farmer could agree to transfer the water associated with the land to provide water for all kinds of reasons.

Unlike the CRP, the Water Conservation Program would provide farmers with very flexible options and terms of how they would agree to transfer water. They can enter into contracts of 1 to 5 years, as I have said, with the Department of Agriculture, to provide water. This shorter contract term works for this program because what we are focused on in the program is building a drought water supply in years when there are threatened species or other problems arise because of the drought.

Farmers also can enter into option contracts with the USDA, where they would just give the Department of Agriculture an option on their water which would be exercised in a drought year. Again, the farmer makes money. Farmers would keep on farming unless or until the option were exercised.

The issue of transferring water sometimes can be controversial for my colleagues. Some express concern this pro-

gram will enable the Federal Government to buy water rights where a State doesn't want the rights sold. This simply is not true. It is simply not true. The program specifically provides that State water law is paramount. Under this program, a water transfer will not happen unless the State approves that transfer under its own law, not under this law. We are not changing State water law. But under the State law as it now exists, the State approves the transfer under its own law. In States where the water law does not permit transferring water for these programs, the program simply couldn't be used.

To show how sincere we are about this, we had a couple of staffers come to my staff and say: I am not sure my Senator wants part of this program.

Fine, we will opt you out.

Oh, no, we don't want to be opted out.

We gave them the alternative: If you don't like it—I think you are losing a tremendous advantage for your agricultural community—we will opt you out.

They didn't want that.

But there are some very good reasons that States should want to participate in the program and facilitate such transfers. Let me give but three reasons.

First, these transfers will help ensure that water is available for freshwater life during dry months, helping increase flows during historic times of seasonal low water.

Second, protecting freshwater species is among the most important conservation objectives related to endangered species. This is the law.

Freshwater species are North America's most endangered class. They are vanishing five times faster than North America's mammals or birds and as quickly as tropical rain forest species. That is a matter of fact. Habitat loss and degradation are the single biggest threat to freshwater species in trouble. Inadequate streamflow is the largest habitat-related threat.

Third, a program which provides for flexible options for water transfers, not simply permanent acquisition, but short-term options will help mitigate farming in rough years and allow farmers to continue farming. It seems like a pretty good idea.

I am happy to yield for a question without my losing the floor to my friend, the junior Senator from Idaho.

Mr. CRAPO. Madam President, the Senator talked about the fact this is based on a willing relationship. But if I understand the amendment correctly, it is willing only in the sense that any landowner who wanted to participate in the new CRP acreage that is authorized under the farm bill would be required to either temporarily or permanently yield his or her water rights or could simply choose not to participate in the new acreage.

The question is, Is there any way for a landowner to participate in the acreage program for the CRP that is being expanded here without being required by contract to yield up their water rights?

Mr. REID. No. But why would someone want that? Why should they have it both ways?

Mr. CRAPO. The response to that is the CRP works very well. It is doing a lot of good for wildlife in the United States. It is not specifically focused on the acquisition of water rights. The expansion of the CRP, which we are trying to accomplish in this farm bill, will expand the successful operations of the CRP.

The concern I have and that many others have is the Senator is providing in his amendment that no landowner in America can participate in the expansion of the CRP without being required to yield their water rights. Although I realize that is voluntary in the sense they do not have to participate, it is not voluntary in the sense that a landowner who wants to participate cannot do so without having to yield water rights.

Mr. REID. Madam President, as I have indicated, the program we are talking about is approximately 1 million acres out of 41 million acres. We are talking about 1 million acres which will alleviate some of the most desperate problems we have in the West. It seems to me that breaking out of the curve a little bit is the way to go. I guess the Senator from Idaho might have a different philosophy. I think no one is being forced into doing anything. If they want to participate in the program subject to their wanting to do it—the Department of Agriculture acknowledging it is a good idea—then the State water authority can approve.

I think it is a pretty good deal. It is a small part of land. Some people have talked to me who do not understand the program. Once I explained it to them, they felt pretty good about it. A lot of people thought we were wiping out the other program. We are not.

Mr. CRAPO. Will the Senator yield for one additional question?

Mr. REID. I am happy to yield.

Mr. CRAPO. With regard to the issue of whether State law still applies or whether State law must be complied with in the transfer, let me ask the question. The additional question I wanted to raise is whether State law applies. The Senator from Nevada indicated State law would still be required to be complied with in any transfer of water rights. In Idaho, as I am sure in many States, when a water right is transferred the State authority evaluates it and takes into account a number of considerations before they authorize the transfer. Will it injure any other water user rights? Are the priorities established in State law for the use of the water being met?

Is the Senator telling us that if a landowner wanted to participate and yield his water rights in this new acreage that the State water law would still be applicable and the State authorities could say this does not fit the requirements of State law and prohibit that transfer?

Mr. REID. Let me, first of all, make sure I stated my previous answer properly. When I talked about 41 million acres, I want everyone to understand that it was originally 36.4 million acres and we increased that and set aside 1.1 million acres for this water conservation program.

In response to the Senator's question, if State engineers, for whatever reason, decided under State law they didn't want to do whatever the State authority is, it wouldn't be done.

We have had a troubling situation with the Truckee River. I get so upset at that State engineer. I think sometimes he does not know what he is doing. He knows a lot more about water rights than I do. He has a right to do whatever he wants to do. This wouldn't change that.

Mr. CRAPO. I appreciate that response from the Senator. I guess we have a disagreement on the level of voluntarism and whether it is appropriate in the CRP. I appreciate the Senator clarifying that point.

The PRESIDING OFFICER. The Senator from New Mexico.

Mr. DOMENICI. Madam President, I understand the distinguished Senator from Montana wants to speak. I wanted to say to Senator REID that I appreciate his compliments. When he opened up, he said I was smart because I was a mayor. I want the Senator to know that the fact I was a mayor doesn't make me very smart.

Mr. REID. Can I respond briefly?

Mr. DOMENICI. Of course.

Mr. REID. Having worked with the Senator for the entire time I have been in the Senate, the fact that he was a mayor has certainly helped me understand why he knows so much about budgetary matters. No one works harder on the budget than a mayor.

Setting all of that aside, I don't need to enumerate the Senator's qualifications for everyone here to know how knowledgeable and how versed he is on legislative matters. He has a great educational background. He is a good athlete. He is a fine man. The fact that he was a mayor only adds to his qualifications.

Mr. DOMENICI. I thank the Senator very much. I want to give my friend from Nevada a thought. He made a very serious and significant series of statements about the voluntary nature of this, that the truth is, for States such as mine—I don't know about Nevada—the major water districts and the river waters that will be used by farmers, ranchers, cities, et cetera, do not need another big purchaser of

water rights called the U.S. Government's Secretary of Agriculture. We don't need one of those for our basins. Voluntary means how high the person who is buying will go in paying. I imagine the Secretary of Agriculture has a lot more money than any other buyer around. The purchasing in the district will be distorted by the gigantic reach of the Secretary of Agriculture.

What will they be looking for? They will want to buy the acreage to do something different than we are planning to do with that water now, just as sure as we are here. They are not going to be acquiring it to do what the basin currently permits. It is going to be for another purpose.

We are just plunging down in the middle of an already totally occupied water district a new buyer, the great big Secretary of Agriculture. They can come in and purchase this for Federal Government purposes. There is no question about it.

Frankly, I don't think anybody who has assets and resources in their States would want to say everything will be OK, even though everything is tight right now. We don't know if there is enough water for the city. We don't know if there is enough water for the fishpond, the lake, or the streams. But that is all right. We are going to approve that program so big daddy, the U.S. Agriculture Secretary, can come in and buy up water rights. Of course, it is all going to work out because they are benevolent anyway and willing. Everybody is going to be OK. The State water superintendent has to say OK anyway. Frankly, I don't think we ought to give them the right to get into a district with that kind of power and end up calling it willing and calling it equal and calling it equality. It is not so. It is going to be tremendously distorted on the side of the Department of Agriculture.

I yield the floor.

The PRESIDING OFFICER. The Senator from Montana.

Mr. BURNS. Madam President, I thank my good friend from New Mexico for leading the charge on this particular part of the farm bill.

A while ago we were talking about myths. If this section does not erode the State adjudication process and the State would have to give its OK, if there is a section of willing seller and willing buyer—which, by the way, they already have that right—why have the legislation? What other purpose does this legislation serve than the landowner and the water right owner in that community?

Some 8 or 9 years ago a Secretary of the Interior made a speech and said: We can't change the culture of the West until we take over the financing and get control of their water.

I know the Senator from Nevada very well, and he understands the State of Nevada very well, that whiskey is for

drinking and water is for fighting. That has been pretty well accepted throughout the West. But in this piece of legislation, which has been inserted into this bill, is language that would make it possible for the Federal Government to purchase water rights from individuals to protect sensitive species.

We have a hard time defining "endangered" or "threatened." Now we come up with a new term called "sensitive species." When the Government owns the water rights, do we see, all over again, Klamath Falls, OR, where we had a vote in this Chamber that sent a signal throughout the agricultural community that this body was more sensitive to a sucker fish than we were to 1,500 farm families in this country? You just stand there and watch your crop dry up because of a law and an insensitive Government?

Now, this was first introduced as a bill. The bill was S. 1737. The bill has never had a hearing. It has never seen the light of day until today with the introduction of this piece of farm legislation. Though it may be well-intentioned, I would say this: Whenever the Federal Government enters the picture, and willing seller/willing buyer, or coercion, when you are going broke, and the fellow in town has the biggest checkbook, and it happens to be the Federal Government, don't you bet your last paycheck on whether the Government knows who has the biggest checkbook. They also know the position you are in to finance your situation, and where that water is going to go.

Just about every State in the West—I know it is true in Oregon and I know it is true in Montana—has a water trust. They are already in place. If a farmer or a rancher wants to give up what he is growing now and does not want to use that water, or he wants to sell or lease that water to another irrigator who still has a crop that requires large amounts of water, he can do that now. It does not require this legislation. It does not need the big checkbook coming out putting him in a position where he must sell to the big checkbook.

If people doubt that, then I suggest they go out and try to run one of these irrigated farms. They are already in place. So the intrusion, although not intended, or the coercion, also not intended, happens in the real world. And I hope this body operates in the real world.

My good friend from Nevada says it may change the groundwater. Let me tell you, it does. I live in an irrigated valley. I used to, anyway. I am up on a hill now.

I say to Senator REID, let's take Clark County in your State where that county has grown and pushed out the agriculture. You and I will not see it, nor do I think our kids will see it, but there will come a time when we will

pay the penalty for building houses on the valley floor covering up good, productive agricultural land that tends to provide great benefits to us. We had better start building our homes and our houses and our businesses on dry land and let the valley produce. That is the way societies have done it before, and those societies still are with us today. We may have to take a look at that.

I will tell you, when they turn the water out of the ditch, the wells at my house go dry because the water table drops. That happens every fall. So that is not a myth, I say to the Senator. It is true.

I have a letter here from the National Cattlemen's Beef Association. The president of that association, Lynn Cornwell, is a resident of Montana. He is a good friend and a good rancher out of Glasgow, MT. They would like to see this part of the agriculture bill deleted because they, too, understand what it does and the effect it has on farming and ranching operations, even on dry land. I would say the biggest share of the Cornwell ranch is on dry land.

I want to change the tone and restore the spirit of the law of the CRP, the Conservation Reserve Program. I will have an amendment that will do that which I will offer in a little bit.

But my concern is, the willing buyer-willing seller is not the real world. It is not the real world. It may be up to us, and those of us who probably have never trod on a farm or a ranch, to deal with this.

I have been a very fortunate person. I have been an auctioneer for a long time. I have had the painful experience of selling out some friends who did not make it. The big checkbook always came into play. So that is not the real world.

Then, I say, if this has nothing to do with circumventing the State's rights, water rights, and the adjudication process in that State, then why do we need the legislation? There is absolutely no reason for it. So there must be another motive that cannot be seen just by reading the words of this particular section.

I would hope that we would use a little common sense in this 17-square miles of a logic-free environment and not do anything that upsets the balance between the States, the Federal Government, irrigation districts, and private land owners. Because it is my interpretation of the language that once you sign up in the Conservation Reserve Program, then you might not have any choice but to relinquish those water rights, even on a temporary basis. And that is a very dangerous precedent in itself, of relinquishing those water rights to the Federal Government.

I have always taken the advice of an old rancher over in Miles City, MT: There is a way to survive in a harsh

country. Never ever let anybody erode or give away your water rights, always keep a little poke of gold, and you will survive out here in pretty good shape.

Madam President, I ask unanimous consent that the letter from the National Cattlemen's Beef Association be printed in the RECORD.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

NATIONAL CATTLEMEN'S
BEEF ASSOCIATION,

Washington, DC, December 12, 2001.

Hon. THOMAS A. DASCHLE,
Hart Senate Office Building,
Washington, DC.

DEAR SENATE MAJORITY LEADER DASCHLE: Throughout the formulation of the Senate farm bill, the National Cattlemen's Beef Association (NCBA) worked diligently with members of the Committee to develop a Conservation title that would reflect the interests of NCBA and this nation's cattlemen. NCBA was pleased with the bipartisan, voice vote approved Committee title. However, modifications that are to be incorporated into the bill by a manager's amendment take back many of the positive strides supported by NCBA.

The manager's amendment will increase the Conservation Reserve Program (CRP) to 41.1 million acres. This exceeds the 40 million acres that NCBA found acceptable. At this level, CRP will negatively impact the economy of rural communities, local feed grain and forage prices for livestock producers and devote taxpayer dollars to setting aside land that could be better spent on working lands. NCBA asked that increase in CRP acreage be limited to no more than 40 million acres with new acreage focused on riparian areas, buffer strips and continuous sign-up acreage. Additionally, the managers' amendment still does not provide for a reduction in rental rates on CRP acres used for haying or grazing.

Long term funding of the Environmental Quality Incentive Program (EQIP), at the time when producer needs are likely to peak, has been reduced by \$650 million dollars per year, from the Committee passed bill. Reductions in funding in 2007 and the out years, will put the long-term success of the program at risk. By contrast, the Committee passed bill provided continued funding that amounted to an additional \$3 billion over 10 years. NCBA, in addition to increased funding, asked for a number of programmatic changes that continue in the legislation. Our support for existing measures is dependent on changes that will provide for program access to all producers and ensure that soil, air and water quality are the priorities for the program.

The manager's amendment includes a number of disconcerting provisions related to the Water Conservation Program. This new program would authorize the use of 1.1 million acres of the CRP authorized enrollment acreage to acquire water rights, both short-term and permanent, primarily for endangered and threatened species recovery. This program also specifically allows for the temporary lease of water or water rights in the Klamath River basin of Oregon and California. NCBA cannot support this program, despite the fact that only "willing sellers" may participate. Willing sellers are often found where there are endangered species; the Klamath basin is a perfect example. Many farmers and ranchers have become "willing sellers" because they can no longer

afford to farm. Buying all the water rights in the west will not solve our nation's endangered species problems, which in large part is due to the Endangered Species Act itself. It is inappropriate in the context of a farm bill to attempt to do so.

The Grassland Reserve Program (GRP) is another new program that has garnered much support in this farm bill debate. NCBA supports this program because it provides an option for preserving the economic viability of grazing operations while protection the grasslands upon which both wildlife and ranching depend through the purchase of 30-year and permanent easements. However, the Committee proposal strips the option for non-profit conservation and agricultural land trusts to hold and enforce the easements, which is critical for NCBA.

Conservation easements are rapidly becoming a valuable tool in the protection of agricultural lands. However, many landowners remain skeptical. As with any contract, it is important to be able to develop a trust relationship among the parties to the agreement. By allowing third party non-profit land trusts to also be eligible to carry out the administrative responsibilities of the easement, the landowner has the flexibility to work with the entity they feel most comfortable. Several states have developed land trust organizations for the purpose of holding and enforcing agricultural conservation easements. Without the ability of non-profit or agriculture land trust participation, the GRP will not serve the interest of those family farmers and ranchers for which it was designed.

We look forward to working with all Members of the Senate to create a final package that meets the needs of today's ranchers. In closing, NCBA believes that last minute amendments to a balanced and bipartisan Committee passed bill are lacking in a number of key areas and less attractive to US beef producers.

Thank you for the opportunity to communicate with you on these important issues. If you need further information or if we can provide clarity to any points in this letter, please contact us.

Sincerely,

LYNN CORNWELL,
President.

Mr. BURNS. I thank the Chair and yield the floor.

The PRESIDING OFFICER. The Senator from Vermont.

Mr. LEAHY. Madam President, I heard the comments made by my good friend from Nevada earlier. I agree with him. The conservation title of the Harkin bill is there to help mitigate western water conflicts.

I have been on the Agriculture Committee for 26 years now. It was the first committee I went on when I came here. I have heard a lot of the debates on conservation practices and on water matters. We get concerned about water in the East for different reasons than they do in the West.

We have heard the comments of my friend from Montana. My home in Vermont has a well. We live on a dirt road. We have to provide our own water. We are certainly very careful about protecting the water we have. Our home had once been a farm. They had to have water for the cattle. We know what it is.

This is not a case where you are going to willy-nilly transfer water away. In fact, under the amendment that the Senator from Nevada, Mr. REID, has proposed to the Harkin bill, it provides specifically that the State law is paramount. In other words, if Nevada or Montana or anywhere else has a water transfer law, then nothing happens unless it is approved under the State law. It is not a case where the Federal Government just comes over and takes over things.

This proposal is here to make sure we plan before we are in trouble, before we are in a drought situation. When you get into a drought situation, when you have those kinds of problems, there is not an awful lot you can do to help farmers or alleviate their economic impact, or, for that matter, the regional impact on farmers because they fail.

So what this amendment would do is try to create those kinds of programs that would help lessen water conflicts—not for the good years, because in the good years there aren't any conflicts. In the good years, everybody has plenty of water; nobody really thinks about it. This is the plan for those drought years. It is almost the biblical 7 fat years and 7 lean years.

The Water Conservation Program that is included in Chairman HARKIN's bill is the first tool we will have in the Federal farm policy to actually address the program. This program actually is very familiar. Most farmers know about the CRP program, the Conservation Reserve Program. Farmers know that program. The program is extremely popular. This follows it. In fact, under the new water conservation program, a farmer could enroll land in the program, reducing farming on that land, but it is totally voluntary. This is not something where Big Brother comes in saying you to have to do it. It is totally voluntary. You can't transfer anything anyway if your State has already passed a law saying you can't.

It is really designed to put as much power in the hands of the farmer as their own State would allow. Instead of focusing on wildlife, for example, wildlife improvements on the land, the farmer could agree to transfer the water associated with that land to provide water for fish and other wildlife, something that those who hunt, fish, or just are concerned with the environment should like very much.

It actually operates basically the same way as every other conservation program in this bill. All the protections have been built in here, protections of saying that you can't override State law. You have to make it voluntary. The farmers and ranchers themselves are going to make these decisions. We have done this in CRP.

We have done the Conservation Reserve Program in the past. That has proved very popular. I have some very careful farmers in my State, good

Yankee stock. They want to make darn sure they are doing something that protects the farmers' sons and daughters afterwards. They sign up for the CRP because they know it works.

I know the Senator from California is here. I yield to the Senator from California.

The PRESIDING OFFICER (Mr. DAYTON). The Senator yields the floor for a question.

Mr. LEAHY. I yield the floor, Mr. President.

The PRESIDING OFFICER. The Senator from Vermont has yielded the floor. Senators may compete for recognition.

The Senator from California.

Mrs. BOXER. I say to my friends, I will be brief and to the point. I thank my friend from Vermont. This particular part of the farm bill is very important to our State that is having so many issues surrounding water, the availability of water, and the ability to have enough water for everyone—for the farmers, for the urban areas, for the suburban areas, for the environment, for fish and wildlife.

I had the experience of taking a hike along a river that is pretty dry. It is in a State park. They have a wonderful series of parks along this river that is now so dry. This was the place where the salmon would come. There is nothing sadder than seeing this happen, seeing us lose our habitat. It is our responsibility to make sure we do right by the environment, right by the farmers, right by the urban users, right by the suburban users. That means we all have to live within this gift we get from God that sustains us—the water. We have to use it wisely. We have to be smart about it. We have to share it. If we do that, everyone will thrive in the end.

What Senator REID has done by his excellent work on this bill—and I so much oppose this move to remove it from the bill—is to understand this reality, that this is a precious resource, this water; that we do need it for all the stakeholders. We know when we took up the issue of the Klamath what a terrible situation we had there with the farmers literally crying because they didn't have enough water to farm. They didn't have an option to sell what water they had.

What Senator REID does, through a leasing and a purchase program, is to make sure that on a voluntary basis farmers have the option to lease or sell some of their water. For example, suppose they choose to go to another crop and they need less water. They can go to that other crop and then sell the excess water that they have and increase and enhance their incomes.

This is something that is very popular. In my State, I heard from farmers who really support very strongly what HARRY REID is trying to do. They tell me this would be a welcome opportunity for them. So when people get up

and say the West this and the West that, you can't speak for the whole West because there are farmers in my State, in my region, who believe this kind of a provision is going to help them survive. Let me repeat that. This kind of provision will help them survive. They have told me that. They have written this to me.

Therefore, when Senator REID was putting together this provision, I thanked him on behalf of those farmers who call the Reid provision a win-win situation. Farmers could sell water they could not otherwise use and, in exchange, get funds they need to keep on going, and fish and wildlife get the needed water.

I find it interesting that in this debate some on the other side talk about the big, bad, evil Federal Government coming in and stealing water away from farmers. First of all, I know Ann Veneman, and I don't think of her in that way, and I don't think of the Federal Government as evil. I think people see the Federal Government as a necessary tool for them to do the right thing, whether it is in foreign policy, domestic policy, or protection of the environment. I don't think this administration, or any administration, would come in like Big Brother or Big Sister and disrupt a farmer's life. On the contrary, I think in fact that because this is voluntary, this is an option for farmers.

In closing, I don't need to go on at great length. I wanted to support my colleague from Nevada, the assistant Democratic leader, who I think has done an incredible job of crafting a very good provision. I am disappointed that we always seem to pit farmers against the fishing people, fishing people against the urban and suburban people. In California, we have learned that we have to live together. We don't come to this floor—Senator FEINSTEIN and I—picking a fight with any of them. We try to bring everybody together. Senator REID has done a good job in trying to bring all the stakeholders together. In this case the farmers stand to win, the environment stands to win, the fish stand to win, as does the wildlife and everybody else.

I think what I hear on the other side of the aisle is the old water wars, the old language, and it is the old threat, the old gloom and doom. I urge colleagues to work with Senator REID, give this a chance. I think this program could work. It could be a win-win for everybody.

I yield the floor.

The PRESIDING OFFICER. The Senator from Colorado is recognized.

Mr. CAMPBELL. Mr. President, I will limit my comments. I want to say this while Senator REID is on the floor. I used to live in his part of the country and I understand his concern. If you haven't spent much time in Nevada—I listened to his comments. I listened

about Pyramid Lake and Walker Lake, two lakes that rivers come into. And there is a place called Tumble Sink in his State—the only place in the United States where the further you go downstream, the smaller the river gets, until it just disappears.

I think this is a question that probably should have been fully debated, with some kind of a hearing, and not attached to this bill. The Senator from Montana, Mr. BURNS, mentioned what we often call the law of unintended consequences. That is what I am concerned about, too, without adequate input. I know this may help a rancher or a farmer survive, but I can tell you they won't survive very long once the water is gone. I don't know how many Members of this body farm or ranch. I know there are several, including me. You might make a short-term agreement to sell or lease some water, but if there is a change in the water usage and you don't get it back, that is the end of your farming and ranching in the arid West, where we have to store something like 80 percent of our yearly water needs.

As I understand this part of the bill, the Secretary of Agriculture can acquire the water for purposes other than agriculture during this period of time, even though I understand it is on a willing-seller/willing-buyer arrangement and that he cannot participate in a CRP unless he also agrees to the water provision. You take them both or you get neither.

Now, I am reminded of something that happened. I did a hearing on water in Fort Collins, CO, about a year and a half ago. One of the men who testified—I was thinking about him when I was listening—was a man, like a lot of ranchers, who moves his water around, depending on what he is planning and where he wants the irrigated water to go. He had a field that was dry as a bone, and he had ample water rights. So he put a ditch in to carry some of the excess water he already owned to this very dry field. Lo and behold, the field obviously came up very rich and beautiful and produced a wonderful stand of hay. Since there was water and seed in the ground, a little mouse moved in called a Preble's meadow jumping mouse, which is on the Endangered Species List, or the Threatened Species List.

As you know, the Endangered Species Act takes into consideration habitat. Once the mouse moved in, he found he could not move his ditches anymore from there because it was declared habitat for that mouse. That is one of the concerns with this. Maybe it will work fine; maybe it won't.

What if the rancher agrees to take his water out of production and put it in this Federal designation for a period of time, and wherever that water is—as an example, out West—it is used for something else and, therefore, where it

was in those fields is now dried up. As you probably know, there is a program in the West reintroducing the blackfooted ferret on the Endangered Species List. They are beginning to grow little by little. There are a few more colonies established. What if something like that moved into that area where he had his water because they live on prairie dogs and live in dry ground, not near water? My question would be: Is there a possibility that he could not get his water use back because that land he had irrigated might then come under some kind of a criterion that would prevent him under the Endangered Species Act?

It is that kind of unanswered ambiguity about this section that makes me oppose it. I am not opposed to the concept. I am always looking for ways that farmers and ranchers can survive because it is not easy. We have more ranchers and farmers in the West whose wives are now driving school buses to make ends meet. It is a tough lifestyle. There is no question that as the urbanization takes place in the West, there is going to be a bigger need for water.

Maybe someday we will have to change the way we use water, as they do in Israel and other dry countries where they have gone to drip irrigation and other things, rather than flood irrigating, which is so wasteful of water. But under the water law that exists now in the Western States, I think this could really upset things, even though the language says it cannot be done without the approval of the water authority. Something, it seems to me, should be fleshed out completely through hearings and much better debate, rather than simply in the last few minutes before the agriculture bill moves.

With that, I thank the Chair.

The PRESIDING OFFICER. The Senator from Idaho.

Mr. CRAPO. Mr. President, I rise in opposition to this section of the bill and in support of the amendment to strike it as well. I think it is important as we debate this amendment we recognize that the Senate Agriculture Committee never considered this provision. It was never raised in any of the hearings we held on the conservation title of the farm bill earlier this year, nor was it included in any version of the conservation title on which this committee has worked. It has simply been introduced on the floor now while debating the bill. It hasn't been vetted nationwide.

We are in the process of debating it now, as water users, water lawyers, and those who are involved in this issue around the Nation are hurriedly trying to evaluate it and get their information to us to determine what impact and what consequences it will have. I believe the law of unintended consequences, which was discussed by several other Senators here, is going to be

played out if this becomes law and we will then see what happens without having had the kind of thorough evaluation that it deserves in this body.

What the proposal does is to adjust the CRP, which is a very useful and time-tested program in the conservation title of the farm bill that has been extremely successful over the years in helping us to improve the habitat for wildlife, and for fish, and for species around the Nation by addressing those concerns without doing it in the context of the Endangered Species Act but doing it in the context of the conservation effort that we seek to achieve in our farm policies in this Nation.

In fact, I have worked very hard this year and in the last couple of years to put together a conservation title for the farm bill, and a part of that conservation title is to try to expand the CRP to make it even more useful in protecting habitat and improving circumstances nationwide for our wildlife.

Yet we have not seen this effort to try to hook Federal acquisition of water rights into the administration of the CRP until today. I have worked very closely with many of the Senators in the Chamber in other efforts to protect and strengthen our salmon and steelhead in Idaho under the Endangered Species Act, another endangered species as well.

I worked hard to improve the Endangered Species Act to authorize our landowners to have habitat conservation plans and options where they can commit to use their land in certain ways that will help achieve the objectives of the Endangered Species Act and protect them from some of the onerous implications of the impacts the act may have on them in the administration and use of their land.

Never until today have we debated a proposal to merge the CRP with the Endangered Species Act and to do so in a way that facilitates and, in fact, initiates the Federal acquisition of water rights. That is what is causing such a significant concern around the country.

In my discussion with the Senator from Nevada earlier, he acknowledged that, although there is a lot of talk about the use of the voluntariness in this package, it is only voluntary in the sense that a farmer does not have to participate in the CRP if he does not want to give up his water rights. But with regard to this 1.1 million acres that is outlined in this proposal, any farmer in America has only one choice: Either do not participate in this part of the expansion of the CRP or give up your water rights, either on a temporary or permanent basis. Such a choice, in my opinion, is not very voluntary.

In fact, it will cause a lot of farmers who otherwise would have taken advantage of this expansion of the CRP to do really good things on their land

and improve habitat to say: I am not going to give up my water rights. So I am not going to participate in this program and they will make that so-called "voluntary" decision, but what it really means is they have been deprived of this ability to participate in the expansion of the CRP because the condition of giving up their water rights has been placed on it. That is what the debate comes down to.

Why is it necessary for us to expand into the CRP the Federal effort to gain control over water by acquisition of water rights and to fund it so the Federal Government can then come in with the deepest pocket in the market and buy water rights with the pressure or the tool of access to the CRP used as the hammer?

The real debate here is: Why are we seeing this? I think the reason is one that has been suggested by several of the others who have spoken. Historically, we have seen an increasing effort by the Federal Government to gain access to and control over the water in this Nation. That is a continuous issue we fight often in the West, and I know in other parts of the country it is fought as well. So there is an automatic alertness by those who own water rights or who deal with water rights or who seek to manage the water issues in the States, when they see a new program with Federal dollars being pumped in and Federal conditions being brought in to a program that otherwise was working wonderfully with the purpose of saying we are going to utilize this good program and restrict access for it to the new people who want to get in and do so on the basis that the only way they can use it is if they give up their Federal water rights.

In a sense that is voluntary because they do not have to do it, but it is making it so anyone who wants to participate in the expansion of the program cannot do so unless they fall within this provision.

The proposal I have made, and I hope still will be the one that prevails in the Senate with regard to the CRP lands, is indeed we focus our expansion of the CRP on those buffer strips and those areas where we can have the most impact on habitat for wildlife, but not do it in a way that excludes every landowner in America who does not want to give up their water rights.

Let's not create just a limited application of this new expansion of the CRP in a way that would essentially disqualify everyone who is not willing to give up their right to water. That is my biggest concern with regard to the so-called voluntariness issue and the purpose behind this legislation.

Another point I think is critical to make is that those who advocate this provision say it is important we protect these threatened species and species that could be benefited if the Fed-

eral Government could take control of this water and utilize it for their benefit. It is a good point. Utilization of the water resources of this Nation for the benefit of species is critical, and yet under existing Federal laws, such as the Endangered Species Act, the Clean Water Act, and so forth, and under existing State laws, almost everything that has been discussed as a very positive thing that should be done under the Endangered Species Act can already be done.

If you stop to think about it, as the Senator from Montana already said, the Federal Government can already buy water rights in a willing buyer/willing seller arrangement. What is being added here is that lever or that hammer that says you cannot any longer participate in the expansion of the CRP unless you sell your water rights. Just a little bit of a hammer—maybe not such a little hammer—on the water users of this Nation.

Yet already we are achieving some of those objectives under the existing law. For example, in my State of Idaho, the need for water for salmon and steelhead has long been established, has been debated actually, but has long been something that has been sought to be addressed under the Endangered Species Act. For years, hundreds of thousands of acre-feet of water in Idaho on an annual basis have been made available on this true willing buyer/willing seller basis where the Federal Government has come in and obtained on fair evenhanded negotiations the ability to get water out of the waterbank or out of some projects or out of water users who do not need it for that year and to utilize it for the salmon and the steelhead.

That can be done, but it does not have to be done with the added hammer of prohibiting access to the CRP.

In the State of Idaho, for example, the U.S. Bureau of Reclamation, as I indicated, has been able to rent water from the State waterbank from willing sellers for almost a decade. Recently, in another context, the Bureau has rented water in the Lemhi River area, a tributary of the Salmon River for the benefit of species. All of this was done under State law and Federal with the current system.

I have a letter from the Governor of the State of Idaho who asked us to oppose this legislation because it is in conflict with Idaho's water law and because, as he says:

In addition, the goal of implementing water quantity and water quality improvement demonstrated to be required for species listed under the Endangered Species Act can largely be achieved under existing State laws.

The Governor goes on to give examples that explain we have those abilities and the desires in the States right now to achieve these objectives.

What this comes down to, frankly, is: Are we going to modify and take a step

into the arena of our conservation title of the farm bill now and modify the CRP in a way that creates a hammer to force those who would like to participate in it, would like to improve the habitat under this program, would like to take the incentive that it provides and say: You cannot do it unless you give up your water rights? Or are we going to use the existing voluntary basis of addressing these issues under the Endangered Species Act, in terms of obtaining and utilizing water rights, and let the CRP work as it has been intended to work and as it has so effectively worked over the last years to let farmers, without having to jeopardize their water rights, do those things they know are going to benefit the species that reside on their property?

I think that it would be better, actually. If you want to look at what is going to actually result in the best results for species and for wildlife in general in the United States, I think it is going to be best if we allow those who own land and who operate land in agricultural endeavors to continue to utilize this expansion of the CRP program without the threats of giving up their water rights because you will have many more people willing to participate then, many more lands that will be available and be competitive for this expansion, and the Secretary will be able to have a broader array of choices in terms of the allocations of the new CRP land.

A last question that perhaps the Senator from Nevada can answer, a question raised by some of the water users as they struggle to evaluate what will happen: What happens if a water user who enters into a contract with the Secretary agrees on a temporary basis to give up his water rights and then chooses, for whatever reasons—economic reasons or whatever—to break out of the contract and go back into production? I understand there are financial penalties for that. That is understood. By then taking that water back from the Federal Government's utilization to the utilization of the farmer, which I assume would be possible, would that then result in a section 9 violation of the Endangered Species Act by taking water away from a species?

A lot of questions come up under this law as to what will happen if this new regime for utilization of water is implemented. I know the Senator from Nevada says State law is not being superseded. The fact is, under the State laws in the West, many different evaluations have to be made before a water right can be transferred. In many cases, the water right is actually owned by a canal company or irrigation district, not by the land owner. So permission there would have to be obtained. Then approval from the State water authorities would have to be obtained.

I assume from the answers we have gotten that would be left in place and no farmer would be able to participate unless he got approval from the entities that were the actual owners of the water and from the State that manages the water. Again, that will limit dramatically the number of people who can take advantage of this expansion of the CRP. But assuming that is in place, what happens if the Endangered Species Act becomes applicable to the new utilization of the water regime and the farmer wants to take it back? We have a lot of questions that need to be answered.

In summary, we have not had a chance to thoroughly vet this issue. It has not been reviewed in committee or hearings. There is a tremendous amount of unrest building and developing around the country over what this will do. The bottom line is, there is no established reason for trying to connect the Endangered Species Act and the desire for expansive Federal control over water to a very effective CRP that is doing its job under the conservation title of the farm bill.

I encourage those Senators who will make their decision on this issue soon as we come to vote on it to recognize we should reject this section of the farm bill and support the amendment to strike this provision and work in a collaborative fashion to develop the approaches to the farm bill that will expand and strengthen our conservation title, but not do so in a way so divisive.

I conclude with this. I have maintained for many years probably the most significant piece of environmentally positive legislation we have worked on in Congress is the farm bill. It has tremendous incentives in the conservation title to make sure the private land users in this country and the way we utilize our agricultural land and its production are incentivised for good, positive, conservation practices that benefit species, our air quality, our water quality, and the like. That is what this conservation title does. That is what the CRP is designed to do. Do not saddle the CRP with this unnecessary effort to extend Federal control over water and Federal acquisition over water. Let the CRP work as it was intended.

The PRESIDING OFFICER. The senior Senator from Idaho.

Mr. CRAIG. Mr. President, I join with my colleague and partner from Idaho with what I think is, for Idaho, an arid Western State, probably one of the more critical debates of new farm policy for our country.

Those who live east of the Mississippi have no comprehension of the value of a raindrop, the value of a bank of snow, or the value of a large body of water retained behind an impoundment, known as a reservoir. My forbears and Senator CRAPO's forbears for generations have recognized the value of storing water

under State law and allocating this very scarce commodity to make the deserts of the West bloom and to become productive.

There is no question in anyone's mind, I hope, that the ability to allocate water is the sole responsibility of the States. That is a fundamental right that has been well established in law. While oftentimes disputed by those who disagree, it is rarely ruled against in court.

Why are we gathered here tonight? Because an amendment would propose in some nature, yet to be argued, that that fundamental principle of western water law is somehow overridden by a Federal law.

My colleague from Idaho was very clear in pointing out the rather perverse incentive created within this bill. The authors take a very popular conservation program known as CRP and suggest if you wish to enter it anew, somehow you have to give up something increasingly more valuable. That has never been the concept. The benefit of CRP and the intent of CRP—and I am one who has been here long enough to say I was there at the beginning of this idea—said it was to take erosive lands out of the market, give that land owner something in return for the value of the conservation that would result.

What has happened in the meantime is a well established record that these lands once tilled were turned into grasses and stubbles and root base that held the water, stopped the erosion, and became some of the finest upland game bird habitat in the West.

In my State of Idaho, it is an extremely popular program where pheasant, chukar, and sage grouse now flourish because of the program. The incentive was the right and natural incentive. It was not: I want to provide you something, but to do so, I want to take something away.

The Senator from California, a few moments ago, opined about the fact of a dry river bed. I am not going to suggest States have allocated their water always in the proper fashion. We in the West are in a tug today, a tug of war over water because we are populating at a very rapid and historic rate compared to the last century. Agriculture, some manufacturing, and human consumption were the dominant consumptive uses of water. We failed to take into recognition the value of fisheries on occasion or riparian zones. We now understand that.

But here is the catch-22. My State, for 100 years, added to its water base. My State created more water than that State ever had before the Western European man came. Why? Because we created impoundments, we saved the spring runoff, and we increased the abundance of water in my State by hundreds of thousands of acre-feet. But about a decade and a half ago, because

of environmental interests and attitudes, we stopped doing that. The Federal Government said: We will build no more dams. It is not a good thing to dam up rivers. So it stopped. We stopped adding water to a very arid Western State. And it is true across the West. So we locked into place the amount of water that was there. We could add no more.

Two decades ago, I joined with the Senator from Colorado to establish a new water project in southeastern Colorado and we have fought it for two decades. It still is not constructed. Yet it would have added an abundance of new water to that corner of the State. It was denied by environmental interests and others. That is really a very encapsulated history as I know it.

Now what is happening, in an area where we have been locked into a limited amount of water, unable to store or generate more by spring runoff, we are saying you have to divide that which is currently used for other uses.

I will tell you, the arguments are pretty legitimate: Fisheries, water quality, in-stream flow, riparian zones—something we all want. It is something we all believe in. But because of the situation the arid West has been put in, when we offer up to do this, we have to take it away from somebody else. We can't add because we have no more water with which to work.

We are at the headwaters of a mighty water system in my State known as the Snake-Columbia system. The mighty Snake River begins just over the mountain in Wyoming, springs through Idaho, and picks up the tributaries and dumps from the Idaho into the Columbia River, and our rivers and our streams are the habitat for salmonoid fisheries—salmon, a marvelous species of fish. They come up from the ocean to spawn, and their offspring go back to the ocean. That has become an increasingly important issue in my State because they are now listed as endangered or threatened under the Endangered Species Act.

The State of Idaho has sent upwards, at times, of 700,000 acre-feet of their water, under law, downriver to help those fish. But there are those who want more.

As my colleague from Idaho said, the Bureau of Reclamation in Idaho is, in fact, acquiring water from Idaho and its willing seller. That is the appropriate thing to do. It is not an adversary relationship. If you have surplus available and it is in a nonuse way, we will acquire it and put it to some other use.

But that fight doesn't occur here in the Nation's capital. It occurs in Boise, in Idaho's capital, in the State capital of our State where water law, water fights ought to exist. If you are going to fight water in Colorado, you fight it in Denver, you don't fight it here, be-

cause it is not our right to do so. If you are going to fight water in New Mexico, you fight it in Albuquerque.

And we will have those fights. The West is replete with a history of water fights. Why? Because it is a scarce commodity. It is a lifegiving commodity—to the human species, to the fish, to the wildlife, to the plants that become the abundant crops that have made our States the great productive States that they are. But it was the men and women of Idaho from the beginning who decided how Idaho's water ought to be allocated—not the Federal Government, not the Agriculture Committee of the Senate, not the Secretary of Agriculture, but the citizens of the State of Idaho.

So the senior Senator from New Mexico offers an amendment to strike the provision for the water conservation program as proposed by the Senator from Nevada, and he is right to do so. It doesn't mean a program such as this couldn't exist. It doesn't mean a program such as this should not exist. But if it does exist, it ought to be the right of the State to decide whether its citizens can participate in it because it is the State's right to decide how that water gets allocated and not the Federal Government's.

When I first came to Congress in the early 1980s, there were some very wise environmentalists who were scratching their heads and saying: Wait a minute, if Idaho is 63 percent owned by the Federal Government and the citizens of the Nation and most of the tops of those watersheds where that water system of the West begins are Federal land, why isn't it Federal water? And there was a thrust and a move to take it.

We blocked it. We stopped it. Why? Because of the precedent and the history and the reality that when you are in a State such as mine and that of Senator MIKE CRAPO, where we get about 15 inches of rainfall a year, water is sacred. What do we get here, 60-plus in a good year? People east of the Mississippi don't worry about water so much. They don't realize that you have to control it and impound it. Actually, they are trying to control it to keep it off their lands most of the time, to keep it out of their farms because it floods and does damage. We have had those fights here—reclamation fights and all of that drainage kind of thing in wetlands. Quite the reverse is true out there on the other side of the Rockies, on the other side of the Mississippi.

Mr. CAMPBELL. Will the Senator yield for a question?

Mr. CRAIG. I am happy to yield.

Mr. CAMPBELL. I worked with the Senator from Idaho on a good number of water bills for a number of years. Maybe I should correct him because we have one more water project to build, and that is what he and I have been

working on in Colorado for the last two decades. But something came to my mind as I have been listening to the debate, and I would like to ask the Senator a question, since he is the only one on the floor.

Most of the western States have several problems including over appropriation, which means more people own the water than there is water. That is why we have been fighting back and forth. One of the things common to the West but not common to the East is called water compacts. We have them between counties sharing scarce water, we have them between States. Colorado happens to be an upper basin State, as it is called; California, a lower basin State; and we share the water that goes down the Colorado River. We also share the water, under a contractual agreement, that goes down the Rio Grande that starts in Colorado, that goes to Texas.

In addition to interstate compacts, we have international compacts because we have a compact with Mexico to provide a certain amount of water from both of those rivers to that nation.

Most of the water that is in ranching now recharges back to the ground. It goes back either through runoff irrigation, which goes back to the river, or if it is sprinkled, it usually recharges the aquifer to some degree. One of the big unknown questions for me is if there is a possibility, if we change the use or allow the Federal Government to change the use, it would in any way upset existing compacts. I would like to ask the Senator if he has thought about that, if he has any views on that.

Mr. CRAIG. I appreciate the Senator asking the question. I am not sure I can respond. What the Senator has clearly demonstrated though, by the question, is the complex character of western water and western water relationships. The Senator is in the headwaters of the mighty Colorado River. Yet the citizens of the State of Colorado don't have a right to drain the river because the Colorado is the headwaters of a river system that goes all the way to the Gulf of California. All of those relationships have developed over the years.

I am not sure I can answer that question. I think it is literally that technical. That is why, when somebody says, Oh, this causes no problem—until you review it and put it into the context of the law that governs water, a clear answer cannot be given. And I am not a water attorney.

Mr. CAMPBELL. Exactly the point. We don't know the problems that will be created, and that is why I think it is wrong to move forward with this bill with this section in it until we have had some really in-depth hearings as to how it would affect water in all the States of the West.

I appreciate the time.

Mr. CRAIG. The Senator from Colorado also mentioned something else in the context of his question that I think is often not understood. The Idaho Fish and Game Department would tell any citizen, or any questioning person, that there is more wildlife and more abundance of wildlife in Idaho today than ever in our known history except for maybe prehistoric times. Before the crust shifted and the glaciers receded totally, we were a fairly tropical area, and there may have been a more abundant wildlife at that time. But I am talking about known history.

We have more wildlife in our State today, in the general sense, than ever in our State's history. They will tell us very simply why. There is more water.

While some of our citizens are concerned that it isn't where they would like it to be as it relates to their particular interest—whether it be a fish or a riparian zone—the abundance of deer, elk, antelope, and some of our upland game birds is in direct proportion to the amount of water that is now being spread upon the land by humans. It is that multiplier that I talked about earlier on that Idahoans have been increasing the overall volume of water in their State, on an annualized basis, ever since we set foot in the State and began to homestead it and turn the land and make it productive.

For example, we used to flood irrigate, spread the water openly on the land, over the Idaho aquifer. Because we wanted to conserve the water, we have moved from flood irrigation to sprinkler irrigation.

We dramatically reduced the amount of water that is now being returned to the aquifer. We changed the very character of a climate that we created in the beginning upon which wildlife depended. Herein lies the question that needs to be asked of the impact of what the Senator might want to do with his amendment.

Let us suggest that you, for a period of time, leased your water from a given acreage of land and it became arid, and certain wildlife moved on the land that liked arid land. Then, later on, you chose to irrigate the land which might drown out the particular arid species and somebody filed on you because you were threatening that species and risking its endangerment. Are you in violation of the law when you say you are only returning the land to its pre-existing use?

Let us say you dried up the land and caused the species that were rare to leave because the lack of moisture turned it arid.

Those are all the kinds of simple complication because we have made the law so critical and caused some of our friends to become such critics. Those are reasonable questions to ask.

In the West and in the arid regions of our country, a long while ago this Congress recognized how important it was

for those who lived in the arid areas to determine the use of the water. Some scholars called it the oasis theory. My grandfather said that very early on when he was homesteading; he homesteaded where the water was. Why? Because it is life for you and your family, and the livestock. In that case, it was my granddad's sheep ranch. It wasn't by accident that he became the owner and controller of water because it was a very limited commodity and it allowed him to grow and to expand his business, if he had to.

That has been the history of the West. That is why we must not allow this amendment to exist. I am not saying the purpose isn't right, nor am I saying the Secretary of Agriculture might not want to ask the State to participate. But they ought to be asking and the State ought to have a right to say yes or no, and there ought not be any perverse incentive that if you do not, you won't get something in return that others can get.

That isn't the way conservation programs ought to be developed. There ought to clearly be incentives. The additional CRP offers just that. It has been a very successful program in the foothill countries of the upland areas, in the steep countries, and the erosive lands that were once farmed. That is what ought to happen this time.

I hope we can work out those differences. If not, we will have to not only attempt to strike, as the Senator from New Mexico is now attempting to do, but we will have to follow any effort through to conference and work with our colleagues in the House to make that happen.

That is how critically important this is for the West and for all of us involved.

I yield the floor.

Mr. REID. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. DOMENICI. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DOMENICI. Mr. President, we are going to put ourselves in a quorum because the principals involved are working on a way to resolve the issue that is brought to the Senate in the Domenici amendment to strike. That is why we are not going to be speaking for just a while. We hope we are saving time by doing this.

I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. MURKOWSKI. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. MURKOWSKI. Mr. President, I rise in strong support of Senator DOMENICI's amendment to strike the conservation provisions of this legislation.

As former chairman of the Energy and Natural Resources Committee with jurisdiction over western water, and now the ranking member, I have labored with my colleagues for a good deal of time to try to resolve these issues. This proposal coming in without any hearings, and without any input from the Western States that care so much for their prosperity over water, and this particular portion of this legislation is absolutely premature and inappropriate. It doesn't belong in here.

Senator DOMENICI's amendment to strike the conservation provision is something I wholeheartedly support. We simply do not need to have another program with the intent of taking water away from farmers. That is just what this does.

This program, as I indicated, has not had a hearing, and it will directly affect programs within the jurisdiction of our Committee on Energy and Natural Resources. It took us years and years to craft and enact the Upper Colorado Fish Recovery Program. I am of the opinion that this could be adversely affected if these provisions are adopted.

We are presently in the midst of considering reauthorization of the CALFED Program in California. I know Senator FEINSTEIN worked very hard on that. Its effects on Federal and local obligations in the Central Valley of California are paramount. This new program could significantly affect the effort and directly increase obligations of Federal contractors in the Central Valley.

There is a multispecies program under consideration in the lower Colorado that could be directly and adversely affected as well.

Further, there is not the slightest reference to the requirements of reclamation law, and most farmers west of the Mississippi are dependent on the operation of reclamation law. That is what they are governed by; that is what they live by; that is the gospel. There is no reference to that.

As a consequence, these people have to feel very uneasy and very insecure about this proposal.

Again, there is certainly justification for Senator Domenici's amendment to strike. The entire chapter in the Daschle amendment should be introduced as separate legislation. It should be referred to the proper committee, the Committee on Energy and Natural Resources, and have full hearings. Consideration should be given before any action is taken.

I certainly don't subscribe to the theory that these programs are voluntary. We have seen too much of that.

We have ample evidence from the last administration of the ability of the Federal Government to coerce people to agree. We also had ample evidence from the last administration of their ability to use Federal law to reinterpret State water law. Secretary Babbitt's proposal by regulation to declare nonuse to be a beneficial use in the Lower Basin of Colorado is evidence of that.

There is nothing to give us any comfort that another Secretary, such as Secretary Babbitt, could not use this authority to completely abrogate State water law and force the farmers to adhere or simply go out of business.

I support the amendment by the Senator from New Mexico to strike these provisions. I urge my colleagues to do the same. I think we have discussed this to the point where it is evident and clear that this is not good legislation.

I yield the floor. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. DOMENICI. Madam President, I ask unanimous consent the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mrs. CARNAHAN). Without objection, it is so ordered.

Mr. DOMENICI. Madam President, I think that the debate was a very good one. I think we all understand each other much better. Senator REID and I have reached an agreement, and my fellow Senator from New Mexico has been a participant and a helper.

AMENDMENT NO. 2502, AS MODIFIED

I send to the desk a modification of my amendment, the strike amendment. This amendment, as modified, is offered on behalf of myself, my colleague, Senator BINGAMAN, and Senator REID.

The PRESIDING OFFICER. The Senator has that right.

The amendment is modified.

The amendment, as modified, is as follows:

On page 130, line 9, insert the following: "Before the Secretary of Agriculture begins to implement the program created under this section in any State, the Secretary shall obtain written consent from the governor of the State. The Secretary shall not implement this program without obtaining this consent. In the event of the election or appointment of a new governor in a State, the Secretary shall once again seek written consent to allow for any new enrollment in the program created under this section in that State."

Mr. DOMENICI. Now, Madam President, rather than explain it, I will just read it. Then everybody will understand what we have done is make this a consensual program. That means that the Governor of the State must agree for his State to be in this new program. And that right is given to

each Governor if, in fact, there is a new Governor while the program is still in existence.

So I am just going to read it:

Before the Secretary of Agriculture begins to implement the program created under this section in any State, the Secretary shall obtain written consent from the governor of the State. The Secretary shall not implement this program without obtaining this consent. In the event of the election or appointment of a new Governor in a State, the Secretary shall once again seek written consent to allow for any new enrollment in the program created under this section in that State.

I yield to Senator BINGAMAN who wants to comment.

The PRESIDING OFFICER. The Senator from New Mexico.

Mr. BINGAMAN. Madam President, I thank my colleague. First, let me compliment him for raising concerns about the provision. I also compliment Senator REID for his commitment to try to help deal with some of these issues requiring additional attention to water conservation in the West.

I do think that is a real need. It is a real need we see all the time. Senator DOMENICI, my colleague, raised questions about the particular program and how that would affect our States and whether it would be an appropriate program to implement. Those were very valid questions.

This modification that Senator DOMENICI has now sent to the desk, on behalf of himself and me and Senator REID, is a very good compromise. What it does is make it very clear that each State can make its own determination as to whether this is a program in which it wants to be involved. If it does not, then clearly it should not be forced to do so. This is a very good result. It certainly meets our needs in New Mexico.

I compliment Senator DOMENICI for this modification. I compliment Senator REID as well for his leadership on this whole range of issues.

The PRESIDING OFFICER. The Senator from Nevada.

Mr. REID. Madam President, so the record is clear, I want everyone to know that Senator DOMENICI and Senator BINGAMAN have been most reasonable in their approach. We early on tried to get an opt-out provision. This makes much more sense and is mechanically something that will work very well. I also appreciate the dialog we have had off the floor with Senator CRAPO, who is a water law lawyer. He is going to come back later with some other questions he has. We will be happy to visit with him.

I am grateful for moving this issue along. As I have said all along, this is one of the real strong points of this new bill. I am grateful this amendment will be accepted shortly.

Mr. CRAIG. Will the Senator yield?

Mr. REID. I am happy to yield.

Mr. CRAIG. I appreciate what the Senator is working to do with our col-

leagues from New Mexico. This is a vast improvement without question over what I believe is a major intrusion into water law and the very reclamation laws that many of our colleagues before us have written. I am not quite sure we have bridged the gap yet. I do believe there is a very real precedent here that is risky at best as it relates to our reclamation laws.

This particular amendment has not withstood that test. Nor has it had the very intricacy of water law reviewed against it. That is critical.

I know the intent and the good intentions of the Senator from Nevada. This is a phenomenally complicated area. To study water law today and to look at the court proceedings over the last decades would argue that very clearly.

My colleague from Idaho has spent a good deal of time with water law. I am not a lawyer; I have not. But I do recognize a precedent when I see it and something that is new and unique to a very important body of law. I hope we can continue to work to perfect this. I do believe there is a very clear perverse incentive here that no person, nor public policy, should have embodied within it.

I thank the Senator for yielding.

Mr. REID. I respond to my friend from Idaho, his elucidation is the reason we have the States having the obligation, if they want in this program, to say "we want in the program." I think from what the Senator outlined, if a State doesn't want in, then they don't come in. As I have indicated earlier in my remarks, I would be happy to work with Senator CRAIG's colleague, Senator CRAPO, who now is in the Chamber, to see if we can come up with something that will meet his questions and some of his concerns.

I have indicated to him that I certainly will not reject outright anything he has to say. I have an open mind and would be happy to visit with him. I have also indicated to Senator KYL that there is absolutely no question that this has nothing to do with changing State law. The Senator has indicated at a subsequent time he will submit to us some language, and we will be happy to take a look at that, if he believes this language in our legislation is not clear enough. He also has had experience in water law, as has the Senator from Idaho. I would be happy to take a look at that.

I have had great experience working with the Senator from Arizona, who has been extremely important in our working on one of the most difficult water problems we have had in the entire West. The State of Arizona and the State of Nevada were at war for about 3 years, a bitter water war. As a result of our help and the water expertise of the Senator from Arizona, and perhaps a little of my political work on the issue, we were able to work something out. So now the States of Arizona and

Nevada are working together hand in glove.

I look forward to working with these Senators in the near future on this issue.

The PRESIDING OFFICER. The Senator from New Mexico.

Mr. DOMENICI. Madam President, parliamentary inquiry: Has the amendment been adopted?

The PRESIDING OFFICER. It has not.

Mr. DOMENICI. I yield back any time we might have on the amendment.

The PRESIDING OFFICER. Is there further debate on the amendment? The Senator from Idaho.

Mr. CRAPO. I was not on the floor when Senator DOMENICI made his request. What is the status of the procedure at this point?

Mr. DOMENICI. I should have stated that when the Senator arrived. I had the privilege of offering a substitute amendment for my amendment to strike. I merely substituted the new one for the motion to strike. So if it is adopted or when it is adopted, we will have accomplished one significant step. And that is that the program cannot be implemented in any State without the concurrence of the Governor of that State in writing.

There remains other issues that do not have to do with the consent and whether the program can be used in a State, but rather how will it be applied vis-a-vis the 1.1 million acres that were intended for Western States, for States, under this new provision. The Senator is working on that. He now has some other people working on it. I have the utmost confidence that he will come up with some language. I anxiously await it, and I will be there to help and support him. I think we have eliminated a major concern our States had, and that was that this law would be there, and it would be a new imposition. Even if the States didn't want it, if they thought it was not good, they would be stuck with it. I think we have eliminated that. All of the things we think are perverse about that are not going to happen.

I thank the Senator, because I didn't do it heretofore, for his help. He has been here most of the afternoon. I do believe together we made an important contribution. I thank the Senator for that.

Mr. CRAPO. Madam President, I would like to make a couple comments on the amendment before we vote, if I might.

The PRESIDING OFFICER. The Senator is recognized.

Mr. CRAPO. Madam President, I will support the amendment Senator DOMENICI from New Mexico has proposed. I appreciate the opportunity to work with him, and I believe he has done a tremendous job in identifying a serious problem and getting, as he indi-

cated, a significant part of it solved. There is still an additional problem with which I have a concern. That is, even though we now have reached an agreement which will basically provide an opt-in situation in which the Governor of each State has the authority to determine whether his State or her State will opt into these provisions, the problem we face is that the States that choose to opt out or to stay out are then deprived of their ability to participate in this 1.1 million acres of CRP land that is being added to the CRP.

There is a hammer there on the States now to either opt in or not have access to this expansion of the CRP.

I have discussed this issue with the good Senator from Nevada, and I appreciate his willingness to work with me on trying to resolve the issue. He has agreed that we will try to work out the differences and, hopefully, be able to come forward with a unanimous consent request or some type of approach that is agreed to. But if not, we will be able to propose additional amendments to try to address this issue, including striking the provision, if we are not able to work it out.

I appreciate all of those here who have worked on this matter. Senator CRAIG has worked diligently, and Senator DOMENICI has worked so strongly in bringing this forward. I appreciate the willingness of Senator from Nevada, Mr. REID, to try to iron out the concerns we have on western water law. I believe several other Senators from the West have strong concerns. They may want to make brief comments. I will support Senator DOMENICI's amendment.

The PRESIDING OFFICER. The Senator from New Mexico.

Mr. DOMENICI. Madam President, I made a mistake. I should have included as a cosponsor of the Domenici amendment all of those who are cosponsors of my motion to strike. They have indicated they want to be on the amendment. We don't have any objection; quite the contrary. I ask unanimous consent that they be original cosponsors as it is tendered to the desk.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from Arizona is recognized.

Mr. KYL. Madam President, I thank Senator REID for the comments he made. He is absolutely right that after years of acrimony, representatives of the State of Nevada and Arizona solved a real difficult water issue which became a win-win for both States. I am hoping that the kind of work we need to do in the Senate on this proposal can likewise result in win-win situations.

Western water law issues become very complex very quickly, and we want to ensure that nothing we do here in any way adversely affects the long-

established, traditional water policies of the West. Senator REID has assured me that it is not his intention that this legislation be contrary to State procedural or substantive water law, interstate compacts, or, of course, Federal law. We are preparing language that will affirm that.

I appreciate the Senator's concurrence in that view. Given the comments of Senator DOMENICI, I am prepared to support his amendment as well. There are additional concerns that I have about this. We will try to work those out and deal with them in an appropriate way.

The PRESIDING OFFICER. Is there further debate on the amendment?

If not, the question is on agreeing to the amendment, as modified.

The amendment (No. 2502), as modified, was agreed to.

Mr. DOMENICI. Madam President, I move to reconsider the vote.

Mr. HARKIN. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

The PRESIDING OFFICER. The Senator from North Dakota is recognized.

Mr. DORGAN. Madam President, I wish to inquire of the Senator from Iowa, if I might get his attention. First of all, I congratulate those who worked on this amendment. It sounds to me as if they have done a lot of hard work in reaching a solution. I inquire of the Senator from Iowa and, perhaps, the Senator from Indiana of the progress in trying to find a list or to elicit information about what kind of a list of amendments might be about to be offered on this bill. The reason I ask the question is, it is 6:30 this evening and, of course, we are nearing the end of the session. It is coming very close to Christmas. We want to finish this bill so we have time remaining for a conference with the House and time to get the bill to the President.

Because we have had long discussions and good discussions today on a number of amendments, I am inquiring on the part of both the manager and the Senator from Iowa and the Senator from Indiana whether we have a capability of exploring a list of amendments that might be available at this point.

Mr. LUGAR. If I may respond, Madam President, with the disposition of the Domenici amendment, the next amendment—at least on our side—that we are prepared to offer is that of the distinguished Senator from Missouri, Mr. BOND. Then Senator BURNS has an amendment that he wishes to offer, Senator MURKOWSKI has an amendment, and Senator MCCAIN has one. These are ones that are clearly identifiable at this point. Senator BURNS may have more than one amendment, but he will commence in this batting order with his initial amendment.

Mr. DORGAN. I understand there is likely to be a larger amendment, or a

more significant amendment, the Cochran-Roberts amendment—not to suggest that the others are not significant. But we have all been awaiting an amendment by Cochran-Roberts, which is not on the list. Is he anticipating that?

Mr. LUGAR. I anticipate that the Senators will offer their amendment. They have been working on it, and I understand they are not prepared to do so today. Perhaps they will be prepared to do so tomorrow.

Mr. DORGAN. If I might inquire one more time, is there an anticipation that there is an opportunity perhaps to finish this bill by sometime tomorrow evening, or does the chairman or the ranking member expect this is going to take longer than that? In the context of that, is there a time when one might be able to get a finite list of amendments?

Mr. LUGAR. I respond, respectfully, to the Senator that at this point a finite list is not possible. But it may be possible sometime tomorrow. We are attempting to canvas. I have simply identified amendments that I think are significant, and the amendment the Senator identified would be, too. The two amendments that we have dealt with this afternoon have taken about 3¼ hours and 2½ hours, respectively, so these were not insignificant debates, which Members on both sides of the aisle engaged in in a spirited way.

Mr. DORGAN. Again, I thank the Senator for his response. I invite the response of the Senator from Iowa, but I hope that perhaps we can find a way to get a list of amendments and also agree to reasonable time limits on amendments. There is Parkinson's law that the time required expands to fit the time available. So because we are nearing the end of the session, it is really important to find a way to reach an end stage. I ask the Senator from Iowa if he might respond on whether we can get a finite list.

Mr. HARKIN. Well, I hope by this evening, perhaps before we go out tonight. I will work with my distinguished ranking member, my good friend, Senator LUGAR, to see if we can get some kind of a list. It is true, as the Senator says, that the longer you stay here, more and more—it is like that old game you play at the arcade, whack-a-mole, where they keep popping up. If we don't have a finite list, those lobbyists and everybody out there who is trying to get their year-end counts up and get that year-end bonus, all their lobbying, and they can gin up all kinds of amendments around here to show the kind of work they are doing. I am hopeful that we can get a finite list. I don't know if we can do it tonight. I hope early tomorrow we can get a finite list.

I want to assure the Senator from North Dakota, and every other Senator who is listening, we will finish this

farm bill before we go home. If there is anyone here who thinks that by slowing things down or something like that, that it is going to work, it is not. We are going to finish this farm bill. We should finish it this week. I believe we can finish it this week. As long as we expedite the amendments, with a reasonable time for debate, I see no reason why we can't.

I have a letter sent to Senators DASCHLE and LOTT, and they sent a copy to me, and probably to Senator LUGAR, too. It is from a whole list of farm groups. I don't know how many, maybe 30 or more of them. They said:

We believe it is vitally important this legislation be enacted this year to provide an important economic stimulus to rural America before Congress adjourns.

This was sent on the 10th. They said:

We fully understand that policy differences exist regarding this important legislation and would encourage a healthy debate on these issues. However, we are very concerned that the timeframe to pass this legislation is rapidly drawing to a close. We believe this will require the Senate to complete a thorough debate and achieve passage of the legislation by Wednesday evening, December 12.

That is tonight, and we are not there yet. They say:

We urge you to allow Members an opportunity to offer amendments that are relevant to the development of sound agricultural policy while opposing any amendments designed to delay passage of this important legislation by running out the clock prior to the adjournment of Congress.

I can say to the signers of this letter that thus far all of the amendments have been relevant, they have been germane, they have been meaningful amendments, and we have had good debate. I hope we can continue on in that spirit and not cut off anybody, but I hope we can have reasonable limits on time. We will be here, and we will finish this bill before we leave this week.

I ask unanimous consent that the letter to which I referred be printed in the RECORD.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

DECEMBER 10, 2001.

Hon. TOM DASCHLE,
Majority Leader, U.S. Senate,
Washington, DC.

Hon. TRENT LOTT,
Majority Leader, U.S. Senate,
Washington, DC.

DEAR SENATORS DASCHLE AND LOTT: The undersigned farm, commodity and lender organizations write to thank you for your efforts to expedite the debate and consideration of a new farm bill in the United States Senate, and to urge that the legislation be completed in a timely manner without delay. We believe it is vitally important that this legislation be enacted this year to provide an important economic stimulus to rural America before Congress adjourns.

We fully understand that policy differences exist regarding this important legislation, and would encourage a healthy debate on these issues. However, we are very concerned that the timeframe to pass this legislation is rapidly drawing to a close. We believe this

will require the Senate to complete a thorough debate and achieve passage of the legislation by Wednesday evening, December 12.

We urge you to allow members an opportunity to offer amendments that are relevant to the development of sound agricultural policy while opposing an amendments designed to delay passage of this important legislation by running out the clock prior to the adjournment of Congress.

New farm legislation must be enacted this year to stimulate and stabilize our rural economy that has been in a economic downturn for five years with no turn-around in sight. Unlike many sectors of the economy, production agriculture did not share in the economic growth of the last decade and has been devastated by depressed commodity prices, declining market opportunities and increasing costs.

It is critical to producers, farm lenders and rural communities that a new farm bill be approved this fall to provide the assurance necessary to plan for next year's crop production.

We encourage you and your colleagues in the Senate to complete action on a new farm bill as soon as possible to provide adequate time for a conference with the House of Representatives in order to ensure a final bill can be enacted this year.

Sincerely,

Mr. DORGAN. Madam President, I wonder if there is an expectation of having a recorded vote on the Bond amendment this evening and what time that might be expected. I do not know what the amendment is, but is it expected there will be a recorded vote required on the Bond amendment?

Mr. LUGAR. I have not inquired of the Senator as to whether he wishes to have a recorded vote. That would be his privilege and I would support that. I do not know the degree of controversy that will attend his amendment or how many Senators wish to speak on it.

Mr. DORGAN. At this point, the Senator does not know if we will have recorded votes this evening or when?

Mr. LUGAR. I cannot respond to the Senator on that.

Mr. HARKIN. I say to the Senator from North Dakota, I hope we have votes this evening. We have to finish this bill. We are here. Let's get the job done. I do not want to be here in the evening any more than anyone else. We have spent all day on this bill, and we have had two votes today—three votes. We need more than that. I see no reason why we cannot have a couple more votes before we go home.

Mr. DORGAN. Madam President, I share that view, and I encourage us to move along. I understand Senator BOND is here to offer an amendment. The quicker we move through these amendments, the better it is for American farmers.

The PRESIDING OFFICER. The Senator from Missouri.

Mr. BOND. Madam President, the staff has advised me they are working on getting a time agreement which would lead to a vote on this measure tomorrow. I will be proposing an amendment that has a number of bipartisan cosponsors. I think the cosponsors will want to speak on it. I imagine there will be others who wish to speak in opposition. Since this will be of some import, I hope we can work out an agreement on both sides for effective consideration of this amendment.

Let me describe my amendment so people will get a flavor of what we are talking about in order to come to an agreement on the time and perhaps others may want to speak on it. I hope they will because I think it is a very significant amendment.

The purpose of the amendment I wish to propose is to provide some protection to farmers. The farm bill is designed to preserve and promote the agricultural base of this country and provide a safe, abundant, and affordable food supply for our people. Farmers continue to do more with less than any other sector of this economy and remain the backbone of our economy providing our Nation and a large part of the world with an inexpensive and safe source of food and fiber.

There are many ways to help farmers. One is to send them financial assistance. Another is to help provide know-how through research and to help open foreign markets, and they are all very important. I support the efforts that are being made to provide that assistance to farmers, but another way to help farmers is for Government not to hurt them, the absence of pain. This is important.

However important or well intentioned Government seems to be, one of the problems facing those in agriculture is the demands placed upon farmers by various agencies of the Fed-

eral Government through the regulatory process. I have farmers in my State who tell me they spend more time preparing for public hearings than they spend on their combines. Some of the regulatory requirements and new rules clearly are necessary and justified, but for those who may not meet the test, it is critical that we provide the Department of Agriculture, specifically the Secretary, with tools to represent the interests of farm families when conflicts arise.

We need to empower the USDA Secretary to have a stronger voice when she represents the needs of farmers in interagency matters.

The bipartisan amendment I will offer is cosponsored by Senators GRASSLEY, ENZI, HAGEL, and MILLER. It is supported by the American Farm Bureau Federation, the National Cattlemen's Beef Association, the National Corn Growers Association, the National Association of Wheat Growers, the National Cotton Council, and the Southern Peanut Farmers Federation.

I also have a letter in which the Missouri organizations support the amendment, including many of the significant entities in Missouri.

The amendment simply authorizes the Secretary of Agriculture to review proposed Federal agency actions affecting agricultural producers to determine if an agency action is likely to have a significant adverse economic impact or to jeopardize the personal safety of agricultural producers.

Should the Secretary find that an agency action would jeopardize the safety or the economic health of agricultural producers, i.e., farmers, it authorizes the Secretary to consult with the agency head and to identify for the agency alternatives that are least likely to harm farmers.

It makes sense that the agency serving agriculture looks at other regulations which may have a significant impact on farmers and say: This is going to cause a real problem. Can we not achieve the objectives of your regulation? Can we not carry out your purposes without having such a harmful impact on agriculture?

If the USDA and the Secretary cannot come to an agreement with the other agency proposing the regulatory action and the agency decides, despite the USDA's best efforts to push forward with a final action that will have a significant adverse economic impact on or jeopardize the personal safety of agricultural producers, then the Secretary can elevate the decision to the White House, and the President is authorized under limited circumstances to reverse or amend the agency action if doing so is necessary to protect farmers and if it is in the public interest.

Under this amendment, the President would not be authorized to do so if the agency action is necessary to protect

human health, safety, or national security. The President would have to consider the public record, the purpose of the agency action and competing economic interests, if any.

Finally, the legislation provides that a Presidential action taken pursuant to this authority could be subjected to expedited congressional review. In other words, the Secretary of Agriculture tries to work out an agreement with the agency. If the agency says, no, we are not going to make any changes, we are not going to work with you, then the Secretary has an option. The Secretary can take it to the President. The President says to the agency proposing to take this action: Stop, you are not going to do it. At that point, Congress, by expedited action procedures we have already approved in other laws, can vote to overturn that Presidential action. So Congress has a role in this regulatory procedure that would not be subjected to filibuster.

In short, this proposal is designed to give farmers through their advocates and USDA a limited but considerable voice in agency actions that impact them directly.

In offering this amendment, it is my intention to provide additional discretion to the President to solve disputes between agencies when mandates may be in conflict and they are unable to come to terms and discretion would better serve the public than gridlock, legal action, or other delaying actions or unnecessary confusion. With discretion comes responsibility and accountability. I believe very strongly it is in the public interest to have political accountability and to limit the circumstances where the elected officials who are accountable to the citizens are not hiding behind bureaucrats when controversial issues arise.

Too many times we have had people say: That agency has sole discretion. Somebody in an agency, never elected by the people, not with any visibility or public accountability, makes a decision with a serious impact on agriculture. Then the Secretary of Agriculture can raise it to the highest elected official in the land and say: You look at it, Mr. President. If you agree that it is an unwarranted overreaching action that has an economic impact or health and safety impact on farmers, then the President can act. But we in Congress could, if we wished, overturn that action of the President. So Congress has a built-in protection against an overreaching Presidential action. We are bringing questions with major impact on the agricultural sector up to the level of public discourse by people elected by the American electorate.

This amendment, I believe, is an excellent opportunity to prompt USDA to play a more active and visible role fighting on behalf of farmers. Frankly, I have always thought they should

take a more active role. They have not always done so, much to the disappointment of the farm community, which is supposed to be served by them and much to the distress of those who support farmers.

Further, this amendment should help make other agencies more responsive to USDA when USDA raises concerns on behalf of farmers.

We are debating farm legislation because we care deeply about our agricultural base. We care deeply about the economic and social value of farm families. We want to protect our food security and thus, by extension, our national security. While we can help many farmers with \$170 billion in spending, we want USDA to be better able to take the simple role of standing up for farmers if another agency that may know little, if anything, about food production is taking action that will harm farmers economically or physically. The Government can help farmers by providing economic assistance. But the Government can also help by trying not to hurt them. That is what this amendment is all about.

We are rightly concerned in this country if an ant is endangered or any other species, but we should also be concerned if a farm community is threatened or endangered. I believe we should give farmers an extra measure of leverage at the table if it is their personal livelihoods or their personal safety which is jeopardized. This limited, and I believe measured, amendment is designed to do just that. What we are doing is strengthening laws that protect farm families.

I urge my Senate colleagues to consider this amendment very carefully, to provide their support, and to send a message to farmers that we believe farmers are worthy of protection; we want the Government to make every sensible attempt to act as advocates for farmers. We believe USDA should be active and visible, fighting for farmers, and we believe the President and the Congress are capable of and can be trusted to weigh the public interest.

This says to the administration that farmers don't always have to be at the very bottom of the food chain. Frankly, they start the food chain and they should be treated as part of that food chain.

I ask unanimous consent to have printed in the RECORD two letters of support, one from various national organizations dated December 7, and one dated December 10 from Missouri organizations.

There being no objection, the letters were ordered to be printed in the RECORD, as follows:

December 7, 2001.

Hon. KIT BOND,
U.S. Senate, Russell Senate Office Building,
Washington, DC.

DEAR SENATOR BOND: We are writing to urge your support for the Bond amendment providing authority to the Secretary of Agri-

culture to review proposed federal agency actions that may have a significant adverse economic impact or jeopardize personal safety of farmers and ranchers.

These are very difficult times for agricultural procedures. The cost and burden of regulation on agriculture has grown exponentially over time and it is an important factor in their struggle to remain competitive, both domestically and internationally. We strongly support the Bond amendment and believe that it will result in government policy being implemented in a more efficient and cost-effective manner. We appreciate your concern for the well being of farmers and ranchers and urge your support of this amendment.

Sincerely,

AMERICAN FARM BUREAU
FEDERATION.
NATIONAL ASSOCIATION OF
WHEAT GROWERS.
NATIONAL CATTLEMEN'S
BEEF ASSOCIATION.
NATIONAL CORN GROWERS
ASSOCIATION.
NATIONAL COTTON COUNCIL.

December 10, 2001.

Hon. CHRISTOPHER S. BOND,
U.S. Senate, Washington, DC.

DEAR SENATOR BOND: We applaud your ongoing efforts to reduce the regulatory burden facing our nation's farmers and ranchers. It is entirely appropriate that the farm bill include language that will stifle the regulatory onslaught brought upon by bureaucrats who know little about modern agricultural practices.

Today, farmers and ranchers have enough to worry about—commodity prices are pitiful and input prices more volatile than ever. Our members are being told they must be more competitive if they are to succeed in an increasingly global trade environment. But unfortunately, our nation's agricultural producers today find themselves fighting the federal government on issues such as water quality and quantity, access to crop and livestock protection tools, and appropriate nutrient management.

We believe your amendment will add much needed commonsense to the regulatory process. Additional review of regulations by the Secretary of Agriculture, consultation with other agency heads, and the authority for Presidential intervention are dramatic improvements over current law.

We strongly support your amendment and urge other Senators to support its passage.

Sincerely,

Missouri Farm Bureau; Missouri Corn Growers Association; Missouri Pork Producers Association; Coalition to Protect the Missouri River; Missouri Cattlemen's Association; Missouri Soybean Association; MFA, Inc.; Missouri Dairy Association; The Poultry Federation.

Mr. BOND. I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. DASCHLE. Madam President, I ask unanimous consent the order for the quorum call be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DASCHLE. Madam President, we have made some progress today on the bill. I appreciate the cooperation of

many of our colleagues. I know there is an amendment pending.

The distinguished Senator from Indiana has indicated other amendments could be offered tonight. I notify our colleagues we do not anticipate any other rollcall votes tonight. I hope some might still be prepared to offer amendments. We could stack the votes for tomorrow morning. We would like to keep going for awhile yet tonight. But in the interests of accommodating Senators with conflicting schedules, we will preclude the need for any additional rollcalls tonight. We will have those votes tomorrow should they be required.

I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. DASCHLE. I ask unanimous consent the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection it is so ordered.

AMENDMENT NO. 2511 TO AMENDMENT NO. 2471

Mr. DASCHLE. Madam President, I send an amendment to the desk and ask for its immediate consideration.

The assistant legislative clerk read as follows:

The Senator from South Dakota [Mr. DASCHLE], for himself and Mr. LUGAR, proposes an amendment numbered 2511 to amendment No. 2471.

Mr. DASCHLE. I ask unanimous consent the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To direct the Secretary of Agriculture to establish within the Department of Agriculture the position of Assistant Secretary of Agriculture for Civil Rights)

Strike the period at the end of section 1021 and insert a period and the following:

SEC. 1022. ASSISTANT SECRETARY OF AGRICULTURE FOR CIVIL RIGHTS.

(a) IN GENERAL.—Section 218 of the Department of Agriculture Reorganization Act of 1994 (7 U.S.C. 6918) is amended by adding at the end the following:

“(f) ASSISTANT SECRETARY OF AGRICULTURE FOR CIVIL RIGHTS.—

“(1) DEFINITION OF SOCIALLY DISADVANTAGED FARMER OR RANCHER.—In this subsection, the term ‘socially disadvantaged farmer or rancher’ has the meaning given the term in section 355(e) of the Consolidated Farm and Rural Development Act (7 U.S.C. 2003(e)).

“(2) ESTABLISHMENT OF POSITION.—The Secretary shall establish within the Department the position of Assistant Secretary of Agriculture for Civil Rights.

“(3) APPOINTMENT.—The Assistant Secretary of Agriculture for Civil Rights shall be appointed by the President, by and with the advice and consent of the Senate.

“(4) DUTIES.—The Assistant Secretary of Agriculture for Civil Rights shall—

“(A) enforce and coordinate compliance with all civil rights laws and related laws—

“(i) by the agencies of the Department; and

“(ii) under all programs of the Department (including all programs supported with Department funds);

“(B) ensure that—

“(i) the Department has measurable goals for treating customers and employees fairly and on a nondiscriminatory basis; and

“(ii) the goals and the progress made in meeting the goals are included in—

“(I) strategic plans of the Department; and

“(II) annual reviews of the plans;

“(C) ensure the compilation and public disclosure of data critical to assessing Department civil rights compliance in achieving on a nondiscriminatory basis participation of socially disadvantaged farmers and ranchers in programs of the Department on a nondiscriminatory basis;

“(D)(i) hold Department agency heads and senior executives accountable for civil rights compliance and performance; and

“(ii) assess performance of Department agency heads and senior executives on the basis of success made in those areas;

“(E) ensure, to the maximum extent practicable—

“(i) a sufficient level of participation by socially disadvantaged farmers and ranchers in deliberations of county and area committees established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)); and

“(ii) that participation data and election results involving the committees are made available to the public; and

“(F) perform such other functions as may be prescribed by the Secretary.”

(b) COMPENSATION.—Section 5315 of title 5, United States Code, is amended by striking “Assistant Secretaries of Agriculture (2)” and inserting “Assistant Secretaries of Agriculture (3)”.

(c) CONFORMING AMENDMENTS.—Section 296(b) of the Department of Agriculture Reorganization Act of 1994 (7 U.S.C. 7014(b)) is amended—

(1) in paragraph (3), by striking “or” at the end;

(2) in paragraph (4), by striking the period at the end and inserting “; or”; and

(3) by adding at the end the following:

“(5) the authority of the Secretary to establish within the Department the position of Assistant Secretary of Agriculture for Civil Rights under section 218(f).”

Mr. DASCHLE. Madam President, minority farmers have worked America's soil throughout our history. And while these farmers have done so much to advance American agriculture, they have experienced intense and often institutionalized discrimination in the process.

From the broken promise of “40 acres and a mule” during Reconstruction, to the discrimination inherent in many of the New Deal agriculture programs, to the first and second great migrations—during which so many left the land, never to return—the history of minority farmers in America has often been a history of hardship and struggle.

Our Nation has seen the result of that hardship in the dwindling number of minority farmers, and the dwindling acreage of minority farms.

In 1920, blacks owned 14 percent of our nation's farms. Today there are only 18,000 black farmers, representing less than 1 percent of all farms.

Hispanics—who make up such a large share of farm labor—account for a

mere 1½ percent of all farm operators. For Native Americans, that number is half of 1 percent.

Perhaps most saddening is that the United States Department of Agriculture—the agency which was founded by Abraham Lincoln to be “the people's Department” has often been part of the problem.

A 1982 report issued by the Civil Rights Commission stated that the United States Department of Agriculture was “a catalyst in the decline of the black farmer.” Statistics from that time show that only African-Americans received only 1 percent of all farm ownership loans.

A lawsuit filed in 1997 by more than 1,000 black farmers resulted in a historic settlement in which the government acknowledged significant civil right abuses against black farmers.

It is not enough to recognize and remedy past failings. We need to work to ensure that the USDA serves all of its customers fairly in the future.

That is why Senator LUGAR and I are proposing that we establish an Assistant Secretary of Agriculture for Civil Rights.

The Assistant Secretary of Agriculture for Civil Rights would be responsible for compliance and enforcement of all civil rights laws within the USDA, including the compilation and disclosure of information regarding minority, limited resource, and women farmers and ranchers. He or she would set target participation rates for minorities, and make sure that other agency heads and senior executives will enforce for civil rights laws.

Last week, I received a letter in support of this amendment from the chairs of the Congressional Black Caucus, the Congressional Hispanic Caucus, and the Congressional Asian Pacific Americans Caucus.

If they can speak with one voice in supporting this amendment, it is my hope that we can speak with one voice in passing it.

A while ago, PBS aired a film entitled “Homecoming.” It is a chronicle of black farmers from the Civil War to today. In it, a farmer named Lynmore James is interviewed.

I think his words guide our consideration of this amendment:

There's no question in my mind that a lot of land has been lost, and it was lost because of discrimination. But I don't think we need to just close the books on it. I think that where people have been wronged, it should be righted.

The most lasting way to truly see those wrongs made right is to ensure that they are never repeated.

That is exactly what an Assistant Secretary of Agriculture for Civil Rights would do, and that is why I urge my colleagues to support this amendment.

The PRESIDING OFFICER. The Senator from Indiana.

Mr. LUGAR. Madam President, I am pleased to be a cosponsor of an amendment that I think is truly important. The majority leader certainly outlined the basic reasons for it. But let me illuminate further.

From hearings we had before the Agriculture Committee in recent years during the period of time when I was privileged to serve as chairman, in each of those years we asked for reports from those responsible in USDA on progress in the area of civil rights disputes. There were so many. They were so complex and pervasive, and the backlog always seemed to be unusually and uncomfortably large.

Just last year we had an extensive hearing, and this came because the Secretary of Agriculture, then Dan Glickman, our former colleague from the House who had become the Secretary, had taken a great interest in this issue as a Member of the House and likewise in his new capacity. He recommended, after following the lead of the Civil Rights Action Team of the Department of Agriculture, that the head of civil rights become an Assistant Secretary. I think this is an appropriate time, in the farm bill, as we project agriculture and its governance for the coming years.

I would simply say that the reasons for civil rights problems at the Department of Agriculture appear legion, but they are not simply problems of committees in the field, often a point of dispute in the past, but frequently allegations of discrimination in the administration of the Department itself, which is something that is here in Washington—or at least very much under the control of those who administer the Department.

Whatever the reason—and certainly some will say this is precedent for the appointment of a similar Assistant Secretary ad seriatim in Cabinet after Cabinet post—and I appreciate that argument that has been offered from time to time—this is, I believe, a fortunately unique situation. Despite the best observation in a bipartisan way in our committee, and even with the cooperation of the Secretary of Agriculture, we have not overcome.

So I am pleased the distinguished majority leader has taken this initiative. I was immediately pleased that he asked me to be involved with this effort, which I am delighted to do. I think this is a constructive amendment, and I am hopeful it will find the approval of our colleagues.

I yield the floor.

The PRESIDING OFFICER. The majority leader.

Mr. DASCHLE. Madam President, I thank the distinguished senior Senator from Indiana for his eloquence and for his willingness to be supportive of this amendment. It is always a pleasure to work with him. Certainly in this case

it is, again, a matter of import. I appreciate very much his willingness to be involved.

I hope by the next time we pass a farm bill the numbers and the statistics and reports of continued erosion of minority involvement in agriculture can be turned around. As the distinguished Senator from Indiana has noted, this has not been necessarily by design. I think in large measure it has happened for reasons beyond the control of any one individual or any particular division of the Department of Agriculture. But we can do better. It is our hope that by putting somebody in charge we will do better.

It is our expectation that by the time we do another farm bill we can look back with some satisfaction that we indeed have done better and responded in a way that would make us far more satisfied about the progress that I believe we can make in this area.

With that, I yield the floor.

The PRESIDING OFFICER. Is there further debate on the amendment?

The Senator from Idaho.

AMENDMENT NO. 2512 TO AMENDMENT NO. 2511

Mr. CRAIG. Madam President, I send a second-degree amendment to the desk.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Idaho [Mr. CRAIG] proposes an amendment numbered 2512 to amendment No. 2511.

The PRESIDING OFFICER. The Senator from Idaho.

Mr. CRAIG. I ask the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To add provisions regarding nominations)

At the appropriate place, add the following:

SEC. . SENSE OF THE SENATE.

It is the sense of the Senate that, before Congress creates new positions that require the advice and consent of the Senate, such as the position of Assistant Secretary for Civil Rights of the Department of Agriculture, the Senate should vote on nominations that have been reported by committees and are currently awaiting action by the full Senate, such as the nomination of Eugene Scalia to be Solicitor of the Department of Labor.

Mr. HARKIN. Madam President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. DASCHLE. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

The PRESIDING OFFICER. Is there further debate on the second-degree amendment?

Mr. DASCHLE. Madam President, I ask unanimous consent that the sec-

ond-degree amendment and the Daschle amendment be set aside to accommodate an amendment to be offered by the Senator from Missouri, Mr. BOND.

The PRESIDING OFFICER. Is there objection?

Mr. CRAIG. Madam President, reserving the right to object, might I inquire of the majority leader when he would want to bring this back up for the purpose of debate?

Mr. DASCHLE. Certainly we can bring it up at some point tomorrow. As I understand it, Senator BOND was hoping to have at least an hour on the amendment to be offered tonight. It would be my expectation that sometime tomorrow we would return to this issue.

Mr. CRAIG. Madam President, recognizing that the set-aside would not in any way infringe upon the right of myself as a person who offered the second degree, and certainly the majority leader offered the first degree, I do not object.

AMENDMENT NO. 2511 WITHDRAWN

Mr. DASCHLE. Madam President, to make things simpler, I withdraw my amendment.

The PRESIDING OFFICER. The Senator has that right.

Mr. DASCHLE. I thank the Chair.

Mr. CRAIG. I thank the Chair.

The PRESIDING OFFICER. The Senator from Iowa.

Mr. HARKIN. Madam President, I would like to inquire of the Senator from Missouri, as I understand it, the Senator wants an hour and a half on his amendment. Could we use some of that time tonight so that in the morning we could perhaps have some time?

Mr. REID. Madam President, if my friend will yield, I spoke to Senator BOND. He indicated he would like to speak tonight. He has four or five people who wish to speak tomorrow. He indicated he would be willing to accept 1½ hours equally divided in the morning. He would want his time tonight to count against the 90 minutes.

Mr. BOND. Madam President, there are a number of cosponsors who wish to speak in support of this amendment. My thought is maybe not everybody in this body will support it. By tomorrow morning, I think there may be others who will wish to present opposing ideas. It would be my desire after my cosponsors speak on it, if there is no opposition, that we could yield back some of that time. I simply asked for 90 minutes tomorrow in case there are other people who want to weigh in. I expect there will be more than the number who have registered as cosponsors.

I think this has a significant impact on the entire agricultural community across the country. I would like to have the possibility of using the 90 minutes in the light of day so people understand all sides of this issue.

Mr. DASCHLE. Madam President, will the Senator yield for the purpose of a unanimous consent request?

Mr. BOND. Certainly.

Mr. DASCHLE. Madam President, I appreciate very much the Senator from Missouri yielding for that purpose.

I was going to inform my colleagues that we have already noted there will be filing of cloture tonight. I know there are Senators who are asking about Friday and Monday. I am not going to propound the unanimous consent request because I don't think it has been properly vented on each side. I suggest that perhaps we could have cloture tomorrow and that we would be prepared to forego votes on Friday and Monday and still take into account the need to consider the so-called Cochran-Roberts amendment regardless of cloture.

My thought is that we file cloture and vote on cloture and have consideration of the Cochran-Roberts amendment with some expectation of a vote at a later time on that. Whether or not that could be accomplished is still in question. But that is something that I suggest. I notify our colleagues that will be a possibility: File cloture tonight, have a vote on that either tomorrow or Friday. If we have it tomorrow, we could still bring up the so-called Cochran-Roberts amendment for consideration.

I thank my colleague. I thank the Senator from Missouri.

Mr. REID. Madam President, will the majority leader yield for a question?

Mr. DASCHLE. Yes.

Mr. REID. As I understand the majority leader, cloture will be filed tonight, and, if we have a vote on that tomorrow, we will not be in session on Friday—at least no votes on Friday or Monday.

Mr. DASCHLE. I draw the distinction. We will certainly be in session on Friday. My hope is we could bring up a conference report, and maybe a conference report on education on Monday, but not have any votes.

That, again, will be up to all of our colleagues on both sides of the aisle. We have not hot-lined it. I just wanted to make that proposal and see what kind of reaction we would get. That would be the proposal, and I will have more to say about that at a later time.

I thank the Senator from Missouri.

The PRESIDING OFFICER (Ms. CANTWELL). The Senator from Missouri.

Mr. BOND. Madam President, we had discussed a 90-minute time agreement on this amendment.

First, what is the pending business so we may be sure the amendment is to the appropriate measure?

The PRESIDING OFFICER. The pending business is the Daschle substitute amendment.

Mr. BOND. Amendment number 2471?

The PRESIDING OFFICER. That is correct.

Mr. DASCHLE. Madam President, if the Senator will yield for a unanimous

consent request which I think he thought I was going to make the first time, I ask unanimous consent that when the Senate resumes consideration of S. 1731 at 9:30 on Thursday, December 13, there be 90 minutes for debate prior to vote in relation to the Bond amendment with the time equally divided and controlled in the usual form with no intervening amendment in order prior to the vote.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

Mr. DASCHLE. I thank my colleagues.

The PRESIDING OFFICER. The Senator from Missouri.

AMENDMENT NO. 2513 TO AMENDMENT NO. 2471

Mr. BOND. Madam President, I send an amendment to the desk on behalf of myself and Senator GRASSLEY, Senator ENZI, Senator HAGEL, and Senator MILLER, and I ask that it be considered pursuant to the time agreement just entered.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Missouri [Mr. BOND], for himself, Mr. GRASSLEY, Mr. ENZI, Mr. HAGEL, and Mr. MILLER, proposes an amendment numbered 2511 to amendment No. 2471.

Mr. BOND. Madam President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To authorize the Secretary of Agriculture to review Federal agency actions affecting agricultural producers)

Strike the period at the end of section 1034 and insert a period and the following:

SEC. 1035. REVIEW OF FEDERAL AGENCY ACTIONS AFFECTING AGRICULTURAL PRODUCERS.

(a) DEFINITIONS.—In this section:

(1) AGENCY ACTION.—The term “agency action” has the meaning given the term in section 551 of title 5, United States Code.

(2) AGENCY HEAD.—The term “agency head” means the head of a Federal agency.

(3) AGRICULTURAL PRODUCER.—The term “agricultural producer” means the owner or operator of a small or medium-sized farm or ranch.

(4) SECRETARY.—The term “Secretary” means the Secretary of Agriculture.

(b) REVIEW OF AGENCY ACTION BY SECRETARY.—

(1) IN GENERAL.—The Secretary may review any agency action proposed by any Federal agency to determine whether the agency action would be likely to have a significant adverse economic impact on, or jeopardize the personal safety of, agricultural producers.

(2) CONSULTATION; ALTERNATIVES.—If the Secretary determines that a proposed agency action is likely to have a significant adverse economic impact on or jeopardize the personal safety of agricultural producers, the Secretary—

(A) shall consult with the agency head; and
(B) may advise the agency head on alternatives to the agency action that would be least likely to have a significant adverse economic impact on, or least likely to jeopardize

the personal safety of, agricultural producers.

(c) PRESIDENTIAL REVIEW.—

(1) IN GENERAL.—If, after a proposed agency action is finalized, the Secretary determines that the agency action would be likely to have a significant adverse economic impact on or jeopardize the safety of agricultural producers, the President may, not later than 60 days after the date on which the agency action is finalized—

(A) review the determination of the Secretary; and

(B) reverse, preclude, or amend the agency action if the President determines that reversal, preclusion, or amendment—

(i) is necessary to prevent significant adverse economic impact on or jeopardize the personal safety of agricultural producers; and

(ii) is in the public interest.

(2) CONSIDERATIONS.—In conducting a review under paragraph (1)(A), the President shall consider—

(A) the determination of the Secretary under subsection (c)(1);

(B) the public record;

(C) any competing economic interests; and

(D) the purpose of the agency action.

(3) CONGRESSIONAL NOTIFICATION.—If the President reverses, precludes, or amends the agency action under paragraph (1)(B), the President shall—

(A) notify Congress of the decision to reverse, preclude, or amend the agency action; and

(B) submit to Congress a detailed justification for the decision.

(4) LIMITATION.—The President shall not reverse, preclude, or amend an agency action that is necessary to protect—

(A) human health;

(B) safety; or

(C) national security.

(d) CONGRESSIONAL REVIEW.—Reversal, preclusion, or amendment of an agency action under subsection (c)(1)(B) shall be subject to section 802 of title 5, United States Code.

Mr. BOND. Madam President, I thank my colleagues for their courtesy. We look forward to continuing this debate in the morning.

I thank the Chair.

Mr. REID. I suggest the absence of a quorum.

The PRESIDING OFFICER (Ms. CANTWELL). The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. DASCHLE. Madam President, I ask unanimous consent the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

CLOTURE MOTION

Mr. DASCHLE. Madam President, I send a cloture motion to the desk.

The PRESIDING OFFICER. The cloture motion having been presented under rule XXII, the Chair directs the clerk to read the motion.

The legislative clerk read as follows:

CLOTURE MOTION

We, the undersigned Senators, in accordance with the provisions of rule XXII of the Standing Rules of the Senate, hereby move to bring to a close the debate on the Daschle for Harkin substitute amendment No. 2471 for Calendar No. 237, S. 1731, the farm bill:

Tim Johnson, Harry Reid, Barbara Boxer, Thomas R. Carper, Zell Miller,

Max Baucus, Bryon L. Dorgan, Ben Nelson, Daniel K. Inouye, Tom Harkin, Kent Conrad, Mark Dayton, Deborah Stabenow, Richard J. Durbin, James M. Jeffords, Thomas A. Daschle, Blanche Lincoln.

COUNTRY OF ORIGIN LABELING

Mr. JOHNSON. Madam President, it has been brought to my attention that there are unique concerns about how perishable agricultural commodities are labeled under the country of origin labeling provision in the farm bill. Unlike meat products that are oftentimes either wrapped or displayed behind glass, shoppers physically handle produce to evaluate such characteristics as size or ripeness. Quite honestly, after being handled by a consumer, a fruit or vegetable item is not always returned to the original bin in which the product was displayed. For this reason, each individual produce item may need to be labeled when physically possible to ensure accuracy about the country of origin information.

I am confident the method of notification language in the labeling provision in the farm bill will ensure responsibility in information-sharing on the part of processors, retailers, and others under this act. Our language requires any person that prepares, stores, handles, or distributes a covered commodity for retail sale to maintain records about the origin of such products and to provide information regarding the country of origin to retailers. Nonetheless, I understand retailers have some concerns about making sure they are provided with accurate information. Therefore, so that we can be confident this is workable for retailers and others, I would like to recommend to my lead cosponsor of this legislation, Senator GRAHAM of Florida, that we consult with the growers, packers and retailers to develop a means to provide such labels or labeling information to the grocery stores.

Mr. GRAHAM. Mr. President, I thank the Senator from South Dakota. Senator JOHNSON, I appreciate your comments.

My primary objective in pursuing country-of-origin legislation is to provide consumers with accurate information about where their produce is grown. My home State of Florida has required mandatory country-of-origin labeling of fresh fruits and vegetables for over 20 years, and Florida consumers have made it known that they appreciate the availability of this information.

Many domestic products are already labeled for promotion purposes. Our proudly labeled “Florida Oranges” are a great example of a successful marketing tool. There are any number of ways to label produce, including price-look-up stickers, plastic attachments, paper wrapping, signs next to barrels of produce. Produce items are increasingly being branded as another method

of labeling. In recognition of this fact, the labeling provision included in Senator HARKIN's farm bill provides the flexibility to label items by any visible and practical means.

That said, I understand retailers would prefer to receive their produce shipments with country-of-origin labels already affixed to each piece of produce. To some degree, growers and packers are already labeling their products, and retailers are not required to provide further information if this is in the case.

Regarding those products that do not arrive at the grocery store already labeled, I encourage growers and shippers to continue to do this and to work with retailers to find the most efficient methods to provide accurate country-of-origin information and labeling.

I agree with the Senator from South Dakota that we should continue discussion with the industries impacted by this amendment, and I look forward to helping everyone identify the best methods to implement labeling legislation and ensure that consumers have ready access to country-of-origin information.

Ms. CANTWELL. Madam President, I rise today, along with my distinguished colleagues Senator MURRAY from Washington State and Senator INOUE from Hawaii in support of two amendments to the Agriculture, Conservation, and Rural Enhancement Act of 2001 to promote cooperation between Indian tribes and the United States Forest Service in the management of forest lands.

This legislation would amend the Cooperative Forestry Assistance Act of 1978 to establish an Office of Tribal Relations and other cooperative programs within the Forest Service to better provide for the joint efforts of the Forest Service and Indian tribes. If the purpose of the Cooperative Forestry Assistance Act is to improve the management, resource production, and environmental protection of nonfederal forest lands, then the 17 million acres of land held by Indian tribes and individual Indians should be included as a component of this law to facilitate cooperative management of our forests.

Tribes have a significant role to play towards our national goal of ensuring that forests are managed as both sustainable resources and enduring habitats. Again, tribes or tribal members are responsible for the management of approximately 17 million acres of forest land, which is eligible for about 750 million board feet of sustainable annual harvest. Much of this land shares borders with Forest Service land, and tribes also possess treaty rights within Forest Service land. The Forest Service and tribes are linked not only by common interest but also by a very practical need to work together.

Currently tribes may participate in the Forestry Incentives and Forest

Stewardship programs under sections 4 through 6 of the Cooperative Forestry Assistance Act. These programs provide assistance to private landowners in order to keep their forest land healthy and viable. However, the programs are designed for cooperation with State governments and do not appropriately take into account the government-to-government and trust relationships that tribes have with the Federal Government. Also, there is general lack of understanding among tribes and Forest Service personnel regarding how the existing cooperative assistance programs would extend to individual Indians with land held in trust. As a result, tribes and individual American Indian and Native Alaskan landowners seldom participate in the programs.

In October 1999, the Chief of the Forest Service established a National Tribal Relations Task Force to study tribal involvement in the management of both Forest Service and Indian-held lands. The Task Force included representatives from the Forest Service, the Bureau of Indian Affairs, BIA, and the Intertribal Timber Council. The Task Force found that, indeed, cooperative forestry programs that specifically work with tribal communities are greatly in need in order to establish equity in forestry assistance and to fulfill stewardship responsibilities towards the management of forestry lands held in trust.

This legislation responds to the need to improve tribal-Forest Service coordination by allowing the Secretary of the Department of Agriculture to provide financial, technical, and educational assistance for coordination on shared land, land under the jurisdiction of Indian tribes, and Forest Service land to which tribes may have interests and rights.

The Task Force similarly found, and I quote directly from the report, that "the current Forest Service tribal relations program lacks the infrastructure and support necessary to ensure high quality interactions across programs with Indian Tribes on a government-to-government basis." My colleagues and I would like to improve the Forest Service's ability to interact effectively with tribes by adding an Office of Tribal Relations within the Forest Service to be headed by a Director appointed by the Chief of the Forest Service.

This office will be responsible for the oversight of all programs and policies relating to tribes. This legislation outlines that it would be the duty of the Office of Tribal Relations to consult with tribal governments, monitor and evaluate the relations between tribal governments and the Forest Service, and coordinate matters affecting tribes in a way that is comprehensive and responsive to tribal needs. This office will also cooperate with the other agencies of the Department of Agri-

culture, the Department of Interior, and the Environmental Protection Agency.

It is important that the Forest Service be able to effectively work with tribal communities. At this point, we know from the Forest Service, the BIA, and the Intertribal Timber Council that the Forest Service lacks the programmatic structure to be able to accommodate and effectively work with tribes and those holding trust lands due to their unique legal and organizational status. As an arm of the Federal Government, the Forest Service must uphold the trust responsibilities we have towards tribes. I believe that we have a duty, to tribes and to our forests, to respond to tribes' expressed desire for assistance with forest resource planning, management, and conservation with this legislation. I would like to thank Senator DASCHLE, Senator BAUCUS, and Senator WELLSTONE for their support, and I urge the rest of my colleagues to support these amendments as well.

Mr. DASCHLE. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. REID. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

MORNING BUSINESS

Mr. REID. I ask consent that the Senate now proceed to morning business, with Senators permitted to speak for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

THE NEED TO PASS MTBE LEGISLATION

Mr. SMITH of New Hampshire. Mr. President, I would like to engage the majority leader in a colloquy. As the majority leader knows, I have been working for nearly two years on legislation to deal with the numerous problems associated with the gasoline additive MTBE. The use of MTBE as a fuel additive grew tremendously starting with the Clean Air Act's reformulated gasoline program that was implemented in 1995. Today, MTBE makes up approximately 3 percent of the total national fuel market.

Unfortunately, when leaked or spilled into the environment, MTBE can cause serious drinking water quality problems. MTBE moves quickly through land and water without breaking down. Small amounts of MTBE can render water supplies undrinkable.

This contamination is persistent throughout the nation, and New Hampshire is certainly a State that has been

hard hit. According to State officials, up to 40,000 private wells may be contaminated with MTBE. Up to 8,000 of those wells may have MTBE contamination over the State health standards. Areas especially hard hit include both rural and urban areas. In the past few years I have visited, as well as received many calls and letters from, a number of the families whose wells are contaminated and they are extremely frustrated. When I was the chairman of the Environment & Public Works Committee, I held a field hearing in Salem, NH on this issue. Last Congress, I introduced legislation to clean up this contamination and ban the further use of MTBE. The bill was reported out of the EPW Committee, however, circumstances prevented the full Senate from considering that bill. Again this year, I introduced MTBE legislation, and once again the EPW Committee reported it out with a strong bipartisan vote. S. 950 will provide for the clean up of MTBE contamination, ban the additive, and ensure that environmental benefits of the clean gasoline program will be maintained. This is a hardship in many communities, and it will continue to escalate unless it is dealt with soon. No American should have to be concerned with the water they drink.

Mr. DASCHLE. Yes, I do understand the problems associated with MTBE and I recognize your hard work in helping to bring about a resolution to this important issue. I also share the concerns of the Assistant Majority Leader, co-sponsor of S. 950, with regards to the devastating contamination found in communities surrounding Lake Tahoe, NV.

Mr. SMITH of New Hampshire. Because this is such a vital issue to New Hampshire and the nation, it is my intention to do all within my power to see that the Senate acts on this matter. I appreciate all of the efforts of the majority leader to work with me in bringing this bill to the floor and would hope that the Senate will consider S. 950 in the near future. Will the majority leader provide me an assurance that this will happen?

Mr. DASCHLE. I agree that the Senate should vote on MTBE legislation in the near future and have included S. 950 in the comprehensive energy bill that I introduced with Senator BINGAMAN last week. I can assure the Senator from New Hampshire that it is my intention to bring up for debate and votes before the full Senate that energy bill, including S. 950, prior to the President's Day recess in February 2002.

ZIMBABWE DEMOCRACY AND ECONOMIC RECOVERY ACT: A SIGNAL OF U.S. COMMITMENT TO RULE OF LAW, HUMAN RIGHTS, AND DEMOCRATIC PRINCIPLES

Mr. BIDEN. Madam President, I am pleased to see that after a delay of several months, the House has acted on the Zimbabwe Democracy and Economic Recovery Act of 2001, of which I am a co-sponsor, and that we can finally send this bill to the President for his signature.

The Foreign Relations committee reported this bill in July, and it passed the Senate by unanimous consent on August 1. Since then, the situation in Zimbabwe has deteriorated rapidly. Respect for human rights and the rule of law have been systematically subverted by Zimbabwe's ruling party, and indeed by President Robert Mugabe himself. President Mugabe has supported the invasion of farms by so called "war veterans," he has intimidated judges, harassed the free press, forbidden international monitors to observe next year's presidential elections and packed the supreme court with cronies in a misguided attempt to give his actions a patina of legitimacy.

Under Mugabe's leadership the economy of Zimbabwe has been driven into the ground. The deployment of troops to the Democratic Republic of Congo was an expensive ill thought fiasco which has cost millions. The illegal farm invasions have resulted in the loss of income from the country's major cash crop. Unsound fiscal policies have resulted in a suspension of aid from the international Monetary Fund, inflation is soaring, international investment has dried up and unemployment is on the rise.

The World Food Program has had to start a food distribution program in a country that should be exporting food to its neighbors. That in itself is bad enough. Worse, however, is the fact that the Zimbabwean government has stated that private relief agencies are prohibited from delivering food to the needy. Only the government can distribute food. Given the current political climate this can mean only one thing: the government will attempt to coopt the population by giving food in exchange for votes in the upcoming presidential elections.

The bill itself is very straightforward. It offers money for a credible program of land reform, and plans for U.S. support for bi-lateral and multi-lateral debt relief if the President certifies to Congress that rule of law has been restored in Zimbabwe, including subordination of law enforcement organizations to the civilian government, that conditions for free and fair elections exist, that a credible program of land reform has been put in place, and that the government of Zimbabwe is adhering to agreements to withdraw its troops from the Democratic Republic

of Congo. No new sanctions are imposed on the government, but the legislation does very wisely ask the administration to look into personal sanctions for high level members of the Zimbabwean government and their families, such as travel bans and visa restrictions.

The actions undertaken in the last two years by Robert Mugabe can be characterized as nothing more, or less, than a shameless power grab. According to news reports current polls show that the leading opposition party has more support than Mugabe. No doubt this will cause an even more heinous crackdown on political opponents in the lead up to the elections. While I sincerely hope that Mugabe comes to his senses and allows for the presence of international observers during the upcoming presidential elections, I doubt that he will. Perhaps passage of this bill will send a signal to the government of Zimbabwe that the United States is serious about its position on the rule of law, human rights and democracy. The tragedy that has unfolded in what was once a stable prosperous country must not be ignored.

INTRODUCING ADOLFO FRANCO

Mr. MCCAIN. Madam President, last week I had the privilege of introducing Adolfo Franco, the President's nominee to be Assistant Administrator for Latin America at the United States Agency for International Development, to the Committee on Foreign Relations. The President has made a wise choice for this important position, and I commend him for it. I also commend Mr. Franco to all of my colleagues as they consider their vote on his nomination, and I ask unanimous consent to print in the RECORD, my statement introducing Mr. Franco before the Committee.

There being no objection, the statement was ordered to be printed in the RECORD, as follows:

INTRODUCING ADOLFO A. FRANCO TO THE SENATE COMMITTEE ON FOREIGN RELATIONS

Adolfo Franco was born in Cardenas, Cuba. His family emigrated to the United States in 1961, when he was 5 years old, and settled in Cedar Falls, IA.

Blessed with wonderful parents and the opportunities afforded him in a free society, Adolfo has led an accomplished life of public service. And the good and faithful service he has given our country for nearly seventeen years is a splendid tribute to his own fine character, to his parents, and to the great civilization that welcomes the genius and industry of all Americans, whether native born or newly arrived.

He is a graduate of the University of Northern Iowa and the Creighton University School of Law. He came to Washington in 1984 and in 1985 began work in the General Counsel's office at the Inter-American Foundation, where he served with great distinction for fifteen years as Deputy General Counsel, General Counsel, Senior Vice President and, finally, President of the Foundation.

For the last two years, Adolfo has served as a Professional Staff Member on the House International Relations Committee where, as Chairman Hyde will attest, he has provided invaluable counsel on the full range of foreign assistance programs including U.S.A.I.D. programs and operations.

He is uniquely well-qualified for the position the President has selected him for, Assistant A.I.D. Administrator for Latin America. And I am very confident that in that capacity, Adolfo, with his characteristic energy, intelligence and patriotism, will quickly prove himself an invaluable asset to A.I.D., to the President and to the country he has long served so well.

He is an exceptional person, a devoted and talented public servant of exemplary character. I commend and thank the President for nominating him, and I consider it an honor to introduce him to the Committee.

America is among his parents' greatest gifts to Adolfo, a gift he has more than earned as the kind of career public servant all Americans can be proud of. I recommend him to the Committee with the highest praise I can offer an American: he is a credit to his country.

CHANGES TO H. CON. RES. 83 PURSUANT TO SECTION 215

Mr. CONRAD. Madam President, section 215 of H. Con. Res. 83, the fiscal year 2002 budget resolution, permits the chairman of the Senate Budget Committee to make adjustments to the allocation of budget authority and outlays to the Senate Committee on Health, Education, Labor, and Pensions, provided certain conditions are met.

Pursuant to section 215, I hereby ask unanimous consent to print in the RECORD the following revisions to H. Con. Res. 83.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

	Dollars in mil- lions
Current Allocation to the Senate Health, Education, Labor, and Pensions Committee:	
FY 2002 Budget Authority	\$10,179
FY 2002 Outlays	9,419
FY 2002-06 Budget Authority	48,155
FY 2002-06 Outlays	46,411
FY 2002-11 Budget Authority	102,173
FY 2002-11 Outlays	97,860
Adjustments:	
FY 2002 Budget Authority	0
FY 2002 Outlays	0
FY 2002-06 Budget Authority	+3,440
FY 2002-06 Outlays	+2,840
FY 2002-11 Budget Authority	+7,665
FY 2002-11 Outlays	+6,590
Revised Allocation to the Senate Health, Education, Labor, and Pensions Committee:	
FY 2002 Budget Authority	10,179
FY 2002 Outlays	9,419
FY 2002-06 Budget Authority	51,595
FY 2002-06 Outlays	49,251
FY 2002-11 Budget Authority	109,838
FY 2002-11 Outlays	104,450

INCENTIVES TO TRAVEL

Mr. KYL. Madam President, three months ago, we experienced an unprovoked attack on our country. America took a terrible hit, but we have rebounded and we have reminded the world of the strength of the American people.

Three months ago, one industry in particular was stricken, and it continues to struggle to regain its footing. When our government shut down our airlines and our airports, it also shut down our travel and tourism industry.

Under the headline, "Travel Downtown Spreads More Woes," the December 11 Wall Street Journal reminded us that the industry remains in dire straits. I ask unanimous consent that the article be printed in the RECORD at the conclusion of my remarks.

The PRESIDING OFFICER. Without objection it is so ordered.
(See Exhibit 1)

Mr. KYL. The article focuses on the neighborhood around Los Angeles Airport, but it describes a scene all too familiar to many of us:

Today, planes are once again buzzing just 300 feet above the head of the people of Lennox. But something even scarier has befallen them. The meltdown in the travel and tourism business has claimed thousands of their jobs.

Working together, the government and industry leaders can help the industry recover. By now, my colleagues no doubt have seen the television advertisements sponsored by the Travel Industry Association of America. Featuring President Bush, this privately supported advertising campaign encourages Americans to travel, to see our great country again, and to enjoy our many blessings. Now that the industry has stepped forward, it is time for us to do our part.

The time has come to enact a personal travel credit to get Americans on the road and in the air again. I am pleased that travel-credit legislation has broad, bipartisan support. Now is the time to translate that support into action. With the slowest travel months of the year about to begin, let's give the American public an incentive to travel. Let's get a credit enacted quickly. Let's bring families together and let's get Americans enjoying the blessings of our country again. In short, let's get America traveling again.

EXHIBIT 1

[From the Wall Street Journal, Dec. 11, 2001]

TRAVEL DOWNTOWN SPREADS MORE WOES

(By Eduardo Porter)

LENNOX, CALIF.—Something strange washed over this area following the terrorist attacks on Sept. 11: quiet.

With planes grounded across the U.S., residents of this crowded community abutting Los Angeles airport weren't assaulted by the sound of jet engines for the first time in anybody's memory. The sudden silence was so at odds with the usual deafening roar that "kids were scared" by it, says Maria Van Deventer, assistant principal at Jefferson Elementary School.

Today, planes are once again buzzing just 300 feet above the heads of the people of Lennox. But something even scarier has befallen them. The meltdown in the travel and tourism business has claimed thousands of their jobs.

As much as any place in America, this 1.3-square-mile unincorporated area of Los An-

geles County has been the victim of post-Sept. 11 economic fallout. Because this is practically a company town, with many of its 23,000 residents employed at the third busiest airport in the world and related businesses, Lennox has become a ground zero of sorts for the devastated travel and tourism industry.

The impact of the near collapse in the industry has left a broad footprint. Airline industry revenue should decline 30% in the fourth quarter over the year-earlier period, estimates Kevin C. Murphy of Morgan Stanley, and PKF Consulting estimates that room revenue at hotels in major urban centers will be down 17.5%. Other travel-dependent firms, from airline caterers to airport concession owners, have also been hit hard.

There is no precise count of how many Lennox residents, who are overwhelmingly immigrants from Mexico and Central America, have been laid off in the past 2½ months. But job losses—more than 8,000 at the airport alone and thousands more at area shops, hotels and other companies that depend on travel—have shot through the community. Isabel Gurdíán lost her job cleaning planes on Sept. 12. A few weeks later Gladys Barraza was laid off as a cashier at the airport's City Deli, Margarita Urióstegui, who washed dishes at airline caterer Dobbs International Services, was let go, too. Alfonso Martinez, a barman at the New Otani hotel, got lucky. His workweek—and income—were cut by only two-thirds.

The impact has rippled through Lennox's dusty streets. Sales are down about 30% at Daisy's Party Supply on Inglewood Ave., Where a piñata of Osama bin Laden dangles from the roof between a huge can of Modelo beer and Winnie the Pooh. And they're off about a fifth at El Taco Macho, just across the border in Hawthorne, even though \$9 American flags have been added to an eclectic menu of tacos and seafood cocktails. Business also has plummeted at Noemy's Beauty Salon, which doubles as remittance outlet that wires money from local residents back to relatives in Latin America. On a recent Friday, shop owner Margot Noemy Canizales waited all morning for customers to show. None did.

The pain is felt as far away as Jiquilpan, in central Mexico, which has dispatched workers to Lennox for decades. "The whole town depends on money sent from here," says Martin Orejel, a Lennox resident who has had his work hours slashed as a bartender and bus-boy at a Ramada hotel not far from the airport. "Now," he jokes, "we need them to send money here."

At the second floor offices of local 814 of the Hotel and Restaurant Employees International Union, the newly laid off lined up to register for unemployment benefits. But many Lennox residents are illegal immigrants and can't get such financial assistance. Downstairs, union volunteers handed out bags of food. Life in Lennox is pretty difficult to begin with. With an average of nearly five people per household, it is one of the most densely populated communities in California. More than 94% of the students in the local school district are in a program that provides free or reduced-cost lunches to poor children, one of the highest rates in the state.

Hispanic immigrants began coming here in the late 1960's, sucked into the U.S. to help sate the explosive demand for low-wage service workers. Now, hit by the first wave of layoffs in a decade, "it seems like the end of the world," laments Ms. Urióstegui, a mother of three whose husband is still hanging on

to a job at a tortilla shop. Most days she hits the road looking for work, leaving applications everywhere from a factory for stamping T-shirts to a plant making refrigerator parts.

To cope, some people are resorting to uncomfortable measures. After losing her job, Gladys Barraza, her husband and two children moved into her parent's two-bedroom home, also in Lennox. Rosa Saldivar is facing starker options. Her husband, Martin, who lost his job at a bakery that served airport restaurants, is pressuring her to take their three kids back to the family home in Durango, in northern Mexico.

They wouldn't be the only ones to go. Ms. Van Deventer, the assistant principal, says that 50 to 60 children, out of a student body of about 1,100, have dropped out of Jefferson Elementary since Sept. 11. Some, she says, have gone back to Mexico and El Salvador, where it's cheaper to be unemployed and where extended families can provide support. Others have left to look for work in other American cities, including Las Vegas, where it is rumored there might be jobs.

For those who are staying, the stress is growing. Health workers and parent-group coordinators at the schools are detecting more alcohol abuse and depression. A few days ago, Carmen Torres, a parent counselor at Jefferson Elementary, saw a couple bickering. The wife was dragging in her recently laid-off husband to register for English-language lessons. The husband, crying in despair, complained that the classes were beyond him.

But many are confident that the community will prove its resilience. Yvonne Moreno, a counselor at a health program run by the school district, notes that most of those in Lennox have been working since they were six or seven years old. Many crossed the desert on foot, eluding border patrolmen, to get here. "They are survivors," she says.

CIVILIAN FEDERAL AGENCY USE OF REMOTE SENSING

Mr. AKAKA. Madam President, I commend to your attention a report entitled "Assessment of Remote Sensing Data Use By Civilian Federal Agencies," which was prepared by Dr. Sherri Stephan of the Governmental Affairs Subcommittee on International Security, Proliferation, and Federal Services and the Congressional Research Service. The report will be available on the Subcommittee's website.

In January 2001, I asked the CRS to conduct a survey of remote sensing data and technology use by Federal non-military agencies. Subcommittee staff used the CRS survey results, included in the report as an appendix, and collected agency responses to analyze how Federal agencies use remote sensing. It is my hope that this report will enable Congress to better understand the issues that arise in obtaining and applying the technology.

The widespread availability of detailed and accurate satellite imaging data has made the world increasingly transparent. Observational capabilities that only a few decades ago were classified and strictly limited are now owned and operated by both govern-

ment and private-sector organizations. For example, Space Imaging, a private satellite data company's web site contains satellite photos of the attack on Kandahar.

Satellite images have also revolutionized the study of the natural environment and global hazards, agriculture, transportation and urban planning, law enforcement, education, energy use, public health trends, and international policy. Researchers in my State of Hawaii, in partnership with NASA, NOAA and others, use remote sensing data for many purposes, such as to monitor water temperature and climate variability for tsunami early warning and evacuation planning, environmental impacts on fisheries, and volcanic activity monitoring.

There is now a national capability to provide remote-sensing data products and value-added information services directly to end users, such as farmers, foresters, fishermen, natural resource managers, and the public. Just this fall, researchers demonstrated on the island of Kauai how remote sensing data from unmanned aerial vehicles could be used to help determine precisely when a coffee crop is ready for harvesting.

New imaging technology and new data systems provide a rich opportunity for federal agencies to improve their services. The nineteen agencies included in this study span the roles of the federal government from basic research centers to law enforcement. All but four report some use of remote sensing data and technology. These agencies use data for environmental and conservation purposes, early warning and mitigation of natural disasters; basic and applied research, mapping activities, monitoring and verifying compliance with laws and treaties, agricultural activities, and transportation and shipping.

We also asked the agencies to share their concerns with remote sensing data. These concerns expressed their desire to use the data and technology more fully and efficiently. Many agencies had difficulties due to cost and licensing of commercial data and value-added products and analysis, as well as other access concerns. Several agencies were concerned about their capacity to exploit fully remote sensing data and technology, mostly due to a shortage of trained personnel within the agencies to analyze and interpret data.

This report offers several options to alleviate these concerns, but these are not the only possible solutions. Nor are they suggestions for action. The Federal Government uses remote sensing data in many ways, and it is unlikely that a single solution will solve all the problems associated with this use.

Since the first photographs of enemy troop positions from a hot air balloon in 1860, there have been military and

intelligence applications of remote sensing data. Today, in this new age of terrorism and homeland security concerns, users now include local first responders, city planners, and State officials. This creates a new challenge for commercial and government data providers to translate our impressive imagery technology into a capability that can be exploited by users quickly and easily.

I would like to thank the staff of the Congressional Research Service, especially Marcia Smith, for her able assistance in preparing this report.

LOCAL LAW ENFORCEMENT ACT OF 2001

Mr. SMITH of Oregon. Madam President, I rise today to speak about hate crimes legislation I introduced with Senator KENNEDY in March of this year. The Local Law Enforcement Act of 2001 would add new categories to current hate crimes legislation sending a signal that violence of any kind is unacceptable in our society.

I would like to describe a terrible crime that occurred November 5, 1994 in Laguna Beach, CA. A gay man was attacked by two men yelling anti-gay slurs. The assailants, Donald Nichols, 18, and an unnamed 16-year-old boy, were charged with robbery and assault with a deadly weapon in connection with the incident.

I believe that government's first duty is to defend its citizens, to defend them against the harms that come out of hate. The Local Law Enforcement Enhancement Act of 2001 is now a symbol that can become substance. I believe that by passing this legislation, we can change hearts and minds as well.

LIFT THE HOLD ON S. 1499

Mr. KERRY. Madam President, I would like to submit for the RECORD a letter to our majority leader, Senator DASCHLE, regarding my request to hold all non-judicial nominations that come before the Senate until all holds are lifted on S. 1499, the American Small Business Emergency Relief and Recovery Act of 2001. I want to make sure that my colleagues are aware of what I am doing and why.

As I just mentioned, my actions have everything to do with emergency assistance for small businesses. They are literally dying in the aftermath of the terrorist attacks on September 11. They badly need access to affordable financing and management counseling until business returns to normal, and the administration's approach is not adequately helping those who need it.

Senator BOND and I introduced S. 1499 on October 4 to address the needs of small businesses trying to hold on in the aftermath of the terrorist attacks. For almost 2 months, emergency legislation with 63 sponsors has been

blocked from being considered because the administration and two Republican Senators have chosen to put holds on legislation rather than debate the bill and cast a vote.

Today there is an article in the Miami Herald that says, "...[there aren't] any objections to having the Kerry-Bond bill come to the floor for a debate as long as the Administration's and the Small Business Administration's concerns were aired." That implies that we haven't given them a chance to express their concerns and to work with us to pass this bill, when we have.

We went to great efforts to work with SBA, Senator KYL and his staff, and the administration. This has gone on long enough. I have not placed a hold on non-judicial nominees in haste. I do it because I have no alternative. Small businesses need assistance, the administration's approach isn't adequate to meet the needs of those businesses, and Senator BOND and I have a sensible approach to reach them. I ask my colleagues to lift their holds on the bill, let us debate the bill, and let us vote.

Mr. President, I ask unanimous consent that a copy of my letter to Senator DASCHLE be printed in the RECORD.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

U.S. SENATE,
Washington, DC, December 12, 2001.
Hon. TOM DASCHLE,
Majority Leader, United States Senate, Washington, DC.

DEAR MR. LEADER: As you know, Senator Bond and I have introduced and are trying to gain Senate passage of S. 1499, the "American Small Business Emergency Relief and Recovery Act of 2001." This legislation, supported by 63 Senators, would provide emergency and immediate financial assistance to small businesses around the country who are suffering tremendous financial loss following the terrorist attacks of September 11, 2001. More specifically, the bill would leverage \$860 million in federal dollars to make available \$25 billion in loans and venture capital to ailing small businesses. The bill has widespread support in the business community, and is endorsed by 36 groups concerned with the financial health of small businesses including the US Chamber of Commerce, the National League of Cities, the US Conference of Mayors and the National Restaurant Association.

Despite the widespread and bipartisan support for this legislation, Senator KYL continues to block its consideration by the Senate. Yesterday, Senator KYL noted his concerns are based in large part on objections raised by the Administration. Senator Bond and I have attempted to negotiate with Senator KYL and the Administration so that an agreement could be reached to move this legislation. However, it has become increasingly clear that Senator KYL and the Administration are not interested in negotiating our differences. Rather, they are interested in delaying consideration of this important relief interminably—"running out the legislative clock" at the expense of the thousands of small businesses who are finding it more and more difficult to keep their doors open

without the relief they so desperately need in these difficult economic times.

For this reason, and regrettably, I have come to the conclusion that, having tried to negotiate in good faith, my only remaining option is to demonstrate, conclusively, that under no circumstances will we back away from our commitment to small businesses. To bring Sen. KYL and the Administration back to the negotiating table in earnest, I would like to place a hold on all non-judicial executive nominations that may come before the Senate. It is my hope that this hold will be short-lived, as it will lead to more serious negotiations and ultimately Senate consideration of S. 1499. However, I am prepared to keep this hold in place until the Senate considers our bill. A simple yes or no vote on this important relief for small businesses is not too much to ask, and I hope that our Republican colleagues in the Senate will at long last allow us the opportunity to make good on our promise to help struggling businesses nationwide.

Thank you for your prompt attention to this matter.

Sincerely,

JOHN F. KERRY.

THE USA PATRIOT ACT OF 2001

Mr. BENNETT. Madam President, I rise to offer some guidance to the Secretary of the Treasury on the regulatory authority assigned to him by the Congress with the recent enactment of H.R. 3162, "The Patriot Act of 2001."

As a member of the Senate Banking Committee, I authored an amendment to that legislation's anti-money laundering title, title III, the "International Money Laundering Abatement and Financial Anti-Terrorism Act of 2001," which was included in the final legislation as signed by the President at Sec. 311. My amendment directs the Secretary of the Treasury to promulgate regulations defining "beneficial ownership of an account" for purposes of Section 5318A and subsections (i) and (j) of Section 5318 of the Bank Secrecy Act. I would like to offer some guidance to the Secretary of the Treasury concerning the Secretary's determination of "reasonable" and "practicable" steps for domestic financial institutions to ascertain the "beneficial ownership" of certain accounts as provided in Section 311 of the bill.

Section 311 of this legislation authorizes the Secretary of the Treasury to require domestic financial institutions and agencies to take one or more of five "special measures" if the Secretary of the Treasury finds that reasonable grounds exist to conclude that a foreign jurisdiction, a financial institution operating outside the United States, a class of international transactions, and/or types of accounts is of "primary money laundering concern."

The second measure would require domestic financial institutions to take such steps as the Secretary determines to be "reasonable" and "practicable" to ascertain beneficial ownership of accounts opened or maintained in the

United States by a foreign person, excluding publicly traded foreign corporations, associated with what has been determined to be a primary money laundering concern.

In both Section 5318A(b)(1)(B)(iii) and (b)(2), the Secretary is given the authority to require steps the Secretary determines to be "reasonable and practicable" to identify the "beneficial ownership" of funds or accounts. Neither the phrase "beneficial ownership" nor the phrase "reasonable and practicable steps" is defined in the legislation, and there is no single accepted statutory or common-law meaning of either phrase that the legislation is meant to incorporate.

During the 106th Congress, the issue was dealt with by the House Banking Committee, which favorably reported H.R. 3886, which contained provisions nearly identical to those contained in Section 311 of H.R. 3162, but without the mandatory rulemaking requirement which my amendment added this year. Both in the 106th Congress and again this year, the concern has been expressed that this lack of statutory definition conceivably could result in a rule or order under either Section 5318A(b)(1)(B)(iii) or (b)(2) that requires financial institutions to identify all beneficial owners of funds or of an account, which in turn might result in some circumstances in clearly excessive and unjustifiable burdens. As the author of the amendment requiring the Secretary to undertake rulemaking in this area, I am sensitive to this concern, and I would expect the Secretary to address it when implementing this act, including when making determinations under the following provisions: (1) Section 5318A(a)(3)(B)(ii), which requires the Secretary to consider, in selecting which special measure to take, "whether the imposition of any particular special measure would create a significant competitive disadvantage, including any undue cost or burden associated with compliance, for financial institutions organized or licensed in the United States;" and (2) those above-referenced provisions that permit only those steps that the Secretary determines to be "reasonable and practicable" to identify the beneficial ownership of accounts or funds, which provisions impose an enforceable constraint on the substance of any rule or order under either Section 5318A(b)(1)(B)(iii) or (b)(2).

In addition, Section 5318A(e)(3) requires the Secretary to "promulgate regulations defining beneficial ownership of an account" for purposes of Section 5318A and subsections (i) and (j) of Section 5318. This is the Bennett amendment. Section 5318A(e)(4) gives the Secretary the authority, *inter alia*, to "define . . . terms for the purposes of" Section 5318A "by regulation." I would strongly encourage the Secretary to define the meaning of the

phrases "beneficial ownership" as well as "reasonable and practicable steps" for the purposes of Sections 5318A(b)(1)(B)(iii) and (b)(2), through formal rulemaking subject to notice and comment, taking due consideration of the potential impact of such regulations on smaller institutions, and on all institutions, with an eye toward balancing regulatory burden, legitimate privacy interests, and the ability of United States financial institutions to compete globally. To the extent the Secretary opts for informal guidance on "reasonable and practicable steps," I would urge informal consultation with interested parties.

Specifically, I would note that several agencies have issued regulations or supervisory guidance defining the term "beneficial owner" or outlining what constitutes reasonable steps to obtain beneficial ownership information, in each instance for the issuing agency's own purposes. See, e.g., 17 C.F.R. §228.403; 26 C.F.R. §1.1441-1(c)(6); 28 C.F.R. §9.2(e); Letter re: Public Securities Association (Sept. 29, 1995) (SEC staff "no action" letter addressing 17 C.F.R. §240.10b-10); Guidance on Sound Risk Management Practices Governing Private Banking Activities, prepared by the Federal Reserve Bank of New York (July 1997); and Office of the Comptroller of the Currency Bank Secrecy Act Handbook (September 1996). These sources may be instructive for the Secretary in providing definitions of the phrases "beneficial ownership" and "reasonable and practicable steps."

ADDITIONAL STATEMENTS

IN MEMORY OF STANLEY FOSTER

• Mrs. BOXER. Mr. President, I would like to take this moment to reflect on the life of my friend and well-known philanthropist, Stanley Foster.

Stan died of cancer on November 14, 2001 in San Diego, CA, at the age of 74. His death represents a great loss for the people of San Diego, the State of California and the Nation, who benefitted immensely from his extraordinary dedication and commitment to his community. His strong passion to make a difference, particularly reflected in his work to prevent gun violence, has made a lasting impact on all our lives.

Stan Foster was the son of a scrap-dealer from Ukraine. After graduating from the University of Washington, he owned a retail furniture store in Portland before settling in San Diego in 1954.

A man from humble beginnings, Stan gradually rose to become a successful businessman as the owner of the popular Hang Ten sportswear label. Throughout his career, he took great pride in reinvesting in the community.

He was actively involved in organizations including the Chamber of Commerce, the United Way, the Jewish Federation and the Combined Arts Council. He also played a significant role in the political sphere, earning respect and admiration from legislators on both sides of the aisle. But he is most well known for his unwavering commitment to the fight against gun violence.

In the 1980s, Stan sold the Hang Ten company and shifted his priorities towards his civic work. Affected by an incident that occurred in his teenage life, Stan dedicated much of his time to help combat gun violence. In pursuit of this mission, he founded San Diegans Against Handgun Violence in 1988 and also became national vice chairman of Handgun Control, Incorporated. As a leader of San Diegans Against Handgun Violence, he fought for gun safety and tougher gun laws. He was a true national leader in this fight.

I will miss Stan Foster. He enriched many lives in California and throughout our Nation. Although we mourn the loss of a great leader, we will always remember his powerful voice for justice. His generosity and compassion will remain in our hearts, inspiring us to follow his unforgettable legacy. •

COMCAST CARES DAY AT ANACOSTIA SENIOR HIGH SCHOOL

• Mr. BIDEN. Mr. President, on October 13, 2001, as part of Comcast's nationwide Day of Service, and in conjunction with Greater DC Cares, several hundred Comcast employees from the Washington, DC area volunteered to clean, landscape, and paint Anacostia Senior High School. In the wake of the tragedy of September 11, the Comcast Foundation has contributed \$100 to disaster relief efforts in New York City and at the Pentagon for every employee and family member who participated in the clean-up. Comcast and every participating employee should be commended for their outstanding dedication and commitment to improving their community.

Nationwide, more than five thousand Comcast employees from twenty-six States volunteered their time on Comcast Cares Day. Though it may have been the work of only one corporation and one group of employees, Comcast's community service and the volunteer spirit of its employees represents the best of America.

The best of America can also be seen in other places around our country. Since September 11, Americans have risen to the occasion to aid their fellow citizen. In every city and town across America, individuals have taken the lead in community efforts like the one at Anacostia Senior High School. In my home State of Delaware, corporations such as Daimler-Chrysler, MBNA Bank and the DuPont Corporation have

lent a helping hand to assist those in need. Furthermore, fire companies, school children, and individuals from all walks of life have come together providing assistance and comfort to the victims of the horrible September 11 attack.

Not to overstate the case, but there seems to be a renewed spirit of community in America where, not long ago, we seemed more divided by differences than united by common concerns and shared values. Corporations like Comcast and their employees have heard the call. They have pulled together and responded where there is a need and, in the District of Columbia, Anacostia Senior High School was the place. It was not the work that was done there on October 13, or the time and sweat of all those who volunteered, that should inspire us the most, but the overriding sense that all of us working together can make a difference in our communities.

After the tragedy of September 11, Americans responded when we saw the courage and dedication of New York police, firemen, and emergency workers. From their example have come story after story of corporations like Comcast reaching out, taking a lead in their communities, and making a difference. Comcast, The Comcast Foundation, and the dedicated employees who participated in making a difference at Anacostia Senior High School should be commended by all of us in the United States Senate who know how much we can accomplish when we work together.

Yet, this sense of corporate responsibility is not new for the Comcast Corporation. Comcast always has been an active participant in the communities it serves. Whether it is their support of the Boys and Girls Clubs of America, the Red Cross, or the Easter Seals, Comcast has insisted on excellence not only in all aspects of its operation, but in its record of public service. This is a testament to the leadership of its founder and Chairman, Ralph Roberts, President, Brian Roberts, and Vice President, Joe Waz. These men serve as role-models in their communities and are true heroes in every sense of the word.

If we learned anything from September 11 it was that the will and resolve of the American people cannot be shaken by those who would use terror as a weapon and religion as a shield. We are strongest and at our best when we are defending American values and the bedrock principles of democracy. If anything changed on September 11 it was a renewed determination for all of us to reach out where and when we can, and to recognize that we are much more united by our common concerns and shared values than divided by our individual differences. Companies like Comcast have recognized a community

need, reached out, and made a difference, and they deserve the recognition of a grateful Nation.●

TRIBUTE TO JAMES V. PARRILLO

● Mr. CORZINE. Madam President, I would like to bring to the attention of my colleagues a great man from the State of New Jersey, Mr. James V. Parrillo. A 66 year old native of Newark, Mr. Parrillo is a man of integrity who has devoted his time and talents to making his city a thriving urban center.

A graduate of East Side High School, Mr. Parrillo currently serves as a community relations specialist at the Newark Housing Authority. In this capacity he is responsible for coordinating special events, including an annual parade and senior citizen fashion show.

A grassroots coalition-builder and youth advocate, Mr. Parrillo is also involved in strengthening the community and promoting the development of children. For the past fifteen years he has sponsored a little league baseball team in Newark's Ironbound section, providing a much needed recreational outlet for the city's young people. Most recently, he was elected to serve as a member of the Newark Board of Education and is chairman of its Community Development Committee.

In 1981, Jimmy, as he is affectionately known, established the Jimmy Parrillo Civic Association, an organization comprised of representatives from the business, educational, and political communities. Each year the association recognizes the achievements of individuals who have contributed to promoting stable communities in the city of Newark.

I want you to know that James V. Parrillo is a true American and believes that all people should have access to America's Promise. An unselfish man, he has the gift of bringing people together to work for a common cause.

Jimmy believes that he can make a difference. The city of Newark is a better city today because of his dedication and leadership.

Lastly, I am proud to call Jimmy a friend and it is an honor for me to bring him to your attention.●

TRIBUTE TO VERNON ALLEY

● Mrs. BOXER. Mr. President, earlier this year our country was treated to "Jazz," the latest documentary by Ken Burns. The ambitious, multi-part series traced the personalities, culture and, of course, music of jazz from its origins in turn of the century New Orleans until the present day. Like his critically acclaimed documentaries on the Civil War and baseball, Mr. Burns' production was as much a meditation on America and the nature of our democracy as it was an overview of jazz

itself. For those who have not yet had a chance to see this wonderful exploration, I highly recommend it.

Jazz is a distinctly American art form, born of many different influences and nurtured in a wide variety of contexts and communities. Although often over-shadowed by cities such as New Orleans, New York and Kansas City, San Francisco was and remains one such community. Over the years, it has been home and played host to many of jazz's greatest talents.

Perhaps no musician better personifies San Francisco's connection and contributions to jazz than bassist Vernon Alley. Vernon Alley is a longtime San Franciscan. He grew up in the City and has maintained a band here off and on since the mid-forties. As jazz vocalist Jon Hendricks once remarked, "[Vernon is] the dean of San Francisco jazz."

Mr. Alley began his lifelong association with San Francisco and jazz when he accompanied his parents to see a performance by the incomparable Jelly Roll Morton at Maple Hall. Thus inspired, Vernon went on to dedicate his life to music. Arriving in New York as a young man at the high point of the swing era, he played with some of the biggest names in the business, including both the Lionel Hampton and Count Basie Orchestras. Always a sought after accompanist, in later years he would play with such other legends as Duke Ellington, Ella Fitzgerald, Dizzy Gillespie, Erroll Garner and more.

Although he may have been able to gain wider exposure or acclaim if he remained in New York, Vernon returned to San Francisco after World War II. Here he is beloved, not only for the power, warmth and lyrical quality of his music, but also for his great personal charm. I have had the pleasure of meeting Vernon Alley and seeing him perform. He is a gifted and gracious man and certainly a Bay Area treasure.

Vernon was honored this year at the prestigious San Francisco Jazz Festival with the SFJAZZ Beacon Award for his achievements in music and as a stalwart in the community. Mayor Willie Brown declared October 30, 2001 "Vernon Alley Day." That evening Vernon joined 15 friends on the stage for a three and a half hour tribute concert. By all accounts it was night filled with joy and an appreciation of how the gifts of one man can be gifts to us all.

I am greatly encouraged by what I see as a renewed sense of love for America and respect for its traditions and achievements. In Jazz, we see a reflection of ourselves at our finest. And in Vernon Alley we see the embodiment of jazz at its finest. For keeping this art form alive, we owe him our deepest thanks.●

MESSAGES FROM THE HOUSE

At 12:28 p.m., a message from the House of Representatives, delivered by Ms. Niland, one of its reading clerks, announced that pursuant to section 3(b) of the Public Safety Officer Medal of Valor Act of 2001 (Public Law 107-12), the Majority Leader appoints the following individuals to the Medal of Valor Review Board: Mr. Oliver "Glenn" Boyer of Hillsboro, Missouri and Mr. Richard "Smokey" Dyer of Kansas City, Missouri.

The message also announced that the House has agreed to the amendments of the Senate to the bill (H.R. 10) to provide for pension reform, and for other purposes.

The message further announced that the House has agreed to the amendments of the Senate to the bill (H.R. 2540) to amend title 38, United States Code, to make various improvement to veterans benefits programs under laws administered by the Secretary of Veterans Affairs, and for other purposes.

The message also announced that the House has agreed to the amendment of the Senate to the bill (H.R. 2716) to amend title 38, United States Code, to revise, improve, and consolidate provisions of law providing benefits and services for homeless veterans.

The message further announced that the House has agreed to the amendment of the Senate to the amendment of the House to the bill (S. 1196) to amend the Small Business Investment Act of 1958, and for other purposes.

The message also announced that the House has agreed to the amendments of the Senate to the bill (H.R. 1291) to amend title 38, United States Code, to increase the amount of educational benefits for veterans under the Montgomery GI bill, with an amendment; in which it requests the concurrence of the Senate.

The message further announced that the House has passed the following joint resolution, without amendment:

S.J. Res. 26. A joint resolution providing for the appointment of Patricia Q. Stonesifer as a citizen regent of the Board of Regents of the Smithsonian Institution.

The message also announced that the House has agreed to the following concurrent resolution, without amendment:

S. Con. Res. 58. Concurrent resolution expressing support for the tenth annual meeting of the Asia Pacific Parliamentary Forum.

The message further announced that the House has agreed to the following concurrent resolutions in which it requests the concurrence of the Senate:

H. Con. Res. 259. Concurrent resolution expressing the sense of Congress regarding the relief efforts undertaken by charitable organizations and the people of the United States in the aftermath of the terrorist attacks against the United States that occurred on September 11, 2001. H. Con. Res. 281. Concurrent resolution honoring the ultimate sacrifice made by Johnny Michael Spann, the

first American killed in combat during the war against terrorism in Afghanistan, and pledging continued support for members of the Armed Forces.

The message also announced that the House has passed the following bills, in which it requests the concurrence of the Senate:

H.R. 38. An act to provide for additional lands to be included within the boundaries of the Homestead National Monument of America in the State of Nebraska, and for other purposes.

H.R. 1576. An act to designate the James Peak Wilderness and Protection Area in the Arapaho and Roosevelt National Forests in the State of Colorado, and for other purposes.

H.R. 1989. An act to reauthorize various fishery conservation management programs, and for other purposes.

H.R. 2069. An act to amend the Foreign Assistance Act of 1961 and the Global AIDS and Tuberculosis Act of 2000 to authorize assistance to prevent, treat, and monitor HIV AIDS in sub-Saharan African and other developing countries.

H.R. 2121. An act to make available funds under the Foreign Assistance Act of 1961 to expand democracy, good governance, and anti-corruption programs in the Russian Federation in order to promote and strengthen democratic government and civil society in that country and to support independent media.

H.R. 2440. An act to rename Wolf Trap Farm Park as "Wolf Trap National Park for the Performing Arts," and for other purposes.

H.R. 2595. An act to direct the Secretary of the Army to convey a parcel of land to Chat-ham County, Georgia.

H.R. 2742. An act to authorize the construction of a Native American Cultural Center and Museum in Oklahoma City, Oklahoma.

H.R. 3030. An act to extend the basic pilot program for employment eligibility verification, and for other purposes.

H.R. 3216. An act to amend the Richard B. Russell National School Lunch Act to exclude certain basic allowances for housing of an individual who is a member of the uniformed services from the determination of eligibility for free and reduced price meals of a child of the individual.

H.R. 3282. An act to designate the Federal building and United States courthouse located at 400 North Main Street in Butte, Montana, as the "Mike Mansfield Federal Building and United States Courthouse."

H.R. 3370. An act to amend the Coast Guard Authorization Act of 1996 to modify the reversionary interest of the United States in a parcel of property conveyed to the Traverse City Area School District in Traverse City, Michigan.

H.R. 3441. An act to amend title 49, United States Code, to realign the policy responsibility in the Department of Transportation, and for other purposes.

H.R. 3442. An act to establish the National Museum of African American History and Culture Plan for Action Presidential Commission to develop a plan of action for the establishment and maintenance of the National Museum of African American History and Culture in Washington, D.C. and for other purposes.

H.R. 3447. An act to amend title 38, United States Code, to enhance the authority of the Secretary of Veterans Affairs to recruit and retain qualified nurses for the Veterans Health Administration, to provide an addi-

tional basis for establishing the inability of veterans to defray expenses of necessary medical care, to enhance certain health care programs of the Department of Veterans Affairs, and for other purposes.

At 2:37 p.m., a message from the House of Representatives, delivered by one of its reading clerks, announced that the House has agreed to the report of the committee of conference on the disagreeing votes of the two houses on the amendment of the Senate to the bill (H.R. 2883) to authorize appropriations for fiscal year 2002 for intelligence and intelligence-related activities of the United States Government, the Community Management Account, and the Central Intelligence Agency Retirement and Disability System, and for other purposes.

ENROLLED BILLS SIGNED

The message further announced that the Speaker has signed the following enrolled bills:

H.R. 1230. An act to provide for the establishment of the Detroit River International Wildlife Refuge in the State of Michigan, and for other purposes.

H.R. 1761. An act to designate the facility of the United States Postal service located at 8588 Richmond Highway in Alexandria, Virginia, as the "Herb E. Harris Post Office Building."

H.R. 2061. An act to amend the charter of Southeastern University of the District of Columbia.

H.R. 2944. An act making appropriations for the government of the District of Columbia and other activities chargeable in whole or in part against the revenues of said District for the fiscal year ending September 30, 2002, and for other purposes.

The enrolled bills were signed subsequently by the President pro tempore (Mr. BYRD).

At 5:09 p.m., a message from the House of Representatives, delivered by Ms. Niland, one of its reading clerks, announced that the House has passed the following bills, in which it requests the concurrence of the Senate:

H.R. 1022. An act to amend title 4, United States Code, to make sure the rules of etiquette for flying the flag of the United States do not preclude the flying of flags at half mast when ordered by city and local officials.

H.R. 3209. An act to amend title 18, United States Code, with respect to false communications about certain criminal violations, and for other purposes.

H.R. 3295. An act to establish a program to provide funds to States to replace punch card voting systems, to establish the Election Assistance Commission to assist in the administration of Federal elections and to otherwise provide assistance with the administration of certain Federal election laws and programs, to establish minimum election administration standards for States and units of local government with responsibility for the administration of Federal elections, and for other purposes.

The message also announced that the House has agreed, to the following concurrent resolution, in which it requests the concurrence of the Senate:

H. Con. Res. 282. Concurrent resolution expressing the sense of Congress that the Social Security promise should be kept.

At 6:08 p.m., a message from the House of Representatives, delivered by Ms. Niland, one of its reading clerks, announced that the House has disagreed to the amendment of the Senate to the bill (H.R. 3338) making appropriations for the Department of Defense for the fiscal year ending September 30, 2002, and for other purposes, and agrees to the conference asked by the Senate on the disagreeing votes of the two Houses thereon; and appoints the following members as the managers of the conference on the part of the House:

For consideration of division A of the House bill and division A of the Senate amendment, and modifications committed to conference: Mr. LEWIS of California, Mr. YOUNG of Florida, Mr. SKEEN, Mr. HOBSON, Mr. BONILLA, Mr. NETHERCUTT, Mr. CUNNINGHAM, Mr. FRELINGHUYSEN, Mr. TIAHRT, Mr. MURTHA, Mr. DICKS, Mr. SABO, Mr. VISCLOSKEY, Mr. MORAN of Virginia, and Mr. OBEY.

For consideration of all other matters of the House bill and all other matters of the Senate amendment, and modifications committed to conference: Mr. YOUNG of Florida, Mr. LEWIS of California, and Mr. OBEY.

ENROLLED BILLS SIGNED

The message further announced that the Speaker has signed the following enrolled bills:

H.R. 10. An act to modernize the financing of the railroad retirement system and to provide enhanced benefits to employees and beneficiaries.

H.R. 2540. An act to amend title 38, United States Code, to provide a cost-of-living adjustment in the rates of disability compensation for veterans with service-connected disabilities and the rate of dependency and indemnity compensation for survivors of such veterans.

H.R. 2716. An act to amend title 38, United States Code, to revise, improve, and consolidate provisions of law providing benefits and service for homeless veterans.

MEASURES REFERRED

The following bills were read the first and the second times by unanimous consent, and referred as indicated:

H.R. 1022. An act to amend title 4, United States Code, to make sure the rules of etiquette for flying the flag of the United States do not preclude the flying of flags at half mast when ordered by city and local officials; to the Committee on the Judiciary.

H.R. 1576. An act to designate the James Peak Wilderness and Protection Area in the Arapaho and Roosevelt National Forests in the State of Colorado, and for other purposes; to the Committee on Energy and Natural Resources.

H.R. 1989. An act to reauthorize various fishery conservation management programs; to the Committee on Commerce, Science, and Transportation.

H.R. 2069. An act to amend the Foreign Assistance Act of 1961 to authorize assistance

to prevent, treat, and monitor HIV AIDS in sub-Saharan African and other developing countries; to the Committee on Foreign Relations.

H.R. 2121. An act to make available funds under the Foreign Assistance Act of 1961 to expand democracy, good governance, and anti-corruption programs in the Russian Federation in order to promote and strengthen democratic government and civil society in that country and to support independent media; to the Committee on Foreign Relations.

H.R. 2440. An act to rename Wolf Trap Farm Park as "Wolf Trap National Park for the Performing Arts", and for other purposes; to the Committee on Energy and Natural Resources.

H.R. 2595. An act to direct the Secretary of the Army to convey a parcel of land to Chat-ham County, Georgia; to the Committee on Armed Services.

H.R. 3209. An act to amend title 18, United States Code, with respect to false communica-tions about certain criminal violations, and for other purposes; to the Committee on the Judiciary.

H.R. 3216. An act to amend the Richard B. Russell National School Lunch Act to ex-clude certain basic allowances for housing of an individual who is a member of the uni-formed services from the determination of eligibility for free and reduced price meals of a child of the individual; to the Committee on Agriculture, Nutrition, and Forestry.

H.R. 3295. An act to establish a program to provide funds to States to replace punch card voting systems, to establish the Election As-sistance Commission to assist in the admin-istration of Federal elections and to other-wise provide assistance with the administra-tion of certain Federal election laws and pro-grams, to establish minimum election ad-ministration standards for States and units of local government with responsibility for the administration of Federal elections, and for other purposes; to the Committee on Rules and Administration.

H.R. 3370. An act to amend the Coast Guard Authorization Act of 1996 to modify the re-versionary interest of the United States in a parcel of property conveyed to the Traverse City Area School District in Traverse City, Michigan; to the Committee on Commerce, Science, and Transportation.

The following concurrent resolutions were read, and referred as indicated:

H. Con. Res. 259. Concurrent resolution ex-pressing the sense of Congress regarding the relief efforts undertaken by charitable orga-nizations and the people of the United States in the aftermath of the terrorist attacks against the United States that occurred on September 11, 2001; to the Committee on Health, Education, Labor, and Pensions.

H. Con. Res. 281. Concurrent resolution honoring the ultimate sacrifice made by Johnny Micheal Spann, the first American killed in combat during the war against terrorism in Afghanistan, and pledging contin-ued support for members of the Armed Forces; to the Committee on Armed Serv-ices.

H. Con. Res. 282. Concurrent resolution ex-pressing the sense of Congress that the So-cial Security promise should be kept; to the Committee on Finance.

EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with

accompanying papers, reports, and doc-uments, which were referred as indi-cated:

EC-4882. A communication from the Chair-man of the Defense Nuclear Facilities Safety Board, transmitting, pursuant to law, the Eleventh Annual Report relative to health and safety activities during calendar year 2000; to the Committee on Armed Services.

EC-4883. A communication from the De-puty Director of the Office of Enforcement Policy, Wage and Hour Division, Department of Labor, transmitting, pursuant to law, the report of a rule entitled "Adjustment of Civil Money Penalties for Inflation" (RIN215-AB20) received on December 10, 2001; to the Committee on Health, Education, Labor, and Pensions.

EC-4884. A communication from the Acting Assistant Secretary for Fish and Wildlife and Parks, National Park Service, Department of the Interior, transmitting, pursuant to law, the report of a rule entitled "Leasing Regu-lations" (RIN1024-AC78) received on Decem-ber 10, 2001; to the Committee on Energy and Natural Resources.

EC-4885. A communication from the Comptroller of the Currency, Administrator of National Banks, Legislative and Regulatory Activities Division, transmitting, pursuant to law, the report of a rule entitled "Risk-Based Capital Guidelines; Capital Adequacy Guidelines; Capital Maintenance; Capital Treatment of Recourse, Direct Credit Sub-stitutes and Residual Interests in Asset Securitizations" (12 CFR Part 3, Appendix A) received on December 10, 2001; to the Com-mittee on Banking, Housing, and Urban Af-fairs.

EC-4886. A communication from the Ad-ministrator of the Environmental Protection Agency, transmitting, pursuant to law, the Report of the Office of the Inspector General for the period April 1, 2001 through Sep-tember 30, 2001; to the Committee on Govern-mental Affairs.

EC-4887. A communication from the Chair-man of the Council of the District of Colum-bia, transmitting, pursuant to law, a report on D.C. Act 14-201, "Child Support Enforce-ment Amendment Act of 2001"; to the Com-mittee on Governmental Affairs.

EC-4888. A communication from the Chair-man of the Council of the District of Colum-bia, transmitting, pursuant to law, a report on D.C. Act 14-199, "Advisory Neighborhood Commissions Annual Contribution Amend-ment Act of 2001"; to the Committee on Gov-ernmental Affairs.

EC-4889. A communication from the Chair-man of the Council of the District of Colum-bia, transmitting, pursuant to law, a report on D.C. Act 14-194, "Emergency Economic Assistance Temporary Act of 2001"; to the Committee on Governmental Affairs.

EC-4890. A communication from the Chair-man of the Council of the District of Colum-bia, transmitting, pursuant to law, a report on D.C. Act 14-195, "Unemployment Com-pensation Terrorist Response Temporary Amendment Act of 2001"; to the Committee on Governmental Affairs.

EC-4891. A communication from the Chair-man of the Council of the District of Colum-bia, transmitting, pursuant to law, a report on D.C. Act 14-196, "Office of Administrative Hearings Establishment Act of 2001"; to the Committee on Governmental Affairs.

EC-4892. A communication from the Chair-man of the Council of the District of Colum-bia, transmitting, pursuant to law, a report on D.C. Act 14-198, "Litter Control Admin-istration Amendment Act of 2001"; to the Committee on Governmental Affairs.

EC-4893. A communication from the Chair-man of the Council of the District of Colum-bia, transmitting, pursuant to law, a report on D.C. Act 14-200, "Advisory Neighborhood Commissions Amendment Act of 2001"; to the Committee on Governmental Affairs.

EC-4894. A communication from the Attor-ney-Advisor of the National Highway Traffic Safety Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Truck Air Braking Requirements; Final Rule" (RIN2127-AH11) received on December 10, 2001; to the Committee on Commerce, Science, and Transportation.

EC-4895. A communication from the Attor-ney-Advisor of the National Highway Traffic Safety Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Advanced Air Bags; Final Rule; Response to Petitions for Reconsideration" (RIN2127-AH10) received on December 10, 2001; to the Committee on Commerce, Science, and Transportation.

EC-4896. A communication from the Pro-gram Analyst of the Federal Aviation Ad-ministration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Reduced Vertical Separation Minimum (RVSM)" (RIN2120-AH12) received on December 10, 2001; to the Committee on Commerce, Science, and Transportation.

EC-4897. A communication from the Pro-gram Analyst of the Federal Aviation Ad-ministration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Criminal History Records Checks" (RIN2120-AH53) received on Decem-ber 10, 2001; to the Committee on Commerce, Science, and Transportation.

EC-4898. A communication from the Pro-gram Analyst of the Federal Aviation Ad-ministration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Flightcrew Compartment Access and Door Designs" (RIN2120-AH54) re-ceived on December 10, 2001; to the Com-mittee on Commerce, Science, and Transpor-tation.

EC-4899. A communication from the Pro-gram Analyst of the Federal Aviation Ad-ministration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Part 145 Review: Repair Sta-tions; Reopening of the Comment Period" ((RIN2120-AC38)(2001-0002)) received on De-cember 10, 2001; to the Committee on Com-merce, Science, and Transportation.

EC-4900. A communication from the Attor-ney-Advisor of the National Highway Traffic Safety Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Federal Motor Vehicle Safety Standards; School Bus Body Joint Strength" (RIN2127-AC19) re-ceived on December 10, 2001; to the Com-mittee on Commerce, Science, and Transpor-tation.

EC-4901. A communication from the Chief of Regulations and Administrative Law, United States Coast Guard, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Safety/Se-curity Zone Regulations (including 47 regula-tions)" ((RIN2115-AA97)(2001-0149)) re-ceived on December 10, 2001; to the Committee on Commerce, Science, and Transportation.

EC-4902. A communication from the Acting Director of the Office of Surface Mining, De-partment of the Interior, transmitting, pur-suant to law, the report of a rule entitled "Louisiana Regulatory Program" (LA-020-FOR) received on December 11, 2001; to the Committee on Energy and Natural Re-sources.

REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Mr. BIDEN, from the Committee on Foreign Relations, without amendment:

H.R. 3167: A bill to endorse the vision of further enlargement of the NATO Alliance articulated by President George W. Bush on June 15, 2001, and by former President William J. Clinton on October 22, 1996, and for other purposes.

By Mr. KENNEDY, from the Committee on Health, Education, Labor, and Pensions, without amendment:

S. 1762: A bill to amend the Higher Education Act of 1965 to establish fixed interest rates for student and parent borrowers, to extend current law with respect to special allowances for lenders, and for other purposes.

S. 1793: A bill to provide the Secretary of Education with specific waiver authority to respond to conditions in the national emergency declared by the President on September 14, 2001

By Mr. BIDEN, from the Committee on Foreign Relations, without amendment and with a preamble:

S. Con. Res. 86: A concurrent resolution expressing the sense of Congress that women from all ethnic groups in Afghanistan should participate in the economic and political reconstruction of Afghanistan.

S. Con. Res. 90: A concurrent resolution expressing the sense of the Congress regarding the efforts of people of the United States of Korean ancestry to reunite with their family members in North Korea.

S. Con. Res. 92: A concurrent resolution recognizing Radio Free Europe/Radio Liberty's success in promoting democracy and its continuing contribution to United States national interests.

* Frederick W. Schieck, of Virginia, to be Deputy Administrator of the United States Agency for International Development.

Mr. BIDEN. Mr. President, for the Committee on Foreign Relations I report favorably the following nomination lists which were printed in the RECORD on the dates indicated, and ask unanimous consent, to save the expense of reprinting on the Executive Calendar that these nominations lie at the Secretary's desk for the information of Senators.

The PRESIDING OFFICER. Without objection, it is so ordered.

Foreign Service nominations beginning Shaun Edward Donnelly and ending Charles R. Wills, which nominations were received by the Senate and appeared in the CONGRESSIONAL RECORD on October 16, 2001.

Foreign Service nominations beginning Patrick C. Hughes and ending Mason Yu, which nominations were received by the Senate and appeared in the CONGRESSIONAL RECORD on November 27, 2001.

Foreign Service nominations beginning Kathleen T. Albert FL and ending Sunghwan Yi, which nominations were received by the Senate and appeared in the CONGRESSIONAL RECORD on November 27, 2001.

* Nomination was reported with recommendation that it be confirmed subject to the nominee's commitment to respond to requests to appear and testify before and duly constituted committee of the Senate.

(Nominations without an asterisk were reported with the recommendation that they be confirmed.)

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second times by unanimous consent, and referred as indicated:

By Mr. THOMAS (for himself and Ms. LANDRIEU):

S. 1808. A bill to amend the Mineral Leasing Act to encourage the development of natural gas and oil resources on Federal land; to the Committee on Energy and Natural Resources.

By Mrs. HUTCHISON:

S. 1809. A bill to authorize the Secretary of the Interior to study the suitability and feasibility of establishing the Buffalo Bayou National Heritage Area in west Houston, Texas; to the Committee on Energy and Natural Resources.

By Mr. DURBIN:

S. 1810. A bill to amend the Internal Revenue Code of 1986 to provide credits for individuals and businesses for the installations of certain wind energy property; to the Committee on Finance.

By Mr. THOMPSON (for himself, Mr. LIEBERMAN, Mr. VOINOVICH, Mr. LUGAR, Mr. DURBIN, and Mr. AKAKA):

S. 1811. A bill to amend the Ethics in Government Act of 1978 (5 U.S.C. App.) to streamline the financial disclosure process for executive branch employees; to the Committee on Governmental Affairs.

By Mr. CORZINE (for himself and Mr. TORRICELLI):

S. 1812. A bill to repeal the provision of the September 11th Victim Compensation Fund of 2001 that requires the reduction of a claimant's compensation by the amount of any collateral source compensation payments the claimant is entitled to receive, and for other purposes; to the Committee on the Judiciary.

By Ms. SNOWE:

S. 1813. A bill to require the United States Trade Representative to keep the House of Representatives Committee on Resources and the Senate Committee on Commerce, Science, and Transportation informed with respect to negotiations on fish and shellfish; to the Committee on Finance.

By Mr. SCHUMER (for himself and Mrs. CLINTON):

S. 1814. A bill to name the national cemetery in Saratoga, New York, as the Gerald B. H. Solomon Saratoga National Cemetery, and for other purposes; to the Committee on Veterans' Affairs.

ADDITIONAL COSPONSORS

S. 267

At the request of Mr. AKAKA, the names of the Senator from Massachusetts (Mr. KERRY) and the Senator from Connecticut (Mr. DODD) were added as cosponsors of S. 267, a bill to amend the Packers and Stockyards Act of 1921, to make it unlawful for any stockyard owner, market agency, or dealer to transfer or market nonambulatory livestock, and for other purposes.

S. 1067

At the request of Mr. GRASSLEY, the name of the Senator from Arkansas (Mr. HUTCHINSON) was added as a cosponsor of S. 1067, a bill to amend the Internal Revenue Code of 1986 to expand the availability of Archer medical savings accounts.

S. 1209

At the request of Mr. BINGAMAN, the names of the Senator from Iowa (Mr. HARKIN) and the Senator from Missouri (Mrs. CARNAHAN) were added as cosponsors of S. 1209, a bill to amend the Trade Act of 1974 to consolidate and

improve the trade adjustment assistance programs, to provide community-based economic development assistance for trade-affected communities, and for other purposes.

S. 1278

At the request of Mrs. LINCOLN, the name of the Senator from Vermont (Mr. JEFFORDS) was added as a cosponsor of S. 1278, a bill to amend the Internal Revenue Code of 1986 to allow a United States independent film and television production wage credit.

S. 1478

At the request of Mr. SANTORUM, the names of the Senator from Washington (Ms. CANTWELL) and the Senator from Utah (Mr. HATCH) were added as cosponsors of S. 1478, a bill to amend the Animal Welfare Act to improve the treatment of certain animals, and for other purposes.

S. 1482

At the request of Mr. HARKIN, the name of the Senator from North Dakota (Mr. CONRAD) was added as a cosponsor of S. 1482, a bill to consolidate and revise the authority of the Secretary of Agriculture relating to protection of animal health.

S. 1503

At the request of Mr. ROCKEFELLER, the name of the Senator from Maine (Ms. COLLINS) was added as a cosponsor of S. 1503, a bill to extend and amend the Promoting Safe and Stable Families Program under subpart 2 of part B of title IV of the Social Security Act, to provide the Secretary of Health and Human Services with new authority to support programs mentoring children of incarcerated parents, to amend the Foster Care Independent Living Program under part E of title IV of the Social Security Act to provide for educational and training vouchers for youths aging out of foster care, and for other purposes.

S. 1570

At the request of Ms. COLLINS, the name of the Senator from New Mexico (Mr. BINGAMAN) was added as a cosponsor of S. 1570, a bill to provide the Secretary of Education with specific waiver authority to respond to conditions in the national emergency declared by the President on September 14, 2001.

S. 1707

At the request of Mr. JEFFORDS, the name of the Senator from Minnesota (Mr. DAYTON) was added as a cosponsor of S. 1707, a bill to amend title XVIII of the Social Security Act to specify the update for payments under the medicare physician fee schedule for 2002 and to direct the Medicare Payment Advisory Commission to conduct a study on replacing the use of the sustainable growth rate as a factor in determining such update in subsequent years.

S. 1738

At the request of Mr. KERRY, the names of the Senator from Iowa (Mr. HARKIN) and the Senator from Wyo-

ming (Mr. THOMAS) were added as cosponsors of S. 1738, a bill to amend title XVIII of the Social Security Act to provide regulatory relief, appeals process reforms, contracting flexibility, and education improvements under the medicare program, and for other purposes.

S. 1739

At the request of Mr. CLELAND, the name of the Senator from Oregon (Mr. WYDEN) was added as a cosponsor of S. 1739, a bill to authorize grants to improve security on over-the-road buses.

S. 1749

At the request of Mr. KENNEDY, the names of the Senator from New Mexico (Mr. DOMENICI) and the Senator from Massachusetts (Mr. KERRY) were added as cosponsors of S. 1749, a bill to enhance the border security of the United States, and for other purposes.

S. 1805

At the request of Mr. DEWINE, the name of the Senator from Utah (Mr. HATCH) was added as a cosponsor of S. 1805, a bill to convert certain temporary judgeships to permanent judgeships, extend a judgeship, and for other purposes.

S.J. RES. 13

At the request of Mr. WARNER, the name of the Senator from Vermont (Mr. LEAHY) was added as a cosponsor of S.J. Res. 13, a joint resolution conferring honorary citizenship of the United States on Paul Yves Roch Gilbert du Motier, also known as the Marquis de Lafayette.

S. CON. RES. 3

At the request of Mr. FEINGOLD, the name of the Senator from Oregon (Mr. WYDEN) was added as a cosponsor of S. Con. Res. 3, a concurrent resolution expressing the sense of Congress that a commemorative postage stamp should be issued in honor of the U.S.S. *Wisconsin* and all those who served aboard her.

S. CON. RES. 86

At the request of Mr. DODD, the name of the Senator from Wisconsin (Mr. FEINGOLD) was added as a cosponsor of S. Con. Res. 86, a concurrent resolution expressing the sense of Congress that women from all ethnic groups in Afghanistan should participate in the economic and political reconstruction of Afghanistan.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. THOMAS (for himself and Ms. LANDRIEU):

S. 1808. A bill to amend the Mineral Leasing Act to encourage the development of natural gas and oil resources on Federal land; to the Committee on Energy and Natural Resources.

Mr. THOMAS. Madam President, I rise today to introduce the Federal Acreage Chargeability Act of 2001. The Mineral Leasing Act of 1920 restricts

the interests a company can own in Federal oil and gas leases in any one State to 246,080 acres. This legislation alters the acreage cap for oil and gas leases on federal lands so that producing leases are not included in the existing Statewide acreage limitation. This provides an incentive for producers to keep domestic acreage in production or to turn the leases over to another operator who will.

Historically, the acreage limitation in the Mineral Leasing Act responded to public concern over a few major integrated oil companies locking up potential supplies of crude oil from Federal lands in the West. As originally enacted, the Act forbade any person from owning more than three Federal oil and gas leases in any state and more than one lease in an oil and gas field. In 1926, the restriction was converted from leases into acres and the acreage limit was increased to 7,680 acres in any state. The Congress, on three other occasions, has further expanded the number of acres a lessee may hold to 15,360 acres in 1946, to 46,080 acres per state in 1954, and to its present 246,080 acres in 1960. Under present-day conditions increased acreage and more time are necessary to protect the huge investments now needed to maintain rates of discovery.

Today, companies are able to administratively exempt Federal acreage from the 246,080-acre limit per state either through unitization or by the creation of a development contract. At this time, the BLM only allows development contracts in situations where the acreage is considered wildcat. The BLM has been extremely cooperative in working with companies that find themselves bumping up against or exceeding the acreage cap. However, the time has come to pass legislation that will encourage the sizeable capital investment that will be needed to promote orderly and environmentally responsible exploration, development, and production of natural gas and oil from the public lands of the United States.

In our modern economy, the acreage limitations of the Mineral Leasing Act appear as historical relics, ill suited to their original task of promoting competition. The acreage limitations of the Act are once again inhibiting a company's ability to assemble sufficient blocks of acreage to efficiently explore promising natural gas and oil prospects. Companies are also unable to adequately finance the development of those prospects and related infrastructure such as pipelines. Exacerbating the acreage situation further, is the trend toward mergers and acquisitions taking place in the oil and gas industry.

The Federal Acreage Chargeability Act of 2001 amends the acreage limitation provisions of the Mineral Leasing Act of 1920 in such a manner that is

truly reflective of today's exploration and production techniques and economics. Given the uncertain natural gas and oil supply situation that this country faces, it is even more critical to reform the outdated existing Federal acreage limitation provisions. The Federal Acreage Chargeability Act of 2001 amends the Mineral Leasing Act of 1920 by exempting oil and natural gas producing acreage from being counted against the Federal acreage cap.

Acreage limitations for other federal minerals such as coal and trona have also been revised upward over the years. Last Congress, I authored legislation that passed and was signed into law that raised the acreage limits for both Federal coal and trona leases due to industry consolidation and international competition. The domestic natural gas and oil industry is certainly facing these same concerns.

In recognition of the economics and technological advances of exploring for and producing domestic natural gas and oil on our public lands, and the national goal of increasing both domestic production and environmental efficiency, make now the right time to enact the Federal Acreage Chargeability Act of 2001.

I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1808

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Mineral Leasing Act Revision of 2001".

SEC. 2. DEVELOPMENT OF NATURAL GAS AND OIL RESOURCES.

(a) IN GENERAL.—Section 27(d) of the Mineral Leasing Act (30 U.S.C. 184(d)) is amended—

(1) in the first sentence of paragraph (1), by inserting "producing acreage and" after "Provided, however, That"; and

(2) by adding at the end the following:

"(3) DEFINITION OF PRODUCING ACREAGE.—In this subsection, the term 'producing acreage' means any lease—

"(A) for which minimum royalty, royalty, royalty in kind, or compensatory royalty has been—

"(i) paid during the calendar year; or

"(ii) waived by the Secretary of the Interior; or

"(B) that has been committed to a federally approved cooperative plan, unit plan, or communitization agreement."

(b) APPLICATION.—Section 27 of the Mineral Leasing Act (30 U.S.C. 184) shall apply separately to land leased under the Mineral Leasing Act for Acquired Lands (30 U.S.C. 351 et seq.).

By Mr. DURBIN:

S. 1810. A bill to amend the Internal Revenue Code of 1986 to provide credits for individuals and businesses for the installations of certain wind energy property; to the Committee on Finance.

Mr. DURBIN. Madam President, today I am pleased to introduce the Home and Farm Wind Energy Systems Act of 2001. At a time when the United States clearly needs to reduce its dependence on fossil fuels, and particularly on imported oil, I offer legislation to spur the production of electricity from a clean, free and literally limitless source, wind. My bill offers a tax credit to help defray the cost of installing a small wind energy system to generate electricity for individual homes, farms and businesses. It is my hope that this credit will help make it economical for people to invest in small wind systems, thereby reducing pressures on the national power grid and increasing America's energy independence one family or business at a time.

Any serious attempt to create a national energy policy must include innovative proposals for exploring and developing the use of alternative and renewable energy sources. I look forward to debating a comprehensive energy policy for America in the next session of the 107th Congress, and I ask unanimous consent that a summary of the Home and Farm Wind Energy Systems Act of 2001 be printed in the RECORD.

There being no objection, the summary was ordered to be printed in the RECORD, as follows:

SUMMARY OF THE HOME AND FARM WIND ENERGY SYSTEMS ACT

The bill would provide a 30 percent federal investment tax credit for homeowners, farmers and businesses when they install small wind energy systems with a capacity of up to 75 kilowatts (kW). The tax credit would be available for installation occurring over the next ten years.

Investments in renewable energy provide many benefits, including:

1. Enhancing the energy security and independence of the United States;
2. Increasing farmer and rancher income;
3. Promoting rural economic development;
4. Providing environmental and public health benefits such as cleaner air and water;
5. Improving electric grid reliability, thereby reducing the likelihood of blackouts;
6. Providing farm and residential customers with insulation from electricity price volatility resulting from electric deregulation.

Small wind systems are the most cost-competitive home sized renewable energy technology, but the high up-front cost has been a barrier. Phil Funk, for instance, a farmer in Dallas County, IA, invested \$20,000 in a 20kW wind turbine system that saves him \$3000 dollars per year on his electricity bill. Funk made use of an existing tower on his property to reduce his total costs significantly. The simple return-on-investment period for Funk, however, was still 7 years—too long to interest many farmers. A 30 percent tax credit would be a powerful incentive in its own right. It would also bring down production costs for small wind systems by increasing sales and production volume.

A typical rural residential wind system uses a 60 foot to 80 foot tower, has a 10 kW capacity and costs \$30,000 to \$35,000 to install. It produces up to 13,000 kWh of electricity per year, and offsets seven tons of carbon dioxide per year. This could yield sav-

ings of \$1000 or more per year in energy costs, depending on prevailing commercial rates. In addition, in most states, system owners whose homes are connected to the power grid can sell excess electricity back to the local power company, improving efficiency and further reducing demands on local power grids.

While a few states offer incentives, the Federal Government has not offered tax credits for small wind systems since 1985.

A recent USA TODAY/CNN/Gallup poll showed that 91 percent of the public favors incentives for wind, solar, and fuel cells. But, while there are tax credits for very large commercial wind turbines, Production Tax Credit, there is currently no federal program to support small systems.

According to the American Wind Energy Association, Illinois ranks 16th in the contiguous states for wind energy potential. A new map produced by the National Renewable Energy Laboratory, NREL, for the U.S. Department of Energy indicates that over 2/3 of Illinois has a "class 3" or better wind resource, making rural areas and the higher elevations in those areas appropriate for small wind turbine siting.

Illinois has a strong wind energy heritage. Chicago and Batavia were the leading centers of wind energy manufacturing in the United States at the end of the last century, with millions of farm water pumping windmills and battery-charging wind turbines built in the area between 1870 and 1910. Batavia is still known as "The Windmill City".

In 1999, the Danish large-wind-turbine manufacturer NEG Micon chose Champaign for the site of its first American assembly and servicing facility, continuing the wind energy tradition in Illinois.

Only a handful of States provide incentives for small wind systems.

Illinois currently offers a buy-down or rebate on the purchase of wind energy systems of up to 50 percent or \$2/watt. Eligible applicants include associations, individuals, private companies, public and private schools, colleges and universities, not-for-profit organizations and units of State and local government. Potential recipients must be located within the service area of an investor-owned or municipal gas or electric utility or an electric cooperative that imposes the Renewable Energy Resources and Coal Technology Development Assistance Charge. Grant payments under current operating procedures are, however taxable, which reduces their value significantly.

By Mr. THOMPSON (for himself,
Mr. LIEBERMAN, Mr. VOINOVICH,
Mr. LUGAR, Mr. DURBIN, and Mr.
AKAKA):

S. 1811. A bill to amend the Ethics in Government Act of 1978 (5 U.S.C. App.) to streamline the financial disclosure process for executive branch employees; to the Committee on Governmental Affairs.

Mr. THOMPSON. Madam President, I am introducing today the Presidential Appointments Improvement Act of 2001 on behalf of myself and Senator LIEBERMAN, and Senators AKAKA, DURBIN, LUGAR, and VOINOVICH. This proposal reflects multiple recommendations made by the many commissions and organizations that have studied the Presidential appointments process. These include a number of national commissions, non-profit organizations

like the Presidential Appointee Initiative and the Transition to Governing Project, and a 1993 study and recommendations by the American Bar Association.

Clearly, we have a problem. The Presidential appointments process is unnecessarily long, burdensome, and complex. And although President Bush has sent a notable number of nominees to Congress at this point in his first year, major gaps remain in critical positions throughout government. We are faced with responding to the events of September 11 with a 25-percent vacancy rate in positions considered important to Homeland Security.

The time it takes for a new President to put his team in place exacerbates the human capital problems that our government faces. There is a growing recognition that we need to manage our people better. But with the downsizing of the past decade and the impending wave of retirements, the time consuming nature of the appointments process will leave many federal departments and agencies hollow and headless.

While the appointments process is, collectively, a tangled mess, there is no question that it has parts that are important and should be preserved. Conflict of interest statutes are critical, because a fundamental principle of government is one should not have a direct financial interest in the decisions that one is making. Likewise, background investigations are critical to ensure that the Government's highest officials can be trusted with national security information. And, of course, the Congress has an obligation, enshrined in the Constitution, to provide its advice and consent for the President's nominees.

This committee first took action to improve the Presidential appointments process when we passed the Presidential Transition Act of 2000. In that legislation, we included a number of provisions to allow a new President to hit the ground running once he takes office. In addition, that bill asked the Office of Government Ethics to report within six months on its recommendations to streamline the forms we require of Executive Branch nominees. The administration submitted those recommendations and they are included in this legislation.

In addition to streamlining the financial disclosure form, our legislation directs the Executive Clerk of the White House to provide a list of appointed positions to each Presidential candidate, Republican and Democrat, after their respective nominating conventions. That way the President, whomever he or she may be, can have an early start at picking his most trusted advisors. We also ask each Executive Department to recommend an elimination of Senate-confirmed positions, which would greatly shorten the entire process.

As I've said, this legislation is not the only action we are taking to improve the Presidential appointments process. Senator LIEBERMAN and I earlier asked Senate Committees to work to simplify the forms they require of nominees, we have simplified the Governmental Affairs Committee form, and I have written White House Chief of Staff Andrew Card, asking him to examine the need for all Presidential nominees to undergo a full-field FBI background investigation. Clearly, there are some positions in the Federal Government that do not require the same background investigations as, say, the Secretary of Defense.

We will continue to look for ways to improve this process. The legislation we are introducing today makes reasonable but overdue changes to the Presidential appointments process. Whether in a time of crisis or not, there is no question that the country benefits when the President's team, from either party, takes office as quickly as possible.

I ask unanimous consent that a section-by-section analysis of the bill be printed in the RECORD.

There being no objection, the analysis was ordered to be printed in the RECORD, as follows:

PRESIDENTIAL APPOINTMENTS IMPROVEMENT ACT OF 2001—SECTION-BY-SECTION ANALYSIS

Section 1 of the bill. Sets forth the short title of the bill.

Section 2 of the bill. Sets forth the purposes of the bill.

Sec. 3 of the bill. Sets forth the public financial disclosure requirements for judicial and legislative personnel by amending Title I of the Ethics in Government Act to excise all current references in title which were necessary to apply the title to the officers and employees of the executive branch. No change to current financial disclosure requirements for judicial and legislative personnel have been made.

Sec. 4 of the bill. Sets forth the public financial disclosure requirements for executive branch personnel by enacting a new title II of the Ethics in Government Act. The references below are to the sections of title II of the Ethics in Government Act and not to the sections of this Act.

Section 201. *Persons required to file*

Subsection (a) establishes the filing deadlines for new entrants to a filing position. This does not change current requirements.

Subsection (b), Paragraphs (1) and (2) establish the filing deadlines for Presidential nominees (and individuals whom the President has announced his intent to nominate) to positions requiring Senate confirmation (other than Foreign Service Officers or certain uniformed service officers) and including the requirement to update information regarding income and honoraria to within 5 days of the confirmation hearing. This does not change current requirements.

Subsection (c), paragraph (1) contains the current filing requirements for candidates for President or Vice President. This does not change current requirements.

Paragraph (2) requires that an individual who is sworn in as President or Vice President and who did not hold either of those two positions immediately before taking the

oath of office shall file a report within 30 days of taking the oath. This is new. It is intended to make clear that a newly-elected President or Vice President or an individual who takes the oath of office of either of those two positions outside the normal election cycle shall file a report within 30 days of taking the oath. A newly-elected President and Vice President who are not incumbents have previously filed as candidates. This amendment would clarify the change from candidate to incumbent and give the public timely information regarding these two officials. An individual who is re-elected as President or Vice President would not be affected by this provision and would continue to file annually on May 15.

Subsection (d) contains the requirements for annual reports. This does not change current requirements.

Subsection (e) contains the requirements for termination reports. It has been changed only to make clear that an individual who moves from any covered position to an elected position in the executive branch need not file a termination report for the first position.

Subsection (f) contains the descriptions of the officers and employees of the executive branch who must file a public financial disclosure. This does not change current requirements, except that paragraph (6) has been amended to clarify which officers or employees of the Postal Service are required to file by referencing the levels of the Postal Career Executive Service rather than an amount of basic pay.

Subsection (g) contains the provisions for extensions for filing. This does not change current provisions.

Subsection (h) contains a time-limited exception for filing by persons who are not reasonably expected to serve in their positions for more than sixty days in a calendar year. This does not change current authority.

Subsection (i) provides OGE with waiver authority for the filing requirements primarily for certain special Government employees. This does not change current waiver authority.

Section 202. *Contents of reports*

Subsection (a), paragraph (1), subparagraph (A) requires the reporting of the source, description and category of amount of earned income including honoraria aggregating more than \$500 in value. For purposes of honoraria received during Government service, the report must include the exact amount and the date it was received. This provision does not include the current requirements for reporting exact amounts of earned income; exact amounts of any income that are not dividends, rents, interest and capital gains; contributions made to charitable organizations in lieu of honoraria; and the corresponding confidential reporting requirement of the recipients of the payments in lieu of honoraria. It also changes the threshold from "\$200 or more" to "more than \$500" to conform the style of the threshold descriptions and raise the amount.

Subparagraph (B) requires the reporting of the source, description and category of amount of investment income which exceeds \$500 during the reporting period. This change allows all investment income to be reported by category of amount rather than only dividends, rents, interest and capital gains, and it raises the reporting threshold from \$200 to \$500.

Subparagraph (C) sets forth the categories of amounts for reporting earned and investment income. This provision substitutes 5 categories for the current 11 categories used for certain types of investment income.

Paragraph (2), subparagraph (A) requires the reporting of gifts aggregating more than the minimal value established by the Foreign Gifts Act (currently \$260). This does not change current requirements.

Subparagraph (B) requires the reporting of reimbursements received for travel when valued at more than the minimal value established by the Foreign Gifts Act. This changes current requirements in that it eliminates the requirement to report the "itinerary" of the trip but maintains the requirement to report the dates and the nature of the expenses provided.

Subparagraph (C) provides for a publicly available waiver for reporting gifts. This does not change current authority.

Paragraph (3) contains the requirements for reporting interests in property or in a trade or business, or for investment or the production of income property held for the production of income which has a fair market value in excess of \$5,000 except that deposit accounts in a financial institution aggregating \$100,000 or less and any federal Government securities aggregating \$100,000 or less need not be reported. This changes the current requirements by raising the general threshold reporting requirement to \$5,000, by raising the threshold reporting requirement for deposit accounts from \$5,000 to \$100,000 and by creating a new threshold for Government securities at over \$100,000 where it currently is treated as other personal property with a \$1,000 reporting threshold.

Paragraph (4) contains the requirements for reporting the identity and category of value of liabilities which exceed \$20,000 at any time during the reporting period except that revolving charge accounts need only be reported if the outstanding liability exceeds \$20,000 as of the close of the reporting period. This changes the current requirements by raising the threshold from \$10,000 to \$20,000.

Paragraph (5) contains the reporting requirements for real property and securities that were: purchased, sold or exchanged during the preceding calendar year; the value of the transaction exceeded \$5,000; and the property or security is not already required to be reported as a source of income or as an asset. This replaces the current requirements to report the date and category of value of any purchase, sale or exchange of real property or a security which exceeds \$1,000 and eliminates some redundant reporting required by current law.

Paragraph (6), subparagraph (A) requires the reporting of certain positions (e.g. officerships, directorships, trusteeships, partnerships, etc.) held by the reporting official during the period that encompasses the preceding calendar year and the current calendar year in which the report is filed. This changes the current requirement only in that it shortens the look-back in the reporting period from two years plus the current to one year plus the current.

Subparagraph (B) requires a non-elected new entrant to report the sources of individual compensation for personal services rendered by the reporting individual valued in excess of \$25,000 in the calendar year prior to or the calendar year in which the first report was filed. It specifically exempts from reporting those sources that have already been reported previously as a source of earned income over \$500. It also contains a provision that allows the reporting individual not to report any information required by this provision if the information is confidential as a result of a privileged relationship or the person for whom the services were provided had a reasonable expectation

of privacy. This changes the current requirements by raising the threshold from \$5,000 to \$25,000; by shortening the look-back in the reporting period from two years plus the current to one year plus the current year; by deleting, through exception, the current requirement to again report sources of earned income required to be reported elsewhere; and by adding an additional exception for reporting information where the person for whom the services were provided (client) had a reasonable expectation of privacy.

Paragraph (7) requires the reporting of a description of the parties to and the terms of any agreements or arrangements for future employment (including the date of any formal agreement for future employment), leaves of absence, continuation of payments by a former employer and continuing participation in an employee benefits plan maintained by a former employer. This changes the current requirements only in that it eliminates the requirement that dates of all such agreements must be included, requiring only the dates of formal agreements for future employment.

Paragraph (8) specifies that a category of value shall be used to report the total cash value of the reporting individual in a qualified blind trust. This does not change the requirement that the total cash value of a blind trust is to be reported by category of amount, but it does eliminate a reference to blind trusts executed prior to July 24, 1995 where the trust document prohibited the beneficiary from receiving this information. There are no such trusts that would be qualified in the executive branch.

Subsection (b), paragraph (1) provides for reporting periods for candidates, Presidential nominees and other new entrants. For income, positions held and client-type information the reporting period will be the year of filing and the preceding calendar year. For assets and liabilities, the reporting period is as of a date that is less than 31 days before the filing date. For agreements and arrangements, the reporting period is as of the filing date. This maintains the current reporting periods except that it reiterates that positions held and client-type information will only be required to be reported for the preceding calendar year plus the current calendar year.

Paragraph (2), subparagraphs (A) and (B) provides for authority to allow a filer to use a format other than the standard form developed by the Office of Government Ethics or to provide exact amounts instead of reporting by category of amount. This does not change current authority.

Subsection (c) provides for reporting periods for certain first annual report filers and for those terminating Government service. This does not change current requirements.

Paragraph (1) provides OGE with regulatory authority to expand a reporting period to cover days in which the filer actually served the Government in a filing position, but information for those days was not otherwise included on a public financial disclosure. This is a new requirement intended to allow OGE to define an additional reporting period, by regulation, to fill a reporting gap that can occur between a nominee or new entrant report and the first annual report the individual is required to file. Typically the gap appears for an individual who enters Government service in November or December as a new appointee or as a regular new entrant who filed a first report promptly before the end of the year and whose next annual does not cover any of the November/December time frame when they first entered government service.

Paragraph (2) requires that reports filed at the termination of Government service shall include that part of the calendar year of filing up to the date of the termination of employment. This does not change current requirements; it is simply a renumbering.

Subsection (d), paragraph (1) sets forth the five categories of value for reporting assets. This changes the current eleven categories to five and eliminates the requirement that liabilities and trusts be reported using the same categories as assets.

Paragraph (2) sets forth the alternative methods for valuing an asset. This does not change current alternatives.

Paragraph (3) sets forth the four categories of value for reporting liabilities and qualified blind trusts. This is a new provision that sets forth categories of value for reporting liabilities and qualified blind trusts that are different from the categories of value for reporting assets, and provides for only four categories instead of the current eleven.

Subsection (e), paragraph (1), subparagraph (A) requires that a report include the sources (but not the amounts) of earned income (including honoraria) earned by the spouse which exceed \$500 except that when the spouse is self-employed, only the nature of the business need be reported. This changes the current requirement by lowering the threshold amount from \$1,000 to match the \$500 threshold for filers, and eliminates the requirement that amounts of honoraria earned by a spouse be reported.

Subparagraph (B) requires that the same information regarding investment income required of a filer will be required to be reported for the spouse or dependent child. This changes the current requirement by requiring the reporting of all reportable investment income rather than specifying only income from assets that are required to be reported.

Subparagraphs (C) and (D) set forth the reporting requirements for gifts and reimbursements received by a spouse or dependent child. These do not change current requirements.

Subparagraph (E) sets forth the test for the certification that would provide an exemption for reporting certain spousal and dependent child's information. There is no change to the longstanding OGE requirement regarding certification, although there is a grammatical correction.

Subparagraph (F) specifies that reports filed by nominees, candidates and new entrants need only contain information regarding sources of income, assets and liabilities of a spouse and dependent child. This does not change current requirements.

Paragraph (2) provides for the non-disclosure of information of a spouse living separate and apart from the reporting individual with the intention of terminating the marriage or providing for permanent separation or of information relating to income or obligations arising from the dissolution of a marriage or permanent separation. This does not change current authority.

Subsection (f), paragraph (1) sets forth the general requirement for reporting information regarding the holdings of and the income from a trust in which the filer, spouse or dependent child has a beneficial interest in principal or income, and references the exceptions. This does not change current requirements.

Paragraph (2) describes the three types of trusts for which the holdings and income would not be subject to the general reporting requirements set forth in subparagraph (1). This does not change current descriptions.

Paragraph (3) sets forth the requirements for a qualified blind trust. This does not change current requirements except that a reference to trusts qualified prior to January 1, 1991 has been eliminated as no longer necessary.

Paragraph (4) sets forth the requirements for a diversified blind trust. This does not change current requirements.

Paragraph (5) sets forth the requirements for the public documents that must be filed in relation to a trust. It does not change current requirements except that it eliminates a requirement that the filer file a public copy of a list of the trust assets with the Office of Government Ethics upon dissolution of the trust.

Paragraph (6) sets forth the restrictions applicable to the trustee and the reporting individual with regard to disclosing and soliciting certain information about a blind trust and the penalties for violating those restrictions. This does not change current restrictions or penalties.

Paragraph (7) sets forth the requirements for qualifying as blind a pre-existing trust. This does not change current requirements.

Paragraph (8) sets forth the exception for reporting the financial interests held by a widely held investment fund. This does not change the current exception.

Paragraph (9), subparagraph (A) sets forth the requirements that must be met by a new entrant or nominee in order to not disclose the assets of certain trust and investment funds where reporting would result in the disclosure of financial information of another not otherwise required to be reported; disclosure of the information is prohibited by contract or the information is not otherwise publicly available; and the reporting individual has agreed to divest of the interest within 90 days of the date of the agreement.

This is a new provision included to address the reporting requirements for investment vehicles such as limited partnerships where the filer may not have specific information about the underlying holdings of the fund necessary to complete a financial disclosure form; where the investment manager does not ordinarily disclose his investments; or where other investors do not want the identity of their investments disclosed. In these cases, the filer's agreement to divest, and interim recusals when necessary, adequately address conflict of interest concerns.

Subparagraph (B) sets forth the requirements that must be met by annual and termination report filers in order not to disclose the assets of certain trust and investment funds acquired involuntarily during the reporting period and otherwise described by subparagraph (A). This is new and is complementary to subparagraph (A).

Subsection (g) provides that financial information regarding political campaign funds is not required to be reported in any report pursuant to the title. This does not change current law.

Subsection (h) provides that gifts and reimbursements received when the filer was not an officer or employee need not be included on any report filed pursuant to the title. This does not change current law.

Subsection (i) provides that assets, benefits and income from federal retirement systems or Social Security need not be reported.

This does not change current law.

Subsection (j) provides that Designated Agency Ethics Officers shall submit, on a monthly basis, a list of recently granted criminal conflict-of-interest waivers to the Office of Government Ethics. It further pro-

vides that the Office of Government Ethics publish notice of these waivers and of the waivers that has itself granted. This is a new requirement designed to expedite public notice of waivers.

Paragraph (k) provides that waivers be included with the filing for the year in which it was granted. This is a new requirement designed to expedite public availability of waivers.

Section 203. Filing of reports

Subsection (a) provides for the filing of most reports with the agency in which the individual will serve. This does not change current requirements.

Subsection (b) provides that the President and Vice President shall file reports with the Director of the Office of Government Ethics. This does not change current requirements for these individuals although it eliminates the reference to Independent Counsels and their staffs.

Subsection (c) provides that copies of certain forms that are filed with an agency shall also be transmitted to the Office of Government Ethics. This does not change current requirements.

Subsection (d) requires that the reports filed directly with the Office of Government Ethics shall be available immediately to the public. This does not change current requirements.

Subsection (e) requires that candidates for President and Vice President shall file with the Federal Election Commission. This does not change current requirements.

Subsection (f) requires that reports of members of the uniformed services shall be filed with the Secretary concerned. This does not change current requirements.

Subsection (g) provides that the Office of Government Ethics shall develop the forms for reporting for the executive branch. This does not change current requirements.

Section 204. Failure to file or filing false reports

Subsection (a) provides for civil actions and penalties for knowing and willful falsification and willful failure to file or report information. This does not change current law.

Subsection (b) directs OGE, agency heads and Department Secretaries to refer to the Attorney General the names of individuals for whom there is reasonable cause to believe have willfully falsified or willfully failed to file information required to be reported. This does not change current law.

Subsection (c) provides for authority to take appropriate administrative action for failure to file or falsifying or failing to report required information. This does not change current law.

Subsection (d), paragraph (1) provides a late filing fee of \$500. This raises the current fee from \$200 to \$500.

Paragraph (2) provides OGE with the authority to waive a late filing fee for good cause shown. This changes the standard of the test for a waiver from "extraordinary circumstances." Experience has shown a good cause test to be more appropriate to meet the circumstances where OGE has felt that the fee should be waived, particularly when the failure to file on a timely basis has not been the fault of the filer.

Section 205. Custody of and public access to reports

Subsection (a) sets forth the authority that allows agencies to make the reports filed pursuant to the title public and the authority to except from public release certain reports filed by individuals engaged in intelligence activities. This does not change current requirements.

Subsection (b), Paragraph (1) sets forth the requirements for when the reports must become available to the public and the authority to recover reproduction costs. This does not change current requirements.

Paragraph (2) sets forth the requirement for a written request in order to obtain a copy of an individual's report. This does not change current requirements.

Subsection (c) sets forth the restrictions on obtaining or using a report for specified purposes and the penalties for such unlawful activities. This does not change current law.

Subsection (d) provides for the periods a report must be retained and available for public inspection and for its subsequent destruction. This does not change current law.

Section 206. Review of reports

Subsection (a) sets forth the time during which an agency should review a report filed with it. This does not change current requirements.

Subsection (b), paragraphs (1)–(6) set forth the procedures to be followed by a reviewing agency including OGE in seeking to certify a form including steps for assuring compliance with applicable laws. This does not change current procedures except that paragraph (b)(2)(A) clarifies that a reviewer may request additional information if he believes it is necessary for the form to be complete or for conflicts of interest analysis. Current law is more general about why a reviewer may request additional information.

Paragraph (7) gives OGE specific authority to render advisory opinions interpreting this title and provides a precedential standard for these opinions. This does not change current law.

Section 207. Confidential reports and other additional requirements

Subsection (a) Paragraph (1) gives OGE the authority to establish an additional financial disclosure system for the executive branch. This does not change current authority.

Paragraph (2) provides that financial disclosure reports filed pursuant to this authority will be confidential. This does not change current authority.

Paragraph (3) makes clear that nothing in this authority exempts an individual from filing publicly information required to be reported elsewhere in the title. This does not change current authority.

Subsection (b) provides that this authority shall supersede any general requirement for filing financial information for the purposes of conflicts of interest with the exception of the information required by the Foreign Gifts and Decorations Act. This does not change current law.

Subsection (c) makes clear that reporting any information does not authorize the receipt of the reported income, gifts or reimbursements or holding assets, liabilities or positions, or the participation in transactions that are prohibited. This does not change current law.

Section 208. Authority of the Comptroller General

This section provides the CG with access to any financial disclosure report filed pursuant to this title for the purposes of carrying out his statutory responsibilities. This does not change current law with regard to the access to forms. It does, however, eliminate a current requirement that the CG conduct regular studies of the financial disclosure system. Such elimination is consistent with efforts to eliminate periodic Government reports, but does not in any way affect the CG's authority to conduct such a study on an as needed or requested basis.

Section 209. Definitions

The following terms are defined: (1) dependent child; (2) designated agency ethics official; (3) executive branch; (4) gift; (5) honoraria; (6) income; (7) personal hospitality of any individual; (8) reimbursement; (9) relative; (10) Secretary concerned; and (11) value. All terms retain their current definitions except "gift" no longer includes an exception for consumable products provided by home-State businesses because of its primary relevance for Members of Congress and includes an exception for gifts accepted or reported pursuant to the Foreign Gifts Act; "honoraria" no longer references a section of a law that has been ruled unconstitutional and/or unenforceable for the executive branch and instead is now defined as a thing of value for a speech, article or appearance; and "income" now specifically includes prizes and awards as a part of the items that are considered income. This changes current law as described above and eliminates individual terms that were only required to be defined if the legislative and/or judicial branch filing requirements were included.

Section 210. Notice of actions taken to comply with ethics agreements

Subsection (a) sets forth the notification requirements that must be followed by an individual who has agreed to take certain actions in order to avoid conflicts of interest. Notification must first be made no later than the date specified in the agreement or no later than 3 months after the date of the agreement. If all actions have not been taken by the time the first notification is required, the individual must thereafter, on a monthly basis, file such notifications until all agreements are met. Current law only requires one notification; this adds the continuing monthly requirement to report the status of steps taken to comply until all terms of the agreement have been met.

Subsection (b) describes the documentation required to be filed for an ethics agreement that includes a promise to recuse. This does not change current requirements.

Section 211. Administration of provisions

This provides OGE with clear authority to issue regulations, develop forms and provide such guidance as is necessary to implement and interpret this title. This clarifies current law for the executive branch.

Sec. 5. Provides that the Executive Clerk of the White House will transmit a list of Presidentially-appointed positions to each presidential candidate following the nominating conventions. This is a change to current law, under which such a list could only be provided to the President-elect after the November election. This section is intended to speed the process of identifying and vetting major Presidential appointees.

Sec. 6. Provides that the head of each agency will submit a plan, within 180 days of enactment of the Act, that details the number of Presidentially-appointed positions within the agency and outlines a plan to reduce the number of those positions. This is clearly a new requirement, one intended to begin the dialogue of reducing the large number of appointees and speeding up the process for positions that remain.

Sec. 7. Provides that the Attorney General will review the Federal criminal conflict of interest laws and suggest coordination and improvements that might be made. This section is designed to aid in the decriminalization of such laws, in the case when honest mistakes are made in the process of recording extensive financial transactions.

Sec. 8. Provides that the amendments made by Section 4 take effect on January 1 of the year following the date of enactment of the Act.

By Mr. CORZINE (for himself and Mr. TORRICELLI):

S. 1812. A bill to repeat the provision of the September 11th Victim Compensation Fund of 2001 that requires the reduction of a claimant's compensation by the amount of any collateral source compensation payments the claimant is entitled to receive, and for other purposes; to the Committee on the Judiciary.

Mr. CORZINE. Madam President, today along with Senator TORRICELLI I am introducing legislation to ensure that the families who suffered tremendous losses in the terrorist attacks on September 11th receive the compensation they deserve and need to move forward with their lives. The bill would eliminate provisions in current law that reduce the compensation to which they are entitled because of contributions received from other sources.

New Jersey has been tragically affected by the terrorist attacks of September 11. This past weekend, I met with over 400 family members who lost a loved one on the 11th. These people are dealing with unimaginable pain, and many are struggling as they try to provide for the security of their families.

To obtain assistance, families are being forced to navigate through extensive paperwork burdens. They have filled out countless forms and made countless calls seeking answers about the benefits to which they are entitled. Yet many fear that, notwithstanding their efforts, they will be unable to secure the assistance that they need so badly.

The American people want to help these victims, and Congress has acted in an effort to make that happen. Soon after September 11, as part of broader legislation to support the airline industry, Congress established a fund to compensate the victims of the attacks, the September 11 Victim Compensation Fund.

Under that legislation, victims and their families can choose to seek compensation from the Fund, in return for relinquishing their right to file suit against an airline. Those victims who opt-in are eligible for full economic and non-economic damages, but not punitive damages. The amount of compensation will be determined by a Special Master, Kenneth Feinberg.

The purpose of the Fund is to ensure that victims are fully compensated without having to go to court, a process that could take many years for families who urgently need assistance. I support this goal. Unfortunately, in our desire to both aid the industry by limiting their liability and to provide compensation to the victims and their families, we rushed the legislation to

enactment without sufficient consideration of how the Fund would operate.

As a result, the law contains a glaring flaw. It includes a "collateral source" rule, which requires the Special Master to deduct the amount of life insurance and pension payments from the amount of compensation that would otherwise be available to victims and families under the Fund. This rule, in my view, is a serious mistake, and threatens to deny needed compensation for many of these victims.

It is wrong to treat victims of the disaster on September 11 any differently. Reducing their awards not only harms these families, it also runs counter to the goals of the original legislation. After all, if families cannot obtain the compensation they need through the Victims Compensation Fund, some of them will be forced to go straight to court. That will delay the compensation they need, and subject airlines to costs and liability that Congress sought to protect them against.

I would note, that in addition to repealing the collateral source rule, my legislation makes clear that charitable donations should not be considered collateral sources and should not count against compensation awarded under the Fund. This not only ensures that families get the compensation they need, but it ensures that those who have made charitable contributions are not treated unfairly. After all, those who have generously sent checks to charitable organizations did not think that their contributions would reduce Federal compensation. In effect, such a reduction would be a tax on people who have contributed their own funds in an effort to help. In addition, without such a clarification, charities may withhold funds for victims until after they recover from the fund, in order to avoid an offset.

Recovery under the Victims' Compensation Fund is not the only relief that these grieving families need. Although charities have provided some assistance to families over the past three months, that funding has only been a stopgap measure. These families need immediate tax relief. I am pleased that just before Thanksgiving the Senate passed a comprehensive victims' tax relief bill, but unfortunately the House has only passed a more narrow version of the legislation.

These families need immediate relief so that they can plan and provide for their families. They need: a waiver of federal income tax liability for this year and last year; payroll tax relief—this is particularly important to low-wage workers, who are less likely to benefit from the waiver of income tax liability, and are also less likely to have left their families with life insurance and pensions; reduced estate taxes; exclusion of survivor, disability and emergency relief benefits from taxation; and finally, we need to make it

easier for charitable organizations to make disaster relief payments to help victims and their families with both short-term and long-term needs, such as scholarships for victims' children.

Many of these proposals are based on provisions in current law that provide tax relief to soldiers who die in combat and government employees who die in terrorist attacks outside the United States. Extending these provisions to the victims of the terrorist attacks is appropriate because the attacks of September 11 were attacks on our entire nation.

Last week some families came down here to meet with the New Jersey delegation and House and Senate leadership to plead for immediate assistance, so that they can pay their mortgages, keep children in school, and keep their heads above water. They made their case powerfully and effectively, and we in Congress must not let them down.

I urge my colleagues to stand up for these victims and support my legislation. I asks unanimous consent the text of the bill be printed in the RECORD.

There being no object, the bill was ordered to be printed in the RECORD, as follows:

S. 1812

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "September 11th Victim Compensation Fund Fairness Act".

SEC. 2. REPEAL OF COLLATERAL COMPENSATION PROVISION.

(a) REPEAL OF COLLATERAL COMPENSATION PROVISION.—Section 405(b)(6) of the September 11th Victim Compensation Fund of 2001 (49 U.S.C. 40101 note) is hereby repealed.

(b) APPLICATION OF THE SEPTEMBER 11TH VICTIM COMPENSATION FUND OF 2001.—The compensation program established under the September 11th Victim Compensation Fund of 2001 (49 U.S.C. 40101 note) shall be administered as if section 405(b)(6) of that Act had not been enacted.

SEC. 3. AMENDMENT OF COLLATERAL SOURCE DEFINITION.

Paragraph (6) of section 402 of the September 11th Victim Compensation Fund of 2001 (49 U.S.C. 40101 note) is amended by adding at the end the following: "The term 'collateral source' does not include payments or other assistance received from a nonprofit organization, if such organization is described in paragraph (3) or (4) of section 501(c) of the Internal Revenue Code of 1986 and is exempt from tax under section 501(a) of such Code."

AMENDMENTS SUBMITTED AND PROPOSED

SA 2481. Mr. ALLEN submitted an amendment intended to be proposed to amendment SA 2471 submitted by Mr. DASCHLE and intended to be proposed to the bill (S. 1731) to strengthen the safety net for agricultural producers, to enhance resource conservation and rural development, to provide for farm credit, agricultural research, nutrition, and related programs, to ensure consumers abundant food and fiber, and for other purposes; which was ordered to lie on the table.

SA 2482. Mr. ALLEN submitted an amendment intended to be proposed by him to the bill S. 1731, supra; which was ordered to lie on the table.

SA 2483. Mr. CLELAND submitted an amendment intended to be proposed by him to the bill S. 1650, to amend the Public Health Service Act to change provisions regarding emergencies; which was referred to the Committee on Health, Education, Labor, and Pensions.

SA 2484. Mr. CLELAND submitted an amendment intended to be proposed by him to the bill S. 1765, to improve the ability of the United States to prepare for and respond to a biological threat or attack; which was ordered to lie on the table.

SA 2485. Mr. TORRICELLI (for himself and Mr. REID) submitted an amendment intended to be proposed by him to the bill S. 1731, to strengthen the safety net for agricultural producers, to enhance resource conservation and rural development, to provide for farm credit, agricultural research, nutrition, and related programs, to ensure consumers abundant food and fiber, and for other purposes; which was ordered to lie on the table.

SA 2486. Mrs. MURRAY submitted an amendment intended to be proposed by her to the bill S. 1731, supra; which was ordered to lie on the table.

SA 2487. Mr. STEVENS submitted an amendment intended to be proposed to amendment SA 2471 submitted by Mr. DASCHLE and intended to be proposed to the bill (S. 1731) supra; which was ordered to lie on the table.

SA 2488. Mr. STEVENS submitted an amendment intended to be proposed to amendment SA 2471 submitted by Mr. DASCHLE and intended to be proposed to the bill (S. 1731) supra; which was ordered to lie on the table.

SA 2489. Mr. STEVENS submitted an amendment intended to be proposed to amendment SA 2471 submitted by Mr. DASCHLE and intended to be proposed to the bill (S. 1731) supra; which was ordered to lie on the table.

SA 2490. Mr. STEVENS submitted an amendment intended to be proposed to amendment SA 2471 submitted by Mr. DASCHLE and intended to be proposed to the bill (S. 1731) supra; which was ordered to lie on the table.

SA 2491. Mr. SANTORUM submitted an amendment intended to be proposed to amendment SA 2471 submitted by Mr. DASCHLE and intended to be proposed to the bill (S. 1731) supra; which was ordered to lie on the table.

SA 2492. Mrs. MURRAY (for herself, Ms. CANTWELL, Mr. INOUE, Mr. BAUCUS, Mr. WELLSTONE, and Mr. DASCHLE) submitted an amendment intended to be proposed to amendment SA 2471 submitted by Mr. DASCHLE and intended to be proposed to the bill (S. 1731) supra; which was ordered to lie on the table.

SA 2493. Mrs. MURRAY (for herself, Ms. CANTWELL, Mr. INOUE, Mr. BAUCUS, Mr. WELLSTONE, and Mr. DASCHLE) submitted an amendment intended to be proposed to amendment SA 2471 submitted by Mr. DASCHLE and intended to be proposed to the bill (S. 1731) supra; which was ordered to lie on the table.

SA 2494. Mr. SMITH, of New Hampshire submitted an amendment intended to be proposed by him to the bill S. 1731, supra; which was ordered to lie on the table.

SA 2495. Mr. SMITH, of New Hampshire submitted an amendment intended to be pro-

posed by him to the bill S. 1731, supra; which was ordered to lie on the table.

SA 2496. Mr. SANTORUM (for himself, Mr. DURBIN, and Mr. FEINGOLD) submitted an amendment intended to be proposed to amendment SA 2471 submitted by Mr. DASCHLE and intended to be proposed to the bill (S. 1731) supra; which was ordered to lie on the table.

SA 2497. Mr. SMITH, of Oregon submitted an amendment intended to be proposed to amendment SA 2471 submitted by Mr. DASCHLE and intended to be proposed to the bill (S. 1731) supra; which was ordered to lie on the table.

SA 2498. Mr. SMITH, of Oregon submitted an amendment intended to be proposed to amendment SA 2471 submitted by Mr. DASCHLE and intended to be proposed to the bill (S. 1731) supra; which was ordered to lie on the table.

SA 2499. Mr. BYRD submitted an amendment intended to be proposed to amendment SA 2471 submitted by Mr. DASCHLE and intended to be proposed to the bill (S. 1731) supra; which was ordered to lie on the table.

SA 2500. Mrs. FEINSTEIN submitted an amendment intended to be proposed to amendment SA 2471 submitted by Mr. DASCHLE and intended to be proposed to the bill (S. 1731) supra; which was ordered to lie on the table.

SA 2501. Mrs. FEINSTEIN submitted an amendment intended to be proposed to amendment SA 2471 submitted by Mr. DASCHLE and intended to be proposed to the bill (S. 1731) supra; which was ordered to lie on the table.

SA 2502. Mr. DOMENICI (for himself, Mr. CRAIG, Mr. BURNS, Mr. CRAPO, Mrs. HUTCHISON, Mr. ENZI, Mr. THOMAS, Mr. KYL, Mr. SMITH, of Oregon, Mr. HATCH, Mr. ALLARD, and Mr. CAMPBELL) proposed an amendment to amendment SA 2471 submitted by Mr. DASCHLE and intended to be proposed to the bill (S. 1731) supra.

SA 2503. Mr. REID (for Mr. KENNEDY (for himself, Mr. WARNER, Mr. FRIST, Mrs. CLINTON, Mr. WELLSTONE, Ms. COLLINS, Mrs. MURRAY, and Mr. DOMENICI)) proposed an amendment to the bill S. 1729, to provide assistance with respect to the mental health needs of individuals affected by the terrorist attacks of September 11, 2001.

SA 2504. Mr. LEVIN submitted an amendment intended to be proposed to amendment SA 2471 submitted by Mr. DASCHLE and intended to be proposed to the bill (S. 1731) to strengthen the safety net for agricultural producers, to enhance resource conservation and rural development, to provide for farm credit, agricultural research, nutrition, and related programs, to ensure consumers abundant food and fiber, and for other purposes; which was ordered to lie on the table.

SA 2505. Mr. LEVIN submitted an amendment intended to be proposed to amendment SA 2471 submitted by Mr. DASCHLE and intended to be proposed to the bill (S. 1731) supra; which was ordered to lie on the table.

SA 2506. Mr. LEVIN submitted an amendment intended to be proposed to amendment SA 2471 submitted by Mr. DASCHLE and intended to be proposed to the bill (S. 1731) supra; which was ordered to lie on the table.

SA 2507. Mr. LEVIN submitted an amendment intended to be proposed to amendment SA 2471 submitted by Mr. DASCHLE and intended to be proposed to the bill (S. 1731) supra; which was ordered to lie on the table.

SA 2508. Mr. LEVIN submitted an amendment intended to be proposed to amendment SA 2471 submitted by Mr. DASCHLE and intended to be proposed to the bill (S. 1731) supra; which was ordered to lie on the table.

SA 2509. Mr. GRAMM submitted an amendment intended to be proposed by him to the bill S. 1731, *supra*; which was ordered to lie on the table.

SA 2510. Mr. GRAMM submitted an amendment intended to be proposed by him to the bill S. 1731, *supra*; which was ordered to lie on the table.

SA 2511. Mr. DASCHLE (for himself and Mr. LUGAR) proposed an amendment to amendment SA 2471 submitted by Mr. DASCHLE and intended to be proposed to the bill (S. 1731) *supra*.

SA 2512. Mr. CRAIG (for himself and Mr. GREGG) proposed an amendment to amendment SA 2511 submitted by Mr. DASCHLE and intended to be proposed to the amendment SA 2471 proposed by Mr. DASCHLE to the bill (S. 1731) *supra*.

SA 2513. Mr. BOND (for himself, Mr. GRASSLEY, Mr. ENZI, Mr. HAGEL, and Mr. MILLER) proposed an amendment to amendment SA 2471 submitted by Mr. DASCHLE and intended to be proposed to the bill (S. 1731) *supra*.

SA 2514. Mr. SMITH, of Oregon submitted an amendment intended to be proposed to amendment SA 2471 submitted by Mr. DASCHLE and intended to be proposed to the bill (S. 1731) *supra*; which was ordered to lie on the table.

SA 2515. Mr. REID (for Mr. LIEBERMAN) proposed an amendment to the bill H.R. 1499, An act to amend the District of Columbia College Access Act of 1999 to permit individuals who enroll in an institution of higher education more than 3 years after graduating from a secondary school and individuals who attend private historically black colleges and universities nationwide to participate in the tuition assistance programs under such Act, and for other purposes.

TEXT OF AMENDMENTS

SA 2481. Mr. ALLEN submitted an amendment intended to be proposed to amendment SA 2471 submitted by Mr. DASCHLE and intended to be proposed to the bill (S. 1731) to strengthen the safety net for agricultural producers, to enhance resource conservation and rural development, to provide for farm credit, agricultural research, nutrition, and related programs, to ensure consumers abundant food and fiber, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SECTION 1. SHORT TITLE.

This Act may be cited as the "Homestead Preservation Act".

SEC. 2. MORTGAGE PAYMENT ASSISTANCE.

(a) **ESTABLISHMENT OF PROGRAM.**—The Secretary of Labor (referred to in this section as the "Secretary") shall establish a program under which the Secretary shall award low-interest loans to eligible individuals to enable such individuals to continue to make mortgage payments with respect to the primary residences of such individuals.

(b) **ELIGIBILITY.**—To be eligible to receive a loan under the program established under subsection (a), an individual shall—

(1) be—
(A) an adversely affected worker who is receiving benefits under chapter 2 of title II of the Trade Act of 1974 (19 U.S.C. 2271 et seq.); or

(B) an individual who would be an individual described in subparagraph (A) but who

resides in a State that has not entered into an agreement under section 239 of such Act (19 U.S.C. 2311);

(2) be a borrower under a loan which requires the individual to make monthly mortgage payments with respect to the primary place of residence of the individual; and

(3) be enrolled in a job training or job assistance program.

(c) **LOAN REQUIREMENTS.**—

(1) **IN GENERAL.**—A loan provided to an eligible individual under this section shall—

(A) be for a period of not to exceed 12 months;

(B) be for an amount that does not exceed the sum of—

(i) the amount of the monthly mortgage payment owed by the individual; and

(ii) the number of months for which the loan is provided;

(C) have an applicable rate of interest that equals 4 percent;

(D) require repayment as provided for in subsection (d); and

(E) be subject to such other terms and conditions as the Secretary determines appropriate.

(2) **ACCOUNT.**—A loan awarded to an individual under this section shall be deposited into an account from which a monthly mortgage payment will be made in accordance with the terms and conditions of such loan.

(d) **REPAYMENT.**—

(1) **IN GENERAL.**—An individual to which a loan has been awarded under this section shall be required to begin making repayments on the loan on the earlier of—

(A) the date on which the individual has been employed on a full-time basis for 6 consecutive months; or

(B) the date that is 1 year after the date on which the loan has been approved under this section.

(2) **REPAYMENT PERIOD AND AMOUNT.**—

(A) **REPAYMENT PERIOD.**—A loan awarded under this section shall be repaid on a monthly basis over the 5-year period beginning on the date determined under paragraph (1).

(B) **AMOUNT.**—The amount of the monthly payment described in subparagraph (A) shall be determined by dividing the total amount provided under the loan (plus interest) by 60.

(C) **RULE OF CONSTRUCTION.**—Nothing in this paragraph shall be construed to prohibit an individual from—

(i) paying off a loan awarded under this section in less than 5 years; or

(ii) from paying a monthly amount under such loan in excess of the monthly amount determined under subparagraph (B) with respect to the loan.

(e) **REGULATIONS.**—Not later than 6 weeks after the date of enactment of this Act, the Secretary shall promulgate regulations necessary to carry out this section, including regulations that permit an individual to certify that the individual is an eligible individual under subsection (b).

(f) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated to carry out this section, \$10,000,000 for each of fiscal years 2003 through 2007.

SA 2482. Mr. ALLEN submitted an amendment intended to be proposed by him to the bill S. 1731, to strengthen the safety net for agricultural producers, to enhance resource conservation and rural development, to provide for farm credit, agricultural research, nutrition, and related programs, to ensure consumers abundant food and

fiber, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SECTION 1. SHORT TITLE.

This Act may be cited as the "Homestead Preservation Act".

SEC. 2. MORTGAGE PAYMENT ASSISTANCE.

(a) **ESTABLISHMENT OF PROGRAM.**—The Secretary of Labor (referred to in this section as the "Secretary") shall establish a program under which the Secretary shall award low-interest loans to eligible individuals to enable such individuals to continue to make mortgage payments with respect to the primary residences of such individuals.

(b) **ELIGIBILITY.**—To be eligible to receive a loan under the program established under subsection (a), an individual shall—

(1) be—

(A) an adversely affected worker who is receiving benefits under chapter 2 of title II of the Trade Act of 1974 (19 U.S.C. 2271 et seq.); or

(B) an individual who would be an individual described in subparagraph (A) but who resides in a State that has not entered into an agreement under section 239 of such Act (19 U.S.C. 2311);

(2) be a borrower under a loan which requires the individual to make monthly mortgage payments with respect to the primary place of residence of the individual; and

(3) be enrolled in a job training or job assistance program.

(c) **LOAN REQUIREMENTS.**—

(1) **IN GENERAL.**—A loan provided to an eligible individual under this section shall—

(A) be for a period of not to exceed 12 months;

(B) be for an amount that does not exceed the sum of—

(i) the amount of the monthly mortgage payment owed by the individual; and

(ii) the number of months for which the loan is provided;

(C) have an applicable rate of interest that equals 4 percent;

(D) require repayment as provided for in subsection (d); and

(E) be subject to such other terms and conditions as the Secretary determines appropriate.

(2) **ACCOUNT.**—A loan awarded to an individual under this section shall be deposited into an account from which a monthly mortgage payment will be made in accordance with the terms and conditions of such loan.

(d) **REPAYMENT.**—

(1) **IN GENERAL.**—An individual to which a loan has been awarded under this section shall be required to begin making repayments on the loan on the earlier of—

(A) the date on which the individual has been employed on a full-time basis for 6 consecutive months; or

(B) the date that is 1 year after the date on which the loan has been approved under this section.

(2) **REPAYMENT PERIOD AND AMOUNT.**—

(A) **REPAYMENT PERIOD.**—A loan awarded under this section shall be repaid on a monthly basis over the 5-year period beginning on the date determined under paragraph (1).

(B) **AMOUNT.**—The amount of the monthly payment described in subparagraph (A) shall be determined by dividing the total amount provided under the loan (plus interest) by 60.

(C) **RULE OF CONSTRUCTION.**—Nothing in this paragraph shall be construed to prohibit an individual from—

(i) paying off a loan awarded under this section in less than 5 years; or

(ii) from paying a monthly amount under such loan in excess of the monthly amount determined under subparagraph (B) with respect to the loan.

(e) REGULATIONS.—Not later than 6 weeks after the date of enactment of this Act, the Secretary shall promulgate regulations necessary to carry out this section, including regulations that permit an individual to certify that the individual is an eligible individual under subsection (b).

(f) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section, \$10,000,000 for each of fiscal years 2003 through 2007.

SA 2483. Mr. CLELAND submitted an amendment intended to be proposed by him to the bill S. 1650, to amend the Public Health Service Act to change provisions regarding emergencies; which was referred to the Committee on Health, Education, Labor, and Pensions; as follows:

At the end of the bill, add the following:

SEC. ____ . PUBLIC HEALTH EMERGENCIES.

(a) SHORT TITLE.—This section may be cited as the “Public Health Emergencies Accountability Act”.

(b) AMENDMENT.—Part B of title III of the Public Health Service Act (42 U.S.C. 243 et seq.) is amended by striking section 319 and inserting the following:

“SEC. 319. PUBLIC HEALTH EMERGENCIES.

“(a) EMERGENCIES.—If the Secretary determines, after consultation with the Director of the Centers for Disease Control and Prevention and other public health officials as may be necessary, that—

“(1) a disease or disorder presents a public health emergency; or

“(2) a detected or suspected public health emergency, including significant outbreaks of infectious diseases or terrorist attacks involving biological, chemical, or radiological weapons, otherwise exists,

the Secretary may take such action as may be appropriate to respond to the public health emergency, including making grants and entering into contracts and, acting through the Centers for Disease Control and Prevention, conducting and supporting investigations into cause, treatment, or prevention of a disease or disorder as described in paragraphs (1) and (2), directing the response of other Federal departments and agencies with respect to the safety of the general public and Federal employees and facilities, and disseminating necessary information to assist States, localities, and the general public in responding to a disease or disorder as described in paragraphs (1) and (2).

“(b) DETERMINATION.—A determination of an emergency by the Secretary under subsection (a) shall supersede all other provisions of law with respect to actions and responsibilities of the Federal Government, but in all such cases the Secretary shall keep the relevant Federal departments and agencies, including but not limited to the Department of Justice, the Federal Bureau of Investigation, the Office of Homeland Security, and the committees of Congress listed in subsection (f), fully and currently informed.

“(c) FULL DISCLOSURE.—In cases involving, or potentially involving, a public health emergency, but where no determination of an emergency by the Secretary, under the provisions of subsection (a), has been made, all relevant Federal departments and agen-

cies, including but not limited to the Department of Justice, the Federal Bureau of Investigation, the Office of Homeland Security, shall keep the Secretary and the Centers for Disease Control and Prevention and the committees of Congress listed in subsection (f), fully and currently informed.

“(d) PUBLIC HEALTH EMERGENCY FUND.—

“(1) IN GENERAL.—There is established in the Treasury a fund to be designated as the “Public Health Emergency Fund” to be made available to the Secretary without fiscal year limitation to carry out subsection (a) only if a public health emergency has been declared by the Secretary under such subsection. There is authorized to be appropriated to the Fund such sums as may be necessary.

“(2) REPORT.—Not later than 90 days after the end of each fiscal year, the Secretary shall prepare and submit to the Committee on Health, Education, Labor, and Pensions and the Committee on Appropriations of the Senate and the Committee on Commerce and the Committee on Appropriations of the House of Representatives a report describing—

“(A) the expenditures made from the Public Health Emergency Fund in such fiscal year; and

“(B) each public health emergency for which the expenditures were made and the activities undertaken with respect to each emergency which was conducted or supported by expenditures from the Fund.

“(e) SUPPLEMENT NOT SUPPLANT.—Funds appropriated under this section shall be used to supplement and not supplant other Federal, State, and local public funds provided for activities under this section.

“(f) EMERGENCY DECLARATION PERIOD.—A determination by the Secretary under subsection (a) that a public health emergency exists shall remain in effect for a time period specified by the Secretary but not longer than the 180-day period beginning on the date of the determination. Such period may be extended by the Secretary if the Secretary determines that such an extension is appropriate and notifies the Committee on Health, Education, Labor, and Pensions of the Senate and the Committee on Appropriations of the Senate and the Committee on Commerce of the House of Representatives and the Committee on Appropriations of the House of Representatives.”.

SA 2484. Mr. CLELAND submitted an amendment intended to be proposed by him to the bill S. 1765, to improve the ability of the United States to prepare for and respond to a biological threat or attack; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. ____ . DEVELOPMENT OF CAMPUSES OF THE CENTERS FOR DISEASE CONTROL AND PREVENTION.

Section 319D of the Public Health Service Act (42 U.S.C. 274d-4), as amended by section 202, is further amended by adding at the end the following:

“(d) DEVELOPMENT OF CAMPUSES OF THE CENTERS FOR DISEASE CONTROL AND PREVENTION.—

“(1) IN GENERAL.—Notwithstanding the provisions of the Public Buildings Act of 1959 (40 U.S.C. 601 et seq), or any other provision of law inconsistent with this subsection other than Federal environmental and historic preservation laws, the Secretary, in order to relocate the Centers for Disease

Control and Prevention’s public health research, policy making, and administrative operations that are housed on the date of enactment of this title in various leased properties, may enter into leases with any public or private person or entity to develop or facilitate the development of real property that is under the jurisdiction or control of the Secretary at the Edward R. Roybal and Chamblee Campuses of the Centers for Disease Control and Prevention in Atlanta, Georgia. Any such lease shall be referred to as a ‘cooperative development lease’.

“(2) PRE-LEASE REQUIREMENTS.—

“(A) IN GENERAL.—The Secretary may not enter into a cooperative development lease under this subsection until—

“(i) the Secretary submits to the appropriate committees of Congress a business plan for the development of the Edward R. Roybal and Chamblee Campuses;

“(ii) the expiration of the 30-day period beginning on the date on which the business plan is received by such committees; and

“(iii) the Secretary has conducted 2 public meetings, 1 of which shall be held at or near the Edward R. Roybal Campus, and the other of which shall be held at or near the Chamblee Campus, for purposes of informing the local community of the pending cooperative development lease proposal.

“(B) CONTENTS OF BUSINESS PLANS.—A business plan submitted under subparagraph (A) shall include the following information:

“(i) The Proposed location of the building as shown on a campus site plan.

“(ii) The gross and net usable square feet of the building and adjacent parking areas and structures.

“(iii) The proposed organizational units and personnel of the Centers for Disease Control and Prevention to be housed in the building.

“(iv) The estimated design, construction, and financing costs and terms of the building.

“(v) A projected milestone schedule for the design, construction, and occupancy of the building.

“(C) NOTICE.—The Secretary shall provide reasonable notice of the public meetings under subparagraph (A)(iii) in a newspaper of local circulation, and by other means as necessary, at least 15 days in advance of the meetings.

“(D) DEFINITION.—In subparagraph (A), the term ‘appropriate committees of Congress’ means the authorizing and appropriations committees for the Department of Health and Human Services.

“(3) PROPERTY NOT UNUTILIZED OR UNDERUTILIZED.—Property that is leased to another party under a cooperative development lease may not be considered to be unutilized or underutilized for purposes of Section 501 of the Stewart B. McKinney Homeless Assistance Act.

“(4) SELECTION PROCESS.—In awarding a cooperative development lease, the Secretary shall use selection procedures determined appropriate by the Secretary that ensure the integrity of the selection process.

“(5) TERM OF LEASE.—The term of a cooperative development lease may not exceed 50 years.

“(6) CONSIDERATION.—Any cooperative development lease shall be for fair consideration, as determined appropriate by the Secretary. Consideration under such a lease may be provided in whole or in part through consideration-in-kind. Such consideration-in-kind may include the provision of goods or services that are of benefit to the Centers for Disease Control and Prevention, including

construction, repair and improvements, and maintenance of property and improvements of the Centers, or the provision of office, storage, or other usable space.

“(7) SPECIFICATIONS FOR LEASE.—The specifications of a cooperative development lease may provide that the Secretary will—

“(A) obtain facilities, space, or services on the leased property under such terms as the Secretary considers appropriate to protect the interests of the United States and to promote the purposes of this section;

“(B) use appropriated funds for any payments, including rental of space, and for capital contribution payments applicable to the operation, maintenance, and security of real property, personal property, or facilities on the leased property; and

“(C) provide any service determined by the Secretary to be a service that supports the operation, maintenance, and security of real property, personal property, or facilities on the leased property.

“(8) CONSTRUCTION STANDARDS.—

“(A) IN GENERAL.—Unless other provided for by the Secretary, the construction, alteration, repair, remodeling, or improvement of the property that is the subject of a cooperative development lease shall be carried out so as to comply with all standards applicable to Federal buildings. Any such construction, alteration, repair, remodeling, or improvement shall not be subject to any State or local law relating to building codes, permits, or inspections unless otherwise applicable to Federal buildings or unless the Secretary provides otherwise.

“(B) INSPECTIONS.—If Federal construction standards are applicable to a property under this subsection, the Secretary shall conduct periodic inspections of any such construction, alteration, repair, remodeling, or improvement for the purpose of ensuring that such standards are complied with.

“(9) APPLICABILITY OF STATE OR LOCAL LAWS.—The interest of the United States in any property subject to a cooperative development lease, and any use by the United States of such property during such lease, shall not be subject, directly or indirectly, to any State or local law relative to taxation, fees, assessments, or special assessments, except sales tax charged in connection with any construction, alteration, repair, remodeling, or improvement project carried out under the lease.

“(10) TREATMENT AS OPERATING LEASE.—A cooperative development lease shall be considered an operating lease in accordance with the Budget Enforcement Act of 1990, if the term of legal obligation of the Centers for Disease Control and Prevention under the lease does not exceed 75 percent of the estimated economic life of the asset or assets that are subject to the lease, and the present value of the Centers' legal obligation during any lease term does not exceed 90 percent of the market value of such asset or assets at the beginning of the lease.

“(11) EXPIRATION.—The authority of the Secretary to enter into cooperative development leases under this subsection shall expire on September 30, 2009.”.

SA 2485. Mr. TORRICELLI (for himself and Mr. REID) submitted an amendment intended to be proposed by him to the bill S. 1731, to strengthen the safety net for agricultural producers, to enhance resource conservation and rural development, to provide for farm credit, agricultural research, nutrition, and related programs, to ensure con-

sumers abundant food and fiber, and for other purposes; which was ordered to lie on the table; as follows:

Strike the period at the end of subtitle C of title X and insert a period and the following:

SEC. 10. PEST MANAGEMENT IN SCHOOLS.

(a) SHORT TITLE.—This section may be cited as the “School Environment Protection Act of 2001”.

(b) PEST MANAGEMENT.—The Federal Insecticide, Fungicide, and Rodenticide Act is amended—

(1) by redesignating sections 33 and 34 (7 U.S.C. 136x, 136y) as sections 34 and 35, respectively; and

(2) by inserting after section 32 (7 U.S.C. 136w–7) the following:

“SEC. 33. PEST MANAGEMENT IN SCHOOLS.

“(a) DEFINITIONS.—In this section:

“(1) BAIT.—The term ‘bait’ means a pesticide that contains an ingredient that serves as a feeding stimulant, odor, pheromone, or other attractant for a target pest.

“(2) CONTACT PERSON.—The term ‘contact person’ means an individual who is—

“(A) knowledgeable about school pest management plans; and

“(B) designated by a local educational agency to carry out implementation of the school pest management plan of a school.

“(3) EMERGENCY.—The term ‘emergency’ means an urgent need to mitigate or eliminate a pest that threatens the health or safety of a student or staff member.

“(4) LOCAL EDUCATIONAL AGENCY.—The term ‘local educational agency’ has the meaning given the term in section 3 of the Elementary and Secondary Education Act of 1965.

“(5) SCHOOL.—

“(A) IN GENERAL.—The term ‘school’ means a public—

“(i) elementary school (as defined in section 3 of the Elementary and Secondary Education Act of 1965);

“(ii) secondary school (as defined in section 3 of that Act);

“(iii) kindergarten or nursery school that is part of an elementary school or secondary school; or

“(iv) tribally-funded school.

“(B) INCLUSIONS.—The term ‘school’ includes any school building, and any area outside of a school building (including a lawn, playground, sports field, and any other property or facility), that is controlled, managed, or owned by the school or school district.

“(6) SCHOOL PEST MANAGEMENT PLAN.—The term ‘school pest management plan’ means a pest management plan developed under subsection (b).

“(7) STAFF MEMBER.—

“(A) IN GENERAL.—The term ‘staff member’ means a person employed at a school or local educational agency.

“(B) EXCLUSIONS.—The term ‘staff member’ does not include—

“(i) a person hired by a school, local educational agency, or State to apply a pesticide; or

“(ii) a person assisting in the application of a pesticide.

“(8) STATE AGENCY.—The term ‘State agency’ means the an agency of a State, or an agency of an Indian tribe or tribal organization (as those terms are defined in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b)), that exercises primary jurisdiction over matters relating to pesticide regulation.

“(9) UNIVERSAL NOTIFICATION.—The term ‘universal notification’ means notice pro-

vided by a local educational agency or school to—

“(A) parents, legal guardians, or other persons with legal standing as parents of each child attending the school; and

“(B) staff members of the school.

“(b) SCHOOL PEST MANAGEMENT PLANS.—

“(1) STATE PLANS.—

“(A) GUIDANCE.—As soon as practicable (but not later than 180 days) after the date of enactment of the School Environment Protection Act of 2001, the Administrator shall develop, in accordance with this section—

“(i) guidance for a school pest management plan; and

“(ii) a sample school pest management plan.

“(B) PLAN.—As soon as practicable (but not later than 1 year) after the date of enactment of the School Environment Protection Act of 2001, each State agency shall develop and submit to the Administrator for approval, as part of the State cooperative agreement under section 23, a school pest management plan for local educational agencies in the State.

“(C) COMPONENTS.—A school pest management plan developed under subparagraph (B) shall, at a minimum—

“(i) implement a system that—

“(I) eliminates or mitigates health risks, or economic or aesthetic damage, caused by pests;

“(II) employs—

“(aa) integrated methods;

“(bb) site or pest inspection;

“(cc) pest population monitoring; and

“(dd) an evaluation of the need for pest management; and

“(III) is developed taking into consideration pest management alternatives (including sanitation, structural repair, and mechanical, biological, cultural, and pesticide strategies) that minimize health and environmental risks;

“(ii) require, for pesticide applications at the school, universal notification to be provided—

“(I) at the beginning of the school year;

“(II) at the midpoint of the school year; and

“(III) at the beginning of any summer session, as determined by the school;

“(iii) establish a registry of staff members of a school, and of parents, legal guardians, or other persons with legal standing as parents of each child attending the school, that have requested to be notified in advance of any pesticide application at the school;

“(iv) establish guidelines that are consistent with the definition of a school pest management plan under subsection (a);

“(v) require that each local educational agency use a certified applicator or a person authorized by the State agency to implement the school pest management plans;

“(vi) be consistent with the State cooperative agreement under section 23; and

“(vii) require the posting of signs in accordance with paragraph (4)(G).

“(D) APPROVAL BY ADMINISTRATOR.—Not later than 90 days after receiving a school pest management plan submitted by a State agency under subparagraph (B), the Administrator shall—

“(i) determine whether the school pest management plan, at a minimum, meets the requirements of subparagraph (C); and

“(ii)(I) if the Administrator determines that the school pest management plan meets the requirements, approve the school pest management plan as part of the State cooperative agreement; or

“(II) if the Administrator determines that the school pest management plan does not meet the requirements—

“(aa) disapprove the school pest management plan;

“(bb) provide the State agency with recommendations for and assistance in revising the school pest management plan to meet the requirements; and

“(cc) provide a 90-day deadline by which the State agency shall resubmit the revised school pest management plan to obtain approval of the plan, in accordance with the State cooperative agreement.

“(E) DISTRIBUTION OF STATE PLAN TO SCHOOLS.—On approval of the school pest management plan of a State agency, the State agency shall make the school pest management plan available to each local educational agency in the State.

“(F) EXCEPTION FOR EXISTING STATE PLANS.—If, on the date of enactment of the School Environment Protection Act of 2001, a State has implemented a school pest management plan that, at a minimum, meets the requirements under subparagraph (C) (as determined by the Administrator), the State agency may maintain the school pest management plan and shall not be required to develop a new school pest management plan under subparagraph (B).

“(2) IMPLEMENTATION BY LOCAL EDUCATIONAL AGENCIES.—

“(A) IN GENERAL.—Not later than 1 year after the date on which a local educational agency receives a copy of a school pest management plan of a State agency under paragraph (1)(E), the local educational agency shall develop and implement in each of the schools under the jurisdiction of the local educational agency a school pest management plan that meets the standards and requirements under the school pest management plan of the State agency, as determined by the Administrator.

“(B) EXCEPTION FOR EXISTING PLANS.—If, on the date of enactment of the School Environment Protection Act of 2001, a State maintains a school pest management plan that, at a minimum, meets the standards and criteria established under this section (as determined by the Administrator), and a local educational agency in the State has implemented the State school pest management plan, the local educational agency may maintain the school pest management plan and shall not be required to develop and implement a new school pest management plan under subparagraph (A).

“(C) APPLICATION OF PESTICIDES AT SCHOOLS.—A school pest management plan shall prohibit—

“(i) the application of a pesticide (other than a pesticide, including a bait, gel or paste, described in paragraph (4)(C)) to any area or room at a school while the area or room is occupied or in use by students or staff members (except students or staff members participating in regular or vocational agricultural instruction involving the use of pesticides); and

“(ii) the use by students or staff members of an area or room treated with a pesticide by broadcast spraying, baseboard spraying, tenting, or fogging during—

“(I) the period specified on the label of the pesticide during which a treated area or room should remain unoccupied; or

“(II) if there is no period specified on the label, the 24-hour period beginning at the end of the treatment.

“(3) CONTACT PERSON.—

“(A) IN GENERAL.—Each local educational agency shall designate a contact person to

carry out a school pest management plan in schools under the jurisdiction of the local educational agency.

“(B) DUTIES.—The contact person of a local educational agency shall—

“(i) maintain information about the scheduling of pesticide applications in each school under the jurisdiction of the local educational agency;

“(ii) act as a contact for inquiries, and disseminate information requested by parents or guardians, about the school pest management plan;

“(iii) maintain and make available to parents, legal guardians, or other persons with legal standing as parents of each child attending the school, before and during the notice period and after application—

“(I) copies of material safety data sheet for pesticides applied at the school, or copies of material safety data sheets for end-use dilutions of pesticides applied at the school, if data sheets are available;

“(II) labels and fact sheets approved by the Administrator for all pesticides that may be used by the local educational agency; and

“(III) any final official information related to the pesticide, as provided to the local educational agency by the State agency; and

“(iv) for each school, maintain all pesticide use data for each pesticide used at the school (other than antimicrobial pesticides (as defined in clauses (i) and (ii) of section 2(mm)(1)(A))) for at least 3 years after the date on which the pesticide is applied; and

“(v) make that data available for inspection on request by any person.

“(4) NOTIFICATION.—

“(A) UNIVERSAL NOTIFICATION.—At the beginning of each school year, at the midpoint of each school year, and at the beginning of any summer session (as determined by the school), a local educational agency or school shall provide to staff members of a school, and to parents, legal guardians, and other persons with legal standing as parents of students enrolled at the school, a notice describing the school pest management plan that includes—

“(i) a summary of the requirements and procedures under the school pest management plan;

“(ii) a description of any potential pest problems that the school may experience (including a description of the procedures that may be used to address those problems);

“(iii) the address, telephone number, and website address of the Office of Pesticide Programs of the Environmental Protection Agency; and

“(iv) the following statement (including information to be supplied by the school as indicated in brackets):

‘As part of a school pest management plan, _____ (insert school name) may use pesticides to control pests. The Environmental Protection Agency (EPA) and _____ (insert name of State agency exercising jurisdiction over pesticide registration and use) registers pesticides for that use. EPA continues to examine registered pesticides to determine that use of the pesticides in accordance with instructions printed on the label does not pose unreasonable risks to human health and the environment. Nevertheless, EPA cannot guarantee that registered pesticides do not pose risks, and unnecessary exposure to pesticides should be avoided. Based in part on recommendations of a 1993 study by the National Academy of Sciences that reviewed registered pesticides and their potential to cause unreasonable adverse effects on human health, particularly on the health of pregnant women, infants,

and children, Congress enacted the Food Quality Protection Act of 1996. That law requires EPA to reevaluate all registered pesticides and new pesticides to measure their safety, taking into account the unique exposures and sensitivity that pregnant women, infants, and children may have to pesticides. EPA review under that law is ongoing. You may request to be notified at least 24 hours in advance of pesticide applications to be made and receive information about the applications by registering with the school. Certain pesticides used by the school (including baits, pastes, and gels) are exempt from notification requirements. If you would like more information concerning any pesticide application or any product used at the school, contact _____ (insert name and phone number of contact person).’

“(B) NOTIFICATION TO PERSONS ON REGISTRY.—

“(i) IN GENERAL.—Except as provided in clause (ii) and paragraph (5)—

“(I) notice of an upcoming pesticide application at a school shall be provided to each person on the registry of the school not later than 24 hours before the end of the last business day during which the school is in session that precedes the day on which the application is to be made; and

“(II) the application of a pesticide for which a notice is given under subclause (I) shall not commence before the end of the business day.

“(ii) NOTIFICATION CONCERNING PESTICIDES USED IN CURRICULA.—If pesticides are used as part of a regular vocational agricultural curriculum of the school, a notice containing the information described in subclauses (I), (IV), (VI), and (VII) of clause (iii) for all pesticides that may be used as a part of that curriculum shall be provided to persons on the registry only once at the beginning of each academic term of the school.

“(iii) CONTENTS OF NOTICE.—A notice under clause (i) shall contain—

“(I) the trade name, common name (if applicable), and Environmental Protection Agency registration number of each pesticide to be applied;

“(II) a description of each location at the school at which a pesticide is to be applied;

“(III) a description of the date and time of application, except that, in the case of an outdoor pesticide application, a notice shall include at least 3 dates, in chronological order, on which the outdoor pesticide application may take place if the preceding date is canceled;

“(IV) information that the State agency shall provide to the local educational agency, including a description of potentially acute and chronic effects that may result from exposure to each pesticide to be applied based on—

“(aa) a description of potentially acute and chronic effects that may result from exposure to each pesticide to be applied, as stated on the label of the pesticide approved by the Administrator;

“(bb) information derived from the material safety data sheet for the end-use dilution of the pesticide to be applied (if available) or the material safety data sheets; and

“(cc) final, official information related to the pesticide prepared by the Administrator and provided to the local educational agency by the State agency;

“(V) a description of the purpose of the application of the pesticide;

“(VI) the address, telephone number, and website address of the Office of Pesticide Programs of the Environmental Protection Agency; and

“(VII) the statement described in subparagraph (A)(iv) (other than the ninth sentence of that statement).

“(C) NOTIFICATION AND POSTING EXEMPTION.—A notice or posting of a sign under subparagraph (A), (B), or (G) shall not be required for the application at a school of—

“(i) an antimicrobial pesticide;

“(ii) a bait, gel, or paste that is placed—

“(I) out of reach of children or in an area that is not accessible to children; or

“(II) in a tamper-resistant or child-resistant container or station; and

“(iii) any pesticide that, as of the date of enactment of the School Environment Protection Act of 2001, is exempt from the requirements of this Act under section 25(b) (including regulations promulgated at section 152 of title 40, Code of Federal Regulations (or any successor regulation)).

“(D) NEW STAFF MEMBERS AND STUDENTS.—After the beginning of each school year, a local educational agency or school within a local educational agency shall provide each notice required under subparagraph (A) to—

“(i) each new staff member who is employed during the school year; and

“(ii) the parent or guardian of each new student enrolled during the school year.

“(E) METHOD OF NOTIFICATION.—A local educational agency or school may provide a notice under this subsection, using information described in paragraph (4), in the form of—

“(i) a written notice sent home with the students and provided to staff members;

“(ii) a telephone call;

“(iii) direct contact;

“(iv) a written notice mailed at least 1 week before the application; or

“(v) a notice delivered electronically (such as through electronic mail or facsimile).

“(F) REISSUANCE.—If the date of the application of the pesticide needs to be extended beyond the period required for notice under this paragraph, the school shall issue a notice containing only the new date and location of application.

“(G) POSTING OF SIGNS.—

“(i) IN GENERAL.—Except as provided in paragraph (5)—

“(I) a school shall post a sign not later than the last business day during which school is in session preceding the date of application of a pesticide at the school; and

“(II) the application for which a sign is posted under subclause (I) shall not commence before the time that is 24 hours after the end of the business day on which the sign is posted.

“(ii) LOCATION.—A sign shall be posted under clause (i)—

“(I) at a central location noticeable to individuals entering the building; and

“(II) at the proposed site of application.

“(iii) ADMINISTRATION.—A sign required to be posted under clause (i) shall—

“(I) remain posted for at least 24 hours after the end of the application;

“(II) be—

“(aa) at least 8½ inches by 11 inches for signs posted inside the school; and

“(bb) at least 4 inches by 5 inches for signs posted outside the school; and

“(III) contain—

“(aa) information about the pest problem for which the application is necessary;

“(bb) the name of each pesticide to be used;

“(cc) the date of application;

“(dd) the name and telephone number of the designated contact person; and

“(ee) the statement contained in subparagraph (A)(iv).

“(iv) OUTDOOR PESTICIDE APPLICATIONS.—

“(I) IN GENERAL.—In the case of an outdoor pesticide application at a school, each sign shall include at least 3 dates, in chronological order, on which the outdoor pesticide application may take place if the preceding date is canceled.

“(II) DURATION OF POSTING.—A sign described in subclause (I) shall be posted after an outdoor pesticide application in accordance with clauses (ii) and (iii).

“(5) EMERGENCIES.—

“(A) IN GENERAL.—A school may apply a pesticide at the school without complying with this part in an emergency, subject to subparagraph (B).

“(B) SUBSEQUENT NOTIFICATION OF PARENTS, GUARDIANS, AND STAFF MEMBERS.—Not later than the earlier of the time that is 24 hours after a school applies a pesticide under this paragraph or on the morning of the next business day, the school shall provide to each parent or guardian of a student listed on the registry, a staff member listed on the registry, and the designated contact person, notice of the application of the pesticide in an emergency that includes—

“(i) the information required for a notice under paragraph (4)(G); and

“(ii) a description of the problem and the factors that required the application of the pesticide to avoid a threat to the health or safety of a student or staff member.

“(C) METHOD OF NOTIFICATION.—The school may provide the notice required by paragraph (B) by any method of notification described in paragraph (4)(E).

“(D) POSTING OF SIGNS.—Immediately after the application of a pesticide under this paragraph, a school shall post a sign warning of the pesticide application in accordance with clauses (ii) through (iv) of paragraph (4)(B).

“(c) RELATIONSHIP TO STATE AND LOCAL REQUIREMENTS.—Nothing in this section (including regulations promulgated under this section)—

“(1) precludes a State or political subdivision of a State from imposing on local educational agencies and schools any requirement under State or local law (including regulations) that is more stringent than the requirements imposed under this section; or

“(2) establishes any exception under, or affects in any other way, section 24(b).

“(d) EXCLUSION OF CERTAIN PEST MANAGEMENT ACTIVITIES.—Nothing in this section (including regulations promulgated under this section) applies to a pest management activity that is conducted—

“(1) on or adjacent to a school; and

“(2) by, or at the direction of, a State or local agency other than a local educational agency.

“(e) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated such sums as are necessary to carry out this section.”.

(c) CONFORMING AMENDMENT.—The table of contents in section 1(b) of the Federal Insecticide, Fungicide, and Rodenticide Act (7 U.S.C. prec. 121) is amended by striking the items relating to sections 30 through 32 and inserting the following:

“Sec. 30. Minimum requirements for training of maintenance applicators and service technicians.

“Sec. 31. Environmental Protection Agency minor use program.

“Sec. 32. Department of Agriculture minor use program.

“(a) In general.

“(b)(1) Minor use pesticide data.

“(2) Minor Use Pesticide Data Revolving Fund.

“Sec. 33. Pest management in schools.

“(a) Definitions.

“(1) Bait.

“(2) Contact person.

“(3) Emergency.

“(4) Local educational agency.

“(5) School.

“(6) Staff member.

“(7) State agency.

“(8) Universal notification.

“(b) School pest management plans.

“(1) State plans.

“(2) Implementation by local educational agencies.

“(3) Contact person.

“(4) Notification.

“(5) Emergencies.

“(c) Relationship to State and local requirements.

“(d) Exclusion of certain pest management activities.

“(e) Authorization of appropriations.

“Sec. 34. Severability.

“Sec. 35. Authorization of appropriations.”.

(d) EFFECTIVE DATE.—This section and the amendments made by this section take effect on October 1, 2001.

SA 2486. Mrs. MURRAY submitted an amendment intended to be proposed by her to the bill S. 1731, to strengthen the safety net for agricultural producers, to enhance resource conservation and rural development, to provide for farm credit, agricultural research, nutrition, and related programs, to ensure consumers abundant food and fiber, and for other purposes; which was ordered to lie on the table; as follows:

In section 605, in the matter proposed to be added to section 601 of the Rural Electrification Act of 1936, insert after subsection (i) the following new subsection (j):

“(j) GRANTS FOR PLANNING AND FEASIBILITY STUDIES ON BROADBAND DEPLOYMENT.—

“(1) IN GENERAL.—In addition to any other grants, loans, or loan guarantees made under this section, the Secretary shall make grants to eligible entities specified in paragraph (2) for planning and feasibility studies by such entities on the deployment of broadband services in the areas served by such entities.

“(2) ELIGIBLE ENTITIES.—The entities eligible for grants under this subsection are State governments, consortia of local governments, tribal governments, telecommunications cooperatives, and appropriate State and regional non-profit entities (as determined by the Secretary).

“(3) ELIGIBILITY CRITERIA.—The Secretary shall establish criteria for eligibility for grants under this subsection, including criteria for the scope of the planning and feasibility studies to be carried out with grants under this subsection.

“(4) APPLICATION.—An entity seeking a grant under this subsection shall submit to the Secretary an application for such grant. The application shall be in such form, and contain such information, as the Secretary shall require.

“(5) USE OF GRANT AMOUNTS.—An entity receiving a grant under this section shall use the grant amount for planning and feasibility studies on the deployment of broadband services in the area of an Indian tribe, State, region of a State, or region of States.

“(6) LIMITATION ON GRANT AMOUNTS.—

“(A) STATEWIDE GRANTS.—The amount of the grants made under this subsection in or with respect to any State in any fiscal year may not exceed \$250,000.

“(B) REGIONAL OR TRIBAL GRANTS.—The amount of the grants made under this subsection in or with respect to any region or tribal government in any fiscal year may not exceed \$100,000.

“(7) FUNDING.—

“(A) IN GENERAL.—Of the amount available for grants, loans, and loan guarantees under this section in any fiscal year, up to \$5,000,000 shall be available for grants under this subsection in such fiscal year.

“(B) DATE OF RELEASE.—The amount available under subparagraph (A) in a fiscal year for grants under this subsection may not be granted under this subsection until after March 31 of the fiscal year.

“(8) SUPPLEMENT NOT SUPPLANT.—Eligibility for a grant under this subsection shall not affect eligibility for a grant, loan, or loan guarantee under another subsection of this section. The Secretary shall not take into account the award of a grant under this subsection, or the award of a grant, loan, or loan guarantee under another subsection of this section, in awarding a grant, loan, or loan guarantee under this subsection or another subsection of this section, as the case may be.

SA 2487. Mr. STEVENS submitted an amendment intended to be proposed to amendment SA 2471 submitted by Mr. DASCHLE and intended to be proposed to the bill (S. 1731) to strengthen the safety net for agricultural producers, to enhance resource conservation and rural development, to provide for farm credit, agricultural research, nutrition, and related programs, to ensure consumers abundant food and fiber, and for other purposes; which was ordered to lie on the table; as follows:

Strike the period at the end of chapter 1 of subtitle C of title I and insert a period and the following:

SEC. 1. LOANS AND GRANTS TO IMPROVE MILK PROCESSING FACILITIES IN MILK SHORTAGE STATES.

Chapter 1 of subtitle D of title I of the Federal Agriculture Improvement and Reform Act of 1996 (7 U.S.C. 7251 et seq.) is amended by adding at the end the following:

“SEC. 153. LOANS AND GRANTS TO IMPROVE MILK PROCESSING FACILITIES IN MILK SHORTAGE STATES.

“(a) DEFINITION OF MILK SHORTAGE STATE.—In this section, the term ‘milk shortage State’ means a State in which at least 70 percent of the milk consumed in the State is produced outside the State on the date of enactment of this section.

“(b) LOANS; GRANTS.—The Secretary shall make loans and grants to milk shortage States to promote and expand milk processing facilities and the dairy industry in the milk shortage States.

“(c) USES.—A loan or grant under this section may be used—

“(1) to upgrade, design, and construct milk processing facilities;

“(2) to improve methods of packaging and delivering to market of Class I and Class II milk and milk products;

“(3) to purchase milk processing and related equipment; and

“(4) for such other uses as are approved by the Secretary.

“(d) ELIGIBILITY OF MILK PROCESSING FACILITIES.—To be eligible to obtain a loan or grant under this section (other than for a use described in subsection (c)(1)), a milk processing facility in a milk shortage State must be located, incorporated, and operating in the milk shortage State.

“(e) MAINTENANCE OF EFFORT.—The expenditure of funds by a milk shortage State or an eligible milk processing facility for the purposes described in subsection (c), as of January 1, 2001, shall not be diminished as a result of loans and grants made under this section.

“(f) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section \$5,000,000 for each of fiscal years 2002 through 2005.”.

SA 2488. Mr. STEVENS submitted an amendment intended to be proposed to amendment SA 2471 submitted by Mr. DASCHLE and intended to be proposed to the bill (S. 1731) to strengthen the safety net for agricultural producers, to enhance resource conservation and rural development, to provide for farm credit, agricultural research, nutrition, and related programs, to ensure consumers abundant food and fiber, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following new section:

SEC. . REPORT TO CONGRESS ON POUCHED AND CANNED SALMON.

Not later than 120 days from the date of enactment of this Act, the Secretary shall issue a report to Congress on efforts to expand the promotion, marketing and purchase of pouched and canned salmon harvested and processed in the United States within the food and nutrition programs under his jurisdiction. The report shall include: an analysis of existing pouched and canned salmon inventories in the United States available for purchase; an analysis of the demand for pouched and canned salmon as well as for value-added products such as salmon “nuggets” by the Department’s partners, including other appropriate Federal agencies, and customers; a marketing strategy to stimulate and increase that demand; and, a purchasing strategy to ensure that adequate supplies of pouched and canned salmon as well as other value-added salmon products are available to meet that demand.

SA 2489. Mr. STEVENS submitted an amendment intended to be proposed to amendment SA 2471 submitted by Mr. DASCHLE and intended to be proposed to the bill (S. 1731) to strengthen the safety net for agricultural producers, to enhance resource conservation and rural development, to provide for farm credit, agricultural research, nutrition, and related programs, to ensure consumers abundant food and fiber, and for other purposes; which was ordered to lie on the table; as follows:

Amendment 2471 is amended—

(1) on page 932, by inserting after line 5 the following:

“(9) WILD FISH.—The term “wild fish” includes naturally-born and hatchery-raised fish and shellfish harvested in the wild, including fillets, steaks, nuggets, and any other flesh from wild fish or shellfish, and does not include net-pen aquaculture or other farm-raised fish”;

(2) on page 932, line 22 by inserting “(I)” after “(B)”;

(3) on page 932, by inserting after line 23 the following:

“(II) in the case of wild fish, is harvested in waters of the United States, its territories, or a State and is processed in the United

States, its territories, or a State, including the waters thereof; and”;

(4) on page 933, by inserting after line 3 the following:

“(3) WILD AND FARM-RAISED FISH.—The notice of country of origin for wild fish and farm-raised fish shall distinguish between wild fish and farm-raised fish, and in the case of wild salmon shall indicate State of origin.”.

SA 2490. Mr. STEVENS submitted an amendment intended to be proposed to amendment SA 2471 submitted by Mr. DASCHLE and intended to be proposed to the bill (S. 1731) to strengthen the safety net for agriculture producers to enhance resource conservation and rural development, to provide for farm credit, agricultural research, nutrition, and related programs, to ensure consumers abundant food and fiber, and for other purposes; which was ordered to lie on the table, as follows:

At the appropriate place, insert the following:

SEC. . CERTIFICATION AND LABELING OF ORGANIC WILD SEAFOOD.

“(a) EXCLUSIVE AUTHORITY OF SECRETARY OF COMMERCE.—The Secretary of Commerce shall have exclusive authority to provide for the certification and labeling of wild seafood as organic wild seafood.

“(b) RELATIONSHIP TO OTHER LAW.—The certification and labeling of wild seafood as organic wild seafood shall not be subject to the provisions of the Organic Foods Production Act of 1990 (title XXI of Public Law 101-624; 104 Stat. 3935, 7 U.S.C. 6501 et. seq.).

“(c) REGULATIONS.—

“(1) IN GENERAL.—The Secretary of Commerce shall prescribe regulations for the certification and labeling of wild seafood as organic wild seafood.

“(2) CONSIDERATIONS.—In prescribing the regulations, the Secretary—

“(A) may take into consideration, as guidance, to the extent practicable, the provisions of the Organic Foods Production Act of 1990 and the regulations prescribed in the administration of that Act; and

“(B) shall accommodate the nature of the commercial harvesting and processing of wild fish in the United States.

“(3) TIME FOR INITIAL IMPLEMENTATION.—The Secretary shall promulgate the initial regulations to carry out this section not later than one year after the date of enactment of this Act.”.

SA 2491. Mr. SANTORUM submitted an amendment intended to be proposed to amendment SA 2471 submitted by Mr. DASCHLE and intended to be proposed to the bill (S. 1731) to strengthen the safety net for agricultural producers, to enhance resource conservation and rural development, to provide for farm credit, agricultural research, nutrition, and related programs, to ensure consumers abundant food and fiber, and for other purposes; which was ordered to lie on the table, as follows:

Strike section 132 and insert the following:

SEC. 132. DAIRY FARMERS PROGRAM.

The Federal Agriculture Improvement and Reform Act of 1996 (as amended by section 772(b) of Public Law 107-76) is amended by inserting after section 141 (7 U.S.C. 7251) the following:

"SEC. 142. DAIRY FARMERS PROGRAM.

"(a) DEFINITIONS.—In this section:

"(1) APPLICABLE FISCAL YEAR.—The term 'applicable fiscal year' means each of fiscal years 2001 through 2006.

"(2) CLASS III MILK.—The term 'Class III milk' means milk classified as Class III milk under a Federal milk marketing order issued under section 8c of the Agricultural Adjustment Act (7 U.S.C. 608c), reenacted with amendments by the Agricultural Marketing Agreement Act of 1937.

"(b) PAYMENTS.—For each applicable fiscal year, the Secretary shall make a payment to producers on a farm that, during the applicable fiscal year, produced milk for commercial sale, in the amount obtained by multiplying—

"(1) the payment rate for the applicable fiscal year determined under subsection (c); by

"(2) the payment quantity for the applicable fiscal year determined under subsection (d).

"(c) PAYMENT RATE.—

"(1) IN GENERAL.—Subject to paragraph (2), the payment rate for a payment made to producers on a farm for an applicable fiscal year under subsection (b) shall be determined as follows:

"If the average price received by producers in the United States for Class III milk during the preceding fiscal year was (per hundredweight)—

The payment rate for a payment made to producers on a farm for the applicable fiscal year under subsection (b) shall be (per hundredweight)—	
\$10.50 or less50
\$10.51 through \$11.0042
\$11.01 through \$11.5034
\$11.51 through \$12.0026
\$12.01 through \$12.5018.

"(2) INCREASED PAYMENT RATE.—If the producers on a farm produce during an applicable fiscal year a quantity of all milk that is not more than the quantity of all milk produced by the producers on the farm during the preceding fiscal year, the payment rate for a payment to the producers on the farm for the applicable fiscal year under paragraph (1) shall be increased as follows:

"If the average price received by producers in the United States for Class III milk during the preceding fiscal year was (per hundredweight)—

The payment rate for a payment made to the producers on the farm for the applicable fiscal year under paragraph (1) shall be increased by (per hundredweight)—	
\$10.50 or less30
\$10.51 through \$11.0026
\$11.01 through \$11.5022
\$11.51 through \$12.0018
\$12.01 through \$12.5014.

"(d) PAYMENT QUANTITY.—

"(1) IN GENERAL.—Subject to paragraph (2), the quantity of all milk for which the producers on a farm shall receive a payment for an applicable fiscal year under subsection (b) shall be equal to the quantity of all milk produced by the producers on the farm during the applicable fiscal year.

"(2) MAXIMUM QUANTITY.—The quantity of all milk for which the producers on a farm shall receive a payment for an applicable year under subsection (b) shall not exceed 26,000 hundredweight of all milk."

"(c) PAYMENT QUANTITY.—

"(1) IN GENERAL.—Subject to paragraph (2), the quantity of all milk for which the producers on a farm shall receive a payment for an applicable fiscal year under subsection (b) shall be equal to the quantity of all milk produced by the producers on the farm during the applicable fiscal year.

"(2) MAXIMUM QUANTITY.—The quantity of all milk for which the producers on a farm shall receive a payment for an applicable year under subsection (b) shall not exceed 26,000 hundredweight of all milk."

SA 2492. Mrs. MURRAY (for herself, Ms. CANTWELL, Mr. INOUE, Mr. BAUCUS, Mr. WELLSTONE, and Mr. DASCHLE) submitted an amendment intended to be proposed to amendment SA 2471 submitted by Mr. DASCHLE and intended to

be proposed to the bill S. 1731, to strengthen the safety net for agricultural producers, to enhance resource conservation and rural development, to provide for farm credit, agricultural research, nutrition, and related programs, to ensure consumers abundant food and fiber, and for other purposes; which was ordered to lie on the table; as follows:

On page 816, strike line 23 and insert the following:

SEC. 8. TRIBAL COOPERATIVE AND CONSERVATION PROGRAMS.

The Cooperative Forestry Assistance Act of 1978 (16 U.S.C. 2101 et seq.) is amended by adding at the end the following:

"SEC. 21. ASSISTANCE TO TRIBAL GOVERNMENTS.

"(a) DEFINITION OF INDIAN TRIBE.—In this section, the term 'Indian tribe' has the meaning given the term in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b).

"(b) ESTABLISHMENT.—The Secretary may provide financial, technical, educational and related assistance to Indian tribes for—

"(1) tribal consultation and coordination with the Forest Service on issues relating to—

"(A) tribal rights and interests on Forest Service land (including national forests and national grassland);

"(B) coordinated or cooperative management of resources shared by the Forest Service and Indian tribes; and

"(C) provision of tribal traditional, cultural, or other expertise or knowledge;

"(2) projects and activities for conservation education and awareness with respect to forest land under the jurisdiction of Indian tribes;

"(3) technical assistance for forest resources planning, management, and conservation on land under the jurisdiction of Indian tribes; and

"(4) the acquisition by Indian tribes, from willing sellers, of conservation interests (including conservation easements) in forest land and resources on land under the jurisdiction of the Indian tribes.

"(c) IMPLEMENTATION.—

"(1) IN GENERAL.—Not later than 18 months after the date of enactment of this section, the Secretary shall promulgate regulations to implement subsection (b) (including regulations for determining the distribution of assistance under that subsection).

"(2) CONSULTATION.—In developing regulations under paragraph (1), the Secretary shall engage in full, open, and substantive consultation with Indian tribes and representatives of Indian tribes.

"(d) COORDINATION WITH THE SECRETARY OF THE INTERIOR.—The Secretary shall coordinate with the Secretary of the Interior during the establishment, implementation, and administration of subsection (b) to ensure that programs under that subsection—

"(1) do not conflict with tribal programs provided under the authority of the Department of the Interior; and

"(2) meet the goals of the Indian tribes.

"(e) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section such sums as are necessary for fiscal year 2002 and each fiscal year thereafter."

TITLE IX—ENERGY

SA 2493. Mrs. MURRAY (for herself, Ms. CANTWELL, Mr. INOUE, Mr. BAUCUS, Mr. WELLSTONE, and Mr. DASCHLE)

submitted an amendment intended to be proposed to amendment SA 2471 submitted by Mr. DASCHLE and intended to be proposed to the bill (S. 1731) to strengthen the safety net for agricultural producers, to enhance resource conservation and rural development, to provide for farm credit, agricultural research, nutrition, and related programs, to ensure consumers abundant food and fiber, and for other purposes; which was ordered to lie on the table; as follows:

On page 871, strike line 23 and insert the following:

SEC. 8. OFFICE OF TRIBAL RELATIONS.

The Cooperative Forestry Assistance Act of 1978 is amended by inserting after section 19 (16 U.S.C. 2113) the following:

"SEC. 19A. OFFICE OF TRIBAL RELATIONS.

"(a) DEFINITIONS.—In this section:

"(1) INDIAN TRIBE.—The term 'Indian tribe' has the meaning given the term in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b).

"(2) OFFICE.—The term 'Office' means the Office of Tribal Relations established under subsection (b)(1).

"(3) SECRETARY.—The term 'Secretary' means the Secretary of Agriculture, acting through the Chief of the Forest Service.

"(b) ESTABLISHMENT.—

"(1) IN GENERAL.—The Secretary shall establish within the Forest Service the Office of Tribal Relations.

"(2) DIRECTOR.—The Office shall be headed by a Director, who shall—be appointed by the Chief, in consultation with interested Indian tribe.

"(3) ADMINISTRATIVE SUPPORT.—The Secretary shall ensure, to the maximum extent practicable, that adequate staffing and funds are made available to enable the Office to carry out the duties described in subsection (c).

"(c) DUTIES OF THE OFFICE.—

"(1) IN GENERAL.—The Office shall—

"(A) provide advice to the Secretary on all issues, policies, actions, and programs of the Forest Service that affect Indian tribes, including—

"(i) consultation with tribal governments;

"(ii) programmatic review for equitable tribal participation;

"(iii) monitoring and evaluation of relations between the Forest Service and Indian tribes;

"(iv) the coordination and integration of programs of the Forest Service that affect, or are of interest to, Indian tribes;

"(v) training of Forest Service personnel for competency in tribal relations; and

"(vi) the development of legislation affecting Indian tribes;

"(B) coordinate organizational responsibilities within the administrative structure of the Forest Service to ensure that matters affecting the rights and interests of Indian tribes are handled in a manner that is—

"(i) comprehensive;

"(ii) responsive to tribal needs; and

"(iii) consistent with policy guidelines of the Forest Service;

"(C)(i) develop generally applicable policies and procedures of the Forest Service pertaining to Indian tribes; and

"(ii) monitor the application of those policies and procedures throughout the administrative regions of the Forest Service;

"(D) provide such information or guidance to personnel of the Forest Service that are responsible for tribal relations as is required, as determined by the Secretary;

“(E) exercise such direct administrative authority pertaining to tribal relations programs as may be delegated by the Secretary;

“(F) for the purpose of coordinating programs and activities of the Forest Service with programs and actions of other agencies or departments that affect Indian tribes, consult with—

“(i) other agencies of the Department of Agriculture, including the Natural Resources Conservation Service; and

“(ii) other Federal agencies, including—

“(I) the Department of the Interior; and

“(II) the Environmental Protection Agency;

“(G) submit to the Secretary an annual report on the status of relations between the Forest Service and Indian tribes that includes, at a minimum—

“(i) an examination of the participation of Indian tribes in programs administered by the Secretary;

“(ii) a description of the status of initiatives being carried out to improve working relationships with Indian tribes; and

“(iii) recommendations for improvements or other adjustments to operations of the Forest Service that would be beneficial in strengthening working relationships with Indian tribes; and

“(H) carry out such other duties as the Secretary may assign.

“(d) COORDINATION.—In carrying out this section, the Office and other offices within the Forest Service shall consult on matters involving the rights and interests of Indian tribes.”.

TITLE IX—ENERGY

SA 2494. Mr. SMITH of New Hampshire submitted an amendment intended to be proposed by him to the bill S. 1731, to strengthen the safety net for agricultural producers, to enhance resource conservation and rural development, to provide for farm credit, agricultural research, nutrition, and related programs, to ensure consumers abundant food and fiber, and for other purposes; which was ordered to lie on the table; as follows:

At the end of Section 335, add the following:

(c) EFFECTIVE DATE.—The amendments made by this section shall not take effect until the President certifies to Congress that Cuba is not a state sponsor of international terrorism.

SA 2495. Mr. SMITH of New Hampshire submitted an amendment intended to be proposed by him to the bill S. 1731, to strengthen the safety net for agricultural producers, to enhance resource conservation and rural development, to provide for farm credit, agricultural research, nutrition, and related programs, to ensure consumers abundant food and fiber, and for other purposes; which was ordered to lie on the table; as follows:

At the end of Section 336, add the following:

(d) AGRICULTURE TRADE WITH NATIONS SUPPORTING INTERNATIONAL TERRORISM.—It is the sense of the Congress that an important factor in agricultural trade in all multilateral, regional, and bilateral negotiations is to make sure that the national security of the United States is not adversely effected by

favorable trade agreements with nations that support international terrorist organizations.

SA 2496. Mr. SANTORUM (for himself, Mr. DURBIN, and Mr. FEINGOLD) submitted an amendment intended to be proposed to amendment SA 2471 submitted by Mr. DASCHLE and intended to be proposed to the bill (S. 1731) to strengthen the safety net for agricultural producers, to enhance resource conservation and rural development, to provide for farm credit, agricultural research, nutrition, and related programs, to ensure consumers abundant food and fiber, and for other purposes; which was ordered to lie on the table; as follows:

On page 945, line 5, strike the period at the end and insert a period and the following:

SEC. 1024. IMPROVED STANDARDS FOR THE CARE AND TREATMENT OF CERTAIN ANIMALS.

(a) SOCIALIZATION PLAN; BREEDING RESTRICTIONS.—Section 13(a)(2) of the Animal Welfare Act (7 U.S.C. 2143(a)(2)) is amended—

(1) in subparagraph (A), by striking “and” at the end;

(2) in subparagraph (B), by striking the period at the end and inserting a semicolon; and

(3) by adding at the end the following:

“(C) for the socialization of dogs with other dogs and people, through compliance with a standard developed by the Secretary based on the recommendations of animal welfare and behavior experts that—

“(i) prescribes a schedule of activities and other requirements that dealers and inspectors shall use to ensure adequate socialization; and

“(ii) identifies a set of behavioral measures that inspectors shall use to evaluate adequate socialization; and

“(D) for addressing the initiation and frequency of breeding of female dogs so that a female dog is not—

“(i) bred before the female dog has reached at least 1 year of age; and

“(ii) whelped more frequently than 3 times in any 24-month period.”.

(b) SUSPENSION OR REVOCATION OF LICENSE, CIVIL PENALTIES, JUDICIAL REVIEW, AND CRIMINAL PENALTIES.—Section 19 of the Animal Welfare Act (7 U.S.C. 2149) is amended—

(1) by striking “SEC. 19. (a) If the Secretary” and inserting the following:

“SEC. 19. SUSPENSION OR REVOCATION OF LICENSE, CIVIL PENALTIES, JUDICIAL REVIEW, AND CRIMINAL PENALTIES.

“(a) SUSPENSION OR REVOCATION OF LICENSE.—

“(1) IN GENERAL.—If the Secretary”;

(2) in subsection (a)—

(A) in paragraph (1) (as designated by paragraph (1)), by striking “if such violation” and all that follows and inserting “if the Secretary determines that 1 or more violations have occurred.”; and

(B) by adding at the end the following:

“(2) MANDATORY REVOCATION.—If the Secretary has reason to believe that any person licensed as a dealer, exhibitor, or operator of an auction sale subject to section 12, has violated any of the rules, regulations, or standards governing the humane handling, transportation, veterinary care, housing, breeding, socialization, feeding, watering, or other humane treatment of dogs under section 12 or 13 on 3 or more separate inspections within any 8-year period, the Secretary shall im-

mediately suspend the license of the person for 21 days and, after providing notice and a hearing not more than 30 days after the third violation is noted on an inspection report, shall revoke the license of the person unless the Secretary makes a written finding that the violations were minor and inadvertent, that the violations did not pose a threat to the dogs, or that revocation is inappropriate for other good cause.”;

(3) in subsection (b), by striking “(b) Any dealer” and inserting “(b) CIVIL PENALTIES.—Any dealer”;

(4) in subsection (c), by striking “(c) Any dealer” and inserting “(c) JUDICIAL REVIEW.—Any dealer”;

(5) in subsection (d), by striking “(d) Any dealer” and inserting “(d) CRIMINAL PENALTIES.—Any dealer”.

(c) REGULATIONS.—Not later than 1 year after the date of enactment of this Act, the Secretary of Agriculture shall promulgate such regulations as are necessary to carry out the amendments made by this Act, including development of the standards required by the amendment made by subsection (a).

SA 2497. Mr. SMITH of Oregon submitted an amendment intended to be proposed to amendment SA 2471 submitted by Mr. DASCHLE and intended to be proposed to the bill (S. 1731) to strengthen the safety net for agricultural producers, to enhance resource conservation and rural development, to provide for farm credit, agricultural research, nutrition, and related programs, to ensure consumers abundant food and fiber, and for other purposes; which was ordered to lie on the table; as follows:

On page 322 on line 3, strike “Force.” and insert in lieu thereof “Force, in conjunction with the Secretary of the Interior.

At the end of Section 262(b)(2)(I), strike “and”.

At the end of Section 262(b)(2)(J), strike “Survey.” and insert the following: “Survey; “(K) the Secretary of the Interior;

“(L) The Secretary of Commerce; and

“(M) the Secretary of Agriculture.”

In Section 262(b)(3), following “for the purposes of—”, insert:

“(A) sustaining and strengthening a healthy agricultural economy in the Klamath Basin;”

and reletter the subsequent phrases accordingly.

SA 2498. Mr. SMITH of Oregon submitted an amendment intended to be proposed to amendment SA 2471 submitted by Mr. DASCHLE and intended to be proposed to the bill (S. 1731) to strengthen the safety net for agricultural producers, to enhance resource conservation and rural development, to provide for farm credit, agricultural research, nutrition, and related programs, to ensure consumers abundant food and fiber, and for other purposes; which was ordered to lie on the table; as follows:

On page 258, strike lines 10 through 16, inclusive.

SA 2499. Mr. BYRD submitted an amendment intended to be proposed to amendment SA 2471 submitted by Mr.

DASCHLE and intended to be proposed to the bill (S. 1731) to strengthen the safety net for agricultural producers, to enhance resource conservation and rural development, to provide for farm credit, agricultural research, nutrition, and related programs, to ensure consumers abundant food and fiber, and for other purposes; which was ordered to lie on the table; as follows:

At the end of the amendment, add the following:

SEC. 1 . COMMODITY CREDIT CORPORATION FUNDING.

Notwithstanding any other provision of this Act or an amendment made by this Act, any funds that would otherwise be made available through the transfer of funds from the Secretary of the Treasury to the Secretary of Agriculture under this Act or an amendment made by this Act (other than funds made available through a user fee) shall be available through funds of the Commodity Credit Corporation.

SA 2500. Mrs. FEINSTEIN submitted an amendment intended to be proposed to amendment SA 2471 submitted by Mr. DASCHLE and intended to be proposed to the bill (S. 1731) to strengthen the safety net for agricultural producers, to enhance resource conservation and rural development, to provide for farm credit, agricultural research, nutrition, and related programs, to ensure consumers abundant food and fiber, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place in subtitle B of title X, insert the following:

SEC. 10 . ADJUSTED GROSS INCOME CROP INSURANCE PILOT PROGRAM.

The Federal Crop Insurance Corporation shall—

(1) convert the adjusted gross income crop insurance pilot program under section 523(a) of the Federal Crop Insurance Act (7 U.S.C. 1523(a)) to a permanent program of insurance; and

(2) extend the program to the State of California beginning with crop year 2003.

SA 2501. Mrs. FEINSTEIN submitted an amendment intended to be proposed to amendment SA 2471 submitted by Mr. DASCHLE and intended to be proposed to the bill (S. 1731) to strengthen the safety net for agricultural producers, to enhance resource conservation and rural development, to provide for farm credit, agricultural research, nutrition, and related programs, to ensure consumers abundant food and fiber, and for other purposes; which was ordered to lie on the table; as follows:

On page 629, lines 19 and 20, strike “that is located in a rural area”.

SA 2502. Mr. DOMENICI (for himself, Mr. CRAIG, Mr. BURNS, Mr. CRAPO, Mrs. HUTCHISON, Mr. ENZI, Mr. THOMAS, Mr. KYL, Mr. SMITH of Oregon, Mr. HATCH, Mr. ALLARD, and Mr. CAMPBELL) proposed an amendment to amendment SA 2471 submitted by Mr. DASCHLE and intended to be proposed to the bill (S.

1731) to strengthen the safety net for agricultural producers, to enhance resource conservation and rural development, to provide for farm credit, agricultural research, nutrition, and related programs, to ensure consumers abundant food and fiber, and for other purposes; as follows:

On page 202, strike lines 14 through 22 and insert the following: “technical assistance”) after “the programs”; and

(3) in paragraph (2), by striking “subchapter C” and inserting “subchapters C and D”.

Beginning on page 121–118, strike line 4 and all that follows through page 121–130, line 19.

SA 2503. Mr. REID (for Mr. KENNEDY (for himself, Mr. WARNER, Mr. FRIST, Mrs. CLINTON, Mr. WELLSTONE, Ms. COLLINS, Mrs. MURRAY, and Mr. DOMENICI)) proposed an amendment to the bill S. 1729, to provide assistance with respect to the mental health needs of individuals affected by the terrorist attacks of September 11, 2001; as follows:

Strike all after the enacting clause and insert the following:

SECTION 1. SHORT TITLE.

This Act may be cited as the “Post Terrorism Mental Health Improvement Act”.

SEC. 2. PLANNING AND TRAINING GRANTS.

Section 520A of the Public Health Service Act (42 U.S.C. 290bb-32) is amended—

(1) in subsection (a)—

(A) in paragraph (2), by inserting before the semicolon the following: “, including the training of mental health professionals with respect to evidence-based practices in the treatment of individuals who are victims of a disaster”;

(B) in paragraph (3), by striking “and” at the end;

(C) in paragraph (4), by striking the period and inserting a semicolon; and

(D) by inserting after paragraph (4), the following:

“(5) the development of coordinated response plans for responding to the mental health needs (including the response efforts of private organizations) that arise from a disaster, including the development and expansion of the 2-1-1 or other universal hotline as appropriate; and

“(6) the establishment of a mental health disaster response clearinghouse.”;

(2) by redesignating subsection (f) as subsection (h); and

(3) by inserting after subsection (e) the following:

“(f) STATE COMMENTS.—With respect to a State or local public entity that submits an application for assistance under this section and that intends to use such assistance as provided for in subsection (a)(5), such entity shall provide notice of such application to the chief executive officer of the State, the State mental health department, and the State office responsible for emergency preparedness who shall consult with providers and organizations serving public safety officials and others involved in responding to the crisis, and provide such officer, department and office with the opportunity to comment on such application.

“(g) DEFINITION.—For purposes of subsection (a)(2), the term ‘mental health professional’ includes psychiatrists, psychologists, clinical psychiatric nurse specialists, mental health counselors, marriage and family therapists, clinical social workers, pas-

toral counselors, school psychologists, licensed professional counselors, school guidance counselors, and any other individual practicing in a mental health profession that is licensed or regulated by a State agency.”.

SEC. 3. GRANTS TO DIRECTLY AFFECTED AREAS TO ADDRESS LONG-TERM NEEDS.

(a) IN GENERAL.—The Secretary of Health and Human Services (referred to in this section as the “Secretary”) shall award grants to eligible State and local governments and other public entities to enable such entities to respond to the long-term mental health needs arising from the terrorist attacks of September 11, 2001.

(b) ELIGIBILITY.—To be eligible to receive a grant under subsection (a) an entity shall—

(1) be a State or local government or other public entity that is located in an area that is directly affected (as determined by the Secretary) by the terrorist attacks of September 11, 2001; and

(2) prepare and submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require.

(c) USE OF FUNDS.—A grantee shall use amounts received under a grant under subsection (a)—

(1) to carry out activities to locate individuals who may be affected by the terrorist attacks of September 11, 2001 and in need of mental health services;

(2) to provide treatment for those individuals identified under paragraph (1) who are suffering from a serious psychiatric illness as a result of such terrorist attack, including paying the costs of necessary medications; and

(3) to carry out other activities determined appropriate by the Secretary.

(d) SUPPLEMENT NOT SUPPLANT.—Amounts expended for treatments under subsection (c)(2) shall be used to supplement and not supplant amounts otherwise made available for such treatments (including medications) under any other Federal, State, or local program or under any health insurance coverage.

(e) USE OF PRIVATE ENTITIES AND EXISTING PROVIDERS.—To the extent appropriate, a grantee under subsection (a) shall—

(1) enter into contracts with private, non-profit entities to carry out activities under the grant; and

(2) to the extent feasible, utilize providers that are already serving the affected population, including providers used by public safety officials.

(f) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section such sums as may be necessary in each of fiscal years 2002 through 2005.

SEC. 4. RESEARCH.

Part A of title II of the Public Health Service Act (42 U.S.C. 202 et seq.) is amended by adding at the end the following:

“SEC. 229. RESEARCH.

“Notwithstanding any other provision of law, the Secretary may waive any restriction on the amount of supplemental funding that may be provided to any disaster-related scientific research project that is funded by the Secretary.”.

SEC. 5. CHILDREN WHO EXPERIENCE VIOLENCE-RELATED STRESS.

(a) IN GENERAL.—Section 582(f) of the Public Health Service Act (42 U.S.C. 290hh-1(f)) is amended by striking “2002 and 2003” and inserting “2002 through 2005”.

(b) SENSE OF CONGRESS.—It is the sense of Congress that the program established under section 582 of the Public Health Service Act (42 U.S.C. 290hh-1) should be fully funded.

SA 2504. Mr. LEVIN submitted an amendment intended to be proposed to amendment SA 2471 submitted by Mr. DASCHLE and intended to be proposed to the bill (S. 1731) to strengthen the safety net for agricultural producers, to enhance resource conservation and rural development, to provide for farm credit, agricultural research, nutrition, and related programs, to ensure consumers abundant food and fiber, and for other purposes; which was ordered to lie on the table; as follows:

On page 479, strike line 7 and insert the following:

SEC. 460. SENSE OF CONGRESS REGARDING ELIGIBILITY OF ELDERLY INDIVIDUALS TO PARTICIPATE IN THE COMMODITY SUPPLEMENTAL FOOD PROGRAM.

It is the sense of Congress that the Secretary of Agriculture should restore to 185 percent of the poverty line the elderly income guidelines for participation in the commodity supplemental food program under section 5 of the Agriculture and Consumer Protection Act of 1973 (7 U.S.C. 612c note; Public Law 93-86) so that the guidelines are the same as the income guidelines for participation by mothers, infants, and children in the program.

SEC. 461. EFFECTIVE DATE.

SA 2505. Mr. LEVIN submitted an amendment intended to be proposed to amendment SA 2471 submitted by Mr. DASCHLE and intended to be proposed to the bill (S. 1731) to strengthen the safety net for agricultural producers, to enhance resource conservation and rural development, to provide for farm credit, agricultural research, nutrition, and related programs, to ensure consumers abundant food and fiber, and for other purposes; which was ordered to lie on the table; as follows:

On page 382, strike line 15 and insert the following:

SEC. 337. FARMERS FOR AFRICA AND CARIBBEAN BASIN PROGRAM.

(a) FINDINGS.—Congress finds that—

(1) many farmers in Africa and the Caribbean Basin use antiquated techniques to produce crops, resulting in poor crop quality and low crop yields;

(2) many of those farmers are losing business to farmers in Europe and Asia who use advanced planting and production techniques and are supplying agricultural produce to restaurants, resorts, tourists, grocery stores, and other consumers in Africa and the Caribbean Basin;

(3) a need exists for the training of farmers in Africa and the Caribbean Basin and other developing countries in farming techniques that are appropriate for the majority of eligible farmers in Africa or the Caribbean Basin, including—

(A) standard growing practices;

(B) insecticide and sanitation procedures; and

(C) other farming methods that will produce increased yields of more nutritious and healthful crops;

(4) African-American and other American farmers and banking and insurance professionals are a ready source of agribusiness expertise that would be invaluable for farmers in Africa and the Caribbean Basin;

(5) it is appropriate for the United States to make a commitment to support the devel-

opment of a comprehensive agricultural skills training program for farmers in Africa and the Caribbean Basin that focuses on—

(A) improving knowledge of insecticide and sanitation procedures to prevent crop destruction;

(B) teaching modern farming techniques that would facilitate a continual analysis of crop production, including—

(i) the identification and development of standard growing practices; and

(ii) the establishment of systems for recordkeeping;

(C) the use and maintenance of farming equipment that is appropriate for the majority of eligible farmers in Africa and the Caribbean Basin;

(D) expanding small farming operations into agribusiness enterprises through the development and use of village banking systems and the use of agricultural risk insurance pilot products, resulting in increased access to credit for the farmers; and

(E) marketing crop yields to prospective purchasers for local needs and export;

(6) the participation of African-American and other American farmers and American agricultural farming specialists in such a training program promises the added benefit of improving—

(A) market access in African and Caribbean Basin markets for American agricultural commodities and farm equipment; and

(B) business linkages for American insurance providers offering technical assistance on agricultural risk insurance and other matters; and

(7)(A) programs that promote the exchange of agricultural knowledge and expertise through the exchange of American and foreign farmers have been effective in promoting improved agricultural techniques and food security; and

(B) accordingly, the extension of additional resources to such farmer-to-farmer exchanges is warranted.

(b) DEFINITIONS.—In this section:

(1) AGRICULTURAL FARMING SPECIALIST.—The term “agricultural farming specialist” means an individual trained to transfer information and technical support relating to—

(A) agribusiness;

(B) food security;

(C) mitigation and alleviation of hunger;

(D) mitigation of agricultural risk;

(E) maximization of crop yields;

(F) agricultural trade; and

(G) other needs specific to a geographical area, as determined by the President.

(2) CARIBBEAN BASIN COUNTRY.—The term “Caribbean Basin country” means a country that is eligible for designation as a beneficiary country under section 212 of the Caribbean Basin Economic Recovery Act (19 U.S.C. 2702).

(3) ELIGIBLE FARMER.—The term “eligible farmer” means an individual who owns or works on farm land (as defined by the law of the country in which the land is situated) in—

(A) the sub-Saharan region of Africa;

(B) a Caribbean Basin country; or

(C) any other developing country in which the President determines there is a need for farming expertise or for information or technical support described in paragraph (1).

(4) ELIGIBLE ENTITY.—The term “eligible entity” means—

(A) a college or university (including a historically black college or university) or a foundation maintained by a college or university; and

(B) a private organization (including a grassroots organization) or corporation with

an established and demonstrated capacity to carry out a bilateral exchange program described in subsection (c).

(5) PROGRAM.—The term “program” means the Farmers for Africa and Caribbean Basin Program established under subsection (c).

(c) ESTABLISHMENT OF PROGRAM.—The President shall establish a grant program, to be known as the “Farmers for Africa and Caribbean Basin Program”, to assist eligible entities in carrying out bilateral exchange programs under which African-American and other American farmers and American agricultural farming specialists share technical knowledge with eligible farmers regarding—

(1) maximization of crop yields;

(2) use of agricultural risk insurance as a financial tool and a means of risk management (as allowed by Annex II of the World Trade Organization rules);

(3) expansion of trade in agricultural products;

(4) enhancement of local food security;

(5) mitigation and alleviation of hunger;

(6) marketing of agricultural products in local, regional, and international markets; and

(7) other means of improving farming by eligible farmers.

(d) GOAL.—The goal of the program shall be to have at least 1,000 farmers participating in the training program by December 31, 2005, of whom—

(1) 80 percent of the number of participating farmers should be eligible farmers in developing countries; and

(2) 20 percent of the number of participating farmers should be American farmers.

(e) TRAINING.—Under the program—

(1) training shall be provided to eligible farmers in groups to ensure that information is shared and passed on to other eligible farmers; and

(2) eligible farmers shall be trained to be specialists in their home communities and encouraged not to retain enhanced farming technology for their own personal enrichment.

(f) USE OF COMMERCIAL AND INDUSTRIAL CAPABILITIES.—Through partnerships with American businesses in the agricultural sector, the program shall use the commercial and industrial capabilities of the businesses to—

(1) train eligible farmers on farming equipment that is appropriate for the majority of eligible farmers in their home countries; and

(2) introduce eligible farmers to the use of insurance as a risk management tool.

(g) SELECTION OF PARTICIPANTS.—

(1) APPLICATION.—To participate in the program, an eligible farmer or African-American and other American farmer or agricultural farming specialist, shall submit to the President an application in such form as the President may require.

(2) QUALIFICATIONS OF AMERICAN PARTICIPANTS.—To participate in the program, an American farmer or agricultural farming specialist—

(A) shall have sufficient farm or agribusiness experience, as determined by the President; and

(B) shall have obtained certain targets, specified by the President, regarding the productivity of the farm or business of the American farmer or agricultural farming specialist.

(h) GRANT PERIOD.—Under the program, the President may make grants for a period of 5 years beginning on October 1 of the first fiscal year for which funds are made available to carry out the program.

(i) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to

carry out this section \$10,000,000 for each of fiscal years 2002 through 2006.

TITLE IV—NUTRITION

SA 2506. Mr. LEVIN submitted an amendment intended to be proposed to amendment SA 2471 submitted by Mr. DASCHLE and intended to be proposed to the bill (S. 1731) to strengthen the safety net for agricultural producers, to enhance resource conservation and rural development, to provide for farm credit, agricultural research, nutrition, and related programs, to ensure consumers abundant food and fiber, and for other purposes; which was ordered to lie on the table; as follows:

On page 961, line 11, strike “fiscal year 2002” and insert “each of fiscal years 2002 through 2006”.

SA 2507. Mr. LEVIN submitted an amendment intended to be proposed to amendment SA 2471 submitted by Mr. DASCHLE and intended to be proposed to the bill (S. 1731) to strengthen the safety net for agricultural producers, to enhance resource conservation and rural development, to provide for farm credit, agricultural research, nutrition, and related programs, to ensure consumers abundant food and fiber, and for other purposes; which was ordered to lie on the table; as follows:

On page 911, strike lines 7 through 10 and insert the following:

“(A) a college or university or a research foundation maintained by a college or university;”.

SA 2508. Mr. LEVIN submitted an amendment intended to be proposed to amendment SA 2471 submitted by Mr. DASCHLE and intended to be proposed to the bill (S. 1731) to strengthen the safety net for agricultural producers, to enhance resource conservation and rural development, to provide for farm credit, agricultural research, nutrition, and related programs, to ensure consumers abundant food and fiber, and for other purposes; which was ordered to lie on the table; as follows:

Strike the period at the end of section 1023 and insert a period and the following:

SEC. 10. LIMITATION ON EXHIBITION OF POLAR BEARS.

The Animal Welfare Act is amended by inserting after section 17 (7 U.S.C. 2147) the following:

“SEC. 18. LIMITATION ON EXHIBITION OF POLAR BEARS.

“An exhibitor that is a carnival, circus, or traveling show (as determined by the Secretary) shall not exhibit polar bears.”.

SA 2509. Mr. GRAMM submitted an amendment intended to be proposed by him to the bill S. 1731, to strengthen the safety net for agricultural producers, to enhance resource conservation and rural development, to provide for farm credit, agricultural research, nutrition, and related programs, to ensure consumers abundant food and fiber, and for other purposes; which was ordered to lie on the table; as follows:

Strike section 452 and renumber subsequent sections accordingly.

SA 2510. Mr. GRAMM submitted an amendment intended to be proposed by him to the bill S. 1731, to strengthen the safety net for agricultural producers, to enhance resource conservation and rural development, to provide for farm credit, agricultural research, nutrition, and related programs, to ensure consumers abundant food and fiber, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place insert the following:

“Notwithstanding any other provision of law or of this bill, any individual whose annual income is equal to or greater than 300% of the national median family income, as last reported by the Bureau of the Census (adjusted for family size and inflation), shall not be eligible to receive any cash benefit, subsidy, loan, or payment authorized by this bill.”

SA 2511. Mr. DASCHLE (for himself and Mr. LUGAR) proposed an amendment to amendment SA 2471 submitted by Mr. DASCHLE and intended to be proposed to the bill (S. 1731) to strengthen the safety net for agricultural producers, to enhance resource conservation and rural development, to provide for farm credit, agricultural research, nutrition, and related programs, to ensure consumers abundant food and fiber, and for other purposes; as follows:

Strike the period at the end of section 1021 and insert a period and the following:

SEC. 1022. ASSISTANT SECRETARY OF AGRICULTURE FOR CIVIL RIGHTS.

(a) IN GENERAL.—Section 218 of the Department of Agriculture Reorganization Act of 1994 (7 U.S.C. 6918) is amended by adding at the end the following:

“(f) ASSISTANT SECRETARY OF AGRICULTURE FOR CIVIL RIGHTS.—

“(1) DEFINITION OF SOCIALLY DISADVANTAGED FARMER OR RANCHER.—In this subsection, the term ‘socially disadvantaged farmer or rancher’ has the meaning given the term in section 355(e) of the Consolidated Farm and Rural Development Act (7 U.S.C. 2003(e)).

“(2) ESTABLISHMENT OF POSITION.—The Secretary shall establish within the Department the position of Assistant Secretary of Agriculture for Civil Rights.

“(3) APPOINTMENT.—The Assistant Secretary of Agriculture for Civil Rights shall be appointed by the President, by and with the advice and consent of the Senate.

“(4) DUTIES.—The Assistant Secretary of Agriculture for Civil Rights shall—

“(A) enforce and coordinate compliance with all civil rights laws and related laws—

“(i) by the agencies of the Department; and

“(ii) under all programs of the Department (including all programs supported with Department funds);

“(B) ensure that—

“(i) the Department has measurable goals for treating customers and employees fairly and on a nondiscriminatory basis; and

“(ii) the goals and the progress made in meeting the goals are included in—

“(I) strategic plans of the Department; and

“(II) annual reviews of the plans;

“(C) ensure the compilation and public disclosure of data critical to assessing Department civil rights compliance in achieving on a nondiscriminatory basis participation of socially disadvantaged farmers and ranchers in programs of the Department on a nondiscriminatory basis;

“(D)(i) hold Department agency heads and senior executives accountable for civil rights compliance and performance; and

“(ii) assess performance of Department agency heads and senior executives on the basis of success made in those areas;

“(E) ensure, to the maximum extent practicable—

“(i) a sufficient level of participation by socially disadvantaged farmers and ranchers in deliberations of county and area committees established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)); and

“(ii) that participation data and election results involving the committees are made available to the public; and

“(F) perform such other functions as may be prescribed by the Secretary.”.

(b) COMPENSATION.—Section 5315 of title 5, United States Code, is amended by striking “Assistant Secretaries of Agriculture (2)” and inserting “Assistant Secretaries of Agriculture (3)”.

(c) CONFORMING AMENDMENTS.—Section 296(b) of the Department of Agriculture Reorganization Act of 1994 (7 U.S.C. 7014(b)) is amended—

(1) in paragraph (3), by striking “or” at the end;

(2) in paragraph (4), by striking the period at the end and inserting “; or”; and

(3) by adding at the end the following:

“(5) the authority of the Secretary to establish within the Department the position of Assistant Secretary of Agriculture for Civil Rights under section 218(f).”.

SA 2512. Mr. CRAIG (for himself and Mr. GREGG) proposed an amendment to amendment SA 2511 submitted by Mr. DASCHLE and intended to be proposed to the amendment SA 2471 proposed by Mr. DASCHLE to the bill (S. 1731) to strengthen the safety net for agricultural producers, to enhance resource conservation and rural development, to provide for farm credit, agricultural research, nutrition, and related programs, to ensure consumers abundant food and fiber, and for other purposes; as follows:

At the appropriate place, add the following:

SEC. . SENSE OF THE SENATE.

It is the sense of the Senate that, before Congress creates new positions that require the advice and consent of the Senate, such as the position of Assistant Secretary for Civil Rights of the Department of Agriculture, the Senate should vote on nominations that have been reported by committees and are currently awaiting action by the full Senate, such as the nomination of Eugene Scalia to be Solicitor of the Department of Labor.

SA 2513. Mr. BOND (for himself, Mr. GRASSLEY, Mr. ENZI, and Mr. MILLER) proposed an amendment to amendment SA 2471 submitted by Mr. DASCHLE and intended to be proposed to the bill (S. 1731) to strengthen the safety net for

agricultural producers, to enhance resource conservation and rural development, to provide for farm credit, agricultural research, nutrition, and related programs, to ensure consumers abundant food and fiber, and for other purposes; as follows:

Strike the period at the end of section 1034 and insert a period and the following:

SEC. 1035. REVIEW OF FEDERAL AGENCY ACTIONS AFFECTING AGRICULTURAL PRODUCERS.

(a) **DEFINITIONS.**—In this section:

(1) **AGENCY ACTION.**—The term “agency action” has the meaning given the term in section 551 of title 5, United States Code.

(2) **AGENCY HEAD.**—The term “agency head” means the head of a Federal agency.

(3) **AGRICULTURAL PRODUCER.**—The term “agricultural producer” means the owner or operator of a small or medium-sized farm or ranch.

(4) **SECRETARY.**—The term “Secretary” means the Secretary of Agriculture.

(b) **REVIEW OF AGENCY ACTION BY SECRETARY.**—

(1) **IN GENERAL.**—The Secretary may review any agency action proposed by any Federal agency to determine whether the agency action would be likely to have a significant adverse economic impact on, or jeopardize the personal safety of, agricultural producers.

(2) **CONSULTATION; ALTERNATIVES.**—If the Secretary determines that a proposed agency action is likely to have a significant adverse economic impact on or jeopardize the personal safety of agricultural producers, the Secretary—

(A) shall consult with the agency head; and

(B) may advise the agency head on alternatives to the agency action that would be least likely to have a significant adverse economic impact on, or least likely to jeopardize the personal safety of, agricultural producers.

(c) **PRESIDENTIAL REVIEW.**—

(1) **IN GENERAL.**—If, after a proposed agency action is finalized, the Secretary determines that the agency action would be likely to have a significant adverse economic impact on or jeopardize the safety of agricultural producers, the President may, not later than 60 days after the date on which the agency action is finalized—

(A) review the determination of the Secretary; and

(B) reverse, preclude, or amend the agency action if the President determines that reversal, preclusion, or amendment—

(i) is necessary to prevent significant adverse economic impact on or jeopardize the personal safety of agricultural producers; and

(ii) is in the public interest.

(2) **CONSIDERATIONS.**—In conducting a review under paragraph (1)(A), the President shall consider—

(A) the determination of the Secretary under subsection (c)(1);

(B) the public record;

(C) any competing economic interests; and

(D) the purpose of the agency action.

(3) **CONGRESSIONAL NOTIFICATION.**—If the President reverses, precludes, or amends the agency action under paragraph (1)(B), the President shall—

(A) notify Congress of the decision to reverse, preclude, or amend the agency action; and

(B) submit to Congress a detailed justification for the decision.

(4) **LIMITATION.**—The President shall not reverse, preclude, or amend an agency action that is necessary to protect—

(A) human health;

(B) safety; or

(C) national security.

(d) **CONGRESSIONAL REVIEW.**—Reversal, preclusion, or amendment of an agency action under subsection (c)(1)(B) shall be subject to section 802 of title 5, United States Code.

SA 2514. Mr. SMITH of Oregon submitted an amendment intended to be proposed to amendment SA 2471 submitted by Mr. DASCHLE and intended to be proposed to the bill (S. 1731) to strengthen the safety net for agricultural producers, to enhance resource conservation and rural development, to provide for farm credit, agricultural research, nutrition, and related programs, to ensure consumers abundant food and fiber, and for other purposes; which was ordered to lie on the table; as follows:

On page 937, between lines 16 and 17, insert the following:

SEC. 10 . CROP INSURANCE AND NONINSURED CROP DISASTER ASSISTANCE PROGRAM.

(a) 7. U.S.C. 7333, as amended by P.L. 104-127, is amended—

(1) in Section (a)(3) by striking “or” and

(2) in Section (a)(3) by striking “as determined by the Secretary.” and inserting in lieu thereof “as determined by the Secretary, or disaster caused by direct federal regulatory implementation or resource management decision, action, or water allocation.” and

(3) in Section (c)(2) by striking “or other natural disaster, as determined by the Secretary.” and inserting in lieu thereof “other natural disaster (as determined by the Secretary), or disaster caused by direct federal regulatory implementation or resource management decision, action, or water allocation.”.

(b) 7 U.S.C. 1508 is amended—

(1) in Section (a)(1) by striking “or other natural disaster (as determined by the Secretary).” and inserting “natural disaster (as determined by the Secretary), or disaster caused by direct federal regulatory implementation or resource management decision, action, or water allocation.” and

(2) in Section (b)(1) by striking “or other natural disaster (as determined by the Secretary).” and inserting in lieu thereof “other natural disaster (as determined by the Secretary), or direct federal regulatory implementation or resource management decision, action, or water allocation.”.

(c) The Secretary is encouraged to review and amend administration rules and guidelines describing disaster conditions to accommodate situations where planting decisions are based on federal water allocations. The Secretary is further encouraged to review the level of disaster payments to irrigated agriculture producers in such cases where federal water allocations are withheld prior to the planting period.

SA 2515. Mr. REID (for Mr. LIEBERMAN) proposed an amendment to the bill H.R. 1499, An act to amend the District of Columbia College Access Act of 1999 to permit individuals who enroll in an institution of higher education more than 3 years after graduating from a secondary school and individuals who attend private historically black colleges and universities

nationwide to participate in the tuition assistance programs under such Act, and for other purposes; as follows:

In subparagraph (A) of section 3(c)(2) of the District of Columbia College Access Act of 1999, as added by section 2—

(1) in clause (i), strike “or” after the semicolon;

(2) redesignate clause (ii) as clause (iii); and

(3) insert after clause (i) the following:

“(ii) for individuals who graduated from a secondary school or received the recognized equivalent of a secondary school diploma before January 1, 1998, and is currently enrolled at an eligible institution as of the date of enactment of the District of Columbia College Access Improvement Act of 2001, was domiciled in the District of Columbia for not less than the 12 consecutive months preceding the commencement of the Freshman year at an institution of higher education; or”.

AUTHORITY FOR COMMITTEES TO MEET

COMMITTEE ON FOREIGN RELATIONS

Mr. REID. Mr. President, I ask unanimous consent that the Committee on Foreign Relations be authorized to meet during the session of the Senate on Wednesday, December 12, 2001, at 2:30 p.m. to hold a business meeting.

Agenda

The committee will consider and vote on the following agenda:

Legislation

S. 1779, A bill to authorize Radio Free Afghanistan.

H.R. 3167, The Gerald B.H. Solomon Freedom Consolidation Act of 2001, A bill to endorse the vision of further enlargement of the NATO Alliance articulated by President George W. Bush on June 15, 2001, and by former President William J. Clinton on October 22, 1996, and for other purposes.

S. Con. Res. 86, A concurrent resolution expressing the sense of Congress that women from all ethnic groups in Afghanistan should participate in the economic and political reconstruction of Afghanistan.

H. Con. Res. 77, A concurrent resolution expressing the sense of the Congress regarding the efforts of people of the United States of Korean ancestry to reunite with their family members in North Korea.

H. Con. Res. 211, A concurrent resolution commending Daw Aung San Suu Kyi on the 10th anniversary of her receiving the Nobel Peace Prize and expressing the sense of the Congress with respect to the Government of Burma.

Nominations:

Jorge L. Arrizurieta, of Florida, to be United States Alternate Executive Director of the Inter-American Development Bank.

William R. Brownfield, of Texas, to be Ambassador to the Republic of Chile.

Arthur E. Dewey, of Maryland, to be Assistant Secretary of State (Population, Refugees, and Migration).

Adolfo Franco, of Virginia, to be an Assistant Administrator (Latin America and the Caribbean) of the United States Agency for International Development.

John V. Hanford, III, of Virginia, to be Ambassador at Large for International Religious Freedom.

Donna Hrinak, of Virginia, to be Ambassador to the Federative Republic of Brazil.

James McGee, of Florida, to be Ambassador to the Kingdom of Swaziland.

Kenneth P. Moorefield, of Florida, to be Ambassador to the Gabonese Republic and to serve concurrently and without additional compensation as Ambassador to the Democratic Republic of Sao Tome and Principe.

Josephine K. Olsen, of Maryland, to be Deputy Director of the Peace Corps.

John D. Ong, of Ohio, to be Ambassador to Norway.

Earl Phillips, Jr., of North Carolina, to be Ambassador to Barbados, and to serve concurrently and without additional compensation as Ambassador to St. Kitts and Nevis, Saint Lucia, Antigua and Barbuda, the Commonwealth of Dominica, Grenada, and Saint Vincent and the Grenadines.

Frederick Schiek, of Virginia, to be Deputy Administrator of the United States Agency for International Development.

Charles S. Shapiro, of Georgia, to be Ambassador to the Bolivarian Republic of Venezuela.

Gaddi H. Vasquez, of California, to be Director of the Peace Corps.

Roger Winter, of Maryland, to be an Assistant Administrator (Democracy, Conflict, and Humanitarian Assistance) of the United States Agency for International Development.

Additional nominees to be announced.

Foreign Service Officer Promotion List

Mr. Dobbins, et al., dated October 16, 2001. (With the exception of James Dobbins)

Mr. Hughes, et al., dated November 27, 2001.

The PRESIDING OFFICER. Without objection, it is so ordered.

PRIVILEGE OF THE FLOOR

Mr. BOND. Madam President, I ask unanimous consent that John Stoody, a detailee to my office from the Environmental Protection Agency, be given the privilege of the floor for the remainder of the consideration of S. 1731.

The PRESIDING OFFICER. Without objection, it is so ordered.

BEST PHARMACEUTICALS FOR CHILDREN ACT

Mr. REID. Madam President, this has been approved by the minority.

I ask unanimous consent that the Senate proceed to the immediate consideration of Calendar No. 271, S. 1789.

The PRESIDING OFFICER. The clerk will report the bill by title.

The senior assistant bill clerk read as follows:

A bill (S. 1789) to amend the Federal Food, Drug, and Cosmetic Act to improve the safety and efficacy of pharmaceuticals for children.

There being no objection, the Senate proceeded to consider the bill.

Mr. KENNEDY. I congratulate my friend from Connecticut, Senator DODD, and my friend from Ohio, Senator DEWINE, for bringing us the Best Pharmaceuticals for Children Act. Since 1977, we've had great success increasing the number of studies of drugs in children, and it's important that we reauthorize pediatric exclusivity to continue this success. One improvement in this reauthorization is that section 4 of your bill will see to it that, when a drug company declines an FDA request to study its patented drug for children, the drug will nonetheless be studied for children.

Mr. DODD. That is correct.

Mr. KENNEDY. You bill has these studies being conducted by, for example, universities, hospitals, contract research organizations, and pediatric pharmacology units. The studies will happen after referral to the Foundation for the National Institutes of Health, which, if it has the money to do so, provides money to the NIH for it to fund the studies, or passes it on to the NIH to pay for the studies with money that the bill itself authorizes.

Mr. DEWINE. Yes, that's how the process works.

Mr. KENNEDY. And after the research is conducted, the results are submitted to the Secretary of Health of Human Services. Once the Secretary has received the results, the Secretary, through the FDA, analyzes the information from the studies and determines what is necessary to provide appropriate pediatric labeling of the drug.

Mr. DODD. Yes, that is what we intend.

Mr. KENNEDY. So, it is fair to conclude that pediatric research conducted by third parties, using a commercially available drug, and paid for by the Foundation of the National Institutes of Health or by NIH under your bill, will not infringe any patent on the drug and shall be considered to be an activity conducted for the purpose of development and submission of information to the Secretary of Health and Human Services under the Federal Food, Drug, and Cosmetic Act?

Mr. DEWINE. Yes, I agree with that conclusion.

Mr. DEWINE. Madam President, I rise today to thank my colleagues for supporting and passing the conference report on a bill that Senator DODD and

I have been working on for some time. This bill, S. 1789, the Best Pharmaceuticals for Children Act, is reauthorization legislation designed to ensure that more medicines are tested for children and that useful prescribing and dosing information appears on labels.

Before I say anything else, I'd like to thank Senator DODD for his tireless efforts on behalf of children. He is a true champion for children. And, passage of our bill today, is just one more example of how he has dedicated so much of his time and energy to protect our Nation's kids, our Nation's future.

Our Best Pharmaceuticals bill is really vital in protecting our children when they are sick. This bill will make sure that we test drugs for kids on kids. Right now, most drugs are designed and tested on and for use by adults. Prescribing medicine for children is difficult for a variety of reasons. Proper dosing depends on a child's weight and metabolisms. Furthermore, children's bodies grow and change quickly. Children also may not give doctors accurate information about how medicines are affecting them, making diagnoses difficult, involving a large-degree of guess work.

A recent six-week study in Boston, at two of its most well-respected hospitals, found that over that time, 616 prescriptions written for children contained errors. Of those, 26 actually harmed children. Of the errors that were caught before the medication was administered, 18 could have been fatal. And, a study in the a recent Journal of the American Medical Association, found that medication errors in hospitals occur three times more frequently with children than with adults.

Four years ago, Senator DODD and I first learned that the vast majority of drugs in this country that came on the market every week, in fact over 80 percent, had never been formally tested or approved for pediatric use and therefore lacked even the most basic labeling information regarding dosing recommendations for children. When we found that out, we began writing what is now referred to as the pediatric exclusivity law. In the three years since that law went into effect, the FDA has issued about 200 written requests for pediatric studies.

Companies have undertaken over 400 pediatric studies, of which over 58 studies have been completed, for a wide range of critical diseases, including juvenile diabetes, the problem of pain, asthma, and hypertension.

Thirty-seven drugs have been granted pediatric exclusivity. Some studies generated by this incentive have led to essential dosing information. Take, for example, the drug, Luvox. Luvox is a drug prescribed to treat obsessive-compulsive disorder. Pediatric studies performed pursuant to our law have shown inadequate dosing for adolescents,

which resulted in ineffective treatment. The studies also have shown that some girls between the ages of eight and 11 were potentially overdosed, with levels up to two to three times that which was really needed.

Our Better Pharmaceuticals law has done a great deal of good. We are seeing more drugs for children on the market that have a label that tells how they can be used, and more basic information for pediatricians. So when they look at that little child and they know the age of that child and they know the weight of that child, doctors can look it up and see exactly what the prescription should be, what the dosage should be, what the indicators are for that child. They can do that because we have given the pharmaceutical companies an incentive to do the research, research they were doing in only 20 percent of the cases prior to passage of the Better Pharmaceuticals law.

Despite our progress, we have further to go. That's why we passed the Best Pharmaceuticals conference report today. Senator DODD and I and the other cosponsors knew that the Better Pharmaceuticals bill, could be improved. We knew that it had some holes in it. We set out to fill those gaps and address the outstanding issues, such as the testing of off-patent drugs, which the original law was never designed to include.

In the conference report we passed today, we have built upon the existing law's basic incentive structure to further ensure that we will help improve the medication labeling process. Since our law has not been implemented for very long, many labels are still in the process of being requested and negotiated by the FDA. In our legislation, the new timeframes established for labeling negotiations, together with the enforcement authority under the existing misbranding statute, will help ensure that essential pediatric information generated from studies implemented under this law, will result in necessary and timely labeling changes, tested for children.

Our legislation creates a mechanism to "capture" the off-patent drugs for which the Secretary determines additional studies are needed to assess the safety and effectiveness of the drug's use in the pediatric population. In other words, our bill provides for the testing of some cases of these off-patent drugs.

By expanding the mission of the existing NIH Foundation to include collecting and awarding grants for conducting certain pediatric studies, we have provided a funding mechanism for ensuring studies that are completed for both off-patent drugs and those marketed on-patent drugs that a company declines to study—and for which the Secretary determines there is a continuing need for information relating to the use of the drug in the pediatric population.

By first seeking funding through the Foundation, we provide a mechanism for drug companies to contribute to the funding of mainly off-patent drugs and also to a narrow group of on-patent drugs, including those for neonates, for which companies have declined to accept the written request to pursue the six month market exclusivity extension.

Finally, to further ensure that the safety of children in clinical trials is protected, our legislation requires that the Institute of Medicine, IOM, conduct a review of Federal regulations, reports, and research involving children and provide recommendations on best practices relating to research. Senator DODD and I included as part of the Children's Health Act last year.

In conclusion, I again thank Senator DODD for his efforts, along with Senators FRIST, KENNEDY, BOND, COLLINS, and CLINTON. Their support and dedication to children is what is behind this legislation. Because of them, we are sending this conference report to the President for his signature. I thank them for their work and their commitment to children.

Mr. REID. Madam President, I ask unanimous consent that the bill be read three times, passed, the motion to reconsider be laid upon the table, and any statements relating thereto be printed in the RECORD, with no intervening action or debate.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (S. 1789) was read the third time and passed, as follows:

S. 1789

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Best Pharmaceuticals for Children Act".

SEC. 2. PEDIATRIC STUDIES OF ALREADY-MARKETED DRUGS.

Section 505A of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355a) is amended—

- (1) by striking subsection (b); and
- (2) in subsection (c)—
 - (A) by inserting after "the Secretary" the following: "determines that information relating to the use of an approved drug in the pediatric population may produce health benefits in that population and"; and
 - (B) by striking "concerning a drug identified in the list described in subsection (b)".

SEC. 3. RESEARCH FUND FOR THE STUDY OF DRUGS.

Part B of title IV of the Public Health Service Act (42 U.S.C. 284 et seq.) is amended—

- (1) by redesignating the second section 409C, relating to clinical research (42 U.S.C. 284k), as section 409G;
- (2) by redesignating the second section 409D, relating to enhancement awards (42 U.S.C. 284l), as section 409H; and
- (3) by adding at the end the following:

"SEC. 409L. PROGRAM FOR PEDIATRIC STUDIES OF DRUGS.

"(a) LIST OF DRUGS FOR WHICH PEDIATRIC STUDIES ARE NEEDED.—

"(1) IN GENERAL.—Not later than 1 year after the date of enactment of this section, the Secretary, acting through the Director of the National Institutes of Health and in consultation with the Commissioner of Food and Drugs and experts in pediatric research, shall develop, prioritize, and publish an annual list of approved drugs for which—

"(A)(i) there is an approved application under section 505(j) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(j));

"(ii) there is a submitted application that could be approved under the criteria of section 505(j) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(j));

"(iii) there is no patent protection or market exclusivity protection under the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 301 et seq.); or

"(iv) there is a referral for inclusion on the list under section 505A(d)(4)(C) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355a(d)(4)(C)); and

"(B) in the case of a drug referred to in clause (i), (ii), or (iii) of subparagraph (A), additional studies are needed to assess the safety and effectiveness of the use of the drug in the pediatric population.

"(2) CONSIDERATION OF AVAILABLE INFORMATION.—In developing and prioritizing the list under paragraph (1), the Secretary shall consider, for each drug on the list—

"(A) the availability of information concerning the safe and effective use of the drug in the pediatric population;

"(B) whether additional information is needed;

"(C) whether new pediatric studies concerning the drug may produce health benefits in the pediatric population; and

"(D) whether reformulation of the drug is necessary.

"(b) CONTRACTS FOR PEDIATRIC STUDIES.—

The Secretary shall award contracts to entities that have the expertise to conduct pediatric clinical trials (including qualified universities, hospitals, laboratories, contract research organizations, federally funded programs such as pediatric pharmacology research units, other public or private institutions, or individuals) to enable the entities to conduct pediatric studies concerning one or more drugs identified in the list described in subsection (a).

"(c) PROCESS FOR CONTRACTS AND LABELING CHANGES.—

"(1) WRITTEN REQUEST TO HOLDERS OF APPROVED APPLICATIONS FOR DRUGS LACKING EXCLUSIVITY.—The Commissioner of Food and Drugs, in consultation with the Director of the National Institutes of Health, may issue a written request (which shall include a timeframe for negotiations for an agreement) for pediatric studies concerning a drug identified in the list described in subsection (a)(1)(A) (except clause (iv)) to all holders of an approved application for the drug under section 505 of the Federal Food, Drug, and Cosmetic Act. Such a written request shall be made in a manner equivalent to the manner in which a written request is made under subsection (a) or (b) of section 505A of the Federal Food, Drug, and Cosmetic Act, including with respect to information provided on the pediatric studies to be conducted pursuant to the request.

"(2) REQUESTS FOR CONTRACT PROPOSALS.—If the Commissioner of Food and Drugs does not receive a response to a written request issued under paragraph (1) within 30 days of the date on which a request was issued, or if a referral described in subsection (a)(1)(A)(iv) is made, the Secretary, acting through the Director of the National Institutes of Health

and in consultation with the Commissioner of Food and Drugs, shall publish a request for contract proposals to conduct the pediatric studies described in the written request.

“(3) **DISQUALIFICATION.**—A holder that receives a first right of refusal shall not be entitled to respond to a request for contract proposals under paragraph (2).

“(4) **GUIDANCE.**—Not later than 270 days after the date of enactment of this section, the Commissioner of Food and Drugs shall promulgate guidance to establish the process for the submission of responses to written requests under paragraph (1).

“(5) **CONTRACTS.**—A contract under this section may be awarded only if a proposal for the contract is submitted to the Secretary in such form and manner, and containing such agreements, assurances, and information as the Secretary determines to be necessary to carry out this section.

“(6) **REPORTING OF STUDIES.**—

“(A) **IN GENERAL.**—On completion of a pediatric study in accordance with a contract awarded under this section, a report concerning the study shall be submitted to the Director of the National Institutes of Health and the Commissioner of Food and Drugs. The report shall include all data generated in connection with the study.

“(B) **AVAILABILITY OF REPORTS.**—Each report submitted under subparagraph (A) shall be considered to be in the public domain (subject to section 505A(d)(4)(D) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355a(d)(4)(D)) and shall be assigned a docket number by the Commissioner of Food and Drugs. An interested person may submit written comments concerning such pediatric studies to the Commissioner of Food and Drugs, and the written comments shall become part of the docket file with respect to each of the drugs.

“(C) **ACTION BY COMMISSIONER.**—The Commissioner of Food and Drugs shall take appropriate action in response to the reports submitted under subparagraph (A) in accordance with paragraph (7).

“(7) **REQUESTS FOR LABELING CHANGE.**—During the 180-day period after the date on which a report is submitted under paragraph (6)(A), the Commissioner of Food and Drugs shall—

“(A) review the report and such other data as are available concerning the safe and effective use in the pediatric population of the drug studied;

“(B) negotiate with the holders of approved applications for the drug studied for any labeling changes that the Commissioner of Food and Drugs determines to be appropriate and requests the holders to make; and

“(C)(i) place in the public docket file a copy of the report and of any requested labeling changes; and

“(ii) publish in the Federal Register a summary of the report and a copy of any requested labeling changes.

“(8) **DISPUTE RESOLUTION.**—

“(A) **REFERRAL TO PEDIATRIC ADVISORY SUBCOMMITTEE OF THE ANTI-INFECTIVE DRUGS ADVISORY COMMITTEE.**—If, not later than the end of the 180-day period specified in paragraph (7), the holder of an approved application for the drug involved does not agree to any labeling change requested by the Commissioner of Food and Drugs under that paragraph, the Commissioner of Food and Drugs shall refer the request to the Pediatric Advisory Subcommittee of the Anti-Infective Drugs Advisory Committee.

“(B) **ACTION BY THE PEDIATRIC ADVISORY SUBCOMMITTEE OF THE ANTI-INFECTIVE DRUGS**

ADVISORY COMMITTEE.—Not later than 90 days after receiving a referral under subparagraph (A), the Pediatric Advisory Subcommittee of the Anti-Infective Drugs Advisory Committee shall—

“(i) review the available information on the safe and effective use of the drug in the pediatric population, including study reports submitted under this section; and

“(ii) make a recommendation to the Commissioner of Food and Drugs as to appropriate labeling changes, if any.

“(9) **FDA DETERMINATION.**—Not later than 30 days after receiving a recommendation from the Pediatric Advisory Subcommittee of the Anti-Infective Drugs Advisory Committee under paragraph (8)(B)(ii) with respect to a drug, the Commissioner of Food and Drugs shall consider the recommendation and, if appropriate, make a request to the holders of approved applications for the drug to make any labeling change that the Commissioner of Food and Drugs determines to be appropriate.

“(10) **FAILURE TO AGREE.**—If a holder of an approved application for a drug, within 30 days after receiving a request to make a labeling change under paragraph (9), does not agree to make a requested labeling change, the Commissioner may deem the drug to be misbranded under the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 301 et seq.).

“(11) **NO EFFECT ON AUTHORITY.**—Nothing in this subsection limits the authority of the United States to bring an enforcement action under the Federal Food, Drug, and Cosmetic Act when a drug lacks appropriate pediatric labeling. Neither course of action (the Pediatric Advisory Subcommittee of the Anti-Infective Drugs Advisory Committee process or an enforcement action referred to in the preceding sentence) shall preclude, delay, or serve as the basis to stay the other course of action.

“(12) **RECOMMENDATION FOR FORMULATION CHANGES.**—If a pediatric study completed under public contract indicates that a formulation change is necessary and the Secretary agrees, the Secretary shall send a nonbinding letter of recommendation regarding that change to each holder of an approved application.

“(d) **AUTHORIZATION OF APPROPRIATIONS.**—

“(1) **IN GENERAL.**—There are authorized to be appropriated to carry out this section—

“(A) \$200,000,000 for fiscal year 2002; and

“(B) such sums as are necessary for each of the 5 succeeding fiscal years.

“(2) **AVAILABILITY.**—Any amount appropriated under paragraph (1) shall remain available to carry out this section until expended.”

SEC. 4. WRITTEN REQUEST TO HOLDERS OF APPROVED APPLICATIONS FOR DRUGS THAT HAVE MARKET EXCLUSIVITY.

Section 505A(d) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355a(d)) is amended by adding at the end the following:

“(4) **WRITTEN REQUEST TO HOLDERS OF APPROVED APPLICATIONS FOR DRUGS THAT HAVE MARKET EXCLUSIVITY.**—

“(A) **REQUEST AND RESPONSE.**—If the Secretary makes a written request for pediatric studies (including neonates, as appropriate) under subsection (c) to the holder of an application approved under section 505(b)(1), the holder, not later than 180 days after receiving the written request, shall respond to the Secretary as to the intention of the holder to act on the request by—

“(i) indicating when the pediatric studies will be initiated, if the holder agrees to the request; or

“(ii) indicating that the holder does not agree to the request.

“(B) **NO AGREEMENT TO REQUEST.**—

“(i) **REFERRAL.**—If the holder does not agree to a written request within the time period specified in subparagraph (A), and if the Secretary determines that there is a continuing need for information relating to the use of the drug in the pediatric population (including neonates, as appropriate), the Secretary shall refer the drug to the Foundation for the National Institutes of Health established under section 499 of the Public Health Service Act (42 U.S.C. 290b) (referred to in this paragraph as the ‘Foundation’) for the conduct of the pediatric studies described in the written request.

“(ii) **PUBLIC NOTICE.**—The Secretary shall give public notice of the name of the drug, the name of the manufacturer, and the indications to be studied made in a referral under clause (i).

“(C) **LACK OF FUNDS.**—On referral of a drug under subparagraph (B)(i), the Foundation shall issue a proposal to award a grant to conduct the requested studies unless the Foundation certifies to the Secretary, within a timeframe that the Secretary determines is appropriate through guidance, that the Foundation does not have funds available under section 499(j)(9)(B)(i) to conduct the requested studies. If the Foundation so certifies, the Secretary shall refer the drug for inclusion on the list established under section 409I of the Public Health Service Act for the conduct of the studies.

“(D) **EFFECT OF SUBSECTION.**—Nothing in this subsection (including with respect to referrals from the Secretary to the Foundation) alters or amends section 301(j) of this Act or section 552 of title 5 or section 1905 of title 18, United States Code.

“(E) **NO REQUIREMENT TO REFER.**—Nothing in this subsection shall be construed to require that every declined written request shall be referred to the Foundation.

“(F) **WRITTEN REQUESTS UNDER SUBSECTION (b).**—For drugs under subsection (b) for which written requests have not been accepted, if the Secretary determines that there is a continuing need for information relating to the use of the drug in the pediatric population (including neonates, as appropriate), the Secretary shall issue a written request under subsection (c) after the date of approval of the drug.”

SEC. 5. TIMELY LABELING CHANGES FOR DRUGS GRANTED EXCLUSIVITY; DRUG FEES.

(a) **ELIMINATION OF USER FEE WAIVER FOR PEDIATRIC SUPPLEMENTS.**—Section 736(a)(1) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 379h(a)(1)) is amended—

(1) by striking subparagraph (F); and

(2) by redesignating subparagraph (G) as subparagraph (F).

(b) **LABELING CHANGES.**—

(1) **DEFINITION OF PRIORITY SUPPLEMENT.**—Section 201 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 321) is amended by adding at the end the following:

“(kk) **PRIORITY SUPPLEMENT.**—The term ‘priority supplement’ means a drug application referred to in section 101(4) of the Food and Drug Administration Modernization Act of 1997 (111 Stat. 2298).”

(2) **TREATMENT AS PRIORITY SUPPLEMENTS.**—Section 505A of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355a) is amended by adding at the end the following:

“(1) **LABELING SUPPLEMENTS.**—

(i) **PRIORITY STATUS FOR PEDIATRIC SUPPLEMENTS.**—Any supplement to an application under section 505 proposing a labeling change pursuant to a report on a pediatric study under this section—

“(A) shall be considered to be a priority supplement; and

“(B) shall be subject to the performance goals established by the Commissioner for priority drugs.

“(2) DISPUTE RESOLUTION.—

“(A) REQUEST FOR LABELING CHANGE AND FAILURE TO AGREE.—If the Commissioner determines that an application with respect to which a pediatric study is conducted under this section is approvable and that the only open issue for final action on the application is the reaching of an agreement between the sponsor of the application and the Commissioner on appropriate changes to the labeling for the drug that is the subject of the application, not later than 180 days after the date of submission of the application—

“(i) the Commissioner shall request that the sponsor of the application make any labeling change that the Commissioner determines to be appropriate; and

“(ii) if the sponsor of the application does not agree to make a labeling change requested by the Commissioner, the Commissioner shall refer the matter to the Pediatric Advisory Subcommittee of the Anti-Infective Drugs Advisory Committee.

“(B) ACTION BY THE PEDIATRIC ADVISORY SUBCOMMITTEE OF THE ANTI-INFECTIVE DRUGS ADVISORY COMMITTEE.—Not later than 90 days after receiving a referral under subparagraph (A)(ii), the Pediatric Advisory Subcommittee of the Anti-Infective Drugs Advisory Committee shall—

“(i) review the pediatric study reports; and

“(ii) make a recommendation to the Commissioner concerning appropriate labeling changes, if any.

“(C) CONSIDERATION OF RECOMMENDATIONS.—The Commissioner shall consider the recommendations of the Pediatric Advisory Subcommittee of the Anti-Infective Drugs Advisory Committee and, if appropriate, not later than 30 days after receiving the recommendation, make a request to the sponsor of the application to make any labeling change that the Commissioner determines to be appropriate.

“(D) MISBRANDING.—If the sponsor of the application, within 30 days after receiving a request under subparagraph (C), does not agree to make a labeling change requested by the Commissioner, the Commissioner may deem the drug that is the subject of the application to be misbranded.

“(E) NO EFFECT ON AUTHORITY.—Nothing in this subsection limits the authority of the United States to bring an enforcement action under this Act when a drug lacks appropriate pediatric labeling. Neither course of action (the Pediatric Advisory Subcommittee of the Anti-Infective Drugs Advisory Committee process or an enforcement action referred to in the preceding sentence) shall preclude, delay, or serve as the basis to stay the other course of action.”

SEC. 6. OFFICE OF PEDIATRIC THERAPEUTICS.

(a) ESTABLISHMENT.—The Secretary of Health and Human Services shall establish an Office of Pediatric Therapeutics within the Food and Drug Administration.

(b) DUTIES.—The Office of Pediatric Therapeutics shall be responsible for coordination and facilitation of all activities of the Food and Drug Administration that may have any effect on a pediatric population or the practice of pediatrics or may in any other way involve pediatric issues.

(c) STAFF.—The staff of the Office of Pediatric Therapeutics shall coordinate with employees of the Department of Health and Human Services who exercise responsibilities relating to pediatric therapeutics and shall include—

(1) 1 or more additional individuals with expertise concerning ethical issues presented

by the conduct of clinical research in the pediatric population; and

(2) 1 or more additional individuals with expertise in pediatrics as may be necessary to perform the activities described in subsection (b).

SEC. 7. NEONATES.

Section 505A(g) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355a(g)) is amended by inserting “(including neonates in appropriate cases)” after “pediatric age groups”.

SEC. 8. SUNSET.

Section 505A of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355a) is amended by striking subsection (j) and inserting the following:

“(j) SUNSET.—A drug may not receive any 6-month period under subsection (a) or (c) unless—

“(1) on or before October 1, 2007, the Secretary makes a written request for pediatric studies of the drug;

“(2) on or before October 1, 2007, an application for the drug is accepted for filing under section 505(b); and

“(3) all requirements of this section are met.”.

SEC. 9. DISSEMINATION OF PEDIATRIC INFORMATION.

Section 505A of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355a) (as amended by section 5(b)(2)) is amended by adding at the end the following:

“(m) DISSEMINATION OF PEDIATRIC INFORMATION.—

“(1) IN GENERAL.—Not later than 180 days after the date of submission of a report on a pediatric study under this section, the Commissioner shall make available to the public a summary of the medical and clinical pharmacology reviews of pediatric studies conducted for the supplement, including by publication in the Federal Register.

“(2) EFFECT OF SUBSECTION.—Nothing in this subsection alters or amends section 301(j) of this Act or section 552 of title 5 or section 1905 of title 18, United States Code.”.

SEC. 10. CLARIFICATION OF INTERACTION OF PEDIATRIC EXCLUSIVITY UNDER SECTION 505A OF THE FEDERAL FOOD, DRUG, AND COSMETIC ACT AND 180-DAY EXCLUSIVITY AWARDED TO AN APPLICANT FOR APPROVAL OF A DRUG UNDER SECTION 505(j) OF THAT ACT.

Section 505A of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355a) (as amended by section 9) is amended by adding at the end the following:

“(n) CLARIFICATION OF INTERACTION OF MARKET EXCLUSIVITY UNDER THIS SECTION AND MARKET EXCLUSIVITY AWARDED TO AN APPLICANT FOR APPROVAL OF A DRUG UNDER SECTION 505(j).—If a 180-day period under section 505(j)(5)(B)(iv) overlaps with a 6-month exclusivity period under this section, so that the applicant for approval of a drug under section 505(j) entitled to the 180-day period under that section loses a portion of the 180-day period to which the applicant is entitled for the drug, the 180-day period shall be extended from—

“(1) the date on which the 180-day period would have expired by the number of days of the overlap, if the 180-day period would, but for the application of this subsection, expire after the 6-month exclusivity period; or

“(2) the date on which the 6-month exclusivity period expires, by the number of days of the overlap if the 180-day period would, but for the application of this subsection, expire during the 6 month exclusivity period.”.

SEC. 11. PROMPT APPROVAL OF DRUGS UNDER SECTION 505(j) WHEN PEDIATRIC INFORMATION IS ADDED TO LABELING.

(a) IN GENERAL.—Section 505A of the Federal Food, Drug, and Cosmetics Act (21 U.S.C. 355a) (as amended by section 10) is amended by adding at the end the following:

“(o) PROMPT APPROVAL OF DRUGS UNDER SECTION 505(j) WHEN PEDIATRIC INFORMATION IS ADDED TO LABELING.—

“(1) GENERAL RULE.—A drug for which an application has been submitted or approved under section 505(j) shall not be considered ineligible for approval under that section or misbranded under section 502 on the basis that the labeling of the drug omits a pediatric indication or any other aspect of labeling pertaining to pediatric use when the omitted indication or other aspect is protected by patent or by exclusivity under clause (iii) or (iv) of section 505(j)(5)(D).

“(2) LABELING.—Notwithstanding clauses (iii) and (iv) of section 505(j)(5)(D), the Secretary may require that the labeling of a drug approved under section 505(j) that omits a pediatric indication or other aspect of labeling as described in paragraph (1) include—

“(A) a statement that, because of marketing exclusivity for a manufacturer—

“(i) the drug is not labeled for pediatric use; or

“(ii) in the case of a drug for which there is an additional pediatric use not referred to in paragraph (1), the drug is not labeled for the pediatric use under paragraph (1); and

“(B) a statement of any appropriate pediatric contraindications, warnings, or precautions that the Secretary considers necessary.

“(3) PRESERVATION OF PEDIATRIC EXCLUSIVITY AND OTHER PROVISIONS.—This subsection does not affect—

“(A) the availability or scope of exclusivity under this section;

“(B) the availability or scope of exclusivity under section 505 for pediatric formulations;

“(C) the question of the eligibility for approval of any application under section 505(j) that omits any other conditions of approval entitled to exclusivity under clause (iii) or (iv) of section 505(j)(5)(D); or

“(D) except as expressly provided in paragraphs (1) and (2), the operation of section 505.”.

(b) EFFECTIVE DATE.—The amendment made by subsection (a) takes effect on the date of enactment of this Act, including with respect to applications under section 505(j) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(j)) that are approved or pending on that date.

SEC. 12. STUDY CONCERNING RESEARCH INVOLVING CHILDREN.

(a) CONTRACT WITH INSTITUTE OF MEDICINE.—The Secretary of Health and Human Services shall enter into a contract with the Institute of Medicine for—

(1) the conduct, in accordance with subsection (b), of a review of—

(A) Federal regulations in effect on the date of the enactment of this Act relating to research involving children;

(B) federally prepared or supported reports relating to research involving children; and

(C) federally supported evidence-based research involving children; and

(2) the submission to the Committee on Health, Education, Labor, and Pensions of the Senate and the Committee on Energy and Commerce of the House of Representatives, not later than 2 years after the date of enactment of this Act, of a report concerning the review conducted under paragraph (1)

that includes recommendations on best practices relating to research involving children.

(b) AREAS OF REVIEW.—In conducting the review under subsection (a)(1), the Institute of Medicine shall consider the following:

(1) The written and oral process of obtaining and defining “assent”, “permission” and “informed consent” with respect to child clinical research participants and the parents, guardians, and the individuals who may serve as the legally authorized representatives of such children (as defined in subpart A of part 46 of title 45, Code of Federal Regulations).

(2) The expectations and comprehension of child research participants and the parents, guardians, or legally authorized representatives of such children, for the direct benefits and risks of the child's research involvement, particularly in terms of research versus therapeutic treatment.

(3) The definition of “minimal risk” with respect to a healthy child or a child with an illness.

(4) The appropriateness of the regulations applicable to children of differing ages and maturity levels, including regulations relating to legal status.

(5) Whether payment (financial or otherwise) may be provided to a child or his or her parent, guardian, or legally authorized representative for the participation of the child in research, and if so, the amount and type of payment that may be made.

(6) Compliance with the regulations referred to in subsection (a)(1)(A), the monitoring of such compliance (including the role of institutional review boards), and the enforcement actions taken for violations of such regulations.

(7) The unique roles and responsibilities of institutional review boards in reviewing research involving children, including composition of membership on institutional review boards.

(c) REQUIREMENTS OF EXPERTISE.—The Institute of Medicine shall conduct the review under subsection (a)(1) and make recommendations under subsection (a)(2) in conjunction with experts in pediatric medicine, pediatric research, and the ethical conduct of research involving children.

SEC. 13. FOUNDATION FOR THE NATIONAL INSTITUTES OF HEALTH.

Section 499 of the Public Health Service Act (42 U.S.C. 290b) is amended—

(1) in subsection (b), by inserting “(including collection of funds for pediatric pharmacologic research)” after “mission”;

(2) in subsection (c)(1)—

(A) by redesignating subparagraph (C) as subparagraph (D); and

(B) by inserting after subparagraph (B) the following:

“(C) A program to collect funds for pediatric pharmacologic research and studies listed by the Secretary pursuant to section 409I(a)(1)(A) of this Act and referred under section 505A(d)(4)(C) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355a(d)(4)(C)).”;

(3) in subsection (d)—

(A) in paragraph (1)—

(i) in subparagraph (B)—

(I) in clause (ii), by striking “and” at the end;

(II) in clause (iii), by striking the period and inserting “; and”;

(III) by adding at the end the following:

“(iv) the Commissioner of Food and Drugs.”; and

(ii) by striking subparagraph (C) and inserting the following:

“(C) The ex officio members of the Board under subparagraph (B) shall appoint to the

Board individuals from among a list of candidates to be provided by the National Academy of Science. Such appointed members shall include—

“(i) representatives of the general biomedical field;

“(ii) representatives of experts in pediatric medicine and research;

“(iii) representatives of the general biobehavioral field, which may include experts in biomedical ethics; and

“(iv) representatives of the general public, which may include representatives of affected industries.”; and

(B) in paragraph (2), by realigning the margin of subparagraph (B) to align with subparagraph (A);

(4) in subsection (k)(9)—

(A) by striking “The Foundation” and inserting the following:

“(A) IN GENERAL.—The Foundation”; and

(B) by adding at the end the following:

“(B) GIFTS, GRANTS, AND OTHER DONATIONS.—

“(i) IN GENERAL.—Gifts, grants, and other donations to the Foundation may be designated for pediatric research and studies on drugs, and funds so designated shall be used solely for grants for research and studies under subsection (c)(1)(C).

“(ii) OTHER GIFTS.—Other gifts, grants, or donations received by the Foundation and not described in clause (i) may also be used to support such pediatric research and studies.

“(iii) REPORT.—The recipient of a grant for research and studies shall agree to provide the Director of the National Institutes of Health and the Commissioner of Food and Drugs, at the conclusion of the research and studies—

“(I) a report describing the results of the research and studies; and

“(II) all data generated in connection with the research and studies.

“(iv) ACTION BY THE COMMISSIONER OF FOOD AND DRUGS.—The Commissioner of Food and Drugs shall take appropriate action in response to a report received under clause (iii) in accordance with paragraphs (7) through (12) of section 409I(c), including negotiating with the holders of approved applications for the drugs studied for any labeling changes that the Commissioner determines to be appropriate and requests the holders to make.

“(C) APPLICABILITY.—Subparagraph (A) does not apply to the program described in subsection (c)(1)(C).”;

(5) by redesignating subsections (f) through (m) as subsections (e) through (l), respectively;

(6) in subsection (h)(11) (as so redesignated), by striking “solicit” and inserting “solicit,”; and

(7) in paragraphs (1) and (2) of subsection (j) (as so redesignated), by striking “(including those developed under subsection (d)(2)(B)(i)(II))” each place it appears.

SEC. 14. PEDIATRIC PHARMACOLOGY ADVISORY COMMITTEE.

(a) IN GENERAL.—The Secretary of Health and Human Services shall, under section 222 of the Public Health Service Act (42 U.S.C. 217a), convene and consult an advisory committee on pediatric pharmacology (referred to in this section as the “advisory committee”).

(b) PURPOSE.—

(1) IN GENERAL.—The advisory committee shall advise and make recommendations to the Secretary, through the Commissioner of Food and Drugs and in consultation with the Director of the National Institutes of Health, on matters relating to pediatric pharmacology.

(2) MATTERS INCLUDED.—The matters referred to in paragraph (1) include—

(A) pediatric research conducted under sections 351, 409I, and 499 of the Public Health Service Act and sections 501, 502, 505, and 505A of the Federal Food, Drug, and Cosmetic Act;

(B) identification of research priorities related to pediatric pharmacology and the need for additional treatments of specific pediatric diseases or conditions; and

(C) the ethics, design, and analysis of clinical trials related to pediatric pharmacology.

(c) COMPOSITION.—The advisory committee shall include representatives of pediatric health organizations, pediatric researchers, relevant patient and patient-family organizations, and other experts selected by the Secretary.

SEC. 15. PEDIATRIC SUBCOMMITTEE OF THE ONCOLOGIC DRUGS ADVISORY COMMITTEE.

(a) CLARIFICATION OF AUTHORITIES.—

(1) IN GENERAL.—The Pediatric Subcommittee of the Oncologic Drugs Advisory Committee (referred to in this section as the “Subcommittee”), in carrying out the mission of reviewing and evaluating the data concerning the safety and effectiveness of marketed and investigational human drug products for use in the treatment of pediatric cancers, shall—

(A) evaluate and, to the extent practicable, prioritize new and emerging therapeutic alternatives available to treat pediatric cancer;

(B) provide recommendations and guidance to help ensure that children with cancer have timely access to the most promising new cancer therapies; and

(C) advise on ways to improve consistency in the availability of new therapeutic agents.

(2) MEMBERSHIP.—

(A) IN GENERAL.—The Secretary shall appoint not more than 11 voting members to the Pediatric Subcommittee from the membership of the Pediatric Pharmacology Advisory Committee and the Oncologic Drugs Advisory Committee.

(B) REQUEST FOR PARTICIPATION.—The Subcommittee shall request participation of the following members in the scientific and ethical consideration of topics of pediatric cancer, as necessary:

(i) At least 2 pediatric oncology specialists from the National Cancer Institute.

(ii) At least 4 pediatric oncology specialists from—

(I) the Children's Oncology Group;

(II) other pediatric experts with an established history of conducting clinical trials in children; or

(III) consortia sponsored by the National Cancer Institute, such as the Pediatric Brain Tumor Consortium, the New Approaches to Neuroblastoma Therapy or other pediatric oncology consortia.

(iii) At least 2 representatives of the pediatric cancer patient and patient-family community.

(iv) 1 representative of the nursing community.

(v) At least 1 statistician.

(vi) At least 1 representative of the pharmaceutical industry.

(b) PRE-CLINICAL MODELS TO EVALUATE PROMISING PEDIATRIC CANCER THERAPIES.—Section 413 of the Public Health Service Act (42 U.S.C. 285a-2) is amended by adding at the end the following:

“(c) PRE-CLINICAL MODELS TO EVALUATE PROMISING PEDIATRIC CANCER THERAPIES.—

“(1) EXPANSION AND COORDINATION OF ACTIVITIES.—The Director of the National Cancer Institute shall expand, intensify, and coordinate the activities of the Institute with respect to research on the development of preclinical models to evaluate which therapies are likely to be effective for treating pediatric cancer.”

“(2) COORDINATION WITH OTHER INSTITUTES.—The Director of the Institute shall coordinate the activities under paragraph (1) with similar activities conducted by other national research institutes and agencies of the National Institutes of Health to the extent that those Institutes and agencies have responsibilities that are related to pediatric cancer.”

(c) CLARIFICATION OF AVAILABILITY OF INVESTIGATIONAL NEW DRUGS FOR PEDIATRIC STUDY AND USE.—

(1) AMENDMENT OF THE FEDERAL FOOD, DRUG, AND COSMETIC ACT.—Section 505(i)(1) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(i)(1)) is amended—

(A) in subparagraph (B), by striking “and” at the end;

(B) in subparagraph (C), by striking the period at the end and inserting “; and”; and

(C) by adding at the end the following:

“(D) the submission to the Secretary by the manufacturer or the sponsor of the investigation of a new drug of a statement of intent regarding whether the manufacturer or sponsor has plans for assessing pediatric safety and efficacy.”.

(2) AMENDMENT OF THE PUBLIC HEALTH SERVICE ACT.—Section 402(j)(3)(A) of the Public Health Service Act (42 U.S.C. 282(j)(3)(A)) is amended in the first sentence—

(A) by striking “trial sites, and” and inserting “trial sites.”; and

(B) by striking “in the trial,” and inserting “in the trial, and a description of whether, and through what procedure, the manufacturer or sponsor of the investigation of a new drug will respond to requests for protocol exception, with appropriate safeguards, for single-patient and expanded protocol use of the new drug, particularly in children.”.

(d) REPORT.—Not later than January 31, 2003, the Secretary of Health and Human Services, acting through the Commissioner of Food and Drugs and in consultation with the Director of the National Institutes of Health, shall submit to the Committee on Health, Education, Labor, and Pensions of the Senate and the Committee on Energy and Commerce of the House of Representatives a report on patient access to new therapeutic agents for pediatric cancer, including access to single patient use of new therapeutic agents.

SEC. 16. REPORT ON PEDIATRIC EXCLUSIVITY PROGRAM.

Not later than October 1, 2006, the Comptroller General of the United States, in consultation with the Secretary of Health and Human Services, shall submit to Congress a report that addresses the following issues, using publicly available data or data otherwise available to the Government that may be used and disclosed under applicable law:

(1) The effectiveness of section 505A of the Federal Food, Drug, and Cosmetic Act and section 409I of the Public Health Service Act (as added by this Act) in ensuring that medicines used by children are tested and properly labeled, including—

(A) the number and importance of drugs for children that are being tested as a result of this legislation and the importance for children, health care providers, parents, and others of labeling changes made as a result of such testing;

(B) the number and importance of drugs for children that are not being tested for their use notwithstanding the provisions of this legislation, and possible reasons for the lack of testing; and

(C) the number of drugs for which testing is being done, exclusivity granted, and labeling changes required, including the date pediatric exclusivity is granted and the date labeling changes are made and which labeling changes required the use of the dispute resolution process established pursuant to the amendments made by this Act, together with a description of the outcomes of such process, including a description of the disputes and the recommendations of the Pediatric Advisory Subcommittee of the Anti-Infective Drugs Advisory Committee.

(2) The economic impact of section 505A of the Federal Food, Drug, and Cosmetic Act and section 409I of the Public Health Service Act (as added by this Act), including an estimate of—

(A) the costs to taxpayers in the form of higher expenditures by Medicaid and other Government programs;

(B) sales for each drug during the 6-month period for which exclusivity is granted, as attributable to such exclusivity;

(C) costs to consumers and private insurers as a result of any delay in the availability of lower cost generic equivalents of drugs tested and granted exclusivity under the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 301 et seq.), and loss of revenue by the generic drug industry and retail pharmacies as a result of any such delay; and

(D) the benefits to the government, to private insurers, and to consumers resulting from decreased health care costs, including—

(i) decreased hospitalizations and fewer medical errors, due to more appropriate and more effective use of medications in children as a result of testing and re-labeling because of the amendments made by this Act;

(ii) direct and indirect benefits associated with fewer physician visits not related to hospitalization;

(iii) benefits to children from missing less time at school and being less affected by chronic illnesses, thereby allowing a better quality of life;

(iv) benefits to consumers from lower health insurance premiums due to lower treatment costs and hospitalization rates; and

(v) benefits to employers from reduced need for employees to care for family members.

(3) The nature and type of studies in children for each drug granted exclusivity under the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 301 et seq.), including—

(A) a description of the complexity of the studies;

(B) the number of study sites necessary to obtain appropriate data;

(C) the numbers of children involved in any clinical studies; and

(D) the estimated cost of each of the studies.

(4) Any recommendations for modifications to the programs established under section 505A of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355a) and section 409I of the Public Health Service Act (as added by section 3) that the Secretary determines to be appropriate, including a detailed rationale for each recommendation.

(5) The increased private and Government-funded pediatric research capability associated with this Act and the amendments made by this Act.

(6) The number of written requests and additional letters of recommendation that the Secretary issues.

(7) The prioritized list of off-patent drugs for which the Secretary issues written requests.

(8)(A) The efforts made by Secretary to increase the number of studies conducted in the neonate population; and

(B) the results of those efforts, including efforts made to encourage the conduct of appropriate studies in neonates by companies with products that have sufficient safety and other information to make the conduct of studies ethical and safe.

SEC. 17. ADVERSE-EVENT REPORTING.

(a) TOLL-FREE NUMBER IN LABELING.—Not later than one year after the date of the enactment of this Act, the Secretary of Health and Human Services shall promulgate a final rule requiring that the labeling of each drug for which an application is approved under section 505 of the Federal Food, Drug, and Cosmetic Act (regardless of the date on which approved) include the toll-free number maintained by the Secretary for the purpose of receiving reports of adverse events regarding drugs and a statement that such number is to be used for reporting purposes only, not to receive medical advice. With respect to the final rule:

(1) The rule shall provide for the implementation of such labeling requirement in a manner that the Secretary considers to be most likely to reach the broadest consumer audience.

(2) In promulgating the rule, the Secretary shall seek to minimize the cost of the rule on the pharmacy profession.

(3) The rule shall take effect not later than 60 days after the date on which the rule is promulgated.

(b) DRUGS WITH PEDIATRIC MARKET EXCLUSIVITY.—

(1) IN GENERAL.—During the one-year beginning on the date on which a drug receives a period of market exclusivity under 505A of the Federal Food, Drug, and Cosmetic Act, any report of an adverse event regarding the drug that the Secretary of Health and Human Services receives shall be referred to the Office of Pediatric Therapeutics established under section 6 of this Act. In considering the report, the Director of such Office shall provide for the review of the report by the Pediatric Advisory Subcommittee of the Anti-Infective Drugs Advisory Committee, including obtaining any recommendations of such Subcommittee regarding whether the Secretary should take action under the Federal Food, Drug, and Cosmetic Act in response to the report.

(2) RULE OF CONSTRUCTION.—Paragraph (1) may not be construed as restricting the authority of the Secretary of Health and Human Services to continue carrying out the activities described in such paragraph regarding a drug after the one-year period described in such paragraph regarding the drug has expired.

SEC. 18. MINORITY CHILDREN AND PEDIATRIC EXCLUSIVITY PROGRAM.

(a) PROTOCOLS FOR PEDIATRIC STUDIES.—Section 505A of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355a) is amended in subsection (d)(2) by inserting after the first sentence the following: “In reaching an agreement regarding written protocols, the Secretary shall take into account adequate representation of children of ethnic and racial minorities.”.

(b) STUDY BY GENERAL ACCOUNTING OFFICE.—

(1) IN GENERAL.—The Comptroller General of the United States shall conduct a study for the purpose of determining the following:

(A) The extent to which children of ethnic and racial minorities are adequately represented in studies under section 505A of the Federal Food, Drug, and Cosmetic Act; and to the extent ethnic and racial minorities are not adequately represented, the reasons for such under representation and recommendations to increase such representation.

(B) Whether the Food and Drug Administration has appropriate management systems to monitor the representation of the children of ethnic and racial minorities in such studies.

(C) Whether drugs used to address diseases that disproportionately affect racial and ethnic minorities are being studied for their safety and effectiveness under section 505A of the Federal Food, Drug, and Cosmetic Act.

(2) DATE CERTAIN FOR COMPLETING STUDY.—Not later than January 10, 2003, the Comptroller General shall complete the study required in paragraph (1) and submit to the Congress a report describing the findings of the study.

SEC. 19. TECHNICAL AND CONFORMING AMENDMENTS.

Section 505A of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355a) (as amended by sections 2(1), 5(b)(2), 9, 10, 11, and 17) is amended—

(1)(A) by striking “(j)(4)(D)(ii)” each place it appears and inserting “(j)(5)(D)(ii)”;

(B) by striking “(j)(4)(D)” each place it appears and inserting “(j)(5)(D)”;

(C) by striking “505(j)(4)(D)” each place it appears and inserting “505(j)(5)(D)”;

(2) by redesignating subsections (a), (g), (h), (i), (j), (k), (l), (m), (n), and (o) as subsections (b), (a), (g), (h), (n), (m), (i), (j), (k), and (l) respectively;

(3) by moving the subsections so as to appear in alphabetical order;

(4) in paragraphs (1), (2), and (3) of subsection (d), subsection (e), and subsection (m) (as redesignated by paragraph (2)), by striking “subsection (a) or (c)” and inserting “subsection (b) or (c)”;

(5) in subsection (g) (as redesignated by paragraph (2)), by striking “subsection (a) or (b)” and inserting “subsection (b) or (c)”.

POST TERRORISM MENTAL HEALTH IMPROVEMENT ACT

Mr. REID. Madam President, I ask unanimous consent that the Senate proceed to the immediate consideration of Calendar No. 236, S. 1729.

The PRESIDING OFFICER. The clerk will state the bill by title.

The legislative clerk read as follows:

A bill (S. 1729) to provide assistance with respect to the mental health needs of individuals affected by the terrorist attacks of September 11, 2001.

There being no objection, the Senate proceeded to consider the bill.

AMENDMENT NO. 2503

Mr. REID. Madam President, I understand that Senators KENNEDY and WARNER have a substitute amendment at the desk.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Nevada [Mr. REID], for Mr. KENNEDY, for himself, Mr. WARNER, Mr.

FRIST, Mrs. CLINTON, Mr. WELLSTONE, Ms. COLLINS, Mrs. MURRAY, and Mr. DOMENICI, proposes an amendment numbered 2503.

Mr. REID. Madam President, I ask unanimous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To provide for a complete substitute)

Strike all after the enacting clause and insert the following:

SECTION 1. SHORT TITLE.

This Act may be cited as the “Post Terrorism Mental Health Improvement Act”.

SEC. 2. PLANNING AND TRAINING GRANTS.

Section 520A of the Public Health Service Act (42 U.S.C. 290bb-32) is amended—

(1) in subsection (a)—

(A) in paragraph (2), by inserting before the semicolon the following: “, including the training of mental health professionals with respect to evidence-based practices in the treatment of individuals who are victims of a disaster”;

(B) in paragraph (3), by striking “and” at the end;

(C) in paragraph (4), by striking the period and inserting a semicolon; and

(D) by inserting after paragraph (4), the following:

“(5) the development of coordinated response plans for responding to the mental health needs (including the response efforts of private organizations) that arise from a disaster, including the development and expansion of the 2-1-1 or other universal hotline as appropriate; and

“(6) the establishment of a mental health disaster response clearinghouse.”;

(2) by redesignating subsection (f) as subsection (h); and

(3) by inserting after subsection (e) the following:

“(f) STATE COMMENTS.—With respect to a State or local public entity that submits an application for assistance under this section and that intends to use such assistance as provided for in subsection (a)(5), such entity shall provide notice of such application to the chief executive officer of the State, the State mental health department, and the State office responsible for emergency preparedness who shall consult with providers and organizations serving public safety officials and others involved in responding to the crisis, and provide such officer, department and office with the opportunity to comment on such application.

“(g) DEFINITION.—For purposes of subsection (a)(2), the term ‘mental health professional’ includes psychiatrists, psychologists, clinical psychiatric nurse specialists, mental health counselors, marriage and family therapists, clinical social workers, pastoral counselors, school psychologists, licensed professional counselors, school guidance counselors, and any other individual practicing in a mental health profession that is licensed or regulated by a State agency.”.

SEC. 3. GRANTS TO DIRECTLY AFFECTED AREAS TO ADDRESS LONG-TERM NEEDS.

(a) IN GENERAL.—The Secretary of Health and Human Services (referred to in this section as the “Secretary”) shall award grants to eligible State and local governments and other public entities to enable such entities to respond to the long-term mental health needs arising from the terrorist attacks of September 11, 2001.

(b) ELIGIBILITY.—To be eligible to receive a grant under subsection (a) an entity shall—

(1) be a State or local government or other public entity that is located in an area that is directly affected (as determined by the Secretary) by the terrorist attacks of September 11, 2001; and

(2) prepare and submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require.

(c) USE OF FUNDS.—A grantee shall use amounts received under a grant under subsection (a)—

(1) to carry out activities to locate individuals who may be affected by the terrorist attacks of September 11, 2001 and in need of mental health services;

(2) to provide treatment for those individuals identified under paragraph (1) who are suffering from a serious psychiatric illness as a result of such terrorist attack, including paying the costs of necessary medications; and

(3) to carry out other activities determined appropriate by the Secretary.

(d) SUPPLEMENT NOT SUPPLANT.—Amounts expended for treatments under subsection (c)(2) shall be used to supplement and not supplant amounts otherwise made available for such treatments (including medications) under any other Federal, State, or local program or under any health insurance coverage.

(e) USE OF PRIVATE ENTITIES AND EXISTING PROVIDERS.—To the extent appropriate, a grantee under subsection (a) shall—

(1) enter into contracts with private, non-profit entities to carry out activities under the grant; and

(2) to the extent feasible, utilize providers that are already serving the affected population, including providers used by public safety officials.

(f) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section such sums as may be necessary in each of fiscal years 2002 through 2005.

SEC. 4. RESEARCH.

Part A of title II of the Public Health Service Act (42 U.S.C. 202 et seq.) is amended by adding at the end the following:

“SEC. 229. RESEARCH.

“Notwithstanding any other provision of law, the Secretary may waive any restriction on the amount of supplemental funding that may be provided to any disaster-related scientific research project that is funded by the Secretary.”.

SEC. 5. CHILDREN WHO EXPERIENCE VIOLENCE-RELATED STRESS.

(a) IN GENERAL.—Section 582(f) of the Public Health Service Act (42 U.S.C. 290hh-1(f)) is amended by striking “2002 and 2003” and inserting “2002 through 2005”.

(b) SENSE OF CONGRESS.—It is the sense of Congress that the program established under section 582 of the Public Health Service Act (42 U.S.C. 290hh-1) should be fully funded.

Mr. KENNEDY. Madam President, mental illnesses inflicted by tragedies like the assault on the World Trade Center and the Pentagon are a serious problem. Every American family is at risk, whether a loved one worked at the World Trade Center or the Pentagon, or whether the family simply watched the attack on television from a continent away. Studies of other disasters teach us that the most vulnerable are those who are most directly

affected, but even those less directly touched by these tragedies are vulnerable.

The hearing on September 26 made it clear that Congress has an obligation to assure that these mental health needs are met and that we are better prepared for the mental health consequences of future tragedies. Our witnesses, as well as other experts in the field, identified four key needs: better advance planning and preparedness, training of mental health professionals to treat the specific mental health needs arising from disasters, resources to identify and treat those who will suffer long-term mental health problems as a result of the September 11 attack, research on how to improve our responses to the needs of disaster victims.

The legislation passed through the Senate today by unanimous consent intended to meet all four of these needs. This help is essential for the individuals and families who were injured or lost a loved one, for the brave public safety officers who put their lives on the line trying to rescue or recover victims, and for the many other Americans of all ages in communities across the country who have suffered psychological trauma as the result of these attacks. The bill was developed in close collaboration with Senator WARNER, Senator FRIST, Senator CLINTON, Senator WELLSTONE, and Senator GREGG made important contributions and I thank them for their efforts.

It is my hope that it will be approved by the House, and that it will be followed by an adequate allocation of funds to help all those who need it.

Mr. WARNER. Madam President, yesterday marked the three month anniversary of one of the most tragic days in American history. While the loathsome, cowardly acts of terrorism that took place on September 11, 2001 have deeply wounded our country, they have not, and never will, dull the spirit and resolve of the American people.

My thoughts and prayers continue to be with those who lost loved ones on that horrific day. And, I continue to express my deepest appreciation to the thousands of individuals who stepped up on the face of danger to assist in the devastating aftermath at the Pentagon, the World Trade Center, and at the Pennsylvania crash site.

The Congress has come together, speaking with a unified bipartisan voice, on several pieces of legislation. Members of Congress have joined together in support of our President and his determination to punish the perpetrators of these attacks. We have joined together on legislation to help law enforcement prevent additional acts of terrorism and to help law enforcement bring terrorists to justice. We have also come together to provide additional resources to bolster our public health infrastructure to better pre-

pare this country in the event of a more widespread biological attack.

I rise today to express my gratitude for my colleagues' willingness to work in a bipartisan fashion on yet another piece of legislation in response to the September 11 attacks. On November 27, 2001, the Health, Education, Labor, and Pensions Committee reported out legislation to provide assistance with the mental health needs of individuals affected by the terrorist attacks of September 11, 2001.

Today, I am pleased to report that this legislation, which I worked so closely on with Senators KENNEDY, FRIST, and GREGG, has passed the Senate by unanimous consent.

The legislation has three main components. First, it authorizes the Secretary of Health and Human Services to provide grants to areas that are directly affected by the attacks of September 11, 2001, such as Northern Virginia and New York City. Grants can be used by State and local governments to respond to the long-term mental health needs arising from that disaster, particularly for the treatment of those individuals who do not have mental health insurance coverage or who are under-insured.

Second, the bill permits the Secretary to provide grants for training mental health professionals in the treatment of certain disorders, such as post traumatic stress disorder, that may result from disasters.

Finally, the legislation permits the Secretary to make grants to States and localities to develop a coordinated mental health response plan in the event of a future disaster.

While the extent of the long term mental health consequences of September 11, 2001 are not entirely known, the needs are certain to be serious. This legislation makes it clear that Congress is committed to meeting the essential mental health needs of the individuals and families who were injured or killed in the terrorist attacks on this great Nation.

I thank my colleagues for their support of this legislation.

Mr. REID. Madam President, I ask unanimous consent that the amendment be agreed to, the motion to reconsider be laid upon the table; the bill, as amended, be read the third time and passed, the motion to reconsider be laid upon the table, with no intervening action, and that any statements related to the bill be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment (No. 2503) was agreed to.

The bill (S. 1729), as amended, was read the third time and passed.

ADMINISTRATIVE SIMPLIFICATION COMPLIANCE ACT

Mr. REID. Madam President, I ask unanimous consent that the Senate im-

mediately proceed to Calendar No. 256, H.R. 3323.

The PRESIDING OFFICER. The clerk will state the bill by title.

The legislative clerk read as follows:

A bill (H.R. 3323) to ensure that covered entities comply with the standards for electronic health care transactions and code sets adopted under part C of title XI of the Social Security Act, and for other purposes.

There being no objection, the Senate proceeded to consider the bill.

Mr. REID. Madam President, I ask unanimous consent that the bill be read the third time and passed, the motion to reconsider be laid upon the table, and that any statements relating thereto be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (H.R. 3323) was read the third time and passed.

Mr. DORGAN. Madam President, today the Senate has passed H.R. 3323, a bill that waives the penalties for state health programs, health care providers, and health plans that are unable to comply with the transactions and code sets regulation of the Health Insurance Portability and Accountability Act by October 16, 2002. This bill is different from the bill passed by the Senate on November 27, and frankly, I would prefer that we simply provide the one-year extension to those entities that need it, as provided for in the Senate bill. However, the time remaining in this session of Congress is short, and the House bill will offer a measure of help to those in our states.

The House bill would require that, in order to receive a waiver, those entities needing more time to comply with the transactions and code sets regulation would have to submit a plan to the Secretary of Health and Human Services explaining how they plan to come into compliance by October 16, 2003. When Senator CRAIG and I first introduced legislation on this issue more than six months ago, we are attempting to help alleviate a burden on covered entities. It is not our intention in passing this bill to place a significant new burden on health care providers, states, and health plans.

Mr. CRAIG. Madam President, I share Senator DORGAN's concern that the compliance plans called for in the House bill not be unduly burdensome. The terrorist attacks of September 11th, and concern about bioterrorism, are putting an additional pressure on our already overtaxed public health system, so imposing new burdens is something we should try to minimize. Therefore, we strongly encourage Health and Human Services Secretary Thompson to ensure that the requirement to file a compliance plan imposes as little a burden as possible.

Mr. BAYH. I want to associate myself with the remarks of my colleagues, Senators DORGAN and CRAIG. As a former governor, I also want to raise a

potential concern that has been brought to my attention by some states. The Medicaid program is explicitly covered by HIPAA, but there are many other state programs with health components that may or may not be covered. Before states go through the potentially unnecessary work of submitting compliance plans that may not be needed, I feel strongly that HHS should provide guidance to states about what other plans are required. In addition, HHS should provide technical assistance as to what resources states can use for developing the compliance plans called for by the House bill. States should submit their plans for the Medicaid program and receive guidance from the HHS before submitting state plans that deal with other programs. Only with the appropriate and critical information can HHS and the states create a successful partnership.

Mr. DORGAN. I thank the Senator for raising this important concern. I agree that HHS should provide states with the necessary guidance. I also want to note that when Senator CRAIG and I first introduced legislation on this issue it was our intention not to affect the implementation of the medical privacy regulation. I'm pleased that this bill accomplishes that goal, and the medical records privacy rule will not be delayed or affected in any way.

Mr. CRAIG. I, too, am glad that we have been able to protect the privacy rule, and I want to make one final point in that regard. Nothing in this bill is designed to create any new covered entities under the privacy rule. Our intention in safeguarding the privacy rule was to keep it intact but not to expand the class of covered entities currently contemplated by it.

Mr. DORGAN. In closing, I thank Senator CRAIG for his long and hard work on this issue, as well as Senators BAUCUS, GRASSLEY, KENNEDY, and the many cosponsors of our original legislation, for their help in reaching enactment of this bill.

EXPRESSING THE SENSE OF CONGRESS REGARDING TUBEROUS SCLEROSIS

Mr. REID. I ask unanimous consent that the health committee be discharged from further consideration of H. Con. Res. 25, and the Senate proceed to its immediate consideration.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will report the resolution by title.

The legislative clerk read as follows:

A concurrent resolution (H. Con. Res. 25) expressing the sense of the Congress regarding tuberous sclerosis.

There being no objection, the Senate proceeded to the immediate consideration of the concurrent resolution.

Mr. REID. I ask unanimous consent the resolution be agreed to, the preamble be agreed to, the motion to reconsider be laid on the table, and that any statements be printed in the

RECORD, with no intervening action or debate.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (H. Con. Res. 25) was agreed to.

The preamble was agreed to.

DISTRICT OF COLUMBIA COLLEGE ACCESS IMPROVEMENT ACT OF 2001

Mr. REID. I ask unanimous consent that the Senate proceed to the consideration of Calendar No. 244, H.R. 1499.

The PRESIDING OFFICER. The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (H.R. 1499) to amend the District of Columbia College Access Act of 1999 to permit individuals who graduated from a secondary school prior to 1998 and individuals who enroll in an institution of higher education more than 3 years after graduating from a secondary school to participate in the tuition assistance programs under such Act, and for other purposes.

The Senate proceeded to consider the bill which had been reported from the Committee on Governmental Affairs, with an amendment to strike all after the enacting clause and insert in lieu thereof the following:

SECTION 1. SHORT TITLE.

This Act may be cited as the "District of Columbia College Access Improvement Act of 2001".

SEC. 2. PUBLIC SCHOOL PROGRAM.

Section 3(c)(2) of the District of Columbia College Access Act of 1999 is amended by striking subparagraphs (A) through (C) and inserting the following:

"(A)(i) for individuals who begin an undergraduate course of study within 3 calendar years (excluding any period of service on active duty in the armed forces, or service under the Peace Corps Act (22 U.S.C. 2501 et seq.) or subtitle D of title I of the National and Community Service Act of 1990 (42 U.S.C. 12571 et seq.)) of graduation from a secondary school, or obtaining the recognized equivalent of a secondary school diploma, was domiciled in the District of Columbia for not less than the 12 consecutive months preceding the commencement of the freshman year at an institution of higher education; or

"(ii) for all other individuals and for those applicants re-enrolling after more than a 3-year break in their post-secondary education, has been domiciled in the District of Columbia for at least 5 consecutive years at the date of application;

"(B)(i) graduated from a secondary school or received the recognized equivalent of a secondary school diploma on or after January 1, 1998;

"(ii) for applicants that did not graduate from a secondary school or receive a recognized equivalent of a secondary school diploma, is accepted for enrollment as a freshman at an eligible institution on or after January 1, 2002; or

"(iii) for applicants who graduated from a secondary school or received the recognized equivalent of a secondary school diploma before January 1, 1998, is currently enrolled at an eligible institution as of the date of enactment of the District of Columbia College Access Improvement Act of 2001;

"(C) meets the citizenship and immigration status requirements described in section 484(a)(5) of the Higher Education Act of 1965 (20 U.S.C. 1091(a)(5));"

SEC. 3. PRIVATE SCHOOL PROGRAM.

Section 5(c)(1)(B) of the District of Columbia College Access Act of 1999 is amended by striking "The main campus of which is located in the State of Maryland or the Commonwealth of Virginia".

SEC. 4. GENERAL REQUIREMENTS.

Section 6 of the District of Columbia College Access Act of 1999 is amended—

(1) by striking subsection (b) and inserting the following:

"(b) ADMINISTRATIVE EXPENSES.—

"(1) IN GENERAL.—The Mayor of the District of Columbia may not use more than 7 percent of the total amount of Federal funds appropriated for the program, retroactive to the date of enactment of this Act (the District of Columbia College Access Act of 1999), for the administrative expenses of the program.

"(2) DEFINITION.—In this subsection, the term 'administrative expenses' means any expenses that are not directly used to pay the cost of tuition and fees for eligible students to attend eligible institutions."

(2) by redesignating subsections (e) and (f) as subsections (f) and (g);

(3) by inserting after subsection (d) the following:

"(e) LOCAL FUNDS.—It is the sense of Congress that the District of Columbia may appropriate such local funds as necessary for the Program."; and

(4) by inserting at the end the following:

"(h) DEDICATED ACCOUNT FOR THE RESIDENT TUITION SUPPORT PROGRAM.—The District of Columbia government shall establish a dedicated account for the Resident Tuition Support Program that shall consist of the Federal funds appropriated to the Program in this Act and any subsequent appropriations, any unobligated balances from prior fiscal years, and any interest earned in this or any fiscal years. The funds in this dedicated account may be used to help pay the cost of tuition and fees for eligible students to attend eligible institutions if the fiscal year appropriation for that year is insufficient to cover the cost of tuition and fees for that year."

Amend the title so as to read: "An Act to amend the District of Columbia College Access Act of 1999 to permit individuals who enroll in an institution of higher education more than 3 years after graduating from a secondary school and individuals who attend private historically black colleges and universities nationwide to participate in the tuition assistance programs under such Act, and for other purposes."

Mr. REID. There is a Lieberman amendment at the desk, and I ask it be agreed to, the committee substitute amendment, as amended, be agreed to, and the motion to reconsider be laid upon the table, that the bill, as amended, be read the third time, passed, and the motion to reconsider be laid on the table, with no intervening action or debate, that any statements related thereto be printed in the RECORD, and that the title amendment be agreed to.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment (No. 2515) was agreed to, as follows:

(Purpose: To clarify the intended inclusion of certain individuals)

In subparagraph (A) of section 3(c)(2) of the District of Columbia College Access Act of 1999, as added by section 2—

(1) in clause (i), strike "or" after the semicolon;

(2) redesignate clause (ii) as clause (iii); and

(3) insert after clause (i) the following:

"(ii) for individuals who graduated from a secondary school or received the recognized equivalent of a secondary school diploma before January 1, 1998, and is currently enrolled at an eligible institution as of the date of enactment of the District of Columbia College Access Improvement Act of 2001, was domiciled in the District of Columbia for not less than the 12 consecutive months preceding the commencement of the freshman year at an institution of higher education; or"

The committee amendment in the nature of a substitute, as amended, was agreed to.

The bill (H.R. 1499), as amended, was read the third time and passed.

The title amendment was agreed to.

ORDERS FOR THURSDAY,
DECEMBER 13, 2001

Mr. REID. I ask unanimous consent that when the Senate completes its business today, it adjourn until the hour of 9:30 a.m., Thursday, December 13; that immediately following the

prayer and pledge, the Journal of proceedings be approved to date, the morning hour be deemed expired, the time for the two leaders be reserved for their use later in the day, and the Senate resume consideration of the farm bill; further, that the live quorum with respect to the cloture motion be waived.

The PRESIDING OFFICER. Without objection, it is so ordered.

ADJOURNMENT UNTIL 9:30 A.M.
TOMORROW

Mr. REID. If there is no further business to come before the Senate, I ask unanimous consent that the Senate stand in adjournment under the previous order.

There being no objection, the Senate, at 7:51 p.m., adjourned until Thursday, December 13, 2001, at 9:30 a.m.

HOUSE OF REPRESENTATIVES—Wednesday, December 12, 2001

The House met at 10 a.m.

The Rabbi Peter J. Rubinstein, Central Synagogue, New York, New York, offered the following prayer:

Dear friends, we gather during this festival of Hanukkah when Jews celebrate the blessing of light and rededication and renewal. Long ago, those enemies who would have destroyed us profaned our sacred alters. They wished to rid the world of the fundamental teachings of our faith: that peace is founded upon justice, that all human beings are God's creation deserving of ultimate decency and goodness, and that the loveliness of light will always, in the end, obliterate the suffocating specter of darkness.

So, again, as we battle for the vision of light and peace, we ask You, O God, to bless us today in our gathering. Send healing to the sick, comfort to all who are in pain, and tender love to the sorrowing hearts among us. Deepen our love for our country and our desire to serve it. Let Your blessing rest upon us so that our Nation may forever be to the world an example of justice and compassion. As well, may all that we do be a blessing and in Your service, O God and let us say, Amen.

THE JOURNAL

The SPEAKER. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

Mr. FORBES. Mr. Speaker, pursuant to clause 1, rule I, I demand a vote on agreeing to the Speaker's approval of the Journal.

The SPEAKER. The question is on the Chair's approval of the Journal.

The question was taken; and the Speaker announced that the ayes appeared to have it.

Mr. FORBES. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER. Pursuant to clause 8, rule XX, further proceedings on this question will be postponed.

The point of no quorum is considered withdrawn.

PLEDGE OF ALLEGIANCE

The SPEAKER. Will the gentleman from New York (Mr. McNULTY) come forward and lead the House in the Pledge of Allegiance.

Mr. McNULTY led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one Nation under God, indivisible, with liberty and justice for all.

WELCOME TO RABBI RUBINSTEIN

(Mrs. MALONEY of New York asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. MALONEY of New York. Mr. Speaker, I am proud to welcome to this Chamber Rabbi Peter J. Rubinstein, senior Rabbi at Manhattan's Central Synagogue.

Built in 1872, Central Synagogue is a national and city landmark that was nearly destroyed by fire in 1998. But thanks to Rabbi Rubinstein and others, the Central Synagogue rose from the ashes not only restored, but improved.

New York would do well to follow its example.

On September 9, along with thousands of New Yorkers, I was pleased to attend a glorious celebration when the synagogue reopened. But the joy was shortlived. Just days later, Central Synagogue was hosting memorial services for World Trade Center victims. In retrospect, the renovations were completed just in time.

The Central Synagogue and Rabbi Rubinstein have been there for New Yorkers in times of joy and sorrow alike, and the synagogue was ready for the most sorrowful day in our city's history.

It gives me great pleasure that a man who has meant so much to so many was able to lead us in prayer today.

THE JOURNAL

The SPEAKER. Pursuant to clause 8, rule XX, the pending business is the question of the Chair's approval of the Journal of the last day's proceedings.

The question is on the Speaker's approval of the Journal.

The question was taken; and the Speaker announced that the ayes appeared to have it.

Mr. FORBES. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 355, nays 44, answered "present" 1, not voting 33, as follows:

ARMEY ANNOUNCES RETIREMENT FROM CONGRESS

(Mr. ARMEY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. ARMEY. Mr. Speaker, at the end of this Congress, I will have served 18

years in the United States House of Representatives.

Mr. Speaker, I want to thank the good people of the 26th Congressional District of Texas who nine times elected me to represent them in this body. How very privileged I am to have been given that trust, that responsibility and the opportunity to serve the values I share with these good people: faith, freedom, safety, security and peace, in that order.

Mr. Speaker, I have come to love this place. This is the most marvelous democratic institution in the history of the world. It is true what we say about this wonderful House Chamber. Here the people govern; we, the House of Representatives. It is more than a place. It is we the people, working each in our own way to secure the blessings of liberty for ourselves and our posterity.

In my time here we have managed to secure many blessings of liberty. We have been the instruments of the American people during a special period when America led the world in a freedom revolution. As a lesson in how freedom works, we whipped stagflation and set a course of economic prosperity and growth unparalleled in the history of the world.

America halted the march of communism in our hemisphere. We inspired the demise of its tyranny in Eastern Europe. The Cold War ended on our terms. The Soviet Union collapsed. The Berlin Wall fell. We won the Gulf War, and as we speak, we are removing the scourge of terrorism from the globe.

□ 1030

Peace through strength and supply-side economics changed this world for the better. Because the American people champion liberty, more people in the world live free today than at any time in the world's history. Yet there is more to be done, and it is America who will lead the way.

Mr. Speaker, that marvelous creativity known as practical American genius led us through the agricultural revolution and the industrial revolution. It now leads us through the electronic revolution. Once again we see new marvels, deriving from the American creativity and hard work. Today, we see a renewal of faith in God that lifts the hearts of everyone in America. There is a renewal of patriotism that vindicates the faith of our fathers and the sacrifices of our heroes.

America is a good Nation, where blessings endure and difficulties pass. The American people deserve a government that knows their goodness and has the decency to respect it. It is up to us to be that government, and I have complete confidence that we will continue to be just that.

Because of this confidence, I am comfortable telling you today that the end of this 107th Congress is the time for

me to stand down as majority leader and as a Member of Congress; to take my leave of this place and the people I love so much, and to return home to my beloved 26th district of Texas and, more importantly, to my beloved wife and family.

Mr. Speaker, I am sad to say what we all know is true. Too often our service to our Nation is a disservice to our family. To our spouses, our years of service seem to be an unbroken string of broken promises and disappointments. Our husbands and wives are too often excluded from what we do. They live a life of hardship that is rarely supposed and even less understood. It is as if they are single parents.

You all know what I mean. We all have our own heartbreaking chapter and verse. Bless our hearts, and, even more, bless our spouses' hearts.

But, Mr. Speaker, here is the good news. Throughout all the difficulties that only we who serve here can understand, I have kept the love of a good woman. And, Mr. Speaker, I have kept my love for her just as it was on the day we were wed. Just as she has always been, my darling wife Susan is here with me today from our home in Texas.

Honey, I want to thank you for all your years of sacrifice. And, honey, you get to keep this house. We are not moving again.

Mr. Speaker, let me just mention our children, Kathy and Brandon, David and Lori, Chip and Christine, Scott and Carisa, and Scott and Pam. They have given us our beautiful grandchildren, Avery, Christian, Christopher, and Jacob. I very much look forward to making up for lost time with them, just as with my wonderful mother-in-law, Alyne, our beautiful sister Betsy and her darling little Ryan.

Mr. Speaker, while this is a sad announcement for me, I am consoled by the fact that I have one more year, one more year in the leadership of this body. I am looking forward to that being the best year ever. We are just completing an outstanding legislative year, and we will do even more next year. I do not intend to miss a minute of it.

Mr. Speaker, my first lesson in politics was "good policy makes good politics." I believe that. And I believe this majority makes good policy. That is why, Mr. Speaker, the American people elected us to this majority and that is why I know they will do it again in the next Congress, and I do not have a doubt about it. I can complete my work next year knowing the House will remain in good hands.

And, Mr. Speaker, may I say in that regard to you personally, to you personally, Mr. Speaker, thank you for answering your Nation's call to duty. Mr. Speaker, you are, in my life's experience, more than anybody else I have ever known, the right man to step up

to provide the right leadership at the right time for all the right reasons, and I thank you. May God bless you.

I might add, Mr. Speaker, that you have made it possible for me to know I have got the best job in this town, and I am going to do it with all my energy for another year.

The good people of Texas have made it possible for me to work with the finest people in the world, the Members of the United States House of Representatives on both sides of the aisle. To my friends on the other side of the aisle, we have many good contests. We are sometimes together, but we are more often in opposition. But we always represent what we believe. Thank you, my friends. You are constant, consistent and reliable.

You know, despite the often too-bit-ter contests we have, I cherish the fact that when our country needed us to come together, we stood on the steps of this Capitol and hand to hand we sang "God Bless America." It was that feeling of unity, not the heated exchanges, that I will remember most fondly when I leave here.

To my Republican colleagues, we should be proud of what we have done in our young majority. Twice now we have lowered the tax burden on America's working families and left them more in charge of their own hard-earned money. We reformed a failed welfare system in a way that has saved families. We honored the American people's prosperity by our spending restraint, and we turned government deficits into hard-won surpluses, and we must now hold them. We will hold those surpluses by restoring economic growth through supply-side tax cuts, and that is why we cannot leave here without an economic stimulus package.

My colleagues, my friends, my appreciation for you has only been made greater because in the past few years I have had the privilege of visiting nearly every congressional district in America. I am looking forward to returning to about 100 more next year. But for now, my friends, let us finish our work and go home.

Let me conclude by saying, I wish you all, all of you and all your hard-working staffs, and all the wonderful people that make this great organization work, and the security and the police, let me wish you all a happy holiday season. Whether it is the celebration of Chanukah or, for me, Christmas, the birthday of my Lord and Savior, Jesus Christ, I just hope this is a happy and joyous occasion. It will be for me and my family, it will be for America, and it should be in all our lives.

Thank you, God bless you, and God bless America.

MESSAGE FROM THE SENATE

A message from the Senate by Mr. Monahan, one of its clerks, announced that the Senate has passed with an amendment in which the concurrence of the House is requested, a bill of the House of the following titles:

H.R. 2199. An act to amend the National Capital Revitalization and Self-Government Improvement Act of 1997 to permit any Federal law enforcement agency to enter into a cooperative agreement with the Metropolitan Police Department of the District of Columbia to assist the Department in carrying out crime prevention and law enforcement activities in the District of Columbia if deemed appropriate by the Chief of the Department and the United States Attorney for the District of Columbia, and for other purposes.

The message also announced that the Senate has passed with amendments in which the concurrence of the House is requested a bill of the House of the following title:

H.R. 2336. An act to make permanent the authority to redact financial disclosure statements of judicial employees and judicial officers.

The message also announced that the Senate has passed a bill and a concurrent resolution of the following titles in which the concurrence of the House is requested:

S. 1519. an act to amend the Consolidated Farm and Rural Development Act to provide farm credit assistance for activated reservists.

S. Con. Res. 55. Concurrent Resolution honoring the 19 United States servicemen who died in the terrorist bombing of the Khobar Towers in Saudi Arabia on June 25, 1996.

The message also announced that the Senate agreed to the amendment of the House to the bill (S. 494) "An Act to provide for a transition to democracy and to promote economic recovery in Zimbabwe."

HOW THE GRINCH STOLE THE CONSTITUTION

(Mr. PITTS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PITTS. Mr. Speaker, a fourth grader in Pennsylvania has been told that he cannot hand out Christmas cards to his classmates if they contain religious messages.

Two middle school students in Minnesota have gotten in trouble for wearing red and green scarves during a Christmas skit and for ending the skit by saying "We hope you all have a merry Christmas."

Two ninth graders in Massachusetts have been told they cannot create Christmas cards that say Merry Christmas or depict a nativity scene.

A teacher in Illinois has been warned by her principal not to read a book about Christmas to her second grade class, even though it is from the school library.

A school district in Georgia has deleted the word Christmas from its school calendar to avoid a lawsuit from the ACLU.

Mr. Speaker, the Constitution has been hijacked. The founders never intended the first amendment to prevent schoolchildren from wishing each other a merry Christmas.

Left-wing lawyers are distorting the Constitution beyond all recognition. Pretty soon they will be able to make it say anything they want it to say, and then we will all be in trouble.

The Grinch may have already stolen Christmas. Let us keep him from stealing the Constitution too.

□ 1045

COMMITTEE FOR STIMULUS PACKAGE NEEDS TO MEET

(Mr. RANGEL asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. RANGEL. Mr. Speaker, the President and many national leaders are asking us to stimulate the economy by putting together a package and presenting it to the President for his signature. Some may remember it was this House that passed the so-called stimulus package, but what was in it? Hundreds of billions of dollars of corporate tax cuts, and little if no notice was given to the hundreds of thousands of people that are unemployed. That is the Republican stimulus package. Yet Members are ridiculing the Senate for not moving. What they fail to realize is that the leadership of the committee is not on the Senate side. The chairmanship of the committee comes from the House side from the chairman of the Committee on Ways and Means.

Mr. Speaker, it would seem to me that if we were serious about doing something, the committee would have a meeting. What most Americans and Members do not know, we have not met since last Wednesday. If there is an urgency, let us not blame the Senate. Let us find out where the blame is, and have Members of Congress not having press conferences or fund-raisers, but coming together trying to resolve this difference.

MUSIC INDUSTRY NOT HELPING PARENTS

(Mr. STEARNS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. STEARNS. Mr. Speaker, recently the Federal Trade Commission released a study on the marketing practices of different sectors of the entertainment industry. The report finds movie and video game companies have made "commendable" progress since last year, placing limits on ads for violent

games and movies in popular teen media and disclosing those ratings in its ads.

Regrettably, however, the commission found that only the music industry continues to place no restrictions on what materials it can market to underaged children in magazines, on TV, radio and over the Internet.

While the music industry labels its products, one of the FTC commissioners stated it correctly: "I think it is hypocritical for the music industry to claim it is helping parents by placing a parental label on CDs, while at the same time undermining parents by aggressively marketing the same CD to children."

When industry fails to institute meaningful self-regulation and act responsibly, I, both as a parent and a member of the community, believe government has an obligation.

NOBEL PEACE PRIZE NOMINATIONS

(Ms. SANCHEZ asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. SANCHEZ. Mr. Speaker, I rise today to encourage Members to join me in nominating two revered Vietnamese spiritual leaders for the Nobel Peace Prize.

Monday was International Human Rights Day. In accepting his Nobel Peace Prize on its 100th anniversary, U.N. Secretary General Kofi Annan urged all nations to focus more on human rights in a quest to end poverty, prevent conflicts, and to foster democracy.

It is for these reasons that I urge my colleagues to join me in asking the Nobel Peace Prize Selection Committee to nominate the Most Venerable Thich Quang Do and Father Van Ly of Vietnam for the Nobel Peace Prize.

The Most Venerable Thich Quang Do is the secretary-general of the banned Unified Buddhist Church of Vietnam. Since June 2001, he has been under house arrest for announcing his intention to escort the ailing 83-year-old Buddhist patriarch Thich Huyen Quang to Ho Chi Minh City for urgently needed medical attention.

Similarly, earlier this year, Father Ly was placed under house arrest and banned from running his church for providing testimony to the U.S. Commission on International Religious Freedom, which urged this Congress to do something about human rights and religious persecution in Vietnam.

Mr. Speaker, in recognition of their leadership and sacrifice, I urge my colleagues to join me in signing this letter to the U.N.

SUPPORT CALL TO SERVICE ACT

(Mr. OSBORNE asked and was given permission to address the House for 1

minute and to revise and extend his remarks.)

Mr. OSBORNE. Mr. Speaker, since the events of September 11, our country has witnessed a surge of patriotism and a desire to serve. This morning the gentleman from Tennessee (Mr. FORD) and I introduced the Call to Service Act which attempts to harness some of this energy.

I would like to emphasize three parts of this act which are particularly noteworthy. Number one, the act provides service opportunities all across the country, particularly in rural and underserved areas. An example is incentives for teachers to stay in rural and underserved areas.

Secondly, the act creates a new short-term military service category: 18 months of active duty and 18 months of reserve duty. These troops will provide security at airports, bridges, nuclear facilities, and our Nation's borders. They would also provide technical assistance in case of a health emergency caused by bioterrorism.

Lastly, the Call to Service Act will create thousands of opportunities to provide mentoring and tutoring for children who are desperately in need of a caring adult role model. Senior citizens will be especially helpful in this endeavor.

Mr. Speaker, I urge Members to support the Call to Service Act.

STIMULUS PACKAGE NEEDED TO HELP UNEMPLOYED, NOT JUST THE WEALTHY

(Mr. HINOJOSA asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HINOJOSA. Mr. Speaker, yesterday the Federal Reserve cut short-term interest rates for the eleventh time in as many months. However, the U.S. economy continues to grow weaker. Last month the Nation's unemployment rate hit a 6-year high of 5.7 percent. Industry production appears to be at its weakest level in 20 years. Factories are operating at the lowest levels of capacity since 1983.

These statistics translate into Americans losing jobs, and with them the means to obtain health care, food and shelter. The Latino community for example is the fastest growing segment of the workforce, but is one of the most vulnerable, as many Latino workers are concentrated in low-wage industries with unsteady work.

Mr. Speaker, it is good, commonsense public policy to stimulate the economy by putting money in the hands of people who need it most and who will spend it immediately. This action increases the demand for goods and services, which is the only way to get our Nation's business, all of the businesses, investing, producing, and hiring again. Congress must pass a stimulus package

that helps the unemployed, not only the wealthy.

ECONOMIC STIMULUS BILL NEEDED

(Mr. GIBBONS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GIBBONS. Mr. Speaker, more than a month ago this House passed a much-needed economic stimulus package; but, unfortunately, America waits. American families have been waiting for the Democratic leadership in the other body to act; waiting for the relief to spur on economic investment; waiting for additional Federal assistance so small businesses can obtain loans to keep their doors open and people employed; waiting for expanded health care and unemployment benefits for those in the tourism industry who have been laid off since September 11.

Mr. Speaker, like all Americans, Nevadans have waited too long for the Democratic leadership to start putting the welfare of this Nation and its economic prosperity ahead of their political priorities. It is time for an economic stimulus package to be passed by both Chambers of Congress and sent to the President and signed into law. America's economy, stability, and the individual prosperity of every American depends on it. Let us do it now.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. PETRI). The Chair would remind Members that remarks in debate may not include characterizations of Senate action or inaction.

CHRISTMAS IS ABOUT BIRTH OF CHRIST

(Mr. TRAFICANT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. TRAFICANT. Mr. Speaker, the school prayer issue is out of control, literally. Students in Pennsylvania were prohibited from handing out Christmas cards. Reports say students in Minnesota were disciplined for having said merry Christmas. Now if that is not enough to find coal in your athletic supporter, check this out: A school board in Georgia removed the word "Christmas" from their school calendar because the ACLU threatened to sue. Beam me up. If this is religious freedom, I am a fashion model for GQ.

Mr. Speaker, I yield back the fact that Christmas is not about a jolly old fat man. Christmas is about the birth of Christ.

A JOB WELL DONE

(Mr. BARTON of Texas asked and was given permission to address the

House for 1 minute and to revise and extend his remarks.)

Mr. BARTON of Texas. Mr. Speaker, in 1984 the gentleman from Texas (Mr. ARMEY) and myself were elected to Congress from adjoining districts. He started out sleeping in his congressional office, and I started out picketing then-majority leader Jim Wright, which the gentleman from Texas helped me do. He went on to become conference chairman of the Republican Conference and when the Republicans became the majority, majority leader.

The gentleman from Texas (Mr. ARMEY) is a man of big ideas. It was his bill that began to streamline our military base positions in this country. He is also a supporter of school vouchers and flat taxes. He came from can-do North Dakota, and he brags about that even though he now lives in Texas.

Mr. Speaker, the gentleman from Texas (Mr. ARMEY) did come, he did do. I say well done to the gentleman from Texas (Mr. ARMEY).

REJECT RECOMMENDATIONS OF SOCIAL SECURITY COMMISSION

(Mr. UDALL of New Mexico asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. UDALL of New Mexico. Mr. Speaker, there are three good reasons we should reject the recent recommendations of the Social Security commission, this commission that has said that we should move in the direction of privatizing Social Security.

The first is the commission was stacked with individuals who had a preconceived notion of the outcome. Second, the commission recommends private accounts but does not take into consideration the cost. Many observers believe converting Social Security to private accounts would cost \$1 trillion. Where is that money to come from? Out of Social Security, of course.

And finally, private accounts invested in the market are risky investments. We only need to look at our recent downturn to see how risky these investments are. Are we going to throw people out on the streets in their golden years because they have lost their retirements in the market? I certainly hope not.

COMFORT THE KIDS

(Mr. FLAKE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. FLAKE. Mr. Speaker, I rise today to commend the efforts of two Arizona families, the Porter family and the Rogers family. Following the September 11 attacks, Steve and Liz Porter and Todd and Mikki Rogers wanted to help those affected by the tragedies.

Together, these two families created a project called Comfort the Kids.

Their goal was lofty, to create 10,000 small red, white and blue quilts for the children who have suffered family losses by the end of the year. They were not alone in their efforts. Their Web site, www.ComforTheKids.org, is currently receiving an average of one hit per minute. School districts, Boy Scouts and countless other families and individuals are joining them in their efforts. These quilts will not only comfort the recipient, but will serve as a hand-made symbol of compassion. I thank the Porter family and the Rogers family for their diligence and hard work, and commend them for their efforts. They represent the best of America.

SAVE AMERICAN STEEL INDUSTRY

(Mr. KUCINICH asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. KUCINICH. Mr. Speaker, today steelworkers from across the United States have come to Washington to ask our House to recognize their plight and the plight of U.S. Steel. Today the United States steel industry is faltering and in danger of collapse. Tens of thousands of men and women who have helped to secure the defense of this country through their work in creating and making this product called steel are in danger of losing their jobs and having their whole way of life be destroyed.

Mr. Speaker, it is time for this country to ask itself whether or not it is in our national interest and in the interest of our national defense to maintain our steel industry; or shall we become dependent on foreign steel, the same way we are dependent on foreign oil.

This House will have an opportunity before we complete our business to address the issues, to give the steelworkers some relief, to make it possible for steel loan guarantees to be more widely applicable, to give an opportunity for net operating loss to put cash into steel companies so they can keep going. This Congress has an obligation to carry forth for the future of this country our ability to make steel.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. PETRI). Members are again reminded not to characterize the actions of the Senate.

CALLING FOR LEGISLATION TO AID THE STEEL INDUSTRY

(Mr. CARDIN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. CARDIN. Mr. Speaker, many of my colleagues have talked about before

we go home, we must pass a stimulus package. I agree that we cannot go home without doing something for the people who have lost their jobs as a result of the recession and the attack on our country. And we must do something for the steelworkers so they do not become part of the people collecting unemployment insurance in our community. We have to protect the retirees for the health benefits that they are currently receiving.

We need to do this because the price of steel in this country is below cost, international cost, because our trade policies have allowed dumped, subsidized steel to come into the United States. Our own trade policy has reduced capacity so we have what is known as legacy cost, high cost for the steel industry for retirees.

This House, this body, must pass legislation helping the steel industry before we leave town. It is our responsibility to do it. We must create a level playing field. If we do, steel in the United States can compete with steel produced anywhere in the world on quality and cost. Yes, we must pass legislation before we go home.

STILL NO RESPONSE FROM THE SENATE ON ECONOMIC SECURITY

(Mr. TIAHRT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. TIAHRT. Mr. Speaker, House Republicans have passed an economic security package to create new jobs and help unemployed workers. But the stalling economy continues to be in jeopardy because of the legislative process which continues to stall economic security legislation.

What are we waiting for? A stock market crash? Two-dollar-per-gallon gasoline? The failure to prepare and respond with sound initiatives to aid the economy indicates a disturbing disconnect between the elected officials and the state of the union.

The unemployment rate rose to its highest level in 6 years. Yet the leadership in Congress is constructing roadblocks and sitting on legislation to get the economy out of recession. More Americans lost their jobs last month, yet the legislative process refuses to respond with a plan of recovery.

Mr. Speaker, it is time to get the economic security act moving. It is time to get serious and match the House's work.

COMMEMORATING THE 25TH ANNIVERSARY OF FAMILY LIFE

(Mr. BOOZMAN asked and was given permission to address the House for 1 minute.)

Mr. BOOZMAN. Mr. Speaker, I rise today to commemorate a wonderful organization named Family Life. Since

the tragic events of September 11, there have been numerous stories of couples seeking assistance in reconciling their differences and continuing their commitment to each other. Many of these couples have sought out the assistance of Family Life.

For 25 years, Family Life, under the leadership of Dennis Rainey, has been helping struggling relationships become happy unions again. Formed as a means to provide Campus Crusade staff members premarriage seminars, community leaders and pastors soon learned of the group and encouraged them to provide their blueprint on how to build strong homes to the general public.

Since then, more than 1 million people have attended Family Life conferences and even more have used their materials. At the heart of Family Life is a lay volunteer network of more than 10,000 couples. Many are helping Family Life reach couples as city ministers or by leading study groups. With their help, Family Life has blossomed into a very effective support network for families, one home at a time.

In honor of their hard work and dedication, Governor Huckabee proclaimed this week will be Family Life Week in Arkansas. Mr. Speaker, I stand with my governor in recognizing the importance of the family unit and the service that Family Life has provided to preserve this cornerstone of society.

HONORING STUDENTS FROM MOLALLA ELEMENTARY SCHOOL

(Ms. HOOLEY of Oregon asked and was given permission to address the House for 1 minute.)

Ms. HOOLEY of Oregon. Mr. Speaker, I rise today to honor a very special group of students from Molalla Elementary School. Like the rest of America, these girls and boys were shocked by the attacks on the Pentagon and the World Trade Center. After a great deal of brainstorming, they agreed to raise \$1,000 to send to the Families of Freedom scholarship fund which has been set up by former President Bill Clinton and former Senator Bob Dole. This fund will provide education assistance for postsecondary education to financially needy relatives of those killed or permanently disabled as a result of the terrorist attacks.

I know that the students worked extremely hard to raise the \$1,000. Some of them, I know, made great sacrifices to do this. I am so proud to represent the students of Molalla Elementary and thank them for their generous, heartwarming gift.

ECONOMIC SECURITY NOW

(Mr. HAYES asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HAYES. Mr. Speaker, last week I wrote the leader of the other body a letter. Today I call on the majority leader in the other body to schedule a vote on the economic stimulus and security package immediately. There is no greater need in America today than to put people back to work in good jobs. People are hurting, unemployment is rising, and now we have proof that the economy is in recession. What more evidence does the leadership in the other body need? The American people deserve action on this now. It is time to put partisanship aside and work together to turn our economy around.

The Democratic leadership in the other body failed to push through a strictly partisan version of a stimulus plan on November 14. Despite including big subsidies for chicken manure and bison burgers, the other leadership did not even consider President Bush's plan to accelerate tax relief for at least 34 million American workers.

Mr. Speaker, the American people deserve action on this now. It is time for the other body to stop stalling and pass an economic security/stimulus plan.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. SIMPSON). Members are reminded by the Chair not to encourage or discourage action by the other body.

APPOINTMENT OF MEMBER TO BOARD OF VISITORS TO UNITED STATES MILITARY ACADEMY

The SPEAKER pro tempore. Without objection, and pursuant to 10 United States Code 4355(a), the Chair announces the Speaker's appointment of the following Member of the House to the Board of Visitors to the United States Military Academy.

Mr. HINCHEY of New York.

There was no objection.

CONFERENCE REPORT ON H.R. 2883, INTELLIGENCE AUTHORIZATION ACT FOR FISCAL YEAR 2002

Mr. GOSS. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 312 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 312

Resolved, That upon adoption of this resolution it shall be in order to consider the conference report to accompany the bill (H.R. 2883) to authorize appropriations for fiscal year 2002 for intelligence and intelligence-related activities of the United States Government, the Community Management Account, and the Central Intelligence Agency Retirement and Disability System, and for other purposes. All points of order against the conference report and against its consideration are waived.

The SPEAKER pro tempore. The gentleman from Florida (Mr. GOSS) is recognized for 1 hour.

Mr. GOSS. Mr. Speaker, for the purpose of debate only, I yield the customary 30 minutes to the gentleman from Florida (Mr. HASTINGS), pending which I yield myself such time as I may consume. During consideration of this resolution, all time yielded is for the purpose of debate only.

Mr. Speaker, H. Res. 312 is a standard rule that allows the House to consider the conference report to accompany H.R. 2883, the Intelligence Authorization Act for Fiscal Year 2002. The rule waives all points of order against the consideration of the conference report. The rule is the normal rule we have for conference reports.

The intelligence authorization bill is a critical piece of legislation in any average year, but this year, given the recent September 11 tragedies and the war we are waging against terrorism as we speak, it is absolutely essential that we get this bill to the President's desk without any further delay. As Members are aware, the National Security Act requires that Congress authorize each dollar the U.S. spends on intelligence and intelligence-related activities. We are unique in that respect. The war on terrorism means that there has been a fundamental shift in intelligence and defense priorities, as the President has stated, and these authorities must be reflected in law.

While we will discuss the conference report in greater detail during the general debate, I would like to highlight a few of the ways that the legislation will tackle both critical counterterrorism challenges as well as the long-term problems facing America's intelligence community.

The conference report increases funding for foreign language capability. Obviously this is a critical requirement in the fight against terrorism because it is all over the world and we need the language capability. It certainly is also a basic, core competency for our intelligence community. The Permanent Select Committee on Intelligence has pushed this issue for several years and we are going to continue to push it in the future until we get better results.

Another core intelligence capability this conference report bolsters is human intelligence. In addition to providing the necessary resources for this, the conference report includes a version of the House language directing the Director of Central Intelligence to repeal the so-called Deutch 1995 guidelines on the recruitment of human sources. These guidelines may have been issued with the best of intentions, and no doubt were, but in practice, they have had a chilling effect on our ability to gain vital intelligence from sources with access to unsavory characters, particularly such as terrorists.

Finally, this conference report includes a House provision requiring an

accounting from the Director of Central Intelligence concerning whether and to what extent the intelligence community has implemented the recommendations of the Bremer, the Hart-Rudman and the Gilmore commissions. All of those were reports on terrorism and the vulnerabilities and threats to our security and the security of Americans at home and abroad. As Members are aware, these independent commissions examined the United States' measures for prevention of and preparedness for terrorist attacks. All of the provisions are essentially components to the health of the intelligence community and our country.

I urge the House to adopt the rule and embrace the conference report.

Mr. Speaker, I reserve the balance of my time.

Mr. HASTINGS of Florida. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I would like to thank my good friend and colleague from Florida for yielding me the time. It is a pleasure for me to serve with Chairman Goss on both the Committee on Rules and the Permanent Select Committee on Intelligence.

Mr. Speaker, I rise in support of this rule, providing for the consideration of H.R. 2883, the Intelligence Authorization Act for Fiscal Year 2002. H. Res. 252 is a modified open rule requiring that amendments be preprinted in the CONGRESSIONAL RECORD. However, Mr. Speaker, the preprinting requirement has been the accepted practice for a number of years because of the sensitive nature of much of the bill and the need to protect its classified documents. The bill is not controversial and was reported from the Permanent Select Committee on Intelligence by a unanimous vote.

Members who wish to do so, and I urge Members to pay attention to this, can go to the Permanent Select Committee on Intelligence Office to examine the classified schedule of authorizations for the programs and activities of the intelligence and intelligence-related activities of the national intelligence program, which includes the Central Intelligence Agency as well as the foreign intelligence and counter-intelligence programs within, among others, the Department of Defense, the National Security Agency, the Departments of State, Treasury and Energy and the FBI.

□ 1115

Also included in the classified documents are the authorizations for the Tactical Intelligence and Related Activities and Joint Military Intelligence Program of the Department of Defense. Members can go to the committee and review those matters.

Mr. Speaker, last week the House considered and passed the authorization for the Department of Defense for

fiscal year 2002. The intelligence bill we consider today is another critical component in our national defense. Today, more than ever, we need to be vigilant about the myriad threats to our national security.

Mr. Speaker, while there will be debate on some worthy amendments, this is a noncontroversial bill providing authorizations for important national security programs. I urge my colleagues to support this rule and to support the underlying bill.

Mr. Speaker, I yield back the balance of my time.

Mr. GOSS. Mr. Speaker, I yield back the balance of my time, and I move the previous question on the resolution.

The previous question was ordered.

The resolution was agreed to.

A motion to reconsider was laid on the table.

Mr. GOSS. Mr. Speaker, pursuant to House Resolution 312 just passed, I call up the conference report on the bill (H.R. 2883) to authorize appropriations for fiscal year 2002 for intelligence and intelligence-related activities of the United States Government, the Community Management Account, and the Central Intelligence Agency Retirement and Disability System, and for other purposes.

The Clerk read the title of the bill.

The SPEAKER pro tempore (Mr. SIMPSON). Pursuant to rule XXII, the conference report is considered having been read.

(For conference report and statement, see proceedings of the House of December 6, 2001, at page H9057).

The SPEAKER pro tempore. The gentleman from Florida (Mr. Goss) and the gentlewoman from California (Ms. PELOSI) each will control 30 minutes.

The Chair recognizes the gentleman from Florida (Mr. Goss).

Mr. GOSS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in strong support today of the conference report before us. Before I begin the main part of my statement, let me first acknowledge and thank the Members of the House Permanent Select Committee on Intelligence, each and every one of them, but especially our ranking member, the gentlewoman from California (Ms. PELOSI), for hard work, dedication, showing up and doing the business that needed to be done, and doing it intelligently and with a good deal of thoughtfulness.

I also want to specifically thank the committee staff on both sides of the aisle for their untiring efforts that have gotten us to this point. I very much appreciate the way they work in a nonpartisan way.

Obviously, I need to thank the Senate Permanent Select Committee on Intelligence Members and their staffs as well, especially under the steady hand of the chairman, my good friend, Senator GRAHAM, and the vice chair-

man, my good friend, Senator SHELBY. We appreciate the efforts they have put in.

Mr. Speaker, by definition a conference is a time when the two bodies come together to settle whatever differences there may be between the bills, often including resolution of differences of opinion and viewpoints on how money is needed, how it should be spent, what laws should be changed, what direction the administration should go, those kinds of things. But in this case, we are talking about protecting our Nation's security at a time when this is very much in the forefront of everybody's attention.

Ironically, Mr. Speaker, this conference found very, very few differences of opinion between the two bodies, and, frankly, between the points of view on either side of the aisle, on these and other areas. When it comes to national security, we seem to be pulling together very strongly in the area of intelligence.

Let me briefly review some of the areas of agreement. First, intelligence is our first line of defense; and it must be treated as such, especially on our war on terrorism, one of the new transnational threats we are, regrettably, beginning to understand a lot better. Although it may get lost in the continuous CNN optic of the coverage going on in Afghanistan and the Pentagon releases of bombs exploding and troops on the move, none of the activity that is actually happening would be possible without good intelligence.

Second, there are four key areas where the administration and Congress must immediately address themselves if we are to properly protect the country's rights and freedoms. They are revitalizing the National Security Agency and the signals intelligence system, upon which we have had such wonderful production and service over the years and now needs upgrading; correcting deficiencies in conducting and collecting human intelligence, a matter which we all understand very well, something we cannot do without; providing a more appropriate balance between intelligence collection and analysis to better achieve a global awareness capability, something we have been talking about for years; and rebuilding a robust research and development program across the intelligence communities.

We have been so lucky and so well helped by the innovation and creativity that our country produces and the applications we have been able to use in the intelligence community over the last 50 years, and we need to have more of that in the days ahead.

There are other areas of concern besides these four, but these are the most critical for the types of threats that we face now and that we are going to face, we think, over the next few years; and they are certainly the areas that we

are in full agreement with the other body on.

Thirdly, the intelligence community has got to be better focused on strategic intelligence and better positioned to be able to get access to so-called plans and intentions, that is, what is going on in the minds of the evil-doers, the mischief makers, in order to prevent the crisis. We do not want to be just great at sweeping up after the tragedy; we want to stop the tragedy before it happens. In short, we must have an intelligence community culture that is less risk averse.

My last example is that the conferees believe that any effort to invest in and expand intelligence capabilities, and such efforts clearly must be made, will only be marginally successful if it does not also include provision for a more appropriate management structure for the intelligence community. We are talking here basic architecture and the appropriate management overlay to make the system work.

Today's intelligence structure is insufficient for today's and tomorrow's challenges. We know it, and we have to get about the job of dealing with that; and I am pleased that the administration is taking up that challenge. We look forward to working with the President and his administration on these issues. They simply cannot wait.

Mr. Speaker, this does not mean that there were not differences between the bodies during our conference. There were. I am happy to report that there were few and that they were worked out successfully and the result is a conference report that was approved by a vast bipartisan majority of the conferees. There are a couple of areas where I would have liked things to have turned out differently personally, but that did not happen; and in the spirit of compromise, I am happy to support what I think is a very good conference report which will serve this country well. Again, I commend my colleagues for working in that spirit.

Mr. Speaker, on Monday we paused to remember the 3-month anniversary of the horrible and tragic attacks on America by the terrorists, those the President has referred to as the "evil-doers." Also on Monday we laid to rest the first combat casualty of our war on terrorism, Mike Spann.

The fact that the first casualty was a CIA officer speaks to the fact that intelligence is in fact in the lead in this war. There is no argument about that. But some have questioned how our Nation got into this position, how these attacks could have occurred in the first place; and frankly, there is no easy answer to that question, as there are many facets.

For one thing, terrorists took advantage of the basic rights and freedoms that we so openly and charitably give to our citizens and visitors alike in this country. They abused those privileges.

Another point is that communications between the entities and agencies assigned the responsibility for protecting our borders was simply not adequate. We know that.

But there is also certainly an intelligence story here. Put simply, we do not have an intelligence community that is properly structured to collect the types of intelligence that would have prevented such attacks had the information been available. In part, this is of our own doing as a country and a Congress.

After the Cold War, a decision was made to "build down" intelligence. Many thought that we were at peace, perhaps this would be part of the peace dividend. We did not have a single major threat that people really could identify, and we could afford to spend intelligence monies elsewhere. Congress acted. Money was shifted, indeed.

Beginning in the 104th Congress, the Intelligence Committees of Congress on both sides, both Houses and both sides of the aisle, recognized the risks of the looming threats of transnational issues and year after year attempted to put more investment into intelligence. However, the administration's efforts were more focused on domestic issues and had little interest in that kind of investment at that time. Consequently, we ended up with a much-reduced intelligence capability, less access around the world, and a risk-averse environment, and, frankly, a growing threat.

This is not to say that those brave men and women in the rank and file of the intelligence community were not doing their jobs. They were playing the hand they were dealt, and they were doing very well under the circumstances. This is also not to say that Congress was not aware of the risks. We certainly were, and we talked about them a lot.

Recently, I had occasion to review the intelligence bills and conference reports since the 104th Congress. In the 104th Congress, we noted that there was a growing threat and a growing vulnerability to terrorism. We sent that message. We talked about the need to share information better between intelligence and law enforcement. Remember, this is back in the 104th Congress. We talked about the need to invest more robustly in intelligence resources.

Then in the 105th Congress we noted that the intelligence community must "keep a watchful eye on the areas that are likely to be tomorrow's crises." I would point out that we mentioned the transnational threats.

We also mentioned that our national security was being affected by a broader set of issues that have not been identified with our global interests. We needed to rebuild our intelligence capabilities, and we expressed concern over the growing apathy toward national security and intelligence.

Again these issues were raised in the 106th Congress, where we stated that there was a growing possibility that a rogue nation or group would acquire the ability to attack U.S. interests with nuclear, biological, chemical, or some other weapon of mass destruction.

Mr. Speaker, I am not pointing these facts out to say "we told you so." Far from it. The point is that we must engage with this administration now, and we must put significant effort into quickly rebuilding our intelligence capabilities. We cannot wait. The events of September 11, sadly, stand as a reminder of what happens when we let our intelligence guard down.

Mr. Speaker, this conference report is a good start toward rebuilding what the Nation needs. But it is only a start. It is a snapshot in time. Many of us refer to it as the first year of a 5-year plan. We look forward to working with the administration to secure our national freedom. We look forward to working in a nonpartisan way to do this with the passage of this conference report. I am fully supportive of the report. I encourage its passage.

Mr. Speaker, I reserve the balance of my time.

Ms. PELOSI. Mr. Speaker, I yield myself such time as I may consume.

Our chairman has very well explained how we got to the point we are at today. I want to commend him for the leadership he has provided to the committee, not only at the conference meeting but throughout what has turned out to be a very challenging year. I thank the chairman.

The House version of the intelligence authorization bill came to the floor a little over 3 weeks after the terrorist attacks on New York City, Washington, and Pennsylvania. Active and retired intelligence community personnel were killed in the World Trade Center and at the Pentagon.

In the weeks since, the United States has begun to strike back at those who were involved in the September attacks, and at those who support them. On Monday, the first combat fatality of the struggle against terrorism in Afghanistan was buried at Arlington National Cemetery. Mike Spann was a CIA officer. We eulogized him yesterday on this floor with the suspension vote in the presence of his family: his wife, Shannon; his parents, and his children.

Timely and reliable intelligence, as we know, is crucial to the successful conclusion of this campaign, and it is already clear that intelligence officers will be deeply involved, at home and in the field, in the difficult and dangerous job of ensuring that our policymakers and military commanders have the information on which they will increasingly depend.

The emergency supplemental appropriations bill passed in the wake of the

September attacks provided a large amount of additional resources for intelligence programs and activities. This conference report provides more; substantially more, than was provided last year, and significantly more than was requested by the President.

Our chairman has gone over some of the priorities in the bill, and I want to associate myself with those. That would be human intelligence capabilities that he talked about and TPED, the tasking, processing, exploitation and dissemination of intelligence. It is very important for us to put more resources there. Another priority for us in the bill was the investment in advanced research and development projects necessary to keep pace with changes in technology, and, of course, the technology necessary to improve the process of collecting and processing intelligence.

Some of these funds that are in this bill will continue improvements as the chairman emphasized, in our human intelligence capabilities, to ensure that case officers receive the kind of training they need, particularly in foreign languages, to enable them to do their jobs effectively.

□ 1130

Some of these funds will make investments in the kinds of systems required if agencies like the National Security Agency and the National Reconnaissance Office are to keep pace with rapid technological change. The modernization of NSA remains a top priority of the committee and measurable progress is expected in the coming year. As steadfast as the committee has been in advocating more spending on intelligence, it must now be equally engaged in conducting the kind of oversight necessary to make certain that these additional funds are spent efficiently on programs that will really make a difference, not only in the current effort against terrorism, but on the demands of an uncertain future as well.

Although I am satisfied with the disposition made by the conferees on most of the items which separated the two bodies, I was disappointed with the resolution of the provision in the House bill which would have established an independent commission to review the Nation's security posture immediately preceding September 11. Our colleagues in the other body insisted that the two intelligence committees could undertake an inquiry into the readiness of the intelligence community, and other committees of jurisdiction could examine the other elements of the executive branch.

The issue was never whether the committees had the resources to do this job, it was whether it made sense for them to do it. I am concerned that an independent review would have had credibility with the American people

that a congressional review, no matter how professionally done, will not.

The House version of the bill, when it left our committee stated, Mr. Speaker, "The committee believes that the Commission will only be successful if it is seen to be truly independent of any preconceived notions about the effectiveness of the activities of the departments and agencies it will review. Appointing members with a reputation for challenging conventional wisdom, wide perspective, bold and innovative thought, and broad experience in dealing with complex problems will contribute directly to instilling the Commission with an independence of spirit which will enhance the credibility of its work."

It goes on further. I want to put these words on the record. This body chose to modify the Commission and change its nature, but when we got to the conference, the Commission was eliminated all together. I want to put on the record the spirit of independence that I hoped the review would have.

This is not about fingerpointing or assigning blame; it really is more about understanding whatever government shortcomings may have contributed to the events of September 11. An independent inquiry will one day be commissioned, I am certain, although perhaps without the congressional input that we tried to do in our committee.

We need to know if there were gaps and where they were, again, not to assess blame, but to be sure that they are addressed. Our constituents must have confidence that an assessment of future needs is based on solid judgments about past performance. This will be especially important if we are to consider changing the structure of the intelligence community, and that is the challenge our chairman and our committee will have in the next year. Some of these reforms may be called for by President Bush, as is his right.

On another important issue the conference report more faithfully reflects the position of the House, and that was a compromise that the gentleman from Nebraska (Mr. BEREUTER) took the lead in shaping and I was pleased to support. It was necessary because in 1995, in response to concerns that there was insufficient CIA headquarters involvement in decisions to recruit as assets individuals with poor records of respecting human rights or the law, guidelines were issued to ensure that senior officials were aware of and approved, certain recruitments. The intent of these guidelines was to protect relatively junior officers in the field from later charges that they acted unilaterally, and unwisely, in entering into relationships with certain individuals. Despite repeated assurances to the committee from high-level intelligence officials of two administrations

that the guidelines had not prevented the recruitment of a single, identifiable, worthwhile asset, concerns were raised that the bureaucratic process through which the guidelines were administered was so time consuming that it provided a disincentive to case officers. This controversy has obscured the fact that encouraging a potential asset on a hard target, like a terrorist cell, to betray his or her country or cause is tremendously time consuming, difficult and dangerous. That we have had uneven success against these targets is more a reflection of those facts than it is the fault, in my view, of any guidelines.

Nevertheless, to make clear that Congress wants the recruitment process to be as aggressive as possible given the totality of the circumstances involved, the House approved a provision in the committee's bill which would have required a rescission of the existing guidelines and their replacement with new guidelines which achieve balance that "recognized concerns about egregious human rights behavior, but provides the much needed flexibility to seize upon opportunities as they present themselves." The House made clear that in striking this balance, "clearly there is a certain class of individuals who, because of their unreliability, instability, or nature of past misconduct, should be avoided." Again, the gentleman from Nebraska (Mr. BEREUTER) led the way on this compromise that was in the House bill.

Although the DCI chose to rescind and reissue the guidelines before the legislative process was complete, the heart of the language which I was pleased to work with the gentleman from Nebraska on was retained in conference. The conferees want the current, more streamlined guidelines reviewed again to make certain that they provide appropriate encouragement to case officers to do their jobs well. As the statement of managers makes clear, however, whatever the results of that review, any guidelines issued "must balance concerns about human rights behavior and law-breaking" with the efforts to provide flexibility to take advantage of opportunities to gather information. That balance is the proper interpretation of the phrase "more appropriately weigh and incentivize risk" which appears in clause (2) of section 403 of the conference report.

Mr. Speaker, our President, when he came to the House on September 14, three days after the tragedy, said that we will bring the perpetrators of that tragedy to justice, or we will bring justice to them, but justice will be done. We want to be sure that our intelligence capabilities help the President reach that goal, a goal that we all share. Hopefully, this bill will take us closer to that.

I believe the conference agreement will contribute significantly to meeting the intelligence needs of the Nation, and I urge its adoption. I again associate myself with many of the remarks made by my chairman, particularly those about sharing of information by the FBI. Once again, I want to extend the sympathies of my constituents and I know all of our colleagues, to the family of Mike Spann and the Special Forces soldiers, the Green Berets who lost their lives. If I may, I would like to put their names in the RECORD also: Master Sergeant Jefferson Davis; Staff Sergeant Brian Cody Prosser; and Sergeant First Class Daniel Petithory. God bless them. God bless America.

Mr. GOSS. Mr. Speaker, I am pleased to yield 6 minutes to the distinguished gentleman from Nebraska (Mr. BEREUTER), the vice chairman of the Permanent Select Committee on Intelligence and the chairman of the Subcommittee on Intelligence Policy and National Security.

Mr. BEREUTER. Mr. Speaker, I thank the gentleman for yielding me this time.

Mr. Speaker, this Member congratulates and commends the exemplary bipartisan effort of the chairman, the distinguished gentleman from Florida (Mr. Goss), and his counterpart in the other body, the distinguished senior Senator from Florida, Senator GRAHAM. I also want to extend my congratulations and appreciation to the distinguished gentlewoman from California (Ms. PELOSI), for continuing to give us the leadership for a bipartisan conference report.

I rise, of course, in strong support of the conference report. Under the leadership of the people I have just mentioned, the legislative branch continues to move rapidly to address a number of long-standing deficiencies in our intelligence collection and analysis programs. The chairman's comments about the high quality work and dedication of the committee's first-rate staff are exactly on the mark, and I express my personal appreciation for their expertise, dedication, and hard work throughout the year.

Mr. Speaker, it is important to note that the Select Permanent Committee on Intelligence has not suddenly awakened to the very real funding deficiencies and program matter inadequacies of the intelligence agencies. For years, the intelligence committee has worked to reorient and enhance the effectiveness of the intelligence community and, of course, that has not received much public attention. But now, more than ever before, the American people understand through tragedy that our intelligence and counterterrorism programs are extremely important. As the distinguished chairman, the gentleman from Florida (Mr. Goss) has frequently

noted, "The message is not new; the audience for the message is now new."

I want to express my appreciation for the fact that he has gone back a few minutes ago to previous Congresses, back at least to the 104th Congress, to give some indication that the committee for some period of time has recognized and tried to address these transnational problems that are relatively new in the national focus.

Responsibly addressing the Nation's intelligence requirements now clearly has become a recognized national priority across the country in the aftermath of the September 11 terrorist attack. One result is a natural tendency to seek a simple solution, a quick fix. Certainly the conference report provides much-needed additional funds to improve our intelligence capabilities and to wage the war against terrorism, but at a more fundamental level, H.R. 2883 continues to aim even more aggressively to respond to serious underlying policy inadequacies and structural problems. I know all members of the committee would agree our work is not done, that we are looking forward to taking on this task during the next year.

In some cases, these are problems that have been years in the making and will take a number of years to reverse. For example, the conference report continues support for additional capacity in human intelligence collection. Human intelligence, or HUMINT, is the placement of highly-trained, language-capable officers in positions where they can acquire information vital to our national interests. Our HUMINT capacity was substantially downgraded in the years following the end of the Cold War. Also, our human intelligence collection efforts was understandably directed during the Cold War period at collection of the Soviet Union and its client states. Not in Africa, Latin America, the Middle East, South Asia, and especially not in the problems of transnational terrorism and narcotics trafficking. The conference report continues this body's efforts at addressing these deficiencies and the new priorities.

Addressing another reason for the HUMINT inadequacies, this Member is particularly gratified that the conferees agreed to reverse the 1995 limitations on asset recruitment, and I especially appreciate the cooperation and assistance of the gentlewoman from California (Ms. PELOSI) for the committee in working with me, and the chairman. These restrictions, called "the Deutsch guidelines," were promulgated as a means to limit our association with unsavory individuals, with human rights or other criminal problems. While the concerns underlying these guidelines were understandable, resulting from revelations about the problems of the 1970s and early 1980s, the reality is that the Deutsch guide-

lines have had a chilling effect on the recruitment of people who can actually and efficiently penetrate the inner circles of terrorist networks and narcotics rings. The recruitment of assets with unique knowledge or access to these terrorists and drug cartels is the key to successful HUMINT against these targets. The regrettable, real-world reality is that especially in the crucial battle against terrorism, we must allow our foreign officers to recruit assets that sometimes are rather unsavory characters. To win the war on terrorism, we have to end the cycle of risk aversion by our intelligence operatives and their superiors in headquarters. Recruiting Boy Scouts will not give us the penetration and intelligence we need.

In many cases, there will be difficult decisions to make, but the U.S. has professionals in the intelligence and law enforcement fields who can and must make those decisions. This conference report makes clear that our foreign intelligence personnel must recruit as agents those who possess the detailed and timely information which the United States needs to defend its people and its interests. Admittedly, there are risks with such recruited agents, but if the risks are realistically weighed against the benefits, the enhanced chances of operational success, this body must not rashly second-guess those decisions or fail to replace the Deutsch guidelines where they are detrimental to effective intelligence-gathering.

Mr. Speaker, this Member urges adoption of the conference report on the intelligence authorization for fiscal year 2002.

Ms. PELOSI. Mr. Speaker, I am pleased to yield 2½ minutes to the distinguished gentleman from Georgia (Mr. BISHOP), who is the ranking member on the Subcommittee on Technical and Tactical Intelligence of the Permanent Select Committee on Intelligence.

Mr. BISHOP. Mr. Speaker, I thank the gentlewoman for yielding me this time.

As the ranking member of the Subcommittee on Technical and Tactical Intelligence, I rise in support of this conference report. It is a good work product. I want to thank and to congratulate the chairman and the ranking member, and especially our staff, who worked so hard and who did an extraordinary job to make sure that this package will serve to improve our country's ability to provide the best real-time information possible to our war-fighters and our policymakers, so as to protect Americans wherever they may be situated in the world.

The intelligence systems and activities that are funded by this conference report are a prominent and indispensable element of the war on terrorism. In the short time between September 11 and the time when the committee

marked up the authorization bill, this committee worked extremely hard in a completely nonpartisan manner to develop proposals to correct shortfalls and to establish a basis for continued reform and innovation.

□ 1145

Most of these proposals are reflected in this conference report. The human element in this war on terrorism is fundamental, and it is an appropriate focus of our attention. But American technological prowess will greatly determine how effective our soldiers and intelligence officers will be, how many casualties our forces suffer, and how many innocent lives will be lost or protected.

The precision of our air campaign in Afghanistan is wondrous, and we must always remember that it depends as much on precise intelligence as on the guidance system of the missiles or the bombs. Developing these technical intelligence capabilities is expensive, and it is often difficult. Sometimes we make mistakes; but usually we, the government, and American industry get it right in the end. I am gratified to be part of this process.

Mr. Speaker, this bill is a good start on correcting the problems in the intelligence community, but there is clearly much more that must be done. I speak, I believe, for all of my colleagues on the committee in again commending the chairman and our ranking member for their dedication, and also the gentleman from Delaware (Mr. CASTLE), my own counterpart, in assuring that our intelligence organizations can protect Americans against the new menace.

Mr. Speaker, I urge adoption of this report.

Ms. PELOSI. Mr. Speaker, I am pleased to yield 4 minutes to the gentlewoman from California (Ms. HARMAN), a distinguished member of our committee and the ranking member on the Subcommittee on Terrorism and Homeland Security.

Ms. HARMAN. Mr. Speaker, I thank my colleague for yielding time to me, and I join in saluting American heroes who have given their lives in the fight against terrorism in the aftermath of September 11.

Mr. Speaker, I commend the gentleman from Florida (Mr. GOSS) and the ranking member, the gentlewoman from California (Ms. PELOSI), for their leadership in bringing this conference report to the House.

I also commend the hard work of our committee colleagues and staff, whose bipartisan approach attempts to ensure that this Nation has the best intelligence capabilities.

I love serving on this committee and as ranking member of the Subcommittee on Terrorism and Homeland Security. It is a high honor, and it honors the constituents of California's 36th

Congressional District, who design and build most of our Nation's intelligence satellites.

Yesterday, Mr. Speaker, President Bush spoke to 1,900 cadets at the Citadel and laid out three priorities for national defense: first, speeding the transformation of the military to face 21st century threats; second, protecting against proliferation of weapons of mass destruction; and third, strengthening our intelligence capability. All these goals are important, and I strongly support them.

This bill goes a long way toward accomplishing the third: this bill provides increased funding for human, technical, and tactical counterterrorist activities; it rescinds the CIA guidelines that may have restricted recruitment of some people with critical information on terrorist groups; and it requires the issuance of new guidelines to rebalance the recruitment process.

Also, it requires the administration to explain why it has not implemented the recommendations of three national commissions that studied terrorism and homeland security. I served on one of those commissions, the congressionally mandated Commission on Terrorism. All three produced good ideas that are still good today.

Our committee has served notice that it will do even more to push restructuring of the intelligence community next year; but meanwhile, this restructuring cannot happen in a vacuum. I believe the lesson learned from 9-11 is that good people had poor tools, and that our homeland security effort needs a leader with adequate power to conduct a unified threat assessment, develop a national plan, and compel agencies at all levels to share information and coordinate seamlessly to prevent or respond to acts of terrorism.

Governor Tom Ridge has this top job. Ridge is charged with coordinating all Federal efforts related to homeland security with those of State and local governments. The President's executive order also makes Ridge the chief communicator of homeland security policy.

Two months have passed since Tom Ridge started as director of the Office of Homeland Security; but in my view, he is losing power every day. He is a capable man with the skills and resume needed; but without the authority to influence Federal budgets, Ridge cannot enforce the changes that this committee has required and that this country needs. A bipartisan bill, H.R. 3026, would give him that authority.

Finally, Mr. Speaker, as I stated in a letter to the President on Monday, I continue to be concerned that the release of the new bin Laden videotape could prove damaging to American security. Those who do not believe bin Laden is guilty will not be persuaded by this tape. To me, the benefit of showing the tape is outweighed by the

risks that secret messages, signals, or facial expressions of bin Laden or in the background are embedded in the tape. I would have preferred that its distribution be limited to those with a need to know, possibly including foreign leaders.

But Mr. Speaker, returning to this conference report, it gives the right tools to good people in our intelligence community. I thank them for working 24-7 before and after September 11 to protect this country from terrorist attacks.

Mr. Speaker, I urge strong bipartisan support for this bill.

Mr. GOSS. Mr. Speaker, I am pleased to yield 3 minutes to the distinguished gentleman from Delaware (Mr. CASTLE), who is also the chairman of our Subcommittee on Technical and Tactical Intelligence.

Mr. CASTLE. Mr. Speaker, I thank the gentleman for yielding time to me.

Mr. Speaker, I rise in strong support of the conference report to accompany H.R. 2883, the Intelligence Authorization Act for Fiscal Year 2002. Before I get to my statement, I wish to acknowledge the superb leadership, and I mean this very sincerely, of our chairman, the gentleman from Florida (Mr. GOSS), and our ranking member, the gentlewoman from California (Ms. PELOSI), and the Senate Intelligence Committee's chairman, Senator GRAHAM, and the vice chairman, Senator SHELBY. Their support and guidance brought the Permanent Select Committee on Intelligence through a very difficult year, culminating in this fine piece of legislation. I think it is fitting to thank them for all of their efforts in support of our Nation.

Mr. Speaker, today we are voting on a bill that authorizes spending for the Nation's intelligence organizations, operations, and the brave men and women, such as our fallen CIA officer Mike Spann, who are stationed all around the globe collecting and analyzing information to provide our true first line of defense.

Tragically, the events of September 11 have made crystal clear what many of us in the Congress have been saying for sometime, that we need to significantly improve our intelligence-gathering, analysis, and dissemination capabilities.

I do not for one moment blame the attacks in New York, Washington, and Pennsylvania on an intelligence failure. Indeed, that blame can only be assigned to radical fanatics who would see America fall. But I do assign some blame on our collective lack of attention for maintaining a robust, properly resourced, and forward-leaning intelligence community that is not unduly restricted from collecting information on foreign threats to our country.

The authorization levels in this bill were determined by the conference

committee as appropriate for beginning to rebuild our Nation's intelligence defenses. In the wake of 9-11, our intelligence organizations and their professionals have been asked to do more than ever before, to provide more detailed information on an elusive but omnipresent enemy that directly threatens our country and our citizens.

Indeed, President Bush, Secretary of Defense Rumsfeld, Attorney General Ashcroft, and Director of Homeland Security Governor Ridge have all made statements about the increased need for and reliance upon our intelligence service in the wake of terrorist attacks.

There is no question in my mind that intelligence is now, more than ever, a critical function of national security worthy of this body's full funding support. It is in that spirit, Mr. Speaker, that I urge my House colleagues to support this conference report. We elected Members of Congress have no greater duty to the people of the United States of America than to protect their safety, their freedoms, and their way of life.

To do that in a world populated with any number of terrorists who have no remorse for loss of American lives and property we must go on the offensive. We must discover and take action against the people who would do us harm.

That requires knowledge. Before the FBI can arrest a single al Qaeda member, the Bureau must know who and where that person is. Before a B-52 bomber can effectively drop a single bomb, its crew must be given the information on what target to attack. Before we can better defend against an intended terrorist attack, we need forewarning of the attack location and timing. All of these require intelligence, intelligence for national defense. There is no higher priority.

Mr. Speaker, I urge my colleagues to support this measure.

Ms. PELOSI. Mr. Speaker, I am pleased to yield 2 minutes to the distinguished gentleman from California (Mr. CONDIT), the ranking member on the Subcommittee on Intelligence Policy and National Security.

Mr. CONDIT. Mr. Speaker, I rise in strong support of the conference committee today. This is a very powerful tool in arming our intelligence agency in a campaign against terrorism.

Though I am disappointed the conference report does not include an outside commission to assess our national security readiness since September 11, it is still a very good conference report. It does increase human intelligence, and it improves foreign language skills and translation capabilities.

We face an extraordinary challenge now to collect information and preserve our national security, and we must focus now on the security of our

homeland. We cannot sit back and think about the future in the out years; we must address security needs now. This conference report does just that.

Yesterday, we passed a resolution honoring Johnny Spann, the first American to die in combat in Afghanistan. We pledged to continue to support our men and women, to ensure the safety to all of our citizens. This conference report makes good on that pledge.

Mr. Speaker, I would like to commend and congratulate the chairman of the committee, as well as the ranking member, the gentlewoman from California (Ms. PELOSI), for this product, because I think it is a product that helps build a better and safer Nation. I congratulate them and thank them for their leadership.

Mr. GOSS. Mr. Speaker, I am very pleased to yield 3 minutes to the distinguished gentleman from Nevada (Mr. GIBBONS), the chairman of our Subcommittee on Human Intelligence, Analysis, and Counterintelligence, our subcommittee on hacking. I will let him explain what that stands for.

Mr. GIBBONS. Mr. Speaker, I thank the gentleman for yielding time to me. I thank the chairman of the full committee and the ranking member, the gentlewoman from California (Ms. Pelosi), for bringing before this House what I feel is probably one of the best intelligence authorization conference report bills we have had in a long time. As a result, I do stand here in strong support of the conference report.

Mr. Speaker, since September 11, all Americans have witnessed, I believe, our intelligence community working at its best. America, unfortunately, did witness its first loss, our first combat loss of an American hero in our war on terrorism, CIA agent Johnny Mike Spann. Now we must provide the resources needed to combat terrorism at the most basic level for intelligence.

This, Mr. Speaker, is a good bill. It provides significant resources to the intelligence community which, during the last decade, went underfunded, understaffed, and underappreciated.

The 1990s were a risk-averse period during which the bullies of the world began to get the idea that the United States had gone soft and no longer had the will to defend American lives and American interests. The intelligence community often was not performing aggressively enough, though this was by no means the fault of the dedicated men and women who constitute the intelligence agencies' rank and file. They are now doing a terrific job, a wonderful job of catch-up, and they deserve the best support that we can give them.

Regarding today's needs, we are providing logistical and technical resources for a worldwide campaign to root out terrorism. Our intelligence of-

ficers are working on the ground in Afghanistan, as the American public is now very much aware, sadly aware, with the news of our fallen CIA hero.

What the American public will probably never know is that American intelligence officers are working around the clock worldwide to neutralize terrorist cells and otherwise diminish the possibility of future attacks on innocent American citizens.

As for the needs and future needs, this bill provides resources for greater foreign language expertise, increased specialized training, increased analytical expertise, to include measures to restore the intelligence community's ability to provide worldwide analytical coverage.

This administration and this Congress are acutely aware of the need for a strong intelligence capability. We on the Permanent Select Committee on Intelligence have done our utmost to give the intelligence agencies what they need to do their job.

Mr. Speaker, I want to ask all my colleagues to support this bill, and I urge an "aye" vote.

□ 1200

Ms. PELOSI. Mr. Speaker, I am pleased to yield 3½ minutes to the very distinguished gentleman from Indiana (Mr. ROEMER), a member of the Permanent Select Committee on Intelligence.

Mr. ROEMER. Mr. Speaker, I join in the accolades and the compliments to our chairman and to our ranking member, who have brought the committee together in a bipartisan way. When we do have differences in the committee, they are settled in an inclusive way and in an intelligent manner that I think benefits the bipartisan nature of the final product. They both do this institution well by their working together.

I also want to thank the staff. The staff has been through an exceedingly difficult year, working in an environment in the United States Capitol that has often been target or a suspected target, has been evacuated a number of times. It is a very difficult environment; and they do an excellent job creating an excellent product, and we are grateful for their hard work.

The intelligence budget and the reforms that are needed are now confronted with three different challenges. Certainly, we have the September 11 challenge, the attack on our country. We have the challenge of changing the culture in the intelligence community over the last 10 years from one that is targeted in an old-fashioned way, guards, guns and gates, to now trying to go after transnational targets, tents, technology, terrorism; and that is a slow and sometimes difficult push into the future.

We also have the difficult challenge of latching up the intelligence with the military capability as we are doing

now in Afghanistan. Our intelligence personnel, our intelligence equipment become more and more important in the future.

How do we address that in this bill? We could do it with a quick fix, we could do it with bold reform, or we could construct the platform for change into the future. We have mostly settled on the latter, platform for change, constructive change; and I think that has been a good, healthy approach. I do, however, wish that we would have taken steps for bold change in two or three areas, like, as our ranking member mentioned, an independent commission to look at what happened on September 11. We have the same people always looking at the same problems, and we do not have enough new eyes on old problems, giving us new solutions.

We need to work more on the information and collaboration in our intelligence community, and we need to look at the cultural changes. Moving to transnational targets, rather than being comfortable going at just other countries' intelligence capability, we need to look at going after biological and chemical weapons and nuclear weapon capabilities of terrorist groups.

We have accomplished a lot, Mr. Speaker. We not only have more money for language and fluency capabilities; we have specifically said that there is congressional interest in this area and the intelligence communities cannot move this money away from language and fluency requirements.

We have improved human intelligence in this bill; and as I said before, we are improving the latching up of the military and the intelligence capabilities.

Finally, our hearts and our prayers go out to Johnny Mike Spann and to Shannon Spann for the sacrifices that they and their family have made and the three children who Shannon now raises with the help of that family.

Support this bipartisan conference report, and we look forward to bolder changes next year.

Mr. GOSS. Mr. Speaker, I am pleased to yield 4 minutes to the distinguished gentleman from Georgia (Mr. CHAMBLISS), who is the chairman of our effort on counter terrorist efforts.

Mr. CHAMBLISS. Mr. Speaker, I thank the gentleman from Florida (Mr. GOSS) for yielding me the time, and I particularly thank him for his strong leadership, along with the gentlewoman from California (Ms. PELOSI) for bringing this bill to the floor in such great fashion and to the gentlewoman from California (Ms. HARMAN), the ranking member of my committee, for all who have worked in a very bipartisan way to ensure that we are improving our intelligence community. And to the staff, they have been under such great pressure. The staff on both

sides of the aisle have worked close together to ensure that we are going to win this battle against terrorism.

Mr. Speaker, I do rise in support of the conference report for H.R. 2883. Yesterday, America paused to remember the terrorist acts that shook our Nation and the many acts of heroism and courage that followed. In the intervening 3 months, America has been fighting back and we are winning.

As the President has said on numerous occasions, this is a war that will extend far beyond the conventional battlefield in Afghanistan; and it is a war that will take years, not days, weeks or months. It is a war that will be fought on American soil and on the soil of our friends and enemies alike. It will be fought in the electronic air waves and the bazaars of the Mideast and north Africa, on the streets of London, Paris, Rome and Bangkok, right across the globe.

Conventional weapons will not be enough to safeguard our public from the long-term threat from terrorism. Smart bombs and Special Forces can only be used against targets that have first been identified as posing a threat.

Intelligence is the weapon most capable of identifying terrorists, their plans and intentions, operating methods, whereabouts and targets of terrorist attack. When 9-11 happened, the world changed but the threat from the terrorists stayed the same. What changed most of all was the recognition that intelligence is critical to our Nation's defense against terror. In fact, a whole new constituency for intelligence has arisen from the ashes of 9-11, and this constituency was far too long in coming.

As chairman of the Subcommittee on Terrorism and Homeland Security, I am here to tell the American people that the Intelligence Authorization Act lays the groundwork for fixing many of the problems that have plagued our intelligence professionals. We have sought to address systemic problems within the intelligence community and to begin to correct some of the funding deficiencies of years past that have crippled our ability to achieve true global coverage in intelligence collection and analysis.

This conference report provides the resources and direction necessary to overhaul the intelligence community language training programs and to begin to build a workforce that can operate effectively in the languages and environments used by terrorists. In addition, the report addresses in a more decisive fashion than ever before the chronic shortfall in language exploitation capabilities across the community.

The 9-11 attacks also highlighted shortcomings in the way in which information is shared and analyzed. This conference report provides significant new funding to establish additional

joint terrorism task forces across the country, and it enables accelerated construction of analytic capability in the law enforcement, military and intelligence spheres that will aid in untangling the complex of webs of terrorist financing, support, movement, training, and operations, both through enhanced resources and cooperation.

This analytic capability, as a result of the report under consideration, will be applied more rigorously and in a more focused manner to raw threat reporting on terrorism matters. Such analysis, coupled with direction that the intelligence community establish a reasonable threshold for disseminating raw threat reporting, should vastly improve our ability to make sense of the many scraps of intelligence, real and fabricated, that are collected on a daily basis on terrorist threat activities.

Mr. Speaker, I urge the adoption of this conference report and ask that it proceed.

Ms. PELOSI. Mr. Speaker, I yield myself such time as I may consume.

I believe that we have completed our roster of Members who wish to speak on the Democratic side, and I would like to just say in a few closing remarks how appreciative we are to our distinguished chairman for the bipartisan nature of our proceedings, to extend to my Republican colleagues, again, thanks for their cooperation.

I want to acknowledge the good work of the gentleman from Georgia (Mr. BISHOP), the gentlewoman from California (Ms. HARMAN), the gentleman from California (Mr. CONDIT), the gentleman from Indiana (Mr. ROEMER), the gentleman from Florida (Mr. HASTINGS), the gentleman from Texas (Mr. REYES), the gentleman from Iowa (Mr. BOSWELL), the gentleman from Minnesota (Mr. PETERSON), the Democratic members of the committee for their attention to the important work of the Permanent Select Committee on Intelligence.

It is like signing up when you join the committee. It is very demanding and Members on both sides have made a strong commitment of time, enthusiasm, and dedication to these important issues so that we can have the force protection that is one of the main goals of intelligence and that we can have mission success on whatever we set out to do.

We talked about human intelligence at the beginning. The chairman mentioned it as a priority in his remarks and I did in mine. We want to commend all of the people who work in the intelligence community, in the human intelligence side, and otherwise, for their courage and their dedication. I also want to note the commitment that our committee has to bringing diversity to our human intelligence.

There are people in our country who understand the language, the cultures,

the opportunities in other countries and in other cultures that would serve us well in achieving our mission success and we must draw upon them. Our HUMINT has to look different as we go into the future.

So we recognize and express gratitude to all of them, particularly Mike Spann and the others who lost their lives. We also recognize those who risk their lives every day for freedom in America and to root out terrorism wherever it exists.

I want to commend especially, though, the staff of Permanent Select Committee on Intelligence led by Tim Sample on the Republican side. We do not really call it the Republican side. We really have a bipartisan approach to this. But he is the chief of staff for the Permanent Select Committee on Intelligence. I want to acknowledge the Democratic side staff: Mike Sheehy, Wyndee Parker, Beth Larson, Carolyn Bartholomew, Chris Healey for her good work on our issues, Kirk McConnell, Bob Emmett, and Ilene Romack, who work so hard for us.

I want to commend our chairman for his leadership. It was interesting to work with the Senate on this bill. So I commend the chairman, the new Democratic chairman, Senator GRAHAM, and Senator SHELBY for their cooperation as well. With that, Mr. Speaker, I urge our colleagues to support the bill.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. GOSS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I have no further speakers and I just wanted to finish this with some thoughts about how grateful I am and how privileged I am, indeed honored, to serve with such wonderful members. That is a select committee. And I mean it. We have heard today from the chairman and the ranking members of the four subcommittee we now have because we have so much business on the committee. But the others who did not speak, the gentleman from New York (Mr. BOEHLERT), the gentleman from Illinois (Mr. LAHOOD), the gentleman from California (Mr. CUNNINGHAM), the gentleman from Michigan (Mr. HOEKSTRA), the gentleman from North Carolina (Mr. BURR), the gentleman from Minnesota (Mr. PETERSON), the gentleman from Texas (Mr. REYES), the gentleman from Iowa (Mr. BOSWELL), the gentleman from Florida (Mr. HASTINGS), have all contributed mightily to this.

It is obviously a wonderful select committee to have and be able to work with and we are backed up with the kind of staff that we have as the gentlewoman from California (Ms. PELOSI) has said, with Mike Sheehy and Tim Sample and Chris Barton, our top staff keeping us on the track. I think we are able to do our job well. And, of course, a big part of that is the gentlewoman

from California (Ms. PELOSI), who has been outstanding with her time, her energy, her attention and her leadership when she has one or two other things to do, I understand, in her portfolio of responsibilities as well.

It is a very good situation for us. I think the people of the United States of America sometimes wonder what the job of Permanent Select Committee on Intelligence is and need to be reassured that today we are talking about advocacy for sure. That is part of our job. We need to make sure that our folks out there have the tools they need to do the job, to do national security.

But the other side of our job is oversight. We do it very diligently and dutifully. And that is to make sure that all of these awesome capabilities are used in a way that is entirely lawful and within keeping of character of the goals and wishes and the standards of the people of the United States of America.

We do not have a 1-800 number to flash across the bottom of the screen to say if you have a problem. But we are there as your oversight committee, and if there are problems, we are responsible for dealing with them. And I think we take that seriously, very seriously indeed.

Having said all of that, I think that we have with all of this wonderful good will, and responding to the tasks before us, come up with a good piece of legislation which is urgently needed. I see my friend, the gentleman from Washington (Mr. DICKS), sitting over there. A lot of us have taken credit and heaped praise back and forth on the work that has been done. A lot of the success we are enjoying today that you are seeing on CNN is coming from the hard work of the people who went before us on the oversight committees. And I take my hat off to those people because they too understood the need.

I am very sorry this year my friend Julian Dixon is not with us to be able to see some of the results of some of his hard work, and I know I am joined on that from my colleagues on the other side. Fortunately, there are always people to come along to fill shoes, and the gentlewoman from California (Ms. PELOSI) has done that so well. Having said that, I urge adoption of this particular conference report.

Mr. SIMMONS. Mr. Speaker, I rise in strong support of this conference report and commend the conferees and the professional staff for their hard work.

Specifically, I wanted to express my appreciation for the inclusion of the language I offered as an amendment that requires that the Central Intelligence Agency assume 100 percent of the cost of personal liability insurance for certain CIA employees involved in counterterrorism activities.

Mr. Speaker, for 10 years I served with the Central Intelligence Agency. I spent five years overseas engaged in intelligence collection, counter-intelligence and, in some cases, counter-terrorism.

The work was difficult and dangerous. This fact has been reaffirmed by the terrible death of CIA operations officer, Johnny Micheal Spann, who was the first American to die in combat in Afghanistan in the fight against terrorism last week. But at no time did I doubt that my government would protect me from any personal liability if I encountered a lawsuit as a consequence of my professional duties.

Today, I understand that CIA officers engaged in counter-terrorism activities are virtually required to have personal liability insurance; but the CIA pays only half of the premium. What incentive does a CIA Case Officer have to do the job if he or she is subject to liability lawsuits? Why would they take any risks if the government were unwilling to cover the cost of liability?

I understand that I served in a different time. But I did have the backing of my government—100 percent. It is time to give this assurance back to our Case Officers, many of whom are on the front lines of the war on terrorism.

This is not an original idea. In fact, it was a recommendation of the Report of the National Commission on Terrorism, titled "Countering the Changing Threat of International Terrorism" submitted to Congress in June of 2000.

The report states, "The risk of personal liability arising from actions taken in an official capacity discourages law enforcement and intelligence personnel from taking bold actions to combat terrorism."

Following the tragic events of September 11th, it is apparent that we must do better in our counter-terrorism effort. The least that we can do is guarantee that any CIA officer participating in the war on terrorism will have the full backing of the federal government. They deserve no less.

Passage of this conference report will provide this full backing. It also maintains the authority of the Director of Central Intelligence to designate those CIA employees who qualify for this benefit.

Again, I thank the Members and staff of the House and Senate Intelligence committees for their hard work on this legislation, and I urge my colleagues to support the conference report.

Mr. GOSS. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. SIMPSON). Without objection, the previous question is ordered on the conference report.

There was no objection.

The conference report was agreed to.

A motion to reconsider was laid on the table.

□ 1215

GENERAL LEAVE

Mr. GOSS. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on H.R. 2883, the conference report just passed.

The SPEAKER pro tempore (Mr. SIMPSON). Is there objection to the request of the gentleman from Florida?

There was no objection.

**PROVIDING FOR CONSIDERATION
OF H.R. 3295, HELP AMERICA
VOTE ACT OF 2001**

Mr. REYNOLDS. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 311 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 311

Resolved, That upon the adoption of this resolution it shall be in order without intervention of any point of order to consider in the House the bill (H.R. 3295) to establish a program to provide funds to States to replace punch card voting systems, to establish the Election Assistance Commission to assist in the administration of Federal elections and to otherwise provide assistance with the administration of certain Federal election laws and programs, to establish minimum election administration standards for States and units of local government with responsibility for the administration of Federal elections, and for other purposes. The bill shall be considered as read for amendment. The amendment recommended by the Committee on House Administration now printed in the bill, modified by the amendment printed in the report of the Committee on Rules accompanying this resolution, shall be considered as adopted. The previous question shall be considered as ordered on the bill, as amended, to final passage without intervening motion except: (1) one hour of debate on the bill, as amended, equally divided and controlled by the chairman and ranking minority member of the Committee on House Administration; and (2) one motion to recommit with or without instructions.

The SPEAKER pro tempore. The gentleman from New York (Mr. REYNOLDS) is recognized for 1 hour.

Mr. REYNOLDS. Mr. Speaker, for purposes of debate only, I yield the customary 30 minutes to the gentleman from Texas (Mr. FROST), the ranking member of the Committee on Rules; pending which I yield myself such time as I may consume. During consideration of this resolution, all time yielded is for the purpose of debate only.

Mr. Speaker, H.R. 311 is a closed rule providing for consideration of H.R. 3295, the Help America Vote Act of 2001, with 1 hour of debate in the House, equally divided and controlled by the chairman and ranking minority member of the Committee on House Administration.

The rule waives all points of order against consideration of the bill. Additionally, the rule provides that the amendment recommended by the Committee on House Administration now printed in the bill, modified by the amendment printed in the report of the Committee on Rules accompanying this resolution, shall be considered as adopted.

And finally, the rule provides for one motion to recommit with or without instructions.

Mr. Speaker, last year's Presidential election was the most dramatic and

most memorable in recent history. Election reform is not a new concept, but last fall was a stark reminder of the modifications that our voting system desperately needs. Voter fraud and faulty machines are only a few examples of the inadequacies of the system. That is why I am proud to stand before you today not only as a member of the Committee on Rules but also a member of the Committee on House Administration.

The gentleman from Ohio (Mr. NEY), chairman of the Committee on House Administration, and the ranking member of that committee, the gentleman from Maryland (Mr. HOYER), have approached this issue with open minds, and their cooperation has produced the bipartisan legislation before us today. I commend their efforts as well as the efforts of my other colleagues on the Committee on House Administration, both Republican and Democrat.

This legislation represents the true essence of bipartisanship. In fact, of the 170 total cosponsors, there are more Democratic cosponsors than there are Republican. Politics was put aside in order to strike an appropriate middle ground. Mr. Speaker, this is not a one-time fix miracle solution to election reform. However, this is a first step, a bipartisan step in the continuing effort to update and modernize the way Americans actively participate in our democratic process.

The Help America Vote Act of 2001 offers the best opportunity to pass real, comprehensive, and truly bipartisan election reform legislation before the end of session. While careful and thoughtful consideration was given to this issue throughout the year, America should not have to wait any longer. Before we know it, another election cycle will be upon us, and, so far, many States have had to rely on their own resources to modify the election systems. It is time for the Federal government to step up to the plate. Not only will this legislation infuse considerable funding into election reform initiatives, it will supply States with minimum election standards to reduce the frequency of inadequate, inaccurate, or duplicate voting.

The bill also addresses the issues of overseas voting. I am pleased that Chairman NEY was able to include some of the provisions in the manager's amendment that is now a part of this rule. Our men and women in uniform around the world should be afforded the same ease and efficiency of voting as all Americans. The most fundamental privilege of American citizenship is the right to vote.

Let us now embrace the spirit of bipartisanship that produced this legislation by supporting this bill and preserving the very integrity of democracy. At last night's Committee on Rules hearing on this bill, Chairman NEY said, "We want fair elections." I

urge my colleagues to join me in taking that first step towards fair elections by supporting this rule and the underlying bipartisan legislation.

Mr. Speaker, I reserve the balance of my time.

Mr. FROST. Mr. Speaker, I yield myself such time as I may consume.

Last year's elections brought to light, Mr. Speaker, troubling deficiencies in our electoral system, leaving many Americans disillusioned about our democracy itself. We are all, of course, painfully aware of the tragedy in Florida, which culminated on this very day 1 year ago. But the problem was clearly larger than that, so the Democratic Caucus' Special Committee on Election Reform, under the able leadership of the gentlewoman from California (Ms. WATERS), spent much of the past year conducting field hearings in communities around the Nation. The committee confirmed what so many others have found; that America's electoral system is broken, and that Americans from coast to coast have been disenfranchised in every election.

In my own Congressional District in Fort Worth, Texas last year, I personally witnessed and fought against a systematic partisan campaign to harass, intimidate, and suppress African American voters, especially senior citizens. For all these reasons, real election reform is a priority for the American people, and it is a passion for Democrats.

But protecting every American's right to vote should not be a partisan issue. It is the cornerstone to rebuilding faith in our democracy, and it is the civil rights issue of the new millennium. That is why Democrats have worked so hard to find bipartisan solutions to the ills that plague America's electoral system. And this bill, H.R. 3295, the Help America Vote Act, provides a very good start.

Chairman NEY and Ranking Member HOYER deserve tremendous credit for crafting a bipartisan approach to get election reform started. This bill sets minimum national election standards and provides Federal assistance for the States to improve ballot counting, access to the polls, and voter registration. It authorizes \$2.65 billion for this overhaul, including \$400 million to help States replace their punch card voting systems.

It also establishes an Election Assistance Commission to oversee the program, creates a variety of programs to get students involved as poll workers, and includes provisions intended to facilitate absentee voting by military and other overseas voters.

Unfortunately, the bill does not go as far as many Democrats believe it should. Unfortunately, Mr. Speaker, it does not get us all the way there. So the gentleman from New Jersey (Mr. MENENDEZ), the vice chair of the Democratic Caucus, had an amendment to

improve this bill to achieve comprehensive election reform. And certainly we should all be able to agree on helping Americans with disabilities vote, on ensuring States meet the standards of this bill, and on ensuring compliance with other standards like the Voting Rights Act and the National Voter Registration Act. So the decision of the Committee on Rules last night to issue a closed rule, and particularly to deny the gentleman from New Jersey his right to offer his amendment, is inexcusable.

Election reform need not be a partisan issue, Mr. Speaker, but Republican leaders insist on trying to make it one. For that reason, I urge that this rule be defeated, and that we force Republican leaders to take a bipartisan approach to election reform.

Mr. Speaker, I reserve the balance of my time.

Mr. REYNOLDS. Mr. Speaker, I yield 2 minutes to the gentleman from Illinois (Mr. SHIMKUS).

Mr. SHIMKUS. Mr. Speaker, I rise today in support of this rule. This is great work done by the ranking member and the chairman. I want to point out one provision in this that I really am appreciative of, which is a self-executing provision in this rule that does address the disabled community, especially the blind and the visually impaired at the voting booth.

Everyone should have a right to cast a truly secret ballot. Unfortunately, with current voting methods, the visually impaired have to rely upon others to help them cast their votes. New voting technologies can enable the blind to complete their own ballots without assistance. The language included in this bill requires nonvisual access to be an essential component of any new voting machines designed for Federal elections. It also provides financial assistance to help local election officials pay for the cost of these machines.

I know the election officials in downstate Illinois have been doing a great job in ensuring that elections are run smoothly and that everyone who wants to vote is given the chance to do so. I am pleased that this amendment helps make voting easier for the visually impaired voters.

Mr. Speaker, I would like to thank my colleagues, the gentleman from Illinois (Mr. DAVIS), the gentleman from Maryland (Mr. EHRLICH), along with the Ranking Member HOYER and Chairman NEY for working on this issue and helping to get this provision included in this bill.

Mr. Speaker, I submit for the RECORD a letter from the National Federation of the Blind supporting this bill.

NATIONAL FEDERATION

OF THE BLIND,

Baltimore, MD, December 11, 2001.

Hon. ROBERT NEY,

*Chairman, Committee on House Administration,
House of Representatives, Washington, DC.*

DEAR MR. CHAIRMAN: I am writing to express the support of the National Federation of the Blind for the Help America Vote Act of 2001 (H.R. 3295), including language we requested to address the needs of people who are blind. Thanks to your efforts and understanding, this legislation points the way for blind people to vote privately and independently.

While the 2000 election demonstrated significant problems with our electoral system, consensus regarding the solution has been much more difficult to find. Nonetheless, it is clear that installation of up-to-date technology will occur throughout the United States. This means that voting technology will change, and devices purchased now will set the pattern for decades to come. Therefore, requirements for nonvisual access must be an essential component of the new design.

With more than 50,000 members, representing every state, the District of Columbia, and Puerto Rico, the NFB is the largest organization of blind people in the United States. As such we know about blindness from our own experience. The right to vote and cast a truly secret ballot is one of our highest priorities, and modern technology can now support this goal. For that reason, we support any legislation that will accomplish this objective. Thank you for your assistance in addressing this concern as part of the Help America Vote Act of 2001.

Sincerely,

JAMES GASHEL,

Director of Governmental Affairs.

Mr. FROST. Mr. Speaker, I yield 6 minutes to the gentleman from Florida (Mr. HASTINGS), a member of the Committee on Rules.

Mr. HASTINGS of Florida. Mr. Speaker, I thank my good friend and colleague, the gentleman from Texas (Mr. FROST), for yielding me this time and for his distinguished leadership on this particular subject, and also my good friend, the gentleman from New York (Mr. REYNOLDS).

All the members of the Committee on Rules heard me last night speak very passionately, moved by the fact that now we have a year that has passed and we still have not undertaken what I believe to be what the American people want in the way of ensuring that we have free, fair, and transparent elections.

Before I get into the meat of my remarks, I want to share a vignette with everybody here. In 1974, in Florida, I ran for the Public Service Commission, and I lost that election by 2 percentage points. When I got home that night, my mother said to me, "Something is wrong." My comment to her was, "Mom, there can't be anything wrong with this election." I was kind of angry, upset, and hurt that I had lost. I said "There can't be anything wrong, because we have this new punch card system."

Well, now, 30-plus years have passed since that election, and the fact of the matter is that she has said to me, at

times when we have spoken privately, that she thought something was wrong. And now I can say to you, "Mom, you were right, something was wrong all that time."

Mr. Speaker, I would like to think that when I speak on the floor, my words are eloquent and my thoughts are well expressed. But now is not the time for eloquence. Quite frankly, this rule just stinks. More than 13 months have passed since last year's debacle of an election. Now, when the House finally considers election reform legislation, the Republican leadership is eliminating the option of debate. The only word that I can use to describe this irresponsible act of poor leadership is shameful.

During last night's hearing in the Committee on Rules, more than 20 amendments were offered by Members on both sides of the aisle. I offered four amendments that would have fixed some of the problems that I believe currently exist in the bill.

□ 1230

My amendments would have required that every polling place in the country be fully accessible to people with disabilities, and somebody please tell me why we cannot accomplish that. They would have taken significant steps, my amendments, towards halting the illegal purging of voters' names, provided for the immediate restoration of former felons' rights to vote; and, finally, ensure that all Americans be given the right to cast a provisional ballot in the case their name does not appear on the list of eligible voters.

However, the American people will never hear debate on these amendments, nor the more than 16 others, because the rule that the Republican leadership has reported is closed. Not one amendment that was offered last night will be permitted to be debated today. Granted, I do not agree with all of the amendments that were offered last night. In fact, I am quite opposed to some of them. However, if the House is going to consider an issue as important as the integrity of the American election system, I think that it should be open for debate. I believe that, and I believe the American people do also.

Where has the leadership been on this issue? From the looks of this rule, we can tell where the leaders on the other side of the aisle have been. But what about the administration, the primary beneficiary of last year's sham of an election? The answer is we just do not know.

I asked the gentleman from Ohio (Mr. NEY) what is the position of the administration. To date, the administration has not even issued a statement on the Ney-Hoyer bill that is being considered.

Mr. Speaker, realize I applaud the work of the gentleman from Ohio (Mr. NEY) and the gentleman from Maryland

(Mr. HOYER) on the work that they have done on this bill; and so should the rest of this body, and we should thank the gentleman from Michigan (Mr. CONYERS) and the gentlewoman from California (Ms. WATERS) for helping to improve this measure.

Under the constraints that were placed on the gentleman from Ohio (Mr. NEY) and the gentleman from Maryland (Mr. HOYER), I do not think that we could have gotten a better bill. I am nonetheless astonished while we know what problems exist, and all of us know how to remedy them, I was astonished by the unwillingness of the Republican leadership to act on a bill that actually fixes all of the problems that exist in our country's broken election system, and it baffles me beyond comprehension that we are not doing it.

If the underlying bill is the best that we can do, then it is not good enough. If we are to define our democracy by the rights we guarantee to our citizens and the methods by which we choose our leaders, then we must never find ourselves denying these rights or questioning the results of our methods.

Mr. Speaker, few issues in this country ignite the tempers of the American citizenry as much as election reform. In the past year, many of us traveled across the country to hear voters speaking about the problems that they faced during last year's election. From these hearings and meetings, we have garnered a general understanding that the problems we saw in Florida last year are not unique to Florida. On the contrary, the travesty that the Florida's voters faced last November is merely a representative sample of the problems voters faced throughout the United States. Civil rights violations, lack of provisional ballots, increasing amounts of overvotes and undervotes, uneducated voters and poll workers, outdated voting machines, the purging of eligible voters, confusing ballots, lack of accessibility, and not enough funding for States to improve their voting technology, are not problems that are unique to Florida.

The Ney-Hoyer bill fixes many of these problems, but at the same time it fails to mandate that others be addressed. Today, Members are faced with a difficult question: Do we allow the perfect to be the enemy of the good, or do we approve a bill that does not fix all of the problems that we know exist in our election system to date? This rule is not, in my view, just irresponsible and shameful; but it is an insult to this body, the American people and the integrity of our democracy. I urge my colleagues to oppose this closed rule.

Mr. REYNOLDS. Mr. Speaker, I yield 2 minutes to the gentleman from Pennsylvania (Mr. GEKAS).

Mr. GEKAS. Mr. Speaker, I thank the gentleman for yielding me this time.

Mr. Speaker, I rise to support the rule at hand and the bill that follows; but I must place into the RECORD my concern that the entire process did not go far enough with respect to election reform, and that has to do with the rampant number of complaints that every Member has received about the failings of the motor voter law. This bill and the rule that implements it, actually specifically states that the motor voter law that we passed in 1993 will remain practically inviolate. Yet the horror stories we have heard demands our attention to motor voter.

In that regard, I fashioned a Motor Voter Reform Task Force in my district which made certain findings and recommendations. The findings to which we must pay attention are very serious. Number one, there were a large number, not just in my district but in other districts as well, of people who were not American citizens who, by virtue of motor voter flaws, were able to cast votes. That is unacceptable. That dilutes the votes of people who are American citizens who are registered to vote. We must do something about that. Our task force has recommendations as to that, and this bill does not cover that particular situation.

Insofar as the bill goes to determining and helping States determine eligibility of voters to allow culling of votes to bring them up to date every couple of years, the bill goes a long way.

I hope in some future time that Congress tackles revision of motor voter, updating motor voter in a time and a place where we can concentrate on the flaws that everyone has discovered.

Mr. Speaker, I include for the RECORD the report of my Motor Voter Reform Task Force.

MOTOR VOTER REFORM TASK FORCE REPORT INTRODUCTION

The Motor Voter Task Force was created in May of 2001, by Congressman Gekas of the 17th Congressional District to investigate the effects of the National Voter Registration Act of 1993. In June, the Task Force visited the five County Election Offices and also spoke to Jury Commissioners in the five counties in the Congressman's district and met with Pennsylvania's Commissioner Dick Filling and Ted Koval, Pennsylvania's Director of Voter Registration, both of whom serve under the Bureau of Commissions, Elections and Legislation. On July 9th, the Task Force held a hearing involving the five County Registrars, a representative from Penn DOT, a representative from the Department of State, and two Representatives from the Pennsylvania State House. The Task Force has also researched data concerning elections at the local, State and National level.

Although the Motor Voter Law of 1993 did make voter registration easier, it failed in its stated goals, it has incurred great cost to the American taxpayer, it has made maintaining the voter registration rolls more difficult, and it has facilitated voter fraud.

We, the Motor Voter Reform Task Force, believe the Motor Voter Act must be re-

formed to stop the current strains on our electoral system.

PROBLEM SPECIFICS

The Motor Voter Law, officially known as the National Voter Registration Act of 1993, allowed a potential voter to register while applying for, or renewing, a driver's license.

Motor Voter Has Caused Bloated Registration Rolls

While this Act made it easier to register to vote, it simultaneously made it much more difficult for election officials to remove inactive voters from the rolls.

Under the Motor Voter Act, all registered voters who have not had any activity (have not voted, changed address, changed name) are sent a "Five-Year Notice." If the registered voter responds to the notice, they are coded "active" and remain on the rolls. If they do not respond, or if the Notice is undeliverable, they are coded as "inactive" and remain on the rolls until two more Federal elections have passed without any activity. Any registered voter who has been coded as inactive and remains on the rolls, may vote by asking for an "Affirmation of Elector". The Affirmation of Elector will activate their registration by verifying address information.

In addition, once every calendar year, counties are required by the Law to do either a mass mailing, or a cross-referencing with the U.S. Postal Service's National Change of Address Listing. This is a national list of residents by name and address in the country. Any address discrepancy between the county's address list and the National Change of Address list will trigger a notice to be mailed to the registered voter in question. Mass mailings are extremely expensive to counties costing tens of thousands of dollars. The National Change of Address Listing compiled by the U.S. Postal Service is less expensive, but also costs counties several thousand dollars to purchase. Some consideration should be given to making this list available to counties at either no cost or at a minimal cost.

All told, it may take up to nine years for an inactive voter to be removed from the registration rolls. This causes woefully inaccurate voter registries and the potential for fraud. The Task Force believes this is unacceptable.

The Motor Voter System Allows Fraudulent Registration

The Motor Voter Act requires only the "minimum amount of information necessary" to assess the eligibility of a registrant. Ironically, this minimum information is often insufficient in determining a registrant's eligibility. Because proof of identity and citizenship is not required when registering to vote, it is possible for resident aliens (i.e., non-citizens) to vote in our elections. There were several reported incidents in the 17th congressional district where non-citizens were registered to vote. This means that the fundamental right of legitimate Americans to vote is being undermined. It is alarming to think that American citizens may be letting fraudulent voters decide the outcome of their local, State and Federal elections.

Just as alarming is the fact that voter registration rolls are used across America as a source for selecting jurors. It is very possible that non-citizens have already been called for jury duty and have served. It was also discovered in conversation with Jury Commissioners is the 17th Congressional District that, indeed, jurors had been called who had registered to vote through Motor Voter, but

were not citizens of the U.S.A. We must consider the possible serious consequences if a juror is discovered to be a non-citizen during a trial. If a non-citizen juror went undetected, the defendant's right to a jury of peers would be debased.

Evidence of Fraud

During the 2000 Presidential Election, the national media reported numerous cases of voter fraud. The shortcomings of Motor Voter are the reason behind several notable failings of our electoral system.

Examples of these weaknesses are vivid and well documented: A dog was registered to vote in St. Louis, Missouri, deceased individuals registered and voted, nonexistent individuals registered and voted, and false addresses were used to register. Eighteen municipalities in Allegheny County, Pennsylvania, reported a registry larger than the voting-age population. Clerical errors caused legitimate, eligible voters to be taken off registration rolls and/or listed in the wrong county.

Costs of the Motor Voter System

The Motor Voter Act has caused massive expense to the American public. Furthermore, the Act was an unfunded Federal mandate, so all expenses incurred were passed on to the States and counties. The extra costs have accrued in three basic areas: equipment, postage, and staff.

Equipment: The States have had to upgrade or install new technology at their respective Departments of Motor Vehicles to comply with the Motor Voter Law. Simultaneously, counties have had to upgrade or install new technology, provide additional polling places and purchase extra voting machines or booths and balloting materials, as State laws often require the number of polls and equipment to be in a certain proportion to the number of registered voters. E.g., Pennsylvania state law requires one voting machine per 600 registered voters.

Postage: The Act required municipalities to send confirmation mailings to remove inactive voters from the registration rolls. Simultaneously, Motor Voter registrations are often left inaccurate or incomplete. Thus, election officials must frequently send mailings and make countless telephone calls in order to recollect information from people who registered through Motor Voter.

Staff: Additional election staff is now required at the State and county levels due to the increased numbers of mailings, polling machines, and polling locations.

Motor Voter Has Done Little to Increase Voter Turnout

While Motor Voter has increased the number of registered voters, it had done little to increase actual voter turnout.

Appendices A and B contain information taken from the Federal Elections Commission web site. Since voter turnout is traditionally better during a Presidential Election year, it is necessary to compare sets of years with the same number of Presidential Elections. Hence, both tables contain voter enumerations from three Federal elections, with each table containing one Presidential Election.

Appendix A comprises three years before Motor Voter was enacted and Appendix B spans three subsequent years after the Motor Voter Law was passed.

The difference between the two sets of elections is a mere 0.3% increase in voter turnout. The enormous costs of the Motor Voter system is hardly worth this questionable increase. Seven years after this Act became law, we have learned from experience

and research that voter registration is not the impediment to low voter turnout. In fact, statistics published by the Federal Elections Commission shows that voter turnout has remained fairly constant since 1972.

The bloated registration rolls have made it very difficult to accurately report voting statistics. Percentages of voting seem lower because registration is so bloated. In reality, as stated above, voter turnout has remained about the same since 1972. The inaccurate interpretation of the statistics which are being reported may be adding to voter apathy and having an adverse effect on voter turnout.

For an example, in Congressman Gekas's district, we can look to Lancaster County's swelling registration rolls which have not produced increased voter turnout. If we compare the number of Motor Voter registrations in Lancaster County to the number who actually vote, a significant difference is observed. (Appendix C)

SUMMARY OF FAILINGS

The Motor Voter Law has four intended purposes, as per section b:

(1) To establish procedures that will increase the number of eligible citizens who register to vote in elections for Federal office;

(2) to make it possible for Federal, State, and local governments to implement this Act in a manner that enhances the participation of eligible citizens as voters in elections for Federal office;

(3) to protect the integrity of the electoral process; and

(4) to ensure that accurate and current voter registration rolls are maintained.

Contrary to its stated purposes: ineligible citizens have registered to vote, the Federal government has not helped cover the expense of the new system, the integrity of the electoral process has been compromised, and the Law had made it more difficult to purge inactive voters from the rolls. As a result, rolls are neither accurate nor current.

In short, the Motor Voter Law has failed in all four of its intended purposes.

RECOMMENDATIONS

Because the States and counties have invested a great deal of money in the Motor Voter system, it would be irrational and wasteful to repeal the Law. Therefore, the Motor Voter Law must be amended if its various flaws are to be corrected. The Task Force has conceived of nine recommendations for amending the Motor Voter Law.

[Recommendation 1] Provide Monetary Compensation to States and Counties

Since the Motor Voter Law was enacted, there has been a great deal of expense incurred by the States and counties in meeting the Law's requirements. Most of the expenditures are due to additional equipment, postage, and staff. We believe Federal mandates should have Federal funding; it seems appropriate that the Federal government should compensate the states and counties for the overhead the Motor Voter Law created. Additionally, a special reduced postage rate for the official use of State and County Election Boards must be considered.

[Recommendation 2] Mandate Information Sharing between Bureaus to Keep Rolls Accurate

Unless election officials have access to information that disqualifies ineligible voters, these individuals will remain on the rolls. For that reason, we suggest the Immigration and Naturalization Service inform the counties about the citizenship status of registrants, if requested. We also suggest that the each Bureau of Vital Statistics share in-

formation with the counties regarding: deaths, marriages, felons, and changes of name, and that State cooperate with each other in order to prevent duplicate or multiple registrations by an individual in multiple States or municipalities in any one state. The U.S. Postal Service should also be a source for National Address Verification. The sharing of information between these Agencies and Bureaus and between States, in particular those states which maintain a central Voter Registry, and counties will allow election officials to maintain much more accurate registration rolls.

[Recommendation 3] Require Counties to Immediately Remove Ineligible Voters

Upon receipt of disqualifying information from a Bureau or Agency, county officials should be required to immediately remove an ineligible voter from the registry, regardless of their activity status.

[Recommendation 4] Rolls Should be Purged of Inactive Voters More Frequently

We recommend automatically removing any voter that should fail to vote in two consecutive Federal elections. Not only would this keep the rolls current and accurate, but it would completely eliminate the cost of sending confirmation mailings. Furthermore, this implementation would allow office holders and candidates running for office to target their constituents more effectively.

[Recommendation 5] Require Proof of Citizenship upon Registering to Vote

Proof of citizenship should be required of everyone upon registering or re-registering to vote. A signed attestation or a check box will not do, as many resident aliens may misunderstand the meaning of the word 'citizen.' There is also the very real possibility that many non-citizens may be taking advantage of the very lax system of voter registration which is now in place. Acceptable forms of proof would be: a passport, a birth certificate, or a naturalization document.

There must also be a system in place to make certain that everyone who registers to vote is indeed a real and living human being residing at an actual address in the county and state where they are registering.

[Recommendation 6] Voter Identification Number

A Voter Identification Card with an assigned Voter ID Number, a photo, and a digitized signature for every registered voter could be sent to County Election Boards to be kept in the voter registration roll books used by each county at each polling place. There must be a system in place to protect the confidential nature of these numbers. Otherwise, their purpose would be defeated. The Voter ID Numbers should be available only to Election Officials and the voter to whom the number is issued.

[Recommendation 7] Require Better Checks at the Polls

In addition to preventing registration fraud, better checks must be in order to prevent it at the polls as well. To keep anyone from voting under another person's name, there need to be better identity checks at the polls. A signature and presentation of a photo ID should be required of all voters. This should then be compared to the Voter ID Card in the county's roll book.

[Recommendation 8] Verification of Absentee Ballot Applications and Absentee Ballots

There must be a better system in place for verifying the authenticity of Absentee Ballot Applications and Absentee Ballots

[Recommendation 9] Personnel Training

All personnel mandated and responsible for registering voters as provided by the National Voter Registration Act of 1993, must receive comprehensive and intensive training in an attempt to prevent inaccurate, in-

complete or fraudulent applications for voter registration.

RESPECTFULLY SUBMITTED

In conclusion, it is with sincere thanks to Congressman Gekas for his concern to insure

APPENDIX A.—THREE ELECTIONS BEFORE MOTOR VOTER

Year	VAP	No. registered	% Registered	No. voted	% Voted
1990	185,812,000	121,105,630	65.18	67,859,189	36.52
1988	182,778,000	126,379,628	69.14	91,594,693	50.11
1986	178,566,000	118,399,984	66.31	64,991,128	36.40
Total	547,156,000	365,885,242	66.87%	224,445,010	41.02%

APPENDIX B.—THREE ELECTIONS AFTER MOTOR VOTER

Year	VAP	No. registered	% Registered	No. voted	% Voted
1998	200,929,000	141,850,558	70.60	73,117,022	36.39
1996	196,511,000	146,211,960	74.40	96,456,345	49.08
1994	193,650,000	130,292,822	67.28	75,105,860	38.78
Total	591,090,000	418,355,340	70.78%	244,679,227	41.39%

APPENDIX C.—LANCASTER COUNTY MOTOR VOTER REGISTRATION STATISTICS

	Total MV registrations	Total MV to vote	Percentage
Fall 1995	36	3	8.33
Spring 1996	38	4	10.53
Fall 1996	39	16	41.03
Spring 1997	40	3	7.50
Fall 1997	42	5	11.90
Spring 1998	3,275	44	1.34

Fall 1999	12,324	928	7.53
Spring 2000	15,334	819	5.34
Fall 2000	18,922	10,581	55.92
Spring 2001	21,701	589	2.71

VAP: Voting-Age Population.
MV: Motor Voter.

Mr. FROST. Mr. Speaker, I yield 3 minutes to the gentleman from Maryland (Mr. HOYER).

Mr. HOYER. Mr. Speaker, we arrive at a point where I think we will be considering the election reform bill, the Help America Vote Act. I believe this bill is one of the most important bills that we will vote on and pass this year. I am disappointed that the rule did not allow a substitute to be offered. I asked for that in the Committee on Rules. I urged that that be allowed.

Frankly, if the gentleman from Michigan (Mr. CONYERS), who is the sponsor of a very significant bill that is pending in the House Committee on the Judiciary, had wanted to offer his substitute, I would have been even more adamant.

Having said that, I want to see this bill move forward. I regret this rule did not allow a substitute, but I believe it is important that we pass this bill and pass it today. It provides, as I will say in the general debate later today, very substantial resources for States to get us to a point where votes will not only be cast, but will be accurately counted; where votes will be counted, having made sure that every American was able to cast their vote properly; that state-wide registration would make sure that we knew who was registered; that provisional ballots would make sure that, even if we made a mistake in the system, that people would be al-

lowed to vote; where, if the technology allows in 2002, citizens will be told they made a mistake, and if they want to change it, voters have an opportunity to do so.

This bill brings some very significant reforms. It answers many of the questions raised by last year's extraordinarily difficult election. So although I am very deeply distressed, as expressed by the gentleman from Florida (Mr. HASTINGS), that we did not have the ability to offer a substitute, I know that the gentleman from New Jersey (Mr. MENENDEZ) and the gentlewoman from Texas (Ms. EDDIE BERNICE JOHNSON) will be offering a motion to recommit.

If we pass this rule, I will speak strongly on behalf of this bill and hope to see its passage. The reason that I say that I think it should pass today, I am hopeful that the earliest possible date to both appropriate funds for the funding of the reforms, doing away with the punch cards, upgrading technology, educating voters, educating and training election officials, all to enhance the election process for our citizens, I am hopeful that we can do this as quickly as possible so that 2002 and certainly 2004 will not be a repeat of 2000. That election in 2000 ended 37 days after it began. It ended on this day exactly 1 year ago. It is appropriate that we act today.

Mr. REYNOLDS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I could not agree more with the Committee on House Administration. We need to act today. This is bipartisan legislation. It has the best chance of passing Congress this year and becoming law before next November's elections. Time is of the essence. There are only a few days left in the session of this Congress, and we must act now. The train has sounded its whistle. Election reform must be aboard. The American people expect and deserve real election reform that ensures that every single vote is counted.

a voting system with the utmost integrity, that we submit our findings and recommendations.

Mr. Speaker, there also must be some facts brought into the record as to the result of the Committee on Rules. With 435 Members of Congress, there are 435 ideas. That is important. It brings debate and consensus. But the Committee on Rules also has done the least partisan action today by taking a bipartisan product of 108 Democratic Members and 61 Republicans, which have come together with the bipartisan support of the gentleman from Maryland (Mr. HOYER), the ranking member, and the gentleman from Ohio (Mr. NEY), the chairman, and most of us on the Committee on House Administration. It was constructed in a bipartisan way, not only in the hearings and in the committee and in the result of the committee, but in the press conferences.

Quite frankly, maybe not allowing partisanship to come in now as each side of the aisle tries to figure out how they can angle their leverage up, to leverage up their best position on election reform.

A closed rule ensures that the bipartisan bill which actually has more Democratic Members than Republican on it, remains bipartisan. I remind my colleagues for the record in the Chambers and throughout the Capitol that no viable formal substitute came before the Committee on Rules until late in the process. As a matter of fact, in consultation with the other side of the aisle, they did not even know which Member was going to submit a formal amendment. There was no amendment on the summary list that all members, Republican and Democrat, that the Committee on Rules had before them because there was not a formal one presented yet. In the end, the ranking member of the Committee on Rules submitted the Menendez as a substitute.

The reality, as I opened my remarks, is maybe the best way to get a bipartisan result of what started with hearings months ago and came with bipartisan input, bipartisan sponsorship, bipartisan passage in the Committee on House Administration and now before the House under this rule if passed, is the best way to have bipartisanship is to move forward on a bipartisan bill without trying to leverage it up from either side of the aisle.

Mr. Speaker, I reserve the balance of my time.

Mr. FROST. Mr. Speaker, I yield 2 minutes to the gentleman from New Jersey (Mr. MENENDEZ).

Mr. MENENDEZ. Mr. Speaker, I rise in opposition to the rule because of my belief in one of our core principles, which is "one person, one vote." And it is that simple, but grand, principle we are here to protect. And to limit the debate on election reform which is the foundation of the democracy for which we risk the lives of our young men and women abroad with a closed rule is outrageous. That is why the debate here today goes to the very heart of this institution, the very heart of our democracy, the very heart of our Nation, because we have a solemn responsibility to ensure that every American is given a full and equal access to vote.

The bill before us takes a good step in that direction; but I believe it should go further, and that is why I introduced an amendment at the Committee on Rules with the gentlewoman from Texas (Ms. EDDIE BERNICE JOHNSON) and others to clarify and expand the bill's provisions on full access for disabled voters, civil rights protections, multilingual ballots and materials, Federal enforcement of standards, guarantees for provisional voting and preservation of the Motor Voter Act.

Mr. Speaker, 14 million disabled voters cannot vote in secret. At the beginning of the 21st century, that is an outrage. The bill does not guarantee that that will change; my amendment would.

□ 1245

Hundreds, maybe thousands, of voters were improperly turned away at the polls in the last election, their votes effectively robbed through a careless bureaucracy at best, and malintent at worst. We may never know for sure, but we do know that we need provisional voting to prevent this travesty from ever occurring again. Our amendment would have guaranteed that. The bill we will be voting on today does not. The motor voter law has helped bring so many Americans into the democratic process. Our amendment would have preserved it.

These are vitally important issues that deserved a full and complete debate in the House on the fundamental issue of our democracy and the process

by which we choose those who govern us. As it is, I will offer the amendment in the form of a motion to recommit. This bill is too important, too central to who we are, to close off debate as the rule does. I urge my colleagues to defeat it.

Mr. REYNOLDS. Mr. Speaker, I yield such time as he may consume to the distinguished gentleman from California (Mr. DREIER), the chairman of the Committee on Rules.

Mr. DREIER. Mr. Speaker, I want to begin by congratulating my friend, the gentleman from New York (Mr. REYNOLDS) for not only his handling of this rule, but also for his fine work on the Committee on House Administration and, of course, the gentleman from Ohio (Mr. NEY) and the gentleman from Maryland (Mr. HOYER) who have, as has been pointed out in this debate, fashioned this bipartisan effort to deal with a very serious problem that exists out there.

We know that it was a year ago today, Mr. Speaker, that we saw a conclusion to the most historic election in our Nation's history for President. If we have learned anything in the past year, it is that democracy is a work in progress.

A year ago this month, I had the opportunity to join with a number of other Americans in representing this country at the inauguration of President Vicente Fox in Mexico. It was the first time in 71 years that the ruling Institutional Revolutionary Party had, in fact, been defeated in a presidential election. I was an observer of that election on July 2 of last year. We as Americans were there in behalf of the International Republican Institute, an arm of the National Endowment for Democracy which President Reagan established in 1985, to talk about how to hold elections and how to encourage democracy and to observe that process a year ago this past July. I will say that to then go into our election process here and see former Secretary of State James Baker, with whom I stood checking the validity of ballots in the hills, above Pueblo, Mexico, doing the same thing in Florida following our presidential election, was clear evidence that democracy is a work in progress.

We also, over the past year, have had at least a couple of other experiences showing us that. Ten years ago in Nicaragua, we were able to bring about a free election, and it saw the removal of the Communist dictator, Daniel Ortega. Many of us who during the 1980s spent a lot of time encouraging the process of democracy and free and fair elections there had a rather rude awakening this year when this summer we found that the prospect of making changes that could have undermined the opportunity for voters to participate in Nicaragua was a serious one. I am happy to say that the International

Republican Institute and other organizations played a role in encouraging voter registration and moving towards democracy, clearly showing that even though we saw an election a decade ago, it had to be closely monitored.

Of course, the attention of the world is focused on Afghanistan. Again, a decade ago we saw the liberation of the people of Afghanistan from the Soviet Union. Many of us, after having spent a great deal of time focused on the problems in Afghanistan, chose to put our attention elsewhere.

And so I think that this legislation is a demonstration that we as Americans understand that democracy is a work in progress. That is why I congratulate my colleagues on the Committee on House Administration for coming up with what is, as I said, truly a very bipartisan bill.

Passage of this rule, Mr. Speaker, will ensure that there is language to deal with the issue that the gentleman from New Jersey just raised, and, that is, the access of the disabled to the polls. We have seen organizations like the National Council on the Blind come forward and indicate their willingness to be supportive of this measure. We also know that there are disenfranchised voters in this country, and we are strongly committed, again in a bipartisan way, to ensuring that, in fact, we will see an opportunity for everyone who wants to have the right to vote and access to the voting booth.

It is just a first step, though. That is why I keep referring to this work in progress. We know that there are going changes that will be further proposed in the future. I know that under the leadership of the gentleman from Ohio (Mr. NEY) and the gentleman from Maryland (Mr. HOYER) on the Committee on House Administration, there will be further efforts to look at this. But as was pointed out by the gentleman from Maryland (Mr. HOYER) in his testimony before the Committee on Rules last night for the first time ever, the Federal Government is stepping up to the plate and providing \$2.65 billion in assistance to the States for Federal elections. Never in the history of our Republic has that been done before. This legislation moves us toward doing that.

Yes, it is a closed rule. It is a closed rule because there is strong bipartisan consensus, as was pointed out by both Presidents Carter and Ford, to support this measure, and there are a lot of people out there who do, as the gentleman from New York (Mr. REYNOLDS) said so eloquently, want to game this thing and improve the opportunity for the Republican Party or improve the opportunity for the Democratic Party to maybe get an edge in this. I think that this package, moving forward from this committee under the structure that we have proposed here for consideration by our colleagues, will,

in fact, maintain the bipartisan nature of it and move us in a very positive and bold way towards achieving our goal, and, that is, enhancing the opportunity for the American people to choose their leaders.

It is a good measure, it addresses the concerns of the disabled, the concerns of minorities, and I think if there are proposals that others might want to offer, we had guaranteed the motion to recommit, and so that is a package that can come forward from our colleagues who do want to offer some other proposal on this. The rule deserves strong support, and I believe that the legislation at the end of the day deserves strong support as well. I encourage my colleagues to join with us.

Mr. FROST. Mr. Speaker, I yield 1 minute to the gentlewoman from Indiana (Ms. CARSON).

Ms. CARSON of Indiana. Mr. Speaker, I thank the two gentlemen who have put in laborious time in crafting legislation which admittedly does advance, does progress the electoral system. We attempted last night through the gentleman from Florida (Mr. HASTINGS) to offer an amendment that was rejected because of the closed rule. I wanted to come to the floor and speak in a bipartisan way, those veterans who are Democrats and those who are Republicans and perhaps those who are libertarians but who form this bipartisan coalition of suffering posttraumatic stress and who end up after war, who have been there protecting this country, who end up homeless, who end up in prison. As we know, many States deny those individuals who have been convicted of felonies from ever having the right to participate in the electoral process.

We do not deny Members of Congress from coming to Congress because they are convicted felons, but we do deny people who have sacrificed their life and their well-being. Our amendment had the support of the Vietnam Veterans Coalition and many others. I would just encourage that we defeat the rule so that we can ascertain that democracy does indeed work.

Mr. REYNOLDS. Mr. Speaker, I reserve the balance of my time.

Mr. FROST. Mr. Speaker, I yield 2 minutes to the gentleman from Illinois (Mr. DAVIS).

Mr. DAVIS of Illinois. Mr. Speaker, I thank the gentleman for yielding me this time. I also want to commend Chairman NEY and Ranking Member HOYER for the development of this legislation, but I rise in strong opposition to this rule. I do not rise because it is a bipartisan bill, I do not rise because it has a large number of supporters, but I rise in opposition to this rule because it is a contradiction to democracy. It is a contradiction to the whole purpose of voting.

Voting is a way of expressing oneself, of expressing one's ideas, thoughts and

opinions. This rule denies that opportunity. It is closed. I had offered an amendment that I wanted to offer last night in the Committee on Rules that would deal with the whole question of intimidation, of fraud, by making sure that States had some mechanism in place to deal with that. All of my life I have heard of intimidation and fraud in elections in communities where I have lived and worked. I have never seen anything really done about it. This would have been a great opportunity. It does not exist. For that reason, I urge that we vote down this rule and come back with an open rule that gives people the opportunity to really express what democracy and voting is all about.

Mr. FROST. Mr. Speaker, I yield 1½ minutes to the gentlewoman from California (Ms. SANCHEZ).

Ms. SANCHEZ. Mr. Speaker, I thank my good colleague from Texas for yielding me this time.

H.R. 3295 does not provide the comprehensive reform that this Nation's election system needs. While this bill does attempt to establish minimum standards for voting machines, it does not go far enough. The Federal Government should have the ability to take action against States that fail to meet minimum standards and it is not possible under this bill. The bill has no mandatory access to machines for individuals with disabilities. Citizens who have language barriers or physical disabilities should not have added difficulties when they go to vote.

Current law requires some jurisdictions with language minority groups to provide bilingual assistance in each step of the voting process. However, this law has been poorly enforced and it certainly is not strengthened by this bill. In addition, this bill does not specifically require assistance for elderly voters or for voters with disabilities. Polling places should allow people to exercise their right to vote, regardless of their disability.

Lastly, election reform must also ensure that sample ballots are distributed that educate voters and that poll workers are properly trained to assist the voter. A better informed electorate will be able to make better decisions when voting for their elected officials. Although H.R. 3295 authorizes the use of funds for voter education, it does not require them to be spent for that.

There is one thing I know. Democracy is stronger when more Americans vote. H.R. 3295 is well-intentioned, but it is not the solution to our Nation's needs.

Mr. REYNOLDS. Mr. Speaker, I yield myself such time as I may consume.

This legislation authorizes \$2.65 billion for Federal election reform, including \$400 million to buy out unreliable punch card voting systems that was brought out in this rule debate earlier, and \$2.25 billion in election

fund payments to improve equipment, recruit and train poll workers, improve access for disabled voters, and educate voters about their rights.

The Help America Vote Act would require States to adopt minimum election standards, including a statewide voter registration system, in-precinct provisional voting, assurances that voters who make errors will be able to correct them, and a means for disabled voters to cast secret ballots on new voting equipment. The bill is real, meaningful reform that will significantly improve our election system and restore public confidence in it.

I just want to outline that this bill is a bipartisan bill. It is not a magic elixir for the problems that plagued us last November, but it prescribes the right medicine for our ailing election system and Federal assistance to the States and minimum election standards that they must adopt. This bipartisan bill is the outgrowth of a series of hearings by the Committee on House Administration earlier this year and input from a wide variety of advocates for civil rights, disabilities and election reform groups. Their views were solicited and given serious consideration and this bill reflects their views and their efforts. This bipartisan legislation has been endorsed by the National Association of Secretaries of State as well as the National Conference of State Legislatures, NCSL, and others, like the Carter-Ford Commission.

Mr. Speaker, this is a good bill. It is a bipartisan bill that has the opportunity to be considered by this House today to move forward on election reform.

Mr. Speaker, I reserve the balance of my time.

□ 1300

Mr. FROST. Mr. Speaker, I yield 2 minutes to the gentleman from North Carolina (Mr. WATT).

Mr. WATT of North Carolina. Mr. Speaker, I was sitting in my office and I thought I misunderstood what my colleague who is pushing this rule had to say, and then he said it again, that a bipartisan group of people have gotten together and gotten behind a bill; and, therefore, since you have a bipartisan bill, democracy should be suspended and other people who want to offer their amendments and have their voices be heard should not be given that opportunity.

I got alarmed by that, because quite often that is the way people perceive that democracy works. You get some people kind of at the center of the democracy and they say, well, we represent this perspective and this perspective, one marginally on the progressive side and one marginally on the conservative side, and we represent America, so the rest of America should not be heard.

That is what this rule reminds me of. A small group of people who have decided that this bill should be the vehicle for election reform have gotten together; and the Committee on Rules has said, well, if we break apart this fragile compromise and allow people either on the progressive side or on the conservative side to offer amendments, then somehow democracy will be undermined.

There is something wrong with that analysis. We all come here to represent our districts and to bring our voices to the table, and this process is not allowing that to happen. I hope we will vote down this rule and give us the opportunity to participate.

Mr. REYNOLDS. Mr. Speaker, I reserve the balance of my time.

Mr. FROST. Mr. Speaker, I yield 2 minutes to the gentlewoman from Connecticut (Ms. DELAURO).

Ms. DELAURO. Mr. Speaker, the right to vote is the cornerstone of our democracy. It is the most basic and most essential expression of citizenship. When that right is put into doubt, when citizens cannot know that a ballot cast is a ballot counted and that their unique voice has been heard. It undermines confidence in our entire political system, as well as the government formed on a foundation of those ballots. People must have confidence that their votes counts.

Last year's Presidential election shook that confidence to the core. And while the Ney-Hoyer bill is a first step toward reforming that system, the substitute that my colleagues and I would have offered, had it been allowed, would have vastly improved on the underlying bill. It would have required that all voting systems and polling places be accessible to disabled and blind voters and that alternative language accessibility be provided for citizens with limited English proficiency.

To accurately record the voter's intent, the amendment would have required that all voting systems notify voters of over- and undervotes, verify the vote, and provide the opportunity to correct the ballot before it was cast. This is particularly important, because the poorest technology, the most error-ridden technology, is often found in the poorest communities.

Our amendment would have allowed voters to be purged from the voter rolls in a way that is consistent with the motor voter law. It required that provisional voting be available for voters whose names have been mistakenly removed from the voter rolls.

Finally, it ensured that these measures are fairly and strictly enforced, by requiring the Attorney General to verify State certification and to enforce the minimum standards. Right now in cities and towns across the country, it remains more difficult to go to the polls to cast your vote than it is to make a simple withdrawal from an

ATM; and there is something very, very wrong with that.

The right to vote is the basic foundation of our rights as American citizens. We need to ensure that every American citizen has access to polling places, is able to cast a secret ballot, and is sure that his or her vote has been accurately counted. This issue is too important to merit anything less than a full and an open debate.

Mr. FROST. Mr. Speaker, I yield 1 minute to the gentlewoman from Missouri (Ms. MCCARTHY).

Ms. MCCARTHY of Missouri. Mr. Speaker, I rise in strong support of H.R. 3295, the Help America Vote Act of 2001. I wholeheartedly endorse the efforts of my colleagues, the gentleman from Ohio (Mr. NEY) and the gentleman from Maryland (Mr. HOYER), and others in this great effort. It is a very important first step in correcting the mistakes made in our election system that were highlighted in the aftermath of the 2000 election.

While many minority groups such as the NAACP and the Council of LaRaza and senior groups have contacted me expressing concerns that the bill might not go far enough, I have seen firsthand the challenges inadequately equipped polling places and poorly trained poll workers pose to their constituencies.

This measure will go far in assuring everyone's right to access to a vote. I pledge to work with my colleagues in moving forward with this legislation and in future efforts to ensure that no voting population is disenfranchised in our democracy, and that every American, regardless of race, disability, age or creed, is afforded an equal opportunity to have their vote counted.

I am very pleased by the cooperative bipartisan effort behind this legislation. I urge support of it and the rule.

Mr. HASTINGS of Florida. Mr. Speaker, I yield back the balance of my time.

Mr. REYNOLDS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, in closing, one of my Democratic colleagues as we voted on this in the Committee on House Administration summed it up so well, so I think the remarks of the gentleman from Ohio (Chairman NEY) that this is not a perfect bill, properly imply, and undoubtedly apply to every bill that has ever been considered in the Congress of the United States.

Having said that, I think this is a good bill. It is worthy of support, and it will move us forward. With 170 cosponsors on this legislation, 108 Democrats, 61 Republicans and one Independent, I believe as we move forward in passing this rule we will have a substantial vote in the affirmative on this legislation, which will move America forward with safe and solid elections.

The most fundamental privilege of American citizenship is the right to

vote. Let us now embrace that spirit of bipartisanship that produced this legislation by supporting this bill and preserving the very integrity of democracy.

Mr. GEKAS. Mr. Speaker, I rise today to express my support for the rule and the bill on election reform, H.R. 3295, brought forward by the Chairman and Ranking Member of the House Administration Committee, Representatives NEY and HOYER.

Mr. Speaker, it is clear that local jurisdictions across America have voter registration rolls that are incomplete and grossly inaccurate. The Ney-Hoyer bill offers some real solutions. A \$2.25 billion election assistance grant program will help States and localities invest in real solutions for their election system and voter registration problems. Further, the bill mandates statewide voter registration databases to enhance accountability and promote accuracy in voter registration. Pennsylvania has already taken this step and is implementing a statewide registration database that conforms with the requirements of Ney-Hoyer. Unfortunately, the Ney-Hoyer bill does not attack the problems associated with the Motor Voter Act (MVA) head on. The bill reaffirms that law and attempts to clarify some of its language regarding the purging of voter registration rolls. However, I believe Congress must reopen the MVA at some point, and I am committed to making that happen.

I am supporting this important legislation as it reflects many of the findings of a Pennsylvania 17th Congressional District Motor Voter Task Force I initiated in the spring of this year. After the last Presidential election, numerous concerns were raised by local election officials, elected representatives and citizens of central Pennsylvania. These concerns focused on the glaring failings of the Motor Voter Act. I believe that H.R. 3295 goes a long way toward addressing some of the most essential concerns raised in my District. While it is not the final answer, it is a good first step. I will vote for this legislation, but I will vigilantly monitor its implementation to ensure that it does indeed help improve the situation. Moreover, I will work to make sure Congress revisits the failings of the Motor Voter Act more specifically in the future.

In May of this year I appointed three local leaders to a bipartisan task force to study the impact of the MVA on our federal elections. Louisa Gaughen, chairperson, Sue Helm and Leon Czikowsky—together with Task Force Coordinator Jordan Olshefsky—engaged in formal hearings, interviews with election officials and fact finding sessions before drafting their report. The Task Force found that the law, "failed in its stated goals, that it incurred great cost to the American taxpayer, that it has made maintaining the voter registration rolls more difficult, and it has facilitated voter fraud." The MVA was touted as a mechanism for increasing voter registration and voter turnout. However, my task force found that, "[w]hile Motor Voter has increased the number of registered voters, it has done little to increase actual voter turnout." Disturbingly, the task force found that registration increases often are explainable by the fact that non-citizens have been registered to vote. Not only does this undermine the integrity of our election system, it also has adverse effects on our

judicial system. For example, all across America jurisdictions use voter registration rolls as a primary source for selecting jurors. A corrupted voter registration list means a corrupted juror pool list.

In fact, the MVA has led to vastly inaccurate and bloated registration rolls. As my task force put it, "[w]hile this Act made it easier to register to vote, it simultaneously made it much more difficult for election officials to remove inactive voters from the rolls." Localities have interpreted the MVA in such a way as to prevent the expeditious removal of names from registration rolls even in cases of death of a registrant because of seemingly contradictory language in the MVA which seems to prevent the removal of a registrant's name upon failure to vote in consecutive federal elections. The Ney-Hoyer bill seeks to clarify this ambiguous language, but based on the recommendations of my task force, I feel Congress will soon have to take a stronger stand. Too many localities have vastly more registered voters than actual, legal voters residing in their jurisdictions. Regular purging of these rolls must happen in order to ensure the credibility of our election system. Ney-Hoyer helps, but we eventually may have to go farther.
